[Initiative-58- Natural Medicine Act](#)  
[City Council Natural Medicine 11-12-24 presentation final](#)

Kevin Walker, Planning Director, Planning Department, presented the Ordinance amending City Code pertaining to Natural Medicine. He stated the approval of Proposition 122 allows certain land uses in the state related to psilocybin use effective January 1, 2025, this Ordinance will identify the zones and requirements for those land uses, adopt regulations that allow the uses in City limits by additions to the Unified Development Code. Mr. Walker provided an overview of the issues for drafting a local regulation, and highlights of the proposed Ordinance.

Councilmember Donelson requested a map of where healing centers will be permitted. Mr. Walker identified the potential location areas on a map.

Councilmember Leinweber asked how far a liquor store is permitted to be

from a school. Mr. Walker stated 1,000 feet.

Councilmember Leinweber asked how far vaping product stores need to be from a school. Mr. Walker stated those are not regulated by the Zoning Code

Councilmember Leinweber stated he does not support the one-mile setback from schools because he would like to see healing centers in medical offices and in locations which make this treatment more available to patients who need it and people under the age of 21 would not be permitted to enter these facilities. Mr. Walker stated because children are a vulnerable population, the Zoning Code restricts certain uses from areas where children congregate.

Councilmember Leinweber asked if the City could limit the number of healing centers per City Council district. Mr. Walker confirmed it could.

Councilmember Henjum stated these healing centers are very different from medical/retail marijuana and asked who was involved in the drafting the Ordinance. Mr. Walker stated the City Attorney's Office, Planning Departments in Oregon, El Paso County, and the Mayor's Office, and reviewed the Healing Advocacy Fund data.

Councilmember Henjum asked if staff has spoken with anyone who has used psilocybin. Mr. Walker stated they have not.

Councilmember Henjum asked if why the Planning Commission changed the setback to one thousand feet. Mr. Walker stated they felt the use was too restricted.

Councilmember Talarico requested additional information regarding the City's oversight of time, place, and manner. Mr. Walker stated it means the City may use zoning actions to regulate the use of the property.

Councilmember Avila stated she is intrigued with having two or three healing centers in each City Council District in order make it equitable.

Councilmember Donelson asked how many usable offices are located in the proposed zoning areas. Mr. Walker stated there are several dozen buildings located in those areas, but he does not know how many are

available for rent.

Councilmember Leinweber stated he supports a one-thousand feet setback and one healing center per City Council District.

Citizens (Jessica Langley ceded their time to Nate Miller), (Abe Sanchez ceded their time to Tasia Poinatte), Tamara Whiting-Latham, Scott DeWalt, (Dante Liberato ceded their time to Kenny Stahl), Vincent Bruno, Patrick Treptow, Benjy Dezeval, Dylan Ruane, Lane Belem, Tori Honor, and Sharay Martinez spoke in favor of healing centers with less of a restrictive setback.

Councilmember Henjum asked Dr. Miller what he recommends for the City to ensure access to healing centers while supporting safety. Dr. Miller stated by proceeding cautiously and the type of facilitators which are permitted to introduce psilocybin to the community.

Councilmember Leinweber asked if there is a chance for an adverse reaction for any prescribed mental health medication. Dr. Miller confirmed there is.

Councilmember Leinweber asked if there should be a medical provider on site at the healing facilities. Dr. Miller stated there are tools in place to escalate to an appropriate level of higher care without the provider being on site.

Councilmember Henjum asked Mr. Treptow if his counselor noticed positive changes in his mental health after taking psilocybin and if he was able to stop using other substances after taking psilocybin. Mr. Treptow confirmed both were correct.

Councilmember Henjum asked Mr. Treptow if he would be willing to receive psilocybin treatments from a licensed facilitator. Mr. Treptow confirmed he would.

Councilmember Leinweber stated these healing centers need to be accessible, available and safe, but he believes a mile radius setback is too extreme.

Councilmember Avila stated the mile radius setback will make healing

centers not accessible, this natural product seems to help a lot of individuals, and she would like to see at least one healing center in each City Council District.

Councilmember Henjum stated this community has the highest suicide rate in the state with one in four being a veteran and would like to amend the Ordinance to a 1,000-foot setback from schools and childcare facilities and require a clinical facilitator who is practicing at their existing office space as long as they're within ten minutes of a medical facility or a healing center that is co-located within a medical facility.

Councilmember Leinweber asked if the condition of ten minutes of a medical facility can be enforced. Mr. Walker stated would be problematic of a regulatory function and would need to be more definitive. Mr. Walker stated requiring the healing center to be located near emergency services would also be restrictive and most emergency calls are responded to by the Colorado Springs Fire Department/and or ambulance services Councilmember Henjum removed those recommended conditions.

Councilmember Henjum asked if healing centers are already required to have a clinical facilitator on site. Ms. Poinsette stated there are two license types for facilitators, a facilitator and a clinical facilitator, who also holds a license to practice medicine or psychotherapy.

Ben Bolinger, Legislative Counsel, City Attorney's Office, stated the 1,000-foot setback is already mandated by the State so City Council cannot reduce that setback, only expand it and they cannot amend the State licensing requirements and restrict healing centers to only have clinical facilitators. Ms. Poinsette stated there is a provision in State statute which allows local jurisdictions to reduce or waive the 1,000-foot setback. Mr. Bolinger stated the City cannot restrict licensed facilitators from operating within the City.

