Some of the common comments. Save the views of the mountains. Traffic is too much of a problem. No westbound fire escape routes. Tourists would rather see the mountains instead of high-density housing. Testimony of bighorn sheep on the property.

There is NOT proper fire escape plans to increase the density of this area!!

Noooo!!!

1. The eastbound traffic on GOG at 5PM is horrible. GOG cannot support that many new vehicles in that area. 2. I worked at MCI for 5 years. During that time I would frequently see bighorn sheep negotiating the hogback ridge right above the area in which they want to build.

Oh my gosh, what will this development do to 30th Street? Hasn't Mountain Shadows neighborhood been through enough with a catastrophic fire happening a mere 8years ago? I also have a serious interest with the Rocky Mountain Bighorn Sheep herd that regularly grazes through the proposed development area. Have YOU ever travelled along 30th Street during tourist season with the literally millions of tourists descending upon Garden of the Gods? I do. I volunteer at the Garden of the Gods Visitor and Nature Center. What you propose will create a nightmare scenario to visitors and residents alike. By the way, tourist season extends far beyond the summer months. The city touts the best city park in the United States, yet due to nearly non-existent tax revenue, can't support the infrastructure needed to get to the park, much less maintain the park. Oh, right, 30th Street will begin to get badly needed improvements, tying up the street for 18 months - 2 years. Please do not approve this development.

WILDLIFE: The City's responsibility is to comply with the "Colorado Bighorn Sheep Management Plan" and Governor's Executive Order to PROTECT iconic wildlife including bighorn sheep.

I worked in the Verizon building. Traffic congestion was pretty bad during rush hour (pre-pandemic) Can't imagine how much worse it would be by adding all the extra people/cars. I'm all for in-fill rather than urban sprawl, but I don't think this particular squeeze in is a good plan/idea.

While I am not a resident , I am a regular visitor to the Colo. Springs area. In particular this district..what you are considering to do to this area, while lining the pockets of the developer, will have a negative impact on the entire reason many thousands of people visit Colorado. The views!!! Untouched , preserved to be enjoyed for not just a few moments but an entire lifetime..it saddens myself and countless others to see what over developing has done to our " hometown ". Please please stop this from happening!!

Please don't destroy the amazing views of one of the most beautiful places on this earth. Every single time I come home, my family and I visit Garden of the Gods. My family that still lives in Colorado Springs visit the park all the time. I married my amazing husband with Garden of the Gods and Pikes Peak in the background. Blocking the views would be a terrible shame.

Please do not do this! I have worked in the Verizon building for 25 years and it sits on a beautiful piece of property! We see wildlife all the time. Don't invade their territory. Boo. Tell the developers to build somewhere else

Please do not spoil this beautiful natural park. My husband and I visited there when visiting family in Colorado Springs. It holds a special place in my heart.

PETITION to Stop the Zone Change at 2424 Garden of the Gods Rd.

A developer filed plans with City Planning to build 450 multi-family units, with a maximum height of 45 feet, at 2424 Garden of the Gods Rd along 30th St.

By completing this PETITION and clicking "Submit", you are at least 18 years old and OPPOSED to the proposed Concept Plan, Zone Change, and Master Plan Amendment that allows this development for reasons listed below. (Your information will NOT be sold.)

One entry per person, per property, where you own or rent. Your significant other may participate separately. Please share this link with others.

IMPORTANT: You can also help by dialing in to the Planning Commission public hearing to listen to their decision. January 21, 2021 at 8:30am. This topic is scheduled to start at 9:00am. +1 720-617-3426 Conference ID: 815 13 701 #

Thank you for your support,

You can also help by sending your opposition email to your City Council Member & At Large Members. Find your Council Members email at [City Council email](#). If you don't know your Council Member, go to this map "[City Council Districts](#)" and type your address.

1. **VIEWS:** The City's responsibility is to comply with Hillside Development & PlanCOS guidelines to protect hillside overlays and "Majestic Landscapes" at the west end of Garden of Gods Road, 30th St, & Flying W. Ranch Rd.
2. **PARKS:** There are not enough parks in this area, Central West. The City's responsibility is to comply with the proposed Parkland Dedication Ordinance goal of 5.5 acres/1,000 people. A one-time catch-up acquisition of this property will increase the City's lowest ranked 2.0 acres/1,000 people.

NOTE: High-density housing without a SIGNIFICANT addition of parkland reduces the number of parkland acres per person.

3. WILDLIFE: The City's responsibility is to comply with the “Colorado Bighorn Sheep Management Plan” and Governor's Executive Order to PROTECT iconic wildlife including bighorn sheep.

4. TRAFFIC: High-density housing along with 6 million Garden of Gods visitors per year will increase traffic. Currently, there is little to no bicycle infrastructure (signs, bike lanes, safe continuity between roads and bike paths), it is the City's responsibility to protect cyclists & improve traffic flow for motorists by adding the proper infrastructure.

5. POPULATION & CRIME: Approximately 30% increase to Mountain Shadows population in this small area will increase opportunity crimes and added stress on natural & public resources. High Density Residents could damage the hillside and trespass onto the Navigators & Flying W. Ranch properties, as no Park Space has been allocated.

6. FIRE SAFETY: Increased population exacerbates evacuation in the event of fire (Ref. Waldo Canyon wildfire 2012 – 2 people perished & 346 homes destroyed. Plus, 5 local wildfires in 5 weeks in the fall of 2020).

We worked hard to purchase this house in THIS neighborhood and now you want to rezone a piece of land that will change EVERYTHING about my way of life? Those land owners bought this land knowing the zoning would have to change for them to do what they wanted all along and this is unjustified!

Don't ruin the beautiful views going into GoG's park for money.

Please don't ruin our neighborhood, the nature corridor and our community. The residents of Mountain Shadows should be considered first, after all we are the ones that live here. It was zoned before we all bought our homes, it shouldn't even be a consideration to change it unless it's agreed upon by the residents, not developers.

Our community of Mountain Shadows is currently in drought and no doubt, 2021 will be marked by serious wildfires in conjunction with tremendous wind speeds. We have already experienced the trauma

and very panicked exodus evoked as a result of the Waldo Canyon wildfire entering our neighborhood June 23, 2012; the stress endured, the traffic delays, bottlenecks, lives lost and evacuation that ensued for weeks. It will never be forgotten.

In Mountain Shadows bottlenecks can easily occur. Flying W Ranch creates excessive tourist traffic to the north with cars turning south onto Flying W Ranch Road. Just a bit further to the south, cars emerging from The Navigators trying to turn onto N30th street in either direction can barely find a break in traffic in order to do so. Garden of the Gods also creates a large amount of ensuing traffic in the neighborhood.

On Flying W Ranch Road, mule deer and other wildlife are a regular occurrence. No one complies with the 30 mph set speed limit heading south down the steep hill, thereby increasing the possibility of traffic accidents and deadly wildlife encounters. This scenario and excessive speeding also creates a dangerous situation for pedestrians, especially when walking pets and encountering wildlife. Inadvertently disturbing panicked deer can send them into oncoming speeding traffic creating hazards or, in the process of trying to avoid any such encounters with unpredictable wildlife, pedestrians are forced to walk into the road, attempting to cross a busy street with oncoming, speeding traffic. Nor is there a pedestrian crossing at Chuckwagon Road that would permit a safe crossing where the Flying W Ranch traffic emerges from.

Our local Mountain Shadows park is a very small one, already overtaxed with various user groups. Chipeta Elementary, the local school, cannot accommodate the resulting influx of students the proposed rezoning and a subsequent multi-plex housing development would create. As previously mentioned, this area of Mountain Shadows is already bottle-necked, north and south, both Flying W Ranch road and North 30th St. excessively busy during peak rush hours with drivers ignoring the set 30 mph speed limit on Flying W. It is only a matter of time before there is a human fatality. God help us if impending climate change, drought, high winds, and wildfires force us to once again have to evacuate this neighborhood. The prognosis for this very scenario to be actualized in the near future is a very likely one .

