

7.5.502 (E): DEVELOPMENT PLAN REVIEW CRITERIA:

- E. Development Plan Review Criteria: A development plan shall be reviewed using the criteria listed below. No development plan shall be approved unless the plan complies with all the requirements of the zone district in which it is located, is consistent with the intent and purpose of this Zoning Code and is compatible with the land uses surrounding the site. Alternate and/or additional development plan criteria may be included as a part of an FBZ regulating plan.
1. Will the project design be harmonious with the surrounding land uses and neighborhood?
 2. Will the proposed land uses be compatible with the surrounding neighborhood? Will the proposed development overburden the capacities of existing streets, utilities, parks, schools and other public facilities?
 3. Will the structures be located to minimize the impact of their use and bulk on adjacent properties?
 4. Will landscaping, berms, fences and/or walls be provided to buffer the site from undesirable views, noise, lighting or other off site negative influences and to buffer adjacent properties from negative influences that may be created by the proposed development?
 5. Will vehicular access from the project to streets outside the project be combined, limited, located, designed and controlled to channel traffic to and from such areas conveniently and safely and in such a manner which minimizes traffic friction, noise and pollution and promotes free traffic flow without excessive interruption?
 6. Will all the streets and drives provide logical, safe and convenient vehicular access to the facilities within the project?
 7. Will streets and drives within the project area be connected to streets outside the project area in such a way that discourages their use by through traffic?
 8. Will adequately sized parking areas be located throughout the project to provide safe and convenient access to specific facilities?
 9. Will safe and convenient provision for the access and movement of handicapped persons and parking of vehicles for the handicapped be accommodated in the project design?
 10. Will the design of streets, drives and parking areas within the project result in a minimum of area devoted to asphalt?
 11. Will pedestrian walkways be functionally separated from vehicular traffic and landscaped to accomplish this? Will pedestrian walkways be designed and located in combination with other easements that are not used by motor vehicles?
 12. Does the design encourage the preservation of significant natural features such as healthy vegetation, drainage channels, steep slopes and rock outcroppings? Are these significant natural features incorporated into the project design? (Ord. 94-107; Ord. 95-125; Ord. 01-42; Ord. 02-64; Ord. 03-74; Ord. 03-157; Ord. 09-50; Ord. 09-78)
