Brett Lacey, Fire Marshall
City of Colorado Springs
Colorado Springs, CO

Dear Brett,

On behalf of the Council of Neighbors and Organizations, I am pleased to endorse your efforts to remove the significant threat posed to residents and neighborhoods by the currently unregulated production of hash oil in Colorado Springs.

It is very important that the City move quickly to close the gap in protection from the risk of the production of hash oil in neighborhoods.

CONO supports your efforts and, specifically, the proposed ordinance to regulate the production of hash oil.

Thanks very much for your work in this area.

Please let me know if CONO can be of any assistance on this issue.

Best regards,

Dave Munger
Executive Director