In short, this proposed rezoning and the inevitable urban development that would follow, benefits no one with the exception of the developer and perhaps inevitable future opportunistic crime. For everyone else, the proposed rezoning and development is an unwanted and unthinkable detriment, providing no benefit whatsoever to the community. Mountain Shadow's current populace, its already inadequate park, the current congested traffic and disrespectful, speeding drivers it endures; its fire threatened, fire ravaged landscape, proliferous wildlife, trails, aesthetics, elementary school etc., all of these, would only be **NEGATIVELY** impacted, marred by further overuse; existing resources and means already inadequate and insufficient to cope with the current demand being placed upon it.

The Re-zoning Proposal of 2424 at Garden of the Gods Rd. should immediately be rejected and quashed by City Council; for the sake of the land, the wildlife and the safety of the community itself. Indeed, the fact that this proposal was surreptitiously "ramrodded" upon our Mountain Shadows community without proper notice or consideration given, nor input from the community and is already currently under review by OUR Representative City Council is both appalling and deeply disturbing.

Thank you for the opportunity to provide feedback for this important upcoming legislation.

Sincerely,

Barbara Wood

Traffic is already a problem in the area, we do not need any more buildings nor people!
We do not need the increase in Crime with more population in the area!
In case of emergency we already have a problem with evacuation
We like to prevent the zoning change to preserve the beautiful views that tourist and residents enjoy.
The new construction/buildings/people would invade the Wildlife Area!
Please consider all the negative influences the re-zoning would have.

I am very concerned about these apartments. Parking has never been addressed. The wildlife which is so vital to the Garden of the Gods park and the national forest will likely be so stressed they will die. Traffic, and not just emergency traffic, is backed up sometimes for a mile. The fire departments and police are overworked and taking way too long to get to destinations. We hear crime doesn't go up, prove it by giving us data. Where are these people going to work. Garden of the Gods corridor is dead. The prime companies that were here when Mountain Shadows was built are all gone. Buildings are empty. Covid taught us that we CAN work from home so the chances the buildings will fill up is fairly low. Maybe some of these people can work from home, but we need housing for low income close to where they work. Not clear across town. The whole idea of these apartments is the poorest investment I can imagine. I live here, I know what goes on here, I know the schools, the stores, and the empty buildings. I see for rent signs on apartments all over town. In fact I can't think of an apartment building that doesn't have an available sign on it. Please Please Please listen to the people who live here. We know what is needed.

It will also greatly increase the traffic that will not be controlled . It will interfere with the protected herd of Big Horn Sheep . If a terrible wild fire happens again the evacuation will be very dangerous and possible lives lost. Please do not ruin our beautiful neighborhood . Find another answer.

We are residents of Mountain Shadows and would like to state our opposition to all new development at 2424 Garden of the Gods Road for the following reasons:

- The proposed addition of 572 multi-family units, and potential for eventual development of 3750 units, is completely inconsistent with the overall theme of this area. Mountain Shadows is long-established and not intended for high density housing.
- This significant increase in residents will create an enormous traffic problems on Garden of the Gods Road and 30th Street. This is not good for current residents or for tourism. Increased traffic also impacts the safety of bicyclists, joggers, and wildlife as well as quick evacuation of Mountain Shadows in the event of fire. Are there plans to improve the infrastructure and would such plans detract from the natural beauty of the area?
- The increase in families will be an issue for already overcrowded schools. Are there plans to address this?
- With units estimated to be 45 feet in height, they will block views of the natural extension of Garden of the Gods Park and Navigators which provide a nice scene as tourists as they approach the Park, one of the city's key attractions and landmarks.
- There already are sufficient multi-family complexes around this area and an unattractive high density mega community is not needed.

I would appreciate if the Planning Commission and City Council would consider the many concerns of current residents and deny approval of this new development.

There are so many problems with this project:

1) As someone who sat in traffic for two hours trying to escape the Waldo Canyon Fire from my home in Oak Valley Ranch, the traffic situation is unconscionable. The city has done NOTHING to remedy issues of access for the current residents. And a traffic study during a pandemic is a farce.

2) Property crime and police response times are egregious for the number of people currently living in the area. I had Christmas decorations stolen, called CSPD, and was laughed at by a detective. I am not sure they can handle increased population and the support currently not being supported in the community.

3) Wildlife is what makes this area an awesome place to live. Having a resident Big Horn Sheep herd, a protected herd, is what it means to live on the west side. Residents learn how to respect and live with bears, coyotes, deer, etc. More people, and people ignorant of wildlife, means more needless animal fatalities.

4) Light pollution.

Until the city addresses a myriad of deficiencies and willful greed, this project is nothing more than a land grab.

This area is a gateway to a National Landmark that people visit from all over the world. The city master plan and zoning were already in place when this out-of-state developer bought the property. Their zoning and plan changes should be denied. There are many other areas for housing without destroying this national landmark gateway, and the Big Horn Sheep habitat. Moreover, it is beyond comprehension that planners would also place the lives of established residents at greater risk by substantially increasing density; especially when the area was bottlenecked with gridlock traffic during the Waldo Canyon fires.

In many cities these foothills areas are restricted from building as they are significant ecological areas. Remember the WALDO CANYON fire?! This area has not recovered. This is a travesty to the residents of Mt Shadows!

Have we not suffered enough during the Waldo Canyon fire?!

We personally lost the home we raised our five children in as well as all our mature Pune trees.

We lost our neighbors as they did not move back after losing their homes.

We left our home with a warning from a police car flying up our street yelling thru a bullhorn "get out immediately you are

In imminent danger!"

We were stuck in traffic trying to get out in centennial with the fire roaring down the hill right next to our car. It was terrifying!!

I am opposed to this rezoning. The Waldo Canyon fire evacuation traffic was horrendous and it will get even worse with the addition of this project. The wildlife needs to be protected not constantly encroached upon. As a resident of this area for almost 40 years the growth is not attracting the right neighbors, it has created mattresses, tires, and trash thrown out in the foothills, an increase in the crime rate as well as piles and piles of dog poop not picked up. The growth needs to be done responsibly and a 450 multi family unit complex will add to these issues and not help!

The traffic around Flying W and 31st is already high volume. Adding more living space will overwhelm the streets.

As far as the wildlife, I fear it will decimate the habitats. I love seeing the Big Horn Sheep, the red tail hawks, turkey, mule deer, the coyotes, bobcats and yes even the bears.

We take pride on the west side to see the wildlife and know that we live on the edge of the nation forest. It would be a shame to populate this area.

Absolutely appose this change in zoning. Make the area a park with large one acre high-dollar SINGLE FAMILY HOMES. Otherwise, leave it alone. Its too crowded in all our west side parks. It has become ridiculously crowded over here. The traffic is a massive concern. The impact of the "luxury" homes off centennial have not been realized yet. They are four plexes! Luxury homes. We were lied to before. DO NOT PLEASE DO NOT rezone 2424. THANKS!

We have lived here since 1997. Our house burned down in the Waldo Canyon wildfire. Many residents had trouble getting out because of mandatory evacuations with little warning. It was so scary and with that many more people in our community evacuations would be difficult and lives could be lost due to traffic congestion. Traffic on Garden of the Gods is already horrendous. I can't imagine how horrible it would get if this development proceeds. We were devastated after losing our home and we're not sure about our future. A visit to our lot and the beautiful views along with the wildlife sightings of big horned sheep were the reasons we chose to rebuild.

My spouse and I feel the development of "2424 Garden of the Gods" will alter the intrinsic beauty of this intersection and the surrounding area of the West side of Colorado Springs. The increase in traffic will make the almost pristine entryway to the Garden of the Gods unattractive and crowded, noisy and dangerous in the event of any evacuation. The planned reconfiguration of 30th Street will not ameliorate these concerns.

Why add more traffic to a street backed up daily (pre-Covid) at rush hours between 30th Streets to Nevada Ave? Why change a master plan that the residents bought into previously? Why disrupt the pathway of our big horn sheep? Even though you may not live in the area, why not understand that some things are more important to our city than out of state money from those who have no vested interest in our natural beauty?

