Kyle Fenner, Senior Planner, Planning and Neighborhood Services, presented the Resolution approving an amended and restated Service Plan for the Rock Metropolitan District. She provided an overview of the Service Plan, slight deviation from model, background of the district, and location. Kevin Walker, Interim Director, Planning and Neighborhood Services stated they are supportive of this change, and it conforms more with what the Special District Policy Committee adopted.

Councilmember Henjum requested additional information regarding what this change means. Mr. Walker stated it is saying that upon a certain date, after the adoption, there may be changes to the way that the state legislature assesses different kinds of residential real estate and if there was substantial reduction in the amount of revenue collected by a certain mill levy, the district could adjust to that same percentage so there was not a reduction in the amount of revenue from that mill levies setting.

Councilmember Donelson asked if this is approved, if the mills will be increased to fifty mills from thirty mills for the district and to twenty mills from ten mills for operation and maintenance. Mr. Walker confirmed they will.

Councilmember Donelson asked why they did not ask for these amounts when the Service Plan was initially approved. Mr. Walker stated that at the time, thirty and ten were the maximum amounts they could request.

Councilmember Donelson asked what additional infrastructure will be added. Mr. Walker stated there would not be any additional infrastructure, but special districts cannot fund infrastructure with the special district municipal bond market dollars and by allowing the higher mill levy, they are able to fund more of the infrastructure but still not one hundred percent of the infrastructure.

Chris Sullivan, Senior Planner, Planning and Community Development Department, provided an informational presentation for the Annexation Policy Checkpoint on the proposed Summit View Addition No. 1 Annexation. He provided a brief overview of the vicinity map and guidelines.

Councilmember Henjum asked which district this property is located in. Sarah B. Johnson, City Clerk, stated it is located in District 6.

Councilmember Donelson asked if this property is owned by one developer. Mr. Sullivan stated it will be but is currently owned by two individuals.

Councilmember Donelson asked if the project site has been annexed into the City. Mr. Sullivan stated it has gone through petition acceptance and is currently being reviewed for annexation.

Councilmember Leinweber asked how the residents of the enclave pay for City services. Mr. Sullivan stated they do not which is why it is in the City's best interest to annex those enclaves in.

Craig Dossey, Vertex Consulting Services, representing the applicant, went over the location, proposed development, annexation requirements, guidelines, and other considerations.

Councilmember Henjum asked if the stormwater system will be designed to meet the City's stormwater standards. Mr. Dossey stated they are designing it for capacity within the culverts going underneath Templeton

Gap Road and they are required to have two detention ponds on site which are both for water quality as well as detaining the flows.

Councilmember Risley, President Helms, Councilmember Henjum, and Councilmember Leinweber expressed support of this annexation.

Councilmember Donelson requested information at a future presentation regarding how City services will be burdened once this parcel is developed.

Gabe Sevigny, Planning Supervisor, Planning and Neighborhood Services, provided an informational presentation for the Annexation Policy Checkpoint on the proposed PTAA Addition No. 1 Annexation. He provided a brief overview of the vicinity map and guidelines.

Nina Ruiz, Vertex Consulting Services, representing the applicant, went over the location, proposed development, annexation requirements, guidelines, and other considerations.

President Helms stated he is concerned with the school exited onto the

high-speed road of Marksheffel Road with no stop sign or signal at the intersection. Ms. Ruiz stated there will be a dedicated turn lane and it will be right turn only.

Councilmember Donelson asked if Huber Road is a two-lane road. Ms. Ruiz confirmed it is.

Councilmember Donelson asked when the Stetson Hills Boulevard extension is planned for. Craig Dossey, Vertex Consulting Services, representing the applicant, stated when they talked to the City Traffic Department, essentially the extension of Dublin Boulevard would occur when that portion of Banning Lewis Ranch needs that connection, and the Master Plan shows that road being built out to four lanes, traveling a little southeast of the parcel and then connecting to Banning Lewis Ranch Parkway.

Councilmember Donelson asked how many students will be attending the school. Ms. Ruiz stated there will be 800 students and the traffic study identified that the road is adequate to serve the school, and a signal is not warranted at this time.

Councilmember Donelson asked if the intersection of Huber Road and Stetson Hills Boulevard is signalized. Ms. Ruiz confirmed it is and they may revisit making their main access road south to Tamlin Road. Kevin Walker, Interim Director of Planning and Neighborhood Services, stated accompanying this annexation will be a rezoning and Development Plan where those questions can be addressed.

Councilmember Henjum expressed support of this annexation.

Mr. Dossey stated they will illustrate the City's planned improvements to Mark Sheffel Road at their next presentation.
