Kyle Fenner, Senior Planner, Planning and Neighborhood Services, presented the Resolution of the City of Colorado Springs approving a Service Plan for the Percheron Park and Recreation District located in the north portion of Banning Lewis Ranch on the north and south sides of Woodmen Road. She provided an overview of the Service Plan, District Policy/Service Plan status, proposed exceptions, vicinity map, and next steps.

Nicole Peykov, Spencer Fane, LLP, representing the applicant, identified the district location, district boundaries, park and recreation district information, model Service Plan, deviations, proposed park and recreation

improvements, public improvement cost estimates, financial plan, development summary projection for residential/commercial, bond structure/parameters, and conditions for approval.

Councilmember Henjum asked if the mills would change if the valuation of the homes increase from the estimated \$600,000 to \$850,000 in three years. Ms. Peykov stated the mills will not change unless the district decides to do so, but the amount of property tax revenue would increase.

Councilmember Henjum asked if the district could raise the mill levy in 2028-2029. Ms. Peykov stated they could not raise it above ten mills unless the states changes the residential or commercial property tax assessment rate to remain tax neutral. Tim Siebert, Nor'Wood Development Group, representing the applicant, stated the Model Service Plan language allows the base year plan to fluctuate so there is constant revenue to pay down the debt and the district also has the ability to vote to decrease the mills.

Motion by Councilmember O'Malley, seconded by Councilmember Talarico, that the Resolution of the City of Colorado Springs approving a Service Plan for the Percheron Park and Recreation District consisting of 681 acres located north and south of Woodmen Road at Banning Lewis Parkway be adopted.
