<b>EXHIBIT D</b>	Summary of Public Improvements to be Financed by the District and Financing Plan
<b>EXHIBIT E</b>	Description of Permitted Services to be Provided by the District

## **I. INTRODUCTION**

### **A. Purpose and Intent**

The District is an independent unit of local government, separate and distinct from the City, and, except as may otherwise be provided for by State or local law or this Service Plan, its activities are subject to review by the City only insofar as they may deviate in a material matter from the requirements of the Service Plan. As further specified in this Service Plan it is intended that the District will provide and/or finance a part or all of the Public Improvements for the use and benefit of all anticipated inhabitants and taxpayers of the District specifically as set forth in Exhibit D of this Service Plan. Additionally, the District is authorized to provide only those ongoing operations and maintenance functions or services included in Exhibit E of this Service Plan.

### **B. Need for the District**

There are currently no other existing or alternative governmental entities, including the City, located in the immediate vicinity of the District that consider it desirable, feasible or practical to undertake some or all of the planning, design, acquisition, construction installation, relocation, redevelopment, and financing of the Public Improvements needed for the Project or to effectively provide for the ongoing maintenance or operational functions anticipated to be provided by the District. Formation of the District is therefore necessary in order for the Public Improvements required for the Project and/or the operations and maintenance function and services to be provided in the most economic manner possible.

### **C. Objective of the City Regarding District Service Plan**

The City's objective in approving the Service Plan for the District is to authorize the District to provide for the planning, design, acquisition, construction, installation, relocation, and redevelopment of the Public Improvements, and to use available revenues or the proceeds of Debt to be issued by the District for these purposes.

All Debt is expected to be repaid by taxes imposed and collected for no longer than the Maximum Debt Mill Levy Imposition Term for residential properties and at a tax mill levy no higher than the Maximum Debt Mill Levy for commercial and residential properties, and/or repaid by Fees, as long as such Fees are not imposed upon or collected from taxable property owned or occupied by an End User for the purpose of creating a capital cost payment obligation as further described in Section V.B and C and in Exhibit D. Generally, the costs of Public Improvements that cannot be funded within these parameters are not costs to be paid by the District.

Use of the proceeds of Debt by this District shall be limited to planning, designing and engineering and paying for, financing or refinancing costs associated with providing the Public Improvements, necessary to support the Project in a manner consistent with the limitations of the City Charter.

Debt which is issued within these parameters, as further described in the Financing Plan, will insulate property owners from excessive tax and Fee burdens to support the servicing of the Debt and will result in a timely and reasonable discharge of the Debt.

This Service Plan is intended to establish a limited purpose for the District and explicit financial constraints that are not to be violated under any circumstances.

## II. **DEFINITIONS**

In this Service Plan, the following terms shall have the meanings indicated below, unless the context hereof clearly requires otherwise:

The population of the District at build-out is estimated to be approximately 500 people and the total non-residential development is anticipated to be approximately 0 square feet.

## **V. DESCRIPTION OF PROPOSED POWERS, IMPROVEMENTS AND SERVICES**

### **A. Powers of the District and Service Plan Amendment**

The District shall have the power and authority to provide or finance the Public Improvements and related operation and maintenance services within and outside of the boundaries of the District as such power and authority is described in the Special District Act, and other applicable statutes, common law and the Constitution, subject to the limitations set forth herein.

