Kevin Walker, Director, Planning Department, stated it is primarily because the areas are owned by the metropolitan districts themselves rather than the City.

Councilmember Henjum asked if stormwater and sidewalk infrastructure will be maintained by the metropolitan district. Mr. Walker stated there are roads, sidewalks, and traffic signals in this development which will be maintained by the City.

Councilmember Henjum asked if the park will be a City park. Mr. Walker stated it will be a private park because otherwise there would be an IGA required for the maintenance of the park.

He provided an overview of S. Nevada security area, calls for service, and security fees.

Councilmember Casey asked how they will measure success. Mr. Walker stated by new development being added to the area.

Councilmember Casey asked if there is a cancellation clause in the contract if they do not see a difference. Mr. Walker confirmed they could sit down with Fidelis Security Solutions and see if there needs to be a pivot.

Councilmember Casey asked if Fidelis would have direct contact with the Colorado Springs Police Department (CSPD). Mr. Walker stated Fidelis Security Solutions Officers will attempt de-escalation efforts, which will hopefully reduce the number of calls to CSPD but will call CSPD if

required.

Councilmember Casey asked if CSPD will have access to the feed from the Fidelis Security Solutions drones. Adrian Vasquez, Chief, CSPD, stated they do not.

President Pro Tem Risley stated he agrees that there needs to be metrics in place to track the return on investments and explained that this additional security will also benefit existing business in this corridor which in turn benefits the City's sales tax revenue and would reduce the burden on CSPD.

Councilmember Donelson stated that loitering also needs to be addressed so that citizens are not afraid to get out of their vehicles and because taxpayer dollars are being used, this level of security needs to be applied in all areas of the City. Mr. Walker stated this approach would allow them to model this in other parts of the City, but this area has the biggest concentration of activity of this nature which needs to be addressed.

Councilmember Donelson asked if this money should be used for additional assets to CSPD. Chief Vasquez stated his goal is to have enough officers to fill all positions across the City, but it takes approximately ten months for a new hire to be ready for the streets, so he feels this is a good solution at this time.

Councilmember Donelson asked if this would be a temporary solution. Chief Vasquez stated they hope to get to that point and not deploying a police officer to the events which could be de-escalated by Fidelis personnel.

President Crow-Iverson stated the sales tax collected by the businesses in that area help fund CSPD.

Councilmember Leinweber stated this is a nationwide issue, and he believes the City needs to find alternatives to take the next step even if they do not have solutions to solve all the problems.

Councilmember Rainey stated the adjacent corridor influences South Nevada Avenue area and asked how the policies of the service providers in that corridor will be addressed so the individuals do not get pushed into the South Nevada Avenue corridor. Mr. Walker stated they will have to continue to work with those providers regarding being good neighbors.
