City of Colorado Springs

To Whom It May Concern,

I am requesting zoning for a large family childcare. I have been zoned for a childcare allowing up to 8 children; the large childcare will allow me to care for up to 12 children. I have provided childcare since August 2012. I have a Certified Development Associates, as well as the current requirements for my license. I continue to expand my education through ongoing training through Early Childhood Connections as well as classes, through Kids nutrition program services.

I would like to add that I currently have a substitute who assists me with my 6 children. She will also help with the 12 children; I will be hiring 2nd helper as well once approved for the large home. I will not be making any changes to my yard or my home.

FIGURE 2

I recently had a visit from my state representative Amber Pickens, she was satisfied that I met all of the yearly requirements and is willing to license my childcare for 12 children. I need to get the approval of the city first. I live in the 80916 area, the demand for childcare is very high. I live close to Fort Carson, a school, and businesses; my location would benefit families needing my assistance for childcare. I have never received a complaint from neighbors or families whose children were in my care.

In conclusion I am requesting approval for my family childcare that I can serve this community by providing a safe, healthy, trusting environment for families whose precious children are in my care.

Respectfully yours

Lyschel Hartway

To whom it may concern,

I am writing you to request a change in my childcare license. Currently I hold a regular childcare license of 8 children. I am inquiring to change my childcare license to a large childcare license which will hold up to 12 children. I have provided childcare since July of 2013, though I am working on building my in home childcare facility for the years to come. I do continue my ongoing training each year, per state requirements.

With my request, I would like to add that I will hire someone that meets the requirements. He/She will complete all the required trainings which include: medication administration, First aid/CPR, (including universal precautions) as well as background checks/fingerprinting/CBI approval. I will not be making any changes to my home or yard on my property.

I recently had my home visit with my licensing specialist Tina Lepage. She did approve my home for a large childcare; I would just need the City of Colorado Springs approval. With the demand for childcare in my area 80920 and surroundings, I know this would benefit many families. I already have a few families who live within a close proximity of my