1. **Operations and Maintenance Limitation.** The purpose of the District is to plan for, design, acquire, construct, install, relocate, redevelop, and finance the Public Improvements. The District shall dedicate the Public Improvements to the City or other appropriate jurisdiction or owners association in a manner consistent with the applicable provisions of the City Code. The District shall not be authorized to operate and maintain any part or all of the Public Improvements after such dedication, including park and recreation improvements, unless the provision of such ongoing operation and maintenance is specifically identified in Exhibit E attached hereto. In the City's sole discretion, an IGA between the City and the District may be required in order to better describe the conditions under which these permitted services will be provided by the District. If the District is authorized to operate and maintain certain park and recreation improvements set forth in Exhibit E, any fee imposed by the District for access to such park and recreation improvements shall not result in non-District Colorado Springs residents paying a user fee that is greater than, or otherwise disproportionate to, similar Fees and taxes paid by residents of the District. However, the District shall be entitled to impose an administrative fee as necessary to cover additional expenses associated with non-District Colorado Springs residents to ensure that such costs are not the responsibility of the District residents. All such Fees shall be based upon the determination of the District imposing such fee that such fee does not exceed a reasonable annual market fee for users of such facilities. Notwithstanding the foregoing, all parks and trails shall be open to the general public including non-District Colorado Springs residents free of charge, and District facilities shall not be used for non-public purposes without proper remuneration to the District.

2. **City Charter Limitations.** In accordance with Article 7-100 of the City Charter, the District shall not issue any Debt instrument for any purpose other than construction of capital improvements with a public purpose necessary for development.

This purpose is interpreted to be inclusive of the costs of designing, engineering, and/or financing the Public Improvements as authorized by this Service Plan.

As further set forth in Article 7-100 of the City Charter, the total Debt of any proposed District shall not exceed 10 percent of the total assessed valuation of the taxable property within the District unless approved by at least a two-thirds vote of the entire City Council.

Authority is granted for this District to issue Debt in one or more future phases subject to the limits included in this Service Plan without the requirement for City Council approval at the time of issuance, provided that these issuances are in substantial conformance with the Summary of Public Improvements and Financing Plan included in Exhibit D of this Service

Plan, and also provided that this service plan has been approved by a vote of at least two thirds of the entire City Council.

3. Use of Bond Proceeds and Other Revenue of the District Limitation. Proceeds from the sale of debt instruments and other revenue of the District may not be used to pay landowners within the District for any real property required to be dedicated for public use by annexation agreements or City Code. Examples of ineligible reimbursements include, but are not limited to: the acquisition of rights of way, easements, water rights, land for required stormwater facilities, parkland, or open space, unless consent from the City Council is given. Proceeds from the sale of debt instruments and other revenue of the District also may not be used to pay for the construction of any utility infrastructure except for those categories of utility infrastructure covered by utility tariffs, rules, and regulations.

4. Recovery Agreement Limitation. Should the District construct infrastructure subject to a recovery agreement with the City or other entity, the District may retain all benefits under the recovery agreement. Any subsequent reimbursement for public improvements installed or financed by the District will remain the property of the District to be applied toward repayment of their Debt, if any. Any reimbursement revenue not necessary to repay the District Debt may be utilized by the District to construct additional public improvements permitted under the approved Service Plan.

5. Construction Standards Limitation. The District will ensure that the Public Improvements are designed and constructed in accordance with the standards and specifications of the City and of other governmental entities having proper jurisdiction. The District will obtain the City's approval of civil engineering plans and will obtain applicable permits for construction and installation of Public Improvements prior to performing such work.

6. Developer Funding Agreement Limitation. District Developer Funding Agreements shall be limited to a term of no greater than twenty (20) years, after which time any remaining balances must be either converted to Debt or shall no longer be considered an obligation of the District. Additionally, the interest rate for Developer Funding Agreements shall not exceed the Index Rate by more than 400 Basis Points for the year the Interest Rate is being applied, and interest shall not compound.

7. Privately Placed Debt Limitation. Prior to the issuance of any privately placed Debt for capital related costs, the District shall obtain the certification of an External Financial Advisor substantially as follows:

We are [I am] an External Financial Advisor within the meaning of the District's Service Plan.

We [I] certify that (1) the net effective interest rate (calculated as defined in Section 32-1-103(12), CRS) to be borne by [insert the designation of the Debt] does not exceed a reasonable current [tax-exempt] [taxable] interest rate, using criteria deemed appropriate by us [me] and based upon our [my] analysis of comparable high yield securities; and (2) the structure of [insert designation of the Debt],

including maturities and early redemption provisions, is reasonable considering the financial circumstances of the District.

