**THE RESERVE AT NORTHCREEK ANNEXATION  
ANNEXATION AGREEMENT**

THIS ANNEXATION AGREEMENT ("Agreement"), dated this \_\_\_\_ day of \_\_\_\_\_, 2016, is between the City of Colorado Springs, a home rule city and Colorado municipal corporation ("City"), and Reserve at North Creek, LLC, a Colorado limited liability company and successor-in-interest to Biblica, Inc., ("Owner" or "Property Owner").

**I.  
INTRODUCTION**

The Owner own all of the real property located in El Paso County, Colorado, identified and described on the legal description attached as Exhibit A (the "Property").

The growth of the Colorado Springs metropolitan area makes it likely that the Property will experience development in the future. The Owner will be required to expend substantial amounts of funds for the installation of infrastructure needed to service the Property and, therefore, desires to clarify Owner's obligations for installation of or payment for any off-site infrastructure or improvements and with regard to the City's agreements with respect to provision of services to the Property and cost recoveries available to Owner. Subject to the terms and conditions set forth in this Agreement, both the City and Owner wish to annex the Property into the City to ensure its orderly development. In consideration of the mutual covenants contained in this Agreement, the receipt and sufficiency of which are acknowledged by each of the parties, the City and Owner agree as follows.

**II.  
ANNEXATION**

The Owner has petitioned the City for annexation of the Property. The annexation will become effective upon the effective date of the ordinance documenting final approval by the City Council of the annexation (the "annexation ordinance") after satisfying all conditions precedent to annexation identified in this Agreement and the recording of (a) certified copies of the annexation ordinance and annexation plat in accordance with C.R.S. 31-12-113, (b) a fully-executed original of this Agreement, and (c) a fully-executed The Reserve at Northcreek special warranty deed and irrevocable consent to the appropriation, withdrawal, and use of groundwater as forth in Exhibit B with the El Paso County Clerk and Recorder.

**III.  
LAND USE**

The Reserve at Northcreek Concept Plan has been proposed and submitted to the City for approval. Owner will comply with an approved concept plan in accord with applicable provisions of the Code of the City of Colorado Springs 2001, as amended or recodified ("City Code").

Prior to any development of the Property Owner shall obtain City approval of a development plan, and the final land use intensities and densities for the Property shall be determined in conjunction with the review and approval of a development plan per City Code.

IV.  
ZONING

A. Zoning. The Planning and Development Department of the City agrees to recommend that the initial zone for the Property shall be PUD (Planned Unit Development) upon annexation. While zoned PUD, a PUD development plan shall be required prior to development of the site. Owner acknowledges and understands that the City Council determines what an appropriate zone is for the Property, and this recommendation does not bind the Planning Commission or City Council to adopt the recommended zone for the Property.

B. Change of Zoning. Any future change of zone request involving the Property shall comply with the provisions outlined within City Code.

V.  
PUBLIC FACILITIES

A. General. As land is annexed into the City it is anticipated that land development will occur. In consideration of this land development, the City requires public facilities and improvements to be designed, extended, installed, constructed, dedicated and conveyed as part of the land development review and construction process. Public facilities and improvements are those improvements to property which, after being constructed by the Owner and accepted by the City, shall be maintained by the City or another public entity. Once the intersection meets the outlined criteria, the City will notify the Owner in writing and the Owner will install the traffic signal within one hundred eighty (180) days after receipt of that notice. ### UTILITY SERVICES

- A. Colorado Springs Utilities' ("CSU") Services: CSU's water, non-potable water, wastewater, electric, streetlight, and gas services ("Utility Service" or together as "Utility Services") are available to eligible customers upon connection to CSU's facilities or utility systems on a "first-come, first-served" basis, provided that (among other things) the City and CSU determine that the applicant meets all applicable City ordinances and regulations, and applicable CSU tariff requirements and regulations for each application for Utility Service. In addition, the availability of Utility Services is contingent upon the terms detailed herein and the dedication of public rights-of-way, private rights-of-way, or easements that CSU determines are required for the extension of any proposed Utility Service from CSU system facilities that currently exist or that may exist at the time of the proposed extension.