I am OPPOSED to the proposed Concept Plan, Zone Change, and Master Plan Amendment that allows the development/zone change at 2424 Garden of the Gods Road for the following reasons:

1. VIEWS: The City's responsibility is to comply with Hillside Development & PlanCOS guidelines to protect hillside overlays and “Majestic Landscapes” at the west end of Garden of Gods Road, 30th St, & Flying W. Ranch Rd.

2. PARKS: There are not enough parks in this area, Central West. The City's responsibility is to comply with the proposed Parkland Dedication Ordinance goal of 5.5 acres/1,000 people. A one-time catch-up acquisition of this property will increase the City's lowest ranked 2.0 acres/1,000 people. NOTE: High-density housing without a SIGNIFICANT addition of parkland reduces the number of parkland acres per person.

3. WILDLIFE: The City's responsibility is to comply with the “Colorado Bighorn Sheep Management Plan” and Governor's Executive Order to PROTECT iconic wildlife including bighorn sheep.

4. TRAFFIC: High-density housing along with 6 million Garden of Gods visitors per year will increase traffic. Currently, there is little to no bicycle infrastructure (signs, bike lanes, safe continuity between roads and bike paths), it is the City's responsibility to protect cyclists & improve traffic flow for motorists by adding the proper infrastructure.

5. POPULATION & CRIME: Approximately 30% increase to Mountain Shadows population in this small area will increase opportunity crimes and added stress on natural & public resources. High Density Residents could damage the hillside and trespass onto the Navigators & Flying W. Ranch properties, as no Park Space has been allocated.

6. FIRE SAFETY: Increased population exacerbates evacuation in the event of fire (Ref. Waldo Canyon wildfire 2012 – 2 people perished & 346 homes destroyed. Plus, 5 local wildfires in 5 weeks in the fall of 2020).

I am a geographer with a city planning and surveying background and my analysis of this: Not enough longitudinal analysis has gone into this for the city to make any changes at present. The faster the city and more importantly the developer wants to move, The more the locals should worry... What's the hurry? What are they worried is going to come out? What's the hurry? What are they worried is going to come out? At a minimum I would like to see Covenants in bonds put on the developer (and other guarantees from the city), which provide money and legal assurances to expand infrastructure, especially traffic infrastructure and police infrastructure, if this is to move Foward.

1. The eastbound traffic on GOG at 5PM is horrible. GOG cannot support that many new vehicles in that area.
2. I worked at MCI for 5 years. During that time I would frequently see bighorn sheep negotiating the hogback ridge right above the area in which they want to build.

In addition to previously mentioned - a high density complex is not fitting with the neighborhood. Apartments are generally made up of more transient residents. The Mountain Shadows community is made up of single family homes with long term residents - residents who put down roots in a community & neighborhood. An apartment complex would change that wonderful community

characteristic that is unique. We are not willing to sacrifice this additional valuable asset that combines with the many other reasons that makes Mountain Shadows the desirable area it is.

I think that you might want to take a look at the impact that this development will have on the surrounding roads. If you look at the number of Apartments (450) times number of cars/trucks per Apartment (2) you are adding at least 1800 vehicle trips per day on Garden of the Gods road, plus

trips to the Grocery Store (of which there is only one at Garden of the Gods Rd and Centennial Blvd). Currently I do not believe that this area is able to support the proposed apartment complex.

Oh my gosh, what will this development do to 30th Street? Hasn't Mountain Shadows neighborhood been through enough with a catastrophic fire happening a mere 8years ago? I also have a serious interest with the Rocky Mountain Bighorn Sheep herd that regularly grazes through the proposed development area. Have YOU ever travelled along 30th Street during tourist season with the literally millions of tourists descending upon Garden of the Gods? I do. I volunteer at the Garden of the Gods Visitor and Nature Center. What you propose will create a nightmare scenario to visitors and residents alike. By the way, tourist season extends far beyond the summer months. The city touts the best city park in the United States, yet due to nearly non-existent tax revenue, can't support the infrastructure needed to get to the park, much less maintain the park. Oh, right, 30th Street will begin to get badly needed improvements, tying up the street for 18 months - 2 years. Please do not approve this development.

I have four concerns about this--

- (1) Local, current District 11 schools cannot possibly accommodate the numbers of students the development would bring; students' education will depend entirely on the very dubious generosity (or very real anti-tax stinginess) of the totality of District 11 residents;
- (2) I am extremely doubtful that CSPD or CSFD is able to handle these additional numbers of people and houses either--again, their ability to do so entirely depends on the generosity/anti-tax proclivities of the entire city's voters;
- (3) Local, current parks and recreational areas cannot possibly accommodate the numbers of additional people using them--The plan MUST absolutely require the developers to reduce the number of units to include extensive (appropriate for the population) open space and parks within the complex;
- (4) Such a high density development located where it is would vastly increase the risk and impacts of our next urban-interface wildfire (like the Waldo Canyon disaster), which clearly can and will happen again--while also increasing the risk of such a fire being accidentally initiated.

These seem to me to be serious impediments that have to be taken into consideration, with concrete plans required and written into the proposal & permits to address and mitigate these issues, for the safety and welfare of all involved, not just within 1,000 feet but throughout the city and region. Growth in our city has a deep history of City Council caving to developers with entirely inadequate planning and expectations for those developers in terms of their mitigation of local and city-wide impacts. PLEASE do not repeat the reckless and unjustified mantra of "GROWTH GROWTH GROWTH," NO MATTER THE CONSEQUENCES!

Thank you for your time and consideration.

Garden of the Gods is a crown jewel in Colorado Springs. What this city does not need is an overcrowded housing development in the face of visitors from around the globe staring them in the face as they approach Garden of the Gods.

As a resident who lived through the Waldo Canyon fire, this city does not need a development congesting the escape routes for the long standing residents in this community. Protect the quality of life and safety for the residents in this community.
The wildlife, the bighorn sheep and the outstanding environment do not need a trailer park at the end of Garden of the Gods road. Give the developer a map, show them what has happened do Denver and Aurora with irresponsible development. Not in Colorado Springs.

It would be negligible for The planning committee to approve this. We have a uniquely beautiful city. The committee must have more of a vision for our city than this. The planning committee has a duty to preserve the things that make this a great city. This area is already very busy during the tourist months. Adding more traffic in this area will make it undesirable for those who live here and those who visit. The traffic on 30th street will be horrendous. Most importantly, the structures and added traffic would ruin the natural beauty of the area. So what will the answer be? Widen 30th street in front of the Garden of the Gods making it look more like a city street instead of special gift of nature that it is. I simply don't understand why the committee would want to allow projects like this that take away from our unique and beautiful city.

centennial blvd, garden of the gods rd, and 30th, north to the intersection with centennial, are the only streets currently wide enough to handle the heavy construction and regular sized vehicles once this project is started. while flying w on the north side is wider, it is already subject to drivers that totally disregard speed and safety regulations. traffic from 450 units will undoubtedly increase the traffic flow and danger to pedestrians, bicyclists and wildlife.

People rent where there are apartments available and is only a temporary residence, the people around this area have made a huge investment to be there. Their needs should be considered first. The traffic alone would be horrific, it already is. There is too much traffic mixed with tourist as it is and the wildlife are suffering now with space and that's in the heart of the big horns. I don't want to loose them. Just please don't allow this. This development is too high density based on its close proximity to the foothills. It will create way too much traffic on 30th, garden of the gods road and flying W. There isn't enough land and roadways to support this scope of new multifamily units. By scale, this is the largest proposed multifamily project in many mile radius from the property. This doesn't make common sense based upon the current built up density and lack of remaining land near the mountains.

Thank you for your consideration.

We can NOT handle more traffic and population in this area. The wildfire danger should be top priority as well as our wildlife. Increasing the population in this area would also add to the never ending crime we deal with now. I'm on 31st and already deal with so much traffic I can barely get out of my driveway. Let alone the damage the traffic causes to my property.