Related Party Privately Placed Debt shall be issued subject to an optional call date of no more than five (5) years from the original date of issuance, at which time the board of any District(s) obligated for repayment shall be notified of the options for refinancing.

8. Related Party Privately Placed Debt Interest Rate Limitation. The Interest Rate for any Related Party Privately Placed Debt, shall not exceed the Index Rate by more than 400 Basis Points at the time of issuance without prior written consent of City Council.

9. Inclusion Limitation. The District shall not include within any of their boundaries any property outside the Service Area without the prior written consent of the City Council.

10. Overlap Limitation. The District shall not consent to the organization of any other district organized under the Special District Act within the Service Area which will overlap the boundaries of the District unless the aggregate mill levy for payment of Debt of such proposed districts will not at any time exceed the Maximum Debt Mill Levy of the District.

11. Initial Debt Limitation. On or before the date on which there is a Land Development Entitlement, the District shall not (a) issue any Debt; (b) impose a mill levy for the payment of Debt by direct imposition or by transfer of funds from the operating fund to the Debt service funds; or (c) impose and collect any Fees used for the purpose of repayment of Debt.

12. Council Debt Authorization Limitation. The Debt by this District shall be subject to the approval of the City Council concurrent with the time of issuance unless previously authorized subject to Section V.A.2. City Council's review of these proposed Debt instruments shall be conducted to ensure compliance with the Service Plan and all applicable laws.

13. Total Debt Issuance Limitation. Consistent with the information and analysis provided in Exhibit D the District shall not issue Debt in an aggregate principal amount in excess of \$11,900,000, provided that the foregoing shall not include any increase in the principal amount of previously issued Debt directly associated with its refunding or refinancing.

14. Fee Limitation. The District may impose and collect Fees as a source of revenue for repayment of debt, capital costs, and/or for any authorized administrative, operations or maintenance functions. However, no End User Debt Service Fees shall be imposed by the District.

15. Monies from Other Governmental Sources. The District shall not apply for or accept Conservation Trust Funds, Great Outdoors Colorado Funds, except pursuant to an intergovernmental agreement with the City. This Section shall not apply to specific ownership taxes which shall be distributed to and a revenue source for the District without any limitation.

16. Sales Tax Limitations. No District will be allowed to impose a sales tax.

17. Consolidation Limitation. The District shall not file a request with any court to consolidate with another Title 32 district without the prior written consent of the City.

18. Bankruptcy Limitation. All of the limitations contained in this Service Plan, including, but not limited to, those pertaining to the Maximum Debt Mill Levy and the Maximum Debt Mill Levy Imposition Term have been established under the authority of the City to approve a Service Plan with conditions pursuant to Section 32-1-204.5, CRS. It is expressly intended that such limitations:

(a) Shall not be subject to set-aside for any reason or by any court of competent jurisdiction, absent a Service Plan Amendment; and

(b) Are, together with all other requirements of Colorado law, included in the “political or governmental powers” reserved to the State under the U.S. Bankruptcy Code (11 U.S.C.) Section 903, and are also included in the “regulatory or electoral approval necessary under applicable nonbankruptcy law” as required for confirmation of a Chapter 9 Bankruptcy Plan under Bankruptcy Code Section 943(b)(6).

19. Maximum Debt Mill Levy/Maximum Debt Mill Levy Imposition Term. Any Debt, issued with a pledge or which results in a pledge, that exceeds the Maximum Debt Mill Levy or, for Residential Districts, the Maximum Debt Mill Levy Imposition Term, shall be deemed a Material Modification of this Service Plan pursuant to Section 32-1-207, CRS and the City shall be entitled to all remedies available under State and local law to enjoin such actions of the District.

