Carl Schueler, Comprehensive Planning Manager, Planning and Development Department, presented the Authorization of Creekwalk Marketplace Business Improvement District (BID) to issue debt in the form of Series 2019A and Series 2019B Limited Tax Supported and Special

Revenue Bonds. He also identified the three properties which have submitted petitions for exclusion and said there would be a \$385,000 impact if the mill levy from these properties were not collected for the debt.

Councilmember Pico asked if the exclusions will impact the ability for repayment of the bonds and what the impact would be of postponing this item until the exclusion issue is resolved. Russ Dykstra, Spencer Fane, LLP, representing the district, stated the bond issuance is in accordance with the operating plan of the district. He stated there is pending litigation involving one of the petitioners for exclusion and the district which limits what is allowed to be discussed due to ex parte communication. Mr. Dykstra stated the potential exclusion would result in \$385,000 of bonding capacity and because of the number of improvements proposed, they believe these properties should be required to pay their fair share. He stated they have a very specific schedule set with the Urban Renewal Authority (URA) as part of the development agreement which would be significantly impacted if the approval is postponed and they already have construction contracts being negotiated which cannot be signed until the bonds are approved. Mr. Dykstra stated the bond market is extremely volatile and they are trying to get the best rates possible.

Councilmember Gaebler asked if the properties are excluded from the BID will they still be obligated to pay for public improvements. Marc Smith, Division Chief, Corporate Legislative Counsel, stated once the debt is issued, the properties that are included in the BID will be required to pay in relation to that issuance.

Councilmember Gaebler asked what public improvements are proposed for this area. Mr. Dykstra stated the Tax Increment Financing (TIF) revenue will go toward the widening of Cheyenne Road, the streetscape improvements along Nevada Avenue, and the power line undergrounding. Jariah Walker, Executive Director, Urban Renewal Authority (URA), stated the schedule of performance which is embedded in the development agreement does have the bond issuance scheduled for the February through April, 2019 timeframe and construction of public improvements starting between December 2019 and December 2020.

Councilmember Knight asked how the excluded properties could still be held liable for the debt. Mr. Schueler stated the excluded properties would still have financial obligation for the debt incurred prior to the exclusion

unless it is released from the bond holders or the district. Councilmember Knight asked if the debt was approved would City Council then have to deny the exclusion. Tom Florzak, Deputy City Attorney, stated the exclusion could still be granted, but the property would still be liable for debt incurred prior to the exclusion.

Councilmember Knight asked if City Council approves the debt, how long it will be until the bonds are signed. Mr. Dykstra stated they anticipate they will be issued within two weeks.

Councilmember Williams asked what the cost of burying the utilities lines is. Mr. Dykstra stated approximately \$2M and Colorado Springs Utilities' portion is fifty percent of that amount.

Jeff Massey, representing the petitioners for exclusion, stated the petition for the request for exclusion occurred when the petitioners received an increase in their property tax of 78.97 percent and the 51 mill levy cost to be in the BID.

Mr. Dykstra stated the proposed bond issuance before City Council complies with the operating plan.

President Skorman asked if May 22, 2019 would work for the exclusion hearing. Both parties agreed it would.

Councilmember Knight stated he does not support the delay because he feels the petitioners for exclusion voluntarily signed the petition and they should have been aware of what they were signing.

Motion by Councilmember Pico, seconded by Councilmember Geislinger, that the Resolution authorizing the Creekwalk Marketplace Business Improvement District to issue debt in the form of Series A Limited Property Tax and Public Improvement Fee Revenue Bonds in the approximate amount of \$18,145,000 and Series B Limited Property Tax and Public Improvement Fee Revenue Subordinate Bonds in the approximate amount of \$3,030,000 be postponed to the May 22, 2019 Special City Council Meeting following the exclusion hearing. The motion passed by a vote of 7-2-0-0

Walter Lawson, appellant, stated they are not appealing items 12.A. and 12.B., only 12.C. and requested a postponement due to an illness that left him unable to research and prepare for the appeal hearing.

Citizen Steve Price spoke in favor of the requested postponement.

Councilmember Geislinger stated City Council has seen the records for what was presented to the Planning Commission and asked if the information presented will be same as what was presented at the Planning Commission meeting. Mr. Lawson stated there is new information to be presented to City Council that was not presented to the Planning Commission.

Councilmember Williams asked if a previous continuance had been requested. Mr. Lawson said there had been one to postpone to this meeting in order to have more time for research.

Chris Lieber, NES Landscape Architects, representing the applicant, stated from the project prospective, the action on this appeal should not be postponed. He stated this plan was approved by the City, the appeal was denied unanimously by the Planning Commission, and the project has been in process for four months. He stated the appellants do not live within the

immediate neighborhood of the project and a delay will have major impacts to the construction schedule and readiness for the 2020 Space Symposium.