Owner shall ensure that the connection and/or extension of Utility Services to the Property are in accord with all codes and regulations in effect at the time of Utility Service connection and/or extension, including but not limited to CSU's tariffs, rules, and policies, City ordinances, resolutions, and policies, and Pikes Peak Regional Building Department codes. Further, as specified herein below, Owner acknowledge responsibility for the costs of any extensions or utility system improvements that are necessary to provide Utility Services to the Property or to ensure timely development of integrated utility systems serving the Property and areas outside the Property as determined by CSU.

CSU's connection requirements may require the Owner to provide a bond(s) or to execute a Revenue Guarantee Contract or other CSU-approved guarantee for the extension of any Utility Service before CSU authorizes the extension of Utility Services and/or other utility systems improvements, and/or any request for service connection to the Property by Owner. Owner acknowledge that such connection requirements shall include Owner' payment of all applicable development charges, recovery-agreement charges, advance recovery-agreement charges, aid-to-construction charges and other fees or charges applicable to the requested Utility Service, and any costs CSU incurs to acquire additional service territory for the Utility Service to be provided, including those costs specified in paragraph C below. Because recovery agreement charges, advance recovery-agreement charges, and aid-to-construction charges may vary over time and by location, Owner are responsible for contacting CSU's Customer Contract Administration at (719) 668-8111 to ascertain which fees or charges apply to the Property.

Owner acknowledge that annexation of the Property does not imply a guarantee of water supply, wastewater treatment system capacity, or any other Utility Service supply or capacity, and CSU does not guarantee Utility Service to the Property until such time as permanent service is initiated. Accordingly, no specific allocations or amounts of Utility Services, facilities, capacities or supplies are reserved for the Property or Owner upon annexation, and the City and CSU make no commitments as to the availability of any Utility Service at any time in the future.

- B. Dedications and Easements: Notwithstanding anything contained in Section XI. of this Agreement to the contrary, Owner, at Owner' sole cost and expense, shall dedicate by plat and/or convey by recorded document, all property (real and personal) and easements that CSU, determines are required for all utility-system facilities necessary to serve the Property or to ensure development of an integrated utility system, including but not limited to, any access roads, gas regulation or electric substation sites, electric transmission and distribution facilities, water storage reservoir/facility sites, and wastewater or water pump station sites. CSU shall determine the location and size of all property necessary to be dedicated or otherwise conveyed.

Owner shall provide CSU all written, executed conveyances prior to platting or prior to the development of

the Property as determined by CSU. Owner shall pay all fees and costs applicable to and/or associated with the platting of the real property to be dedicated to the City, and all fees and costs associated with the conveyance of real property interests by plat or by separate instrument, including but not limited to, Phase 1 and Phase 2 environmental assessments, 'closing' costs, title policy fees, and recording fees for any deeds, permanent or temporary easement documents, or other required documents. Dedicated and/or deeded properties and easements are not, and shall not be, subject to refund or reimbursement and shall be deeded or dedicated to the City free and clear of any liens or encumbrances, with good and marketable title and otherwise in compliance with City Code § 7.7.1802.

Further, all dedications and conveyances of real property must comply with the City Code, the City Charter, and any applicable CSU policies and procedures, and shall be subject to CSU's environmental review. Neither the City nor CSU has any obligation to accept any real property interests. All easements by separate instrument shall be conveyed using CSU's then-current Permanent Easement Agreement form without modification or as approved by CSU.

If Owner, with prior written approval by CSU, relocate, require relocation, or alter any existing utility facilities within the Property, then the relocation or alteration of these facilities shall be at the Owner' sole cost and expense. If CSU, determines that Owner' relocation or alteration requires new or updated easements, Owner shall convey those easements prior to relocating or altering the existing utility facilities using CSU's then-current Permanent Easement Agreement form without modification or as approved by CSU. CSU will only relocate existing gas or electric facilities during time frames and in a manner that CSU determines will minimize outages and loss of service.

