History & Background

MISSION

We strive to be a leader and convener in cyber education, workforce development, and informing public policy.

Gov. Hickenlooper signs bill for cyber workforce development and research funding

May 30, 2018 Jared Verner

Gov. John Hickenlooper signs SB 18-086 "Cyber Coding Cryptology for State Records" into law May 30, 2018.

The National Cybersecurity Center (NCC) is a 501(c)(3) non-profit for cyber innovation and awareness. Established in 2016 from the vision of United States Senator from Colorado John Hickenlooper, in coordination with several people from the University of Colorado Colorado Springs (UCCS) and the community, the NCC serves both public and private organizations and individuals through training, education and research.

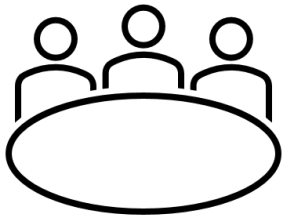
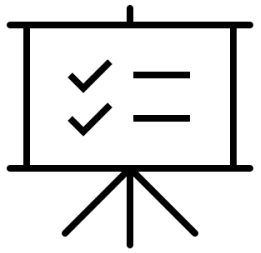
Live Training & On-demand Options



Live Training

Cyber for State Leaders hosts a live training in each state to cover the cyber hygiene training essentials, while also featuring live panel discussions between state leaders on the work that is being done to address cybersecurity challenges and opportunities within the state.



On-Demand

Because legislators and staff are busy, they may not be able to make the live training. Therefore, Cyber for State Leaders offers legislators and staff the ability to take the no more than 1.5 hr training via an online learning management system.

CCRC Mission

The Colorado Cyber Resource Center is a one-stop-shop resource hub providing low-barrier cyber resources to local jurisdictions, school districts, and special districts. All resources are influenced by the Whole of State Working Group and are focused on creating simple and accessible steps to improving Colorado's cybersecurity posture.

Key features: The site will feature up-to-date free resources, access to webinars on best practices, templates and tools for implementing those best practices, as well as a network of peers for ongoing support. We also have a number to help direct folks to the best contacts for various resources as well as support during incidents.

Launch timeline: September – soft launch | October – full launch

The future CTSO for Cybersecurity

COLORADO K-12 CYBER INITIATIVE

- NCC trained over 1000+ students in 2020
- NCCSA is a Cyber Patriot Center of Excellence
- We now have an adult re-skilling program in pilot that has given out more than 100+ certificates (Security+, Network +)
- We directly teach in 3 school districts across Colorado providing hands on cybersecurity education

THANK YOU
NCC