Mr. Lieber stated with the pending appeal, the building permits cannot be approved.

Councilmember Murray asked if a temporary structure could be built for the 2020 Space Symposium similar to what was built for previous symposiums. Jack Damioli, President and CEO, The Broadmoor, stated in 2018, strong winds blew in the sides of the temporary structure which caused a twenty-four hour closure during the event.

Councilmember Pico stated the request for postponement should be denied.

Councilmember Avila stated Mr. Lawson's health should be considered and because the temporary structure has already been there for 20 years, a delay should not be an issue.

Councilmember Murray requested any Councilmembers who have ever received any benefit from The Broadmoor or the appellant to recuse themselves from the hearing.

Councilmember Geislinger stated he has previously worked with Steve Price and received benefit from The Broadmoor and has also spoke previously with Mr. Lawson regarding previous issues. He stated he does not have a bias for either side.

President Pro Tem Strand stated The Broadmoor held a campaign fundraiser for him, but does not believe it will affect his ability to make a decision based on the facts and testimony presented.

Councilmember Pico stated he has not received any campaign contributions, but has attended some dinners hosted by the Broadmoor. He stated he is neutral to the parties.

Councilmember Knight stated he received a \$250 campaign contribution from The Broadmoor in 2014 and has attended movie nights and dinners at The Broadmoor, but they have always been within the gift allowance.

Councilmember Gaebler stated she has not received any campaign contributions, but has accepted dinners at The Broadmoor.

Councilmember Williams stated he has attended events at The Broadmoor and his previous campaign fundraisers were held at, but not funded by The Broadmoor. He stated he has known Mr. Lawson and Cindy Culp for multiple decades as an El Paso County Commissioner.

President Skorman stated he received a contribution from The Broadmoor, the Sierra Club, and the Housing and Building Association (HBA) in 2003.

Marc Smith, Division Chief, Corporate Legislative Counsel, polled City Council if they had the ability to impartially judge this based on the testimony they receive and what is contained in the record. Consensus of Council agreed they did.

Motion by Councilmember Pico, seconded by Councilmember Geislinger, to deny the request for postponement of the appeal hearing to May 28, 2019 City Council Meeting. The motion passed by a vote of 7-2-0-0

Aye: 7 - Gaebler, Geislinger, Knight, Pico, Skorman, Strand, and Williams

No: 2 - Avila, and Murray

Lonna Thelen, Principal Planner, Planning and Community Development, provided an overview of the Broadmoor Event Center vicinity map, the existing property zoning, and gave a brief history of the area. She identified the development plan, the areas of concern which included use limitations, parking operation plan, employee parking, traffic generation letter, development review criteria, administrative relief, and nonuse variance.

President Pro Tem Strand asked how many employees are at The Broadmoor at any given time. Mr. Damioli stated on average 400-425 employee vehicles are parked there daily, but there are approximately 1,100 parking spaces in the parking structure and the proposed project will add an additional 241 parking spaces.

President Pro Tem Strand asked if there were any safety concerns from the traffic study that was conducted. Travis Easton, Director, Public Works, stated the volume of traffic generated from this project is not a concern.

Councilmember Knight asked if the traffic study was compared to the traffic volume of the Senior Open. Ms. Thelen stated it was not due to the traffic

study was done for a long term allowance.

Councilmember Murray asked how many events with over 4,000 people attending are anticipated per year. Ms. Thelen stated two to three events.

Councilmember Williams asked how the permanent structure will change traffic. Ms. Thelen stated the existing structure was much smaller.

Cindy Culp, appellant, stated they are not in opposition of The Broadmoor or the Space Symposium, but this is a land use decision. She stated they have three areas of concern 1. The Broadmoor Hall location, 2. Parking and transportation, and 3. Public safety wildfire threat. Donna Strom, representing the appellant, identified the concerns surrounding public safety regarding wildfire evacuation.

Councilmember Williams asked which roads are being considered as evacuation routes. Ms. Strom stated Lake Avenue, Cresta Road, and Mesa Avenue.

Councilmember Geislinger stated the number of people attending an event that would need to be evacuated would be the same regardless of whether or not it is a permanent structure or a temporary structure.

Lisa Bachman, Bachman PR, with the applicant, gave an overview of the neighbor and community communication and engagement.

Mr. Damioli, with the applicant, gave a brief history of the Broadmoor and the context of its land use which included, a rodeo rink, an ice skating rink, and greenhouses that were once located on the property. He identified the economic benefit of the Space Symposium and the issues with the temporary structure. Mr. Damioli gave an overview of the project, potential opportunity, events, operational models, and the location at the Broadmoor.

Ann Alba, Vice President Resident Manager, with the applicant, spoke about event planning and coordination.

