Ordinance No. 16-57 creating a twelve (12) month moratorium on the processing of any land use approval or licensing application for a new medical marijuana facility or the change of location of a currently operating medical marijuana facility within the City limits

Presenter:

Councilmember Larry Bagley

Res/Ord Number: 16-57

Councilmember Bagley stated the medical marijuana task force recommended this moratorium to allow time for the City to develop legislation to regulate identified concerns associated with medical marijuana industry.

Councilmember Murray spoke in opposition to the moratorium stating it will inflate prices and not solve the problems.

Councilmember Collins stated she does not support the moratorium in keeping with her conservative approach to government and opposition to regulation and home rule.

Council President Pro Tem Gaebler asked how many medical marijuana dispensaries are currently licensed in the City. Councilmember Bagley stated there are currently 135 licensed medical marijuana dispensaries.

Ms. Gaebler stated she feels that is an adequate number of dispensaries to serve the community and she supports home rule and would like to give the community time to regulate the industry through this proposed moratorium.

Councilmember Pico stated the number of dispensaries seems disproportionately high compared to other municipalities in the State, noting Denver recently passed legislation capping the number of marijuana related business allowed to be licensed in their City. He would like to know why a year and not another six month moratorium is being proposed. Bret Waters, Deputy Chief of Staff, stated the task force specifically stated they need 12 months to address the concerns identified over the past six months and to properly research the items.

Mr. Wysocki stated the Planning Department is working on multiple projects and needs the additional time to properly research and develop a good plan to deal with this complex issue.

Councilmember Knight stated he initially supported the moratorium to regulate new industries entering the marijuana market such as the Gas and Grass concept. He now sees the extended moratorium as essential to allow time for the City to address all of the issues identified through the task force and properly regulate this industry.

Councilmember Bagley stated he believes the time is needed to consider the options and increase the stakeholder outreach.

Councilmember King expressed concern about the new moratorium not clearly defining the individuals that will be assigned to the group. Council President Bennett stated he would recommend Council designate the chair person and allow the chair to select the other team members. Council agreed this group should be a well-balanced representation of the stakeholders and kept to a manageable size.

Citizens Jaymen Johnson, John Curtain, Daniel Real, Clifton Black, Caitlin Hecht, and Tonya Gardino spoke in opposition of the proposed moratorium

Dale Hecht, member of the marijuana task force, spoke in opposition of continuing the moratorium and encouraged council to form a working group or task force to continue the work that has been started.