20. Eminent Domain Powers Limitation. The District shall have the authority to exercise the power of eminent domain and dominant eminent domain for the purpose of acquiring property interests for access and infrastructure in, to, through, over, under, across, and around the property in Colorado Springs, Colorado identified as Tract I, Quail Brush Creek Filing No. 2 (El Paso County, Colorado Assessor’s Office Schedule No. 5308201024) and Tract A, Quail Brush Creek Filing No. 4 (El Paso County, Colorado Assessor’s Office Schedule No. 5308311019). For all other purposes, the District shall not exercise the power of eminent domain, except upon the prior written consent of the City.

21. Concealed Carry Prohibition. The District shall not adopt or enact an ordinance, resolution, rule, or other regulation that prohibits or restricts an authorized permittee from carrying a concealed handgun in a building or specific area under the direct control or management of the District as provided in C.R.S. § 18-12-214.

22. Service Plan Amendment Requirement. This Service Plan has been designed with sufficient flexibility to enable the District to provide required services and facilities under evolving circumstances without the need for numerous amendments. While the assumptions upon which this Service Plan are generally based are reflective of a Land Development Entitlement for the property within the District, the cost estimates and Financing Plan are sufficiently flexible to enable the District to provide necessary services and facilities without the need to amend this Service Plan as development plans change. Modification of the general types of services and facilities, and changes in proposed configurations, locations, or dimensions of various facilities and improvements shall be permitted to accommodate development needs consistent with then-

current Land Development Entitlements for the property. Actions of the District which violate the limitations set forth in V.A.1-21 above or in V.B-K shall be deemed to be Material Modifications of this Service Plan and the City shall be entitled to all remedies available under State and local law to enjoin such actions of the District.

B. Preliminary Plan for Public Improvements

The District shall have authority to provide for the planning, design, acquisition, construction, installation, relocation, redevelopment, maintenance, and financing of the Public Improvements within and outside the boundaries of the District, to be more specifically defined in a Land Development Entitlement. An estimate of the costs of the Public Improvements which may be planned for, designed, acquired, constructed, installed, relocated, redeveloped, maintained, or financed was prepared based upon a preliminary engineering survey and estimates derived from the Land Development Entitlement on the property in the Service Area and is approximately \$10,360,595 and is further described in the Summary of Public Improvements included in Exhibit D.

The summary of Public Improvements shall include an estimate by category, of the quantities and projected costs of all Public Improvements potentially eligible for District cost reimbursement or financing by the District.

The location and anticipated phasing of major Public Improvements should also be depicted on a map of the Service Area. Cost estimates may allow for reasonable contingencies and for projected inflation to then-current dollars expected at the projected time(s), of the issuance of Debt and construction.

All of the Public Improvements described herein will be designed in such a way as to assure that their standards will be compatible with those of the City and shall be in accordance with the requirements of the Land Development Entitlement, subsequent City approvals, City Code or other applicable regulations and criteria. All descriptions of the Public Improvements to be constructed, and their related costs, are estimates only and are subject to modification as engineering, development plans, economics, the City's requirements, and construction scheduling may require.

C. Financing Plan

The Financing Plan for the District shall be included in Exhibit D and shall be provided in a form that projects the anticipated amount(s) and timing of issuance of Debt through the life of District based on projected development or redevelopment absorption and projected available District revenues as constrained by Service Plan limits including the Maximum Debt Mill Levy and the Maximum Debt Mill Levy Term for Residential Districts.

The projected costs from the Summary of Public Improvements and the Financing Plan shall provide the basis for the Total Debt Issuance Limitation in Section V.A.14.

D. Maximum Interest Rate

The Interest Rate on any Debt is expected to be at or below the market rate at the time the Debt is issued. Debt, when issued, will comply with all relevant requirements of this Service Plan, State law and Federal law as then applicable to the issuance of public securities.