The City of Colorado Springs department of Open Space has enough money to purchase the property outright as part of their current long-term plan of ringing the westside of the city with open space. Additionally, I'd contact the Rocky Mountain Bighorn Sheep society, as they have significant monies and political allies in preserving habitat corridors. Finally, a card campaign from local families to share their thoughts with both COS and the land development consult company will prove effective as a multi-tiered strategy. Relying solely upon a citizen petition rarely affects legal change in cases of land use. Thank you for considering these humble, proactive thoughts.

5325 AUBREY WAY

COLORADO SPRINGS, CO 80919

As a homeowner at 5325 Aubrey Way, 80919, I strongly oppose the proposed plan for 2424 Garden of the Gods.

This area is home to unique wildlife, such as bighorn sheep, mountain lions, bobcats, bears, bald eagles, etc. Adding more traffic and streetlights (light pollution) will further invade the natural habits of these precious animals.

Also, the congestion of 30th Street will greatly increase, especially near the City's most iconic park, Garden of the Gods. While a traffic circle is proposed for that area, it will not be able to accommodate the increased traffic in a safe way that already sees confused tourists trying to enter the park. While the Garden is trying to reduce traffic and car emissions to preserve its unique beauty, this seems to smack in the face of these efforts.

The three District 11 schools serving this area – Chipeta Elementary, Holmes Middle School and Coronado High School – could not handle the influx of more students without significant additional construction (classrooms, infrastructure) and increased staffing.

Please never forget the risk of wildfire this area still faces.

While I feel very fortunate to have purchased an existing home in this area 10 years ago, this is much more than “Not In My Backyard,” given the unique environs of the mountain range that makes up the Garden of the Gods and Flying W Ranch.

Thank you,

Barb Reichert

James M Duner - There are already more apartments planned for the east side of Centennial at Filmore across from King Soopers on. It is a 91 unit apartment complex. We also have the apartment complex right on 30th across from 2424 Garden the Gods. We are overbuilt with apartments in this very sensitive area. High density units are the last thing needed there.

This is wrong place for high density multi-family apartments especially with concerns for wildfires--we have been in an extended drought and future years are likely to bring more. Was evacuated for Waldo Canyon which was problematic-the 450-600 or 800 people to be added from this location is not realistic for safe evacuation. Apts. will likely want to grill from balconies adding to risk of fires. Traffic is already heavy and steady on Garden of the Gods, also 30th Street south of intersection. 30th Street does not seem amenable to adding traffic lanes. Also, do we want this development be what tourists see as they approach one of the top listed tourist destinations in the U.S. The Garden of the Gods is a gem for which this city is stewards--once developed, you can't walk it back. Do we really want this development at this location???

I object to the proposed concept plan, zone change, and master plan amendment @ 2424 Garden of the Gods Road in Colorado Springs. We bought a property in this neighborhood over 30 years ago and do not want, need or feel it is safe to have this density of increased population or traffic in this area. As one who was fleeing from the neighborhood while it was burning from the Waldo Canyon Fire, and stuck in traffic with flames inches from my vehicle where I was stuck in traffic, you are placing profits over people's lives and safety! Do not allow this to action to further threaten our safety, traffic,

overwhelming our neighborhood school, or blocking our views. This is not what the MSCA had in mind from its inception and should not be changed.

The fact of an already over populated area can be confirmed by all who witnessed or were stuck on the neighborhood roads during the Waldo Canyon fire mass evacuation.

My secondary objection is the absolute violation of nature in this area, particularly the Big Horn Sheep population. We've already seen a significant shift through the years, this unnecessary building will without question be the final blow to a degrading of the natural habitat.

This plan should not be permitted in the face of such strong opposition from families already living in this area, and who have seen the considerable increase in traffic and encroachment on nature already present in this area.

I can't imagine high density housing going into an area with such limited ingress and egress. Traffic jams are looming. Why not just build some nice single family housing with open space and maybe a clubhouse with a workout center and swimming pool. There's no more space at Mountain Shadows Park or Wilson pool. They're absolutely packed as is with the existing population. The city needs more single family homes that would blend in with the neighborhoods in this area. Why create another potential ghetto next to one of the most iconic parks in North America? That's what's going to be the end-game with high density low-cost housing. It hasn't changed since the projects of the 60's. Pack people into crappily-built tiny structures without amenities or greenspace and you get discontent from all populations present. Verizon makes enough money to write off this land as a bust since more powerful developers migrated to the Briargate area for high end commercial properties. I think they should sell it to the City at a loss and let the City develop it as a west side rec center. Something we don't have here.

I have lived in the Mountain Shadows community for 19 years. During that time, I have watched this area become increasingly congested as people attempt to exploit every bit of land available in an attempt to live on the West side of the city. As I ran for my life from the Waldo Canyon fire, traffic was at a standstill as residents attempted to flee. Every summer, the area of 30th and Garden of the Gods is unbearable and dangerous with an overflow of tourists that lasts through the Fall. This year, the overflow has lingered as people flock to Garden of the Gods. Adding more congestion in the name of unnecessary development and profit is reckless and completely lacking in integrity. Aside from those points, the wildlife in this area is abundant and heavily relies on the space that remains. Colorado is supposed to be a state consisting of natural beauty and protected wildlife. To threaten that is unconscionable.

I appreciate the Mountain Shadows Community Association (MSCA) keeping us Mountain Shadows residents informed as to what is going on with the proposed major amendments to the Mountain Shadows Master Plan. The developer initially submitted the above-mentioned changes to the master plan, zoning, and concept plan.

These proposals were subsequently revised at least twice that I know of since the original submission. The scope changed to request a PUD zone district instead of a standard zone district over the entire 125 acres. These changes required modification to the Master Plan, Zoning changes, and Concept Plan. From what I gathered it seems like City Planning is doing everything they can to assist the developer and doing nothing to help the MSCA. This seems blatantly unfair and unethical.

My family and I have lived in Mountain Shadows since 1992. We paid a premium price for our home and property based largely on the Master Plan and the quality of life it has afforded us all these years. I suspect property values in Mountain Shadows will plummet as soon as the developers build their 45' high apartments.

Those of us who survived the Waldo Canyon fire in 2012 can attest to the horrendous traffic jam at the intersection of Garden of the Gods and 30th Street as we fled for our lives. We were extremely fortunate that the conflagration did not kill more people than it did. Adding all these new residents adjacent to this intersection could result in a catastrophic loss of life in the event of a fire. Last year we had at least five wildfires in a short time. Waldo was terrible, but the next one could be even worse.

Adding that many new residents will absolutely increase the bicyclist vs motorist conflicts. Many times, I have driven through the area around 30th Street and Garden of the Gods and seen makeshift memorials. These memorials attest to the hazards that already exist at that intersection.

I remain cognizant of our friends the Navigators. Probably no organization or business has had to deal with traffic issues than they have over the years. I understand that MSCA has met with them to discuss issues of mutual concern. I hope they can come up with some reasonable solutions.

It is time for our representatives to stand up and say NO. I implore the Planning Commission and City Council to deny all three of the Developers requests. These changes are of no benefit whatsoever to the existing residents of Mountain Shadows. On the contrary, the proposed density is outrageous. The area marked as residential has the potential buildout of nearly 1,800 residents. The City could be responsible for massive lawsuits if they approve a development such as this knowing full well the choke point is just a few feet from the proposed apartment complex.

Enough is enough! It's so sad how we are corrupting paradise by putting up ugly buildings and parking lots. Plenty of land out East. It's a shame how the majestic Garden of the Gods have already been surrounded by housing. It takes away the awesomeness and sense of timelessness of the Garden. Please just stop!

I worked in the Verizon building. Traffic congestion was pretty bad during rush hour (pre-pandemic) Can't imagine how much worse it would be by adding all the extra people/cars. I'm all for in-fill rather than urban sprawl, but I don't think this particular squeeze in is a good plan/idea.

