Unlimited General Obligation Refunding Bonds (Legislative Item)

(Legislative)

Presenter:

Carl Schueler, Comprehensive Planning Manager, Planning and Community Development

Councilmember Murray stated he pulled this item off the Consent Calendar because he has concerns about allowing an unlimited general obligation debt limit, the district should not have exceeded its debt limit to begin with and he wants to avoid setting a precedence of allowing districts to have unlimited debt limits.

Councilmember Pico stated the development is requesting this opportunity to restructure their debt and lower their interest rate, the unlimited debt limit is in keeping with the Colorado State Statutes.

Councilmember Knight asked if there are other districts in the City that have an unlimited debt issuance similar to this one. Carl Schueler, Comprehensive Planning Manager, stated districts generally have mill levy caps placed on them, so the answer to that question is generally no. Councilmember Knight requested Mr. Schueler research this and provide data regarding districts without mill levy caps. He also stated he shares concerns about setting precedence with this action.

Councilmember Pico stated this measure will not allow the district to issue additional debt; this is a refinance of existing debt on a stable and built out district.

Councilmember Bagley stated this is a residential controlled board of directors requesting this initiative.

Citizens Steve Rubin, Stacy Jensen and Arthur Brado spoke in support of the proposal.

Councilmember Collins stated she will support this, although she is not in favor of these districts, she always supports lowering debt.

Citizen Jaymen Johnson spoke in opposition to the proposal.

Ryan Tefertiller, Urban Planning Manager
Peter Wysocki, Planning and Community Development Director

Councilmember Collins stated she feels all parts of the City should be treated equally and this proposal provides special favor to the downtown area.

Councilmember Knight stated he pulled this off the Consent Calendar to request clarification about a questions posed by the Middle Shooks Run neighborhood association. Ryan Tefertiller, Urban Planning Manager, explained there was an error on the masterplan map. This will be corrected. In response to the inquiry about the planned activity center, there are measures in City Code to protect adjacent properties including density restrictions and buffers.

Councilmember Knight also requested additional information about the planned reduction of Cascade Avenue to two lanes. Mr. Tefertiller stated the proposed lane reduction on Cascade Avenue would include the entire downtown segment, adding this is not just to reduce traffic flow, but also to add bike lanes and increase pedestrian traffic. There will be a traffic study done prior to making any changes. Councilmember Knight spoke about the administrative verses legislative control of the changes to be made. If the plan is to reduce Cascade Avenue down to two lanes based on the vote today he cannot support this item.

Jeff Greene, Chief of Staff stated the Staff desire is for Council to approve this proposal today to set the guide for future planning purposes.

Councilmember Knight asked if the TIF included in the plan is a property or sales tax and if it includes a request for an extension of the existing TIF. Mr. Tefertiller stated he believes it is a property tax and a continued use of the TIF that was initialized in 2007. Susan Edmondson with the Downtown Partnership confirmed this is correct.
