Britt Haley, Director, Parks, Recreation and Cultural Services Department, provided a briefing on the Trails, Open Space and Parks (TOPS) program and the proposed 2023 ballot question to extend the TOPS Sales and Use Tax Program. She gave a brief overview of the history and accomplishments of TOPS, draft ballot question, decision timeline, next steps, and suggested ballot question changes.

President Pro Tem Helms asked if the Administration supports seventy-five percent of funds to be spent on acquisition and new space. Mayor Suthers stated he supports seventy-five percent of funds being spent on the category of open space but does not support the word “open space” being struck out.

Councilmember Williams stated he supports this initiative.

Councilmember O’Malley stated he agrees with Mayor Suthers’ statement.

Councilmember Henjum stated the fundamental concern is the protection of acquisition funds and requested a list of definition for terms such as stewardship, restoration, maintenance, etc. Ms. Haley stated the minimum of seventy-five percent of funds to be spent on acquisition and new space has satisfied the former TOPS Working Group Chairs and they will be fine tuning the language.

Councilmember Henjum asked if the General Fund has enough funding to address the maintenance of parks. Ms. Haley stated they need to look at the bigger picture with other funding sources to address all the needs of the parks.

Councilmember Donelson requested a breakdown of how TOPS revenue can be spent. Ms. Haley stated three percent goes to administration, six percent goes toward stewardship and maintenance, and the remaining balance is divided into twenty percent for trails, twenty percent for parks, and sixty percent for open space.

President Strand stated some of the guardians of open space have concerns that the City has become too open-ended with inadequate

safeguards for the open space acquisition account and that the General Fund should provide the funds needed for the maintenance of parks. Ms. Haley stated there are many built-in protections in the TOPS Ordinance, TOPS Working Committee, Parks Advisory Board, City Council approval, Mayor approval, and it is audited every two years.

President Strand asked when the Parks Advisory Board will review this item. Ms. Haley stated they have been discussing a special meeting directly after the TOPS Working Committee meeting on January 4, 2023.

President Pro Tem Helms stated he is confused as to why some individuals who support TOPS are considering opposing this initiative.

Councilmember Henjum asked when City Council can begin looking at a long-term strategy for supporting the parks system in the City's budget. Ms. Haley stated one of her priorities is to produce a plan for the deferred maintenance backlog.

He gave an overview of the purpose, history, and vehicle pursuits.

President Pro Tem Helms suggested the CSPD utilize a helicopter in respect to vehicle pursuits.

Councilmember Donelson asked what the penalty is for someone who runs from the police. Deputy Chief Edmondson stated eluding is a felony offense, but it is very difficult to track down those vehicles. Shantel Withrow,

Division Chief, Prosecution Division, City Attorney's Office, stated the penalty depends on whether or not there are additional charges, or the type of behavior exhibited when fleeing. She stated a traffic eluding by itself would be municipal misdemeanor up to 189 days in jail and twelve points on their license which would result in a license suspension.

Ms. Withrow went over the original Ordinance, implementation questions/concerns, major changes, definition, and process chart.

President Strand asked what can be done regarding vehicular racing on private property. Deputy Chief Edmondson explained that they give them the best information on how to address the situation, but CSPD is limited due to it being on private property.
