JOHN W. SUTHERS

MAYOR

To the Honorable President Bennett, President Pro-tem Gaebler and City Councilors:

I am pleased to transmit to you the 2016 Annual Budget for the City of Colorado Springs, my first annual budget as the City's 41st Mayor. In my campaign for Mayor, I identified three priorities that I would pursue if elected and those priorities are reflected in this 2016 Budget.

First, it is my priority to **improve the political climate** in the city. Since I was sworn into office, I have worked to restore a collaborative relationship between the Mayor and the City Council and between Colorado Springs and other governmental entities in the Pikes Peak region. This budget is a product of a more collaborative relationship – my staff and I briefed the City Council on the 2016 Budget Outlook, presented preliminary funding decisions to and sought input from the City Council Budget Committee and aligned the budget with both the City Council's and the Mayor's Strategic Plans.

Second, it is my priority to begin to **invest in the city's critical public infrastructure**, particularly roads and storm water systems. Infrastructure investment is not only necessary for public health, safety and welfare but also for our future economic development.

Unfortunately, today, on a per-capita inflation-adjusted basis, the city's General Fund is less than it was in the year 2000. In 2000 we spent \$422 per resident. Today we spend \$336 per resident. This reflects good stewardship of taxpayer dollars, but maintenance of and investment in the City's streets and roads is one essential City service that suffered disproportionately. When revenues plunged during the Great Recession, it was easier for the City to stop maintaining roads and storm water systems, than it was to lay-off police officers and firefighters. To make matters worse, over this period of time the cost of public works projects, including road construction and maintenance, far outstripped inflation. As a result, the state of our roads and storm water infrastructure is poor. Over 60% of our roads are beyond the normal ten-year resurfacing cycle and

are in a state of rapid deterioration: 53% of our roads need an overlay, and 8% of our roads need to be reconstructed. A recent national study indicates that Colorado Springs has the 26th worst roads in America and that the average driver in Colorado Springs pays \$723 per year because of the poor condition of the roads, far above the national average.

The City Council and I have heard our citizens loud and clear. In every poll or survey we conducted, and every town hall we attended, the citizens told us they want to fix the roads. In response, I recommended and the City Council agreed to refer an issue to the November 3rd ballot asking Colorado Springs voters to approve a temporary 0.62% sales tax increase for five years. That tax increase would raise approximately \$50 million per year or \$250 million over five years and would be used only for road maintenance and repair and no new City employees would be hired. While we would likely need to spend that amount for 10 years to get our roads to where they need to be, the five year sunset will allow the voters to assess our progress and decide whether to extend the tax.

With the referral of the sales tax ballot issue, we committed to maintain General Fund spending on street and road maintenance at the average of the annual spending from 2012-2014. This 2016 Budget honors that commitment. In addition, for 2016 the City will continue to spend its PPRTA maintenance funding allocation on PPRTA approved street and road maintenance, repair and operations and will continue to spend other designated transportation funding (HUTF, Road & Bridge mill levy) in accordance with State statutes.

This 2016 Budget also includes a funding plan, developed in conjunction with City Council, to address the City's storm water infrastructure. Understanding that plan requires some historical background. As recently as the late 1960s, our neighbor to the south, Pueblo, was larger than Colorado Springs. Since then Colorado Springs has grown to be about four times the size of Pueblo and that means considerably more impervious surfaces contributing to storm water flow into Fountain Creek, with impacts on Pueblo. Mindful of this reality and in response to specific flooding incidents, in 2005/2006 the Colorado Springs Mayor and City Council set up a Stormwater Enterprise. Each property owner was assessed a fee based on their impervious surface and approximately \$15 million per year was raised to be applied to storm water mitigation projects. However, in 2009 the voters of Colorado Springs expressed their displeasure with the stormwater fee and in 2010 the City Council voted 5 to 4 to defund the Stormwater Enterprise.

While Pikes Peak area voters declined to pass a storm water proposal in November 2014, this is a complex problem that is not going away and needs to be addressed. I

emphasize that this is a public safety issue for the citizens of Colorado Springs as well as those of Pueblo. The Council and I propose to essentially reconstruct the Stormwater Enterprise fund and commit to funding \$19 million per year over 10 years on storm water maintenance activities and projects (\$16 million from the City and \$3 million from Colorado Springs Utilities). This 2016 Budget includes the City's \$16 million commitment. Again I applaud the City Council for helping to find a solution.

Finally, I promised to **aggressively promote new job creation**. While the City will maintain a small Office of Economic Development to ensure the City is focused on improving business climate and to assist business owners with negotiating City land use, permitting and licensing requirements, this budget includes funding for the Regional Business Alliance (RBA) – the community partner primarily responsible for business recruitment and retention and the Small Business Development Center (SBDC) – an important community partner that assists with small business development and growth.

I am optimistic about the prospects of major local employers expanding in the near future and our capability to attract new companies to the region. Based on conversations with large national companies with a presence in Colorado Springs, I am confident we will report on several significant expansions in the next year or two. To reward and encourage business expansion and relocation, I am committed to implementing a Business Personal Property Tax (BPPT) Tax Credit program – making the City's business tax environment more competitive and equitable across industries. This 2016 Budget incorporates the first phase of a two-year phase-in of a BPPT Tax Credit – equal to one-half the amount due for 2016.

This 2016 Budget also reflects the ongoing strategic plan to improve the business climate at the Colorado Springs Airport (COS). Beginning in 2013, the Airport implemented a number of strategic initiatives which has since reduced operating costs, significantly lowered Airport debt, while increasing non-airline revenues. These efforts have resulted in the reduction of Airline rates and charges at COS by nearly 50% since 2013. Along with its new marketing and air service incentive programs, the Airport is now better positioned to attract new and expanded commercial air service. A significant component of the Airport's strategic plan was the creation of the Airport's Commercial Aeronautical Zone (CAZ) – which has been hugely successful in a very short period of time – seeing the expansion of existing Airport tenants while attracting new companies and new high-paying jobs to Colorado Springs such as Sierra Nevada and Sierra Completions.

While improving the political climate, investing in the City's critical public infrastructure and aggressively promote new job creation were my initial priorities when I took office, other important strategic and operational goals are reflected in the following funding decisions included in this 2016 Budget:

- \$814,000 increased funding from the City's General Fund to Mountain Metro Transit – increasing funding from \$4.3 million to \$5.1 million, to bring the City closer to the \$5.7 million maintenance of effort commitment made in 2004 when the PPRTA was created.
- \$400,000 from the General Fund for architectural and engineering plans for a new Sand Creek Police Substation to replace the current station which will allow the Colorado Springs Police Department (CSPD) to more effectively provide essential public safety services to the southeast part of the City.
- \$840,000 in funding through General Fund and grant funds to implement a Body Worn Camera Program at the CSPD, which will improve transparency and accountability in contacts between CSPD and the public.
- \$250,000 from the General Fund, each year for two years, to fund the first Comprehensive Plan for the city in 15 years – a plan that will be relevant to today's economic markets, and land use planning principles which will reflect the City's vision to become a more progressive, mixed-use, revitalized and multi-modal community.

The 2016 Budget also includes funding for unavoidable increases for healthcare costs, workers' compensation costs, and contract costs. The 2016 General Fund Budget is \$268.1 million, \$9.4 million or 3.6% more than the 2015 Budget. The increase is largely possible due to a projected increase in sales and use tax revenue of \$9.5 million or 6.4% over the 2015 Budget (and \$4.4 million or 2.9% over the current 2015 end-of-year estimate). The 2016 General Fund Budget also includes a \$1.35 million one-time draw from fund balance. This one-time budgeted draw is to fund one-time transfers of fund balance to two internal service funds that currently have negative fund balances and to bridge the funding gap for the additional storm water projects. For 2017, this funding gap will be closed as the final debt service payment of \$2.8 million on the Springs Community Improvement Program (SCIP) bonds will be made in 2016. While this draw is necessary to balance the budget and fund our highest priorities, many of which are time-sensitive, it is my goal to rebuild the General Fund unrestricted fund balance systematically and as quickly as possible. The Government Finance Officers Association (GFOA) specifically recommended that the City of Colorado Springs have an unrestricted fund balance target of 25% of the following year's expenditure budget. I

have set a realistic goal of restoring the fund balance to 20%. This would position the City to better withstand the next recession without having to cut core services. Fortunately, during 2015, we expect to increase the fund balance as revenue is currently projected to exceed budget and departments are working hard to realize expenditure savings. If the current forecast is realized, we expect the unrestricted fund balance could be between 16% and 17%.

In light of our need to fund storm water there were a number of other important needs, both one-time and on-going, that we could not fund and had to defer including employee wage increases, staffing requests (many to maintain current services levels and/or to mitigate risks) and other important capital projects. I recognize those needs and will work to address them in future budgets.

The 2016 Budget document that follows provides citizens an overview of the City's resources and costs of providing core municipal services. The document also provides very specific line-item expenditure details so citizens can see the City's specific spending plans. We acknowledge that we are accountable to the citizens and will provide the highest level of financial transparency. I would like to specifically thank all City department directors, their staff and the Budget Office – a great City team that worked collaboratively to develop the 2016 Budget and produce the 2016 Budget document before you.

It is my honor to be the Mayor of this great City and I look forward to the coming year where we will work together toward our enduring challenge - to create a society that matches our scenery. Let us embrace the challenge.

Very Respectfully,

A handwritten signature in blue ink that reads "John Suthers". The signature is fluid and cursive, with a long horizontal stroke at the end.

John W. Suthers
Mayor

City of Colorado Springs Budget Development

2016-2020 Strategic Plan Goals

The City's Strategic Plan guides the annual budget process.

The City's Strategic Plan was updated in summer of 2016 and reflects significant input from the community.

Thank you to the over 2,700 citizens who took our budget priorities survey this summer.

You helped us develop our 2016 Budget and 2016-2020 Strategic Plan!

2016 Budget Highlights:

INVEST IN OUR INFRASTRUCTURE & ASSETS:

- ✓ Increasing Capital Improvement Projects by \$7M to fund critical streets, stormwater, and bridge repairs
- ✓ Dedicating \$16M to stormwater
- ✓ Increasing transit funding by \$815,000

IMPROVE SAFETY

- ✓ CSFD's 4th Battalion & Additional Fire Code Inspector
- ✓ Police Body Worn Camera Program

MAINTAIN OUR PARKS

- ✓ Garden of the God's safety, education programs, & scientific study
- ✓ Increasing parks watering
- ✓ Spraying for invasive moths in our parks

Community Profile

History

General William Jackson Palmer founded Colorado Springs in 1871, envisioning a resort community always in view of Colorado's famous Pikes Peak. Within seven years, the Antlers Hotel was built; and by 1918, the renowned Broadmoor Hotel was constructed.

Beginning in the late 1800s, Colorado Springs became a natural health destination for tuberculosis patients because of the nearly 300 days of sunshine a year, natural mineral springs, and dry mountain air.

Throughout its history, Colorado Springs has been a popular tourist destination due to its surrounding natural beauty and magnificent climate. Some of the more visited sightseeing attractions in and around Colorado Springs include Garden of the Gods, Pikes Peak – America's Mountain, United States Olympic Headquarters and Training Center, Cheyenne Mountain Zoo, United States Air Force Academy, and The Broadmoor Hotel.

Population

Colorado Springs is located at the foot of Pikes Peak, 70 miles south of Denver. With a land area of 194.87 square miles and a 2016 estimated population of 457,715, Colorado Springs is the State's largest city in terms of area and second only to Denver in population.

The population of Colorado Springs has grown dramatically since the 1980s, increasing 72.43% from 1986 to the estimated 2016 population.

Colorado Springs Population 1986-2016

Local Economy

The economic base has become quite diversified with a mix of military installations, defense contracting, healthcare, software development, semiconductor manufacturing, telecommunications, data centers, religious and nonprofit associations, and tourism.

Area military installations are a significant factor in the local economy, constituting over 20% of all employment. Five major military installations are in the city: Fort Carson, Schriever and Peterson Air Force Bases, Cheyenne Mountain Air Station, and the United States Air Force Academy.

The spectacular climate makes it a choice location for software development, semiconductor manufacturing, data centers, and telecommunications. The Insurance industry is the second largest employer in the City.

Top Ten Private Sector Employers (Excluding School Districts)
<ul style="list-style-type: none"> • Lockheed Martin Corporation • Progressive Insurance Company • Security Service Federal Credit Union • The Broadmoor Hotel • United Services Automobile Association (USAA) • Verizon Business • Atmel Corporation • Northrop Grumman Corporation • Compassion International • Hewlett Packard

Education

There are nine public school districts serving Colorado Springs with over 100 public elementary, middle, junior, and senior high schools. There are also more than 50 private, parochial, and charter schools.

In addition, Colorado Springs has more than 50 vocational and two-year schools, colleges, and universities. Below is a list of the City's largest colleges and universities.

Largest Post-Secondary Schools in the City	
School	Students
1. Pikes Peak Community College	14,004
2. University of Colorado at Colorado Springs	11,132
3. United States Air Force Academy	3,952
4. Colorado College	2,182
5. Colorado Technical University	1,524
6. University of Phoenix	727
7. Intellitec College	569
8. Everest College	500
9. National American University	482
10. Everest College	470

Government Finance Officers Association Award

GOVERNMENT FINANCE OFFICERS ASSOCIATION

*Distinguished
Budget Presentation
Award*

PRESENTED TO

**City of Colorado Springs
Colorado**

For the Fiscal Year Beginning

January 1, 2015

Executive Director

The Government Finance Officers Association of the United States and Canada (GFOA) presented an award of Distinguished Budget Presentation to the City of Colorado Springs, Colorado, for its annual budget for the fiscal year beginning January 1, 2015. In order to receive this award, a governmental unit must publish a budget document that meets program criteria as a policy document, as an operations guide, as a financial plan, and as a communications device.

The award is valid for a period of one year only. We believe our current budget continues to conform to program requirements and we are submitting it to GFOA to determine its eligibility for another award.

City of Colorado Springs

INTRODUCTION FROM THE MAYOR

Like any organization with a mission, the City of Colorado Springs must have a strategic vision to ensure that our programs, services, and initiatives are leading us toward a better future.

With our guiding goals of Promoting Job Creation, Investing in Infrastructure, Building Community and Collaborative Relationships, and Excelling in City Services, we can get Colorado Springs moving forward and provide quality streets, bridges, stormwater and parks that make Colorado Springs the gem of the Rockies.

The City will continue to foster an environment that creates new jobs and partner with community organizations and regional partners to accomplish more together. We are committed to improving the maintenance of our infrastructure, and we continuously seek innovative solutions to address our greatest challenges.

This plan sets forth our City's priorities and commitments from 2016 through 2020. The City's Strategic Plan was developed with significant input from the broader community; the implementation of our plan must also be driven by collaboration and partnership with our community.

The City plays a vital role in shaping Colorado Springs' future; the resources, expertise, and community pride that are essential to accomplishing the strategies laid out in this plan exist in this community beyond the walls of City government.

We look forward to working together as a community to create a society that matches our scenery.

Sincerely,

John W. Suthers
Mayor

MISSION

Upholding the vision our City's founding fathers developed and the values of our Western heritage, Colorado Springs will be a city where people love to live, work and vacation.

VISION

We will serve the people of Colorado Springs with City services effectively, efficiently and courteously with the wise use and management of our resources.

CORE VALUES

The City of Colorado Springs will exhibit the values of integrity, accountability, transparency, leadership, innovation and persistent community engagement.

Our City: Yesterday & Today

Colorado Springs

FOUNDED

Colorado Springs is founded by General William Jackson Palmer as a resort destination for tourists visiting the American West, almost at the foot of Pikes Peak, and close to the Garden of the Gods, Cave of the Winds, and Seven Falls.

Population:
29,078

POPULATION BURST

By 1890, the number of residents living in Colorado Springs surged to **11,140**, reflecting a climb of **164%** since the City's founding.

Population:
29,078

TURN OF THE 19TH CENTURY

By the turn of the century Colorado Springs is the wealthiest city per capita in the United States.

Population:
33,237

In 1923, Colorado Springs City Auditorium opens and electric traffic lights are installed in downtown intersections.

Population:
135,060

NEW HIGHWAY BRINGS NEW OPPORTUNITIES

Interstate 25 opens along Downtown's western boundary in 1960.

Today's Population:
445,830

Population:
360,890

2000

HISTORICAL POPULATION

ECONOMY

Today, the economy of Colorado Springs is based primarily on the military installations, the aerospace and electronics industries, as well as tourism.

Our Future

While this strategic plan focuses on the next five years (2016-2020), it is important to recognize and embrace trends that we will face as a City in the next twenty years. These following trends will significantly impact the way local governments, including the City of Colorado Springs operate. The City anticipates the following changes to the present model of local government in the next twenty years:

Distributed/Shared Governance

Contracting, privatization and regionalization have enabled governments to improve efficiency. As citizen engagement and community connectedness grows through technology and urbanization, governments transition from service providers to solution enablers. Innovators, community leaders, and technology-equipped citizens serve themselves and develop solutions to complicated problems together through open data and participatory service delivery. Success in service delivery and solving problems are driven by data, driving outcome-oriented services and programs based on community priorities.

Dynamic Pricing & Crowdsourcing

Implementing technology in conjunction with the economics of supply and demand allows governments to move from static pricing to dynamic pricing that responds to true, clear costs of service, and that incentivizes prosocial behavior while discouraging waste, fraud, and abuse. Real-time information driven by sensors allows transportation users to choose between routes based on traffic and costs. Mobile pay systems allow citizens to pay for services and programs that they need and want, receiving those services when and how they want them. In conjunction with dynamic pricing, crowdsourcing enables citizens to decide as a community to invest in the efforts they value. Additionally, crowdsourcing allows citizens the ability to provide immediate and specific direction into government programs and services.

Peer-to-Peer, Community-Driven Cities

Collaborative consumption, solving problems and building neighborhoods as a community of citizens, rather than a group of stakeholders living day-to-day in different silos enables cities to use their infrastructure, services, and programs in a more efficient, effective, and citizen-responsive way. Talent sharing across all sectors, rather than hosting employees within individual organizations, allows for more collaboration and wiser use of human capital.

PLATFORM GOALS

1: Promoting Job Creation

Create an environment that promotes job creation and stimulates strong, diverse, and sustainable economic development and opportunity for all of our citizens

- 1A:** Nurture local businesses and promote alignment of educational institutions, the local workforce and job opportunities.
- 1B:** Encourage the development of a defined and well-promoted City image.
- 1C:** Make it easy to do business with the City.

2: Investing in Infrastructure

Maintain and preserve the City's vital infrastructure and assets

- 2A:** Lead the identification and funding plan for addressing infrastructure needs.
- 2B:** Analyze special funds and restructure revenue to address infrastructure needs.
- 2C:** Incorporate improvements to accessibility and connectivity, while addressing needed infrastructure repairs.

4: Excelling In City Services

Ensure a fiscally sustainable and resilient City that delivers consistent quality services and continuously seeks to improve service delivery

- 4A:** Support continuous improvement.
- 4B:** Leverage technology to improve service delivery.

3: Building Community & Collaborative Relationships

Celebrate and connect community through ongoing dialogue with our citizens and local, regional, and state leaders to reach mutual goals, and by encouraging private sector and non-profit initiatives that improve the well-being of everyone

- 3A:** Improve transportation and housing accessibility, safety and responsiveness by cultivating collaborative relationships with the community.
- 3B:** Expand and encourage citizen engagement.

Promoting Job Creation

Create an environment which promotes job creation and stimulates strong, diverse, and sustainable economic development and opportunity for all of our citizens

PROMOTING JOB CREATION

Create an environment that promotes job creation and stimulates strong, diverse, and sustainable economic development and opportunity for all of our citizens

PERSPECTIVE FROM 2020

Unemployment declined in recent years in Colorado Springs. Employers' labor needs align with our local workforce and educational opportunities. Employers and young professionals move to Colorado Springs, local graduates stay, and businesses are expanding because of our reputation, quality of life and ease of doing business with the City. The City's neighborhoods are vibrant, as a result of greater infill and urban development, and our downtown is thriving as a place to work, play, live and shop.

STRATEGIC OBJECTIVES

- 1A Nurture local businesses and promote alignment of educational institutions, the local workforce and job
- 1B Encourage the development of a defined and well-promoted City image.
- 1C Make it easy to do business with the City.

CITY ROLES

To help realize these objectives, the City of Colorado Springs will:

- Support the community's economic development goals through partnering with existing and future businesses and economic development partners to identify and remove barriers to business growth and development.
- Update the City Code, expand access to information, and streamline processes to improve doing business in the City.
- Address public safety issues that affect our quality of life, image and business climate.
- Support community initiatives to define and develop the community's brand.
- Partner closely with organizations that are driving catalytic projects downtown.
- Improve our image by addressing blight, improving medians and rights-of-ways, and encouraging development of EOZs (Economic Opportunity Zones).
- Implement priorities of the Infill & Revitalization Steering Committee.
- Support funding of City-owned and/or City-sponsored key tourism sites and events.
- Improve City policies for hiring and buying locally, including the hiring of veterans.
- Implement available economic development tools wisely to incentivize development in target areas.

COMMUNITY INITIATIVES

1A: Nurture local businesses and promote alignment of educational institutions, the local workforce and job opportunities.

- Nurture diversified business growth within the community, working with the RBA (Regional Business Alliance) and other community organizations to identify and remove barriers to business growth and development.
- Promote the strengthening of skills and employment opportunities of Colorado Springs residents, through partnering with locally-connected businesses, entrepreneurs and local educational institutions to create an environment that fosters the recruitment and retention of young talent across the Pikes Peak Region.
- Define and prefer “local” purchasing and hiring in order to provide advantages to potential vendors for City products or services, and for preference when selecting job applicants.
- Actively engage veterans and veterans-support organizations to increase veteran hiring within the City.
- Nurture our local government-military installation relationships and support Council’s and others engagement efforts that encourage and expand the military presence in the Pikes Peak region.
- Encourage and incentivize development near CC (Colorado College), PPCC (Pikes Peak Community College), and UCCS (University of Colorado Colorado Springs) to improve the attractiveness of the City to students.
- Identify catalytic downtown projects developed by other organizations and partner closely with those organizations leading those initiatives (for example, a public market).
- Promote RBA and El Pomar initiatives on celebrating and connecting students to local job opportunities.
- Support mentorship of young entrepreneurs, professionals and leaders.
- Partner with El Paso County to communicate and promote Enterprise Zones.

1B: Encourage the development of a defined and well-promoted City image.

- Address public safety issues that impact our image and attractiveness to new businesses and residents
- Work with community organizations to better define and promote our community brand as a great place to live, work and play, to improve our marketing nationwide and ultimately improve our brand and identity.
- Support the tourism industry through funding projects at City-owned and/or City-sponsored tourism sites and events and supporting the Council’s objective to identify tourism promotion and funding strategies that support regional efforts to expand tourism in the Pikes Peak Region.
- Expand the City’s partnership with the Sister Cities organization.
- Improve the City’s overall first impression and appearance by reducing blight and addressing aging, underutilized buildings.
- Facilitate increased private sector investment in EOZs through improving infrastructure, updating planning efforts, and changing related City policies.
- Increase the City’s recognition for our healthy lifestyle, including increasing the City’s League of American Cyclists rating to gold and increasing the HEAL (City’s Healthy Eating Active Living) rating.
- Support community initiatives that improve livability and walkability of neighborhoods.
- Implement the recommendations of the Streetscapes Solutions Team to improve the maintenance and care of medians and rights-of-ways where appropriate; consider developing new programs that support the upkeep of existing medians, and consider implementation of xeriscaping where appropriate to minimize costs.

1C: Make it easy to do business with the City.

- Review business-related City Code, expedite development-related processes, and eliminate barriers to doing business in the City.
- Develop a community-based “So you’re thinking about doing business in Colorado Springs” toolkit.
- Expand the Colorado Springs Airport’s commercial aviation zone, offering tax breaks to aviation-related businesses.
- Engage City Council, City Planning Commission, and neighborhood groups on key land development issues, including implementing priorities of the Infill & Revitalization Steering Committee and educating the public on the benefits of infill.
- Unify the online interaction for permits and applications to improve the ease of doing business with the City and to easily track progress of applications.
- Improve the citizen’s experience with the City by improving the interconnectedness and data sharing between City departments and coordinating with outside agencies to coordinate information sharing.
- Analyze the tax structure (including the Business Personal Property Tax) to incentivize economic development.

GOAL CONNECTIONS

Investing in Infrastructure

Maintain and preserve the City's vital infrastructure and assets

INVESTING IN INFRASTRUCTURE

Maintain and preserve the City's vital infrastructure and assets

PERSPECTIVE FROM 2020

The quality of our City's infrastructure is constantly improving, through implementation of a long-term, community-supported approach. The City aligns infrastructure projects with those of Colorado Springs Utilities and other regional partners. Connectivity, accessibility and quality of our infrastructure is improving, as the City leverages technology and industry-leading design tactics. Our citizens are well-informed and support our approach to addressing infrastructure. Funding for infrastructure reflects thorough analysis of revenue structures and the exploration of alternative funding mechanisms.

STRATEGIC OBJECTIVES

- 2A Lead the identification and funding plan for addressing infrastructure needs.
- 2B Analyze special funds and restructure revenue to address infrastructure needs.
- 2C Incorporate improvements to accessibility and connectivity, while addressing needed infrastructure repairs.

CITY ROLES

To help realize these objectives, the City of Colorado Springs will:

- Work with Council, citizens and other stakeholders to identify and begin implementing an intermediate and long-term approach to addressing infrastructure needs across the City.
- Develop and implement a 10-year infrastructure plan that aligns departments' infrastructure plans, and aligns with Colorado Springs Utilities infrastructure plans.
- Engage citizens and provide education regarding infrastructure needs and solutions.
- Enhance the City's IT infrastructure to support the City's robust operations.
- Analyze existing revenue structures, and explore alternative funding mechanisms to support infrastructure funding.
- Enhance accessibility and connectivity of the City's trails, sidewalks, and facilities.
- Leverage technology and innovative, multi-use infrastructure to improve the efficiency and effectiveness of infrastructure improvements.
- Update the City's Comprehensive Plan, and develop a 10-year facilities master plan.
- Improve the environmental sustainability of the City's infrastructure.

COMMUNITY INITIATIVES

2A: Lead the identification and funding plan for addressing infrastructure needs.

- Aggressively address aging infrastructure (roads and bridges, parks, stormwater and public safety), in a unified, long-term approach driven by the City (Administration and Council) in partnership with local businesses, non-profit organizations, and our citizens to implement realistic, preemptive and effective infrastructure solutions.
- Develop a 10-year infrastructure plan which integrates specific goals for infrastructure throughout the City (specifying projects, partners, and outcomes) and coordinates infrastructure improvements across City departments/functions (parks, stormwater, streets) and with CSU.
- In partnership with El Paso County and, implement a strategy for effectively providing education and engaging citizens on infrastructure needs through existing communication tools of these other agencies.
- Improve City IT infrastructure to support City services, provide adequate security of data and information, and identify and address maintenance needs for the City's communications systems.
- Update the City's Comprehensive Plan to better define economic growth and development objectives.
- Develop a 10-year facilities master plan to prioritize and fund City facilities maintenance needs.
- Improve environmental sustainability of City infrastructure and assets.
- Commit to developing a sustainable and resilient stormwater system which maximizes the utilization of existing infrastructure, while implementing policies and procedures that facilitate preventive maintenance of systems.
- Collaborate more closely with CDOT (Colorado Department of Transportation) on projects in Colorado Springs to improve aesthetics along major corridors and incorporate sustainability projects.
- Identify and address needs for additional tools and technology across City departments which facilitate effective infrastructure improvement and development initiatives (communication and data tools, etc.).
- Work with military installations to identify and take advantage of land use opportunities that serve mutual benefits to regional growth and vitality.

2B: Analyze special funds and restructure revenue to address infrastructure needs.

- Update the park and school fee ordinance related to new development to improve the ability for the City to use development-related park fees on park infrastructure needs.
- Collaborate with Federal partners/agencies to identify projects that maximize the effective use of local funds and potential Federal funds obtained through Federal grant programs.
- Diversify the City's revenue streams to improve the City's resiliency to changes in economic conditions, and improve the City's ability to continue funding infrastructure improvements annually.
- Increase the use of cost sharing programs to fund improvements to sidewalks, curbs and gutters throughout community neighborhoods.
- Partner with stakeholders to continue development in EOZs.
- Collaborate with the Infill and Revitalization Steering Committee to support and incentivize infill and manage growth/sprawl by restructuring development fees and agreements.
- Improve the City and CSU's alignment on development review-related policies, fees, and regulations and coordination of infrastructure repair/upgrades.

2C: Incorporate improvements to accessibility and connectivity, while addressing needed infrastructure repairs.

- Work with stakeholders to support the PPACG’s long-term multi-modal transportation plan.
- Continue to invest in leading edge, innovative, multi-use infrastructure which incorporates smart growth solutions to maximize efficiency and improve the attractiveness of our infrastructure (i.e. greenway development that solves stormwater issues, using recycled material for road repairs).
- Improve accessibility of City facilities, parks, and sidewalks across the City.

Building Community & Collaborative Relationships

Celebrate and connect community through ongoing dialogue with our citizens and local, regional, and state leaders to reach mutual goals, and by encouraging private sector and non-profit initiatives that improve the well-being of everyone

BUILDING COMMUNITY & COLLABORATIVE RELATIONSHIPS

Celebrate and connect community through ongoing dialogue with our citizens and local, regional, and state leaders to reach mutual goals, and by encouraging private sector and non-profit initiatives that improve the well-being of everyone

PERSPECTIVE FROM 2020

Revitalized neighborhoods are walkable and bike-friendly. Our citizens have pride in their neighborhoods, thanks to collaboration of the City's active lifestyle community, our arts and culture organizations and the City. The City is a supportive and reliable partner to the community, as we implement a comprehensive homelessness plan and improve emergency response times. Our City is accessible to all, as a result of an improved affordable housing stock and expansion of transit services. Citizen engagement and volunteerism with the City fosters a collaborative environment and bolsters our community pride.

STRATEGIC OBJECTIVES

3A

Improve transportation and housing accessibility, safety and responsiveness by cultivating collaborative relationships with the community.

3B

Expand and encourage citizen engagement.

CITY ROLES

To help realize these objectives, the City of Colorado Springs will:

- Promote neighborhood revitalization and neighborhood leadership development through partnerships.
- Facilitate intergovernmental cooperation and regionalization to support efforts that provide efficiencies and improve services.
- Improve public safety response times.
- Convene key stakeholders to create a community plan to address homelessness.
- Prioritize walkability and bike-friendliness of and between existing trails, parks, and other amenities through partnerships and grants.
- Reach the transit "maintenance of effort" level of funding.
- Leverage technology and partner with schools and other organizations to improve and expand citizen education and engagement, as well as volunteerism and City internships.
- Improve ADA accessibility to more City parks and other City facilities.
- Maintain and enhance the City's ability to respond to emergencies and disasters.
- Enhance City initiatives/parks programs that bring the community together.
- Support Council's evaluation of existing boards, commissions, committees, and task forces.
- Improve the City's affordable housing stock.

COMMUNITY INITIATIVES

3A: Improve transportation and housing accessibility, safety and responsiveness by cultivating collaborative relationships with the community.

- Partner with non-profit organizations and businesses to promote effective neighborhood outreach and leadership development and neighborhood revitalization.
- Maintain and enhance mutual aid relationships and improve interoperability among regional public safety agencies.
- Facilitate intergovernmental cooperation and regionalization to support efforts that provide efficiencies and improve services.
- Reduce homelessness through creating a community plan for addressing homelessness through partnership with community organizations.
- Enhance and preserve connectivity between trails, open spaces, parks, bike paths, historical sites and City attractions.
- Promote walkable and bike-friendly communities through partnering with active lifestyle-focused organizations.
- Provide ADA accessibility needs in the community.
- Reach the transit “maintenance of effort” level of funding as a step toward ensuring long-term resiliency of affordable and effective transit services to facilitate economic and recreational activity.
- Enhance existing fair housing education, training, and outreach.
- Improve the City’s affordable housing stock.
- Improve public safety response times.
- Maintain and enhance the City’s ability to prepare for, respond to, recover from, and mitigate against major emergencies and disasters.
- Partner with community organizations to develop a public arts master plan.
- Partner with COPPeR (Cultural Office of the Pikes Peak Region) and other arts/culture organizations on new event opportunities and new venue opportunities.
- Support Council and work with CML on policies at the State and Federal level that impact our community.

3B: Expand and encourage citizen engagement.

- Use technology to inform and engage the community, using a number of channels.
- Create and foster outreach programs for K-12 youth with local schools and community centers.
- Enhance existing initiatives that improve existing, highly utilized City parks, and expand programs that bring the community together and improve sense of pride in our community.
- Encourage employee and citizen volunteerism and engagement through city-sponsored programs or events such as yourCOS
- Partner with CONO (Council of Neighbors and Organizations) and El Paso County on development of a regularly held local government citizen’s academy.
- Engage and empower citizens through a centralized volunteer hub.
- Support Council’s evaluation of existing City Council boards, commissions, committees and task forces to ensure effectiveness and citizen participation.
- Improve the City’s internship program through reaching out to a broader academic/business community and graduates
- Work with Council to develop semi-annual educational events for boards and commissions members to educate members on all City departments and functions.

Excelling in City Services

Ensure a fiscally sustainable & resilient City that delivers consistent quality services and continuously seeks to improve service delivery

EXCELLING IN CITY SERVICES

PERSPECTIVE FROM 2020

Citizens are able to find the information they need, find answers to questions they have, and conduct business easily with the City through improved use of the City's website, development of a 311 system, modernization of processes, and improved accessibility to information and services for all. The City is efficient and effective, due to exploring cooperation and regionalism with our regional partners. Our dedicated City employees work cross-departmentally to ensure the City is maximizing the use of resources, and our employees continually seek to expand upon their skills and talents through career development training.

STRATEGIC OBJECTIVES

- 4A Support continuous improvement.
- 4B Leverage technology to improve service delivery.

CITY ROLES

To help realize these objectives, the City of Colorado Springs will:

- Improve the citizen experience of interacting with City government and using City services through data sharing and streamlining of services.
Continuously evaluate City processes and research best practices to ensure the City is efficient and effective.
- Develop a 311 system with regional partners.
- Improve the strategic use of IT resources.
- Explore cooperation and/or regionalization of services with El Paso County, military agencies and other organizations.
- Encourage City employees to join young professional organizations and/or leadership programs.
- Improve on-line service options and accessibility of information and services for all.
- Encourage continuous leadership/career development for City employees.
- Implement talent management within the City to use resources cross-departmentally.
- Allow for competitive compensation to attract and retain high quality employees.
- Promote City success stories

COMMUNITY INITIATIVES

4A: Support continuous improvement.

- Evaluate City processes and services across all departments to ensure that the City is continually improving and maximizing efficiency and effectiveness.
- Research and implement best practices for specific processes or functions in departments across the City.
- Enhance the City's environmental sustainability efforts in conjunction with other governmental entities.
- Explore cooperation and/or regionalization of services and programs with El Paso County, other regional partners, and the private sector, where appropriate.
- Modernize development review processes internally, and evaluate regulations, fees and rules, using best practices, in cooperation with other entities outside City government who are involved in the process.
- Improve IT utilization and IT resources in alignment with City goals.
- Identify opportunities to collaborate with the military and other government agencies on purchasing, service delivery, and other areas that may provide efficiencies.
- Encourage continuous leadership/career development training opportunities.
- Enhance soft benefits to employees to increase employee productivity and employee satisfaction (for example the Champion Award).
- Introduce a Talent Management approach, sharing resources and talent cross-departmentally.
- Allow for competitive compensation to attract and retain high quality employees.
- Promote a culture of safety and employee knowledge of safety issues.
- Promote a culture of continuous improvement through internal education and sharing of resources and tools.
- Consider using cascading accountability, where appropriate.
- Continue to work with military installations and the County in the Community Partnership Initiative process and the Joint Land Use Study initiative to create a unified front of efficiency and effectiveness for the Pikes Peak Region.

4B: Leverage technology to improve service delivery.

- Improve on-line services for the public and enhance usability of the website; including adding additional video/information on the Government Section of the City website.
 - Develop a regional 311 system - a robust citizen information call center.
 - Develop data driven performance measures for city employee evaluations.
 - Use comprehensive data to drive decision-making at all levels.
 - Improve access to City information for LEP, language, low income, ADA, and the homeless.
 - Promote City success stories by proactively reaching out to the local media and social media; make resources available to employees to repurpose for social media promotion, and encourage employees to share City news.

IMPLEMENTING OUR PLAN

This document lays out the goals, objectives and initiatives the City will undertake in the next five years. The next step is identifying our action plan so that we ensure that the City begins implementing the priorities laid out in the Strategic Plan in 2016. As the City works through implementation, we will focus on our guiding themes:

- ◆ What was done in the past will not work in the future—innovation is key to our success.
- ◆ Govern with the community, rather than at the community.
- ◆ Success depends on partnerships—partnerships benefit the community.

Throughout the remainder of 2015, the City will develop a Strategic Action Plan. Please visit the City's website for more information about implementation and next steps at www.coloradosprings.gov. If you would like to **get involved** with helping the City implement the Strategic Plan, please refer to the resources we have provided below.

HOW TO GET INVOLVED

The City of Colorado Springs relies on our passionate and dedicated volunteers to help us get more done in the community. The resources below can help you get started if you want to get involved!

- ✓ [Community Advancing Public Safety \(CAPS\)](#)
- ✓ [Parks, Recreation, and Cultural Services Volunteer Opportunities](#)
- ✓ [Boards & Commissions](#)

If none of these opportunities match your interest in getting involved, please email the Strategic Advisory Team at sat@springsgov.com.

ACKNOWLEDGMENTS

The Strategic Plan was developed by the City's Strategic Advisory Team, in conjunction with City Department Heads, Chiefs, and Managers, and in consultation with City Council, El Paso County, Colorado Springs Utilities and other regional governments, community organizations and stakeholders.

Thank you to the nearly 2,700 participants of the 2016 budget priorities survey!
Your input has helped create this plan!

2015 Breakthrough Strategies Progress

Owner	Strategy	Measurable Outcome	Completion Goal	Goal	Current Status (as of 8/31/2015)	Highlights
Airport	Create a sustainable, credible Plan of Finance to reconcile past PFC expenditures and strategy to eliminate 2007 debt	Eliminate 2007 Debt	Quarterly	Transforming Government	100%	The 2007 Bond series has been removed from Rates and Charges and the Airport will utilize Reserves to make the 2015 payment. This is step 1 following the Plan of Finance to defease the 2007 Series in 2016.
Airport	Maintain or lower the Airport's Cost Per Enplanement (CPE) of \$7.48	CPE of \$7.48 or lower	Q4	Jobs	\$8.56	The estimated Airline Revenue is forecasted to be 5% lower than 2014, but with the reduced Enplanement forecast the Aggregate CPE is calculated higher than 2014. Increasing enplanements or further reducing costs will lower the CPE below \$7.48
Airport	Exceed the 2014 total enplanement forecast of 633,000	Total enplanement greater than 633,000	Q4	Jobs	606,000	The estimated forecast has been reduced with the exit of San Francisco, Washington Dulles, reduction to Denver and change in aircraft fleet mix to Dallas Fort-Worth
Attorney	Optimize the CAO operations with the most efficient and effective deployment of internal and external human, material, and financial resources	Begin implementation of an Optimization Plan	Q1	Transforming Government	Ongoing	Set up discovery kiosk at Prosecution; Prepared for SharePoint 2013 conversion and create ease in locating documents; Replaced ipads with Revolve and larger laptop computers in order to allow attorneys to be more mobile; Cross-trained additional attorneys; Implemented an online contract services system for our client departments.
Attorney	Review Municipal Court Fees, pleas practices, and review potential for incentives for quick paying tickets	Implement any recommended changes	Q2	Transforming Government	100%	Worked with CPSD and the Municipal Court to review plea practices and procedures; changes to traffic plea guidelines and procedures implemented; statistics provided establish that our revised processes and plea guidelines result in resolutions of over 95% of our prosecution traffic cases at or before the defendants first appearance in court and support the conclusion that we are highly effective in resolving traffic matters quickly, efficiently and provide ample opportunities for "quick paying tickets".
Attorney	Continuously improve service to legislative, judicial and executive branches, City departments, and enterprises	Customer Satisfaction Surveys completed	Q3	Transforming Government	Ongoing	Worked to make sure all new CSU legal requests are quickly assigned and have quick responses
Attorney	Proactively advise and educate each department and enterprise on employment law and management practices	Provide employment training to managers and supervisors quarterly	Q4	Transforming Government	100%	Trainings set up June; Distributed "Ahead of the Curve" employment newsletter in February; assisted the Airport with FAA Title VI compliance review and provided guidance for how to manage Title VI compliance going forward.