In particular this district..what you are considering to do to this area, while lining the pockets of the developer, will have a negative impact on the entire reason many thousands of people visit Colorado. The views!!! Untouched , preserved to be enjoyed for not just a few moments but an entire lifetime..it saddens myself and countless others to see what over developing has done to our " hometown ". I grew up on the west side. Went to school at Washington Elementary, West Junior and Coronado. I spent the majority of my free time at Garden of the Gods, biking, hiking and having picnics. Any and all private building/development should NOT be allowed. The Garden is one of the biggest assets to the area. Allowing development that would detract from it would be detrimental. What's even more troubling is the possibility of this out-of-town Developer getting the 2424GOTG PUD/HS zoning approved that currently includes high-density multi-family apartments across the ENTIRE location. If so, the revised zoning would allow up to 24 units per acre across the buildable property resulting in 1500 units and around 3700 new apartment dwellers at this critical wildfire emergency evacuation choke point.

People were driving 5 cars wide over the curbs, they continued thru traffic lights but couldn't get anywhere as GOG was at a dead stop. We really really can't afford more density! To the City of Colorado Springs:

You can't preserve Parks and Open Space by allowing encroachment. Those who would try to change or circumvent rules protecting GOG space to allow development do so for financial gain; developers seem to be the worst at ruining such places. As a resident of Colorado Springs, I expect and depend on my city to protect our National Treasure - Garden of the Gods - from ALL threats.

This will destroy both the habitat of the sheep, and cause all the other problems mentioned above, but long term, cost the state \$\$\$\$ in tourism dollars once the Garden of the Gods drops in ranking significantly once an eye sore like this proposed apartment complex ruins the park and all the natural qualities that have prompted it be ranked one of, if not THE, highest ranked parks in the US. A development like this will negatively effect the wildlife that call Garden of the Gods and the surrounding area home. They need habitat in order to survive. If you want to protect the Park and its wildlife, they must have a buffer area to depend on for sustenance. Building high density apartments in this sensitive are will compromise the habitat significantly. Thus the city destroying the very attribute that makes the area attractive.

I'd also mention the traffic at Chipeta Elementary. It was always a problem when I was on the BAAC, it can't be much better now. I'm sure some of those in the apartments will take Flying W. Almost no one pulls out of the current facility, and heads east on 30th. I'd go so far as to say I've never seen it at all. Everyone either enters and exits from Garden of the Gods, or enters and exits onto Flying W, headed in the direction of the school.

I lived in Colorado Springs for 3 years and loved cycling through Garden of the Gods city park because it is not as urbanized as the rest of the city. Having high density housing in this area would impact the natural beauty of the park. It would also negatively impact traffic through 30th street, which is already crippling for motorists and suicidal for cyclists due to tourism drawn by Garden of the Gods. There are many improvements needed for this area of Colorado Springs and the addition of new apartment buildings would aggravate these issues.

We must think ahead and take time to check new growth and development to ensure the quality of life of our children. We need to protect the Garden of the Gods natural ecosystem. My father rode his horse as a kid from 1065 Mesa Road (526 then) to the Garden of the Gods often. He would stop in to the two properties that he had to go through to access the park. A lot of growth has happened since the 1930's and now more than every choice is critical. Developers keep circling around with proposals to change zoning laws when we're all distracted with larger issues. Please help us protect this area from unchecked growth!

This area is an entryway to a gorgeous, priceless, National Landmark that people come from all over

the world to visit. The current City Planning Department, along with our elected council members, must leave a legacy to protect the character, views, and beauty of this land, which is located adjacent to the Navigators, and Garden of the Gods. Please adhere to the current zoning and master plan, and do not succumb to corporate pressure, or to poor planning. These out-of-state developers were very aware of the current zoning and master plan when they purchased the property. Furthermore, the area was already previously rezoned to accommodate the creation of the current Business Park.

Turning such a location into another strip of commercial businesses with multi-family housing is a horrendous concept, and is a proposal that should not even be on the table.

Also, Big Horn Sheep are in the area of this proposed development. Please protect these animals, and our other beloved wildlife that migrate in and out of this location.

Moreover, the new “revised” traffic study that accompanies this proposed zoning change is again disingenuous. <https://web1.coloradosprings.gov/LUISPlanner/uploaded/LUISPlanner/Documents/Study/135604.pdf> Section II p. 6 “Existing Traffic Conditions” indicate that June 2017, data is used for their revised study. According to this data:

https://coloradosprings.gov/sites/default/files/gog_draft_shuttle_study_2018.pdf

there was likely only 2 million visitors to Garden of the Gods in 2017. We saw in 2019, approximately 6 million visitors. Their revised study only allows for a 2 % increase each year from 2017. A 2 million to 6 million increase is a much greater rate than a 2% projected yearly increase.

Moreover, there is not any consideration of the increase of traffic for the (under construction) Red Leg Brewing Co., a new \$8 million brewery, food and event complex near the west end of Garden of the Gods Road, nor is there a factoring in of projected increased traffic for Flying W Ranch (when it will run at full capacity). During the 2012 Waldo Canyon fires, traffic was grid locked and people were in fear of death trying to evacuate. Do not be responsible for deaths due to acceptance of a flawed, disingenuous traffic study.

We are on water restrictions here; watering is allowed only 3 days a week during certain hours. See this article: <https://coloradosun.com/2019/11/20/colorado-river-risk-study-taps-farmland-dry/>

Perhaps, instead of a zoning change and master plan amendment, consider working with the property owner to ascertain why there is only a 50% occupancy rate of the existing buildings, and then assist with mitigating those issues.

Also, isn't their request for a PUD, likely to facilitate additional future changes that will bypass city council approval? No to PUD!

Again, I request that you do not bow to corporate pressures. Not everything in this life is about profit and monies.

Will you be long remembered as preserving a treasure to this community, along with ensuring the trust and safety of citizens? Please do the right thing, leave a legacy of preservation of this magnificent area.

Thank you for receiving public input and for your consideration.

Respectfully,

Julia Owens

Although I don't live in the city anymore, we frequently come to that side of town to enjoy the beautiful park and surrounding area. The housing and growth in this city is a cancer and it is sickening what these developers along with our city council are doing to this area and the city in general. This is the wrong place to put apartments!!

Colorado Springs is losing too much open land everywhere, but losing it around the Garden of the Gods is just wrong. The natural beauty of the areas surrounding what I think of as wonders of the world and draws tourists to vacation here should not be sacrificed.

As a native to the area, I have seen too much growth without any consideration of the land or people who already live in the area. Piss poor planning from the city of Colorado Springs has severe traffic problems in all areas of the city. After witnessing the Waldo Canyon Fire decimate the western flanks of the city with the evacuations made any movement impossible. Adding to an already bad issue is not ideal for those you require use of Gardwn of the Gods Road as a main evacuation road.

Our view corridors are part of our identity/"brand." Garden of the Gods--both being in it, and the views/approach to it--is one of the crown jewels of this area. There were years of struggles to remove

the harmful effect of the Front Range quarries in our stunning views. High-density development traffic associated with this area will further harm the 30th St. corridor (already a traffic headache at rush hour) and the ingress/egress to Garden of the Gods.

As a 4th generation native to Colorado Springs, I'm deeply saddened that the city continues to assault the land, erase our history, and degrade our quality of life on the foothills in order to make them more money. We are already enriched with the natural beauty that is here and yet the city leaders continue to make our city so ugly. There is no reason why we need to keep encroaching nearer the mountains and blocking our collective views of the foothills. General Palmer thought about future citizens of this city when he made ordinances to keep buildings from blocking the grandeur of the peak and the mountains. His vision was for this city to be as culturally significant and beautifully constructed as European cities, like London. However, our city looks like a trash pit, mainly because of the costly, damaging, and prevalent redevelopment ventures that the city council and mayor keep shoving down our throats. Plus, we do not have enough arterial roads that can accommodate the many thousands of people that keep coming here to escape in case of wildfire. The proposed area for this development was almost in a direct path of the last major wildfire. Garden of the Gods road was completely jammed with cars trying to escape that fire and there are no viable other WE arterial roads in that area of town for people to use if there is a wildfire in the mountains. There are a TON of ugly, abandoned, or under-utilized buildings and commercial buildings that can accommodate this project. I say, no new buildings until the old ones are used first!

habitat they are ruining for the sake of a dollar are absolutely DISGUSTING. Take those developments to the EAST side, maybe buy some land from the floundering Banning-Lewis Ranch and develop over THERE... You know, where you won't be literally displacing an entire herd of animals and blocking views of the prettiest areas in the city. They have this attitude like as long as THEIR buyers get great views and location, then screw everyone else, and honestly that's garbage. The people who have lived in the area for YEARS and paid their dues should definitely have first priority over a bunch of transplants that OBVIOUSLY don't appreciate the beauty of our area.

