**Natural Gas and Facilities Contract Service – USAFA**

Per the applicable contract between Utilities and the United States Air Force Academy the intent of payments under this tariff section are intended to fund the construction of facilities necessary to provide utility service within the geographic confines of the United States Air Force Academy at the exact cost incurred by Utilities. As such payments made by United States Air Force Academy under this tariff provision which exceed Utilities actual cost for construction of the natural gas facilities may be applied to fund remaining balances due for the construction of electric facilities at the United States Air Force Academy.

For the first billing period that begins after July 22, 2014 according to the following schedule for 2014-2015:

**PAYMENT**

Service bills are due and payable within twenty (20) days from date of billing statements.

**DETERMINATION OF BILLING UNITS**

The unit of volume for the purpose of measurement will be a cubic foot of gas at a temperature base of 60 degrees Fahrenheit, a pressure base of 12.01 PSIA, and an average local atmospheric pressure of 11.76 PSIA except for the United States Air Force Academy, which will reflect a pressure base of 11.71 PSIA and an average atmospheric pressure of 11.46 PSIA. The estimated volume of gas that the Customer would reasonably expect to use each month under the Monthly Index Rate Option will be specified by contract. This estimated monthly volume will be the basis for which monthly purchases for the Customer will be made. These monthly volumes will be set by Utilities with the Customer’s concurrence. If more than one primary sales gas meter serves a military installation, the meters will be totalized.