E. Limited-Default Provisions

Debt issued by a District shall be structured so that failure to pay debt service when due shall not of itself constitute an event of default or result in the exercise of remedies. The foregoing shall not be construed to prohibit events of default and remedies for other occurrences including, without limitation, (1) failure to impose or collect the Maximum Debt Mill Levy or such portion thereof as may be pledged thereto, or to apply the same in accordance with the terms of the Debt, (2) failure to impose or collect other revenue sources lawfully pledged to the payment thereof or to apply the same in accordance with the terms of the Debt, (3) failure to abide by other covenants made in connection with such Debt, or (4) filing by a District as a debtor under any bankruptcy or other applicable insolvency laws. Notwithstanding the foregoing, Debt will not be structured with a remedy which requires the District to increase the Maximum Debt Mill Levy in any District or, in Residential Districts, the Maximum Debt Mill Levy Imposition Term.

F. Eligible Bondholders

All District bonds or other debt instrument, if not rated as investment grade, must be issued in minimum denominations of \$100,000 and sold only to either accredited investors as defined in rule 501 (a) promulgated under the Securities Act of 1933 or to the developer(s) of property within the District.

G. Maximum Debt Mill Levy

The “Maximum Debt Mill Levy” is the maximum mill levy a District is permitted to impose upon the taxable property of the District for payment of Debt, and shall be determined as follows:

A. For this District and any overlapping Combinations of Districts, the Maximum Debt Mill Levy shall be calculated as follows:

(a) The Maximum Debt Mill Levy certified for any District or Combination of Districts shall be limited to no more than 50.0 mills. This levy may be subject to upward or downward adjustments addressing any constitutionally mandated change in assessment ratios, tax credit, cut or any abatement occurring after, but not before July 12, 2022.

(b) At such time as the Debt to Actual Market Value Ratio within the District is equal to or less than three percent (3%), the Board may request City Council approval for the right to pledge such mill levy as is necessary to pay the Debt service on such Debt, without limitation of rate. At the time of such request, a majority of the members of the Board must consist of Resident Board of Directors Members. Once Debt has been determined to meet the above criterion, so that the District is entitled to pledge to its payment an unlimited ad valorem mill levy, such District may provide that such Debt shall remain secured by such unlimited mill levy, notwithstanding any subsequent change in such District's Debt to Actual Market Value Ratio.

H. Maximum Operating Mill Levy

In addition to the capital costs of the Public Improvements, the District will require operating funds for administration and to plan and cause the Public Improvements to be constructed.

Additionally, the District may also require ongoing revenues for the maintenance of properties or facilities and, for ongoing services and functions as authorized in Exhibit E. The first year's operating budget is estimated to be \$250,000 which is anticipated to be derived from property taxes and other revenue which may include advances associated with Developer Funding Agreements.

The Maximum Operating Mill Levy for the payment of Residential District administrative, operating or maintenance expenses shall be 20.0 mills; provided this levy may be subject to upward or downward adjustments addressing any Mill Levy Adjustment or any abatement occurring after, but not before July 12, 2022.

The Maximum Operating Mill Levy for the payment of Commercial District administrative, operating or maintenance expenses shall be 10.0 mills unless justification supporting a higher mill levy is included as part of the District's financial plan; and also provided that this levy may be subject to upward or downward adjustments addressing any Mill Levy Adjustment or any abatement occurring after, but not before July 12, 2022.

I. Maximum Overlapping Mill Levies for a Combination of Districts

Neither the Maximum Debt Mill Levy nor the Maximum Operating Mill Levy shall be exceeded in the aggregate by any Combination of Districts except as expressly approved by City Council based on unique or special circumstances or if one or more of the Combination of Districts or another overlapping District has been ordered by a court having jurisdiction to impose a specified mill levy in order to satisfy a judgement or bankruptcy plan.

J. Maximum Debt Mill Levy Imposition Term

Residential Districts shall not impose a Debt Service mill levy which exceeds 40 years after the year of the initial imposition of such Debt Mill Levy unless (1) a majority of the Board of Directors of the District imposing the mill levy are Resident Board of Directors Members, and (2) such Board has voted in favor of issuing Debt with a term which requires or contemplates the imposition of a Debt service mill levy for a longer period of time than the limitation contained herein. There shall be no Maximum Debt Mill Levy Imposition Term in Commercial Districts.

