Ms. Furlonge,

Thank you for your email and comments. For information to consider: I have asked whether the owner intends to seek any government housing assistance and was told a definite no; this will be market rate apartments.

Sincerely,

Tasha Brackin

Please note that due to the dynamic pandemic situation the City Planning staff are working remotely. In-person meetings are suspended until further notice. Exhibits and documents may be shared via e-mail or Dropbox, and printed copies for submittals may be dropped off on the 1st floor of the City Administration Building. Thank you for your understanding.

I am still against this project. I do not believe it will be for multi family housing, but, for folk on assistance or what we called welfare back in the day. They, generally, have no respect for the property nor for the property of others. Owning a corner property, I have enough filth left on my grounds, soda cans, bottles, liquor bottles, food containers, etc without flooding the place with more irresponsible people.
