Appeal of Planning Commission's Approval of  
a Conditional Use Permit

# Appeals

1. G.W. Flanders, cites a perceived disregard of the City's Hillside Ordinance as grounds for appeal.
2. The second appeal, submitted by Angus and Gail Morrison, alleges the findings of the Planning Commission "did not conform to City [Code] Section 7.5.704 and were erroneous, unreasonable, contrary to law and not supported by the available evidence."

In order to keep the evidence, discussion and Council's deliberation clear and on-point, two separate motions are recommended by staff.