I used to work in the southwest building at 2424 Garden of the Gods. I a wide variety of wildlife including big horn sheep, bear cub, coyotes, turkeys and deer. While the big horn sheep often stayed higher on the ridge, at times they would come down near the parking lot. It was mostly big horn rams but occasionally the ewes and young ones would come down too. High density housing would have a negative impact on the wildlife in this area. I often ride my bike by the property and the foothill views will be ruined.

I try to keep up with news but I haven't heard how the developer would address objections expressed such as traffic, fire safety, and disturbing the natural habitat and views. I remember being trapped in a traffic jam trying to escape the Waldo Canyon fire and seeing fire right beside me on Centennial Blvd. Nothing has been done to reduce the chance of this being even worse with higher density. I'm opposed.

The destruction and obstruction of natural beauty is one of the primary reasons our planet is in the dire condition it currently is. Corporations like this are villains to human and wildlife populations alike. Increasing populations and demands for property are no excuse; the issue is simply corporate greed without consideration for the well being or beauty of this world. There's plenty of places around Colorado Springs and the surrounding communities to build new housing for our exploring population. Building next to one of America's most iconic and beloved parks is not one of them. Blocking scenic views for coloradan's and tourists alike and negatively impacting our wildlife, like our established big horn sheep herd that calls that area home is the lay thing any if us wants. Just like the horrendous blue picture frame that was installed in the park and quickly taken down due to public outrage, you should have learned then that coloradans don't tolerate anyone messing with their nature.

The city needs to preserve open space in Colorado Springs, especially in the foothills of the Westside. There is too much traffic running through the 30th Street corridor from Garden of the Gods Road and through the Pleasant Valley neighborhood on 31st Street to Highway 24. Adding 450 to possibly 1056 multi-family apartments/units along 30th Street will only increase the congestion, traffic, pollution, and crime to this side of town, and will destroy valuable wildlife habitat and beautiful open space that the Westside of Colorado Springs cherishes. The city should be focused on conserving open space and developing parks and trails, developing better transit to support alternative types of transportation and reduce pollution in the city, cleaning up the creeks and trash throughout Colorado Springs, investing resources in older and lower income neighborhoods, and investing in housing options to curb the homelessness crisis in our city. We don't need more commercial and residential development on the Westside, especially at the expense of critical wildlife habitat and current residents' health and well-being.

It's horrible to consider this update and destroy what Colorado stands for most. I have no problem with the city expanding this on the eastside (Powers), but the west side should stand as it is, it is already

suffering with the population as it stands now with traffic. The one lane directional roads on 30th already suffer greatly with too much traffic.

But the biggest shame goes to anyone to consider this is a terrible idea, taking away wildlife and beautiful landscapes...from the people and nature. That's not what Colorado stands for, to destroy our nature and landscapes.

I feel Colorado already has too many housing developments and dilapidated acres of land that used to be housing until they became dilapidated crime centers. How about rejuvenating an already existing development? We the people need public land and parks that we can access, that will also conserve wildlife in the area. I am against building anything in this nature zone just so some company can make a huge amount of money off of lands owned, used and/or enjoined by the citizens of Colorado. Make a choice in Colorado best interest, we don't need another housing development

I am writing regarding the potential rezoning of 2424 Garden of the Gods Rd from Office to Commercial status. I have lived in Pleasant Valley for 15 years. In that time, I have seen an incredible uptick off traffic on Garden of the Gods Rd., 30th & 31st streets. If the city council agrees to change the zoning from office to commercial, I can only imagine how much more stress will be put on this beautiful and even bucolic area of Colorado Springs. The west side is not built to handle huge populations and the proposed potential increase in living quarters would decimate the splendor that has historically brought people to the Garden of the Gods area. I will not beleaguer you with a drawn-out plea for reason, I will just end by stating unequivocally, I am heavily opposed to the rezoning of this area; the damage to my neighborhood will be irreparable.

No construction should ever be allowed to infringe on the public's ability to view this park. Garden of the Gods is a national treasure that is intended for the people of Colorado Springs to enjoy as per wishes of the man that donated the land to the city and its people, furthermore it was to be enjoyed for free by those people (there is a plaque stating this in the park). Therefore it's views should never be used for marketing and financial gain, while also taking away those views from other city residents.

There are other areas that you can develop. You do not need to ruin some of the most beautiful areas we have. Developers are destroying the culture and feel of our West side. I have lived here all my life, my ancestors settled this area. They would be disappointed as am I. For the first time in my life I am wishing I did not live here as I watch the destruction of our wildlife, peaceful way of life, serenity of our beautiful areas. I am very tired of the traffic, long lines and you want to bring even more people here in the name of development. By the way, where is all the water you will need going to come from. Already on water restrictions in summer months and you want to add more population. I am saddened and disappointed. If I wanted to live in a Denver atmosphere I would have moved up there long ago. I will be watching those who have no regard for the beauty we have here and what it takes to keep it that way. I will reflect my thoughts in the way I will be voting for those that have a total disregard for our way of life and only have dollar signs in mind. Once the beautiful places are gone, they will be gone forever.

and all her land would remain intact for perpetuity. Please do not take any lands sacred to our first nation peoples. You will impact the wildlife, land and environment selling this land to developers who will destroy its beauty.

While I am in favor of "infill" development for affordable housing in Colorado Springs, it needs to be in appropriate locations. This is NOT one of those locations. Please reject any zoning change that would allow this development.

I enjoy hiking and wildlife viewing in Garden of the Gods precisely because I DON'T have to see evidence of obvious human intrusion into the landscape. All manner of wildlife, not just the bighorn herd, would be negatively impacted by this development.

-Roads & access as related to Fire evacuation should be addressed & managed for all of west areas.
- I would hope that the city would add more park land than the ordinance requires. The City and owners of this land really need to have a hard look at what kind of city we want to remain.

-The abundance of tourists will add to many of the issues cited.

I went to other places but this one was my favorite cause of the beauty of the rocks n the side of the mountains. U can walk around n drive to. I feel if the apartments would come into this area it would take away from the beauty mountains n history. I enjoyed myself n was amazed by the history

behind the garden . I took many picture n I will have good memories for a long time. I plan on coming out again thus year n want to go again. Thank u for the memories of the gardens with my daughter n grandson.

Developers can redevelop quickly and easily, nature cannot. The wildlife cannot. There is such little preserved land left, how can anyone be so audacious as to think their profits are worth the loss of a piece of land so invaluable as this. We can't keep surrendering our environment to greed. If a legislator is reading this, I beg you to consider a place in nature you've visited in your life that felt profound, that moved you, that imbued you with a sense of wonder. Now imagine it as a strip mall. A hotel. A bank. A restaurant. A parking lot. Is it worth it? We have enough of all of those things. We have nowhere near enough natural land left, and we sacrifice more of it every day to greed. Please, help us preserve what little has survived us.

I came to Colorado as a 2 year old in 1970, I cannot say that there Garden of the Gods is a birthright, but pretty close. It is a shame that I do not have the legal right to interfere with your local decisions so I will only share an observation.

In 50 years our parks have become overrun, the places where we used to be able to walk are now private property The chance to share in what is beautiful and lovely about Colorado becomes less and less. It seems to me that Colorado is becoming a pay for access state. Some of this is due to the amount of people that live here and some of it is due to the ability to profit from beautiful places. Please consider the unspoiled beauty of our state and how those who come from modest means may be able to find the beauty and grandeur that is nature without reminders of what they lack in existing within our consumer society.