Owner	Strategy	Measurable Outcome	Completion Goal	Goal	Current Status (as of 8/31/2015)	Highlights
Auditor	Support the Council, Mayor, CEO of Colorado Springs Utilities and their direct reports by aligning audits with associated strategic organizational goals, objectives and risks through strategic use of outsourcing	Audit Plan complete	Q3	Transforming Government	Ongoing	City Auditor met with each City and Utility department head for audit planning input; this was not accomplished in prior years
Auditor	Refine audit processes to address the highest risk areas and improve efficiency and effectiveness of audit resources and results	Standard work papers updated	Q1	Transforming Government	Ongoing	1st qtr reports issued increased 100% over 2014
Auditor	Develop and utilize a Post Audit Survey of the audit experience for City and Colorado Springs Utilities staff, and develop a survey for Executives and Council to complete	Create, distribute & analyze results	Q2	Transforming Government	50%	Completed for all quarters applicable
Clerk	Implement a new electronic campaign finance filing system in the 2015 Municipal Election for use by candidates and the public to access the data in a more transparent manner	Successful implementation of the electronic campaign finance system	Q1	Transforming Government	Complete	Very successful launch . Positive feedback from candidates, media and the public. We will continue to tweak and refine the system.
Clerk	Pursue grant funding to further advance the indexing and archiving of city records	Apply for grants through the Colorado Historical Records Advisory Board Grant Program	Q2	Transforming Government	Complete	State suspended the program for 2015, but will resume in 2016.
Clerk	Streamline business licensing process to enable customers to easily learn the requirements and complete the necessary forms to obtain the required license in a timely manner through a combination of increased internet presence and internal resources	Publish materials & update forms; increase license enforcement through coordination with other departments	Q3	Jobs	Complete	General business licensing overhaul ordinances were effective January 1, 2015. Consolidated our individual general business license forms into one single form to aid clarity and reduce paper. Redesigned our general business licensing web page to provide more information in a much more user friendly manner. This will continue to be an ongoing process.
Clerk	Educate city staff on the requirements of records management in accordance with the Colorado Municipal Records Retention Schedule	Develop training materials to train city staff on proper records management	Q4	Transforming Government	Ongoing	We continue to research the citywide process to develop our materials and form a plan for improvements.
Communications	Promote City success stories by proactively reaching out to local newspaper and television stations and through social media	Increased number of positive City-related news stories that are disseminated to the media and the public.	Quarterly	Jobs	Ongoing	Contacted media regularly to pitch positive stories about City projects mainly support public infrastructure and repair work.
Communications	Support and contribute to CVB, The Sports Corp, and RBA efforts to market the City through consistent messaging	Improved coordination/consistent messaging among CVB, Sports Corp and RBA	Quarterly	Jobs	Ongoing	Engaged 3 organizations for the City's Summer in the Springs campaign. Partnered with the Sports Corp to promote City sponsored events (Pikes Peak International Hill Climb, Pikes Peak Airstrip Attack) which have a great economic impact in our community.

Owner	Strategy	Measurable Outcome	Completion Goal	Goal	Current Status (as of 8/31/2015)	Highlights
Economic Vitality & Housing	Actively market and promote redevelopment of EOEZ areas	New development in EOEZs	Q2	Jobs	Ongoing	The City has created an EOEZ Implementation Taskforce to implement the EOEZ Action Plans. The Taskforce has identified priority projects for implementation and has established a process for tracking progress and for reporting to stakeholders.
Economic Vitality & Housing	Enhance and promote business retention and expansion through performance-based incentives, issue resolution, Rapid Response, and improving information readily available to potential businesses on the City's website	Improved perception of business climate; new businesses opened	Q2	Jobs	Ongoing	On February 12, 2015 Sierra Completions announced its intention to build a high-end aircraft completion complex at the Colorado Springs Airport. The decision was bolstered by proposed local and state economic development incentives. Construction of the Sierra Completions facility will be supported by the City's Rapid Response program. The project is expected to result in the investment of approximately \$88 million and the creation of approximately 2,100 high paying jobs.
Economic Vitality & Housing	Evaluate the use of federal block grant dollars to implement recommendations in Economic Opportunity Zones, in conjunction with Planning and Development	Programs included in 2015 Action Plan	Q2	Jobs		
Economic Vitality & Housing	Invest resources to increase the number of affordable housing units with a focus on serving the special needs of homeless, disabled, large families, and seniors	Increase in number of affordable housing units	Q4	Building Community	Ongoing	Housing and Community initiatives provided funding for and is participating in the Pathways Home Toolkit sponsored by the Governor's Office to increase the development capacity of local nonprofits to construct permanent supportive housing units for the homeless.
Economic Vitality & Housing	Continue to invest resources to increase the number of emergency shelter beds in the community, especially during winter months	Increase in number of emergency shelter beds	Q4	Building Community	Ongoing	Over the past winter season (Nov 2014-April 2015) 158 new winter shelter beds were added. Discussions are on-going to continue increasing these numbers.
Economic Vitality & Housing	As a member of Continuum of Care, work to develop a ten-year plan to end homelessness	Plan completed	Q3	Building Community	Ongoing	Discussions are in place to launch a comprehensive planning process in 2015 to build long-term strategies for preventing and ending homelessness
Finance	Enhance contracting policies to increase awards to local businesses where it makes sound business sense	Maintain a level of 50% or greater in local spending	Quarterly	Jobs	Ongoing	Continue to maintain a local spend of approximately 50%
Finance	Through the annual priority-based budget process, maximize the use of existing resources, and establish partnerships between City departments to overcome resource constraints	Facilitate identification of cross-departmental projects and partnerships	Q3	Transforming Government	50%	The development of the Facilities Maintenance Committee process allows us to achieve efficiencies - for example, we can procure for multiple roof projects to realize economies of scale.
Finance	Reassess use of City facilities/space to maximize utilization, eliminate ineffective space, optimize utility usage, and ensure safety and security in City buildings, in conjunction with Fire-Facilities	Development of a facilities maintenance plan	Q2	Transforming Government	50%	Developed Facilities Maintenance Committee to further these goals. Prioritized all CIP facilities maintenance needs citywide as part of the 2016 budget process.

Owner	Strategy	Measurable Outcome	Completion Goal	Goal	Current Status (as of 8/31/2015)	Highlights
Fleet	Develop and implement a Green Fleet Initiative	Implement Phase I of the Green Fleet Initiative	Q4	Transforming Government	0%	
Fire	Further develop the Community Assistance Referral and Education Services (CARES) program through collaborative efforts with health and wellness providers	Conduct monthly neighborhood health screenings; Enroll an additional 250 patients into the CARES program; Make contact with at least 60 super-utilizer patients	Health Screenings measured quarterly, enrollment and contact by Q4	Transforming Government	See highlights	Conducted 6 Blood Pressure/Sugar clinics where 246 people were screened; 3 health fairs with CONO, UCCS Nursing students, and EPCHD. Completed 2 Senior fall prevention, emergency evacuation & proper 911 usage training's for 84 seniors. Enrolled 79 patients into CARE's of which 24 were super-utilizers. We continue to see at least 69% reduction in 911 use for 50% of the patients enrolled.
Fire	Improve citizen safety through maintaining staffing levels of public safety personnel in the Fire Department at authorized strength	Achieve 98% of authorized strength; ensure staffing levels for SAFER grant	Q4	Building Community	100%	Trainee Class of 17 graduated June 19, 2015. Promotions on June 16, 2015; 1 Battalion Chief, 1 Captain, 3 Lieutenants, 3 Driver Engineers, 1 Paramedic
Fire	Improve Wildfire Suppression and Mitigation through additional training and increased mitigated acreage	Increase wildfire training hours and acres mitigated by 5%	Q4	Transforming Government	See highlights	2,153 training hours, 11% below Q2 2014; 529.5 acres mitigated, 33.8% below Q2 2014 due to heavy rains throughout May & June, 2015.
Fire	Improve citizen and firefighter safety through maintaining staffing levels of inspections personnel within the Division of the Fire Marshal	Achieve completion of 60% of required high risk operation and occupancy inspections	Q4	Transforming Government	1155 high risk operation & occupancy inspections completed, which is 46% of the total	Division of the Fire Marshal has completed 2,260 business inspections year-to-date. Completed 78% of goal of 1,489 high risk occupancy inspections.
Fire	Meet or exceed the CSFD's stated response time standards, including working collaboratively with AMR to improve medical response times within the City to improve patient care	Respond to all calls within 8 minutes 90% of the time; respond to all structure fire calls with an effective fighting force within 12 minutes 90% of the time	Quarterly	Transforming Government	9 min = 88.5%; Joint 8 min w/AMR = 89.9%; 12 min = 86.0%	
Fire	Enhance mutual aid relationships and interoperability among public safety agencies (cross departmental goal with OEM and PD)	Ensure all Citywide and Fire-specific mutual aid agreements are updated and in place	Q4	Building Community	2 of 24 accepted & 7 of 24 under review; Fire 26 of 31 current. 2 updated to new language & 29 need to be updated	
HR	Implement annual updates to the City's new pay for performance program that is aligned with the City's compensation philosophy and rewards employee's contributions to business goals and needs	Merit Pay and Salary Schedule changes recommended and implemented effective March 29, 2015	Q2	Transforming Government	100%	

Owner	Strategy	Measurable Outcome	Completion Goal	Goal	Current Status (as of 8/31/2015)	Highlights
HR	Implement annual updates to the City's healthcare plan that are fiscally sound, market based, conform to current legislation, and provide robust options	Healthcare plan updates in place for open enrollment effective October 2015	Q3	Transforming Government	25%	
HR	Provide students in our community a learning opportunity by offering internships at the City of Colorado Springs	10 paid internships per semester (20 during the year)	Q2-Q4	Jobs	25%	
HR	Improve workforce diversity by actively recruiting and facilitating outreach to military veterans, women, minorities and young professionals	Increase outreach efforts by 3% to recruit young professionals, military veterans, women and minorities; increase ethnic diversity of City's applicant pool by 5%	Q2-Q4	Jobs	25%	
HR	Review the City's property and casualty insurance coverage across all business lines and departments, to ensure an appropriated balance of policy costs and covered risks	Risk transferred as appropriate to insurance	Q2	Transforming Government	75%	
HR	Assess the City's liability exposure to determine whether legislative or policy changes need to be enacted	Assessment process completed and recommendation made to City Management	Q2	Transforming Government	100%	
HR	Work with Police and Fire to evaluate best practices to address first responder PTSD	Research Best Practices and provide a report to Sworn Management	Q3	Transforming Government	75%	
IT	Establish an Enterprise Architecture Practice to increase the return on investment by creating a road map of technology change necessary to deliver services	Improve quality of service delivery	Q2	Transforming Government	25%	The Enterprise Architecture organization structure has been identified. Positions have been staffed or posted and draft procedures are in place. TOGAF framework training was conducted in Q1 2015.
IT	Design and implement a technology sourcing strategy to ensure that the city receives the technology services required while achieving the greatest possible level of service quality for a given cost	Achieved Service Level Agreements	Q4	Transforming Government	25%	Creation of the Supplier Management Policy and Procedure are well underway and will be rolled out in Q2 2015.
IT	Establish a comprehensive Information Security Program with the purpose of protecting the organization and its ability to perform its mission by ensuring the confidentiality, integrity, and availability of information	Information Security Program established	Q4	Transforming Government	15%	The Chief Information Security Officer position was posted in Q1 2015. The Acceptable Use Policy was distributed for user signature in Q1 2015.

Owner	Strategy	Measurable Outcome	Completion Goal	Goal	Current Status (as of 8/31/2015)	Highlights
IT	Improve citizen access to City services and information through enhanced website tools and mobile enabled technologies; increased available information	Mobile Apps, mobile friendly applications, automated solutions	Q4	Transforming Government	25%	The online Campaign Finance system has successfully supported the campaign finance reporting needs for the April 7 election. The new City external website, www.coloradosprings.gov is gaining more user sessions per month than the old www.springsgov.com showing the transition is happening.
IT	Design and implement an IT infrastructure and tech refresh program to provide secure, scalable, and reliable IT services to City departments and citizens	Improved quality of service delivery, better forecasting of IT expenses	Q3	Transforming Government	30%	Hardware and software have been purchased. Deployment is in progress.
Municipal Court	Begin implementation of a rebuilt case management system (CMS) to meet Court business and customer needs	Transition to a rebuilt CMS	Q4	Transforming Government	10%	A bid has been provided to the Court for outsourcing of rebuild. Next will be a meeting with City IT to begin negotiations with vendor.
Municipal Court	Develop internal repository (intranet capability) for Court's e-administrative policies and procedures	Internal repository created and implemented	Q3	Transforming Government	5%	Project is still in the beginning stages, as many other projects have taken priority. Project could be completed by the end of the year.
Municipal Court	Improve and enhance Judicial Performance Evaluation to streamline the process of evaluating and providing feedback to Municipal Court Judges	Improved judicial performance	Q3	Transforming Government	Project Completed	Court staff, CSPD officers and City Attorneys were surveyed using a similar survey that is used to assess County and District Court Judges. The feedback was compiled using a Survey Monkey and the outcome was shared with the Municipal Court Bench.
OEM	Increase City Departments' level of emergency preparedness to ensure the safety of the community during natural and human-caused disasters	Conduct four (4) exercises for city staff per year	Quarterly	Transforming Government	100%	Conducted 3 exercises for staff in Q2: - Flood Preparedness Training/Workshop on 2 April; - "Palmer's Exodus" Full Scale Exercise on 25 April testing police evacuation, damage assessment, fire operations response, including air to ground coordination; Executed the Public Safety Wildfire Command and Control TTX on 27 May.
OEM	Enhance disaster recovery by building strong, cooperative partnerships with City, County, State and Federal government partners, and community and nongovernmental organizations	Conduct twelve (12) stakeholder meetings per year to coordinate recovery efforts across the Colorado Springs area	Quarterly	Transforming Government	75%	Conducted 6 stakeholder meetings in Q2: Monthly Recovery Working Group meetings were held in April, May, and June. Sponsored and coordinated three multi-jurisdictional flood recovery/FEMA Preliminary Damage Assessment meetings related to the 2015 rain event which resulted in the City's request for a disaster declaration.

Owner	Strategy	Measurable Outcome	Completion Goal	Goal	Current Status (as of 8/31/2015)	Highlights
OEM	Build community resiliency through direct interaction with members of our community	Conduct six (6) interactive community preparedness events per year	Quarterly	Building Community	83%	Conducted 4 community preparedness/engagement events in Q2: Held a Community Flood Meeting 1 April at Glen Eyrle; conducted a tour on 1 April of the Waldo Canyon Burn Scar with 20 UCCS Geography students; provided a presentation and tour on 14 April to 75 individuals from the Society of American Military Engineers (SAME); conducted an evacuation exercise with 275 residents, representing 146 homes in the Palmer Park area; conducted the SkySox preparedness day event on 31 May providing education materials and community outreach through significant media coverage to thousands.
Parking	Support downtown renaissance through collaborating with City Departments and CSU to increase streetscaping projects, and partnering with private enterprises on right-of-way improvements near mixed-use developments	Projects identified/under construction	Q4	Building Community	20%	
Parking	Optimize utility usage within the City's parking structures by collaborating with CSU to re-lamp remaining facilities with high efficiency LED light fixtures	Re-lamping completed and electric consumption reduced	Q4	Transforming Government	30%	
Parks - Cemetery	To increase the Cemeteries' market share in the community	Over 25% market share in El Paso County	Quarterly	Transforming Government	50%	Market share statistics from the Department of Vital Statistics indicates we are currently at 16% of the El Paso County market.
Parks - Cemetery	To stabilize the maintenance cost per site at the two City Cemeteries	Maintenance cost per site at \$17.00	Quarterly	Transforming Government	50%	As of the end of the 2nd Quarter, Maintenance costs per site are \$16.26.
Parks - Cultural Services	Continue with fundraising and sustainability efforts at each of the Cultural Services sites to supplement the City's general fund appropriation and maintain current program levels	Revenue contribution of approximately \$400,000 in donated and earned income	Q4	Transforming Government	50%	
Parks - Cultural Services	Collaborate with UCCS, Colorado Springs Utilities, and City IT to fund and implement the first phase of the Story of Us project – using web-based applications, crowd sourcing, and a museum exhibition to celebrate the community's heritage	Completion of phase I activities—as outlined in grant documents	Q4	Building Community	25%	
Parks - Cultural Services	Continue the exterior restoration project on the 1903 El Paso County Courthouse by implementing phase IV construction and seeking additional grant funding for phase V	Submit SHF grant application and implement construction on phase IV	Q4	Building Community	25%	Winning contractor RFP came in slightly under budget and construction kicked off 1 month earlier than expected

Owner	Strategy	Measurable Outcome	Completion Goal	Goal	Current Status (as of 8/31/2015)	Highlights
Parks - Cultural Services	Collaborate with the Garden of the Gods Foundation to develop a mobile application designed to attract and provide additional interpretation	Publish mobile application in conjunction with unveiling of exhibits	Q4	Building Community	50%	Partnering with GOG Foundation to produce mobile applications at no cost to the Foundation or the City
Parks - Forestry	Expand sustainable urban forest management practices that mitigate risk, and enhance public safety, stormwater retention and property value through Forestry crews and contracted services	Project areas identified, projects contracted and work completed	Q4	Transforming Government	40%	Forestry staff continue to work on hazard tree removals as well as pruning of street trees. Contract crews continue to perform tree pruning and removals throughout the city and will begin an area prune on the SW side of town in August. The tree Removal RFP has been awarded and tree removals from our existing backlog have begun. This work will continue throughout the winter.
Parks - Forestry	Expand maintenance services to native rights-of-way, medians and Gateway Gems by contracting mowing services and redefining existing staff roles to increase efficiencies	Bidding process completed and contracted work implemented	Q3	Transforming Government	70%	The majority of the right-of-way mowing contracts were successfully awarded to contractors. Costs came in higher than anticipated, so a portion of the work is handled by internal staff. Mowing frequency and coverage have increased as a result of these contracts.
Parks - Forestry	Continue forest restoration practices in the Parks Wildland Urban Interface that increase forest health and reduce the threat of catastrophic wildfire	Bidding process completed and contracted work implemented	Q3	Transforming Government	90%	All major forest restoration projects planned for 2015 have been completed. Forestry is now in the process of applying for additional grant funds for 2016. We have also experienced a severe insect outbreak in our west side open spaces. Planning has begun for treatment of those areas in spring, 2016.
Parks - Golf Enterprise	Attract golfers to play a 9-hole or 18-hole round of golf at Patty Jewett and Valley Hi Golf Courses	Increased number of rounds played - exceeding 117,163 9-hole rounds at Patty Jewett and 63,315 rounds at Valley Hi	Q4	Transforming Government	Valley Hi and Patty Jewett down compared to the same period in 2014 (Record rainfall in May, part of June)	Q2- Valley Hi - Finished and opened the short game practice area with First Tee, partnered with the Colorado Springs Switchbacks FC for the Opening Day Kick Off for FootGolf.
Parks - Golf Enterprise	Provide quality, affordable golf services to the residents and visitors of the City of Colorado Springs	Average green fee revenue per 9-hole round at 85% or higher of our rack rate of \$15.00; contribution to each golf course fund balance of \$20,000 at Patty Jewett and \$10,000 at Valley Hi	Q4	Transforming Government	Both courses are just above our green fee revenue per round at \$15.45	
Parks - Operations & Development	Continue expanded use of technologies through installing smart controllers and rebuilding five meter pits to enhance the efficient delivery and use of irrigation on park properties	Twenty standard irrigation clocks replaced with smart controllers	Q4	Transforming Government	20% Complete	Q1 - Clocks and flow meters have been purchased. A contractor has been retained to perform the installation and has begun th work with the goal have having the units installed and operational by June 1st.

Owner	Strategy	Measurable Outcome	Completion Goal	Goal	Current Status (as of 8/31/2015)	Highlights
Parks - Operations & Development	Expand use of contracted labor to enhance delivery of landscape maintenance services	Contract an additional 10 acres of parkland maintenance; explore contractual opportunities	Q4	Transforming Government	10% Complete	Q1 - Maps of new areas to be contracted have been prepared and modified bid specifications are in progress.
Parks - Operations & Development	Work with other City departments to identify areas where a cooperative effort will enhance service delivery and efficiency, including sharing equipment with Public Works and working with Police on consistent reporting of criminal activity in Parks	Identify and work on opportunities that may be possible with Public Works, Police and Information Technology	Q4	Transforming Government	Ongoing	Q1 - Have meet with Engineering to discuss opportunities to use grant dollars for repaving of North Cheyenne Canon Park Road and improving associated drainage that was compromised during 2013 floods. Have discussed with Police enforcement strategies and their implementation for trash and unapproved uses along the Greenway Trail corridor.
Parks - Operations & Development	Lead a stakeholder process to develop recommendations to update and revise the Parkland Dedication Ordinance	Present recommended ordinance changes to City Council for adoption	Q4	Jobs	10%	Issues pertaining to the Parkland Dedication Ordinance will be discussed as part of the Infill Steering Committee considerations in mid April.
Parks - Recreation & Admin	Continue to enhance volunteerism within the Parks, Recreation and Cultural Services Department	Meet or exceed Department's goal of 200,000 hours of volunteer service	Q4	Building Community	50%	Q2 - Volunteer events are underway. 2nd quarter highlights include expansion of the AmeriCorps VISTA program to a 10-week summer session. Expansion of volunteer efforts with Keep Colorado Springs Beautiful through the Greenway Collaborative.
Parks - Recreation & Admin	Continue to expand partnerships and alternative operational models within the Recreation and Administrative Services Division to increase and enhance services provided to the community	Meet or exceed Department's 2014 level of partnership development by 10%	Q4	Transforming Government	50%	
Parks - Recreation & Admin	Develop a comprehensive Parks marketing plan that increases communication to citizens and visitors on the variety of Park's amenities, highlighting historical significances	Plan development in process	Q4	Building Community	50%	Q2 - The 2015 marketing plan is written and implementation of the plan is underway. Development of a new department logo has been completed.
Pikes Peak - America's Mountain	Explore public and private funding opportunities for the design, development and construction of a new Summit House. Work with CSU Environmental to facilitate the NEPA Process	Design and NEPA process complete	Q4	Transforming Government	25%	Design Team of RTA Architects and GWWO Architects awarded design contract. Notice to Proceed issued June 8, 2015
Pikes Peak - America's Mountain	To maintain an average operational cost per visitor that is fair and equitable in relation to the expenditures of the Enterprise necessary for long-term sustainability	Operational Cost of \$16 per Visitor	Q4	Transforming Government	25%	

Owner	Strategy	Measurable Outcome	Completion Goal	Goal	Current Status (as of 8/31/2015)	Highlights
Pikes Peak - America's Mountain	Working with Information Systems Project Team, investigate the feasibility and functionality of WiFi hotspots and install at all visitor centers on the Pikes Peak	Operational WiFi hotspots	Q4	Transforming Government	0%	IT Team to perform site survey
Planning & Development	Develop an infill and redevelopment action plan and align development regulations to be consistent with the action plan	Submission of an action plan and ordinances to the City Planning Commission	Q4	Building Community	Workshop held; Initial Comp Plan chapter and recommendations drafted	
Planning & Development	Implement systematic code enforcements procedures and public outreach program to improve compliance and abatement of zoning and sign violations	Implementation of code enforcement SOPs, engagement with community organizations	Q2	Building Community		
Planning & Development	Implement recommendations of the North Nevada Economic Opportunity Zone pertaining to land use and zoning	Submission of a code amendment(s) to the City Planning Commission	Q4	Jobs		
Planning & Development	Enact an incentive program to aid in the rehabilitation and abatement of derelict buildings	Activation of the program	Q2	Building Community		
Planning & Development	Work with other City departments to create a land information system for development review and record management that supports the needs of the City and other participating agencies	Long-term plan developed	Q2	Transforming Government		
Planning & Development	Collaboratively support interdepartmental efforts in Academy Boulevard Economic Opportunity Zone and overall SE area	Completion and adoption of Hancock Expressway/ Academy Boulevard Design Project	Q3	Building Community	Preferred alternative refined	
Planning & Development	Work with other City departments to create a land information system for development review and record management that supports the needs of the City and other participating agencies	Long-term plan developed	Q2	Transforming Government	Continue Implementation and Testing	
Planning & Development	Identify and implement Standard Operating Policies to assist Controlling Departments and Colorado Springs Utilities with an understanding of real estate procedures and document processing to enhance the interpretation of the Real Estate Manual	Complete two new Standard Operating Policies to assure compliance with the Real Estate Manual	Q4	Transforming Government	In process	

Owner	Strategy	Measurable Outcome	Completion Goal	Goal	Current Status (as of 8/31/2015)	Highlights
Police	Implement Phase II recommendations of Patrol Efficiency Study	Increase authorized strength by 20 positions	Quarterly	Building Community	Complete	Goal Complete
Police	CSPD will enhance customer service to citizens by improving the False Alarm Program, in conjunction with the City Clerk's Office and the City Attorney's Office	Reduce number of false alarms	Bi-Annually	Transforming Government	0% Reduction	CSPD and City IT are working on an web-based, electronic alarm management system. The requirements gathering process will be complete in the fourth quarter. Additionally, the City and the 911 Authority currently have a project underway to upgrade CSPD's Computer Aided Dispatch system (CAD). That process revealed that the upgraded CAD system offers an alarm management module that may meet some, or all, of our requirements. This possibility is now being explored as part of the business requirements gathering process noted above. Concurrently, work continues between CSPD and the City Attorney's Office to revise the current alarm ordinance.
Police	CSPD will enhance public safety in the South Academy Economic Opportunity Zone using proven techniques and new, innovative approaches	Reduce violent crime	Quarterly	Jobs	Violent Crime is 8% lower in Q2 2015 compared to the same period in 2015	CSPD partnered with the Southeast Springs Soccer Initiative (SESSI), which utilizes soccer as an intervention tool to reach at-risk youth. The Police Department has several volunteers and, in addition, officers stop by the practice time for a few minutes when their schedule allows. The Impact Team for Sand Creek has been active in the South Academy Economic Zone. The team has cleared 44 felony arrest warrants, 11 misdemeanor warrants, and has recovered over \$113,000 worth of stolen property. The team has been working on a Motor Vehicle Theft and Burglary of Motor Vehicle Theft pattern, reducing this pattern to almost nothing. The Crime Free Multi Housing Program has certified two apartment communities with two more scheduled to be certified in September. During July and August, the Impact Team conducted direct deployments in the area resulting in 11 arrests and 3 recovered weapons.
PW - City Engineering	Work with Land Use Review to improve Customer Service through improving submittal acceptance/processing by speeding up scanning development drawings/documents	Enhance customer service between Land Use Review and Development Review	Q2	Transforming Government	50%	All Reviewer's have upgraded Monitors to begin review of Commercial Plans. There is a review of the development review process underway to streamline the buckslip process and go electronic.
PW - City Engineering	Work with Procurement to prepare for Design Build (DB) and Construction Manager-General Contractor (CM-GC) project delivery methods to speed up project delivery of Capital (and Stormwater) projects	Decrease project delivery times	Q4	Building Community	Consultants have been selected for both Rockrimmon and Paseo bridge replacement projects	Both the Rockrimmon and Paseo bridge replacement projects will utilize the Construction Manager - General Contractor (CM-GC) project delivery method, the contractor selection process will begin in the second quarter of 2015. With a contractor workshop scheduled in May.

Owner	Strategy	Measurable Outcome	Completion Goal	Goal	Current Status (as of 8/31/2015)	Highlights
PW - City Engineering	Continue implementation of asset management to assist in resource allocation for planned maintenance and replacement of infrastructure and assets, for Public Works and other departments including Parks, Forestry and Pikes Peak Highway who have similar needs	Improve tracking and planning of infrastructure maintenance	Q4	Transforming Government	100%	Completed High Risk Crash Locations for 2014; Went Live with Survey Requests in Cartegraph; Imported 2014 Bridge Inspections in Cartegraph; Completed MS4 and GASB34 HUTF Reporting; Went Live with ADA Survey of Facilities in Cartegraph; Went Live with Concrete Module for Pedestrian Ramps and Sidewalks in Cartegraph.
PW - City Engineering	Work with the Regional Development Center, Regional Building Department, and Planning Department to create a land information system for development review and record management that supports the needs of the City and other participating agencies	Vendor under contract	Q2	Building Community		Working with Finance regarding flow process for internal implementation
PW - City Engineering	Restructure and reassign administrative staff duties for the City Engineering and Traffic Engineering divisions, to provide a central customer service area and improve efficiency	Improved customer service	Q3	Building Community	Complete	
PW - City Engineering	Work with Parks and Parking departments to develop a prioritized replacement and new construction list for new sidewalk construction using PPRTA II sidewalk funding	Create a prioritized replacement and new construction list for new sidewalk construction	Q4	Building Community	Program developed	CTAB approved the 2015 construction containing over 60 segments ranging from 15 feet to over 2000. Many segments complete critical connection to regional trails and transit routes.
PW - Stormwater	Create a robust Stormwater & Runoff Control program, achieving 100% compliance with Federal and State clean water laws and regulations, to maintain and improve the condition and flow of the stormwater infrastructure	Enhanced project delivery methods will be developed. Environmental protection and enhancement will be featured	Q4	Transforming Government		Annual Water Quality Report was completed and sent to Colorado Department of Health and Environment
PW - Stormwater	Working with Asset Management in City Engineering, have all Stormwater Facilities (pipes, inlets, manholes, channels, etc.) mapped and included in the Stormwater facilities GIS database with condition ratings/comments	Available maps of Stormwater facilities	Q4	Building Community		
PW - Streets	Improve oversight and management internally of all PPRTA programs, while maintaining complete transparency to the Executive Team, City Council, the PPRTA Board and the citizens of Colorado Springs to ensure the effective and efficient use of taxpayer money	Make the transition transparent to the Executive Team, City Council, PPRTA Board, and citizens of Colorado Springs	Quarterly	Building Community	N/A	

Owner	Strategy	Measurable Outcome	Completion Goal	Goal	Current Status (as of 8/31/2015)	Highlights
PW - Streets	Work with City Departments/Enterprises (Parks, Parking, Golf Courses, Pikes Peak Highway, etc.) to identify and complete projects internally, including paving one mile of the Pikes Peak Highway (revenue offset from Pikes Peak Highway)	Completion of the cross-departmental projects	Q4	Building Community	N/A	
PW - Streets	Work with North American Salt to open deicing material hub in Colorado Springs, resulting in a more cost effective means to procure deicing material; as well as contribute to the creation of jobs	North American Salt opens a hub in Colorado Springs	Q1	Jobs	North American Salt has declined to move forward with this initiative at this time.	
PW - Traffic Engineering	Work with Engineering, Streets, Parks, and Transit to develop a prioritized funding list for new sidewalk construction using PPRTA II funding to improve the City's infrastructure at high priority locations	Miles of sidewalk	Q2,4	Building Community	A priority list has been developed to start new sidewalk construction next quarter.	
PW - Traffic Engineering	Develop projects and funding strategies to relieve traffic congestion that impacts Peterson Air Force Base and Colorado Springs Airport, in conjunction with City Engineering	Improve capacity and relieve traffic congestion	Q2	Jobs	Funding for the Powers widening project is on the May agenda of PPACG for approval.	
PW - Transit	Continue transit service to VA Clinic and service frequency to the County Citizens Service Center	Continue ridership and improved connection to critical citizen services	Q1	Building Community	100%	Route 2 continues to serve the VA Clinic at Fillmore St and Centennial Blvd. during weekdays and Saturdays before terminating at the El Paso County Citizens Service Center. Routes 14 and 34 also provide service to the El Paso County Citizens Service Center
PW - Transit	Support CDOT's new Bustang Commuter Bus service between Colorado Springs and Denver	Improve job access to Denver	Q1	Jobs	100%	Supporting and coordinating with the Colorado Department of Transportation (CDOT) as they reestablish intercity bus service between Colorado Springs and Denver. Operations are expected to commence on July 13, 2015. Entered into IGA's with CDOT on the operations of the PnR that serve as Bustang stops, and for use of the Downtown Bus Terminal as a Bustang stop.
PW - Transit	Increase frequency on one bus route and serve Economic Opportunity Zones and major employers; add 3 bus routes on Saturday; and fix on-time performance issues on multiple transit routes	Increase ridership and improve connections to jobs	Q2	Jobs	100%	Effective April 5, 2015, Route 5 service frequency was increased from 30 minutes to 15 minutes; three additional bus routes began operating Saturday service; and on-time performance was improved on multiple routes.

Owner	Strategy	Measurable Outcome	Completion Goal	Goal	Current Status (as of 8/31/2015)	Highlights
PW - Transit	Initiate land acquisition for a Downtown Transit Station to improve safety, operations and support City for Champions project	Improved safety and operations of a transit station	Q4	Building Community	20%	Grant agreements with CDOT were received and development of scope of work and RFP documents was commenced.
PW - Transit	Continue to implement recommendations of the Transit Solutions Team purchasing smaller buses	Increased efficiencies and fuel savings	Q4	Transforming Government	50%	Completed the bus purchase RFP and placed the purchase order including five small transit buses. New vehicles will be received during 4th quarter.
PW - Transit	Pursue partnerships with PPCC and UCCS to improve transit services	Increase ridership/improve connections to jobs/schools	Q4	Building Community	50%	Continue to work with PPCC and UCCS on the Student Pass program. Continuing regular meetings/progress being made with both institutions.
PW - Transit	Collaborate with the City's Housing Division to better serve affordable housing areas	Coordinated Transit Title VI Plan/Affordable Housing Plan	Quarterly	Building Community	50%	Transit participated in the Affordable Housing Plan development
PW - Transit	Collaborate with the City's Planning Department to better coordinate land use and transit	Develop the 2040 Regional Transit Plan and improved coordination with land use	Quarterly	Building Community	50%	Transit attended the Transportation Infill Workshop scheduled on April 23, 2015 at PPACG. The 2040 Transit Plan is receiving final edits and is expected to be approved in the 3rd quarter. Transit has been participating with the Infill and Redevelopment Steering Committee process.

City Council Strategic Plan

Colorado Springs City Council 2016 Strategic Plan

To provide for the future of the City, City Council maintains a strategic plan which prioritizes goals for the City Council and establishes measurable outcomes. The plan process considers public input and is provided to the Mayor for consideration in the development of the 2016 municipal administrative budget. (Colorado Springs' City Charter Article III, 3-10.(c))

Mission: As stewards of the public trust, we serve the people of Colorado Springs with core services effectively, efficiently, and courteously with the wise use and management of our resources.

Focus Areas	Objectives	Initiatives	Measurable Outcomes
<p>Economic Strength</p>	<p>Improve Colorado Springs' Business-Friendly Climate</p>	<p>Identify and revise business-related City Code sections to improve customer focus, expedite processes, and eliminate barriers.</p>	<p>Collaborate with executive branch and business community to identify and revise code sections.</p>
	<p>Facilitate Regional Economic Strength</p>	<p>Identify and implement specific changes within Council's purview that attract and retain jobs, leveraging the City's strengths, including Colorado Springs Utilities' role as an economic engine for the region.</p>	<p>Continue partnership and collaboration with the Regional Business Alliance. Work with Airport and Economic Development to identify and leverage business opportunities at the Colorado Springs Airport.</p>
		<p>Identify tourism promotion and funding strategies that support regional efforts to expand tourism in the Pikes Peak Region.</p>	<p>Investigate policy modifications that maximize tax revenues available for tourism promotion and other business initiatives in the tourism arena.</p>
		<p>Support regional workforce development goals that enhance the City's appeal to high-technology and manufacturing businesses.</p>	<p>Form a Council subcommittee to investigate the feasibility of a Local Marketing District to fund tourism promotion in the region.</p>
	<p>Encourage Responsible and Innovative Land Use</p>	<p>Proactively engage in the federal BRAC (Base Realignment and Closure) process, with the goal of defending and expanding the military presence in the Pikes Peak region. Implement results of the comprehensive plan infill steering committee's work and provide citizen input to City Council concerning the plan. Focus on and engage with citizens on the Banning-Lewis property and master plan. Encourage infill and develop job creation policies with a priority on West Colorado Avenue, Economic Opportunity Zones and Downtown.</p>	<p>Solicit feedback from and identify partnership opportunities with the Pikes Peak Workforce Center and regional educational institutions. Participate actively in citizen groups engaged in BRAC process. Infill elements incorporated into the comprehensive plan & utilized in land use decisions. Neighborhood town halls on issues of specific concern to Banning-Lewis residents and other citizens relating to use of the property. Demonstrated job growth and increased economic activity in targeted areas.</p>

Focus Areas	Objectives	Initiatives	Measurable Outcomes
Responsible Government	Engage in Regional Partnerships that Improve Results and Leverage Collaboration	Facilitate intergovernmental cooperation to support, as appropriate, efforts relating to stormwater, emergency response, transportation, and aging. Participate in regional Continuum of Care to support elimination of homelessness and vagrancy and their effect on citizens' quality of life.	Meet regularly with other local governments regarding resolution of mutual stormwater concerns. Review allocation of federal block grant funding to support affordable housing.
		Continue to collaborate with stakeholders including El Paso County, PPRTA, PPACG, Colorado Springs Utilities, and the military to implement realistic and effective regional stormwater solutions, and other high-priority capital improvements and maintenance programs.	Work with executive branch to construct and fund a comprehensive multiyear plan to fund critical infrastructure deficits, including roads, bridges and stormwater infrastructure.
	Exercise Sound Financial Stewardship	Review and direct municipal government audit function and deliverables to measure trends, efficiencies, effectiveness, and improvement opportunities.	Continue to refine work plan for Audit Committee for 2016 and report to Council.
		Engage with executive branch to examine the City's budget and strategic plan development processes, identify policy changes and opportunities for effective and early engagement.	Identify City Code and/or Charter changes needed to allow for Council-initiated budget changes.
	Deliver Effective & Efficient Government by Collaborating and Communicating among City Departments	Continue to clarify and effectively execute the legislative role of City Council and refine Council processes to facilitate transparency, proactivity, and citizen engagement. Examine adjusting local TABOR to reflect the community's ongoing resource needs with respect to City Council's responsibilities to fund those needs.	Coordinate Council's communication function with the executive branch to ensure consistent and effective messaging to citizens, employees, and the media. Convene a working committee of TABOR experts and stakeholders to advise City Council on its long- and short-term effects on City budgets and possible options to remediate, with a report to City Council by June 2016.
	Facilitate engagement with local, state and federal lawmakers to ensure the City's interests are represented.	Lead the development of an effective legislative agenda and lobbying program, working in concert with Colorado Springs Utilities, the executive branch, and municipal associations.	Adopt a legislative agenda document developed with input from all branches of City government, including Colorado Springs Utilities.

Focus Areas	Objectives	Initiatives	Measurable Outcomes
<p style="text-align: center;">Quality Community</p>	<p>Increase Citizen Outreach & Engagement in Local Government</p>	<p>Evaluate existing City Council Boards, Commissions and Task Forces to ensure effectiveness and citizen participation; revise and restructure to ensure robust citizen input, leverage new technology tools.</p>	<p>Implement new technology solutions to modernize and streamline the recruitment, selection, and appointment of Boards & Commissions volunteers.</p>
		<p>Partner with local non-profit organizations to promote effective neighborhood outreach and leadership development.</p>	<p>Solicit citizen input on the quality and effectiveness of the City's Code Enforcement function.</p>
	<p>Develop and implement policy changes to promote a safe, secure and healthy community.</p>	<p>Work with Council Boards & Commissions to identify specific City Code or policy changes that improve important elements of citizens' quality of life.</p>	<p>Identify budgetary and regulatory changes to increase the effectiveness of the City's Code Enforcement function.</p> <p>Solicit specific input from selected Boards & Commissions for recommendations.</p>

General Fund Financial Forecast

As a budgeting and financial planning best-practice, the City develops both a five-year Capital Improvement Plan and a five-year financial forecast.

Below are the assumptions that are included in the forecast that follows.