K. Debt Instrument Disclosure Requirement

In the text of each Bond and any other instrument representing and constituting Debt, the District shall set forth a statement in substantially the following form:

By acceptance of this instrument, the owner of this Bond agrees and consents to all of the limitations in respect of the payment of the principal of and interest on this Bond contained herein, in the resolution of the District authorizing the issuance of this Bond and in the Service Plan for the District.

Similar language describing the limitations in respect of the payment of the principal of and interest on Debt set forth in this Service Plan shall be included in any document used for the offering of the Debt for sale to persons including, but not limited to, a developer of property within the boundaries of the District.

L. Security for Debt

No Debt or other financial obligation of any District will constitute a debt or obligation of the City in any manner. The faith and credit of the City will not be pledged for the repayment of any Debt or other financial obligation of any District. This will be clearly stated on all offering circulars, prospectuses, or disclosure statements associated with any securities issued by any District.

M. Developer Financial Assurances

The mere existence of the District will not be considered a substitute for financial assurances required under applicable City land use ordinances and regulations.

**VI. ANNUAL REPORT**

A. General

Consistent with Section 32-1-207(3)(c)(II), C.R.S. each District shall be responsible for submitting an annual report to the City Clerk no later than October 1 of each year following the year in which the Order and Decree creating the District has been issued. The District may cooperate with other related Districts in the creation and submittal of the report, provided the presentation of information in the report clearly identifies the applicable information pertaining to this District. The report may be submitted in electronic format as long as it and its associated documents are also available on the District's website.

B. Additional City Annual Report Requirements.

In addition to the annual report requirements as required by Colorado Revised Statutes, the City may adopt additional requirements by separate Council resolution, with such requirements being binding upon this District.

**VII. DISTRICT WEBSITES**

The District shall require to establish and maintain a website consistent with provisions Section 32-1-104.5 C.R.S., as currently drafted or amended in the future. In addition to the requirements as set forth by statute, the applicable contents of this site shall be in place and available prior to property being sold or conveyed to an End User.

To the extent not already required by Colorado Revised Statutes, the City additionally requires the following information:

A. Copy of the District's most recent service plan, operating plan and budget, along with a brief and clear description of their role and purpose.

B. Board members should be distinguished as either Developer or Resident Board Members.

C. A summary of the existing and potential future primary functions and services of the District.

D. It is recommended, but not required that the District's website include a clear listing or graphic depiction of any facilities or properties owned or maintained by the District(s).

E. Clear and simple summary of the existing and projected financial obligations of District tax and/or fee payers to include:

F. Existing or future mill levies, their purposes, how long they are expected to be in place, and likelihood of increases or decreases.

G. Summary of outstanding long term financial obligations of the District including Debt and Developer Funding Agreements with terms and interest rates.

H. Statement as to whether additional Long-Term Financial Obligations are, are not or may be anticipated by the District.

I. Copies of or links to all current intergovernmental agreements (IGAs).

#### **VIII. DISCLOSURE TO PURCHASERS**

The District will use reasonable efforts to assure that all developers of the property located within the District provide written notice to all purchasers of property in the District regarding the Maximum Debt Mill Levy, as well as a general description of the District's authority to impose and collect rates, Fees, tolls and charges.

#### **IX. DISSOLUTION**

Upon an independent determination of the City Council that the purposes for which the District was created have been accomplished, the District agrees to file petitions in the appropriate District Court for dissolution pursuant to the applicable State statutes. In no event shall a dissolution occur until the District has provided for the payment or discharge of all of its outstanding indebtedness and other financial obligations as required pursuant to the C.R.S.

#### **X. CONCLUSION**

It is submitted that this Service Plan for the District, as required by Section 32-1-203(2), C.R.S. along with additional information as may have been provided with the petition for this Service Plan establishes that:

A. There is sufficient existing and projected need for organized service in the area to be serviced by the District;

B. The existing service in the area to be served by the District is inadequate for present and projected needs;
