

Project: New Garage Build
Address: 1428 Wood Avenue Colorado Springs, CO 80907
Owners: Chris Gobrecht
coachgobrecht@gmail.com
Primary Residence

Currently there is no garage or structure on property that would serve as a garage. Concrete and foundation have been paid for in full and arranged with Sunset Sheds. Foundation will be poured in 3-5 days with garage build projected to be completed in 5-7 days. Project is hoped to be completed after approval / permits in December before ground freezes and foundation is unable to be poured. Material used is wood and will be painted a shade of blue to appropriately match the existing home. Shingles for the garage have also been selected to match the existing home on property. There are no plans to place heating/cooling/plumbing to the garage. Owner will comply with HP standards and will adapt any changes that the City of Colorado Springs deems necessary.
