Councilmember Knight stated he does not want a neighborhood to be able to request historic preservation overlay without the consent of all the property owners inside the area and asked why the language “with an emphasis on a local organization taking the lead” replaced “with an emphasis on neighborhood identification signage and history”. Daniel Sexton, Principal Planner, Planning and Community Development, stated after further discussion with the Historic Preservation Board, the Planning Commission, and City Council, they are attempting to reinforce the element of private property control and wanted the neighborhood as a whole coalesce an initiative to protect their neighborhood.

Motion by Councilmember Gaebler, seconded by Councilmember Murray, that the Resolution adopting HistoricCOS as the new City of Colorado Springs Historic Preservation Plan, based upon the findings that the request is consistent with the purpose for a master plan as set forth in City Code Section 7.5.401 and meets the review criteria for granting a major master plan amendment as set forth in City Code Section 7.5.408 be adopted. The motion passed by a vote of 8-0-1-0

[Signed CSU Letter of Support](#)

Bret Waters, Deputy Chief of Staff, stated the cover memo was amended as directed by City Council.

Councilmember Pico stated he does not object to electric vehicles or a study of what it would take to prepare for electric vehicles, but is opposed the grant application to convert one-hundred percent of the City's and Colorado Springs Utilities' (CSU) vehicles. Mr. Waters stated this grant application is only to establish a framework for conversion of electric vehicles and the City is not compelled to convert one-hundred percent of the City's or CSU vehicles.

President Pro Tem Strand asked if the intent of the grant application is for the City to convert all of the City's fleet. Mr. Waters stated the grant application states "a roadmap for conversion of the City and CSU fleet for electric vehicles." Ryan Trujillo, Support Services Manager, stated the intent is for the City to be prepared.

Motion by Councilmember Murray, seconded by Councilmember Gaebler, that the Resolution endorsing the Mayor's submission of a grant application to the Colorado Department of Local Affairs for development of a Colorado Springs Electric Vehicle Readiness Plan and execution of a grant agreement awarding funds for development of the plan be adopted. President Skorman recused himself.

Councilmember Avila disclosed that she is a graduate of Colorado College, but believes she will be fair and objective in her decision on this item.

Ryan Tefertiller, Manager, Urban Planning Division, Planning and Community Development Department, gave a brief background on the Robson Arena project, applications, stakeholder outreach, stakeholder input, application details, and plan details. He gave an overview of the analysis of the Form-Based Zone (FBZ) standards, parking, traffic, conditional use criteria, vacation criteria, modifications, and the recommendations by the Downtown Review Board and staff.

Bob Cope, Economic Development Manager, gave a brief overview of the City for Champions (C4C) project, the C4C projects proposed for the City, anticipated sales tax revenue, job opportunities, economic growth, and recognized the partners involved in the project.

Councilmember Knight asked how the City will be insuring the use of uniformed traffic control at events. Mr. Tefertiller stated the Felsburg, Holt & Ullevig (FHU) traffic study does call for the use of uniformed traffic control at large events and Colorado College is fully committed to that requirement. Councilmember Knight asked if this commitment can be enforced by the City. Marc Smith, Corporate Division Chief, Office of the City Attorney, stated he will research that information.

Councilmember Knight asked if the 324 stalls in the parking structure could be mandated. Mr. Tefertiller stated if the development plan is amended by a small amount it could be processed Administratively, but City Council could define the number it is allowed to be reduced by. Councilmember Knight stated it should come before City Council if the number of stalls go below 310.

Councilmember Knight asked if the moving of utilities was going to be Colorado College's expense. Aram Benyamin, Chief Executive Officer, Colorado Springs Utilities, stated the Utilities Rules have been applied in regards to cost share and they will make the plan available to the public.

Councilmember Knight asked if residential parking permits will be required for the surrounding neighborhoods. Travis Easton, Public Works Director, stated the blocks around the arena will have residential parking permits.

Councilmember Murray commented that there will be overlapping traffic issues without the coordination between the events of nearby venues.

Chris Lieber, NES, Inc., representing the applicant, identified the project teams and went over the Robson Arena entitlement applications, the studies conducted, land-use criteria, site context, mixed land use context, adjacency zoning context and the site plan. He gave an overview of the interior and exterior of the arena, parking requirements, traffic analysis, master plan amendment criteria, conditional use criteria, and right of way vacation criteria.

Lesley Irvine, Vice President and Director of Athletics, Colorado College, gave an overview of the project goals.

Lisa Bachman, Bachman PR, identified the public engagement process.

Councilmember Geislinger recommended a discussion of the coordination of public art with Weidner Stadium which is another C4C project. Mr. Lieber agreed to look into that.

