Airport

2/26/2026: The subject applications were reviewed and approved by the AAC.

- Avigation Easement: An avigation easement is recorded, no further action required.
- Accident Potential Zone 1: A portion of the proposed development is within the Accident Potential Zone 1 (APZ-1) subzone of the Commercial Airport Overlay District. Residential use is prohibited in APZ-1; Industrial/Commercial, Office and Park (Conditional Use) development is permissible within the APZ-1 subzone.

Parks

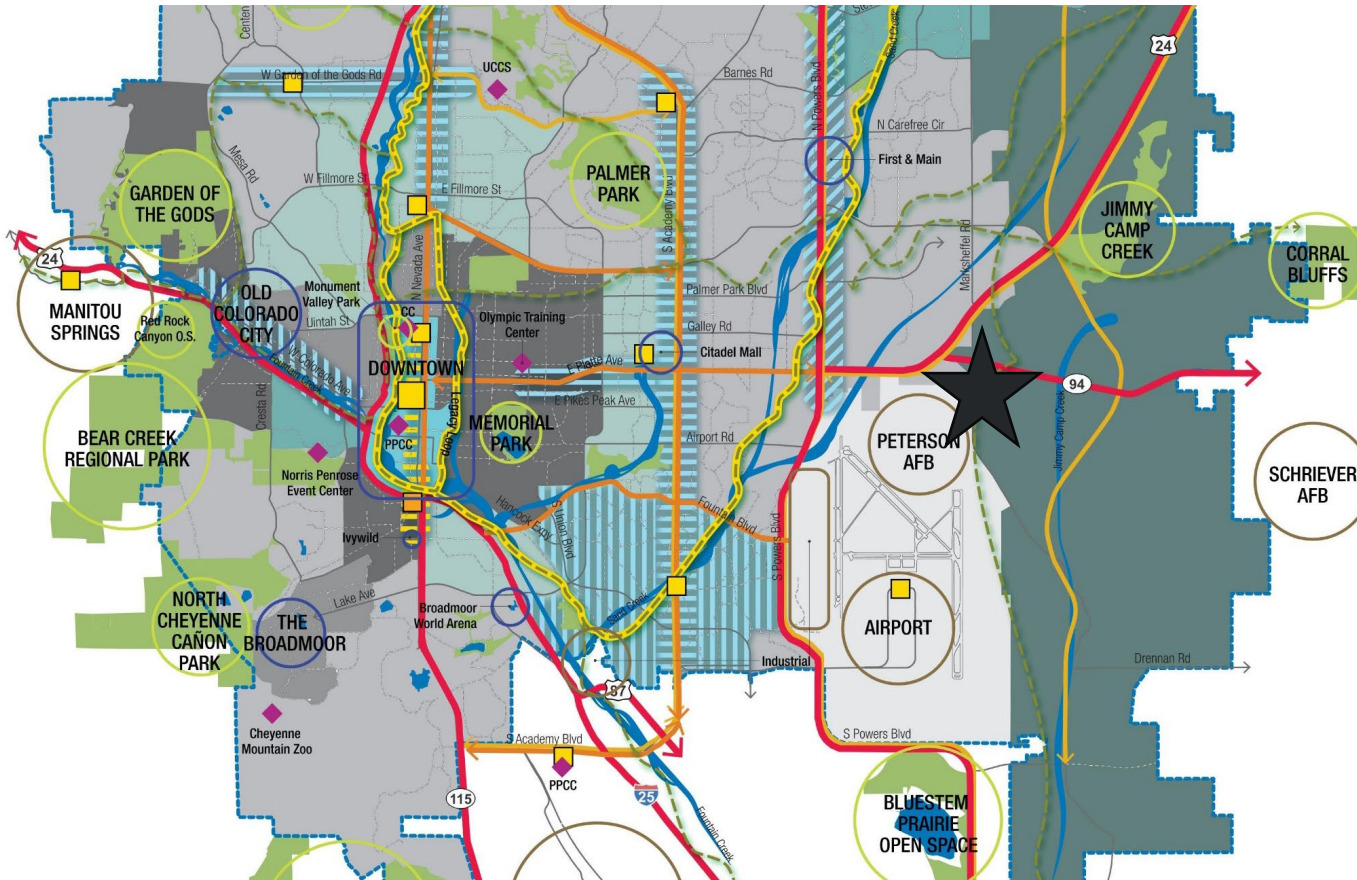

The PK Rezone and associated park site is intended to meet Community Park obligations of the Park Land Dedication requirements detailed within the Reagan Ranch Master and Concept Plan. The Reagan Ranch Master Plan Amendment, CPC MP 87-00381-27MJ20, detailing this park use, was recommended for approval by the Parks Advisory Board.

Peterson Space Force Base

Reagan Ranch Community Park is located within the Federal Aviation Administration (FAA), designated five-mile wildlife hazard review area of Colorado Springs Airport and near active approach and departure corridors for Runway 35R-17L. Due to this location, Peterson SFB has concerns regarding the potential introduction of hazardous wildlife attractants within active airspace. FAA Advisory Circular 150/5200-33C, Hazardous Wildlife Attractants on or near Airports, discourages land uses within five miles of an airport that may increase wildlife hazards to aircraft. Project planning within this area should prioritize aviation safety and minimize wildlife attractants to reduce risks to aircraft operations.
