3. BOUNDARIES, INCLUSIONS AND EXCLUSIONS

The District is proposed to initially include approximately 23 acres with boundaries as legally described in Exhibit C and as depicted in Exhibit D. In the coming years, the District anticipates inclusion requests as development within the District occurs.

4. PUBLIC IMPROVEMENTS

The District will primarily be concerned with the provision of public improvements and services within the boundaries of the District, however, there may be instances to provide improvements or services outside of the boundaries of the District as part of the project. The District shall have the authority to provide these improvements and services, but the revenue-

raising powers of the District to recoup the costs of existential improvements and services shall be as limited by state law.

The public improvements that the District anticipates it will construct, install or cause to be constructed and installed, include those public improvements the costs of which may, in accordance with the Business Improvement District Act, Section 31-25-1201, *et seq.*, C.R.S., lawfully be paid for by the District, including, without limitation, water services, safety protection devices, sanitation services, street improvements, curbs, gutters, culverts, drainage facilities, sidewalks, parking facilities, paving, lighting, grading, landscaping and storm and wastewater management facilities and associated land acquisition and remediation (the "Public Improvements").

The property owners of the District request that the City designate the territory within the District as a location for new business or commercial development under Section 31-25-1203(10), C.R.S.

5. ADMINISTRATION, OPERATIONS, SERVICES AND MAINTENANCE

The District shall provide for ownership, operation, and maintenance of District facilities as activities of the District itself or by contract with other units of government or the private sector. The District does not anticipate having any employees.

6. FINANCIAL PLAN AND BUDGET

- A. 2021 Budget.** The 2021 Budget for the District is attached as Exhibit B.
- B. Authorized Indebtedness.** It is anticipated that the District will hold an election on November 2, 2021 for the purpose of authorizing debt, taxes, revenue limits, spending limits, special assessments, and such other matters as may be necessary or convenient for the implementation of Art. X, Sec. 20 of the Colorado Constitution and the Operating Plan. The initial maximum debt authorization for the District shall be \$83,100,000. The initial maximum debt authorization amount is the aggregate debt authorization for the District and the GSF Metropolitan District Nos. 1 & 2, which are being formed in conjunction with the District. The District shall not issue debt in excess of the initial maximum debt authorization amount without the City's express prior approval. The initial maximum debt authorization will provide the District with sufficient debt capacity to finance the proposed Public Improvements for the entire project. The total amount of the cost of the proposed Public Improvements for the project will be allocated between the District and the GSF Metropolitan District Nos. 1 & 2 as appropriate and as development occurs.
- C. Property Tax and Mill Levy Caps.** The District taxing ability shall be constrained to a mill levy limitation of up to 50 mills for debt service and up to 10 mills for general operations and administrative expenses due to the on-going operations and maintenance the District will undertake within its boundaries; provided, that if on

or after January 1, 2006, there are changes in the method of calculating assessed valuation or any constitutionally mandated tax credit, cut or abatement; the mill levy limitations may be increased or decreased to reflect such changes, such increases or decreases to be determined by the Board in good faith (such determination to be binding and final) so that to the extent possible, the actual tax revenue generated by the mill levy, as adjusted for changes occurring after January 1, 2006, are neither diminished nor enhanced as a result of such changes. For purposes of the foregoing, a change in the ratio of actual valuation shall be deemed to be a change in the method of calculating assessed valuation.

- D. *District Revenues.*** The District anticipates developer funding for initial revenue sources and thereafter revenues derived from property taxes. The District also anticipates relying on public improvement fees to support public improvement construction and future bonds for that purpose.
- E. *Existing Debt Obligations.*** The District has no current debt.
- F. *Future Debt Obligations.*** The District does not anticipate issuing any debt in 2021.
- G. *Other Financial Obligations.*** The District may enter into agreements, including reimbursement or similar agreements and leases, as well as agreements for ongoing services such as legal, administration, compliance, budget, audit, etc. It is anticipated that the District will enter into a developer reimbursement agreement to help fund the District's initial administrative and operational expenses.
- H. *City Charter Limitations.*** In accordance with 7-100 of the City Charter, the District shall not issue any debt instrument for any purpose other than construction of capital improvements with a public purpose necessary for development. As set forth in 7-100 of the City Charter, the total debt of any proposed District shall not exceed 10 percent of the total assessed valuation of the taxable property within the District unless approved by at least a two-thirds vote of the entire City Council.
- I. *Non-Default Provisions.*** Limited tax general obligation bonds issued by the District shall be structured and/or credit enhancements provided such that the bonds cannot default as long as the District is imposing the required maximum allowed mill levy.
- J. *Privately Placed Debt.*** Prior to the issuance of any privately placed debt for capital related costs, the District shall obtain the certification of an External Financial Advisor regarding the fairness and feasibility of the interest rate and the structure of the debt.
- K. *No City Obligation.*** The debt of the District will not constitute a debt or obligation of the City in any manner. The faith and credit of the City will not be pledged for the repayment of the debt of the District. This will be clearly stated on

all offering circulars, prospectus, or disclosure statements associated with any securities issued by the District

7. MUNICIPAL OVERSIGHT OF DISTRICT ACTIVITIES

A. *Audit.* The District agrees to submit an annual audit to the City Finance Department no later than March 1st of each year which is performed by an independent certified public accounting firm. Even if the state grants an audit exemption, the District must submit an annual audit as specified above.