Councilmember Murray asked if since The Broadmoor only has 784 beds, if hosting the larger events downtown would have more of a range of options for guests. Ms. Alba stated they have always been able to meet the demand.

Greg Maxwell, Director of Security, with the applicant, gave an overview of safety planning and emergency services coordination.

Mr. Lieber, with the applicant, gave an overview of the site context, traffic, parking, and shuttles.

Citizens Tom Zelibor, Jennifer Furda, Michael Raydell, Cindy Audrey, President and CEO, Pikes Peak United Way, Bob Lally, Chair, Military Affairs Council, Doug Price, President and CEO, Visit Colorado Springs, Dirk Draper, President and CEO, Chamber and EDC, Cindy Johnson, Patrick Murphy, Rich Burchfield, Executive Director, Catalyst Campus for Technology and Innovation, Tony Przybyslawski, and Chuck Murphy, Jr. spoke in support of the development application.

Councilmember Murray asked if any other convention facilities have approached the Space Foundation to relocate the Space Symposium event elsewhere. Mr. Zelibor stated they have not.

Councilmember Williams asked if property values in the Broadmoor area have gone up or down since the previous expansion of The Broadmoor. Mr. Raydell stated he has only seen growth and demand in that area. Jeff Greene, Chief of Staff, asked Mr. Burchfield, based on where his residence is located, if his neighborhood has experienced any traffic impacts due to major events held at The Broadmoor. Mr. Burchfield stated they had not experienced any difference in traffic.

Citizens Ann Pinney, Charlie Campbell, Deborah Adams, and Steve Price spoke in opposition of the development application.

Mr. Lieber, with the applicant, stated City staff has reviewed and approved the traffic study that was conducted and if evaluation of emergency evacuation for the greater community is needed, he supports it, but it should not be a requirement for every development plan. He said the maximum size event is 9,000 individuals and the project meets the development plan, PlanCOS, and variance criteria.

Ms. Culp, appellant, stated the application does not limit The Broadmoor to three or four events and 9,000 people. She stated the appellants stand by the results of the wildfire evacuation simulation that was presented and they

feel the project does not meet several elements of the development plan review criteria, the comprehensive plan, and zoning. Ms. Culp stated “No parking” signs posted, parking on grass fields, or shuttle buses are not a solution to the lack of parking.

Councilmember Geislinger asked the appellant if the wildfire portion of the presentation was the new information that was not presented to Planning Commission. Ms. Culp confirmed it was.

Jim Reid, Director Pikes Peak Office of Emergency Management, Steve Buzzell, Lieutenant, Colorado Springs Police Department, and Chris Cooper, Deputy Fire Marshal, Colorado Springs Fire Department gave an overview of the evacuation plan for The Broadmoor area.

Mr. Greene asked for additional information on wildfire mitigation in the Broadmoor area. Mr. Cooper explained commercial properties have certain requirements in City Code for wildfire mitigation and how the City’s Wildfire Mitigation Program works to reduce risk. Councilmember Pico requested to review those plans.

Councilmember Avila requested information regarding street repaving in the Broadmoor area. Mr. Easton agreed to provide that information.

President Pro Tem Strand asked if the Space Symposium impacts the Colorado Springs Airport. Greg Phillips, Director of Aviation, Colorado Springs Airport, stated the large conferences do have a direct effect on whether or not airlines are interested in signing on with the airport.

Motion by Councilmember Knight, seconded by President Pro Tem Strand, to deny the appeal and uphold City Planning Commission’s approval of the nonuse variance to allow a 16 foot tall retaining wall and fence adjacent to Mesa Avenue and Lake Circle where a 6’ accessory fence structure is allowed for the Broadmoor Event Center, based upon the finding that the appellant withdrew their appeal on this item and that the nonuse variance complies with the review criteria in City Code Section 7.5.802.B. The motion passed by a vote of 9-0-0

Councilmember Murray stated he supports the appeal due to the continued commercial expansion in a residential area, the neighborhood issues that need to be addressed, and because this should not replace the convention center scheduled for downtown.

Councilmember Gaebler stated she supports this project and believes Downtown will have more hotel rooms in the next five years and this will also support the Colorado Springs Airport.

Councilmember Williams stated he supports this project because previous Broadmoor expansions have increased surrounding property value and does not believe this area should be considered residential.

President Skorman stated he supports the project and hopes The Broadmoor will continue to work with the neighborhood to address the issues presented.

Motion by President Pro Tem Strand, seconded by Councilmember Pico, to deny the appeal and uphold City Planning Commission's approval of the development plan for the Broadmoor Event Center, based upon the finding that the appellant did not meet the review criteria in City Code Section 7.5.906.A.4 and that the development plan complies with the review criteria in City Code Section 7.5.502.E.