C. Extension of Utility Facilities by CSU: Subject to the provisions of this Article, including sections A and B above, and all applicable CSU tariffs, rules, regulations, and standards, CSU will extend electric and gas service to the Property if CSU, determines that there will be no adverse effect to any Utility Service or utility easement. Owner shall cooperate with CSU to ensure that any extension of gas or electric facilities to serve the Property will be in accord with CSU's Line Extension and Service Standards.

1. Natural Gas Facilities: If prior to annexation any portion of the Property is located outside CSU's gas service territory, then upon annexation, CSU will acquire the gas service territory within the Property from the then-current gas service provider. Accordingly, Owner shall be solely responsible for all costs and expenses, including but not limited to attorneys' fees, that CSU incurs due to any Colorado Public Utilities Commission ("CPUC") filings made or arising from annexation of the Property. Owner shall support and make any CPUC filings necessary to support CSU's filings to the CPUC.

2. Electric Facilities:

A. If any portion of the Property is located outside CSU's electric service territory, then upon annexation:

1. CSU will acquire the electric service territory within the Property that is not served by CSU from the then-current electric service provider in accordance with C.R.S. §§ 40-9.5-201 et seq., or 31-15-707;

2. Owner shall be solely responsible for providing the just compensation for electric distribution facilities and service rights specified in C.R.S. §§ 40-9.5-204 plus all costs and fees, including but not limited to attorneys' fees, that CSU incurs as a result of or associated with the acquisition of such electric service territory; and

3. Owner shall be solely responsible for all costs: (a) to remove any existing electric distribution facilities within the Property that were previously installed by the then-current electric service provider ("Existing Facilities"); and (b) to convert any overhead electric lines to underground service lines ("Conversion").

B. Within 30 days of Owner's receipt of an invoice for the following:

1. Owner shall pay the then-current electric service provider, directly, for the just compensation specified in C.R.S. §§ 40-9.5-204 (1) (a) and 40-9.5-204 (1) (b); and
2. If the then-current electric service provider removes the Existing Facilities, then Owner shall pay the then-current electric service provider directly for the removal of any Existing Facilities.

C. Further, Owner shall pay CSU the just compensation specified in C.R.S. §§ 40-9.5-204 (1) (c) and 40-9.5-204 (1) (d) within 30 days of Owner's receipt of an invoice for such costs.

D. Owner shall also pay for any Conversion required by CSU as a result of such annexation concurrent with the execution of a contract between the Owner and CSU that specifies the terms of Conversion.

E. CSU, in its sole discretion, may require Owner to enter into a Revenue Guarantee Contract for the extension of any electric service or facilities, including any necessary electric transmission or substation facilities.

3. Water and Wastewater Facilities by CSU: The Owner shall pay any recovery-agreement charges or other fees or charges that are not currently approved by CSU for the Property, but which may become applicable as a result of any on-site or off-site water or wastewater system facilities that CSU or other developers may design and construct in order to ensure an integrated water or wastewater system supplying the Property. Additionally, the Owner shall be subject to cost recovery for the engineering, materials and installation costs incurred by CSU in its design, construction, upgrade or improvement of any water pump stations, water suction storage facilities, water transmission and distribution pipelines, or other water system facilities and appurtenances and any wastewater pump stations or treatment facilities, wastewater pipeline facilities, or other wastewater collection facilities and appurtenances that CSU, in its sole discretion, determines are necessary to serve the Property.

D. Water and Wastewater System Extensions by Owner: Owner must extend, design, and construct all potable and non-potable water system facilities and appurtenances, and all wastewater collection system facilities, wastewater pump stations, and any water or wastewater service lines to and within the Property at Owner's sole cost and expense in accord with all applicable CSU tariffs, rules, regulations, including CSU's Line Extension and Service Standards, and all City ordinances and regulations in effect at the time of each specific request for water or wastewater service. Consistent with City Code 7.7.1102 (B), Owner shall complete the design, installation and obtain preliminary acceptance of such utility facilities prior to CSU's approval of Owner's water and wastewater service requests.

