

7.4.203: PARKING SPACE REQUIREMENTS BY USE:

https://codelibrary.amlegal.com/codes/coloradospringsco/latest/coloradosprings_co/0-0-0-10237

A. Minimum Number Of Off Street Parking Spaces: The minimum number of off street parking spaces to be provided for a use is listed in the following table. All parking ratios are based upon the gross floor area contained within the building. When the computation of the required off street parking spaces results in a fraction, the requirement shall be rounded to the nearest whole interval. Fractions of 0.5 or less shall be rounded to the next lowest whole number. Fractions greater than 0.5 shall be rounded to the next highest whole number. Parking amounts required for uses in MU zone districts are subject to the supplemental parking requirements and standards in subsection [7.3.712B](#) of this chapter. Alternative parking requirements may be established as a part of an FBZ regulating plan.

The required off street parking spaces for a use which is not specifically listed, shall be determined by the Manager based upon the requirements of other listed similar uses.

Note:

1. Square footage is based off the gross floor area within a particular business.

B. Mixed Uses: In the case of mixed uses (i.e., restaurant and hotel) and uses with two (2) or more different functional areas (i.e., warehouse with office, dining area within a convenience food store), the total requirement for off street parking spaces shall be the sum of the requirements for each of the various uses.

C. Commercial Centers: The commercial center parking space requirements listed in subsection A of this section shall apply regardless of the mix or number of different uses within the commercial center, when one of the following conditions exists:

1. The commercial center is specifically identified on the development plan as the approved land use;
2. A commercial development not specifically identified as a commercial center on the development plan is subsequently defined as a commercial center per subsection [7.2.302C9](#) of this chapter;
3. When evidence of common parking, access, and/or maneuvering agreements are provided; or
4. All common parking, access, and maneuvering areas are located on one lot and accessible to all tenants.

Freestanding buildings with one or two (2) uses within a commercial center shall provide parking spaces for the use(s) required based upon the approved use(s) and not be included as part of the overall center parking calculations.

D. Repair Bays: Within an automobile service station, repair garage, or other similar use repair bays shall not be counted as part of the required off street parking spaces.

E. Drive-Up Restaurant Parking: For restaurant types where food is ordered from, delivered to and consumed within a vehicle, the parking requirements shall be based upon the gross floor area of the building in which the food is prepared as well as the area of the parking stalls designed to accommodate in-vehicle food consumption.

F. Exception: Except as noted below, the City's parking requirements shall apply to TNDs: In neighborhood centers and for multi-family developments, directly adjacent on street parking may be counted toward meeting the minimum requirements of those neighborhood centers or multi-family developments. The provision of on site parking spaces shall not exceed one hundred twenty five percent (125%) of the minimum parking requirements as specified in this Zoning Code. Where shared parking is used, a shared parking and cross access agreement shall be recorded. Where shared parking is used, the parking requirements for those uses may be reduced a maximum of twenty percent (20%).