No, do not allow the development and access of money to encroach on our last reserves of grandeur.

Please stop any new construction in that area, we need to enjoy those beautiful mountains and wildlife. Its very important for colorado springs residents like also tourists to enjoy not only Garden of the Gods park but area around it. The Bighorn Sheep are a treasure to all in this area. They need open space and protection in order to survive and are already at risk with increased traffic along with building up to the perimeters which they live. Please do not take away more of the buffer area to the road and endanger them anymore. This pristine land is not currently zoned for high density and should not change for the short term financial gains of a few. We need to maintain the little open space that we have left on the west side. I am opposed to the redevelopment of this parcel. You are putting economics over environmental stewardship. I am against any more restriction of the natural habitat of the area. It should be protected. Garden of the Gods is one of the most important tourist draws in Colorado Springs, and there should not be high-density housing near the border of the park. If you approve the plan to build, you are in direct opposition to the desires of your constituents. For what? A few cheaply built apartments that will define our community as haphazardly-planned and poorly-zoned. In fact, I wonder what the council was thinking when it allowed Verizon to build on the site. Clearly, there was not enough thought--and

far too many concessions--put into that decision. It's time to stop imposing the council's will on the people who live here.

Can you guarantee that we will have water in this area for the next 100 years? In addition, will the City Council require the developers to provide future revenue for additional police and firemen that will be required when the housing has been built out and the developers are long gone? If the answer is no to any of these questions I would ask that you reconsider approving this or any other development until these issues can be resolved.

I VERY strongly disagree with even further encroachment on Colorado wildlife in this area. Expand this city to the east and southeast where room abounds. This proposed development is detrimental to the safety and beauty of this area of the city, and will negatively impact views, home prices and wildlife in the area. The sheer size and breadth of this project is in direct opposition to the natural environment in that area, and the true impact will not be completely felt for months or years. Any development in this area has the potential to create and extend landslide zones as well. Traffic studies were not done appropriately, but rather during the first COVID lockdown, when the streets were mostly vacant. This development will harm the land, the people and the wildlife, including the magnificent views from Garden of the Gods Club and the northern end of Kissing Camels. It is short sighted and WRONG.

Just for the record, in addition to having managed apartments complexes, I have also worked for an apartment development company and as well have financial investments in apartment complexes so I am not writing this as a NIMBY person. Apartment communities are necessary, particularly lower income housing units, which my former company recently championed against neighborhood wishes, but I believe the change in the Master Plan to potentially allow over 400 units is not compatible with the surrounding environment for all of the reasons listed on this petition as well as the following concerns.

- (1) Having lived here since the 70's I have seen the city take giant steps to encourage/mandate developers to include common area open space in their projects. It is difficult for me to understand why, after all that hard work over the years, that the city would be willing to accept a Fee in Lieu of Parkland of \$105,089 for this particular developer. Increasing the population in this area without open space in any complex will only increase stress on the already overburdened Garden of the Gods Park.
- (2) When the fire was in progress, 6 people lived at my former house until it was safe for them to go home again. Luckily they were all able to get out the affected area in time but it was not easy for them. It is hard to imagine another potential 700 - 900 people evacuating at the main intersection that was so heavily used in the last evacuation should we ever have a similar fire incident.
- (3) There are areas and other lots in town which could more easily accommodate a project of this size without making traffic worse, without dramatically changing the views for people who have lived in the area for years and without adding further stress on our beautiful overburdened park.

Please do not pass the zoning change to allow this project. Thank you for reading this.

This plan does NOT have buildings that would blend with the surrounding scenery. There needs to be more open space on the West side now, without these high density high rises overpopulating the area. There is grave danger of egress in case of another fire. There is also the fact that all apartment buildings eventually go into unattractive, unkept buildings. These high rises will bring down our property values immediately. This puts pressure on the longhorns that dwell here.

Colorado Springs can no longer be built up and ruined at the hands of developers. For once we must

take a stand against development that ruins our beautiful landscape, displaces wildlife and flies in the face of rules meant to control all of this. Think about how much traffic is already generated during tourist season and the problems created by this. I directly oppose placing any new, obstructive. high tenant structure in our beautiful route into the Garden of the Gods territory of Colorado Springs. I oppose the way the developers have presented details purporting low traffic volume by pulling their data during the same time as Covid-19 quarantine. Their gauges are purposefully inaccurate and this behavior has created a first impression of untrustworthy and unethical behavior.

This is not just felt and believed by me, but by every homeowner of District 1 and so forth who has heard and responded to the CS City Council on this topic, or attended previous City Council meetings about this topic. To make matters worse, the developers are petitioning City Planning that if they are approved to build, that they wish to be even less responsible for the amount of open land/preserved space than they were initially asked to support. These developers do not have the best interests of the citizens of the west side of Colorado Springs at heart. They do not have the best interests of the citizens of any part of Colorado Springs at heart. And, it hurts MY heart that City Planning is continuing to entertain this idea.

Why is the City Planning still considering this plan? Money? Why would any resident of Colorado Springs, including (and probably most importantly those voted in and/or working as stewards of our city) want to say yes to blocking the beautiful views of and obstructing our view to and along our western conveyance to one of the most famous natural monuments in the world, with (potentially) 125 acres of developed high-density, multi-family dwelling units? Why would any of these same citizens/stewards of our city want higher crime rates, more difficulty getting children to highly effective, cherished magnet schools, more difficulty and danger getting families out with the potential of a future forest fire, more traffic (and resources needed to fix) to our quiet two-lane roads, more noise pollution and vehicle pollution to drown out and dispose of and run off the beauty of the incredible wildlife in the area that Colorado Springs is so well-known for? Why would any citizen, especially

those voted in or employed as stewards of the city, invite more traffic accidents and safety concerns of not just west-side homeowners and residents, but also visitors and tourists to the area? Why would we want to run off the tourists who bring and spend their money, too?

My husband and I and my son live on the west side and purchased our home on the west side because we LOVE it here, without the concerns and challenges this developer would bring. We adore the wildlife and the quiet roads, we love our magnet schools and the children in them - and we want continued safety for them and our bicyclists and joggers on our beautiful 2-lane roadways. We cherish the wild-open spaces which Colorado Springs already lacks by comparison to most major cities in the nation. Why would the Colorado Springs City Planning stewards invite strangers to dismantle what beauty is left? If I were voted in as a City Council member, I would vehemently oppose this action and let the developers know their money is not welcome here where they have already proven they are not interested in preserving any of the historic beauty for which Colorado Springs is known – not to mention they have proven themselves as untrustworthy and unethical.

As a homeowner in the Oak Valley Ranch area, and a dog lover, I am out walking my dogs often...more often than not, actually. One route I tend to take is down the Allegheny hill that leads from the rock quarry to White Buffalo St., adjacent to/across the street from Wilson Ranch park and Wolfe Ranch. Have you ever walked that path? You should give it a try sometime. I'm guessing the homeowners on White Buffalo, whose houses face the man-made water run-off "ditch"/transfer and the multi-family units adjacent on the west side, are besides themselves with disgust...as I am every time I walk through there. The multi-family units there are disregarded by their owners. Garbage and waste thickly line the paved ditch and the margin of bushes, shrubs and wild grasses that grow there on those units' backsides - which directly faces the homes on the east side of White Buffalo. There have been days I've gone out there myself and picked up the trash. It's disgusting and (here's the best part) I, personally in the years I have lived here, have never seen any effort on the part of the owners of those multi-family units to clean up or care for their surrounding environment on behalf of their tenants.

I and my family love the pathway through there and my dogs do too, except the trash and obvious lack of care. In my mind, and in addition to all the other concerns stated above, I am concerned about the eventual owners of 2424 disregarding that property too, after time. Many of our city's multi-family dwelling properties devolve to being disregarded – especially when the owners do not live in this city.

How can we, all of us as great stewards of this city, allow developing strangers to build their buildings to cover up our existing beauty - and crowd the gateway to our city's naturally beautiful monument - the beauty of which we, as a city, have promised to share with the whole world...forever?