Forecast Assumptions
4% Sales and Use Tax revenue growth – which is less than the average revenue growth in recent history when only considering years in which revenue grows and not years in which revenue actually declines. Therefore, the forecast assumes no recession in the next five years.
1.1% to 8% revenue growth for other revenues
Funding in 2017 to staff Fire Station #22
Beginning in 2017 fund employee pay for performance at a rate of 2% annually
Fund employee and sworn retiree healthcare cost increases of approximately \$500,000 annually
Fund additional staff to meet service demands – \$500,000 annually. With this funding we expect the number of City employees per 1,000 citizens to remain constant or even continue to decline.
Recognizes planned savings from the 2017 fuel lock but then expects fuel costs to increase each following year–\$500,000 annually
1% inflationary impact to contracts for services and capital outlay - relying on competitive procurement process to keep costs down
Increase vehicle replacement budget by \$500,000 in 2017 to \$1,000,000 in 2020 as the average age of the City’s fleet is 13 years and will need to be replaced
5-year CIP plan, however, reduce the 2017 funding from a planned \$24.4 million to \$22.4 million
Assume actual expenditures are 1% under budget each year

While forecasts are based upon historic trends, current conditions, and expectations regarding the future there is significant uncertainty as the City is dependent upon a complex local, national and world economy and with sales tax as the major revenue source is dependent upon consumer sentiment and disposable income. The forecast is useful to understand what the future financial condition of the City could be based upon a set of reasonable assumptions. However, actual experience will differ from the assumptions - impacting financial results. The City will make strategic adjustments to changing conditions. For example, if revenue is trending under budget, the City will take actions to modify expenditures mid-year.

The most significant, general risks to the forecast include: economic slowdown/recession, significant changes to primary employers, unavoidable cost increases, continued flight to online retail sales, and continued flight to sales outside City limits.

As shown on the following page, with the set of assumptions above, there would be an additional draw from the General Fund unrestricted fund balance in 2017, but the fund balance would begin to grow in the following years to nearly 18% by the end of 2019.

Citizen's Overview

2016 Budget

2016-2020 Strategic Plan Goals

The City's Strategic Plan guides the annual budget process.

The City's Strategic Plan was updated in summer of 2016 and reflects significant input from the community.

Thank you to the over 2,700 citizens who took our budget priorities survey this summer.

You helped us develop our 2016 Budget and 2016-2020 Strategic Plan!

INVEST IN OUR INFRASTRUCTURE & ASSETS:

- ➔ Increasing Capital Improvement Projects by \$7M to fund critical streets, stormwater, and bridge repairs
- ➔ Dedicating \$16M to stormwater
- ➔ Increasing transit funding by \$815,000

IMPROVE SAFETY

- ➔ CSFD's 4th Battalion & Additional Fire Code Inspector
- ➔ Police Body Worn Camera Program

MAINTAIN OUR PARKS

- ➔ Garden of the God's safety, education programs, & scientific study
- ➔ Increasing parks watering
- ➔ Spraying for invasive moths in our parks

Citizen's Overview

2016 Budgeted Expenditures

General Fund - \$268,110,504

Expenditures by Department

The departments within the "All Other Departments" category include:

- City Council
- City Auditor
- Mayor, Communications, Human Resources
- Planning, Economic Development, Housing
- City Attorney, City Clerk, Municipal Court
- Information Technology
- Finance Operating

All Funds - \$479,015,260

The City has other major funding sources (in addition to the General Fund) that augment

Police, Fire, Public Works, Capital Improvement Projects, Parks and other departments, including¹:

Other Funding Source

- PSST (Public Safety Sales Tax)
- PPRTA* (Pikes Peak Rural Transportation Authority)
- TOPS (Trails, Open Spaces, Parks)
- CTF (Conservation Trust Fund)
- Grants

Department Receiving Funds

- Fire & Police
- Public Works & Parks
- Parks, Recreation & Cultural Services
- Parks, Recreation & Cultural Services
- CIP, Fire & Police, Public Works, Parks

¹There are other funding sources in addition to those listed here; Please refer to each department narrative for a list of all funding sources for each department.

*PPRTA funding is not included in the City's All Funds

Citizen's Overview

2016 Budgeted Revenues

\$268,110,504

Budgeted General Fund Revenue

2016 General Fund Revenues by Type

\$157,319,940: Sales and Use Tax is the largest source of revenue for the City

2.9% projected 2016 growth in sales and use tax revenue over 2015 year-end projections

3 number of statistical models used to forecast sales and use tax revenues

The Total Local Sales Tax Rate is:
7.63%

Other major revenue Sources include:

Other Financing Sources
\$43,208,492

includes Utilities Surplus Revenue, as well as reimbursements from Grants, the Gift Trust Fund, and sale of property.

Intergovernmental Revenue
\$20,178,116

includes state imposed excise taxes on gasoline and special fuels – Highway Users Tax Fund, and the El Paso County Road and Bridge mill levy.

The City's portion is:
2.5% of the Sales Tax Rate

- 2.0% General Fund (City operations)**
- 0.1% TOPS (Trails, Open Space, Parks)**
- 0.4% PSST (Public Safety)**

Citizen's Overview

2016 General Fund Budget

\$19,894,550

Budgeted Property Tax Revenues

7%

Of your property tax bill is designated for the City

What does your property tax fund?

Library \$72 4.000 mills	County \$140 7.791 mills	School District #11 \$773 43.165 mills
City \$77 4.279 mills		Southeast Water District \$17 0.940 mills

Total Property Tax
\$1,078
with a tax rate of
60.175 mills

Note: This example is for taxes payable in 2015 and assumes a home with market value of \$225,000 in School District #11 and assumes no Special District mill levy. Other districts have different mill levies.

Property Tax Revenues

General Fund Revenues History

2015 SALES & USE TAX REVENUES

\$157,319,940

\$157,319,940: Sales and Use Tax Revenue is the largest source of revenue for the City

- 2.9%** projected 2016 growth in sales and use tax revenue over the current 2015 year-end projection
- 3** number of statistical models used, along with past trends to forecast sales and use tax revenues

The Total Local Sales Tax Rate is:
7.63%

The City's portion is:
2.5% of the Sales Tax Rate:

- 2.0%** General Fund (General City operations)
- 0.1%** TOPS (Trails, Open Space, Parks)
- 0.4%** PSST (Public Safety)

2016 PROPERTY TAX REVENUES

\$19,894,550

Property Tax

Represents

8% of total General Fund revenues

Property Tax

The City levies an ad valorem tax on real property and business personal property within the City limits. To reward and encourage business expansion and relocation, this budget includes implementation of a Business Personal Property Tax (BPPT) Tax Credit program, making the City’s business tax environment more competitive and equitable across industries. The 2016 budget incorporates the first phase of a two-year phase-in of a BPPT Tax Credit – equal to one-half the amount due for 2016. Beginning with the 2017 budget, there will be a 100% credit against the BBPT.

El Paso County Road & Bridge Levy

The El Paso County Road and Bridge mill levy (for which the City receives half of the revenue) was reduced from 1991 through 2008. In 2008, the mill levy was reduced to 0.330 and has remained at that level since. The City’s share of the revenue from the El Paso County Road and Bridge mill levy was impacted greatly by this mill levy reduction – from 2008 to 2009, the Road and Bridge mill levy revenue decreased by \$2,205,888. For the 2016 budget, the Road and Bridge mill levy revenue is projected to be \$800,000.

2016 GENERAL FUND OTHER REVENUES

Other Taxes Revenue \$2,999,582

includes occupational tax on establishments selling alcoholic beverages and specific ownership taxes imposed by the State. In 2016, the City is projecting a small decrease in other taxes from 2015 year-end projections.

MAJOR NON-TAX REVENUE SOURCES

Charges for Services \$12,909,000

include charges and fees for specific City services (i.e. plan review fees, park field rentals) and reimbursement from other organizations for provision of services.

Fines \$5,554,892

includes fines from general violations, parking meter violations, and traffic violations, which are projected to increase 4% over 2015 year-end projections.

Intergovernmental Revenue \$20,178,116

includes state imposed excise taxes on gasoline and special fuels and vehicle registration fees – Highway Users Tax Fund, and the El Paso County Road and Bridge mill levy.

Licenses and Permits \$1,905,320

includes revenue from City-issued licenses and permits (such as medical marijuana licenses, liquor licenses, and sales tax licenses).

Other Financing Sources \$43,208,492

includes Utilities Surplus Revenue, as well as reimbursements from Grants, Gift Trust Funds, and sale of assets.

Taxpayer's Bill of Rights (TABOR) Calculation

The revenue limitation provisions of the State TABOR and the City Charter continue to impact the City's fiscal condition. TABOR essentially establishes an annual City revenue cap. Any City revenue subject to the cap received above the annual revenue cap must be refunded to local taxpayers or can be retained upon voter approval.

Under TABOR, the annual growth formula is applied to either previous year's actual revenue or to the previous year's TABOR revenue limit, whichever is less. During periods of economic downturn and lagging City revenue collections, City revenue can fall below the TABOR revenue limit for that year. In that event, the TABOR growth formula for the next fiscal year is applied to the actual revenue amount, not the higher TABOR limit. Thus, the TABOR limit is ratcheted down. In subsequent years, when the economy and City revenue rebound, the TABOR formula increase is applied to the lower previous year's actual revenue. The City's 2016 projected revenue is \$3.0 million less than the projected TABOR limit for 2016.

While the calculation of the annual TABOR revenue cap appears to be relatively straightforward, it is difficult as data for both of the growth components is not available until well after the start of the fiscal year in question. Specifically, the Denver/Boulder/Greeley Consumer Price Index (CPI) figure is not available until early spring of the fiscal year to which it is to be applied. Similarly, the data for the local growth component is not available from the County Assessor until August of the year to which it is to be applied. Thus, in preparing the budget for the next year, it is necessary to forecast the CPI and local growth. Generally, the annual TABOR revenue cap is calculated through the application of the percentage change in the CPI and local growth for the previous calendar year to actual City revenue for the previous year. Local growth is the net change in the market value of construction expressed as a percent of all taxable and nontaxable property on the assessment rolls plus the value of new annexations.

For the 2016 growth formula, the percentage change in the CPI is projected to be 2.19% and local growth is expected to be 2.0%. Thus, the combined formula increase for 2015 is projected to total 4.19%.

Five-Year TABOR Limit

City of Colorado Springs 2011 – 2015 Projected TABOR & City Charter Revenue Limits					
Revenue					
Fiscal Year	Total Eligible Revenue	TABOR Limit		Over (Under) Limit	
2012	\$224,984,209	\$229,208,999		(\$4,224,790)

Level of Effort

Level of Effort Overview

Pikes Peak Rural Transportation Authority (PPRTA)

General Fund Transportation Maintenance of Effort (MOE)

	2004 Budget Maintenance of Effort Requirement	2014	2015	2016
City Engineering	\$2,649,453	\$4,145,056	\$4,218,642	\$3,878,557
Streets	7,272,135	7,854,609	7,328,976	7,677,481
Traffic Engineering	4,986,046	4,234,711	3,610,230	3,048,770
Fleet Expenses	2,809,098	3,636,933	2,921,039	3,343,818
Radio Communications	385,824	496,318	394,764	393,289
Total Transportation Maintenance	\$18,102,556	\$20,367,627	\$18,473,651	\$18,341,915
\$ Exceeding the MOE		\$2,265,072	\$371,096	\$239,359

General Fund Transit Maintenance of Effort (MOE)

Transit Services	General Fund Net Cost	\$ Below the MOE	% change in General Fund Net Cost
2004 Budget – Maintenance of Effort Requirement	\$5,717,814		
2014 Budget	\$3,855,034	(\$1,862,780)	3.1%
2015 Budget	\$4,325,960	(\$1,391,854)	12.2%
2016 Budget	\$5,140,598	(\$577,216)	18.8%

Public Safety Sales Tax (PSST)

The Public Safety Sales Tax (PSST) requires General Fund Public Safety budget allocations, including the Police and Fire Departments, the Office of Emergency Management, as well as the Police and Fire functions of Fleet, IT and Radio **be at least 47.65% of General Fund; in 2016 it is 55.01%**. The 2016 Budget **exceeds the Level of Effort by 7.36%, or \$19.7 million**.

Public Safety Level of Effort

Road Maintenance

From 2012-2014, the Streets Division spent an average of **\$2.4 million** per year from the General Fund on **street and road maintenance**. The City is committed to maintain General Fund spending on street and road maintenance at the \$2.4 million level. This 2016 Budget honors that commitment – there is **\$1.5 million** budgeted in the capital improvements program **for street pavement improvements**, and the Streets Division will spend at least **\$900,000** from their **operating** budget.

Transportation – Highways and Streets City (non-PPRTA) Transportation Revenue and Expenditures

Revenue	2015 Original Budget	2016 Original Budget

* There is clearly a Transportation element in many Stormwater projects. For ease of calculation, that value has not yet been included.

** 41% of the SCIP debt service payment is related to Highway & Streets projects

*** No more than 15% of the total amount of HUTF revenue can be counted for transit-related operational purposes

**** Per HUTF CRS 43-4-208. Municipal allocation - The amount to be expended for administrative purposes shall not exceed five percent of each city's share of the funds available

Economic Overview

Economic Overview

The Mayor and City Council support proactively enhancing the local business climate, retaining existing businesses and jobs, and bringing new companies and industries to Colorado Springs. The City of Colorado Springs has a portfolio of economic development programs. Economic development agreements primarily are executed with criteria that they must be performance-based agreements.

The following sections display the City's portion of shared revenue or direct payments provided for economic development efforts through Urban Renewal Areas, Economic Development Partners, Economic Development Programs, and other Economic Development Agreements.

Urban Renewal Areas

City Council approved eight Urban Renewal Areas (URAs) in the City: City Auditorium, CityGate, Copper Ridge, Gold Hill Mesa, Ivywild Neighborhood, North Nevada Avenue, Southwest Downtown, and Vineyard Property. All eight have Tax Increment Financing (TIF) agreements in place for property tax sharing. Tax increment financing (TIF) is a method of using tax collections within a designated area to finance public infrastructure improvements or other improvements. Infrastructure improvements may include upgraded on-site drainage systems and adjacent intersections, roadway capacity, and pedestrian improvements, etc. Currently, only the North Nevada Avenue, Copper Ridge, and Ivywild Neighborhood URAs have additional sales tax TIF sharing agreements.

Property Tax TIF

This funding comes from the additional new property tax revenue generated from the increased assessed value of the new development. Only the increment of increased tax revenue collected is shared.

Sales Tax TIF

City Council approved Resolution No. 46-06, dated April 11, 2006, adopting guidelines for the use of sales tax revenue to promote economic activity, job creation, and assist urban renewal area projects. This funding comes from a portion of the new sales tax revenue generated from the new retail businesses that locate within the designated boundaries.

	2013	2014	2015	2016
<u>Property Tax Revenue*</u>	<u>Actual</u>	<u>Actual</u>	<u>Budget</u>	<u>Budget</u>
City Auditorium URA	\$1,085	\$1,104	\$1,162	\$1,197
CityGate URA	865	808	583	1,140
Copper Ridge at Northgate URA	2,971	21,406	32,590	54,298

Southwest Downtown URA	4	0	0	521
Vineyard Property URA	0	0	6,060	6,060

* Property tax revenue is collected by the El Paso County Treasurer and disbursed directly to the URA.

† The South Central Downtown URA has reached the end of its lifespan and no longer produces an increment.

Shared Sales Tax Revenue**	2013 Actual	2014 Actual	2015 Budget	2016 Budget
Copper Ridge at Northgate URA	\$0	\$275,508	\$375,000	\$625,155
Ivywild Neighborhood URA	0	29,925	40,000	45,000
North Nevada Avenue URA	2,923,002	3,188,236	3,500,000	4,121,323

** Sales tax revenue is collected by the City's Sales and Use Tax Division. The amount of shared revenue is paid to the URA and budgeted in the General Cost section.

Economic Development Partners

For 2016, the City of Colorado Springs has partnered with the following two organizations to support regional economic development efforts and small business development:

Colorado Springs Regional Business Alliance (pkca: Economic Development Corporation and Greater Colorado Springs Chamber of Commerce) is a privately-funded organization whose sole purpose is to provide primary employers with complementary, comprehensive relocation and expansion services. The Business Alliance is focused on the attraction, retention, and creation of quality jobs for the region. It is the only organization that actively works to bring into our region the primary employers who import wealth and jobs. The success of our primary employers is the key to our economic vitality, the future of our community, and the preservation of our quality of life in the entire region.

Small Business Development Center (SBDC) is one of the 14 Colorado Small Business Development Centers. The Colorado SBDC Network is a partnership between the Federal Small Business Administration (SBA) and the State of Colorado. The SBDC is dedicated to helping small businesses in the region achieve their goals of growth, expansion, innovation, increased productivity, management improvement and success. In partnership with the University of Colorado Springs (UCCS) and the City, the SBDC provides one-on-one business counseling and training to business startups and ongoing businesses. The major objective is to foster the successful growth and development of small businesses that result in a positive economic impact.

In earlier years, the City also partnered with the following organizations but the support was intended to be short-term, start-up funding.

Colorado Springs Technology Incubator (CSTI) is a non-profit organization dedicated to helping entrepreneurs accelerate the growth and success of their startup companies, and in the process, creates more jobs and wealth in the region. CSTI provides strategic counsel, operational guidance, business services and resources to its start-up clients including: business planning, executive mentoring, investor relations, financial forecasting, competitor analysis, business networking, market research, training courses, and affordable facilities.

Cultural Office of the Pikes Peak Region (COPPeR) serves as the lead organization for centralizing and coordinating information about cultural services in the community. COPPeR maintains a comprehensive community arts and cultural web site, PeakRadar.com, in efforts to build cultural participation in the region, foster sustainability of the region's cultural arts industry, advocate for the region's cultural vitality, leverage cultural assets to promote positive regional brand and image, and foster authenticity by celebrating aspects unique to our region's heritage and future. Cultural elements of a community continue to be paramount in workforce availability. National studies continue to show an upward trend indicating that young professionals move to "cool" communities first and then seek employment. Local companies convey that they are successful in recruiting specialized talent but struggle to retain these employees because their young people "can't get plugged-in" to Colorado Springs. COPPeR helps to bridge this gap.

Expenditures	2013 Actual	2014 Actual	2015 Budget	2016 Budget
Colorado Springs Regional Business Alliance (RBA) (pka: Economic Development Corporation and Colorado Springs Chamber of Commerce)*	\$70,000	\$70,000	\$0	\$70,000
Small Business Development Center (SBDC)*	50,000	55,000	0	55,000
Colorado Springs Technology Incubator (CSTI)*	25,000	10,000	0	0
COPPeR**	39,000	43,000	0	0
Innovations In Aging – Aging in El Paso County	0	20,000	0	0
Annual Expenditures	\$184,000	\$198,000	\$0	\$125,000

* Funding prior to 2013 was budgeted in the General Cost section. For 2016, the RBA budget is paid by the General Fund and SBDC budget is split 50/50 between the General Fund and the Lodgers and Automobile Rental Tax (LART) Fund.

** Funding for 2013-2014 was budgeted from the City's share of the LART.

Note: City payment of funds to the agencies was contingent upon each agency submitting a formal request, outline of use of funds, and necessary supporting documentation.

Economic Development Programs

Economic Development Programs are available to all companies that meet certain criteria and proceed with a formal agreement with the City. These programs include the Alternative Rate of Tax for manufacturing equipment, Business Personal Property Tax incentive payments, the Commercial Aeronautical Zone, and the access to Private Activity Bonds.

Alternative Rate of Tax for Manufacturing Equipment

City Council authorized this program by Resolution No. 22-09, dated January 27, 2009. This program offers an incentive payment based upon a sliding scale of City sales tax paid for purchases of equipment and machinery used in manufacturing operations during a calendar year. The alternate tax rate applies to annual purchases exceeding \$5 million and decreases to zero tax on purchases over \$20 million. These payments are dependent upon the company's annual purchases of machinery and equipment, and the budget estimate may vary significantly so a supplemental appropriation may be necessary once the actual dollar amounts are known.

Alternative Tax Agreement Payments	2013 Actual	2014 Actual	2015 Budget	2016 Budget
Manufacturing company	\$0	\$0	\$93,500	\$93,500

Business Personal Property Tax

The 2016 Budget assumes City Council will formally approve implementation of a two-year phase-in of a temporary Business Personal Property Tax (BPPT) Tax Credit program - making the City's business tax environment more competitive and equitable across industries. Currently, businesses pay personal property taxes to the City on equipment used to conduct business, such as large machinery, computer equipment, desks and furniture. The Tax Credit program is proposed to sunset after 10 years after evaluating the efficacy of the credit in spurring business expansion and growth. For 2016, the BPPT Tax Credit will be equal to one-half the amount of BPPT due on the 2016 property tax statements (for 2015 taxes payable in 2016). For 2016, the tax credit will be issued as a refund after June 30, 2016. (If approved, this refund mechanism will be used in 2016 as there will not be time following formal approval for El Paso County to modify the property tax bills that will be mailed early 2016.) For 2017, the proposed BPPT Tax Credit will be equal to the entire amount of BPPT due and therefore, a net zero amount due will be reflected on the 2017 property tax statements (for 2016 taxes payable in 2017).

Prior to 2016, City Council reauthorized a BPPT Economic Development Agreement program by Resolution No. 203-04, in September 2004. The BPPT Agreement program was only available to primary employer companies. A primary employer is a business entity that derives at least 50% of its principal source of gross annual income from the sale of products or services outside of El Paso County. In addition, the company was required to create at least 10 new jobs and have over \$1 million in business personal property value over the term of the agreement. The payments were based upon 50% of City taxes paid on investments of \$1 to \$5 million and 90% on investments exceeding \$5 million. The term for a standard BPPT agreement was 4 years and required the company to create at least 10 new jobs in addition to the investment. If the company met the investment criteria and created at least 100 jobs, the company was then eligible for a 10-year agreement. A 10-year agreement could be extended an additional 5 years (for a maximum total of 15 years) if the company invested over \$75 million and hired over 500 employees. For 2016, there is \$167,000 budgeted for payments associated with agreements through 2015. With the proposed phase-in of the BPPT Tax Credit program as described above, there may be payments for 2017 based upon the net amount paid by participants after the credit in 2016, but for 2018 the BPPT Agreement program will conclude as all businesses will not pay BPPT in 2017.

Description	2013 Actual	2014 Actual	2015 Budget	2016 Budget
Payments	\$134,939	\$148,885	\$300,000	\$167,000

Commercial Aeronautical Zone (CAZ)

On April 8, 2014, City Council adopted Ordinance No. 14-22 amending City Code to establish a limited sales and use tax exemption within a Commercial Aeronautical Zone (CAZ) and on August 11, 2015, City Council adopted Ordinance No. 15-48 expanding the boundaries of the CAZ to include other areas within the Enterprise Zone that are contiguous to the existing CAZ boundaries. Specifically, sales and use tax is exempt within the zone on aircraft parts used or consumed in the manufacture, maintenance, repair or overhaul of aircraft. The goal of the CAZ is to encourage new businesses to hangar aircraft, fuel, and conduct maintenance operations at the Colorado Springs Airport, thereby increasing the number of skilled and highly-paid aircraft mechanic and aeronautic engineering jobs in Colorado Springs, as well as expanding the World War II aviation museum’s collection of aircraft and attracting jobs associated with the collection.

Since the creation of the CAZ in 2014, the Airport has experienced tremendous growth of new businesses plus the expansion of five existing tenants, utilizing available land for aviation development. This growth is generating 2,500 new jobs, \$300 million in direct payroll, and an additional \$500,000 in non-airline revenue for the Airport. In February of 2015, Sierra Nevada Corporation (SNC) announced plans to build its new high-end aircraft completions complex at Colorado Springs Airport. This \$88 million campus will house more than 2,100 employees with average salaries of \$86,000, making a significant economic impact on our region and air service. The CAZ has been very successful in supporting the Airport’s strategic initiatives which has since reduced operating costs, significantly lowered Airport debt, while increasing non-airline revenues. These efforts have resulted in the reduction of Airline rates and charges at COS by nearly 50% since 2013. Along with its new marketing and air service incentive programs, the Airport is now better positioned to attract new and expanded commercial air service.

Private Activity Bonds

On April 28, 1998, El Paso County Board of County Commissioners and City Council jointly adopted Private Activity Bond procedures by Resolution No. 98-247, General 69 and Resolution No. 72-98. Private Activity Bonds (PABs) are a form of tax-exempt financing in which the City or County acts as the issuer. The advantage of PABs is financing through the City or County provides funds at lower-than-market interest rates because bond proceeds are exempt from Federal and State income tax. There is no financial risk to the City or County since the bond debt is repaid by the entity requesting the PAB and financings do not constitute a debt or financial obligation of the City or County. The City has not issued any PABs since 2007 and each year has asked City Council approval to transfer its State allocation to the County.

Economic Development Agreements

The City has specific performance based Economic Development Agreements (EDAs), which are negotiated based upon economic impact analyses. The current EDAs are listed below:

Payments Based On Sales and Use Tax Revenue	2013 Actual	2014 Actual	2015 Budget	2016 Budget
Agilent Technologies	\$248,570	\$0	\$20,000	\$0
Bal Seal Engineering	0	270,568	10,000	10,000
Lowe's	0	50,000	50,000	50,000
Mining Exchange	41,741	69,559	75,000	85,000
Wal-Mart	0	349,814	50,000	50,000

SkyWest Airlines Use Tax Agreement

In 2004, City officials worked with SkyWest Airlines representatives to secure an aircraft maintenance center and flight crew base in Colorado Springs. City Council approved an EDA based upon the City Use Tax paid by SkyWest on purchases of aircraft parts. The City retains a maximum of \$40,000 annually in Use Tax from SkyWest's qualifying purchases of aircraft parts; any Use Tax collected by the City in excess of \$40,000 the company keeps under the EDA. SkyWest qualifies for exemption under the CAZ but has not yet applied.

Description	2013 Actual	2014 Actual	2015 Budget	2016 Budget
Payments	\$118,750	\$103,750	\$0	\$0

United States Olympic Committee (USOC) Certificate of Participation (COP) Payment

In August 2009, the City Council approved an EDA that kept the United States Olympic Committee (USOC) in Colorado Springs for the next 30 years. The EDA included funding of improvements for the USOC headquarters building, the National Governing Bodies building and the Olympic Training Center (OTC).

USOC COP Payment	2013 Actual	2014 Actual	2015 Budget	2016 Budget
Scheduled payment	\$1,658,875	\$1,700,275	\$1,739,650	\$1,782,225

Utility Usage Agreements

In 2006, City Council approved two 10-year EDAs with two companies (a medical imaging manufacturing company and an insurance company), which established local regional headquarters in Colorado Springs. Under these EDAs, the City provides a payment to the company based upon their electric and natural gas utility usage. These agreements:

- Do not involve any sharing of existing revenue;
- Target new utility revenue generated directly from the company;
- Establish the payment on a use and percentage basis, which therefore reduces the City's risk (if revenue collections underperform) since the payment is not tied to a specific annual amount; or
- Minimize financial risk since the payment is strictly performance-based, and payments are made only after revenue is collected.

Payments Based On Utility Usage *	2013 Actual	2014 Actual	2015 Budget	2016 Budget
Manufacturing company	\$107,219	\$182,501	\$200,000	\$186,000
Insurance company regional headquarters	<u>194,042</u>	<u>105,104</u>	<u>110,000</u>	<u>105,000</u>
Annual Payments	\$301,261	\$287,605	\$310,000	\$291,000

* Actuals are for the previous year utility usage.

In most cases, the 2015 Revenue and Expenditures are equal to the 2015 Budget amount; however, in certain cases, an end-of-year forecast is used to account for revenue adjustments or supplemental appropriations.

* For some Internal Service Funds and for Permanent and Grant Funds, any amount of fund balance is restricted and therefore not available for appropriation - as such the amount is shown as zero.

Overview of 2016 Budgets for All Funds

The overview includes a fund balance summary and description of the City's funds, how funds interact, basis of accounting, and changes to the adopted budget. The fund balance summary indicates the beginning and ending fund balances available for appropriation as well as 2016 budgets by specific fund.

The budget document focuses primarily on the General Fund because it is the largest fund. The 2016 General Fund Budget is \$268,110,504, which is 56.0% of the total funds.

Another significant type of fund is the Special Revenue Funds. The 2016 Special Revenue Funds budgets total \$75,333,630, which is 15.7% of the total funds.

The Grant Funds budget totals \$52,315,347, which is 10.9% of the total funds for 2016.

For 2016, Enterprise Funds budgets total \$83,079,629, which is 17.3% of the total funds. The balance of the total funds is comprised of the 2016 Permanent Funds budgets, which total \$326,150.

The total of all these funds is \$479,165,260.

City Services Overview

The City of Colorado Springs is a home-rule city, organized under provisions of the Colorado constitution. The City provides a full range of municipal government services to an estimated 2016 population of 457,715 residents. The services include:

- City Attorney, City Clerk, Municipal Court
- City Auditor
- City Council
- Finance, Contract Compliance, General Costs
- Fire protection
- Information Technology
- Mayor, Communications, Human Resources
- Parks, Recreation and Cultural Services
- Planning, Economic Development, Housing
- Police protection
- Public Works

Also, the City owns and operates enterprise activities including:

- Airport
- Cemeteries
- Development Review
- Memorial Health System
- Patty Jewett Golf Course
- Parking System
- Pikes Peak – America's Mountain
- Valley Hi Golf Course

Fund Structure

City revenue is designated and set aside in funds. The funds of the City of Colorado Springs are organized according to Generally Accepted Accounting Principles (GAAP). For revenue and expenditure budgets for each fund, refer to the All Funds Summary table.

Basis of Accounting and Accounting Structure

Basis of Accounting

The General Fund, Special Revenue Funds, Capital Improvements Program Funds, and certain Trust Funds are maintained on a modified accrual basis, which records revenue when measurable and available. Expenditures are generally recorded when the liability is incurred. Enterprise Funds, Internal Services Funds, and certain Permanent Funds are maintained on an accrual basis, which records revenue at the time earned and expenses when incurred.

Basis of Budgeting

The budget is prepared in a manner consistent with the Colorado Revised Statutes. All funds are included within the budget along with the programs supported. The City's budget is prepared completely on a modified accrual basis, which is the same as the Basis of Accounting for all funds except Enterprise Funds, Internal Services Funds, and certain Permanent Funds.

Annual Budget Process and Budget Controls

In accordance with City Charter, Section 4-40(i), the Mayor presents a balanced budget to City Council on or before the first Monday in October in each year.

In accordance with City Charter, Section 7-30(a), the City Council shall, upon receipt of the budget, adopt the budget with or without amendment. In amending the budget, the Council may add or increase programs or amounts and may delete or decrease any programs or amounts, except amounts required by law or for debt service obligations or for estimated cash deficit.

As part of the annual budget cycle, budgets are adopted for all funds of the City. Budgetary controls are maintained for all funds of the City in conformance with the City Charter and Code to assure fiscally sound management.

After the annual appropriations ordinance is approved, with approval from the Chief Financial Officer, budget can be transferred within an appropriating department; however, transfers between appropriating departments or funds require City Council approval. Also, after the annual appropriations ordinance is approved, the Mayor may propose amendments to the annual appropriations ordinance. Such supplemental appropriation requests are transmitted to City Council for approval.

An encumbrance accounting system is used to assist in accomplishing budgetary control.

General Fund

The General Fund includes all activities of the City supported by City taxes and other non-dedicated revenue. These other revenue sources include license and permit fees, user charges, intergovernmental revenue, fines, miscellaneous revenue, and transfers from other funds. The General Fund also includes all traditional municipal expenditures such as those for public safety, parks, and transportation. See the General Fund Summary tab.

TRAILS, OPEN SPACE AND PARKS (TOPS)

Mission

To provide a means of acquiring and preserving new open space and providing parks and trails for recreational purposes on any public sites within the city and areas within the immediate vicinity.

Overview

The Trails, Open Space, and Parks (TOPS) revenue is generated from a 0.1% sales and use tax adopted by voters in April 1997, extended by voters in 2003, and set to expire in 2025. The majority of funds are designated for open space purchases and associated maintenance, development and maintenance of trails, and development of new parks.

For 2016, TOPS revenue is projected to be \$8,008,000, of which \$142,000 is estimated interest. As allowed in the TOPS ordinance, 3% of TOPS revenue is allocated for program administrative expenses and 6% is allocated for Maintenance Expenses. The remaining funds are allocated 20% for Park Acquisition and Development, 20% for Trails Acquisition, Development and Maintenance, and 60% for Open Space Acquisition. However, based on voter approval at the April 2013 election, the Parks category can now be used for Park Maintenance as well. Starting in 2013, the structure of TOPS changed from Project budgeting to a combination of Operating and Projects. Because positions are paid from this fund, the accounting change was necessary to reflect actual expenditures more accurately. Please see below for more detail on the TOPS budget.

TOPS Budget By Category/Project	2016 Budget
Administration (3%)	\$224,309
Maintenance (6%)	\$435,006
Trails (20% max)	\$1,670,000
Project – Cottonwood Trail	350,000
Project – Rock Island Trail at Powers Underpass	300,000
Project – Rock Island Trail Corridor Acquisition	425,000
Project – University Park Trail	300,000
Project – Foothills Trail at Garden of the Gods	295,000
Parks (20% max)	\$1,850,700
Operating - Park Maintenance	790,700
Project – Playground Renovation/Replacement	200,000
Project – Water Footprint Reduction	150,000
Project – Monument Valley Pickleball Courts	100,000
Project – Venezia Community Park	450,000
Project – Ute Valley Park MP Implementation	160,000
Open Space (60% min)	\$2,089,137
Acquisition – Red Rock Canyon Annual Payment	1,010,137
Acquisition – Open Space Acquisition Account	40,000
Stewardship – Ute Valley Master Plan Implementation	275,000
Stewardship – Bluestem OS Management Plan Implementation	70,000
Stewardship – University Park OS Management Plan Implementation	30,000
Stewardship – Stratton OS Management Plan Implementation	45,000
Stewardship – Education	100,000
Stewardship – Rangers	175,000
Stewardship – Land Management	95,000
Stewardship – Resource Management	279,000
TOTAL TOPS Budget By Category/Project	\$6,269,152

Administrative and Maintenance Costs

Provisions of the ordinance allocate 3% for administrative costs and 6% for maintenance of trails, open space and parks.

Open Space Acquisition & Stewardship

Funding for open space acquisition and preservation will receive a minimum of 60% of revenue collected over the lifetime of the tax. The revenue may be used to acquire real property in El Paso and neighboring counties and associated leases, development rights, water and water storage rights, mineral and fuel resource rights, and right-of-way and easements and to protect ecosystems, natural resources and landmarks, and visual geological and biological surface features, etc. Once acquired, properties may not be sold. Funding may also be used to manage, patrol, improve, and maintain acquired areas.

Trails Land Acquisition, Development and Maintenance

Funding for trails land acquisition, development, and maintenance will receive a maximum of 20% of revenue collected over the lifetime of the tax.

Parkland Acquisition, Development, and Maintenance

Funding for new parkland acquisition and development will receive a maximum of 20% of revenue collected over the lifetime of the tax. Based on voter approval at the April 2013 election, this category can now be used for maintenance as well as acquisition and development.

Budget Summary	2013 Actual	2014 Actual	2015 Budget	2016 Budget
Operating	\$2,245,405	\$2,104,681	\$1,401,400	\$2,069,015
Projects	6,574,641	\$4,621,371	7,204,464	4,200,137
Total	\$8,820,046	\$6,726,352	\$8,605,864	\$6,269,152

WOODSTONE SPECIAL IMPROVEMENT MAINTENANCE DISTRICT (SIMD)

2015 Budget: \$51,400

2016 Budget: \$40,800

Purpose

Provide for the maintenance of certain public improvements of general benefit to the residents of the district.

Revenue source

Assessments against the real property in the district.

Designated expenditure

Maintenance expenses of specific improvements as identified by the advisory committee in consultation with the Parks, Recreation and Cultural Services staff. Council approves the budget for the district.

Special Revenue Funds - overseen by Public Safety

PUBLIC SAFETY SALES TAX (PSST)

Mission

Provide a dedicated source of revenue to fund public safety operating and capital improvement needs.

Overview

In November 2001, City voters approved ballot question B4 which authorized a City Sales and Use Tax rate increase of 0.4% to fund public safety operating and capital improvement needs. As approved by voters, all revenue from the 0.4% tax is placed in a dedicated fund (Public Safety Sales Tax Fund) and is not used to replace any local funds already budgeted for public safety operations. In conjunction with the approval of the 2002 Public Safety Sales Tax Fund (PSST) budget, Council also adopted a ten-year plan for the fund that presented multi-year projections to achieve the purpose and intent of ballot question B4.

Budget Summary	2013 Actual	2014 Actual	2015 Budget	2016 Budget
Uses of Funds				
Salaries/Benefits	\$22,913,620	\$24,218,012	\$25,271,061	\$27,154,880

Civilian FTE	54.50	58.50	58.50	58.50
Total Positions	202.50	216.50	228.50	229.50

Expenditure Overview

For 2016, \$31.6 million in PSST revenue is projected. Given the volatility of sales and use tax revenue, and to help protect against any revenue shortfalls and unforeseen fiscal events, a fund balance target of at least 16.67% is maintained. For 2016, a contribution to the fund balance of \$490,725 is included, building the available fund balance to 22.6% of revenue. Overall, there is \$31.1 million available for appropriation in 2016.

For 2016, PSST funding for the Fire Department totals \$14.8 million. The funding is used for uniformed and civilian staffing, operating, and equipment expenses. This includes projects and equipment, and other ongoing expenditures and one-time capital outlay.

For 2016, PSST funding for the Police Department totals \$16.3 million. The funding is used for uniformed and civilian staffing, operating, and equipment expenses. This includes projects and equipment, and other ongoing expenditures and one-time capital outlay.

CABLE FRANCHISE

Mission

To provide support for the City and the Southern Colorado Educational Television Consortium (SCETC) with educational and governmental programming services, operations, facilities and equipment, and expenditures for telecommunications and information technology, operations, facilities, and equipment.

Overview

In July 2000, City Council approved Ordinances No. 00-118 and 00-119 establishing the terms, fees, compensation, conditions, and other matters of franchise between the City and Adelpia Communications and WideOpen West. On November 7, 2000, Colorado Springs voters approved Measures 2A and 2B to grant nonexclusive franchise agreements to Adelpia Communications and WideOpen West (WideOpen West's financial circumstances precluded the company from initiating the infrastructure required to offer cable service in Colorado Springs). As of August 1, 2006, control of the Adelpia cable system serving Colorado Springs was finalized when Adelpia was transitioned to Comcast. According to the terms of the franchise agreement, Comcast assumed the obligations of the franchise and the franchise remains unmodified and in full force and effect. In November 2006, Colorado Springs voters approved Measure 2A to grant a nonexclusive franchise agreement to Falcon Broadband; and in April 2007, voters approved Measure E to grant a nonexclusive franchise agreement to Porchlight Communications. However, effective July 15, 2009, Porchlight is no longer a cable provider. In accordance with the Comcast franchise agreement, the SCETC will receive 20% of the funds; and the City will apply its share towards information technology and communication needs. The SCETC will receive 10% of the funds from Falcon.

2016 Cable Franchise Grant		
Revenue		
Subscriber revenue		\$ 1,030,000
	Total Revenue	\$1,030,000
Expenditures		
City information technology strategic needs		\$ 349,200
Southern Colorado Educational Television Consortium(SCETC)		203,700
SpringsTV implementation equipment and staffing		374,440
Citizen engagement staffing		102,660
	Total Expenditures	\$1,030,000

Revenue Overview

Subscriber rate is \$1.20 per month for Comcast and \$1.53 for Falcon.

Expenditure Overview

City Information Technology Strategic Needs

\$349,200

Support of the City's information technology strategic needs. These funds service existing lease payments related to the acquisition and implementation of systems, contribute to server upgrades, annual software maintenance fees, enhanced functionality, and other strategic projects.

Southern Colorado Educational Television Consortium Share

\$203,700

Provided for the SCETC to continue operating the network and production truck to cable cast from remote sites for increased learning/educational opportunities.

SpringsTV**\$347,440**

Five positions are funded along with operational costs to allow SpringsTV to meet programming and equipment requirements in addition to the resources required for live broadcasting and department program requests.

Citizen Engagement**\$102,660**

A position is added in 2016 to lead, coordinate, and participate in citizen engagement functions for City programs and operations. Initially, the focus will be on implementing a Citizen Empowerment Suite, to include a modern 311 system made up of a wiki/knowledge base, data portal, dashboards, website content management, social media, Speak Up!, business hub, legislative management, public budget outreach, and Sandbox.

CITY-FUNDED CAPITAL IMPROVEMENTS PROGRAM (CIP)**Mission**

To provide a dedicated source of revenue to fund ongoing capital repair or replacement of existing infrastructure.