B. *SID Formation.* The District affirms that it will provide an Amended Operating Plan and seek prior approval of City Council prior to formation of any Special Improvement District within its boundaries in the future.

C. *City Authorization Prior to Debt Issuance.* In accordance with the City's Special District Policy, and notwithstanding any statements of intent in the Budget and Operating Plan, this District shall request and obtain approval of City Council prior to issuance of any debt in accordance with the financing plan for the District as previously approved. The standards for City approval shall generally be consistency with the City's Special District Policy as it may be amended along with the most recently approved operating plan and budget and any requirements or limitations contained therein to the extent that they are consistent with the financing plans for the District.

D. *Public Improvement Fees.* This District anticipates utilizing revenues from a public improvement fee.

E. *Condemnation.* The Colorado Revised Statutes do not authorize BIDs to use powers of eminent domain. The exercise of eminent domain authority by any City-authorized district is also specifically prohibited without express prior City Council approval.

8. 2021 ACTIVITIES, PROJECTS AND CHANGES

A. *Activities.* It is anticipated that the District will primarily be engaged in the initial organization activities for the area and improvements planning in 2021.

For Title 32 Metropolitan Districts, the Model Service Plan contains the complete and comprehensive description of all Policy components.
3. In accordance with 7-100 of the City Charter, the District shall not issue any debt instrument for any purpose other than construction of capital improvements with a public purpose necessary for development.
4. As set forth in 7-100 of the City Charter, the total debt of any proposed District shall not exceed 10 percent of the total assessed valuation of the taxable property within the District unless approved by at least a two-thirds vote of the entire City Council.
5. Any proposed District must commit to the City that its mill levy dedicated to repaying any bonded debt will not exceed the greater of 30 mills for residential properties or 50 mills for commercial properties and may be Gallagher adjusted (or otherwise adjusted) to the extent permitted by law. The maximum allowed for operating is 10 mills for both residential and commercial properties which may be Gallagher adjusted (or otherwise adjusted) to the extent permitted by law.
6. The District shall not consent to the organization of any other district organized under the Special District Act within the Service Area which will overlap the boundaries of the District unless the aggregate mill levy for payment of Debt of such proposed districts will not at any time exceed the Maximum Debt Mill Levy of the District.
7. Districts shall not impose a debt service mill levy on any District initially established as a Residential District which exceeds 40 years after the year of the initial imposition of such debt service mill levy unless: (1) a majority of the Board of Directors of the District imposing the mill levy are residents of such District and (2) such Board has voted in favor of issuing debt with a term which requires or contemplates the imposition of a debt service mill levy for a longer period of time than the limitation contained herein.

8. The District cannot issue debt or certify a debt service mill levy until the property included within the District has a City approved Master Plan and other more detailed land use approvals.
9. Limited tax general obligation bonds issued by a District shall be structured and/or credit enhancements provided such that the bonds cannot default as long as the District is imposing the required maximum allowed mill levy.

No District will be allowed to impose a sales tax.
12. The debt of any District will not constitute a debt or obligation of the City in any manner. The faith and credit of the City will not be pledged for the repayment of the debt of any District. This will be clearly stated on all offering circulars, prospectus, or disclosure statements associated with any securities issued by the District. Districts formed under Title 32, CRS shall not utilize the City of Colorado Springs' name in the name of the District.
13. The issuance of all bonds or other debt instruments of Districts shall be subject to the approval of the City Council. City Council's review of the bonds or other debt instruments of the Districts shall be conducted to ensure compliance with the Service Plan and all applicable laws.

Proceeds from the sale of debt instruments and other revenue of Districts may not be used to pay landowners within the District for any real property required to be dedicated for public use by annexation agreements or land use codes. Examples of ineligible reimbursements include but are not limited to: the acquisition of rights of way, easements, water rights, land for prudent line drainage, parkland, or open space unless consent from the City Council is given. Proceeds from the sale of debt instruments and other revenue of Districts also may not be used to pay for the construction of any utility infrastructure except for those categories of utility infrastructure covered by utility tariffs, rules, and regulations. Additionally, if the landowner/developer constructs the public infrastructure and conveys it to the District in return for a reimbursement obligation from the District, prior to making such reimbursement for such amounts, the District must receive the report of an independent engineer or accountant confirming that the amount of the reimbursement is reasonable.

16. Should the District construct infrastructure subject to a recovery agreement with the City or other entity, the District retains all benefits under the recovery agreement. Any such reimbursements for public improvements installed or financed by a District will remain the property of the District and be applied towards the repayment of its bonded debt, if any. Any reimbursement revenue not necessary to repay District bonded debt may be utilized by the District to construct additional public improvements as approved by City Council. The above provisions also apply in their entirety to circumstances where the public infrastructure has been constructed by the landowner/developer and subsequently conveyed to the District in return for a reimbursement obligation from the District; under those circumstances all applicable recovery agreements will be assigned to the District.
17. The existence of the District will not be considered a substitute for a financial assurance.
18. The City will establish and charge review and filing fees commensurate with the actual cost of processing and reviewing new and amended plans. Such fees are established by separate Council resolution and made available to all Service Plan applicants.
19. Districts shall take all reasonable steps necessary to ensure adequate disclosure of the existence, financial condition, and status of the District to all property owners within its boundaries.
