

# Building Floor Plan

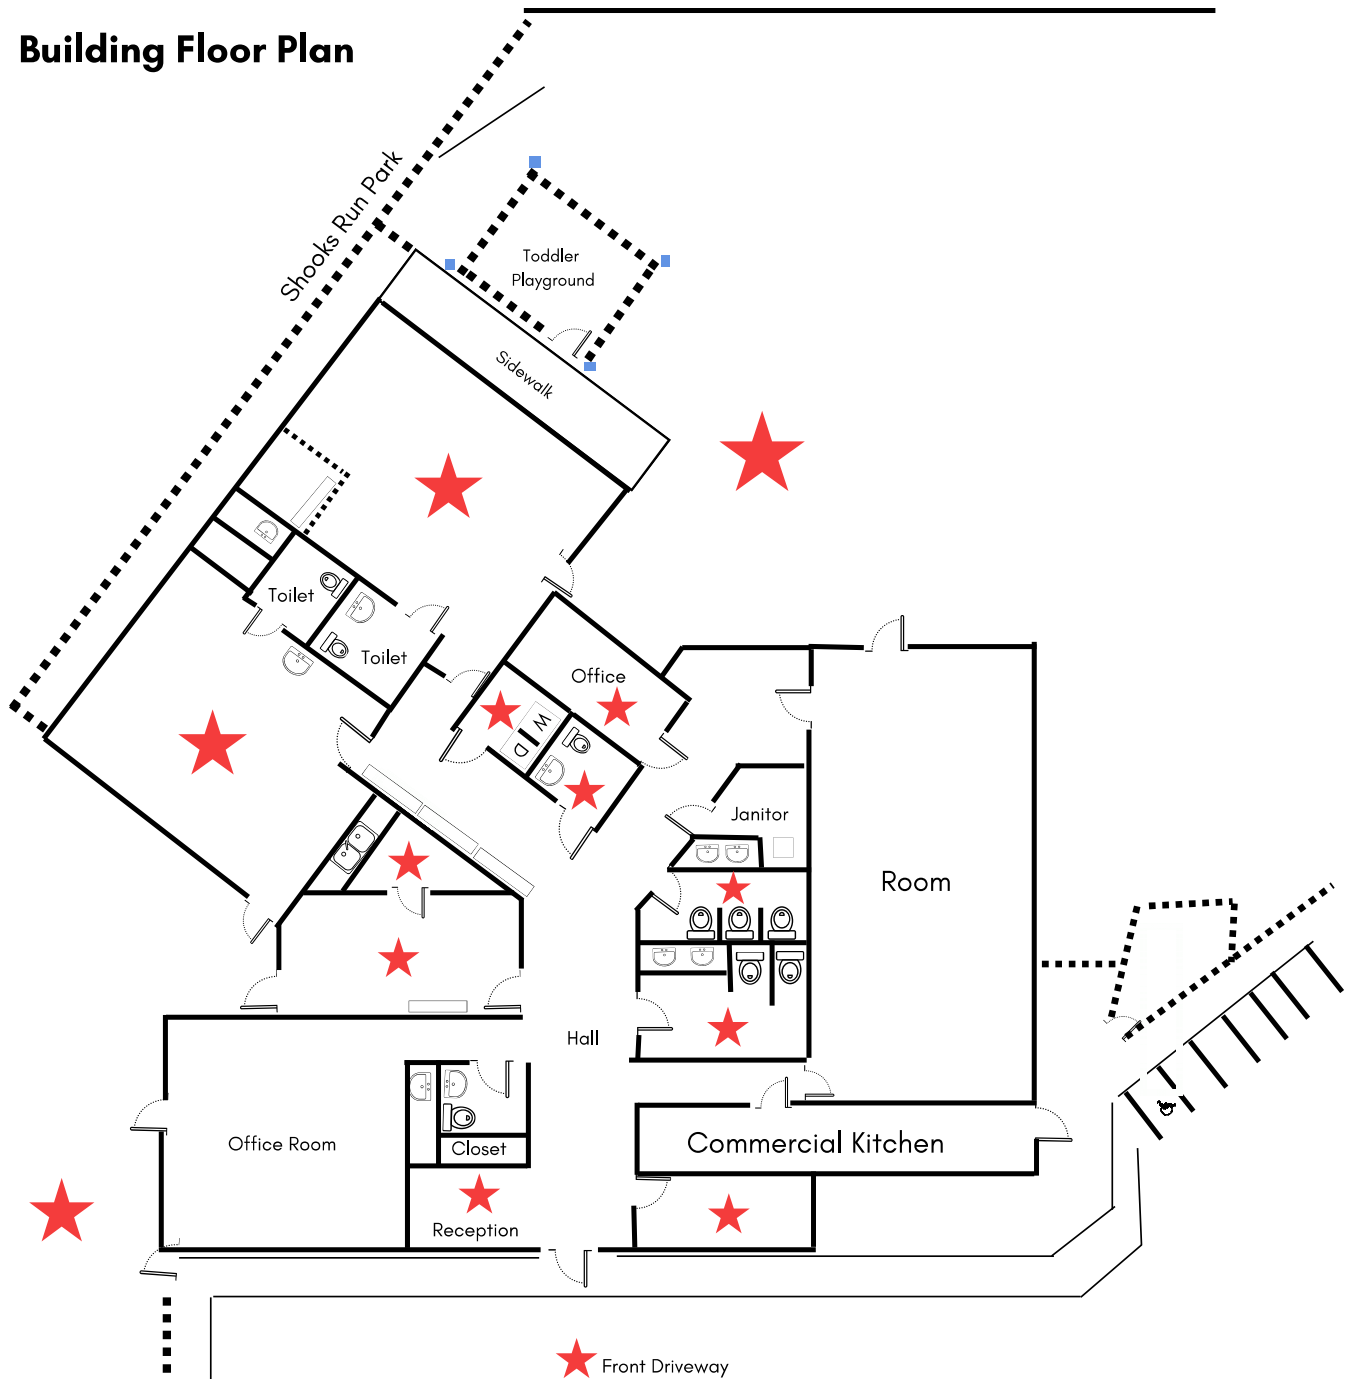

This whole entire fence has a 6ft fence installed with a with a black Privacy Screen 6' x 50' Cover installed with chain hooks.

I rent the entire backyard area. But because this is a playground for 2 years old to 3 years old, I installed a 5 ft. chain link fence with a gate, measuring 5' x 82 ft.... I wanted to enclose the children in a smaller gated area to avoid them from wandering off in such a big play area. There are four, 4x4's installed with cement on each corner of the fence, that is holding up a 6' x 20' UV Block Canopy for shade (per licensing).

This whole entire fence in the front, left side of the building (near Shooks Run Park) has a black 5' x 50' Black Fence Privacy Screen installed with chain hooks. (I wanted to create as much privacy as possible for the kids.)

Every room and area that is marked, is the space that The Lighthouse rents from the owners per our agreement. Operating hours: Monday through Friday, 6:30am to 5:30pm