Overview

The City's General Use Capital Improvements Program (CIP) budget is \$18,131,169 in 2016. The sources of this funding include \$18,024,169 from the General Fund and \$107,000 in anticipated interest earnings and investment/bank fees. This will fund \$10,450,000 for Stormwater, Roads & Bridges projects, \$1,874,336 for Stormwater, Roads & Bridges grant matches, \$2,069,030 Technology Improvements, \$1,625,200 for facility improvements, \$288,370 for other grant matches, and \$1,824,233 for various payments and other projects. A detailed list of projects is in Section 31, Capital Improvements Program (CIP).

Budget Summary	2013 Actual	2014 Actual	2015 Budget	2016 Budget
CIP Construction	\$9,444,633	\$10,204,472	\$11,189,257	\$18,131,169
Total	\$9,444,633	\$10,204,472	\$11,189,257	\$18,131,169

* In any given year, the actual funds spent may equal more than the amount appropriated because project funds are rolled over from year to year.

GIFT TRUST**2015 Budget:** \$1,900,000**2016 Budget:** \$1,900,000**Purpose**

Provide a fund for gifts received by the City during the year for specific purposes.

Revenue source

Donations from private individuals or businesses.

Designated expenditure

As designated by donor.

LODGERS AND AUTOMOBILE RENTAL TAX (LART)**Mission**

To attract visitors and enhance the economy of the City and the Pikes Peak Region. Revenue not otherwise obligated may be used for the acquisition, construction, maintenance, and operation of public infrastructure or public improvements; which constitute, in part, visitor or tourist attractions. Revenue may also be appropriated for economic development activities as determined by City Council.

Revenue Overview

Revenue resulting from the City's 2% lodging and 1% automobile rental tax are deposited into the Lodgers and Automobile Rental Tax (LART) Fund. Uses of LART revenue is limited to tourist promotion and visitor attraction as well as for economic development activities.

LART resources available for appropriation in 2016 are projected at \$4,875,600. This amount is based on a collaborative projection by the Colorado Springs Convention & Visitors Bureau (CVB) and City Finance staff.

Expenditure Overview

The LART Fund is overseen by City Council and a City Council appointed committee called the LART Advisory Committee. The LART Advisory Committee review applications for funding each year for visitor attraction and economic development related events and programs. Pursuant to City Code 2.9.110, the LART Advisory Committee makes recommendations to the City concerning expenditures of the LART Fund.

On January 1, 2015, the City entered into a three-year contract with the CVB, which expires on December 31, 2017. This is the first multi-year contract that has been executed between City and CVB. Paragraph 3-Funding Agreement, provides that two-thirds of LART revenue collected in excess of the LART revenue budget will also be paid to the CVB.

For 2016, the largest award is to the Colorado Springs Convention & Visitors Bureau (CVB), which is equivalent to 2/3 of the LART revenue. According to the contract with the CVB, in the event total annual revenue to the LART Fund during the year, including any amounts carried forward from prior years, are less than the appropriated amount, the CVB will pay the City back a percentage, equal to the percentage originally appropriated, of the difference between the budgeted amount and the actual collections. In the event total revenue to the LART Fund are more than the appropriated amount, the City will pay the CVB, in addition to the allocated amount, a percentage, equal to the percentage originally appropriated, of the difference between the budgeted amount and the actual collection.

SENIOR PROGRAMS

Mission

To provide support for the YMCA Senior Center contract and the operations of the Golf Acres Complex.

Overview

Due to significant budget reductions in 2010, the Parks, Recreation and Cultural Services Department explored alternative means to provide services to the community. In some instances, partnerships were formed. In other instances, operations were turned over to a non-profit or for-profit entity. In 2010, it was determined that the best long-term solution was to transfer ownership of the Golf Acres Complex to the Housing Authority with the understanding that senior services would continue and potentially be enhanced or expanded over time. The agreement with the Housing Authority provided that the Housing Authority would continue to operate the Golf Acres Complex conveyed for senior services consistent with the usage at the time of the agreement. In addition, the agreement provided that if the Housing Authority proposed to cease senior services operations on the Golf Acres Complex, the City had the first right to reacquire the Golf Acres Complex under the same general terms and conditions. In November 2010, City Council approved Resolution No. 208-10 authorizing the transfer of the Human Services Complex (HSC) to the Housing Authority. In January 2011, City Council approved a supplemental appropriation ordinance (Ordinance No. 11-1) for the Human Services Complex Fund in the amount of \$1,200,000 and the Senior Center Fund in the amount of \$800,000 to allow payment of funds associated with the transfer of the Golf Acres Complex (a.k.a. the Human Services Complex or "HSC") and the Colorado Springs Senior Center to the Colorado Springs Housing Authority ("Housing Authority"). Actual cash transfers together were approximately \$1.6 million.

In 2014, the Housing Authority notified the City that it could no longer operate the Golf Acres Complex including the Senior Center under the existing model. In October 2014, the City issued a Request for Qualifications ("RFQ") to identify qualified firms capable of operating the Senior Center. The YMCA of the Pikes Peak Region ("YMCA") was the only respondent to the RFQ and was determined to be highly qualified by the RFQ review team. After determining that the City could take over operations, with the assistance of the YMCA, the City agreed to exercise its first right to reacquire the property. City staff, in coordination with the Senior Center staff, Housing Authority and YMCA, held multiple meetings with stakeholders to gather public input about the Senior Center transition. In addition, City staff accepted comments on comment cards

provided at the Senior Center, by email, and through many phone calls. In response to the input received, the City, Housing Authority and YMCA agreed to transfer the ownership and management of the complex on or about August 31, 2015, with a transition period between June 1 and August 31 to better ensure a seamless transition from Housing Authority ownership and management to City ownership and YMCA management. In order to accomplish that goal, the parties entered into three agreements.

1. **Conveyance agreement** – conveying from the Housing Authority to the City all real property at the Golf Acres Complex, all personal property related to the Senior Center and the remaining balances of the funds that were transferred to the Housing Authority in 2011.
2. **Professional services agreement** – between the City and the YMCA under which the YMCA served as the City’s agent during the transition period. The YMCA was responsible for evaluating the Senior Center operations, working with the City to create a transition plan, and implementing the transition plan.
3. **Management agreement** – under which the YMCA will operate and manage the Senior Center starting August 31, 2015.

In August 2015, City Council approved a supplemental appropriation ordinance (Ordinance No. 15-51) to adopt the 2015 budget and appropriate monies for the Senior Programs Fund to support all expenses incurred from September 1 through December 31, 2015 for the YMCA contract and operations of the Golf Acres Complex. The 2016 budget for the Senior Programs Fund is provided in the table below.

2016 Senior Programs	
Revenue	
CD Smith Trust	\$ 25,000
Koch Trust	\$ 5,000
Elliot Trust	\$ 7,000
Leases	\$ 248,000
Interest	\$ 1,800
Other	<u>\$ 3,200</u>
Total Revenue	\$ 290,000
Expenditures	
Maintenance and utilities – Golf Acres	\$ 146,000
CD Smith Trust eligible expenses	\$ 25,000
Commercial management fee	\$ 37,000
YMCA contract	<u>\$ 140,000</u>
Total Expenditures	\$ 348,000

Revenue Overview

For 2016, the revenue generated by Senior Center operations (program fees, room rental fees, etc.) is not expected to be sufficient to meet the estimated operating expenses—therefore, a \$140,000 payment to the YMCA is included below; rental revenue from tenants of the Golf Acres Complex is estimated to be \$248,000; dedicated revenue from the three trusts is estimated to be \$37,000; and interest and other revenue is estimated at \$5,000.

Expenditure Overview

For 2016, an estimated payment of \$140,000 will be made per the YMCA contract to offset its operating costs, \$183,000 will be used by the City for operations of the Golf Acres Complex; and \$25,000 is estimated for certain expenditures allowed by the CD Smith Trust. A draw from fund balance of \$58,000 will be needed to meet the total expenditures of \$348,000.

TRAILS, OPEN SPACE AND PARKS MAINTENANCE

2015 Budget: \$11,500

2016 Budget: \$1,150

Purpose:

Maintain parks, trails, medians, athletic fields, open space areas, and recreational facilities for the citizens of and visitors to Colorado Springs.

Revenue source:

Income from endowments and interest earnings.

Designated expenditure:

Parks, Recreation and Cultural Services for maintenance.

Grants Funds

AIRPORT GRANTS FUND

2015 Budget: \$14,000,000

2016 Budget: \$13,190,108

Purpose:

All anticipated grant revenue and interest earnings are budgeted, which streamlines the process for accepting grants. A resolution from City Council is still required to accept all grants, but a separate appropriation is not necessary.

Revenue source:

Airport Improvement Program (AIP) and Colorado Discretionary Aviation Grant funds, as well as any anticipated interest earnings.

Designated expenditure:

Grant activities as approved by City Council or Mayor, as required per the granting agency, plus interest earnings for those grants eligible to earn and spend interest income.

GRANTS FUNDS

2015 Budget: \$50,000,000

2016 Budget: \$39,125,239

Purpose:

All anticipated grant revenue and interest earnings are budgeted, which streamlines the process for accepting grants. A resolution from City Council is still required to accept all grants, but a separate appropriation is not necessary.

Revenue source:

Various grants as well as any anticipated interest earnings. Includes FEMA, CDBG, SAFETEA-LU, and FTA grant funds, among others.

Designated expenditure:

Grant activities as approved by City Council or Mayor, as required per the granting agency, plus interest earnings for those grants eligible to earn and spend interest income.

COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG)

Mission – To ensure decent affordable housing, to provide services to the most vulnerable in our communities, and to create jobs through the expansion and retention of businesses.

Each activity must meet one of the following national objectives for the program: benefit low- and moderate-income persons, prevention or elimination of slums or blight, or address community development needs having a particular urgency because existing conditions pose a serious and immediate threat to the health or welfare of the community for which other funding is not available.

(See the Housing narrative for details of this fund.)

EMERGENCY SHELTER ACT GRANT

ESG funds can be used for five program components: street outreach, emergency shelter, homelessness prevention, rapid re-housing assistance, and data collection through the Homeless Management Information System or HMIS.

(See the Housing narrative for details of this fund.)

HOME INVESTMENT PARTNERSHIP (HOME)

Awarded annually as formula grants to participating jurisdictions, the program allows States and local governments to use funds for grants, direct loans, loan guarantees or other forms of credit enhancements, or rental assistance or security deposits.

(See the Housing narrative for details of this fund.)

HOPE III

Provides HOPE planning grants and implementation grants to provide homeownership opportunities through the transfer of ownership, and rehabilitation, if necessary, of publicly-held properties in Federal, State, and local inventories to low-income, first-time homebuyers.

(See the Housing narrative for details of this fund.)

Debt Overview

The City has long term financial obligations in the form of several instruments such as Bonds, Certificates of Participation (COP) and Leases. While Bonds are considered a multi-year obligation, the other instruments are subject to annual appropriations and, therefore, not considered debt per the Tax Payer's Bill of Rights (TABOR).

Bond Ratings

To attain the lowest possible interest rates, the City obtains a credit rating from the major rating services. A strong rating provides for a lower interest rate which results in a lower cost to city taxpayers. The three major rating services are Moody's, Standard & Poor's, and Fitch. The following table presents a comparison of their respective ratings and their meaning:

Description	Moody's Rating	Standard & Poor's Rating	Fitch Rating
Best quality, extremely strong capacity to pay principal and interest	Aaa	AAA	AAA
High quality, very strong capacity to pay principal and interest	Aa	AA	AA
Upper medium quality, strong capacity to pay principal and interest	A	A	A
Medium grade quality, adequate capacity to pay principal and interest	Bbb	BBB to A-	BBB to A-
Speculative quality, low capacity to pay principal and interest	Ba and lower	BB and lower	BB and lower

Note: Within groups, Moody's designates those bonds with strongest attributes with a 1, for instance A1 or Aa1 would be of slightly higher quality than A2 or Aa2. Standard & Poor's and Fitch attach a "+" or a "-" to indicate slight variation within the rating groups. Examples would be AA- or A+ to indicate a credit better than an "A" but less than "AA."

The City's latest bond and certificate ratings are as follows:

Description	Moody's Rating	Standard & Poor's Rating	Fitch Rating
Bond / COP Issue Type			
Sales & Use Tax Revenue Bonds			
Series 2007 – SCIP	Aa3	AA+	N/A
Series 2009 – SCIP	Aa3	AA+	N/A
Certificates of Participation			
Series 2009 – USOC	Aa3	AA-	N/A
Series 2011 – Old City Hall, Red Rock Canyon, Skyview	Aa3	AA-	N/A
Parking Revenue Bonds	not rated	not rated	not rated
Airport Revenue Bonds	Baa1	BBB+	BBB+

General Obligation Debt

General Obligation bonds are direct obligations that pledge the full faith and credit of the City for the repayment of principal and interest. The City's total general obligation debt limit per the City Charter is 10% of the assessed valuation; therefore for 2016 the preliminary limit is \$498.1 million. The total general obligation bonded indebtedness in 2016 is \$0. This leaves an available debt margin of \$498.1 million or 100% of the City's debt limit remains available.

Sales Tax Revenue Bonds

Sales Tax Revenue bonds are issued to finance the construction of various capital improvements. Sales Tax Revenues are used to repay the principal and interest of the bonds.

In May 1999, the City issued \$87,975,000 in Sales Tax Revenue Bonds. The bonds were issued for various capital improvement projects recommended by the Springs Community Improvements Program (SCIP) citizen committees. While these bonds do not count against the City's debt limit, they commit sales tax revenue to pay them. During 2007, the City refinanced approximately \$10.4 million of these bonds; in 2009, the City refinanced the remaining \$34.5 million. The 2016 payment totals \$2,766,750, which is paid from a General Fund – General Cost account.

The following table reflects the future debt service requirements for all sales tax revenue bonds to maturity.

Springs Community Improvements Program (SCIP) – Combined Series 2007, Series 2009

Interest Rate on Outstanding Debt: 5.00%

<u>Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2016	\$2,635,000	\$131,750	\$2,766,750
Total	\$2,635,000	\$131,750	\$2,766,750

Outstanding Debt per Capita

In 2009, the General Obligation (G.O.) debt was paid off and, therefore, the G.O. debt per capita is \$0. After the 2016 debt payment, Sales Tax debt per capita will be zero.

Airport Revenue Bonds

2014 Airport System Revenue (previously 2002 Terminal Project)

In 2014 the Series 2002 Terminal Project (previously 1992A) was refinanced with a principal value of \$11,185,000 at an interest rate of 5.00%.

Interest Rate on Outstanding Debt: 5.00% (True Interest Cost 3.29%)

These bonds are not callable prior to maturity.

The 2016 payment totals \$1,462,500 and is paid through the Airport Enterprise Fund.

<u>Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2016	\$990,000	\$472,500	\$1,462,500
2017	1,040,000	423,000	1,463,000
2018	1,090,000	371,000	1,461,000
2019	1,145,000	316,500	1,461,500
2020	1,205,000	259,250	1,464,250
2021	1,265,000	199,000	1,464,000
2022	1,325,000	135,750	1,460,750
2023	<u>1,390,000</u>	<u>69,500</u>	<u>1,459,500</u>
Total	\$9,450,000	\$2,246,500	\$11,696,500

2007A Airport System Revenue

Interest Rates on Outstanding Debt: 4.00% – 4.25% (True Interest Cost 4.14%)

These bonds are callable in whole or in part at any time beginning December 15, 2016 with no call premium.

The 2016 payment totals \$347,587 and is paid through the Airport Enterprise Fund.

<u>Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2016	\$280,000	\$67,587	\$347,587
2017	295,000	56,388	351,388
2018	305,000	44,588	349,588
2019	315,000	32,388	347,388
2020	330,000	19,788	349,788
2021	<u>155,000</u>	<u>6,588</u>	<u>161,588</u>
Total	\$1,680,000	\$227,327	\$1,907,327

2007B Airport System Revenue

Interest Rates on Outstanding Debt: 4.00% – 4.375% (True Interest Cost 4.49%)

These bonds are callable in whole or in part at any time beginning December 15, 2016 with no call premium. The 2016 payment totals \$730,363 and is paid through the Airport Enterprise Fund.

<u>Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2016	\$480,000	\$250,363	\$730,363
2017	585,000	231,163	816,163
2018	610,000	207,762	817,762
2019	635,000	182,600	817,600
2020	660,000	155,613	815,613
2021	850,000	127,562	977,562
2022	1,050,000	91,438	1,141,438
2023	<u>1,040,000</u>	<u>45,500</u>	<u>1,085,500</u>
Total	\$5,910,000	\$1,292,001	\$7,202,001

Parking System Revenue Bonds

2015 Parking System Revenue Bonds

In 2015 the Series 1999 and Series 2006 Parking System Revenue Bonds were combined and refinanced with a principal value of \$9,520,000 at an interest rate of 2.43%.

These bonds are callable in whole on the first of any month beginning December 1, 2020 with no call premium. The 2016 payment totals \$910,420 and is paid through the Parking System Enterprise Fund.

<u>Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2016	\$695,000	\$215,420	\$910,420
2017	710,000	198,530	908,530
2018	720,000	181,278	901,278
2019	700,000	163,782	863,782
2020	715,000	146,772	861,772
2021	735,000	129,398	864,398
2022	750,000	111,537	861,537

2024	790,000	74,601	864,601
2025	810,000	55,404	865,404
2026	830,000	35,721	865,721
2027	<u>640,000</u>	<u>15,552</u>	<u>655,552</u>
Total	\$8,865,000	\$1,421,307	\$10,286,307

Certificates of Participation (COP)

Certificates of Participation are issued for particular projects and are repaid from lease payments made by the City for use of the acquired property.

In October 2009, the City entered into a lease-purchase agreement with the City of Colorado Springs Public Facilities Authority to issue COP's for the United States Olympic Committee (USOC) facilities project in the amount of \$31,470,000. The project includes office space for the USOC Headquarters in downtown Colorado Springs and certain improvements at the USOC Olympic Training Center. The 2016 payment totals \$1,782,225 which is paid from a General Fund – General Cost account.

USOC Project Series 2009

Interest Rates on Outstanding Debt: 3.00%– 5.00%

These bonds are callable in whole at any time beginning November 1, 2019 with no call premium.

Year	Principal	Interest	Total
2016	\$320,000	\$1,462,225	\$1,782,225
2017	370,000	1,452,625	1,822,625
2018	425,000	1,440,600	1,865,600
2019	480,000	1,425,725	1,905,725
2020	540,000	1,408,925	1,948,925
2021	615,000	1,381,925	1,996,925

2039	<u>2,485,000</u>	<u>124,250</u>	<u>2,609,250</u>
Total	\$30,505,000	\$24,231,244	\$54,736,244

Certificates of Participation (COP)

In May 2011, the City and the City of Colorado Springs Public Facilities Authority refinanced the 1999 Series Skyview Softball Complex, Series 2000 Old City Hall Project and the Series 2003 Red Rock Canyon Project COPs. Although this is part of a combined refinancing, the payments are separated as a result of multiple funding sources.

Skyview Softball Complex Series 2011 (1999 portion of combined 2011 series)

Interest Rates on Outstanding Debt: 3.0% – 5.0%

These bonds are not callable prior to maturity.

In September 1999, the City entered into a lease-purchase agreement with the City of Colorado Springs Public Facilities Authority to issue Certificates of Participation (COP's) for the Skyview Softball Complex in the amount of \$4,205,000. The project includes an adult sports complex consisting of six lighted softball fields and two lighted concrete fields designed for wheelchair sports.

The 2016 payment totals \$274,300 and is made from the Conservation Trust Fund and the Ballfield Capital Improvements Fund.

<u>Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2016	\$235,000	\$39,300	\$274,300
2017	240,000	29,900	269,900
2018	250,000	20,300	270,300
2019	<u>240,000</u>	<u>7,800</u>	<u>247,800</u>
Total	\$965,000	\$97,300	\$1,062,300

Old City Hall Project Series 2011 (2000 portion of combined 2011 series)

Interest Rates on Outstanding Debt: 3.0% – 5.0%

These bonds are not callable prior to maturity.

In July 2000, the City entered into a lease-purchase agreement with the City of Colorado Springs Public Facilities Authority to issue COP's for the Old City Hall project in the amount of \$7,265,000. The project included a major renovation of Old City Hall and acquisition of the Police Training Academy and Impound Lot.

The 2016 payment totals \$521,925 and is made from the General Fund – General Costs and Police Department accounts.

<u>Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2016	\$440,000	\$81,925	\$521,925
2017	460,000	64,325	524,325
2018	475,000	45,925	520,925
2019	300,000	22,175	322,175
2020	<u>205,000</u>	<u>7,175</u>	<u>212,175</u>
Total	\$1,880,000	\$221,525	\$2,101,525

Red Rock Canyon Project Series 2011 (2003 portion of combined 2011 series)

Interest Rates on Outstanding Debt: 3.0% – 5.0%

These bonds are not callable prior to maturity.

In November 2003, the City entered into a lease-purchase agreement with the City of Colorado Springs Public Facilities Authority to issue COP's for the Red Rock Canyon project in the amount of \$15,070,000. The project included the acquisition of approximately 732 acres on the City's west side.

The 2016 payment totals \$1,122,375 and is made from the Conservation Trust Fund and the Trails, Open Space and Parks Fund.

<u>Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2016	\$995,000	\$127,375	\$1,122,375
2017	1,030,000	93,825	1,123,825
2018	<u>1,075,000</u>	<u>53,750</u>	<u>1,128,750</u>
Total	\$3,100,000	\$274,950	\$3,374,950

Lease Financing

In August 2013, City Council approved a bank lease-purchase agreement in the amount of \$7.4 million to refinance the 2007 bank lease-purchase agreement for the purchase of the City Administration Building (CAB). At the end of the term, the City will have the option to purchase the building for \$4,066,212. The total payment for 2016 is \$626,759 and is made from the General Fund – General Costs account.

City Administration Building – 2013

Interest Rate on Outstanding Debt: 2.49%

<u>Year</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2016	\$473,294	\$153,465	\$626,759
2017	485,214	141,545	626,759
2018	497,435	129,324	626,759
2019	509,963	116,796	626,759
2020	<u>390,884</u>	<u>79,185</u>	<u>470,069</u>
Total	\$2,356,790	\$620,315	\$2,977,105

State Statue 29-1-103 (3) requires that all local governments set forth in the budget document all amounts for lease-purchase agreement obligations which involve funding commitments beyond the forthcoming fiscal year.

Description	1-1-16 Balance**	2016 Payment	12-31-16 Remaining
General Fund Lease-Purchase Obligations*	\$793,073	\$305,595	\$487,478

Description	1-1-16 Balance**	2016 Payment	12-31-16 Remaining
Other Fund Lease-Purchase Obligations	\$21,942	\$21,942	\$0

* The General Fund Lease Purchase Obligations other than the CAB.

** The balance is defined as all remaining financial obligations for principal from January 1, 2016, through the retirement of all lease-purchase agreement obligations represented in the figures shown above.

Grants Overview

Grants Appropriation

\$52,315,347

Each year, the City of Colorado Springs appropriates an amount in the Budget to streamline the grant acceptance process. Under this model, anticipated grants need only be accepted by City Council resolution, if required by the granting agency. Grants received outside the Grants Appropriation require supplemental appropriations throughout the year.

The City of Colorado Springs anticipates an estimated decrease of \$11.5 million in the amount of grants to be appropriated in Fiscal Year 2016. The prior year amounts shown below include the total amount of the grants appropriation pool that was used during that respective fiscal year. The grants appropriation amount includes grant dollars as well as match dollars and other dollars (i.e., donations/private fund raising). Therefore, the grant appropriation amount each year is greater than the actual grant funds received by the City. The total for fiscal year 2016 includes potential grants for which departments intend to apply, including highly competitive grants that are not guaranteed.

Grant Funding and Appropriation Fiscal Years 2013-2016

* The FY 2015 Grants Appropriation is \$63.8M (not including \$4.1M of 2014 carry forward); however, the estimated activity includes grants of nearly \$51.4M awarded through July 31, 2015 as well as grants projected to be awarded from August 1, 2015 through fiscal year end.

Grants Appropriation **	2015	2016	Variance
Capital Improvement Grants †	\$44,107,086	\$19,952,355	(\$24,154,731)
Disaster Grants (FEMA DR-4229)	0	14,879,848	14,879,848
Operating Grants	19,741,029	17,483,144	(2,257,885)
Total Grants Appropriation	\$63,848,115	\$52,315,347	(\$11,532,768)

** The Grants Appropriation includes the anticipated federal/state grant funding, local grant match, and other funding sources (such as private donations).

† For 2014-2015, an exceptionally high amount of federal and state disaster grant funds for NRCS/EWP, HMGP and CDBG-DR programs was available for eligible projects related to the 2013 flooding. For 2016, these disaster grant programs are not available—returning the grant funding opportunities to a more historical level.

Grant Administration

Funds from federal, state and private sources are important resources that need to be included in the City's financial plan. The City is committed to a citywide coordination of grant activities among agencies and to determine the immediate and longer-term financial consequences of accepting funding. The City evaluates grant applications and awards to determine whether proposals are consistent with city priorities, ensures that proposals are coordinated with the City's existing programs, ensures that administrative, reporting and evaluation requirements are adequately addressed, assesses the need for a cash match, and evaluates the immediate and long-term financial consequences of the application. Agencies receiving the spending authority are responsible for complying with grant restrictions, applicability, and reporting. All grant funds will be expended for the purposes for which they were granted and in the time period for which they were granted.

Types of Grants

Grants facilitate operational capacity and capital investment that would otherwise be impossible for the City to accomplish due to financial restrictions. Grant funding supports local government operations, local capital improvement projects, and disaster recovery efforts—these funds are designated specifically to projects and improvements in line with the intent of the grantor. Grant funding, therefore, is temporary assistance to accomplish policy or infrastructure goals on behalf of the grantor.

Capital Improvement grants fund projects involving infrastructure improvement projects, purchases of equipment or property, and renovation of City facilities creating a fixed asset and having a long life. Capital Improvement Grants are discussed in the Capital Improvement Section, starting on page 31-1.

Disaster grants received from the Federal Emergency Management Agency's (FEMA) Public Assistance (PA) Grant Program is awarded to provide assistance to State, Tribal and local governments, and certain types of Private Nonprofit organizations so that communities can quickly respond to and recover from major disasters or emergencies declared by the President. To be eligible for funding, disaster recovery work performed on an eligible facility must be required as the result of a major disaster event, be located within a designated disaster area, and be the legal responsibility of an eligible applicant.

Operating grants fund programs undertaken by the City to provide services such as DUI enforcement checkpoints, Office of Emergency Management efforts, and therapeutic recreation projects. Grant funding awarded for operations is listed in each relevant department narrative of the Budget.

Matching Funds

Certain grants require matching funds as the recipient's demonstration of financial commitment to the grant-funded project. Matching funds can be contributed by the General Fund through the Budget process, cash or in-kind third party contributions.

Matching funds leverage City dollars to accomplish projects that otherwise could not be undertaken due to lack of financial resources. The return on the City's investment varies depending on the structure of the grant. Grantors may require differing levels of matching funds, some of which are required by federal, state, or other grantor statute. When possible, matching funds are sought from other entities.

Formula vs. Discretionary Grants

Formula grants are awarded according to the grantor's determination of equitable distribution of grant funds to the City of Colorado Springs. These include the Community Development Block Grant, and Transit Section 5307, among others.

Discretionary grants are generally competitive grants for which the City of Colorado Springs develops an application and the grantor determines the recipient. Discretionary grants award funds based on the viability of the proposed project, evidence of support from stakeholders, and quality of the application materials.

Grant Appropriation Detail

Type of Funding/Recipient	Anticipated Grant Funding	Budgeted Grant Match	2016 Grants Appropriation
Capital Improvement Grants			
Airport	\$11,666,000	\$614,000	\$12,280,000

Total Grants Appropriation	\$46,810,985	\$5,504,362	\$52,315,347

* Note: Budgeted grant match funding the local share of FEMA DR-4229 grant projects will be comprised of multiple sources including FY 2016 local match requested through the Capital Improvement Program, funding appropriated in prior years as grant match, as well as funding approved through supplemental appropriation in FY 2015.

Capital Improvement Grants:

Capital Improvement grant funding and contributed match is included within the Capital Improvement Program All Funds Detail, starting on page 31-6. Match identified above is a component of the non-grant CIP funding sources, but may not make up the non-grant funded sources in their entirety.

Disaster Grants (FEMA DR-4229):

Grant funding anticipated from the FEMA PA grant program (mentioned above) for the declared disaster DR-4229 Colorado Severe Storms, Tornadoes, Flooding, Landslides, and Mudslides, from May 4, 2015 to July 16, 2015 is included within the Capital Improvement Program All Funds Detail, starting on page 31-6. The anticipated grant and required match are also included in the Office of Emergency Management section of the budget.

Operating Grants:

Grant funding awarded for operations is listed in each Department's budget narrative. The City's match contribution related to operating grants comes from a variety of sources, most commonly in-kind or third party contributions. Because in-kind contributions relate to expenses the City incurs regardless of receiving grant funding, contributed match is contained within each section of the budget and not identified separately. These contributions are reviewed prior to the submission of a grant application.

FEMA Public Assistance Grant – DR-4229

Within the FEMA PA grant program, eligible work is grouped into categories based on the type of work being completed. FEMA defined categories of work are:

Emergency Work

- *Category A: Debris Removal:* Clearance of trees and woody debris; certain building wreckage; damaged/ destroyed building contents; sand, mud, silt, and gravel; vehicles; and other disaster-related material deposited on public and, in very limited cases, private property.
- *Category B: Emergency Protective Measures:* Measures taken before, during, and after a disaster to eliminate/reduce an immediate threat to life, public health, or safety, or to eliminate/reduce an immediate threat of significant damage to improved public and private property through cost-effective measures.

Permanent Work

- *Category C: Roads and Bridges:* Repair of roads, bridges, and associated features, such as shoulders, ditches, culverts, lighting, and signs.
- *Category D: Water Control Facilities:* Repair of drainage channels, pumping facilities, and some irrigation facilities. Repair of levees, dams, and flood control channels fall under Category D, but the eligibility of these facilities is restricted.
- *Category E: Buildings and Equipment:* Repair or replacement of buildings, including their contents and systems; heavy equipment; and vehicles.
- *Category F: Public Utilities:* Repair of water treatment and delivery systems; power generation facilities and distribution facilities; sewage collection and treatment facilities; and communications.
- *Category G: Parks, Recreational, and Other Facilities:* Repair and restoration of parks, playgrounds, pools, cemeteries, mass transit facilities, and beaches. This category also is used for any work or facility that cannot be characterized adequately by Categories A-F.

Preliminary Damage Assessment:

The Preliminary Damage Assessment (PDA) is a joint assessment used to determine the magnitude and impact of an event's damage. A FEMA/State team will usually visit local applicants and view their damage first-hand to assess the scope of damage and estimate repair costs. The State uses the results of the PDA to determine if the

situation is beyond the combined capabilities of the State and local resources and to verify the need for supplemental Federal assistance. The PDA also identifies any unmet needs that may require immediate attention. Based on preliminary damage assessments performed by City representatives with assistance from the FEMA/State team, the breakdown of damage estimate by category, occurring within the disaster declaration period mentioned above, was as follows:

Category/Recipient	Preliminary Damage Assessment
Category A-Debris Removal	
Parks, Recreation, and Cultural Services	88,000
Stormwater	144,170
Streets	137,226
Total Category A-Debris Removal	\$369,396
Category B-Emergency Protective Measures	
Fire	9,156
Parks, Recreation, and Cultural Services	72,000
Police	13,229
Stormwater	5,902,053
Streets	20,985
Total Category B-Emergency Protective Measures	\$6,017,423
Category C-Roads and Bridges	
Parks, Recreation, and Cultural Services	530,154
Stormwater	327,331
Streets	68,194
Total Category C-Roads and Bridges	\$925,679
Category D-Water Control Facilities	
Airport	585,000
Parks, Recreation, and Cultural Services	25,000
Stormwater	3,830,707
Streets	668,026
Total Category D-Water Control Facilities	\$5,108,733
Category F-Public Utilities	
Streets	260,000
Total Category F-Public Utilities	\$260,000
Category G-Parks, Recreational, and Other Facilities	
Parks, Recreation, and Cultural Services	2,198,618
Total Category G-Parks, Recreational, and Other Facilities	\$2,198,618
Total DR-4229 Initial Damage Assessment	\$14,879,848

Project Formulation and Cost Estimate:

Project formulation is the process of documenting the damage to the facility, identifying the eligible scope of work, and estimating the costs associated with that scope of work for each of the applicant's projects. Project formulation allows applicants to administratively consolidate multiple work items into single projects in order to expedite approval and funding, and to facilitate project management. The City is currently going through project formulation to estimate actual cost at this time. Estimated actual cost is expected to vary from the preliminary damage assessment estimate provided above.

Personnel Summary

- **Add a net of 8.50 positions in the General Fund from 2015 Amended to 2016 Budget, including:**
 - Increase the Legislative Counsel Attorney position from 0.50 FTE to 1.00 FTE
 - Add 1.00 Records Coordinator
 - Add 1.00 Fire Code Inspector
 - Add 1.00 Procurement Buyer
 - Add 2.00 FTE for network security
 - Add 1.00 Code Enforcement Division Manager
 - Add 2.00 Application Programmers for JIS rebuild/maintenance
 - Add 2.00 Evidence Technicians for Body Worn Camera Program
 - Eliminate 2.00 police positions, due to transcription outsourcing

- **Add a net of 3.50 positions across all other funds, including:**
 - Eliminate 0.50 FTE in Workers' Compensation Fund
 - Add 2.00 positions at the Airport
 - Add 1.00 positions in the Development Review Enterprise
 - Eliminate 1.00 position in the Golf Enterprises
 - Add 2.00 parks positions, funded by TOPS and CTF

12.00 Net positions added across all funds from 2015 Amended Budget

* 2015 Amended Budget as of 8/31/2015

Significant Changes vs. 2015

- Increase of \$91,261 to convert the Legislative Counsel Attorney position from a 0.50 FTE to 1.00 FTE

City Attorney

The City Attorney's Office is the legal advisor to the Mayor, City Council, commissions, and staff of the municipal government and City enterprises in relation to their duties as set forth in City Charter Art. XIII, §13-80. The City Attorney's Office:

- Represents the City in all court cases where the City has an interest and prosecutes all cases docketed into Municipal Court
- Provides legal representation to Colorado Springs Utilities and the Memorial Health System Enterprise
- Provides assistance in transactional matters and employment matters on behalf of the City and all its enterprises
- Reviews, updates, and maintains the City Code and provides legal services to special district, annexation, and finance issues

The sections below provide a summary of the Budget, authorized positions, changes that occurred after the budget was implemented for 2015, and changes occurring as part of the 2016 General Fund Budget.

General Fund	Use of Funds	2013 Actual	2014 Actual	2015 Original Budget	* 2015 Amended Budget	2016 Budget	2016 Budget - * 2015 Amended Budget

City Clerk

Sarah B. Johnson | (719) 385-5901 | cityclerk@springsgov.com

2016 Goals

Goal	Measurable Outcome
Conduct City Council redistricting in compliance with federal law, City Charter and City Code to ensure the six districts are representative of the city population.	Successful completion of the redistricting process.
Streamline business licensing process to enable customers to easily learn the requirements and complete the necessary forms to obtain the required license in a timely manner through a combination of increased internet presence and internal resources.	Publish materials & update forms; increase license enforcement through coordination with other departments.
Educate city staff on the requirements of records management in accordance with the Colorado Municipal Records Retention Schedule.	Develop training materials to train city staff on proper records management.

All Funds Summary

All Funds	Use of Funds	2014 Actual	2015 Original Budget	* 2015 Amended Budget	2016 Budget	2016 Budget - * 2015 Amended Budget

Total	\$672,830	\$713,372	\$713,372	\$793,430	\$80,058	
Positions	General Fund	8.00	8.00	8.00	9.00	1.00
Total	8.00	8.00	8.00	9.00	1.00	

* 2015 Amended Budget as of 8/31/2015

Significant Changes vs. 2015

- Addition of 1.00 FTE Records Retention Coordinator
- Increase in background investigations and election expenses

City Clerk

The City Clerk's Office is the custodian of official City documents and records of proceedings of the City pertaining to the operation of City government, specifically:

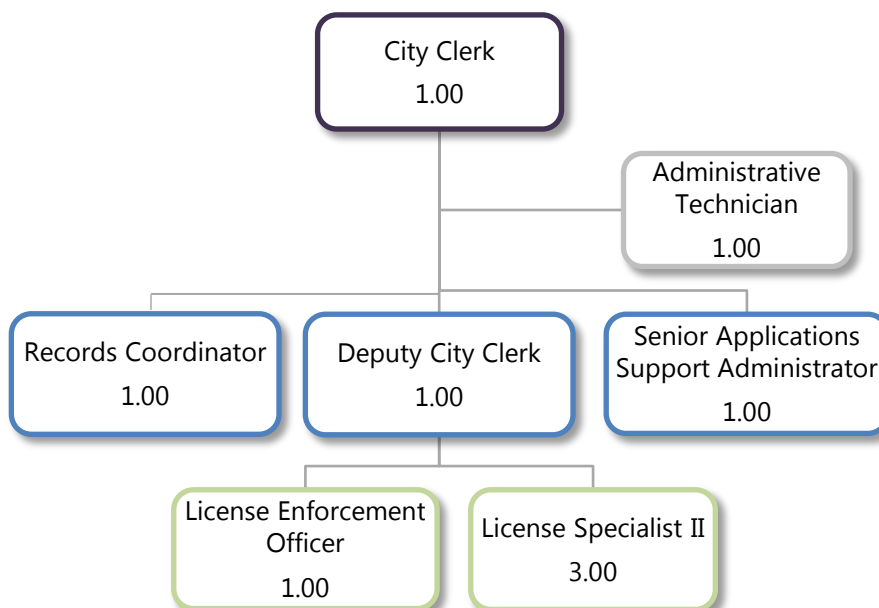

- Records, files, manages and ensures safekeeping of public records
- Updates and maintains the City Charter
- Maintains the City seal
- Attests to official documents
- Publicizes and posts legal notices in compliance with local and state laws
- Prepares the City Council agendas, attends City Council meetings, and records and transcribes meeting actions and decisions
- Accepts service of summonses and subpoenas, and ensures appropriate distribution and processing on behalf of the City

The City Clerk's Office supervises and conducts municipal elections, specifically:

- Serves as the Designated Local Election Official
- Divides the City in 6 contiguous City Council Districts that are substantially equal in population and complies with all applicable laws during the year before District council elections
- Issues, accepts, and verifies Mayoral Candidate petitions, City Council candidate petitions and all citizen initiative, referendum, recall or charter amendments/petitions
- Oversees ballot preparation, voting process, tabulation process and certification of vote totals
- Receives candidate and committee campaign finance reports
- Maintains and enforces the applicable election sections of City Charter, City Code, State Statutes and Federal law

The City Clerk's Office administers and enforces business licenses (approximately 3,100 licensed entities at this time). The City Clerk's office:

- Issues and renews general business licenses (19 license types at this time), liquor licenses and medical marijuana licenses in accordance with City and state laws and regulations
- Provides support to the City Liquor and Beer Licensing Board
- Conducts administrative, suspension, revocation, and renewal hearings for all business licenses

The sections below provide a summary of the Budget, authorized positions, changes that occurred after the budget was implemented for 2015, and changes occurring as part of the 2016 General Fund Budget.

Municipal Court

HayDen Kane II, Presiding Judge/Court Administrator | (719) 385-5928 | municourtjudge@springsgov.com

2016 Goals

Goal	Measurable Outcome
Continue to track and obtain feedback from Municipal Court customers via customer survey.	Maintain an over 90% customer satisfaction rate about the experience, process and personnel in Municipal Court.
Complete the rebuild of the courts case management system (JIS) to increase efficiency.	Allow for more comprehensive and efficient case tracking throughout the adjudication process and moving toward a paper on demand system (paperless).