Owner shall be solely responsible for all costs and fees associated with engineering, materials, and installation of all water system facilities and appurtenances, and all wastewater collection facilities and appurtenances, whether on-site or off-site, that are necessary to serve the Property or to ensure development of an integrated water or wastewater system serving the Property and areas outside the Property as determined by CSU. Further, Owner acknowledges that CSU may require that such water or wastewater system facilities be larger than necessary to serve the Property itself, and may require the Owner to participate with other development projects on a fair-share, pro rata basis in any necessary off-site system facilities improvements. In the event CSU requires such water and wastewater systems to be larger than necessary to serve the Property itself, then Owner may seek reimbursement as provided in CSU's Utilities Rules and Regulations.

The plans, specifications and construction of the water facilities and appurtenances, and the wastewater facilities and appurtenances are each subject to CSU's inspection and written acceptance, and CSU shall make the final determination as to the size, location, point(s) of connection and the required appurtenances of the system facilities to be constructed. No work shall commence on any proposed water or wastewater extension facilities until CSU provides written approval of Owner' water or wastewater construction plans and copies of such approved plans are received by CSU. Owner may only connect newly-constructed facilities to CSU's existing water or wastewater system upon CSU's inspection and written acceptance of such facilities.

As part of any development plan submittal for the Property, Owner acknowledges that a Preliminary Utility Plan, Wastewater Master Facility Report, Hydraulic Grade Line Request Form, and Hydraulic Analysis Report (as determined by CSU) are required and must be completed and approved by CSU.

The water distribution system facilities must meet CSU's criteria for quality, reliability and pressure. The water distribution system shall ensure capacity, pressure and system reliability for both partially completed and fully completed conditions and the static pressure of the water distribution system shall be a minimum of 60 psi. Also, to ensure the protection of public health and to maintain compliance with state regulatory requirements, the detailed plans for all customer-owned, non-potable water distribution systems, including irrigation systems, must be approved by CSU.

Further, Owner recognizes that the extension of water system facilities may affect the quality of water in CSU's water system. Consequently, Owner acknowledge responsibility for any costs that CSU, determines necessary to incur in order to maintain water quality in its system as a result of Owner' water system extensions, including but not limited to, the cost of any lost water, materials and labor from pipeline-flushing maintenance activities, temporary pipeline loop extensions, or other appurtenances and measures that CSU determines are necessary to minimize pipeline flushing and to maintain water quality (Water-quality Maintenance Costs). Owner shall reimburse CSU for such Water-quality Maintenance Costs within thirty (30) days of receipt of an invoice for such costs.

- E. Limitation of Applicability: The provisions of this Agreement set forth the requirements of the City and CSU in effect at the time of the annexation of the Property. These provisions shall not be construed as a limitation upon the authority of the City or CSU to adopt different ordinances, rules, regulations, resolutions, policies or codes which change any of the provisions set forth in this Agreement so long as these apply to the City generally and are in accord with the then-current tariffs, rates, regulations and policies of CSU. Subject to the provisions of the Article of this Agreement that is labeled "WATER RIGHTS", CSU's tariffs, policies, and/or contract agreements, as may be modified from time to time, shall govern the use of all Utilities Services, including but not limited to, groundwater and non-potable water for irrigation use by the Owner for the Owner' exclusive use.
- F. Southeastern Colorado Water Conservancy District: Notice is hereby provided that upon annexation the Property is subject to subsequent inclusion into the boundaries of the Southeastern Colorado Water Conservancy District ("District") pursuant to C.R.S. § 37-45-136 (3.6) as may be amended, and the rules and procedures of the District. Further, notice is hereby provided that, after inclusion of the Property into the boundaries of the District, the Property shall be subject to a property tax mill levy for the purposes of meeting the financial obligations of the District. The Owner acknowledges that water service for the Property will not be made available by CSU until such time as the Property is formally included within the boundaries of the

District. District inclusion requires consent by the Bureau of Reclamation ("Reclamation"). The Owner shall be responsible for taking all actions necessary for inclusion of the Property into the boundaries of the District, including but not limited to, any action required to obtain Reclamation's consent to include the Property into the District.

