## 7.3.104: AGRICULTURAL, RESIDENTIAL, SPECIAL USE AND TRADITIONAL NEIGHBORHOOD

### DEVELOPMENT ZONE DISTRICT DEVELOPMENT STANDARDS:

The development standards for the residential zone districts are listed in the following tables. The first table, titled "Agricultural, Residential, Special Use And Traditional Neighborhood Development Zone District Development Standards", lists the minimum district size, minimum lot area, minimum lot width, minimum building setbacks, maximum lot coverage and maximum building height for the majority of the zones. The second table, titled "Mobile Home Park Development Standards", contains the development standards for mobile home parks in the PUD zones. The third table, titled "Design Flexibility Overlay Zone Development Standards", lists the resulting changes for the designation of the design flexibility overlay zone to the R estate, R-1 9000 and R-1 6000 zone districts. Other site development standards relating to items such as landscaping, parking, signs, fences, lighting, and preservation areas and exceptions relating to building height, lot area and width, and setback requirements are listed in [article 4 of this chapter](#) and apply to development in these zone districts. When mixed use infill development or mixed use redevelopment occurs within the SU zone district, the development standards in [article 4 of this chapter](#) shall apply.

UPD 08.10.20

Notes:

1. Specific development standards for the PUD and TND zones are determined at the development plan review stage in accord with density established with the specific zones.
2. 5 and 6 stories may be allowed; use the density for a four-story building (600 square feet per unit) for calculations.
3. Applies to the periphery of the development project and does not apply when platting around individual unit(s) or platting along a common wall.
4. When platting individual duplex units, each lot must contain 3,500 square feet in the R-2 and 3,000 square feet in the R-4, R-5 and SU districts.
5. For single-family detached and two-family lots, lot coverage for principal and accessory structures shall not exceed 60 percent.
6. Within a TND zone, landscape requirements noted in the TND zone ordinance may supersede the City's landscape code site category requirements.
7. Lot coverage flexibility is being provided for single level homes compared to two-story (above grade) homes; the intent is to allow additional lot coverage for single level homes while providing a variable architectural mix on similar sized lots.
8. TND heights are to be determined based on street adjacency, as follows:

## TND MAXIMUM BUILDING HEIGHT

<u>Street Type</u>	<u>Maximum Height</u>
Alley	Not to exceed primary dwelling on lot
Lane	30 ft.
Neighborhood	35 ft.
Main	40 ft.
Avenue	70 ft.

**Notes:**

1. When a development provides a dedicated landscape tract between the right of way of a major or minor arterial and an adjacent lot, the landscape tract may be used to meet the required 40 foot or 30 foot rear/front yard setback amount. However, each lot must continue to maintain the minimum rear yard setback requirement (i.e., 20 feet or 25 feet) for that particular zone. All other nonconflicting minimum standards specified in the base zone shall apply.
2. Lot coverage flexibility is being provided for single level homes compared to two-story (above grade) homes; the intent is to allow additional lot coverage for single level homes while providing a variable architectural mix on similar sized lots.