All Funds Summary

	Use of Funds	2014	2015	* 2015	2016	2016 Budget -
		Actual	Original Budget	Amended Budget		Budget
<i>All Funds</i>	General Fund	\$3,421,513	\$3,403,128	\$3,573,128	\$3,869,163	\$296,035
	CIP - General Fund	0	450,000	450,000	1,200,000	750,000
	Total	\$3,421,513	\$3,853,128	\$4,023,128	\$5,069,163	\$1,046,035
	Positions					
	General Fund	38.78	34.60	35.60	37.80	2.20
	Total	38.78	34.60	35.60	37.80	2.20

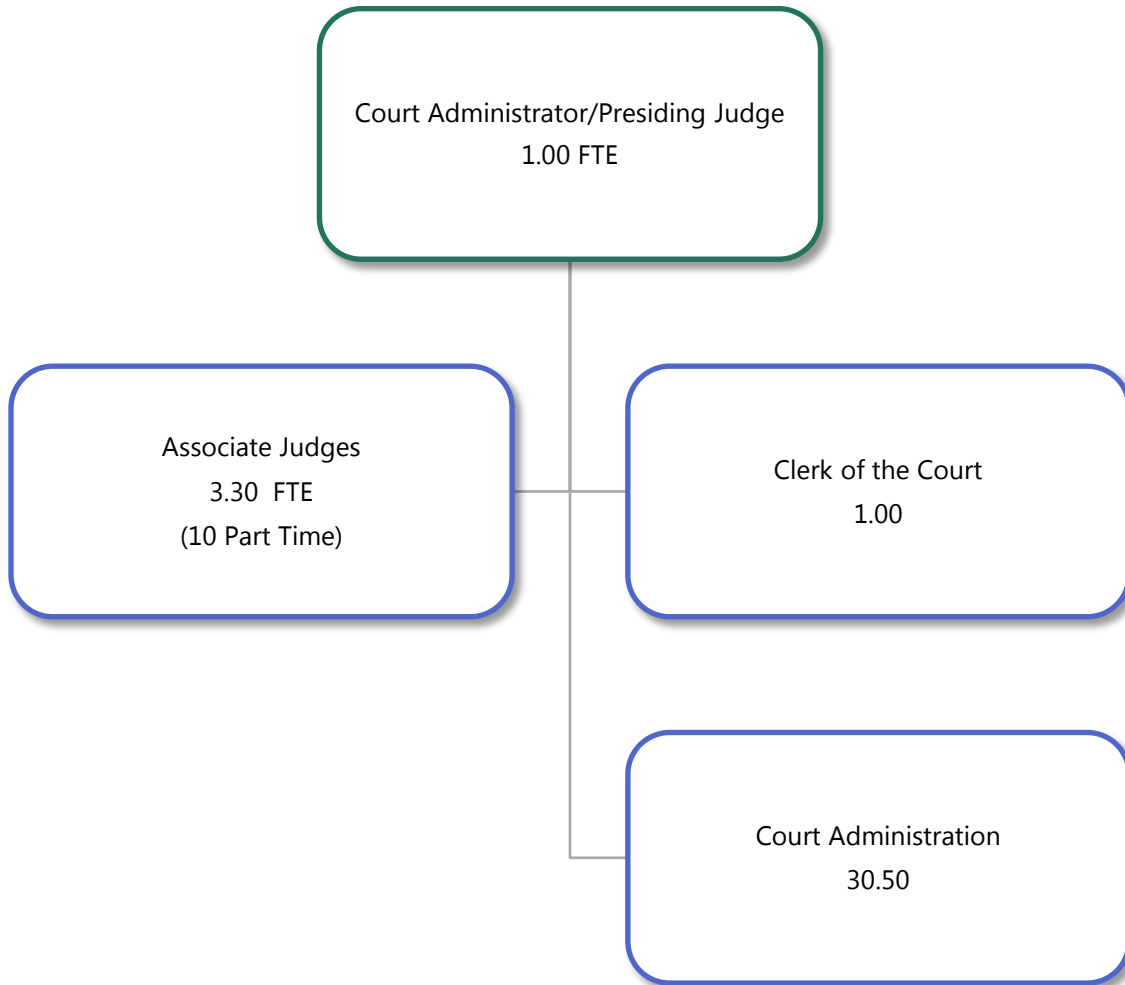

* 2015 Amended Budget as of 8/31/2015

Significant Changes vs. 2015

- Increased funding for the rebuild of the JIS court tracking system including funding for 2.00 FTE and associated salary/benefits/pensions.
- Increased funding for constitutionally mandated court appointed attorney and interpreter fees.

Municipal Court

The Municipal Court’s mission is to enhance the quality of life of the citizens of Colorado Springs by promoting public safety, traffic safety, and respect for the administration of justice by applying sanctions for violations of municipal ordinances. The Municipal Court is a limited jurisdiction court of record that hears and resolves misdemeanor, traffic, and parking violations for adult and juvenile offenders. Services provided include intake processes, revenue collection as a byproduct of the court sanctioning process, courtroom and clerical support for improved case management, and probation services.

* The organizational chart illustrates all positions that report to this department, not including 2.00 positions that report to the Information Technology department but are funded by the Municipal Court; however, positions funded by the Municipal Court are reflected in the Position Totals of the funding tables in this narrative.

The sections below provide a summary of the Budget, authorized positions, changes that occurred after the budget was implemented for 2015, and changes occurring as part of the 2016 Budget for each fund including the General Fund and CIP.

City Auditor

Denny Nester, City Auditor | (719) 385-5694 | dnester@springsgov.com

2016 Goals

Goal	Measurable Outcome
Support the Council, Mayor, CEO of Colorado Springs Utilities and their direct reports by aligning audits with associated strategic organizational goals, objectives and risks.	City Auditor and Audit management will meet with all department heads and key audit contacts to discuss potential audit projects.
Refine audit processes to address the highest risk areas and improve efficiency and effectiveness of audit resources and results.	Each audit staff member will complete at least 40 hours of audit and industry related continuing professional education annually.
Increasing audit services value to the City by further developing stakeholder relationships. It is a cooperative effort of the City Auditor's office along with members of management to make all the entities of Colorado Springs the best possible provider of services to citizens.	This goal will be measured by the number of audit requests by management and/or key stakeholders.

* 2015 Amended Budget as of 8/31/2015

** While the entire budget is included in the General Fund, the Auditor's Office invoices Colorado Springs Utilities and Colorado Springs Airport for related audits and recognizes the payments as General Fund revenue.

Significant Changes vs. 2015

None

City Auditor

The City Auditor’s mission is to provide City Council an independent, objective and comprehensive auditing program for operations of the City to include City enterprises—Colorado Springs Utilities and Colorado Springs Airport. The Office of the City Auditor conducts financial, regulatory, information technology, compliance, and performance audits to:

- Evaluate the adequacy of financial controls, records and organizational operations;
- Provide objective analyses, appraisals and recommendations for improving systems and activities;
- Review policies, plans, procedures, laws and regulations to ensure overall compliance;
- Review the means to safeguard assets;
- Review operations and programs to ascertain whether results are consistent with established objectives; and
- Review financial and operating information and the means used to identify, measure, classify, and report such information to determine its reliability and integrity.

The sections below provide a summary of the Budget, authorized positions, changes that occurred after the budget was implemented for 2015, and changes occurring as part of the 2016 General Fund Budget.

City Council

Merv Bennett, Council President, At-Large | (719) 385-5469 | mbennett@springsgov.com

Larry Bagley, District 2
 Helen Collins, District 4
 Jill Gaebler, President Pro-Tem, District 5
 Keith King, District 3

Don Knight, District 1
 Bill Murray, At-Large
 Andy Pico, District 6
 Tom Strand, At-Large

Strategic Goals

***Mission:** As stewards of the public trust, we serve the people of Colorado Springs with core services effectively, efficiently, and courteously with the wise use and management of our resources.*

City Council has identified the following three strategic goals to support this mission:

- Economic Growth
 - Improve Colorado Springs’ Business-Friendly Reputation
 - Facilitate Economic Growth
 - Encourage Responsible and Innovative Land Use
- Responsible Government
 - Engage in Regional Partnerships that Improve Results and Leverage Collaboration
 - Exercise Sound Financial Stewardship
 - Deliver Effective & Efficient Government by Collaborating and Communicating among City Departments
- Quality Community
 - Seek and Engage in Opportunities for Regional Collaboration
 - Increase Citizen Outreach & Engagement in Local Government
 - Develop Policies Compatible with our Quality of Life

* 2015 Amended Budget as of 8/31/2015

Significant Changes vs. 2015

- Reduced travel out of town budget to accommodate other operating expenditure increases.

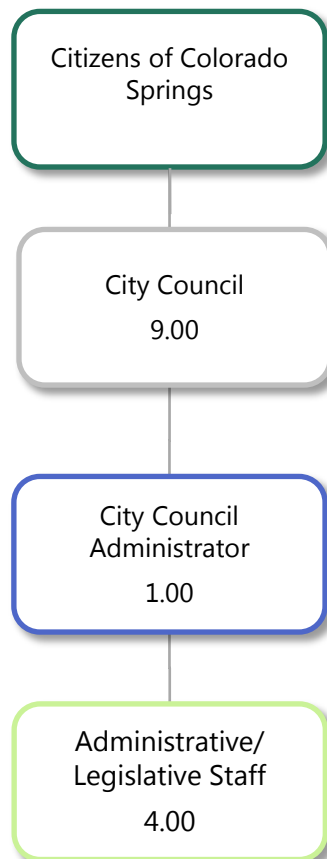

City Council

Under the new Council-Mayor form of government, the Colorado Springs City Council continues to act as the City's legislative body, which includes three Council members at-large and six from the districts in which the candidate resides. The Mayor is no longer a member of City Council, but is now a full-time, paid, elected official. A Council President, elected by vote from among Council members, replaces the Mayor as the presiding member of City Council.

City Council's responsibilities are to:

- Set legislative policies
- Approve budgets and appropriate funds
- Approve ordinances and resolutions to govern the City
- Appoint citizen volunteers to more than 40 City advisory boards, committees, and commissions
- Review and approve the City's personnel policies and contracting rules and regulations
- Oversee the appointment and performance of the Utilities Director and the City Auditor

City Council meets in Regular Session at 1:00 p.m. in the City Hall City Council Chambers on the second and fourth Tuesday of each month. City Council Work Session meetings are held at 1:00 p.m. on the Monday preceding regular meetings. All City Council meetings are open to the public, except for portions of meetings in which legal, land acquisition, or personnel matters are discussed.

Kara Skinner, Chief Financial Officer | (719) 385-5224 | kskinner@springsgov.com

2016 Goals

Goal	Measurable Outcome
Improve Procurement internal and external customer service through better use of technology.	Develop a more robust Contracting Intranet site with resources and process maps to assist department with sourcing needs.
Support the CML Sales Tax Committee in its effort to develop uniform definitions that don't increase or decrease tax revenues that would have TABOR implications.	Recommend City Code changes to implement the results of the statewide uniform definitions initiative led by CML.
Determine the City's long-range financial system software needs.	Begin the review process of next-generation Enterprise Resource Planning (ERP) solutions in coordination with IT and Human Resources.
Determine levels of training City employees require to perform financial tasks accurately and use the reporting tools efficiently.	Develop a Finance Department comprehensive, regularly-scheduled training program and curriculum.

* 2015 Amended Budget as of 8/31/2015

Significant Changes vs. 2015

- Increase of approximately \$915,000 to begin the ERP technology review process, for City facilities maintenance, and other high priority CIP projects.
- Increase of \$657,000 in the Grants Fund due to the City applying for two grants on behalf of Springs Utilities and O'Neil Group Co. If either of the grants is awarded, the required grant match will be provided by the associated entity.

Finance

The Finance divisions provide fiscal accountability and reporting for the City and its enterprises.

Accounting

- Provides accounting and financial reporting services for City departments, enterprises, component units, and federal and state grants.
- Maintains accounting information for 75 funds and \$440 million in expenditures.
- Oversees the City's cash, investment, and debt activities, which include approximately \$564 million in cash and investments, and \$242 million in debt across all funds.
- Oversees the accounts receivable process.

Accounts Payable

- Processes invoices for payment; administration and oversight of the City's Visa card program including training, auditing and compliance; and managing encumbrances including all contract, purchase order and change orders.
- Disburses payments for the Pikes Peak Regional Communications Network and invoice tracking/ oversight for the Pikes Peak Rural Transportation Authority (PPRTA) – processing over 45,000 invoices amounting to over \$166 million annually for payment, and over 2,300 invoices are reviewed and audited for the PPRTA.

Budget

- Maintains the City's fiscal integrity through efficient allocation of resources and presents information with fiscal transparency to the Mayor, City Council, and the citizens of this community.
- Manages the annual budget process and prepares the annual budget document.
- Provides analytical support to the Mayor, Chief of Staff, City Council, and City departments.
- Conducts fiscal review and management of special districts in the City.
- Develops and manages the City's capital improvement program.

Grants Administration

- Manages a citywide grant coordination, administration and compliance to ensure proper reporting and compliance, and to maximize grant funding opportunities.

Payroll and Pensions

- Provides all time, payroll, and pension support to all City departments and enterprises.
- Administers payroll, new hire and job action processes.
- Processes terminations, workers' compensation calculations, benefits processing and remittance to vendors, time administration, and many other payroll related activities.

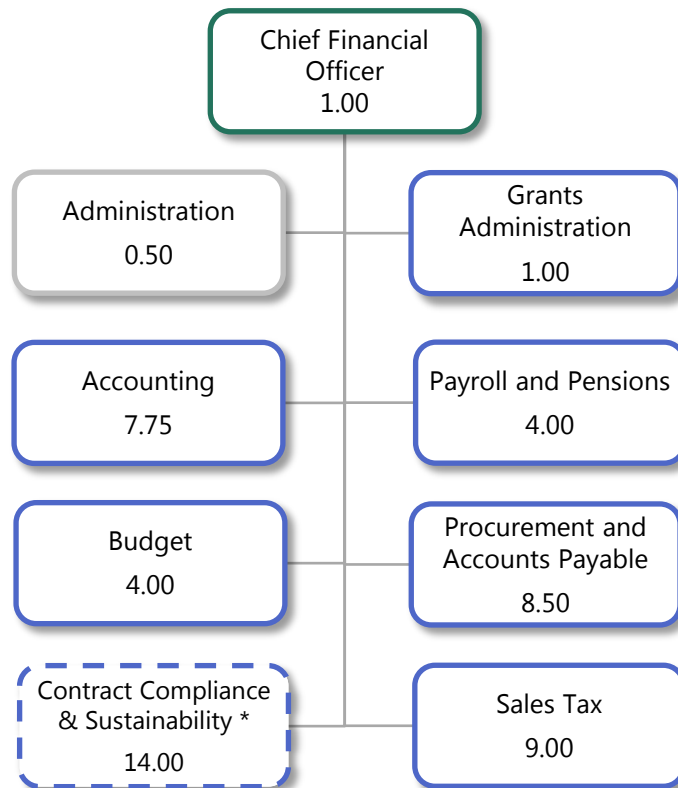

Sales Tax

- Administers sales and use taxes.
- Registers applicants for new sales and use tax licenses.
- Collects sales and use tax from taxpayers.
- Interprets and ensures compliance with the City Code.
- Delivers a high level of customer service to taxpayers.
- Conducts taxpayer education classes.

Procurement Services

- Provides solicitation, negotiation, and award of purchase orders and contracts for all City departments as well as the Pikes Peak Rural Transportation Authority (PPRTA), while maintaining competitiveness, innovation, and compliance with procurement laws.
- Responsible for 3,700 purchase orders, task orders, and formal contracts totaling over \$130 million annually.
- The Division is one of only 20% of cities and counties nationwide that have been recognized by the National Institute of Governmental Purchasing (NIGP) for 100% professionally certified staff.

Finance Functions	2013 Actual	2014 Actual	2015 Original Budget	2016 Budget
Accounting	\$691,324	\$841,368	\$905,681	\$958,151

Contract Compliance & Sustainability

Ryan Trujillo, Manager | (719) 385-6602 | rtrujillo@springsgov.com

2016 Goals

Goal	Measurable Outcome
Provide highest level of customer service for maintenance of the City's fleet.	Awarded with "The 100 Best Fleets in the Americas" by American City & Country.
Determine sustainability initiatives with significant ROI.	Implement sustainability initiatives based on level of funding.
Develop 10-year City Facilities Needs Master Plan.	Conduct space needs study to determine most efficient use of City facilities.

All Funds Summary

Total	13.00	13.00	13.00	14.00	1.00

* 2015 Amended Budget as of 8/31/2015

† In 2016, Contract Compliance & Sustainability will include Fleet Management, Facilities Maintenance, and Office Services (previously included in the Finance narrative).

Significant Changes vs. 2015

- The General Fund portion of the Fleet contract service costs is projected to increase approximately 10% from the 2015 Budget as the percentage of maintenance costs on General Fund vehicles vs. other City funds vehicles is slightly greater as the General Fund fleet ages more than the rest of the City fleet. In addition, the allocation between City and CSU, based upon the respective number of vehicles and pieces of equipment, resulted in an increase in the City's portion of the annual targeted costs.
- Decrease of \$850,000 in fuel due to lower fuel prices as a result of a fuel strategy that supports hedging in future years. The City purchased 80% of the 2016 estimated fuel requirements in October 2014. The purchase in 2014 resulted in an \$850,000 budget decrease in 2016.
- Net increase of \$338,000 in Other Fleet Services mainly due to a decrease of \$300,000 in Police fleet replacements and an increase of \$550,000 for the first year payment on a lease of 8 new street sweepers.
- Decrease of \$1.4 million in Fleet Services Fund – the final payout of fund balance to City and Colorado Springs Utilities was budgeted in 2015.

Contract Compliance & Sustainability

This division was reorganized in 2015 to include Contract Compliance (f/k/a Fleet Management), Sustainability, City Administration Facilities Maintenance (including the City Administration Building (CAB), City Hall, and the Municipal Court Building—previously included in General Costs), and Office Services (previously included in the Finance narrative).

Contract Compliance

- Provides contract administration and oversight for the City’s internal services contracts (i.e. Serco – fleet maintenance, Xerox, Verizon, etc.), and other strategic contracts (i.e. Conventions & Visitors Bureau, Humane Society of the Pikes Peak Region, YMCA Senior Center, etc.)
- Provides fleet services such as fuel supply/distribution and vehicle acquisition/disposal
- Implements and manages process improvement and strategic initiatives

Sustainability

- Develop a City cross-departmental Sustainability Team to track and report ongoing sustainability initiatives, and to develop new sustainability initiatives with significant ROI
- Develop and implement a City Sustainability Master Plan
- Actively involved in regional sustainability efforts

Facilities Maintenance

- Provides contract administration and oversight of the El Paso County intergovernmental agreement
- Provides facility maintenance services for downtown administration buildings
- Develop 5-year CIP facility maintenance plan and 10-year Facility Needs Master Plan

Office Services

- Provides reprographics and mail processing support to all City departments and Springs Utilities
- Provides record storage and retrieval for City departments

General Costs

Overview

The General Cost section of the budget provides a funding source for the general expenses of City government, which are for the responsibility of or benefit of the organization as a whole, or cannot be identified with a specific function.

Budget Summary

* For 2016, the total unrestricted Capital Improvements Program totals \$18,131,169, which includes \$107,000 in anticipated interest earnings and investment/bank fees.

Expenditure Detail

SALARY AND BENEFITS EXPENDITURES

Retired Employees Insurance – The City's contribution to health and life insurance plans for retired employees.

Unemployment Insurance – Unemployment benefits to separated employees awarded payments by an administrative or judicial process related to the condition of the employee's termination.

OPERATING EXPENDITURES

Allocations/Internal Service Charges –The City has a number of Internal Services that are accounted for in separate funds or programs. These programs/funds include Barricading, Environmental Protection, Machine/Weld Shop, Office Services and Radio Communications. For 2016, this includes additional payments to both the Health Insurance Fund and the Workers Compensation Fund. In 2013 the General Fund absorbed the forecasted increased cost to the Employee Benefits Self-Insurance Fund as the City did not increase employee premiums while the City completed its total compensation study. Beginning with 2014, Vehicle Lease-Purchase funding is budgeted in Fleet Management.

Animal Control Contract – The City's cost for the Humane Society of the Pikes Peak Region (HSPRR) animal control services contract. The 2016 contract is still in negotiation – funding has been set aside in the Services line of General Cost and will be added to the Animal Control Contract line once the final amount is approved.

Annual Financial Audit – Annually, the City contracts with a private firm to provide a comprehensive financial audit. For 2016, the contract is with BKD.

Capital Lease Purchase – Purchase of capital equipment through a lease-purchase.

City Administration Building (CAB) - Lease-Purchase Payment– During 2003, the City entered into a lease-purchase agreement with Colorado Springs Utilities to acquire the CAB. In 2007, the City refinanced the remaining portion of the agreement with a bank lease-purchase and in 2013, the lease-purchase was refinanced to take advantage of lower interest rates.

City Building Security Contract Management – This is the citywide security contract.

City Hall/Impound Lot/Police Training Academy COP Payment – The lease-purchase payment on certificates of participation (COPs) used to finance the renovation of City Hall and the acquisition of the Police Impound Lot and Police Training Academy. In 2011, the City did a combined refinancing of series 1999, 2000, 2003 COPs significantly reducing total payments. For 2016, the payment amount is \$387,417. Additional funding for a portion of the COP payment for the Police Impound Lot and Training Academy is budgeted in the Police Department's budget.

Claims Reserve Self-Insurance Fund – The Liability Claims Reserve Self-Insurance Fund was established in 1986 to provide a mechanism for claims adjustment, investigation, settlement, and defense of general and auto liability claims filed against City, its officials, and employees. Expenditures made out of the claims reserve fund are made to pay claims and related expenses pursuant to the Colorado Governmental Immunity Act and claims against the City arising under Federal Law. For 2016, the transfer is increased by \$400,000 to ensure an adequate level of funding for claims and to contribute to the fund balance.

Economic Development – Prior to 2013, funding for economic development efforts including the Colorado Springs Technology Incubator (CSTI), Colorado Springs Regional Business Alliance (pka: Economic Development Corporation and Greater Colorado Springs Chamber of Commerce), and the Small Business Development Center

(SBDC). In 2013 and 2014, these payments were made directly from the Lodgers and Auto Rental Tax (LART). In 2016, this category includes allocating \$75,000 in support to the Regional Business Alliance and \$27,500 in support to the Small Business Development Center (SBDC). The City has Economic Development Agreements (EDAs), including the EDA with the United States Olympic Committee (USOC), as described more fully in the Economic Overview section beginning on page 1-35.

Election Expenses – For 2016, this includes \$600,000 for the potential of participating in a November election.

Employee Awards Program – As part of employee total compensation, the City has two primary employee awards programs, Service Awards (\$36,000) and Employee Recognition Awards (\$40,000).

Energy Efficiency Retrofit (Lease-Purchase Costs – Other) – For 2016, the lease-purchase payments total \$99,259 for building improvements to City facilities including City Administration Building (CAB) and Sertich Ice Arena.

Facilities Maintenance Contract – El Paso County provides facilities maintenance under an Intergovernmental Agreement (IGA) and Service Level Agreement (SLA).

Health Programs – This is the City's share of the Employee Assistance Program (EAP) and medical exams related to Police Department Investigations. For 2016, this expense is transferred to the Police Department's budget.

Homeward Pikes Peak – Funding for continued coordination of the Colorado Springs homeless service programs. This includes counting the homeless in the community and establishing a Homeless Management Information System. This funding was discontinued for 2015 and 2016 and homeless service coordination is done through the City's Housing Division and the Planning and Development Department.

Insurance Premiums – The City's comprehensive risk management program includes various property and liability policies that provide either primary or excess coverage to protect City from large and uncertain losses. The increase in 2016 is due to higher renewal costs and additional coverage.

Legal Defense Reserve – This is an amount for costs not covered by self-insurance for specialized legal services and expenses associated with legal actions against the City.

Legal Defense Reserve-City Council – In 2016, \$50,000 of Legal Defense Reserve funding is identified for City Council legal services.

Legal Settlement Costs – In 2013, the total cost of litigation settlements was \$8,206,860 and for 2014 it was \$10,634.

Membership Dues – Membership dues include membership costs to Sister Cities and Alliance for Innovation.

Pikes Peak Regional Development Center (PPRDC Rent and CAM) – This funding is for rental payments to the PPRDC for pro rata office space and Central Area Maintenance (CAM) charges used by City operations in the PPRDC. Other entities, including Development Review Enterprise and Colorado Springs Utilities also pay PPRDC for their assigned square footage.

Retirement Awards – Funding is to provide small mementos to employees, in good standing, retiring from the City.

SCIP Debt Service Payment – In October 2007, approximately \$10.4 million of the outstanding debt was refinanced to obtain a better interest rate and generate savings to the City of approximately \$4.0 million. In May 2009, the remaining \$34,460,000 outstanding debt was refinanced at a better interest rate and generated savings of approximately \$2.0 million. While the debt was originally scheduled to be retired in 2015, the refinancing extends a portion of the debt by one year, to 2016. The debt will be retired in 2016.

Services – This funding is for services required by the City that do not relate to or directly benefit a particular organizational division such as bonding/processing services, banking services, full cost allocation plan, financial consulting, lobbying, West Nile Virus payments to El Paso County, and other miscellaneous services.

Special Events – For 2016, funding of \$420,000 is projected for services provided by City departments during special events.

Streetlight Program – The charge from Colorado Springs Utilities for the operation of the Streetlight system.

CAPITAL OUTLAY EXPENDITURES

General Fund Contribution to City CIP Fund – For 2016, the General Fund contribution is \$18,024,169, which is augmented by \$107,000 in anticipated interest earnings and investment/bank fees. These projects are for stormwater, roads and bridges projects and grant matches, technology, other payments and projects, and City facility repairs.

General Fund – Projects – For 2016, funding of \$250,000 for an update of the City's Comprehensive Plan is included. In 2015, there were no General Fund Projects budgeted. For 2014, the projects included an analysis of facilities and prioritization of repair needs and a Public Works optimization for CIP process design and public input – which were subsequently "abandoned" in accordance with City Code and the funding reprioritized for more emergent information technology needs – and an update to the City's Comprehensive Plan.

Fire

Christopher P. Riley, Fire Chief | (719) 385-7201 | criley@springsgov.com

2016 Goals

Goal	Measurable Outcome
Improve citizen and firefighter safety by maintaining public safety personnel staffing at the level needed to ensure equitable emergency response time standards are met or exceeded.	Effectively respond to all calls within 8 minutes 90% of the time and respond to all structure fires with an effective force within 12 minutes 90% of the time.
Complete required inspections by the Division of the Fire Marshal to ensure citizen and firefighter safety.	Achieve completion of 65% of required high risk operation and occupancy inspections.
Further develop the Community Assistance Referral And Education Services (CARES) program with community health partners, to make heavy front line fire-fighting apparatus more readily available and to provide acute behavioral health services to 911 systems users in behavioral health crisis through a collaborative response team.	Conduct monthly neighborhood health screenings; Provide at least 750 immunizations to reduce flu-like symptom and general illness 911 calls. Enroll an additional 250 patients into the CARES program; Redirect 250 911 patients in mental health crisis from medical Emergency departments and into direct Behavioral Health Services.

Total	476.25	475.50	482.50	482.50	0.00	

* 2015 Amended Budget as of 8/31/2015

** Firefighters added in 2013 were funded by a two-year federal grant and are not included in the Personnel Summary

Significant Changes vs. 2015

- Increase in funding for 4th Battalion
- Increase for Apparatus replacement plan
- Increase in funding to add 1.00 FTE Fire Code Inspector

Fire Department

The mission of the Colorado Springs Fire Department (CSFD) is “Providing the highest quality problem solving and emergency service to our community since 1894.” A variety of Fire Department programs—including fire code enforcement, community education, and emergency response—provide direct services to the community. Other programs support these services, including fire and medical training, apparatus and facilities maintenance, communications, finance, analysis, and planning. The Fire Department has four primary functions as outlined below.

Operations Division

This division protects life and property through the effective delivery of emergency response, prevention, and public education services. Virtually all emergency response personnel are emergency medical technicians (EMTs), and all stations are staffed with paramedics. In the dual roles of firefighters and emergency medical responders, fire personnel provide fire suppression, basic and advanced emergency medical services, technical rescue (including extrication at traffic accidents, high-angle rescue, swift water rescue, ice rescue, and others), response to hazardous materials incidents, and fire and life safety education to the public.

Support Services Division

This division ensures the operational readiness of emergency response personnel, apparatus, and equipment. This Division provides human resources functions, maintains apparatus and equipment, provides basic and advanced fire and medical training, oversees required certifications, and provides public information related to fires and other incidents. Community and Public Health is managed in Support Services. The Division also maintains facilities and manages the construction of capital projects. Beginning in 2014 with the start of the City’s new ambulance contract with American Medical Response (AMR), the Support Services Division took over the responsibility of working with the City’s medical director, under whom the CSFD’s paramedics are certified to provide medical care, as well as quality assurance/quality improvement duties related to the contract.

Finance, Planning and Analysis Division

This division develops and monitors the budget, coordinates purchasing, assists with grant applications, ensures compliance with grant requirements, provides data analysis, engages in analysis of operational activities and proposals, and provides strategic planning. This office coordinates all the information technology needs for the department and works with the City IT to implement any necessary upgrades, modifications, and changes.

Division of the Fire Marshal

This division has a broad mission to promote a safer community through hazard mitigation, fire code development and enforcement, fire investigation, community education and injury prevention, enforcement of hazardous materials regulations, and the management of fire risk, especially in the wildland/urban interface (WUI). This division engages in fire safety code compliance inspections, issuance of permits for hazardous materials, the development of evacuation and preparedness plans for businesses, safety educational programs for citizens, fire investigations, and residential evaluations and mitigation of the WUI. Starting in 2015, the CSPD has taken over all arson investigations.

The Fire Department's direct public service functions are the following (both General Fund and PSST support shown) (these amounts do not include Grants Fund or CIP amounts):

Fire Functions	2013 Actual	2014 Actual	2015 Original Budget	2016 Budget
Fire Prevention	\$1,924,000	\$2,140,631	\$2,435,869	\$2,579,986
Public Education	275,126	264,943	332,754	337,306
Fire Suppression	43,552,539	45,507,986	48,132,630	49,372,879
Hazardous Material	1,614,174	1,684,533	1,790,029	1,785,779
Medical Division	1,753,232	1,614,339	1,679,416	1,668,386
Community Health	0	343,116	405,371	548,412
Direct Public Services Functions	\$49,119,071	\$51,555,548	\$54,776,069	\$56,292,748
All other support/management functions	5,230,784	6,395,894	5,812,499	6,049,415
All Fire Functions	\$54,349,855	\$57,951,442	\$60,588,568	\$62,342,163

The sections below provide a summary of the Budget, authorized positions, changes that occurred after the budget was implemented for 2015, and changes occurring as part of the 2016 Budget for each fund including General Fund, PSST, Grants, and CIP.

Office of Emergency Management

Bret Waters, Director of Emergency Management | (719) 385-5957 | bwaters@springsgov.com

2016 Goals

Goal	Measurable Outcome
Increase the City departments' level of emergency preparedness to ensure the safety of the community during natural and human-caused disasters	Conduct four (4) exercises for City staff per year.
Enhance disaster recovery by building strong, cooperative partnerships with City, County, State, and Federal government partners, and community organizations.	Conduct twelve (12) stakeholder meetings per year to coordinate efforts and maintain partnerships.
Build community resiliency through direct interaction with members of our community.	Conduct six (6) interactive community preparedness events.

	Total	6.50	7.50	7.50	7.50	0.00

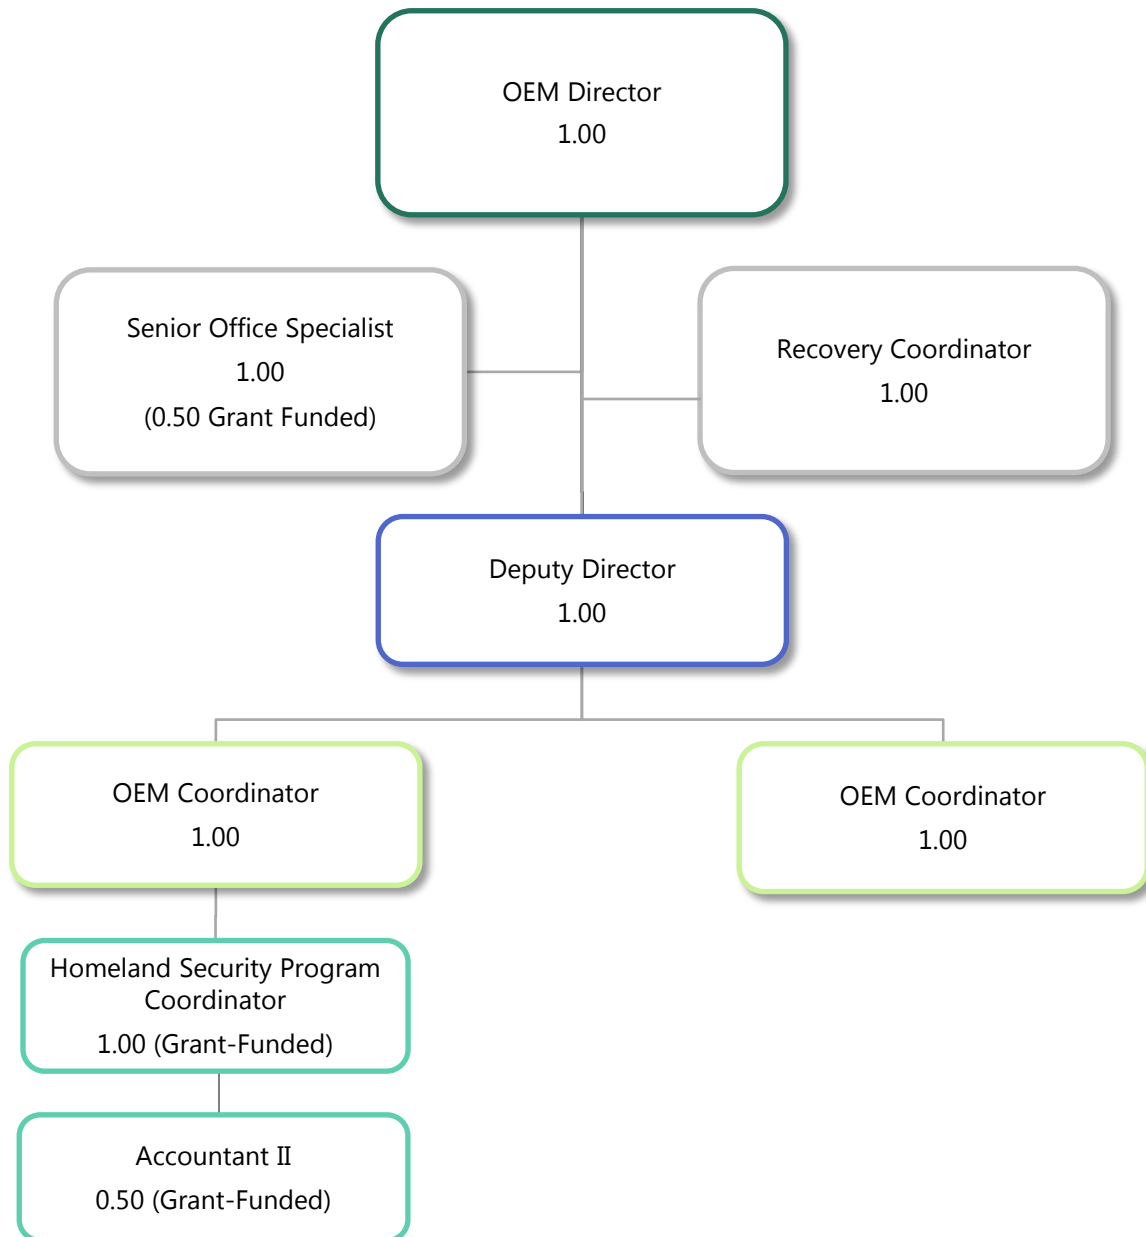

* 2015 Amended Budget as of 8/31/2015

Significant Changes vs. 2015

- Net increase of \$14.2 million in the Grants Fund, mainly due to the expected FEMA DR-4229 disaster grant funds for the May-July 2015 storms. While these projects will be managed by a number of departments, they are disaster related so the grant funding will be booked to the Office of Emergency Management.

Office of Emergency Management

With the devastating fires and floods in recent years, Emergency Management has become increasingly critical to the safety of our citizens. The mission of the Office of Emergency Management (OEM) is to provide mitigation, preparedness, response, recovery, and coordination for large-scale emergencies and disasters, both natural and human-caused, to the citizens of Colorado Springs for the purpose of saving lives and preventing property damage. The OEM develops and maintains crucial relationships with other governmental, non-governmental entities, and the private sector to coordinate regional preparedness activities. The OEM provides leadership and coordination to public and private entities and the general public during large multi-agency planned events, human-caused or natural hazard events, emergencies, and disasters. Staff maintains the City's Emergency Operations Center in a state of readiness.

The following sections provide a summary of the Budget, authorized positions, changes that occurred after the budget was implemented for 2015, and changes occurring as part of the 2016 Budget for each fund including General Fund and Grants Fund.

2016 Goals

Goal	Measurable Outcome
Expand existing City IT Cyber Security using risk-based cyber frameworks to further harden the City network and data against cyber-attacks and/or breaches.	Address escalating cyber security risks by enhancing existing security practices, as measured against NIST standards, to safeguard sensitive data.
Implement off-site storage of City data and develop a Disaster Recovery (DR) plan so that City IT services can be restored if the City Data Center is destroyed.	Off-site storage implemented and DR plan created.
Implement a tech refresh program for radios and towers so that equipment is available and meets business needs while expenses are budgeted and controlled.	Approval of a CIP request for a 4-year tech refresh program for 2017-2020.
Define the framework and a set of Document Management solutions to improve efficiencies and drive down costs.	Solution Design Package completed.
Expand existing City IT Cyber Security using risk-based cyber frameworks to further harden the City network and data against cyber-attacks and/or breaches.	Address escalating cyber security risks by enhancing existing security practices, as measured against NIST standards, to safeguard sensitive data.

Total	52.00	57.00	58.00	60.00	2.00	

* 2015 Amended Budget as of 8/31/2015

Significant Changes vs. 2016

- Decrease of \$1.6 million to remove one-time projects in 2015; Increase of \$1.4 million to convert 2.00 contractors to full-time employees and to fund major projects, including network, data center, security phase II projects, service management, fiber mitigation and additional software maintenance costs
- Increase of \$390,000 to fund salary and benefit changes for current personnel
- Decrease in Radio Fund due to changes in salary and benefit costs for current personnel
- Increase in CIP-General Fund to fund the disaster recovery project

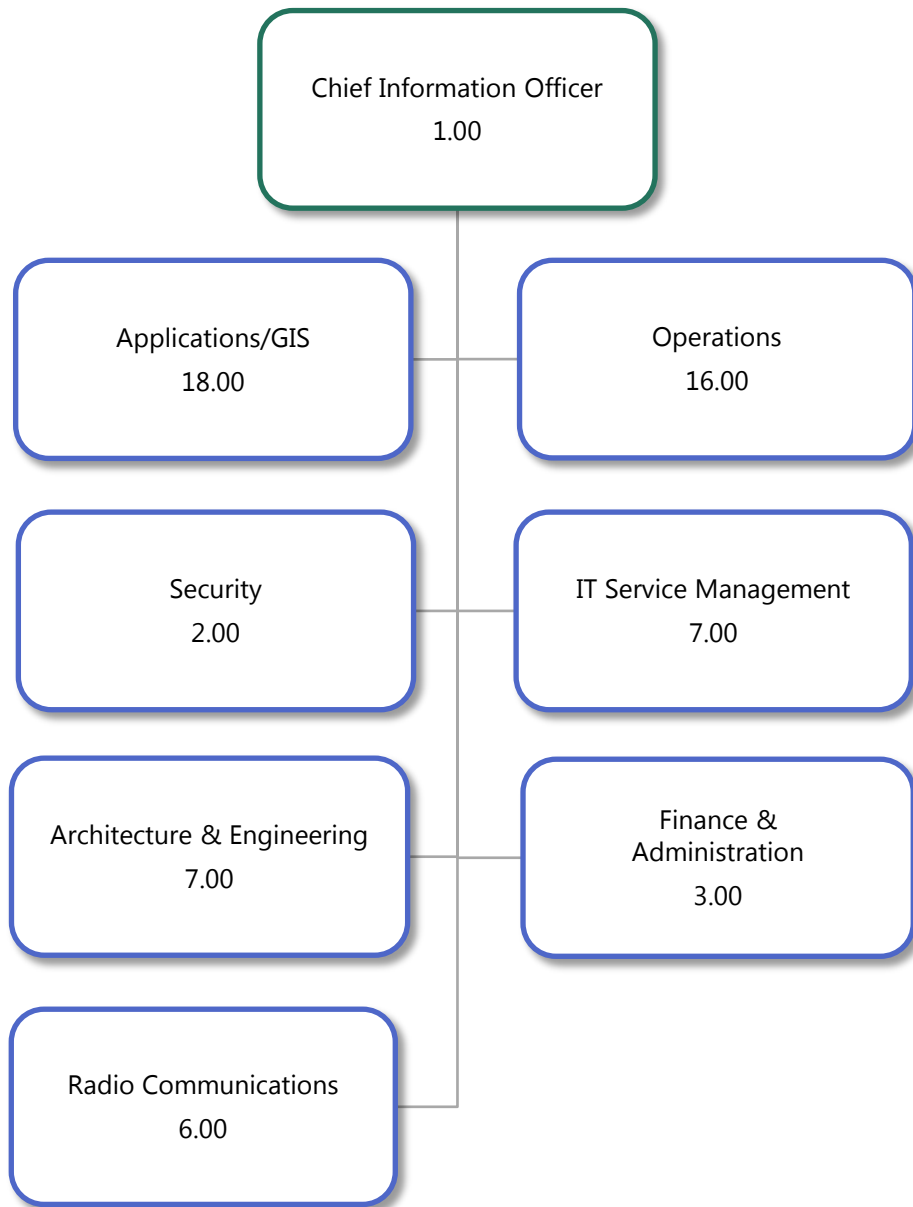

Information Technology

The mission of City Information Technology (IT) is to provide information, technology, and communication services to the City of Colorado Springs and its citizens so they can accomplish their objectives. We provide a comprehensive portfolio of services across the City, including:

- Enterprise business systems, including enterprise resource planning, customer relationship management, website, intranet, performance management, recruitment, and electronic payments
- Line of business applications, including public safety applications, records management, fire management, computer-aided dispatch, automatic vehicle locating, personnel management, sex offender tracking, license plate readers, electronic ticketing, transit management, work order and asset management systems, permitting, plan review, justice information systems, geospatial information systems, legislative management, campaign finance tracking, and sales tax collection system
- Communication and collaboration systems, including email, calendar, group collaboration, audio and video-conferencing, local and wide-area network, voice-over-internet-protocol telephony, and mobility solutions
- Hosting and infrastructure, including data center, virtualization, storage management, co-location, streaming video, web-content filtering, SPAM filtering, backup and restoration
- Service desk and desktop support
- Public safety radio network, including network design, installation, and maintenance, provisioning and management

City IT will contribute directly to the attainment of the City's strategic goals through:

- Planning and Alignment – we will increase the business return on technology investments by creating and managing a road map of technology change
- Strategic Sourcing – we will establish and implement a strategic technology sourcing strategy
- Process Rigor – we will ensure a great customer experience by designing, implementing, managing, and continually improving our processes
- Information Security – we will enhance our Information Security Program to protect the organization against escalating risks and maintain its ability to perform its mission
- Transform Data into Information – we will understand and manage our data, transforming it into business critical information and analytics necessary to inform our strategies and operations
- Automate and Orchestrate Business Processes – we will employ targeted technologies designed to automate repetitive processes and ensure efficient, effective, and compliant workflows
- Citizen Engagement – we will support a comprehensive citizen engagement program designed to empower and engage our citizens in easy and convenient ways

The sections below provide a summary of the Budget, authorized positions, changes that occurred after the budget was implemented for 2015, and changes occurring as part of the 2016 Budget for each fund including the General Fund, Radio Fund, and Cable Franchise Fund.