Councilmember Risley stated he is concerned about putting regulatory requirements in a Chapter 7 Code amendment for land use. Mr. Bolinger stated City Council should only consider land use as it relates to the Ordinance.

Councilmember Henjum asked if this Ordinance could be postponed. Mr. Bolinger stated that on December 31, 2024, the State will begin taking

licensing applications so prior to that date is City Council's opportunity to regulate the land use. Councilmember Henjum asked how many applications they are anticipating during the first ten days of the new year. Ms. Poinsette stated most jurisdictions are taking a "wait and see" approach with the expectation that a majority of businesses are not going to pursue licensure immediately.

Councilmember O'Malley stated they should move forward with the amendment and the original vote.

Councilmember Donelson stated he believes there are medical benefits from the use of psilocybin, but the citizens of Colorado Springs did not vote in favor of it so he will not support reducing the setback to 1,000 feet.

Councilmember Avila stated she feels the one-mile setback is too restrictive and requested an amendment reducing the setback to 2,000 feet.

**Motion by Councilmember Henjum, seconded by Councilmember Leinweber, that the Ordinance be amended to change the setback from one mile to 1,000 feet. The motion failed by a vote of 3-6-0-0.**

**Aye:** 3 - Avila, Henjum, and Leinweber

**No:** 6 - Crow-Iverson, Donelson, Helms, O'Malley, Risley, and Talarico

Councilmember Leinweber made a motion to change the setback to 2,000 feet and limit the number of healing facilities to two in each City Council District. Mr. Bolinger stated limitations on the number of healing centers operating would be a very problematic fit for the Zoning Codes and City Council Districts change constantly, so if Council wants a geographical limitation, they may want to choose a different a way of defining it. Councilmember Leinweber withdrew his condition to limit the number of healing centers.

**Motion by Councilmember Leinweber, seconded by Councilmember Avila, that the Ordinance be amended to change the setback from one mile to 1,000 feet. The motion failed by a vote of 3-6-0-0.**

**Aye:** 3 - Avila, Henjum, and Leinweber

**No:** 6 - Crow-Iverson, Donelson, Helms, O'Malley, Risley, and Talarico

Councilmember Leinweber asked if they could require a setback between healing centers. Sarah Brewen, Attorney, City Attorney's Office, stated all of the natural medicine businesses with the exception of the testing center can be co-located. She said the only distinction is that they cannot be co-located with marijuana or alcohol.

Councilmember Avila asked what the State's setback requirements are for cultivation, manufacture and testing. Ms. Brewer stated the State does not have any setback restrictions for those, but the proposed Ordinance requires a 1,000-foot setback for cultivation, manufacture, and testing, and a one-mile setback for healing centers.

**Motion by Councilmember O'Malley, seconded by President Pro Tem Crow-Iverson, that the Ordinance amending Part 2 and Part 3 of Article 3, and Section 1003 of Part 10, of Article 4, and Part 3 of Article 6; of Chapter 7 (Unified Development Code) of the Code of the City of Colorado Springs 2001, as amended, pertaining to natural medicine land use regulations be approved on first reading. The motion passed by a vote of 6-3-0-0**

**Aye:** 6 - Crow-Iverson, Donelson, Helms, O'Malley, Risley, and Talarico

**No:** 3 - Avila, Henjum, and Leinweber

Kyle Fenner, Senior Planner, Planning Department, presented the Jovenchi-Kettle Creek zone change from A (Agricultural to MX-M (Mixed-Use Medium Scale) and land-use plan pertaining to 40.20 acres located at the intersection of North Powers Boulevard and Interquest Parkway/Highway 83. She provided an overview of the vicinity map, applications, project summary, site plan, background, surrounding land uses, stakeholder involvement, timeline of review, agency review, PlanCOS compliance, application review criteria, and City Council motions.

Councilmember Donelson asked if there was a unanimous approval by the Planning Commission. Ms. Fenner stated they voted 7-2 in favor of the zone change and 6-3 in favor of the land use plan and the negative votes were largely due to traffic concerns.

Councilmember Risley stated there was an agreement with the Colorado Department of Transportation (CDOT) that there would be a full-movement access intersection at this site.

President Helms believes traffic issues will be resolved once the Powers Boulevard corridor is completed.

Jason Alwine, Matrix Design Group representing the applicant, identified the proposed commercial land uses, traffic concerns, where the full movement intersections will be located, access points, logical utility extensions, and stormwater improvements.

Councilmember Donelson requested additional information regarding the full movement intersections. Mr. Alwine stated they will be lighted four-way intersections.

Citizen Barb Newland spoke in opposition to the project.

Mr. Alwine stated this site was previously identified as commercial in the Briargate Master Plan, according to Planning criteria, this is a great intersection for commercial development, and their Traffic Study was submitted and approved by the City's Traffic Engineering Department and CDOT.

President Helms stated he is very familiar with the traffic in this area, but he is confident the improvements being made in the next few years will fix

many of the traffic issues and he supports this project.

Councilmember Avila requested additional information regarding the weigh station. Ms. Fenner stated Highway Patrol periodically sets up portable weigh stations due to truckers using Highway 83 to bypass the weigh station on Interstate 25.

**Motion by Councilmember O'Malley, seconded by Councilmember Risley, that the Ordinance No. 24-101 amending the zoning map of the City of Colorado Springs to 40.20 acres located at the intersection of North Powers Boulevard and Interquest Parkway/Highway 83 from A (Agricultural) to MX-M (Mixed-Use Medium Scale) be finally passed.