Councilmember Pico stated the amount of available parking in the area is the biggest issue. Mr. Lieber stated primarily, the large events will take place Friday and Saturday evenings, during school breaks, and in the summer which the current parking options could accommodate.

Councilmember Pico requested the net increase of parking stalls which will be added with this project. Mr. Lieber stated approximately 424 spaces.

Councilmember Knight asked what are the chances the 324 parking stalls will be reduced when the design of the parking structure is complete. Mr. Lieber stated they have already been confirmed in the design development plan.

Councilmember Knight asked how many students attend Colorado College during the summer months. Robert Moore, Senior Vice President for Finance Administration, Colorado College, stated there are approximately five hundred students who attend during the summer.

Councilmember Knight asked how the eighty percent of season ticket holders who have obtained pre-paid parking passes was calculated. Mr. Lieber stated it was based on counting passengers in the vehicles as they entered and comparing it to the national studies.

Citizens Cheryl Brown stated the Robson Arena would contribute to additional parking challenges and potential deleterious impacts to the Near North End Neighborhood. She went over how the arena is not in compliance with the City's conditional use and master plan criteria. Ms. Brown gave an overview of what they have requested from Colorado College, their response to the requests, and presented a map of the proposed parking permit locations.

Citizens Monica Hobbs and Leo Finkelstein spoke in opposition of the proposed Robson arena project.

Citizens Lee Siewart, Glenn Carlson, Doug Price with Visit Colorado Springs, Len Kendall with the Downtown Partnership, George Swintz, Brandon Straub, Mark Tremmel, Linda Weise, CEO of the Colorado Springs Conservatory, and Warren Epstein spoke in support of the proposed Robson arena.

Bob Cope stated in interest of time the following individuals expressed their support of the project: Rachel Beck with the Chamber of Commerce and EDC, Stephanie Finley, Jenifer Furda with the University of Colorado, Colorado Springs (UCCS), and Randy Case the Chair of the Colorado Springs Urban Renewal Authority (URA).

Tim O'Donnell, Council of Neighborhoods and Organizations (CONO), requested the robust and complete public process continues throughout the scope of this project.

Citizen Pat Doyle expressed gratitude for the way the process was handled by the organizations and neighbors.

President Pro Tem Strand asked how the commitments made by Colorado College will be assured. Mr. Lieber stated the commitments made today are on the record and when this project began, there was no parking garage, the arena was on the south half of the lot, and the college has invested millions of additional dollars due to the conversations with the community.

Councilmember Murray and Councilmember Gaebler stated they believe this project is in the best interest of the City.

Councilmember Pico stated there is potential for this project and requested continued collaboration with the neighborhood.

Councilmember Avila stated this project is a great use of land which may support more transit in the neighborhood and create a tighter community.

Motion by Councilmember Murray, seconded by Councilmember Gaebler, that the minor amendment to the Colorado College Master Plan based on the findings that the criteria found in Section 7.5.408. of the City Code will be met once the following technical modifications are addressed: Technical modifications to the master plan amendment: 1. Adjust the labels for the new arena, the new parking structure, and the future development area south of the garage so that the labels do not interfere with the College-owned land a block to the east on Weber be approved. The motion passed by a vote of 7-0-1-1

Motion by Councilmember Murray, seconded by Councilmember Gaebler, that the Conditional Use Development Plan based on the findings that the Conditional Use criteria found in Section 7.5.704 of the City Code will be met once the following technical modifications are addressed:

Technical modifications to the Conditional Use plan:

1. Finalize approval of the project's drainage report.
 2. Correct the parking table on sheet 1 of the plan to accurately reflect FBZ-specific parking requirements.
 3. Document the dimensions of new on-street parking stalls and drop-off areas to ensure that adequate width and depth are available.
 4. Address the minor landscape plan items described in detail in the October 25, 2019 staff review letter including:
 - a. Document the square footage of wood mulch and sod proposed
 - b. Confirm the design and extent of tree planting "trenches" and tree staking type
 - c. Revised street tree type to comply with the City's approved street tree list
 - d. Ensure that all proposed tree grates are shown with trees
 5. Update the facilities sheet with the plat name on the sheet title and to ensure consistency between the legend and line types on the plan.
 6. Update the plan to clarify which pedestrian ramps are being replaced by the developer.
 7. Progress to be made on a comprehensive parking plan that addresses neighborhood concerns.
 8. The design of the Nevada facing wall include architectural modifications that engage the community.
- as amended that any change in the parking structure with a variance of three percent or more would require approval by the Downtown Review Board be approved. The motion passed by a vote of 7-0-1-1