Mayor's Office

John Suthers, Mayor | (719) 385-5900 | jsuthers@springsgov.com

2016 Goals

Lead Implementation of the Strategic Plan

Lead the City's implementation of the 2016-2020 Strategic Plan through expanding partnerships within the community, engaging key stakeholders, garnering citizen input, while supporting departments' strategies to improve upon the City of Colorado Springs' high quality of life.

All Funds Summary

	Use of Funds	2014	2015	* 2015	2016	2016 Budget - * 2015 Amended Budget
		Actual	Original Budget	Amended Budget		
<i>All Funds</i>	General Fund	\$612,814	\$645,975	\$645,975	\$689,216	\$43,241
	Grants Fund	0	0	0	102,660	102,660
	Total	\$612,814	\$645,975	\$645,975	\$791,876	\$145,901
	Positions

	Total	5.00	5.00	6.00	6.00	0.00

* 2015 Amended Budget as of 8/31/2015

Significant Changes vs. 2015

- Increase of nearly \$103,000 in the Grants Fund for addition of 1.00 FTE for Citizen Engagement position during 2015

Mayor

The Mayor is the Chief Executive Officer of the City and leads the Executive Branch. The City is provided all executive and administrative powers of home-rule status cities granted by the Article XX of the Constitution of the State of Colorado. The City Charter provides the Mayor control and authority over all operational and administrative functions of the City. As the Chief Executive, the Mayor enforces all laws and ordinances, manages the Executive Branch of the Colorado Springs municipal government, and oversees implementation of the Mayor’s vision, mission, goals, and strategic plan.

The Mayor serves as an ex officio and non-voting member of the Board of Directors of the Colorado Springs Utilities.

The Office of the Mayor collaborates with and provides assistance to citizens, elected officials, and municipal government operating departments. The Mayor may take command of the police and govern the City by proclamation in times of public danger or emergency.

* The OEM Director also serves as the Deputy Chief of Staff position; therefore, this position is not counted in the Position Totals or the funding tables for this narrative.

The sections below provide a summary of the Budget, authorized positions, changes that occurred after the budget was implemented for 2015, and changes occurring as part of the 2016 General Fund Budget.

Communications

Jamie Fabos, Chief Communications Officer | (719) 385-5246 | jfabos@springsgov.com

2016 Goals

Goal	Measurable Outcome
Work with City staff and departments on key message development to communicate more effectively with the public.	Conduct formal media training for primary spokespersons and 50% of City Depts. will have developed overarching key messages for their department.
Improved ease of access to information on City events, services and news via electronic media.	Post weekly Facebook story highlighting a City project or department news item and continue to utilize tools to enhance website access to City reports, maps and information of value to the general public.
ADA - Improve access to city information to all people regardless of physical ability.	Provide ADA accommodations as appropriate for public meetings and public safety video programming.

None

Communications

The City of Colorado Springs Communications Division is responsible for communication coordination between the citizens and City employees as well as the media. Specific activities include:

- Development and delivery of public information including Colorado Open Records Act (CORA) requests
- Web content and Springs TV programming
- Educational and informational programming targeted to public interest including budget management, crisis communications, Internet content development and the Mayor's Office
- Responding to citizen inquiries and handling the citizen request system

The Division strives to encourage citizen understanding and involvement through public education and the communication of the Mayor's goals and initiatives.

The sections below provide a summary of the Budget, authorized positions, changes that occurred after the budget was implemented for 2015, and changes occurring as part of the 2016 Budget for each fund including General Fund and Cable Franchise Fund.

2016 Goals

Goal	Measurable Outcome
Implement annual updates to the City's pay for performance program that is aligned with the City's compensation philosophy and rewards employee's contributions to business goals and needs.	Merit Pay and Salary Schedule changes recommended and implemented effective March 2016 based on the 2015 Salary Survey results.
Implement annual updates to the City's healthcare plan that are fiscally sound, market based, conform to current legislation, and provide robust options.	Healthcare plan updates in place for open enrollment effective October 2016.
Provide students in our community a learning opportunity by offering internships at the City of Colorado Springs.	10 paid internships per semester (20 during the year).
Improve workforce diversity by actively recruiting and facilitating outreach to military veterans, women, minorities and young professionals.	Increase outreach efforts by 3% to recruit young professionals, military veterans, women and minorities; increase ethnic diversity of City's applicant pool by 5%.

* 2015 Amended Budget as of 8/31/2015

Significant Changes vs. 2015

- Moved software maintenance to IT
- Increased allowance for work force development and training
- Modified the budget practice for the Employee Benefits Self-Ins. Fund to better reflect expected claims costs and a more modest contingency. Prior practice was to appropriate an amount in Operating that included both expected claim costs and a large contingency.

Human Resources

Employment Services - General Fund

The Employment Services Division provides services to the entire organization including candidate selection, employee training, and professional development. The Employment Services Division oversees a variety of functions including: employment law and regulations compliance enforcement; position classification and compensation; employee relations assistance; coordination of performance evaluations; employee training; course offerings; the disciplinary process; and maintenance of employee files. Funding for the Employment Division is provided by the General Fund. City enterprises and Support Service Funds that receive services pay an allocated charge for services.

Benefits and Wellness – Employee Benefits Self-Insurance Fund

The Benefits and Wellness section designs and administers employee benefit plans and promotes health and wellness. The Benefits and Wellness section strives to design a healthcare plan that offers comprehensive benefits in a cost effective manner which incorporates wellness, prevention and health management programs for active employees, retirees, and their dependents to improve and maintain healthy lifestyle habits that help control costs. The Benefits and Wellness section provides managed healthcare using a self-insured medical and dental plan along with insurance benefits for vision, life, accidental death, voluntary term life, long-term care, short and long-term disability, and flexible spending accounts. Funding for the Benefits and Wellness program is provided through health plan monthly premiums which are shared between the employee and employer.

City Employee Medical Clinic & Pharmacy – Employee Benefits Self-Insurance Fund

In 2009, Risk Management opened an employee medical clinic located in the City Administration Building. The City Employee Medical Clinic is available to all City and Colorado Springs Utilities employees and their families who are on the medical insurance plan. In November 2010, the clinic changed vendors for outside clinical laboratory services to Quest Diagnostics providing significant cost savings estimated at over \$116,000 a year to the plan with additional savings to the employee. Funding for the City Employee Medical Clinic and Pharmacy is provided through health plan enrollee monthly premiums which are shared between the employee and employer, through co-payments by clinic and pharmacy users.

The sections below provide a summary of the Budget, authorized positions, changes that occurred after the budget was implemented for 2014, and changes occurring as part of the 2015 Budget for each fund including General Fund, PSST, and Employee Benefits Self-Insurance Fund.

Risk Management

Victoria McColm, Risk Manager | (719) 385-5669 | vmccolm@springsgov.com

2016 Goals

Goal	Measurable Outcome
Review the City's property and casualty insurance coverage across all business lines and departments, to ensure an appropriate balance of policy costs and covered risks	Achieve a balance between insurance costs and coverage to minimize the impact of unpredictable, large losses
Provide Safety training to targeted employee groups to positively impact work related injuries and liability claims	Reduce work related injuries by 3%; Reduce liability claims by 5%
Develop a culture of safety throughout the organization	<p>End of Q1: Senior management support and documented, accountability systems developed to be customized by each department</p> <p>End of Q2: All departments have been contacted and accountability system finalized by each department</p> <p>End of Q3: Develop policies of recognition and reward employees for doing the right things</p> <p>End of Q4: Evaluate measures that have been implemented and rebuild as needed to ensure system is timely, complete, and effective.</p>

* 2015 Amended Budget as of 8/31/2015

Significant Changes vs. 2015

- Increase for mosquito mitigation
- Increase for contract obligations

Risk Management

The Risk Management Division serves the entire organization by ensuring compliance with statutory mandates and protecting the City's assets. The Risk Management Division assesses risk to control liability and loss exposures; processes and manages employee injury claims; manages the occupational health clinic, physical therapy clinic, employee medical clinic, promotes health and wellness; and emphasizes employee safety. Funding for specific Risk Management activities is provided by the General Fund, Claims Reserve Fund, and Workers' Compensation Fund. City enterprises and Support Service Funds pay an allocated charge for services and/or are directly billed for services.

Safety

The Safety section ensures that employees have the knowledge and skills to safely perform job duties and administers a cost-effective program designed for safety awareness, employee feedback, guidance in training, and prevention of employee injuries. The highest practical degree of care will be used in complying with safety and health standards. Funding for the Safety program is provided by the General Fund. City enterprises and Support Service Funds that receive services pay an allocated charge for Safety services.

Liability Claims Administration – Claims Reserve Fund

The Liability Claims section investigates, evaluates, and settles all liability claims brought under state and federal laws for both the City and Colorado Springs Utilities. The claims adjusters investigate the legal liability associated with the claims, negotiate settlement, and defend claims that lack merit. By placing a high priority on handling claims efficiently, this section is able to provide a cost-effective service that is competitive with external public liability claims service providers. City enterprises and Support Service Funds that receive services pay an allocated charge for liability claims services.

Workers' Compensation Claims Administration – Workers' Compensation Fund

The Workers' Compensation section manages and controls workers' compensation claims and strives to help employees recover from work-related injuries and return to work as soon as possible. The adjusters are able to provide prompt and fair resolution of claims. All direct costs associated with administering claims, medical, indemnity, physical therapy, and occupational therapy are budgeted in this fund.

According to City Code §1.5.602, "the workers' compensation claim reserve fund shall maintain reserves to provide for contingency so that in any year the contribution of the workers' compensation claim reserve funds from other funds is adequate to cover the actual expenses in that year." Funding for the Workers' Compensation Fund is provided through payroll charges based upon job classification codes set by the National Council on Compensation Insurance, Inc. (NCCI), with a greater amount charged for positions with greater risk of injury. These rates are set so as to contribute to the fund from all funding sources an amount projected to be adequate to cover the actual expenses of that year. City enterprises and Support Service Funds that receive services pay an allocated charge for indirect costs allocated to the Workers' Compensation Fund.

Injury leave pay is not budgeted in the Workers' Compensation Fund - all pay is budgeted in department and division budgets. Injury pay is charged to department and division budgets during the year and at the end of the year, those expenses will be transferred to the Workers' Compensation Fund to reflect all costs associated with Workers' Compensation related injuries.

Physical Therapy Clinic – Workers’ Compensation Fund

The Physical Therapy Clinic falls under the Workers’ Compensation section. The Physical Therapy Clinic provides services to both City and Colorado Springs Utilities employees with work related injuries. The Physical Therapy Clinic has two therapists with multiple certifications including manual physical therapy, dry needling, massage therapy and functional movement screening. This clinic is located in the City Administration Building which makes it convenient for most City and Utilities employees. By comparing the services with the Colorado fee schedule, a cost savings of \$181,048.26 was realized in 2014 to the Workers’ Compensation Fund. City enterprises and Support Service Funds that use Physical Therapy Clinic services for Workers’ Compensation related injuries pay an allocated charge for those services.

Occupational Health Clinic – Workers’ Compensation Fund

The clinic’s primary function is to provide services at the clinic for work related injuries and is funded by the Workers’ Compensation Fund. This function provides over \$125,000 in annual cost savings to the fund when comparing the services provided with the Colorado Workers’ Compensation fee schedule. City enterprises and Support Service Funds that use Occupational Health Clinic services for Workers’ Compensation related injuries pay an allocated charge for those services.

Occupational Health Clinic – General Fund

The City owns and operates an Occupational Health Clinic. In addition to the primary service, the Clinic performs ergonomic assessments, annual physicals, CDL physicals, VNI entry and exit physicals, pre-employment physicals for sworn employees, and hearing tests for employees who work in areas with noise pollution. The Clinic began doing all pre-employment drug screenings in the fall of 2010. Located in the City Administration Building, the clinic is convenient for the majority of City employees. City enterprises and Support Service Funds that use these types of Occupational Health Clinic services pay an allocated charge for Occupational Health Clinic services. All users, regardless of funding source, are direct billed for consumables such as drug tests.

The sections below provide a summary of the Budget, authorized positions, changes that occurred after the budget was implemented for 2015, and changes occurring as part of the 2016 Budget for each fund including General Fund, Claims Reserve Fund, and Workers' Compensation Fund.

Cultural Services

Matt Mayberry, Manager | (719) 385-5636 | mmayberry@springsgov.com

2016 Goals

Goal	Measurable Outcome
Continue with fundraising and sustainability efforts at each of the Cultural Services sites to supplement the City's General Fund appropriation and maintain current program levels.	Revenue contribution of approximately \$400,000 in donated and earned income
Implement the Museum's strategic planning initiatives, including taking action on staffing plan and completing exhibit and program activities related to the "Story of Us" project.	Implement the "Year 3" strategic planning initiatives, complete exhibit by Q4, work with museum board to implement first phase of staffing plan.
Complete the exterior restoration project on the 1903 El Paso County Courthouse by implementing phase V construction and initiate prioritization of the next steps in interior rehabilitation activities.	Complete project by Q4.
Complete a strategic planning effort for Rock Ledge Ranch Historic Site.	Complete the strategic planning process by Q4.

* 2015 Amended Budget as of 8/31/2015

Significant Changes vs. 2015

- Increase in General Fund of \$95,696 to fund Garden of the Gods programming and additional seasoning staff at cultural sites
- Decrease in CIP to remove one-time 2015 projects

Cultural Services

Cultural Services is responsible for developing and implementing programs that preserve and interpret the cultural and natural history of the Pikes Peak Region. Over 284,000 people visit Cultural Services sites and participate in their numerous programs each year. These programs are a key element of the City's tourism economy.

In addition to the annual City appropriation, the Division relies upon support from Friends organizations, donations, earned income, and grants in order to operate the facilities. Over 630 volunteers provide more than 35,700 hours annually to support mission-essential activities.

Cultural Services:

- Maintains a collection of 90 pieces of City-owned outdoor art, including the 1929 William Jackson Palmer sculpture and recent donations from the popular Art on the Streets program
- Manages the Colorado Springs Pioneers Museum (CSPM) with a collection of over 75,000 artifacts, 80,000 historic photographs, and 6,100-cubic-feet of archival materials. The CSPM has incorporated a new non-profit organization called the "Colorado Springs Pioneers Museum" which will ultimately serve as the governing board of the organization.
- Coordinates the Rock Ledge Range Historic Site – a living history museum exhibiting historical life in the Pikes Peak region from the American Indian time to the early 1900s
- Manages the visitor services and park safety patrol activities at the Starsmore Discovery Center and Helen Hunt Falls Visitor Center in North Cheyenne Cañon Park.
- Oversees the interpretive programs and staffing at the Garden of the Gods Visitor and Nature Center, as well as the Park Safety Patrol in Garden of the Gods Park.

Cultural Services manages the operations of the following (only General Fund support shown):

Cultural Services Functions	2013 Actual	2014 Actual	2015 Original Budget	2016 Budget
Rock Ledge Ranch	\$234,025	\$250,671	\$250,452	\$255,127

Forestry

Jay Hein, City Forester | (719) 385-6548 | jhein@springsgov.com

2016 Goals

Goal	Measurable Outcome
Expand sustainable urban forest management practices that mitigate risk, and enhance public safety, stormwater retention, and property value through Forestry crews and contracted services.	Identify a location for and complete limited area preventative pruning of at least 2,000 trees, respond to citizen and other department concerns within 5 business days, maintain Tree City USA Status.
Expand maintenance services to native rights-of-way, medians and Gateway Gems by contracting mowing services and redefining existing staff roles to increase efficiencies.	Expand upon rights-of-way and median mowing contract. Mow each primary right-of-way at least 5 times throughout the year.
Continue forest restoration practices in the Wildland Urban Interface that increase forest health and reduce the threat of catastrophic wildfire.	Complete forest restoration projects on City parks and open spaces. Increase forest health and aesthetics along our City trail corridors. Complete 50 acres of forest restoration and an additional 3 miles of trail corridors.

All Funds Summary

All Funds	Use of Funds	2014 Actual	2015 Original Budget	* 2015 Amended Budget	2016 Budget	2016 Budget - * 2015 Amended Budget

* 2015 Amended Budget as of 8/31/2015

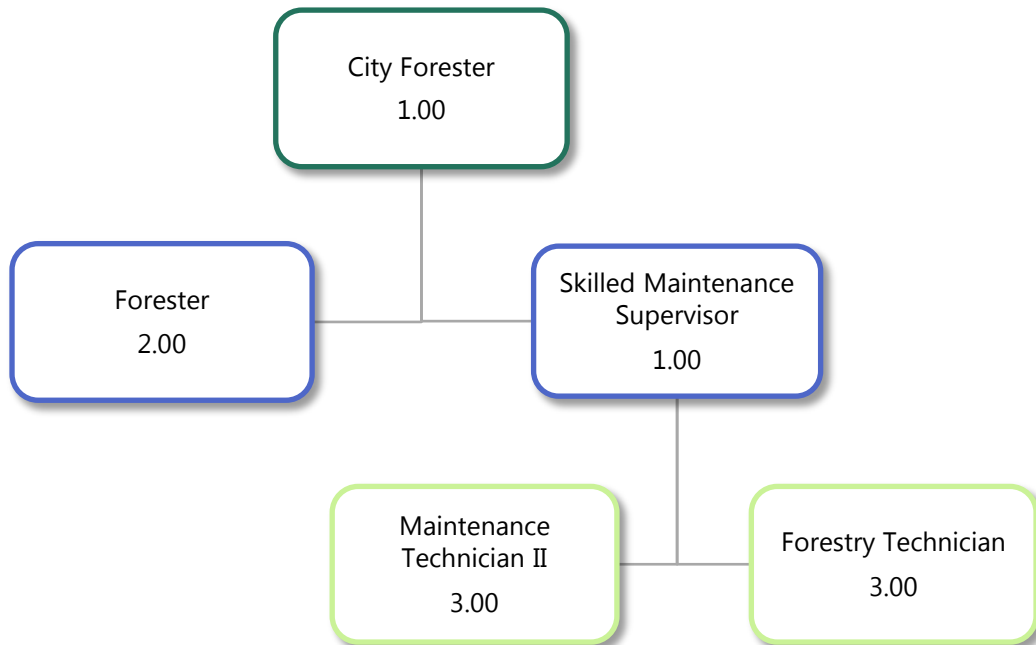

Significant Changes vs. 2015

- Increase of \$180,245 to fund spraying for Tussock Moths
- Increase of \$150,000 to fund rights-of-way mowing contract

Forestry

Forestry is responsible for the overall management of the urban forest and the native forest of the wildland/urban interface. Staff manages and maintains trees on the street rights-of-way and medians, urban parks, trail corridors, open spaces, and regional parks. The Forestry Division:

- Conducts tree maintenance, such as pruning to maintain and enhance the health, vigor and aesthetic value of each individual tree
- Removes diseased, dead and dying trees for the safety and health of the urban forest
- Provides for and enhances public safety by clearing traffic and school zone signs and visibility obstructions and by responding to tree-related emergencies from automobile accidents to weather-related tree failures
- Mows City rights-of-way and native medians

The sections below provide a summary of the Budget, authorized positions, changes that occurred after the budget was implemented for 2015, and changes occurring as part of the 2016 Budget for each fund including the General Fund.

Park Operations and Development

Kurt Schroeder, Manager | (719) 385-6555 | kschroeder@springsgov.com

2016 Goals

Goal	Measurable Outcome
Continue expanded use of technologies through installing smart controllers with flow meters to enhance the efficient delivery and use of irrigation on park properties.	Replace twenty standard irrigation clocks with smart controllers by 3rd Quarter.
Identify and implement options for parkway strip surface treatments to eliminate the need for irrigation.	Identify and modify 15 parkway areas by 4th Quarter.
Work cooperatively with other City departments and private entities to enhance maintenance along the Pikes Peak Greenway corridor.	Identify and work on opportunities that will achieve a heightened level of maintenance services. Increase regular trash pickup to three times weekly with additional efforts implemented prior to special events.
Lead a stakeholder process to develop recommendations to update and revise the Parkland Dedication Ordinance.	Prepare recommended ordinance changes by end of 4th Quarter.

All Funds Summary

Total	\$25,644,905	\$31,380,021	\$31,324,536	\$23,045,182	(\$8,279,354)
Positions					
General Fund	17.50	20.00	19.50	19.50	0.00
Other Funds	51.50	57.00	57.50	59.50	2.00
Total	69.00	77.00	77.00	79.00	2.00

* 2015 Amended Budget as of 8/31/2015

Significant Changes vs. 2015

- Increase in General Fund for parks watering and contracted mowing
- Decrease in CTF expenses due to a decrease in projected revenue
- Decrease in TOPS due to removal of one-time projects and increase for stewardship funding

Park Operations and Development

Park Operations and Development provides maintenance and resource management services at City parks, trails and open spaces that enhance the beauty of the community, safeguard the public investment in built facilities and natural areas, and ensure residents and visitors have safe places for leisure and recreation.

Maintenance and construction crews:

- Direct volunteer projects
- Coordinate and manage turf cultural programs
- Monitor, repair and renovate irrigation systems
- Implement and manage the Springs in Bloom program
- Build, renovate and maintain buildings, athletic fields, playground structures, walkways, curbing, parking lots, and fences
- Inspect trails surfacing and trail bridge systems for hazards and make necessary repairs
- Manage open space areas, including mitigating noxious weeds, building and maintaining natural surface trails, removing and restoring rogue trails, and restoring wildlife habitat
- Manage seven (7) Special Improvement Maintenance Districts (SIMDs) that maintain select medians and rights-of-way with each SIMD having its own City Council-appointed advisory board

Park Operations and Development also provides planning and construction management services for parks, trails, and open spaces funded by a number of sources including the Trails, Open Space and Parks (TOPS) Program, Conservation Trust Fund (CTF), Park Land Dedication Ordinance (PLDO), and Pikes Peak Regional Transportation Authority (PPRTA). Parks Operations and Development personnel:

- Design and build neighborhood parks, community parks, and sports complexes, including recreation facilities such as spraygrounds, playgrounds, skate parks, pavilions, and ball fields
- Provide complete cost-efficient construction drawings and specifications
- Provide support for development of trails in accordance with the Multi-Use Trails Master Plan
- Ensure that new and renovated park development projects are completed in a safe and financially responsible manner according to current construction standards
- Review incoming open space applications and determine which properties will present the best overall value to the citizens of Colorado Springs. Subsequently continue to work with the citizens of Colorado Springs to develop usable and meaningful master and management plans.

The sections below provide a summary of the Budget, authorized positions, changes that occurred after the budget was implemented for 2015, and changes occurring as part of the 2016 Budget for each fund.

Recreation and Administration

Kim King, Manager | (719) 385-6509 | kking@springsgov.com

2016 Goals

Goal	Measurable Outcome
Continue to enhance volunteerism within the Parks, Recreation and Cultural Services Department.	Increase the Department's total volunteer hours by at least 10% over the prior year.
Continue to support the City of Colorado Springs' HEAL (Healthy Eating, Active Living) designation through Parks Department programming and policies.	Demonstrate that 20% or more of the action items on the HEAL Cities and Towns Policy Menu have been supported through Parks Department efforts.
Develop a comprehensive 2017 Parks annual marketing plan that increases communication to citizens and visitors on the variety of Park's amenities, highlighting historical significances.	Complete the Marketing Plan for 2017 by the end of the 3rd Quarter.

All Funds Summary

	Use of Funds	2014	2015	* 2015	2016	2016 Budget - *2015 Amended Budget
		Actual	Original Budget	Amended Budget		
<i>All Funds</i>	General Fund	\$5,353,839	\$6,086,280	\$6,110,280	\$6,079,078	(\$31,202)
	CIP - General Fund	0	300,000	300,000	0	(300,000)
	Grants Fund	257,443	1,000,000	1,000,000	166,000	(834,000)

	Other Funds	1.50	0.50	0.50	0.50	0.00
	Total	26.75	32.75	32.75	32.75	0.00

* 2015 Amended Budget as of 8/31/2015

Significant Changes vs. 2015

- Increase in General Fund of \$25,000 to fund program support for the Westside Community Center
- Decrease in CIP – General Fund to remove one-time 2015 projects
- Decrease in Grants Fund of \$834,000, due to change in accounting for operating grants
- Decrease in CIP – CTF to remove one-time 2015 project

Recreation and Administration

The Recreation and Administration Division provides a myriad of recreational programs, human services and special events to citizens and visitors alike. The Division is responsible for the Sertich Ice Center and all ice-related programs; the Historic City Auditorium; Deerfield Hills, Hillside, Meadows Park, and Westside (Contracted) Community Centers; adult and youth sports programs; and the therapeutic recreation program.

The Administration portion of the division provides centralized support to the various operating divisions as well as manages multiple internal and external programs. General services include accounts payable, clerical support, and personnel staffing in coordination with the Human Resources Department. Administration is also the primary interface between the public and the Department. Staff processes reservations for the Department's rental facilities, coordinates close to 300 special events, recruits and manages nearly 2,500 volunteers, and responds to thousands of citizen inquiries about programs and facilities. Administration also cultivates public/private partnerships that allow the City to strengthen and expand programs, acquire natural areas, and build facilities.

The Division manages the operations of the following (General Fund support shown only):

	2013 Actual	2014 Actual	2015 Original Budget	2016 Budget
Recreation Program Budgets				
Deerfield Community Center	\$298,490	\$317,074	\$333,177	\$329,843
Westside Community Center	75,000	75,000	75,000	100,000

Code Enforcement

Vacant, Code Enforcement Manager

2016 Goals

Goal	Measurable Outcome
Provide excellent customer service in response to citizen calls for service related to code enforcement violations.	Reduce the number of reinspections by 5%; provide presentations to homeowner associations and neighborhood watch groups.

Total	0.00	0.00	0.00	17.00	17.00	

* 2015 Amended Budget as of 8/31/2015

Significant Changes vs. 2015

- Transfer Code Enforcement function - 15.00 FTE (12.00 FTE General Fund, 3.00 FTE Grants Fund – CDBG) from Police to Planning & Development Department
- Add 1.00 FTE for Code Enforcement Division Manager position
- Transfer 1.00 FTE Land Use Inspector from Land Use Review to Code Enforcement

Code Enforcement

In July 2015, the City's Code Enforcement Division transferred from the Police Department to the Planning and Development Department. The mission of Code Enforcement is to protect the health, safety, and welfare of the City residents by mitigating physical signs of urban blight. Code Enforcement investigates and enforces City Code pertaining to:

- Graffiti
- Junk
- Light Intrusion
- Litter
- Maintenance of an Adjacent Right of Way
- Minimum Housing Standard for Tenants
- Commercial and Industrial Noise
- Obstruction of Public Ways (Sidewalks & Streets)
- Oversized Vehicle Parking/Storage in Residential Zones
- Public Health and Sanitation Issues
- Temporary Signs in a City/Public Right of Way
- Unlicensed/Inoperable Vehicles on private property
- Illegal uses of property (zoning violations) and
- Weeds

* The Director position is funded as part of the Land Use Review budget. This position is not reflected in the position count in the Budget Summary on the following page.

The sections below provide a summary of the Budget, authorized positions, changes that occurred after the budget was implemented for 2015 and changes occurring as part of the 2016 Budget for each Fund including General Fund and CIP.

Land Use Review

Peter Wysocki, Director | (719) 385-5347 | pwysocki@springsgov.com

2016 Goals

Goal	Measurable Outcome
Establish improved policies and administrative procedures for on-going mapping updates and verify data layers for accuracies.	Administrative policies established and maps completely accurate.
Initiate update of the sign code.	Submit the draft amendment to the City Planning Commission.
Complete code scrubs, including any amendments recommended by the Infill and Redevelopment Chapter of the Comprehensive Plan.	Submit of draft ordinance(s) to the City Planning Commission.
Create a replicable and cost-effective template for preparing new and amended small area, corridor and/or neighborhood plans.	Complete the template and present to the City Planning Commission.
Complete North Nevada Economic Opportunity Zone Master Plan.	Present the draft plan and any implementation ordinances to the City Planning Commission.
In coordination with the IT Department and Public Works Department, select and implement an electronic, land-based project management and record management software.	Select a vendor and begin implementation.

* 2015 Amended Budget as of 8/31/2015

Significant Changes vs. 2015

- Transfer of 1.00 FTE (Land Use Inspector) to Code Enforcement
- Increase of \$250,000 for year one of a two-year Comprehensive Plan Update

Land Use Review

The Land Use Review Division:

- Provides project review and management services for development projects undergoing City administrative and quasi-judicial review to ensure compliance with the Comprehensive Plan, Zoning Code, and Subdivision regulations
- Reviews building permits for non-single family residential construction
- Maintains the records management system; oversees the revocable permit program for private uses of public right-of-way
- Works with stakeholder groups on annual review and updates of zoning and subdivision codes
- Maintains and updates the City's Comprehensive Plan and its various components including the Intermodal Transportation Plan, and Annexation Plan
- Manages and facilitates corridor and revitalization planning efforts
- Provides key support for sustainability and economic development initiatives
- Implements the City's Special District Policy
- Enforces land use regulations on private properties

The sections below provide a summary of the Budget, authorized positions, changes that occurred after the budget was implemented for 2014 and changes occurring as part of the 2015 Budget for each Fund including General Fund and CIP.

2016 Goals

Goal	Measurable Outcome
Improve department process - Implement annual business process assessment policies and procedures.	Improve time per project by 10%.
Enhance public web-based GIS map and information on city-owned properties.	Update map and information provided on City's website, and customer satisfaction.
Establish and complete records retention for the Southern Delivery System.	100% of SDS records stored and archived in Real Estate Services Office.
Assist with implementation of the North Nevada Economic Opportunity Zone recommendations.	Successful initiation of acquiring railroad right of way, assembly of lots, or identifying a new location for ComCor.

All Funds Summary

All Funds	Use of Funds	2014	2015	* 2015	2016	2016 Budget - * 2015 Amended Budget
		Actual	Original Budget	Amended Budget		
	General Fund **	\$367,480	\$337,494	\$337,494	\$308,152	(\$29,342)
	Total	\$367,480	\$337,494	\$337,494	\$308,152	(\$29,342)

	Total	5.00	4.00	4.00	4.00	0.00

* 2015 Amended Budget as of 8/31/2015

** While the entire budget is included in the General Fund, Colorado Springs Utilities funds 60% of this office

Significant Changes vs. 2015

None

Real Estate Services

Real Estate Services (RES) Division is responsible for centralizing the real estate functions of the City of Colorado Springs, Colorado Springs Utilities, and the Memorial Health System Enterprise. Services include:

- Management oversight and support services for the acquisition of land, easements, and rights-of-way; the disposal of real property interests; real property leasing services; and compliance with *The City of Colorado Springs Procedure Manual for the Acquisition and Disposition of Real Property Interests*
- Facilitating easement vacations and encroachments
- Conducting title review and document research
- Providing lease assistance
- Assisting the City and its citizens with various research requests

RES functions as the custodian of record for the City's real estate files and real estate database while protecting and conserving the City's real property assets. Although RES is now General Fund supported, the General Fund recovers over 60% of the Division's expenses from Colorado Springs Utilities.

* The Director position is funded as part of the Land Use Review budget. This position is not reflected in the position count in the Budget Summary on the following page.

The sections below provide a summary of the Budget, authorized positions, changes that occurred after the budget was implemented for 2015, and changes occurring as part of the 2016 Budget for General Fund.

Economic Development

Bob Cope, Manager | (719) 385-5561 | bcope@springsgov.com

2016 Goals

Goal	Measurable Outcome
Enhance and promote business retention and expansion through improving the business climate, performance-based incentives, issue resolution, and Rapid Response.	Increase in jobs, economic growth and municipal sales tax revenue.
Promote redevelopment of underperforming areas of the community and designated EOZ areas.	This goal will be measured in Q4 by the number of redevelopment projects and amount of private-sector investment.

Significant Changes vs. 2015

None

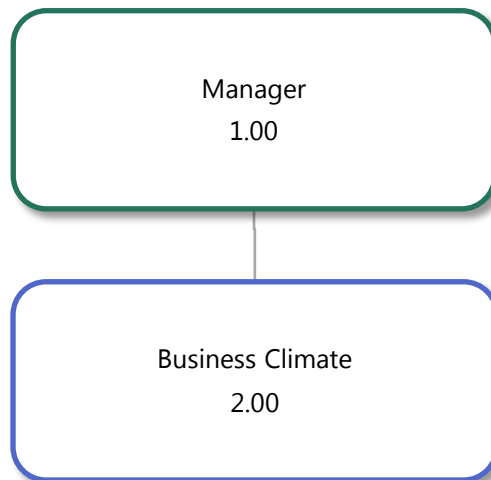

Economic Development

The Office of Economic Development (OED) is focused on cultivating a healthy and vibrant economic climate in Colorado Springs that supports business and personal prosperity. Quality of life is Colorado Springs' key competitive advantage, and OED staff works with a wide variety of community partners to eliminate barriers to business development, catalyze investments in key business corridors, grow jobs in targeted industries, provide housing options, and build successful neighborhoods and community pride.

Business Climate

The City will become the most business-friendly municipality in the United States, as measured by:

- Rapid, courteous responses to all business requests for permits and approvals
- Fair regulations and requirements
- Reasonable fees and charges associated with conducting business
- Consistent, high-quality core services with limited resources
- Competitive utility rates
- Encouragement of community building and partnerships
- Ongoing dialogue with primary employers, entrepreneurs, and business groups to continuously improve the business climate
- Recommendations from the Economic Opportunity Zone (EOZ) plans for the Southeast Colorado Springs EOZ and North Nevada EOZ implemented
- Continued collaboration with City for Champions project element sponsors

The sections below provide a summary of the Budget, authorized positions, changes that occurred after the budget was implemented for 2015, and changes occurring as part of the 2016 General Fund Budget.

Housing

Aimee Cox, Manager | (719) 385-6609 | aicox@springsgov.com

2016 Goals

Goal	Measurable Outcome
Invest resources to increase the number of affordable housing units with a focus on serving the special needs of homeless, disabled, large families, and seniors.	Increase of 75 affordable housing units.
Continue to invest resources to increase the number of emergency shelter beds in the community, especially during winter months.	Increase of 100 of emergency shelter beds.

All Funds Summary

	2014 Actual	2015 Original Budget	* 2015 Amended Budget	2016 Budget	2016 Budget - * 2015 Amended Budget	
						Use of Funds

	Grants Fund	11.00	9.00	9.00	9.00	0.00
	Total	11.00	10.00	10.00	10.00	0.00

* 2015 Amended Budget as of 8/31/2015 (General Fund). The federal program year for the CDBG, HOME and ESG grants is April 1 to March 31. The Original Budget is prepared based on estimated allocations. The Amended Budget is prepared based on actual funding allocations. As a result, the Amended Budget may reflect a significant difference from Original Budget.

Note: Beginning in 2016, Housing is no longer included in Economic Development. All historical numbers have been adjusted accordingly.

Significant Changes vs. 2015

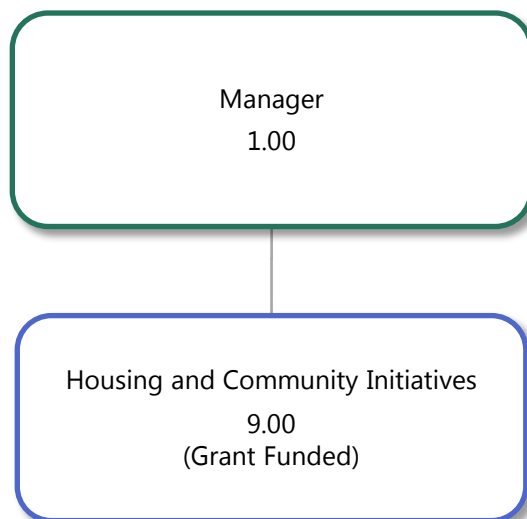

- Net increase of nearly \$4,000 in Grants Fund due to a projected increase in the Emergency Shelter Grant and projected decreases in the CDBG and HOME grants

Housing

Housing and Community Initiatives

The City will make strategic investments and develop partnerships that strengthen neighborhoods, ensure the availability of quality affordable housing, and support economic opportunity for the whole community. The City receives restricted federal entitlement grants and competitive grants which fund the following programs:

- *Housing Development and Rehabilitation.* Work with nonprofit and for-profit developers to encourage the development of affordable and workforce housing, and prevent slum and blight conditions.
- *Neighborhood Improvement.* Encourage safe and livable neighborhoods through targeted planning, services, economic development activities, and capital improvements.
- *Homeless Services.* Make ending homelessness a citywide priority through leadership, advocacy, strategic investments, and policy making.

The sections below provide a summary of the Budget, authorized positions, changes that occurred after the budget was implemented for 2015, and changes occurring as part of the 2016 Budget for each fund including General Fund, CDBG Grant Funds, HOME Grant Funds, HOPE III Grant Funds, ESG Grant Funds, and CIP.

Police

Peter Carey, Police Chief | (719) 444-7401 | careype@ci.colospgs.co.us

2016 Goals

Goal	Measurable Outcome
CSPD will build on a solid foundation of public trust and engage the community in public safety efforts.	Increase participation in Chief's community groups by 5%; increase CSPD participation in community events by 5%; increase the number of public presentations given to the community by 5%; implement results of Body Worn Camera technology pilot program.
CSPD will make a positive impact on violent crime through the use of the National Integrated Ballistics Information Network (NIBIN) by submitting 100% of all CSPD-related recovered shell casings to CBI; by coordinating with partner agencies to encourage 100% submittal of recovered shell casings to CBI; and, by coordinating investigations of all NIBIN "hits" with partner agencies and the Bureau of Alcohol, Tobacco, Firearms, and Explosives.	Track the number of submitted shell casings; the number of cases assigned for investigative follow-up; and, the number of arrests made due to associated NIBIN "hits".
CSPD will enhance customer service to citizens by improving the False Alarm Program, in conjunction with the City Clerk's Office and the City Attorney's Office.	Reduce number of false alarms by 1%.