Because I care for the City of Colorado Springs, because I pay taxes here for the upkeep of our beauty, wildlife, and our safety, because I love my neighbors and their children, and because I love my own son and want him to grow up safe *and* to understand what it means to fight for something important and relevant, I implore each city council member and each city planning member to listen not only this, my own personal request, but to that of every citizen of this city who has submitted a letter or who has joined in on the City Council meetings as standing vehemently against this developer and their plans to destroy such cherished aspects of our citizenship. It's my understanding that more citizens than ever before (as noted at previous City Council meetings), have voiced their opposition to this plan. Please stand for us and with us and let's work together instead, to build a true gateway to the Garden of the Gods announcing its beauty as well as that of the surrounding neighborhoods. Let's declare that this beauty stands sure and sound and is never to be tampered with. Let's illustrate to the world that as a

City we stand in unison with one another to keep what's still wild, wild, and to preserve what is best about the existing neighborhoods on the west side.

Thank you for allowing me to voice my opinion in this letter. Thank you to all with the Mountain Shadows Community Association for leading the charge and creating this space for conversation and action. Thank you to all those who work with and support the City of Colorado Springs by working with/on City Planning and City Council. I'm sure your position and jobs are not as simple and/or easy as I made out in my impassioned notes above. I am grateful for all the work put in to date on this decision and understand it is not an easy task to be in the shade of a tenuous subject. My hat is off to you.

Most sincerely and gratefully,

This community is not in the need of more apt housing. We need to preserve the beauty of the area. This town would sell its soul for money from developers. And we can see the results in the east and out to Falcon. Our mayor is only interested in money. We should start by cleaning up the trash that already exists and not add more. I am so opposed to this out-of-state developer coming to our Garden of the Gods area. Who is this developer? And what business do they have coming to our neighborhood?

I feel this is about nothing other than money. There is no consideration for the surrounding neighborhoods and wildlife. The safety issues alone are enough to void this plan. There are not enough resources to supply the unwanted extra residents. The roads alone are gridlock everyday due to the tremendous traffic flow on GOG. The out of state traffic through GOG park is very heavy too. Many issues have emerged since the county relocated to the old Intel building. Traffic and crime just to mention a few. We have become a target and it is all because of the planning committee and their poor choices made that have effected our neighborhood. Without sounding like a snob, our property values will go down and the desire to live on the Westside will plummet due to the situation at hand. Please, instead, zone for something that will benefit people and not destroy the surrounding ecosystems. We love our neighborhood and have lived here for 25+ years, in the same house. We don't want this!! Go away!!!

Such a beautiful place. Please do not allow it to be ruined forever in the name of profit for a private corporation. The damage to the beauty of the area is secondary to the ecological ruin this would cause. I am not a resident but have been a visitor for over 40 years, back to my childhood. The distress this proposed development is causing me, has to pale in comparison to the despair it is presenting to the lives of people who have lived close by for many years. Sometimes progress is not progress, and this is one of those times. Please keep the area natural and undeveloped. Thank you.

Everyone north of that intersection will be impacted by the increased traffic on the main thoroughfare from the northwest side to Highway 24. 30th Street is not just a pretty street and a way to get to Garden of the Gods. It is the way most of us use to get to Highway 24. And so you are going to considerably add to the already over-crowded road and long traffic jams of people from this side of town trying to get places. I realize that you are going to "improve" 30th over the next two years but that "improvement" isn't increasing capacity at all. It won't even help much with current capacity issues although it will allow vehicles a little more space to get past bicycles. Aside from that, there will be no improvement and now you want to add hundreds of additional vehicles each day on that road. Where is the logic in that? And, you're going to increase the traffic on Garden of the Gods, an already stressed road at rush hour. The traffic study was useless because it was done when people were staying home. Go out from 4-6 PM Monday through Friday and tell me how the traffic is from the west end of Garden of the Gods to I-25. It's more like gridlock it than traffic. I lived in Mountain Shadows for many years

before moving slightly north and the traffic on Garden of the Gods Road has been increasing steadily for as long as I have lived here. There is no relief because you have no additional east/west corridors you can develop. Woodmen is too far north to relieve any of the Garden of the Gods Road congestion and Vindicator/Rockrimmon can't handle the volume of Garden of the Gods, neither can 30th to get people to Vindicator/Rockrimmon. And, now you want to add hundreds of vehicles making multiple trips up and down Garden of the Gods Road every day. It is unconscionable that anyone in government would do that. It fails everyone who will be using the road; current residents, future residents, and tourists wanting to visit the state treasure we happen to have on this side of town. The city leaders failed to plan for years and years on how to move people around on the west side of town. We have extremely limited roads and they are already full. Don't compound the problem by adding even more vehicles with no plan on what to do with them. And day-to-day capacity issues on 30th street and Garden of the Gods pale in comparison to what is going to happen to the ability to flee during a fire. My previous home was on Lions Gate Lane. That name probably rings a bell to you (if it doesn't it should) because of the role it played in the Waldo Fire. The evacuation for that fire was a nightmare for every single person involved in it. Most importantly for the discussion about adding hundreds of residents (and even some tourists if they build a hotel) is that the Waldo Fire evacuation didn't evacuate the whole area at one time. And even with the staged evacuation where Mountain Shadows was evacuated before Peregrine and the rest of the NW side, it was a nightmare. We already have too few roads for the residents here to get out quickly and safely. Please don't add more residents (and potentially tourists in hotels) until you add more roads out of the area. People working in that complex are NOT the same as residents. You can tell people not to come to work if there's danger. That's different than evacuating people from their homes. And, the wildlife impact will be huge. People working in offices aren't going to go harass wildlife. It's different when there are people living there full-time. They want places to walk and recreate. They'll have dogs and cats that chase and harass wildlife. This is not an issue of "I'm here first." My family has been in Colorado since the 1880s. I have no problem with development. But this is the wrong place to put hundreds of new residents. If you want to add residents, make a plan for infrastructure FIRST. How will you get them out in a fire? How will you keep the bighorn sheep safe? How will you mitigate all of the light from the new residences that affect animals? How will you deal with all of the additional vehicles that will be traveling on a daily basis on roads that already see traffic jams, delays, and gridlocks.

We moved to Mountain Shadows because of the amazing views and proximity to nature. Shortly after we moved in, we began having issues with noise and light pollution from the current activity at 2424. We were told they were “within acceptable levels,” even though we can clearly hear noise from the cooling fans inside our home. Given this history, we do not believe the owners are considering the best interests of our neighbourhood with this zone change and planned new build.

Dear Planning Committee:

Currently, COS Trails and Open Space (per Scott Abbott/ Mountain Shadows resident and Director of Parks and Recreation) have the monies in their land purchase budget to purchase the aforementioned property right now to fit in their current master plan of ringing the West side of Colorado Springs with a buffer of open space between residential development and Pikes National Forest land. Additionally, I'd request a historic and archeological study with the state of CO, as this land is former Ute land, and development may not continue without this safeguard. At it's best, it'll allow strategic time for planning, communication, and organization with your constituents. I'd also contact both State legislature with COS connections to the Westside and the Rocky Mountain Bighorn Sheep Foundation, as they have funds to preserve and protect bighorn habitat, especially for lambs.

Finally, a grassroots campaign of inviting families with children to mail colored postcards of the property to City Council will have a pathos effect as well.

Just a few thoughts from an outdoors educator, former Pikes Peak Ranger, and a fellow family who is calling upon City Leadership to protect this legacy land for future generations, as Palmer, Stratton, and Penrose established through precedent.

Take care,

Ramsey, Kristen, Wade, and Corrinne Ross

The reasons are obvious and glaring.
Area should be used as it is currently and historically zoned for.
The appeal of this area is the proximity to nature. The appeal of the springs in general is GoG.
Congesting the area with and building inappropriately tall apartment complex exploits and degrades the very appeal that attracts people to the springs. This is a ridiculous issue to have to fight. Current owners of the property should be creative enough to make a more appropriate use of this land or should not have the right to it and be forced to sell.