VII.  
WATER RIGHTS

As provided in the Special Warranty Deed and Irrevocable Consent to the Appropriation, Withdrawal and Use of Groundwater ("Deed"), which is attached to this Agreement and hereby incorporated by reference, Owner grant to the City, all right, title and interest to any and all groundwater underlying or appurtenant to and used upon the Property, and any and all other water rights appurtenant to the Property (collectively referred to as "the Water Rights"), together with the sole and exclusive right to use the Water Rights and all rights of ingress and egress required by the City to appropriate, withdraw and use the Water Rights. The Deed conveying the Water Rights shall be executed by the Owner concurrently with this Agreement and shall be made effective upon the date of the City Council's final approval of the annexation of the Property. The Deed shall be recorded concurrent with the recording of the annexation agreement, annexation plat, and annexation ordinance at the El Paso County Clerk and Recorder's office.

Furthermore, pursuant to C.R.S. § 37-90-137(4), as now in effect or hereafter amended, on behalf of Owner and all successors in title, Owner irrevocably consents to the appropriation, withdrawal and use by the City of all groundwater underlying or appurtenant to and used upon the Property.

In the event the City chooses to use or further develop the Water Rights that have been conveyed, Owner agree to provide any and all easements required by the City prior to the construction and operation of any City well or water rights related infrastructure on the Property. Wells constructed by the City outside the Property may withdraw groundwater under Owner' Property without additional consent from Owner.

Upon annexation of the Property, any wells or groundwater developed by Owner prior to annexation will become subject to CSU's applicable tariffs, Rules and Regulations, and rates as amended in the future. Owner' uses of groundwater shall be subject to approval by the City and CSU, and shall be consistent with CSU's standards, tariffs, policies, and the City's ordinances, resolutions and policies for the use of groundwater now in effect or as amended in the future. No commingling of well and City water supply will be permitted.

VIII.  
FIRE PROTECTION

- A. Donald Westcott Fire Protection District. The Owner acknowledges that the Property is located within the boundaries of the Donald Westcott Fire Protection District (the "Fire District") and is subject to property taxes payable to the Fire District for its services. The Owner further acknowledges that, after annexation of the Property to the City, the Property will continue to remain within the boundaries of the Fire District until such time as the Property is excluded from the boundaries of the Fire District. After annexation of the Property to the City, fire protection services will be provided by the City through its Fire Department and by the Fire District unless and until the Property is excluded from the Fire District. Mr. Bryan Kneip  
Director – Planning, Engineering, and Design  
Challenger Homes  
13570 Northgate Estates Dr., #200  
Colorado Springs, CO 80921

Subject: Water Rights Inventory, New Life Townhomes Property, El Paso County, CO

Dear Bryan:

SMITH has completed a Water Rights Inventory for the Challenger New Life Townhomes Property (Property), located primarily within the SE ¼ of NW ¼ of NW ¼, S21, T12S, R66W, El Paso County, CO. The Property is about 10 acres in size and just north of New Life Drive, east of Cross Peak View (Shown as a red X on the attached map).

The water rights search included well permit and water rights database searches, and a GIS-based map search using the Colorado Division of Water Resources Water Rights AquaMap data mapping tool (Appendix A). SMITH found no surface or groundwater rights associated with the New Life property. The nearest well permit was for an abandoned groundwater monitoring well south of the property (Permit No. 206902, Quantum Corporation). On June 12, 2015, SMITH staff also visited the Property, and did not observe wellheads or other water infrastructure.

To receive water service from Colorado Springs Utilities (CSU), the Property must be included in the Southeastern Colorado Water Conservatory District (District) because CSU receives water from the District. Challenger Homes must obtain consent from the US Bureau of Reclamation (Bureau) for the Property to be included into the District and then annexed into the City of Colorado Springs (City) to receive Frying Pan-Arkansas Project water. To receive consent from the Bureau, Challenger Homes must complete the Bureau's National Environmental Policy Act (NEPA) Questionnaire, and provide copies of this letter stating that it does not own any water rights associated with the Property, and the Questionnaire to CSU. The District's authorization and annexation process must also be completed prior to issuing water to the Property via CSU. City Planning and CSU shall determine whether all the requirements for District inclusion have been fulfilled prior to the date that CSU makes water available to the Property.

Sincerely,  
Smith Environmental and Engineering