* 2015 Amended Budget as of 8/31/2015

Significant Changes vs. 2015

- Transfer Code Enforcement funding of \$1 million and 15.00 FTE to Planning and Development
- Outsource transcription services – no funding change and decrease 2.00 FTE
- Increase \$225K for transfer of Sexual Assault Evidence Collection costs from General Costs
- Increase \$840K for Body Worn Camera Program (\$240K General Fund, \$600K Grants fund)

Police Department

The Colorado Springs Police Department (CSPD) provides police services in partnership with the community to promote the safety and welfare of our citizens. Police services span a large continuum, from answering citizens' calls for service to solving crimes and arresting criminals. Police services also include other critical components, such as tactical operations, traffic safety and enforcement, code enforcement, community and media outreach, victim services, and crime prevention.

To achieve this mission, the CSPD collaborates extensively with local, state, and federal partners from the military, multiple communities, and other public sectors. Numerous relationships are essential to gathering community input on police services and engaging the community as partners in solving issues. The Colorado Springs Police Department is comprised of three areas: The Office of the Chief of Police, the Patrol Operations Bureau, and the Operations Support Bureau.

The Office of the Chief of Police provides leadership and strategic direction for the Police Department through the development and implementation of the Department's goals, objectives, policies, and priorities for each assigned service area.

The Patrol Operations Bureau consists of the Gold Hill Division, Falcon Division, Sand Creek Division, Stetson Hills Division, and the Communications Center.

Patrol Divisions respond to citizens' calls for service, conduct criminal investigations, provide traffic enforcement/control, investigate traffic crashes, and engage in problem-solving efforts in collaboration with the community. Patrol officers are also involved in providing safety assessments and public awareness presentations. In addition, specially trained, non-sworn Community Service Officers assigned to each patrol division perform a variety of duties that have traditionally been handled by police officers. These duties include, but are not limited to, making face-to-face contact with citizens to prepare certain types of case reports; enforcing parking complaints; addressing abandoned vehicles and traffic hazards; providing traffic control at accident scenes; and, offering car seat safety checks.

The *Communications Center* is responsible for answering 911 calls as well as non-emergency requests for police, fire or medical within the City of Colorado Springs. In addition, all 911 cell phone calls in El Paso County are answered by the Center and redirected to the appropriate agency. Through the knowledge, procedures, and skills of the trained communications personnel, pre-arrival instructions are given to callers while responders are en route. The Center is committed to providing safe, efficient, and effective service delivery in emergency dispatch.

The Operations Support Bureau consists of five divisions.

The Investigations Division investigates violent crimes, including homicides, robberies, sexual assaults, felony assaults, child abuse, felony domestic violence, and felony elder abuse; provides assistance to victims of crimes; investigates financial crimes to include fraud and identity theft; investigates and combats the exploitation of children on the Internet; operates the Metro Crime Lab where DNA analyses and many other tests and evaluations of physical evidence are performed, and provides crime scene investigation.

The *Specialized Enforcement Division's* mission is to provide a tactical and/or canine response to volatile situations, security to numerous municipal facilities, selected traffic enforcement at high accident locations and school zones, investigative response to traffic fatalities, parking meter enforcement downtown and Old Colorado City, and handicap parking enforcement. The Specialized Enforcement Division also supports special events throughout the City and provides VIP security services for dignitaries visiting our community.

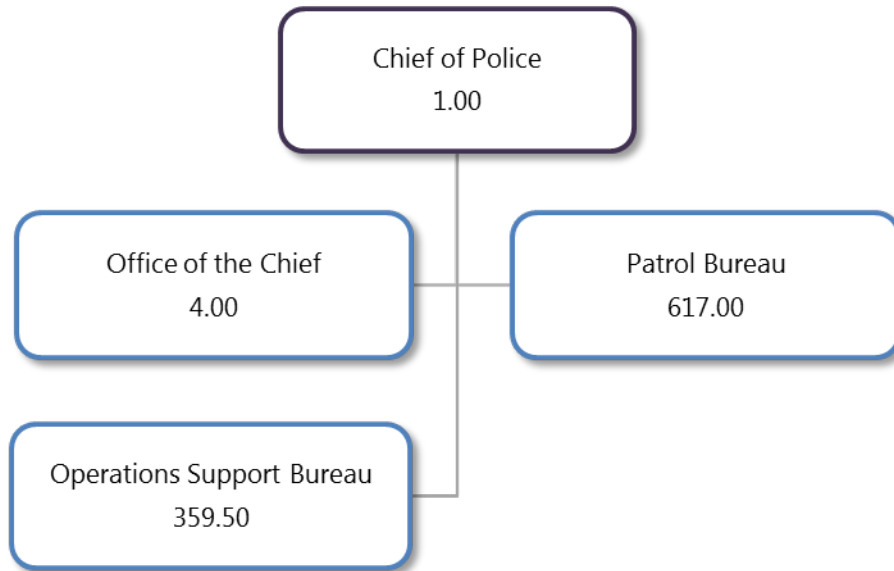

The ***Metro Vice, Narcotics and Intelligence Division (MVNI)*** works to impact the local drug and human trafficking market and its negative effects on our community; performs complex investigations of major drug organizations, money laundering, and the smuggling of drugs throughout the United States; and, acts to eliminate other vice crimes such as prostitution and gambling. The Division is also responsible for enforcement and compliance of laws and regulations affecting marijuana and liquor throughout the 4th Judicial District. MVNI is multijurisdictional, with members from the Colorado Springs, Woodland Park and Fountain Police Departments, as well as, the El Paso and Teller County Sheriff's Offices. MVNI is actively engaged with similar federal and state investigative agencies, providing for criminal information gathering and sharing, threat analysis and enforcement. In addition, MVNI oversees the Strategic Information Center (STIC), an active collaboration of Crime Analysis and Intelligence, responsible for advancing Intelligence Led Policing within CSPD. This integrated approach is designed to provide enhanced tactical, operational, and strategic intelligence to CSPD personnel and leadership targeted toward the identification and examination of specific targets, threats and problems.

The ***Professional Standards Division*** is responsible for a number of compliance functions, such as distribution of policies and procedures, accreditation, inspections and internal investigations. This Division is also responsible for the Training Academy, Planning, Grants and Research and the Department's continuous connection to the community through the Media Liaison and Community Relations Unit. Professional Standards is also responsible for the Evidence and Impound units, the department's fleet and resource allocation, and facilities maintenance.

The ***Management Services Division*** is responsible for a number of support services for general City functions, as well as, independent CSPD units. Support services include Human Resources, Fiscal Services, Records and Identification, and the Volunteer Program administration. Interface with the City's Information Technology Division and oversight of CSPD's multiple technology solutions are also responsibilities of the Management Services Division.

The Police Department's direct public service functions are the following (both General Fund and PSST support shown) (these amounts do not include Grants Fund or CIP amounts):

Police Functions	2013 Actual	2014 Actual	2015 Original Budget	2016 Budget

Use of Funds	2014 Actual	2015 Original Budget	* 2015 Amended Budget	2016 Budget	2016 Budget - * 2015 Amended Budget
General Fund	\$23,347,651	\$22,286,035	\$22,286,035	\$22,671,649	\$385,614
CIP - General Fund	14,772,201	7,739,134	11,739,134	12,647,449	908,315
Grants Fund	6,891,976	10,097,894	10,097,894	18,055,239	7,957,345
CIP - Grants Fund ¹	25,405,256	27,907,682	27,907,682	5,036,908	(22,870,774)
PPRTA - Capital	23,283,218	26,364,663	27,866,934	31,479,350	3,612,416
PPRTA - Maintenance ²	19,848,217	19,360,776	28,193,733	21,063,456	(7,130,277)
PPRTA - Transit Operating ³	10,279,631	11,377,415	12,579,536	12,746,342	166,806
Total	\$123,828,150	\$125,133,599	\$140,670,948	\$123,700,393	(\$16,970,555)
Total Positions	207.50	207.00	205.50	207.00	1.50

* 2015 Amended City Budget as of 8/31/2015. 2015 Amended PPRTA Budget for maintenance as of 7/8/2015. 2015 Amended PPRTA Transit Operating Budget as of 7/8/2015 includes additional sales tax revenue for 2014 and 2015.

¹ For 2014-2015, an exceptionally high amount of federal and state post-disaster grant funds for NRCS/EWP, HMGP, and CDBG-DR programs was available for eligible projects related to the 2013 flooding. For 2016, these disaster grant programs are not available—returning the grant funding opportunities to a more historical level.

² Following PPRTA's budgeting practices, the 2015 Amended Budget includes 2014 unspent carryover, 2014 revenue carryover, and additional 2015 revenue. The 2016 Budget (and 2015 Original Budget) do not include carryover, so the 2016 Budget is approximately \$1.7 million more than the original 2015 Original Budget.

³ PPRTA Transit Operating funds include tax and fare revenues; it does not reflect carryover for Planned Operating Reserve and grant match for obligated projects as shown in the CIP section on pg. 30-20.

City Engineering

Travis Easton, Public Works Director/City Engineer | (719) 385-5457 | teaston@springsgov.com

2016 Goals

Goal	Measurable Outcome
Ensure consistency and standardization of best practices on capital project delivery to minimize opportunity for litigation, cost overruns and delayed projects.	Provide cross-divisional support for CIP projects and disseminate the best practices developed in 2015 by City Engineering to the Transit and Traffic Divisions by Q2. Prepare project work plan manuals for the applicable staff managing projects within those two divisions and disseminate by Q3.
Increase lifespan of roadway infrastructure by minimizing advanced pavement degradation by achieving compliance with City criteria for roadway excavations.	Process geotechnical compaction tests from a two-year backlog to within one month of receipt by Q3. Using asset management audit software, track and verify street excavation warranties by Q4.
Improve the management of citywide assets.	Increase availability of management tools to Parks, Facilities, and Finance by end of Q3. Identify benefits to Streets, Engineering, Traffic, Pikes Peak Highway and Forestry and present business plan showing ROI to them by end of Q3.
Effectively handle the management of flood mitigation risks associated with the two declared Presidential Disasters (Waldo Canyon Fire and 2013 Flooding).	Coordinate with Grants Manager and OEM to apply for at least 4 applicable grants, obtaining at least 2 grants by end of Q4. Successful design and commencement of construction projects funded by the National Conservation Service (NRCS) by year end.
Improve Customer Service by collaborating with Planning, Utilities, and RBD to develop processes and procedures that focus on customer efficiencies, including improvements in records management and electronic review of plans.	Complete procedures for handling Development Review & Planning documents by Q4. Develop a plan to retrieve, review and electronically store/dispose of documents in cold storage by Q4. By Q4, 75% of all reviews will be done electronically to make submittals by applicants easier and a lot more efficient.

All Funds Total	\$40,766,868	\$31,212,935	\$34,658,134	\$34,622,722	(\$35,412)
Positions					
General Fund	43.00	43.00	43.00	41.50	(1.50)
Total	43.00	43.00	43.00	41.50	(1.50)

* 2015 Amended City Budget as of 8/31/2015. 2015 Amended PPRTA Budget for maintenance as of 7/8/2015 includes additional sales tax revenue for 2014 and 2015.

Significant Changes vs. 2015

- Net decrease of \$535,000 in operating for removal of 2015 one-time funding and reorganization with Traffic Engineering
- Decrease of nearly \$1.7 million for General Fund CIP projects and a decrease of \$1.6 million in CIP grants

City Engineering

City Engineering provides civil engineering services for the City including engineering, building and managing the City's transportation and stormwater infrastructure; coordinating with private development activities as they affect the public infrastructure; and regulating construction work in public rights-of-way. The Division's primary focus is to provide professional services and to construct and maintain quality infrastructure while providing safer, more efficient transportation systems, and environmentally sound stormwater systems. City Engineering is responsible for the following:

Capital Improvement Program (CIP), Asset Management, and Right-of-way Management

- Develops solutions to transportation and storm water drainage needs
- Delivers capital projects in the most efficient and cost effective manner possible
- Ensures that new development, new and retrofit concrete, street excavations, and capital project work in the public right-of-way is constructed to Engineering standards
- Issues permits for and inspects work performed in the City right-of-way
- Reviews traffic control plans for permitted work and capital project work to help ensure safety in the public right-of-way
- Maintains condition inventory of infrastructure assets including bridges, storm pipes and channels, roadway pavements, traffic signals, signs, pavement markings, curb and gutter, sidewalk, pedestrian ramps, trails, and more
- Analyzes and monitors the conditions, costs, and life cycle of the City's infrastructure assets to equip decision makers with information for maintaining safe and operational public infrastructure

Engineering Development Review

- Provides timely engineering evaluation of subdivision plans, construction drawings and related documents
- Uses long-range plans in conjunction with updated traffic impact studies to establish traffic requirements for new development
- Provides financial assurance management for all general City operations
- Works with stakeholder groups to update the Subdivision Policy Manual, Pavement Design Criteria Manual, and the Traffic Criteria Manual

City Engineering Functions	2013 Actual	2014 Actual	2015 Original Budget	2016 Budget
Public Works Administration	\$0	\$0	\$0	\$690,335
Engineering Development Review	1,829,530	1,167,909	1,216,122	1,119,728

ROW and Capital Project Management	1,861,599	1,558,518	1,785,817	1,493,835
Total City Engineering Functions	\$4,898,340	\$3,783,350	\$4,218,642	\$3,878,557

* Staff time dedicated to Stormwater (SW) activities equates to 11.50 FTE as shown in the Stormwater narrative

In 2015, the City Engineering General Fund budget was split into City Engineering and Stormwater to show total spending on stormwater activities.

The sections on the following pages provide a summary of the Budget, authorized positions, changes that occurred after the budget was implemented for 2015, and changes occurring as part of the 2016 Budget for each fund including General Fund, PPRTA, and CIP.

Stormwater

Tim Mitros, Stormwater Manager | (719) 385-5061 | tmitros@springsgov.com

2016 Goals

Goal	Measurable Outcome
Create a robust Water Quality and Stormwater Runoff program. This will achieve 100% compliance on the monitoring and annual reporting requirements of the City's MS4 Permit.	Submit all required deliverables of the MS4 Permit for the monitoring and annual reporting requirements to CDPHE prior to applicable deadlines.
Develop a comprehensive strategy to address current and future Stormwater needs.	Develop a comprehensive list in Cartegraph by Q4 of the City's stormwater needs. The projects will be mapped, prioritized, and ranked.

All Funds Summary

	2014 Actual	2015	* 2015	2016 Budget	2016 Budget -
		Original Budget	Amended Budget		* 2015 Amended Budget
Use of Funds

All Funds Total	\$20,389,884	\$23,597,975	\$27,597,975	\$22,982,378	(\$4,615,597)
Anticipated Carryover		\$13,759,000	\$13,759,000	\$2,774,237	(\$10,984,763)
Total Anticipated Spending		\$37,356,975	\$41,356,975	\$25,756,615	(\$15,600,360)
Positions					
General Fund	25.00	25.00	25.00	28.50	3.50
Total	25.00	25.00	25.00	28.50	3.50

* 2015 Amended Budget as of 8/31/2015

† For 2016, the Grants Fund includes the stormwater projects that were submitted for grant funding by the FEMA PA program (FEMA DR-4229) for the May-July 2015 storms and is shown here for stormwater project tracking purposes; however, the full FEMA DR-4229 grant is accounted for in the Office of Emergency Management narrative on page 13-1 and additional information on this disaster grant is included in the Grants Overview starting on page 2-31.

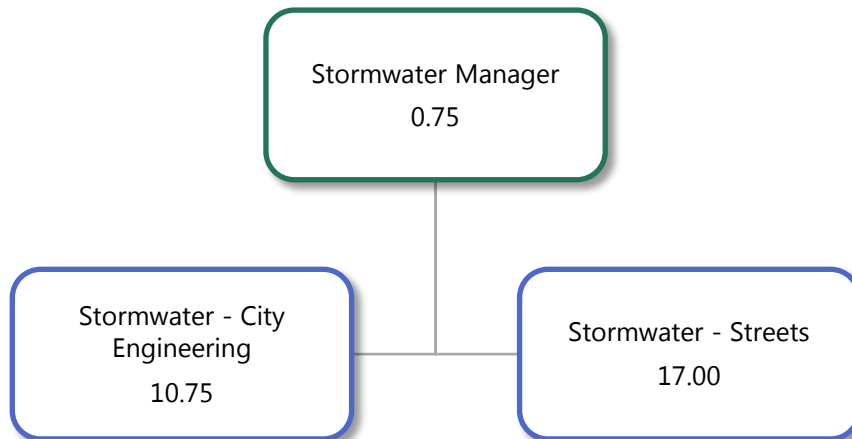

Significant Changes vs. 2015

- Net increase of \$200,000 in General Fund due to the net transfer of 3.50 FTE positions from Streets and City Engineering
- Increase of nearly \$3.1 million in General Fund-CIP for increase in funding for stormwater projects
- Decrease of \$18.1 million in Grants-CIP due to fewer grant opportunities
- Increase of \$10.2 million in the Grants Fund for expected FEMA DR-4229 disaster grant fund awards for the May-July 2015 storms

Stormwater

The Division's primary focus is to manage an environmentally sound stormwater system. This includes the management of the City's Municipal Stormwater Discharge Permit (MS4) and drainage basin concerns. The stormwater permit addresses stormwater quality with an emphasis on controlling and limiting pollutants to the City's drainage system through maintenance and Best Management Practices.

- Administers the City's Municipal Separate Storm Sewer System (MS4) Permit to ensure compliance with federal and state stormwater regulations including education, pollution prevention, inspections, and construction controls.
- Evaluates, designs, and implements drainage improvements to address street flooding, drainage way repairs and failing infrastructure.
- Maintenance of the City stormwater drainage is coordinated with the City's Streets Division including cleaning of inlets, detention ponds, and pipes and removal of debris from inlets, culverts, and channels. In addition, crews repair and stabilize stream banks.
- Manages stormwater capital construction projects.

The sections below provide a summary of the Budget, authorized positions, changes that occurred after the budget was implemented for 2015, and changes occurring as part of the 2016 Budget for each fund including General Fund, Grants Fund, and CIP.

	Use of Funds	2013 Actual	2014 Actual	2015 Original Budget	* 2015 Amended Budget	2016 Budget	2016 Budget - * 2015 Amended Budget

Streets

Corey Farkas, Manager | (719) 385-5934 | streetdivision@springsgov.com

2016 Goals

Goal	Measurable Outcome
Develop and record standard operating procedures (SOPs) to normalize processes, creating efficiencies and increase customer service.	Complete recorded SOPs by year end.
Complete the Division's resource plan through identification of staffing and equipment needs to adequately sustain the critical functions necessary to maintain the City's infrastructure.	Complete annual staffing plan and schedule in conjunction with SOPs, as well as, completing a standardized district equipment package by end of Q3.
Create and implement a QA/QC program to ensure quality craftsmanship on all contracted and in-house projects providing a greater return on investment for the taxpayer.	Complete standard inspection documentation to include: Inspection check sheets, photographs and third party testing reports, as well as, a specification section requiring contractors to submit a comprehensive QC plan as a part of their bid documents. Program to be implemented by end of Q3.

All Funds Summary

	Use of Funds	2014	2015	* 2015	2016	2016 Budget -
		Actual	Original Budget	Amended Budget	Budget	* 2015 Amended Budget
<i>All Funds</i>	General Fund	\$9,324,678	\$7,328,975	\$7,899,252	\$7,677,481	(\$221,771)
	CIP - General Fund	2,017,339	1,853,612	2,075,612	1,500,000	(575,612)
	PPRTA - Capital	0	411,970	411,970	412,000	30
	PPRTA - Maintenance	12,554,997	14,446,829	21,310,975	16,063,456	(5,247,519)
	Total	\$23,897,014	\$24,041,386	\$31,697,809	\$25,652,937	(\$6,044,872)
	Positions					
	General Fund	79.00	79.00	87.00	85.00	(2.00)
Total	79.00	79.00	87.00	85.00	(2.00)	

* 2015 Amended City Budget as of 8/31/2015. 2015 Amended PPRTA Budget for maintenance as of 7/8/2015 includes additional sales tax revenue for 2014 and 2015.

¹ Following PPRTA's budgeting practices, the 2015 Amended Budget includes 2014 unspent carryover, 2014 revenue carryover, and additional 2015 revenue. The 2016 Budget (and 2015 Original Budget) do not include carryover, so the 2016 Budget is approximately \$1.6 million more than the original 2015 Original Budget.

The projects submitted by Streets for potential funding by the FEMA DR-4229 disaster grant are included in the Grants Fund and expenditures for these projects will be included in the narrative for Office of Emergency Management at pg. 13-1. Additional information about this disaster grant can be found in the Grants Overview at pg. 2-31.

Significant Changes vs. 2015

- Net decrease of \$212,000 in operating mainly due to 2.00 FTE positions transferred to Stormwater
- Decrease of \$500,000 in General Fund CIP for 2016 projects

Streets

The mission of the Streets Division is to ensure that quality maintenance and rehabilitation are provided for the City's roadway and drainage infrastructure.

Street Sweeping/Air Quality Control

- Meet federal, state and local environmental and air quality mandates through sweeping and dust abatement
- Sweep streets in downtown area three times per week (avg. 45 lane miles/week), arterials once per month, and residential streets twice per year
- Collect 25,600 cubic yards of material annually while sweeping 48,000 lane miles of roadway

Drainage Maintenance

- Provide regulated/mandatory maintenance of drainage infrastructure
- Perform emergency repairs to aging infrastructure caused by major storm events
- Perform maintenance of ponds and streams to meet federal clean water regulations

Concrete Repair, Pavement Rehabilitation and Resurfacing

- Provide concrete repairs for roadway infrastructure including curb/gutter, sidewalks, pedestrian ramps, crosspans, and overlay prep for resurfacing
- Prioritize street resurfacing based on surface distress, traffic volume, faulty drainage, oxidation (weather wear), deterioration, and failure of the sub-grade material
- Outsource all pavement resurfacing (mill/overlay, chip and slurry seal)

Snow, Ice Control and Emergency Weather Response

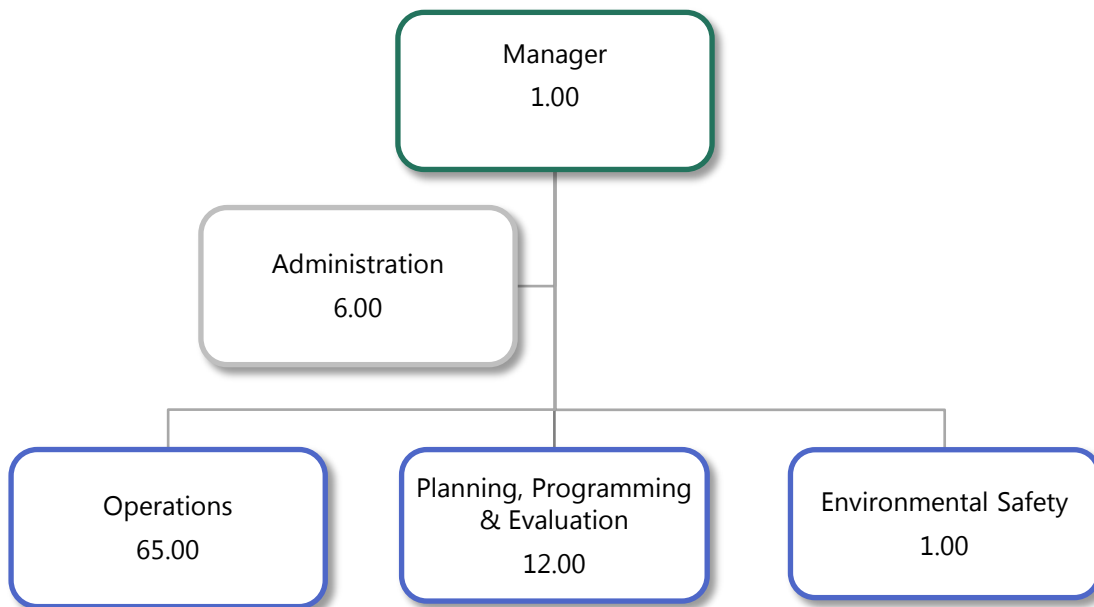

- Provide snow and emergency weather conditions response year-round to establish safe and passable streets
- Provide service for over 5,600 lane miles of roadway extending over a 194 square-mile area

Signs & Markings

- Maintain the City's signs and markings system
- Install new signage and replace worn out signs to meet federal standards
- Re-stripe roadways, crosswalks, legends, and bike lanes
- Coordinate new guardrail installations and coordinates replacement of damaged guardrail

Streets Functions	2013 Actual	2014 Actual	2015 Original Budget	2016 Budget
Streets	\$9,334,321	\$9,324,678	\$7,328,975	\$7,088,372
Signs and Markings *	0	0	0	589,110
Total Streets Functions	\$9,334,321	\$9,324,678	\$7,328,974	\$7,677,481

* In 2015, the Signs and Markings function was transferred from Traffic Engineering.

The sections below provide a summary of the Budget, authorized positions, changes that occurred after the budget was implemented for 2015, and changes occurring as part of the 2016 Budget for each fund including General Fund, PPRTA, and CIP.

	Use of Funds	2013	2014	2015	* 2015	2016	2016 Budget -

Traffic Engineering

Kathleen Krager, Manager | (719) 385-7628 | kkrager@springsgov.com

2016 Goals

Goal	Measurable Outcome
Complete the Colorado Springs Bicycle Master Plan. Continue to improve on-street bike facilities.	Completion of the Master Plan and construction of 16 miles of new bike facilities by end of Q4.
Install adaptive signal timing equipment on U.S. Hwy. 24; signals to improve non-peak travel times (this will be the first of six arterial corridors that will have adaptive signal equipment).	A decrease of 10% in intersection delay and travel time for the U.S. Hwy. 24 corridor by end of Q4.

All Funds Summary

	Use of Funds	2014	2015	* 2015	2016	2016 Budget -

	Total	35.50	34.00	26.00	26.00	0.00

* 2015 Amended City Budget as of 8/31/2015. 2015 Amended PPRTA Budget for maintenance as of 7/8/2015 includes additional sales tax revenue for 2014 and 2015.

Significant Changes vs. 2015

- Net increase of \$200,000 due to reorganization between Traffic Engineering, City Engineering and Streets
- Decrease of \$4.4 million in grant funds for 2016

Traffic Engineering

Traffic Engineering's primary mission is to provide safe and efficient movement of vehicles, cyclists, and pedestrians on the public rights-of-way, improve mobility and traffic flow, maintain public safety, reduce travel times and mitigate congestion. Traffic Engineering is responsible for three major programs:

Transportation Planning

- Plan and implement roadway, bike, and pedestrian projects and programs to develop a multi-modal transportation system
- Update and maintain the Bike Master Plan and other planning documents associated with Bike Planning
- Develop and implement bike infrastructure and construct safety improvements where warranted
- Institute bike programs that help promote and enhance bicycling in Colorado Springs
- Identify and monitor projects to manage roadway congestion, high crash and unsafe locations for all modes of transportation
- Identify funding for transportation and safety projects including grant applications to leverage local funds
- Administer the School Safety Program
- Conduct public process to develop regional, sub-regional and neighborhood projects
- Address neighborhood parking and cut-through traffic issues
- Conduct various studies and analyses for both traffic congestion and bicycling
- Coordinate transportation planning efforts with city departments, government agencies, and citizen groups in the Pikes Peak Region

Traffic Signal Systems

- Manage signal timing, coordination and maintenance of the City's 567 traffic signals
- Operate the incident management system (traffic cameras and message boards) on key arterials throughout the City
- Analyze citizen and developer requests for new traffic signals and additional phases to existing traffic signals
- Manage school zone flashing beacon schedule and maintenance
- Respond to 24 hour emergency traffic signal malfunction repairs
- Coordinate the annual traffic signal rebuild program
- Maintain the priority green system for emergency first responders

Traffic Operations

- Identify Transportation and Safety projects for the City Traffic Engineer
- Review roadway plans from CIP group, PPRTA group and developers for new roadway corridors, roundabouts, bike lane projects
- Provide technical and design assistance for our PPRTA Partnership Program
- Provide school safety services related to school crossings and parking concerns/issues
- Review and comment on traffic related Revocable Permits
- Municipal Court Liaison for traffic related legal issues including research, field investigation, and representing the city in court
- Develop and coordinate Federal Highway Administration mandated compliance programs
- Collect traffic data, analyze generate traffic studies
- Administer the City's truck route program

Traffic Engineering Functions	2013 Actual	2014 Actual	2015 Original Budget	2016 Budget
School Safety	\$568,596	\$539,109	\$427,108	\$471,676

Transit

Craig Blewitt, Manager | (719) 385-5428 | cblewitt@springsgov.com

2016 Goals

Goal	Measurable Outcome
Add frequency on Routes 10 and 11 on weekdays.	Increase ridership by 5-10%, improve on-time performance by 3-5%, and improve connections to critical citizen services by end of Q4.
Restructure Route 3.	Improve on-time performance by 15-20%, and improve connections to critical citizen services by end of Q4.
Restructure Routes 6, 8, 15, and 16.	Improve on-time performance by 5-10%, and improve connections to critical citizen services by end of Q4.
Finalize site selection and land acquisition for a Downtown Transit Station to improve safety and operations.	Increased vehicle capacity by 20%, decrease operational delay by 20%, and reduce safety conflicts by 20% by end of Q3.
Pursue land acquisition for additional transit bus storage. Transit bus storage is currently at full capacity. Future service improvements require additional storage capability.	Increase the bus storage capacity by at least 20% by end of Q4.
Initiate procurement for facility design of a Downtown Transit Station to improve safety and operations.	Increased vehicle capacity by 20%, decrease operational delay by 20%, and reduce safety conflicts by 20% by end of Q3.
Pursue partnerships with PPCC and UCCS to improve transit service.	Increase ridership to these institutions by 25% and improve connections to jobs and schools by end of Q4.
Support the City's infill development effort.	Develop implementation plan and carry out the recommendations identified by the Infill and Redevelopment Task Force by end of Q4.
Improve coordination and efficiency among the Specialized Transportation Service providers.	Support the Joint Dispatch and Call Center effort throughout the year to consolidate the Specialized Transportation Services provided by local non-profit agencies by combining passenger trips and minimizing trip duplication.

* 2015 Amended City Budget as of 8/31/2015. 2015 Amended PPRTA Budget as of 7/8/2015 includes additional sales tax revenue for 2014 and 2015.

† PPRTA Transit Operating funds include tax and fare revenues; it does not reflect carryover for Planned Operating Reserve and grant match for obligated projects as shown in the CIP section on pg. 31-20.

Significant Changes vs. 2015

- Net increase of nearly \$815,000 or 19% in General Fund Operating and CIP to restructure four bus routes and provide grant match for pedestrian/transit accessibility on five routes
- Net decrease of \$973,327 in available Grants Fund (Operating) and CIP grant funds

Transit

The City of Colorado Springs is the primary provider of public transportation services in the Pikes Peak Region and is designated by the Federal Transit Administration (FTA) as the recipient of grant funding for the Pikes Peak urbanized area. Responsibilities include transit service administration, regional planning coordination, sub-recipient oversight, and ensuring compliance with all of the FTA's rules and regulations. The Transit Services Division also coordinates local non-profit agency transit services and pursues grant opportunities for the entire region. Transit directs the activities and operations of all fixed-route and paratransit systems and rideshare programs for the region. Over ninety percent (90%) of operations is outsourced.

Mountain Metro Fixed-Route Bus Service

- Includes service to Colorado Springs, Manitou Springs, and to parts of unincorporated El Paso County with approximately 10,000 one-way weekday trips per day servicing a diverse customer base
- Maintains farebox recovery rate of 24% with 24 average hourly boardings per bus
- Provides about 90% of all public transit passenger trips serviced by Transit

Mountain Metro Mobility – ADA/Paratransit service within Mountain Metro operating service area

- Provides the federally-mandated Americans with Disabilities Act (ADA) complementary paratransit service, a demand-response service for individuals whose mobility needs prevent them from using the fixed-route bus system
- Provides service along a 1.5-mile corridor (3/4 mile on each side) of every bus route during the same time the fixed-route system is operating
- Riders are required to be certified as eligible to receive curb-to-curb and door-to-door paratransit service; eligible individuals can use the local fixed-route bus service at no charge, allowing the City to minimize the cost of paratransit services
- 100% of the ADA paratransit riders are transit dependent

Mountain Metro Rides – Alternative Transportation

- Promotes alternative transportation options to residents of the Pikes Peak Region
- Reduces congestion and pollution by encouraging and coordinating the use of carpools, vanpools, bicycle commuting, school pool (including bike and walk pools for children as well as carpools), telecommuting, and transit use
- Receives approximately 3,000 calls annually, with approximately 500 clients

Specialized Elderly and Disabled Transit Services – Paratransit service above and beyond ADA requirements

- Contracts with local non-profit agencies to provide essential elderly and disabled paratransit services to the community
- Provides service to residents whose trips are outside the ADA-required area and to residents who need door-through-door assistance

The sections below provide a summary of the Budget, authorized positions, changes that occurred after the budget was implemented for 2015, and changes occurring as part of the 2016 Budget for each fund including General Fund, Grants Fund, PPRTA, and CIP.

	PPRTA Transit Grant Match					1,650,595								
¹ PPRTA capital projects are listed in the CIP table below.														
The PPRTA budget, funded by a one-cent sales tax, is not appropriated by the City. However, to reflect total funding dedicated for operating the City's transit services, relevant PPRTA expenditures are included in this document. For 2015, the PPRTA includes both operating and capital project funds.														

* 2015 Amended City Budget as of 8/31/2015. 2015 Amended PPRTA Budget as of 7/8/2015 includes additional sales tax revenue for 2014 and 2015.

† PPRTA Transit Operating funds include tax and fare revenues; it does not reflect carryover for Planned Operating Reserve and grant match for obligated projects as shown in the CIP section on pg. 31-20.

Airport

Dan Gallagher, Aviation Director | (719) 550-1900 | dgallagher@springsgov.com

2016 Goals

Goal	Measurable Outcome
Execute the sustainable Plan of Finance reconciling past PFC expenditures to eliminate the 2007 Bond Series.	Eliminate 2007 Debt
Maintain or lower the Airport's Cost Per Enplanement (CPE) of \$7.56.	CPE of \$7.56 or lower
Exceed the 2015 enplanement forecast of 575,000.	Total enplanements greater than 575,000

Total	96.00	91.00	91.00	93.00	2.00

* 2015 Amended Budget as of 8/31/2015

** In 2014, expenses were charged in revenue accounts, resulting in negative amounts being reflected in the financial system

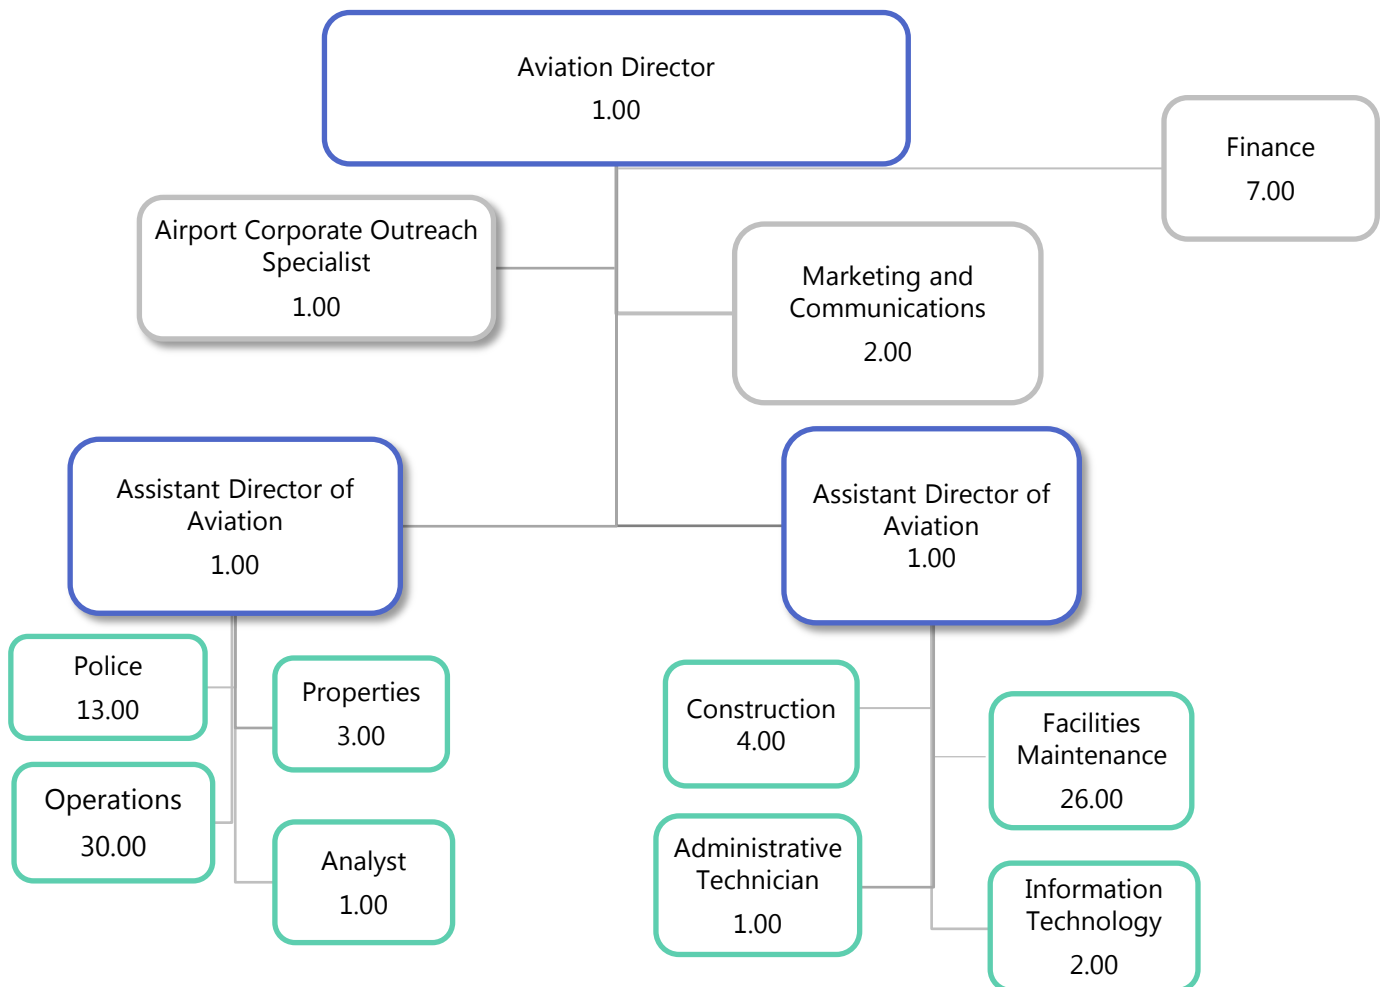

*** Due to a change in budgeting methodology to properly account for transfers between Airport Specific Enterprise funds, the 2016 budget appropriation is significantly larger than in prior years

Airport

The Colorado Springs Airport (COS) is a primary commercial service airport. COS:

- Services southern Colorado as well as portions of western Kansas and northern New Mexico, with nearly 1.3 million anticipated passengers in 2016
- Will provide approximately 25 daily departures with non-stop services to 10 major cities across the U.S. in 2016
- Maintains active corporate, cargo and general aviation populations and is host to Peterson Air Force Base, home of the U.S. Air Force Space Command, NORAD/NORTHCOM, the Army Space and Missile Defense Command

According to *Economic Impact of Airports in Colorado 2008 Economy*, COS generates a combined impact of over \$1.6 billion each year for the region. COS and Peterson AFB provide 19,672 direct and indirect jobs in the aviation, aerospace, and defense sectors. The Colorado Springs Airport is a fully self-sustaining public enterprise that accepts no local tax revenue.

The sections below provide a summary of the Budget, authorized positions, changes that occurred after the budget was implemented for 2015, and changes occurring as part of the 2016 Budget for the Airport Enterprise Fund.

Cemeteries

Jody Sanchez | (719) 385-6255 | jbsanchez@springsgov.com

2016 Goals

Goal	Measurable Outcome
Increase the Cemeteries' market share in the community.	Attain over 25% market share in El Paso County.
Stabilize the maintenance cost per site at Evergreen and Fairview Cemeteries	Achieve maintenance cost per site at \$17.00 or lower.

All Funds Summary

All Funds	Source of Funds	2014 Actual	2015 Original Budget	* 2015 Amended Budget	2016 Budget	2016 Budget - * 2015 Amended Budget

Total	6.00	6.00	6.00	6.00	0.00	

* 2015 Amended Budget as of 8/31/2015

Significant Changes vs. 2015

- Expenses are projected to exceed revenues, resulting in anticipated draw of approximately \$14,000

Cemeteries

The City owns two cemeteries, operated as enterprises and partially supported by an endowment fund, which offer burial services including casket interments and cremation inurnments. The Cemeteries Enterprise strives to provide self-supportive, quality cemetery services for the public for the interment of the deceased in a dignified and respectful manner and to maintain the perpetual care responsibilities of the cemetery grounds.

Evergreen Cemetery was established shortly after Colorado Springs was founded in 1871 and deeded to the City in 1875. Fairview Cemetery, initially established in 1895, was annexed by Colorado Springs in 1917. The two cemeteries are home to such notable historical figures as Winfield Scott Stratton, General William Jackson Palmer, and Helen Hunt Jackson.

* The Manager position is funded as part of the Recreation & Administration budget. This position is not reflected in the position count in the Budget Summary on the following page.

The sections below provide a summary of the Budget, authorized positions, changes that occurred after the budget was implemented for 2015, and changes occurring as part of the 2016 Cemeteries Enterprise Budget.

* 2015 Amended Budget as of 8/31/2015

Significant Changes vs. 2015

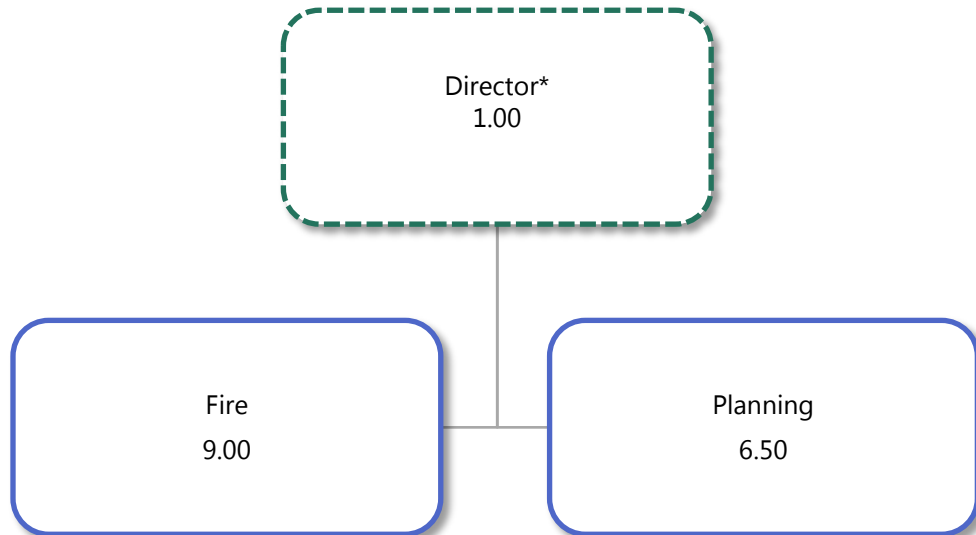

- Increase in Fire Service fees due to overhaul of existing Fire Department fee schedule to reflect work and time on plan reviews by DRE Fire
- Increase 1.00 FTE - Fire Inspector II to meet service demands
- Increase funding for reclassification of a Planner I/II to Principal Planner
- Reduce reimbursement expenses to the General Fund for Land Use Review staff time spent working on Development Review Enterprise (DRE) activities – this reduction is based upon a time tracking study

Development Review Enterprise

Established in 2001, the Development Review Enterprise (DRE) Division is responsible for the final implementation of City land use regulations and fire codes. The DRE:

- reviews building permit applications for single-family homes and additions, signs, fire protection systems, fire code review for all construction, and fire inspections
- reviews minor ministerial applications associated with building permits

There are two sections of the DRE, City Planning and Fire Construction Services, both of which are located on the upper floor of the Pikes Peak Regional Development Center. Like other City enterprises, the DRE is 100% self-sufficient, requiring no taxpayer support.

* The Director position is funded as part of the Land Use Review budget. This position is not reflected in the position count in the Budget Summary on the following page.

The sections below provide a summary of the Budget, authorized positions, changes that occurred after the budget was implemented for 2015, and changes occurring as part of the 2016 Development Review Enterprise Budget.

Golf Courses

Pat Gentile, Manager | (719) 385-6931 | pgentile@springsgov.com

2016 Goals

Goal	Measurable Outcome
Attract golfers to play a 9-hole or 18-hole round of golf at Patty Jewett and Valley Hi Golf Courses.	Increased number of rounds played - exceeding 117,163 9-hole rounds at Patty Jewett and 63,315 rounds at Valley Hi.
Provide quality, affordable golf services to the residents and visitors of the City of Colorado Springs.	Average green fee revenue per 9-hole round at 85% or higher of our rack rate of \$15.00; contribution to each golf course fund balance of \$20,000 at Patty Jewett and \$10,000 at Valley Hi.

* 2015 Amended Budget as of 8/31/2015

Significant Changes vs. 2015

- Expenses at both courses are decreasing due to restructuring and reclassifying personnel
- Revenues are projected to exceed expenses at both golf courses

Golf Courses

The City owns two golf courses, operated as enterprises, which are maintained for players of all abilities. The Golf Enterprise provides a high quality, affordable golf experience while being a financially responsible self-supporting enterprise. Patty Jewett Golf Course, the third oldest public course west of the Mississippi, has been City-owned since 1919. Valley Hi Golf Course was constructed in 1956 and purchased by the City in 1975. Both courses provide a wide range of services including full-service restaurants, pro-shops, lessons, leagues, golf outings, men's and women's association play, and competitive tournament play.

The sections below provide a summary of the Budget, authorized positions, changes that occurred after the budget was implemented for 2015, and changes occurring as part of the 2016 Golf Enterprise Budget.

Memorial Health System Enterprise

Kara Skinner, Chief Financial Officer | (719) 385-5224 | kskinner@springsgov.com

2016 Goals

City Council authorized and directed that funds and monies from the Health System Operating Lease Agreement or the Integration and Affiliation Agreement with University of Colorado Health are placed into an appropriate segregated account and shall be spent only to satisfy obligations specifically provided for in the agreements. Funds remaining after satisfying the obligations shall be transferred directly into the City controlled non-profit foundation, Colorado Springs Health Foundation, as provided for under IRS Sections 501(c)(3) and 509(a) and authorized by City Council and the Mayor pursuant to Resolution No. 89-12.

The goal of the Memorial Health System Enterprise is to satisfy those obligations and, at the appropriate time, transfer funds to the foundation as required and directed in the Funds Management Agreement.

Significant Changes vs. 2015

None

Memorial Health System Enterprise

Since 1949, the City of Colorado Springs owned and operated Memorial Health System, dedicated to being a regional leader in providing high quality healthcare services to all citizens.

Upon careful consideration, City Council considered the option of leasing the assets of Memorial Health System to an outside independent operator to ensure the best possible healthcare for the entire community. The Memorial Health System Task Force, created by City Council, recommended that City Council select the University of Colorado Health System as the exclusive bidder to be considered for this strategic partnership.

On August 28, 2012, voters approved the proposed operating lease agreement and the integration and affiliation agreement with the University of Colorado Health System. The transaction was finalized on October 1, 2012.

The Memorial Health System Enterprise remains primarily as a leasing entity. The Memorial Health System Enterprise collects lease payments and continues to incur expenditures related to excluded liabilities, such as the run-out on medical claims and workers' compensation claims incurred prior to October 1, 2012.

The sections below provide a summary of the Budget, changes that occurred after the budget was implemented for 2015, and changes occurring as part of the 2016 Memorial Health System Enterprise budget.

Parking System Enterprise

Greg Warnke, Manager | (719) 385-5682 | gwarnke@springsgov.com

2016 Goals

Goals	Measurable Outcome
Support downtown renaissance through collaborating with City Departments and CSU to increase street-scaping projects and partnering with private enterprises on right-of-way improvements near mixed-use developments.	Streetscape improvements will be completed on 4 additional block faces by the end of 2016 -- the 400 South Nevada Avenue block face, BlueDot, will be under construction by the end of 2016.

All Funds Summary

	Source of Funds	2014	2015	* 2015	2016	2016 Budget - * 2015 Amended Budget

	Total	8.50	8.50	8.50	8.50	0.00

* 2015 Amended Budget as of 8/31/2015

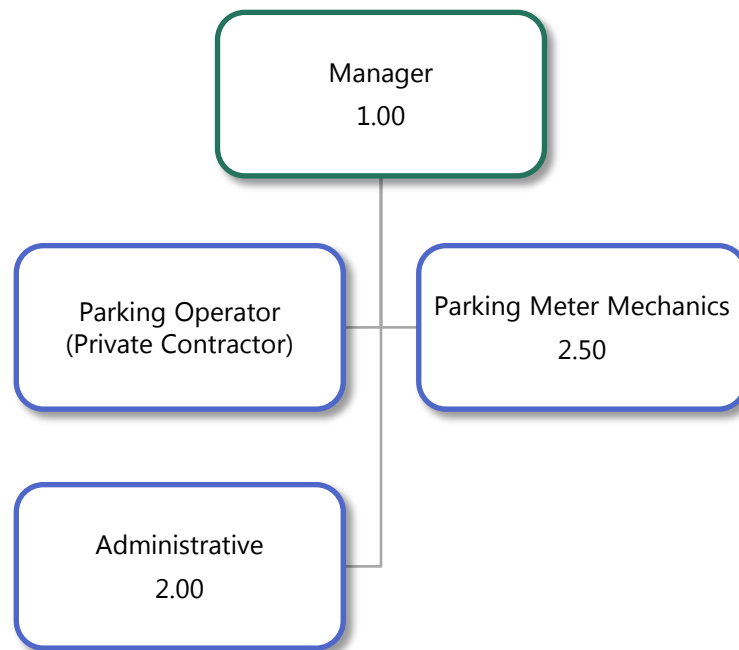

Significant Changes vs. 2015

- Net decrease in revenue of \$264,461 based on a more accurate calculation of revenue trends using actual cash ticket counts versus total ticket counts
- Decrease of nearly \$172,000 in operating, mainly due to reduced debt service of \$156,000 as a result of restructuring bond debt
- Decrease of nearly \$926,000 in CIP based on projects planned for 2016

Parking System Enterprise

The Parking System Enterprise provides public parking spaces as a key element in maintaining the economic vitality of the downtown and surrounding activity centers. Public parking is an economic development tool used to attract private investment into the community and manage urban growth.

The Enterprise operates solely on fees collected from users. No taxpayer support is required. All proceeds from these operations are reinvested back into the community in the form of increasing the Parking System's capacity and funding parking and pedestrian projects aimed at improving the health, safety, and welfare of the community.

The organizational chart illustrates all positions that report to this department, not including 3.00 positions that report to another department but are funded from the Parking System Enterprise Fund; however, positions funded by the Parking Enterprise Fund are reflected in the Position Totals of the funding tables in this narrative.

The sections below provide a summary of the Budget, authorized positions, changes that occurred after the budget was implemented for 2015, and changes occurring as part of the 2016 Parking System Enterprise and CIP budgets.

Parking Enterprise Fund	Source of Funds	2013 Actual	2014 Actual	2015 Original Budget	* 2015 Amended Budget	2016 Budget	2016 Budget - * 2015 Amended Budget

Pikes Peak - America's Mountain

Jack Glavan, Manager | (719) 385-7325 | jglavan@springsgov.com

2016 Goals

Goal	Measurable Outcome
Maintain an average operational cost per visitor that is fair and equitable in relation to the expenditures of the Enterprise necessary for long-term sustainability.	Maintain an operational Cost of \$16 per Visitor
Explore public and private funding opportunities for the design, development and construction of a new Summit House. Complete design and NEPA Process.	Final Design Completed and Presented to the USFS for Final Acceptance and the NEPA Process Completed by end of Q4 2016.

All Funds Summary

	Source of Funds	2014	2015	* 2015	2016	2016 Budget - * 2015 Amended Budget

	Total	19.00	19.00	19.00	19.00	0.00

* 2015 Amended Budget as of 8/31/2015

Significant Changes vs. 2015

- Revenue decrease largely due to the removal of one-time concession renewal funds of \$1M
- Decrease in operating due to the removal of the one-time 2015 loan payoff
- Decrease in CIP to remove one-time 2015 amendment and reduce Summit House CIP by \$660,000

Pikes Peak – America’s Mountain

Pikes Peak – America’s Mountain operates the Pikes Peak Highway under a Term Special Use Permit issued by the U.S. Forest Service. Included in the operation are the associated visitor facilities including the Summit House, Glen Cove Inn and Crystal Reservoir Gift Shop, and the Pikes Peak Recreational Corridor for activities such as hiking, picnic grounds, and interpretive trails. Revenue is primarily generated from Gateway entry fees and concessionaire fees. These fees provide visitor and ranger services, highway maintenance and construction, facility maintenance and construction, and interpretive and educational services.

The sections on the following pages provide a summary of the Budget, authorized positions, changes that occurred after the budget was implemented for 2015, and changes occurring as part of the 2016 Pikes Peak – America’s Mountain Enterprise Budget.

Capital Improvements Program (CIP)

The City is responsible for building and maintaining capital facilities such as police and fire facilities, roads, bridges, parks, and other public buildings to facilitate service delivery. Some of this infrastructure is more visible to the public eye, such as construction of a new fire station or an interchange, while other projects are virtually hidden but still vitally important, such as technology infrastructure.

Capital improvements are defined by the City as projects with a relatively high monetary value, a long life, and that results in the creation of a fixed asset or significant revitalization that upgrades and extends the useful life of a fixed asset. Capital improvements are not only vital to our City's infrastructure; they affect every city resident and visitor by providing the safety, mobility, recreation, and other services upon which the community depends.

\$18.1 M General Fund

- ✓ Increase of \$6.9 million over 2015 General Fund CIP
- ✓ \$12.3 million of 2016 General Fund CIP for Stormwater, Roads & Bridges (includes nearly \$1.9 million federal grant matches)
- ✓ General Fund grant match of \$941,000 million is leveraging ~\$3.7 million in grant funds for capital improvements

\$68.5 M Restricted CIP

- ✓ Decrease of \$20.8 million in projected CIP grant funds *
- ✓ \$4.2 million in TOPS funding for trail and parkland expansion, water footprint reduction projects, and playground structure replacements
- ✓ Grant funds of nearly \$19 million for critical roadway improvements, stormwater projects, bridge rehabilitation projects, airport improvements, school safety, parkland expansion, and transit pedestrian accessibility

* For 2014-2015, an exceptionally high amount of federal and state post-disaster grant funds for NRCS/EWP, HMGP, and CDBG-DR programs was available for eligible projects related to the 2013 flooding. For 2016, these disaster grant programs are not available—returning the grant funding opportunities to a more historical level.

**\$86.7M
Total CIP**

nearly **\$6.9 million** in General Fund

nearly **\$13.7 million** in total CIP funds

For 2016, the General Fund contribution toward capital improvement projects is \$18,024,169 and is augmented by a net \$107,000 in anticipated interest earnings and investment/bank fees, for a total 2016 General Fund CIP in the amount of \$18,131,169.

2016 General Fund CIP Project Fund

Stormwater, Roads & Bridges:

- \$8.45 million in critical stormwater projects
- \$2.0 million for Pikes Peak corridor improvements and to resurface segments of primary corridors

Grant Matches for Capital Projects:

- Includes nearly \$1.1 million match dollars for FEMA DR-4229 grant for stormwater projects, as well as transportation projects that address congestion, safety, bridge replacements, pedestrian and transit accessibility, and air quality
- For 2016, also includes a grant match for the exterior renovation of the Pioneers Museum

Technology:

- Funding technology projects to enhance customer service and improve efficiency

Facility Improvements:

- Critical repair and maintenance of City facilities such as police stations, fire stations, community centers, and the Pioneers Museum

Other Payments/Projects:

- Financial commitments for major projects such as the PPRCN radio infrastructure

Five-Year General Fund CIP Plan

The Five-Year General Fund CIP Plan is detailed in the table below and on the following page. Please note that the CIP program is fluid and as other funding mechanisms are identified, projects may drop off and as new priorities are determined, new projects may be added on.

Total by Year	\$18,131,169	\$24,419,888	\$23,118,443	\$23,585,348	\$23,433,933	\$112,688,781

The 2016 CIP Budget is primarily funded by restricted funds (approximately 79%), and funds the construction of a number of major capital improvements throughout the City, including various transportation improvements, facility improvements, park projects, and IT infrastructure.

For 2016, the total capital improvements program (CIP) is \$86,664,057. The total is derived from a multitude of sources, to be expended as shown below:

The 2015 original CIP Program budget totaled \$100.4 million, of which \$11.2 million was funded by the General Fund. For 2016, there is a net decrease of \$13.7 million of All Funds dollars to the CIP Program, which is largely due to a decrease of \$22.6 million in post-disaster grant funds for NRCS/EWP, HMGP, and CDBG-DR programs; however, there is an estimated increase of \$6.9 million General Fund dollars. The table below details the changes to each of the funding sources included in the CIP program.

Fund	2014 Budget	2015 Budget	2016 Budget	Variance
PPRTA	\$29,914,400	\$27,464,663	\$33,100,353	\$5,635,690
PSST	2,550,000	0	249,087	249,087
TOPS	3,946,527	7,204,464	4,200,137	(3,004,327)
CTF	0	221,500	90,000	(131,500)
Enterprise	1,790,000	3,409,000	2,837,600	(571,400)
Bike Tax	95,000	97,850	84,700	(13,150)
General Fund CIP	11,007,472	11,189,257	18,131,169	6,941,912
Grant	25,136,951	39,552,109	18,781,955	(20,770,154)
Other	2,944,901	11,265,652	9,189,056	(2,076,596)
Total	\$77,385,251	\$100,404,495	\$86,664,057	(\$13,740,438)

Stormwater, Roads & Bridges: Includes critical transportation and stormwater projects such as bridge replacements, drainage channels and intersection improvements to increase safety and maintain critical infrastructure. Funding for these projects include General Fund, PPRTA capital funds, CDBG, Bike Tax, and FEMA grants.

Infrastructure Improvements: Includes Parking System projects for Downtown streetscapes and Airport projects for pavement repair/maintenance and taxiway improvements. Funding for these projects are from the respective Enterprise funds.

Technology: Includes technology projects to enhance customer service and improve efficiency. Funding for these projects include General Fund, Grants Fund, and Enterprise funds.

Facility Improvements: Includes new infrastructure such as Sand Creek Substation and the Pikes Peak Summit House, repair and maintenance of City facilities such as police stations, fire stations and community centers, transit pedestrian/accessibility improvements as well as upgrades to the Airport, Pioneers Museum and Pikes Peak Summit House. Funding for these projects include General Fund, Grants Fund, PSST Fund, Enterprise funds (including Airport Passenger Facility Charges), and Other funds (including private fund raising).

Park/Trail Improvements: Includes upgrades to playgrounds, irrigation systems, park expansion, and trails, as well as turf reduction in neighborhood park land to increase efficiency and decrease ongoing maintenance costs. Funding for these projects include General Fund, CTF, TOPS, PPRTA capital funds, grant funds, and other funds such as Public Space & Development Fund (PLDO), Friends Groups, and private donations.

Other Payments/Projects: Includes financial commitments for land acquisition and other major projects such as Airport fleet improvements and equipment, radio infrastructure upgrade, replacement of Transit buses and vanpool vehicles, parking system improvements and downtown streetscaping, and federally mandated upgrades to traffic signs. Funding for these projects include General Fund, Parking System Enterprise funds, PPRTA capital funds, and TOPS funds.

Impact on Operating Budget

\$820,000

Increased operating and maintenance costs for CIP projects are estimated at \$820,000, with the highest costs for estimated ongoing annual maintenance for the following types of projects:

- Facility Improvements \$330,000
- Park/Trail Improvements 100,000
- Technology (software) 390,000

Many of the other CIP projects involve negligible increases that will be absorbed into the City's current maintenance programs.

¹ Future lease agreements

² Passenger Facility Charge (PFC)

³ PFC and Customer Facility Charge (CFC)

⁴ CAB/SeniorCenter/Sertich Ice Center/Municipal Court Payment - Other funds source is energy savings

⁵ Private fund raising by the Pikes Peak Pickleball group

⁶ Other fund source is the Giddings Gift Trust

⁷ Other funds source is the LART Fund

⁸ Red Rock Canyon Purchase payment of \$1,122,375 - balance of the payment is budgeted in CTF operating funds

⁹ Skyview Softball Complex payment of \$274,300 - Other funds source includes concession revenue and ballplayer fees (\$100,200 budgeted each year), balance paid from CTF

¹⁰ Private fund raising

Over the next five years, the City has approximately \$388.4 million in planned capital improvements. This includes projects from all funding sources such as Grant funds, Passenger Facility Charges (PFC) funds, Pikes Peak Rural Transportation Authority (PPRTA) capital projects, the Trails, Open Space and Parks (TOPS) Fund, Conservation Trust Fund, and General Fund projects as prioritized in the 2016-2020 General Fund CIP Plan.

Since 2016 is the only year that funds are budgeted and appropriated, the dollar values for years 2017-2020 are estimates that will very likely change based on anticipated costs, revenue projections, and construction schedules, as well as future years' changing priorities. However, it serves as a reasonable estimate for future planned capital projects.

Below is a summary of the five-year Capital Program by project type. The following pages include all projects anticipated between 2016 and 2020.

Five-Year All Funds CIP Plan Detail

Project	2016	2017	2018	2019	2020	Total

General Fund 5-Year CIP Prioritization Process

In 2013, the CIP Committee consisting of community leaders, City staff and council members conducted a 5-year CIP prioritization process with the following results:

1. Developed project rating criteria based on two tiers of criteria:
 - Tier 1 Criteria included safety, service level and legal mandates
 - Tier 2 Criteria included linkage to other CIP projects, Economic Opportunity Zones or City approved plans (e.g., Strategic Plan or Comprehensive Plan), and financial commitments for funding from Non-General Fund sources
2. Made recommendations for an achievable 5-year CIP plan using a constrained budget model of \$35 million per year.
3. Made recommendations for funding backlogs of capital improvements and capital infrastructure needs; vehicles, radios, cardiac monitors (rolling stock); and maintenance of City facilities and infrastructure.
4. Made policy recommendations that included: increase focus on lifecycle costs, the City's warranty requirement, and funding to maintain the City's infrastructure; review and update the Vehicle Replacement Policy; and create an annual City facilities maintenance fund.

Based on the results and recommendations of the CIP Committee, the following strategies were incorporated into the City's 2014 Five-Year Strategic Plan:

- Develop a five-year CIP program on a biennial basis
- Develop funding strategies to address the backlog of needs
- Develop a plan to address ongoing and deferred maintenance
- Reassess use of City facilities/space to maximize utilization
- Enhance infrastructure development standards to provide a high return on investment
- Renovate or develop infrastructure, roads and buildings, with a low-impact, low-energy approach to reduce long-term maintenance and operating costs

The Five-Year CIP Plan was updated in 2015 after reviewing the projects with multi-year funding that were in the 2015-2019 plan and evaluating new project requests for funding in years of 2016-2020.

In late 2014, a Citywide Facilities Maintenance Committee was established to coordinate facilities maintenance issues and provide annual funding recommendations as part of the budget process on citywide facilities maintenance projects to minimize the City's risk exposure and maximize the use of its funds to address the highest priority needs. In 2015, the Committee has taken the following steps to achieve these goals:

- The Committee worked with the County to provide detailed assessments of City facilities and has used this data to prioritize all facilities maintenance needs across the City and develop a 5-year plan to address these needs.
- The Committee is also working with the City's ADA Coordinator, who is conducting assessments of City facilities and public areas to identify where the City has the highest ADA non-compliance risk. The Committee will request funding to mitigate the highest priority ADA issues in the next five years.
- The Committee also recognizes the importance of the safety and security projects and has requested assistance from the Office of Emergency Management in evaluating and prioritizing the safety and security needs in all City facilities. Based on the findings, the Committee will develop a 5-year plan and request funding to address these needs.

Pikes Peak Rural Transportation Authority (PPRTA)

The 2016 budgets for PPRTA maintenance, capital projects, and transit are listed below. This is presented for informational purposes only as the City Council does not appropriate PPRTA funds.

Project	Capital	Maintenance	Operating
City Engineering			
Bridge Repair and Maintenance		\$3,500,000	
Centennial St.-Garden of the Gods to Fillmore Pavement Reconstruction	4,032,000		
Chestnut Street Bridge over South Douglas Creek	1,700,000		
Dublin Rd.: Imps: Bridle Pass Way to Powers Blvd.	300,000		
Emergency Bridge Fund	687,000		
Enchanted Circle over Sand Creek Tributary Bridge Replacement	300,000

Restricted Funds Descriptions

This includes revenue from a number of sources, as described below:

Bicycle Tax: The City's \$4 excise tax on new bikes began in 1988 and the revenue goes toward bikeway improvements as recommended in the City's Bicycle Plan.

Conservation Trust Fund (CTF): This is lottery revenue distributed through the Colorado Conservation Trust Program. These funds must be spent on park-related development, renovation, and maintenance.

Enterprise Funds: This is a general category of funds that includes allocations for CIP projects from various City-owned Enterprises. The source of funds comes from revenue earned during the course of conducting business. It includes the Airport, Parking, and Pikes Peak – America's Mountain.

Grant Funds: The City estimates receiving nearly \$17.0 million in grant funds for capital projects in 2016. Below are a few of the categories for capital-related grant funding.

Airport Grant Funds: This funding comes from the Airport Improvement Program (AIP) Grant funded by the federal government, as well as the Colorado Discretionary Aviation Grant.

Community Development Block Grant (CDBG): This funding is allocated by the federal government based on census records of the recipient municipality's population and must adhere to strict federal guidelines. The City's share of the funding must go toward identified Neighborhood Strategy Areas and are spent on public improvements in residential neighborhoods such as sidewalks, curbs, gutter, and pedestrian ramps. These funds cannot go toward the maintenance of existing facilities.

The Safe, Accountable, Flexible, Efficient Transportation Equity Act-Legacy for Users (SAFETEA-LU): These are funds that stem from the federal gas tax revenue, which are administered by the Pikes Peak Area Council of Governments (PPACG). The City competes regionally for federal grants for Transportation Enhancement (TE) projects, Congestion Mitigation and Air Quality (CMAQ) projects, and Surface Transportation (STP) projects. In general, the City receives funding annually in varying amounts according to the Transportation Improvement Program (TIP).

Funding Advancement for Surface Transportation & Economic Recovery (FASTER): These are State funds that stem primarily from daily car rental fees and weight based vehicle registration fee increases. The State allocates funding annually for state and local road and bridge safety projects and provides grants to local governments for transit and rail projects.

Disaster Grants received from the Federal Emergency Management Agency's (FEMA) Public Assistance (PA) Grant Program is awarded to provide assistance to State, Tribal and local governments, and certain types of Private Nonprofit organizations so that communities can quickly respond to and recover from major disasters or emergencies declared by the President. To be eligible for funding, disaster recovery work performed on an eligible facility must be required as the result of a major disaster event, be located within a designated disaster area, and be the legal responsibility of an eligible applicant.

Other Funds: This is a general category that includes various sources of funding. For any given project, the funds listed here do not easily fall into another category. Examples include energy savings, concession/player fee funding, CTF and TOPS operating, Public Space & Development Fund (PLDO), gift trust funds, and donations.

Pikes Peak Rural Transportation Authority (PPRTA): These funds are from a 1.0% Sales and Use Tax dedicated to transportation-related improvements in the region. It allocates funding such that 10% of the sales tax revenue goes toward the City's transit program, 35% is for maintenance of the regional transportation system, and 55% goes to regional capital projects. In 2013, the PPRTA Extension (PPRTA II) was passed by the voters to fund new capital projects through 2025. The PPRTA is a regional authority comprised of the City of Colorado Springs, El Paso County, the City of Manitou Springs, the Town of Ramah, and the Town of Green Mountain Falls.

Public Safety Sales Tax (PSST): The PSST was approved by voters in November 2001. This 0.4% Sales and Use Tax is dedicated to funding 20 public safety projects and subsequent staffing, as well as related operational needs.

Trails, Open Space, and Parks (TOPS): A 0.1% Sales and Use Tax was approved by voters in 1997. It was slated to expire in 2009, until an extension was approved by voters in 2003 and will expire in 2025. Although the percentage split may vary from year to year, the funds are restricted over the life as follows:

- o 3% allowed for Administration;
- o 6% allowed for Maintenance;
- o minimum of 60% must be used for acquisition and stewardship of open space;
- o maximum of 20% must be used for trail acquisition, construction and maintenance; and
- o maximum of 20% must be used for parks acquisition, construction and maintenance (in 2012, voters approved using the Parks Category for maintenance of all Parks Department properties).

Unfunded CIP Needs

In addition to the nearly \$388.4 million in CIP projects listed in the Five-Year All Funds CIP Plan, the City has many unfunded projects that don't have an identified funding source. As shown in the table below, there is an estimated \$1.2 billion of the unfunded needs, which includes projects such as new facilities, facility improvements/renovations, bridge replacements, stormwater system improvements, and park system improvements. See the table on the following pages for a current list of unfunded projects.

Unfunded CIP Needs	Estimated Project Cost
Facility Improvements	\$32,456,500
Park/Trail/Open Space Improvements	401,883,330
Stormwater, Roads & Bridges	812,670,772
Total Unfunded CIP Needs	\$1,247,010,601

Failing corrugated metal pipe (CMP)

Steel girders on railroad bridge

Budget Development

Development of the annual City Budget is an ongoing process. However, the actual formulation of the budget is a year-long process that ends in December with the final review and formal adoption of the Budget.

Major Phases

March - April

Planning

1. Budget Team develops the 2016 Budget Manual
2. Budget Team meets weekly to resolve issues and prepare budget outlook.
3. Budget Office presents financial outlook and key fiscal issues for upcoming year.

May - June

Department & Division Budget Requests

1. In conjunction with the Budget Office, departments and divisions prepare budget proposals.
2. Budget Office and departments together prepare summaries and recommendations for Budget Review Committee sessions with departments.
3. A budget-focused citizen survey input is developed and survey results are compiled and presented to City Council

July - September

Formulation of the Mayor's Budget

1. The Budget Review Committee conducts budget review sessions to review budget submittals of the departments and divisions.
2. Final adjustments in revenue and expenditure estimates prepared
3. Mayor balances budget.
4. Budget Office prepares Budget document.

October - November

Review, Public Input and Budget Markup

1. City Council reviews recommended Budget.
2. City Council holds budget work sessions.
3. Public Hearing/E-Town Hall held on Budget.
4. City Council makes allocation and policy decisions at final budget markup session.

November - December

Final Review and Adoption

1. First reading of appropriation ordinances held adopting Budget and setting the annual tax levy.
2. City Council sets mill levy.
3. Second reading of appropriation ordinances held adopting Budget and setting the annual tax levy.
4. Budget Office produces final Budget document.

2016 Budget Calendar

DECEMBER	
5 calendar days after receipt or December 2	City Charter deadline for Mayor's veto (within 5 calendar days of Mayor's receipt)
December 8	Council vote to determine override of Mayor veto; 2016 City Budget finalized
December 10	Deadline for Mayor to receive Budget
December 15	Deadline for certifying mill levy to County (CRS §39-5-128) and adopting budget (CRS §29-1-108)
December 31	Deadline for appropriating budget (CRS §29-1-108 and City Charter 7-50)

GFOA Distinguished Budget Award Program Requirements

Budget Best Practices		
GFOA Item	GFOA Requirements	City
Table of Contents	The document shall include a table of contents that makes it easier to locate information in the document.	<ul style="list-style-type: none"> * City provides a table of contents * All pages in the document are numbered * The page number references in the budget table of contents agree with the related page numbers in the budget submission
Strategic Goals and Strategies	The document should include a coherent statement of organization-wide, strategic goals and strategies that address long-term concerns and issues.	<ul style="list-style-type: none"> * Non-financial policies/goals are included (Mayor's Letter, Strategic Plan, and General Fund Forecast) * These policies/goals are included with the Budget Message * Other planning processes discussed are in the Capital Improvement Program (CIP) section
Short-term organization factors	The document should describe the entity's short-term factors that influence the decisions made in the development of the budget for the upcoming year.	<ul style="list-style-type: none"> * Short-term factors are addressed (Overview) * The document discusses how short-term factors guided the development of the annual budget (Overview) * A summary of service level changes is presented (Overview)
Priorities and Issues	The document shall include a budget message that articulates priorities and issues for the upcoming year. The message should describe significant changes in priorities from the current year and explain the factors that led to those changes. The message may take one of several forms (e.g., transmittal letter, budget summary section)	<ul style="list-style-type: none"> * The message highlights the principal issues facing the governing body in developing the budget (e.g., policy issues, economic factors, regulatory, and legislative challenges) (Overview) * The message describes the action to be taken to address the issues * The message explains how the priorities for the budget year differ from the priorities of the current year * The message is comprehensive enough to address the entire entity
Budget Overview	The document should provide an overview of significant budgetary items and trends. An overview should be presented within the budget document either in a separate section (e.g., executive summary) or integrated within the transmittal letter or as a separate budget-in-brief document.	<ul style="list-style-type: none"> * An overview is contained in the budget message/transmittal letter, executive summary, and will be included in the annual Budget in Brief document (Overview & All Funds Summary) * Summary information on significant budgetary items and budgetary trends are conveyed in an easy to read format
Organization Chart	The document shall include an organization chart for the entire entity.	<ul style="list-style-type: none"> * An organization chart is supplied for the entire entity
Fund Descriptions and Fund Structure	The document should include and describe all funds that are subject to appropriation.	<ul style="list-style-type: none"> * A narrative or graphic overview of the entity's budgetary fund structures included in the document * The document indicates which funds are appropriated * The document includes a description of each individual major fund included within the document

Budget Best Practices		
GFOA Item	GFOA Requirements	City
Department/ Fund Relationship	The document should provide narrative, tables, schedules, or matrices to show the relationship between functional units, major funds, and non-major funds in the aggregate.	* The relationship between the entity's functional unit, major funds, and non-major funds is explained or illustrated in several sections and in the departmental narratives
Basis of Budgeting	The document shall explain the basis of budgeting for all funds, whether cash, modified accrual, or some other statutory basis.	* The basis of budgeting is defined in the Appendix * The basis of budgeting is the same as the basis of accounting and is clearly stated in the All Funds Summary
Financial Policies	The document should include a coherent statement of entity-wide long-term financial policies.	* There is a summary of financial policies and goals stated in the Appendix * The financial policies include the City's definition of balanced budget and are all presented in one place
Budget Process	The document shall describe the process for preparing, reviewing, and adopting the budget for the coming fiscal year. It also should describe the procedures for amending the budget after adoption.	* A description of the process used to develop, review, and adopt the budget is included in the Appendix * A budget calendar provided to supplement (not replace) the narrative information on the budget process is provided in the Appendix * A discussion of how the budget is amended provided in the budget document available to the public (Appendix)
Consolidated Financial Schedule	The document shall present a summary of major revenues and expenditures, as well as other financing sources and uses, to provide an overview of the total resources budgeted by the organization.	* The document includes an overview of revenues and other financing sources and expenditures and other financing uses of all appropriated funds * Revenues and other financing sources and expenditures and other financing uses presented together in separate but adjacent/sequential schedules * Revenues are presented by major type in this schedule * Expenditures presented by function, organizational unit is presented in this schedule
Three/(four) Year Consolidated and Fund Financial Schedules	The document must include summaries of revenue and other financing sources, and of expenditures and other financing uses for the prior year actual, the current year budget and/or estimated current year actual, and the proposed budget year.	* For the annual budget, the revenue and other financing sources and expenditures and other uses for the prior year, the current year, and the budget year are presented together on schedules presented on adjacent pages (Overview) * The information is presented for the appropriate funds in total (All Funds Summary and Appendix) This information is also presented for each major fund and for other funds in the aggregate (All Funds Summary)

Budget Best Practices		
GFOA Item	GFOA Requirements	City
Fund Balance	The document shall include projected changes in fund balances, as defined by the entity in the document, for appropriated governmental funds included in the budget presentation.	<ul style="list-style-type: none"> * The document includes the entity's definition of "fund balance" (Appendix) * The fund balance information presented for the budget year (All Funds Summary) * There is a schedule showing (1) beginning fund balances, (2) increases and decreases in total fund balances (reported separately), and (3) ending fund balances for appropriated funds (All Funds Summary) * This information is presented at a minimum for each major fund and for non-major funds in the aggregate (All Funds Summary) * Fund balances of any major or non-major funds in the aggregate that are anticipated to increase or decline by more than 10% is shown (All Funds Summary)
Revenues	The document shall describe major revenue sources, explain the underlying assumptions for the revenue estimates, and discuss significant revenue trends.	<ul style="list-style-type: none"> * Individual revenue sources are described (Overview and All Funds Summary) * The revenue sources used to estimate revenue for the budget year described represents at least 75% of total revenue of appropriated funds * The methods used to estimate revenues for the budget year described are shown in Overview section * Revenues are projected based on trend information, and both those trends and the underlying assumptions are adequately described
Long-Range Financial Plans	The document should explain long-range financial plans and its affect upon the budget and the budget process.	<ul style="list-style-type: none"> * Long-range financial outlook is included
Capital Expenditures	The document should include budgeted capital expenditures, whether authorized in the operating budget or in a separate capital budget.	<ul style="list-style-type: none"> * The document defines "capital expenditures" (CIP Section) *The document indicates the total dollar amount of capital expenditures for the budget year (CIP Section) * Significant nonrecurring capital expenditures are described along with dollar amounts (CIP Section)
Impact of Capital Investments on Operating Budget	The document should describe if and to what extent significant nonrecurring capital investments will affect the entity's current and future operating budget and the services that the entity provides.	<ul style="list-style-type: none"> * The anticipated operating costs associated with significant nonrecurring capital investments described and quantified * Anticipated savings or revenues expected to result from significant nonrecurring capital investments described and quantified
Debt	The document shall include financial data on current debt obligations, describe the relationship between current debt levels and legal debt limits, and explain the effects of existing debt levels on current operations.	<ul style="list-style-type: none"> * Debt limits are described and the amounts of those debt limits are expressed in terms of total dollars, millage rates or percentage of assessed value (All Funds Summary) * The City clearly states the type of debt (All Funds Summary) * The amount of principal and interest payments for the budget year are shown for each debt issuance (All Funds Summary)

Budget Best Practices		
GFOA Item	GFOA Requirements	City
Position Summary Schedule	A schedule or summary table of personnel or position counts for prior, current and budgeted years shall be provided.	<ul style="list-style-type: none"> * A summary table or position counts is provided for the entire City (Personnel Summary) * The table includes prior year, the current year, and budget year position counts * Changes in staffing levels for the budget year are explained in the narratives
Department Descriptions	The document shall describe activities, services or functions carried out by organizational units.	* The document clearly presents the organizational units and provides a description of each unit (Narratives)
Unit Goals and Objectives	The document should include clearly stated goals and objectives or organizational units.	<ul style="list-style-type: none"> * Unit goals and objectives are identified and goals are clearly linked to overall goals of the City (Breakthrough Strategies - Narratives) The goals and objectives are quantifiable and timeframes are shown
Performance Measures	The document should provide objective measures of the progress toward accomplishing the government's mission as well as goals and objectives for specific units and programs.	<ul style="list-style-type: none"> * Performance data directly related to the stated goals and objectives of the unit (Breakthrough Strategies - Narratives) * Performance measures focus on results and accomplishments rather than inputs (Appendix)
Statistical/ Supplemental Section	The document should include statistical and supplemental data that describe the organization, its community, and population. It should furnish other pertinent background information related to the services provided.	<ul style="list-style-type: none"> * Performance data for individual departments is included in the final document (Appendix) * The statistical information that defines the community is included in the document * Supplemental information on the local economy is included in the document * Other pertinent information on the community is also provided
Glossary	A glossary should be included for any terminology that is not readily understandable to a reasonably informed lay reader.	<ul style="list-style-type: none"> * A glossary that defines technical terms related to finance and accounting, as well as non-financial terms related to the entity, is included in the document * Any acronyms or abbreviations used in the document are defined in the glossary * The glossary is written in a non-technical language
Charts and Graphs	Charts and graphs should be used to highlight financial and statistical information. Narrative interpretation should be provided when the messages conveyed by the graphs are not self-evident.	<ul style="list-style-type: none"> * Graphs and charts are used throughout the document to convey essential information * The graphics supplement the information contained in the narratives
Understandability and Usability	The document should be produced and formatted in such a way as to enhance its understanding by the average reader. It should be attractive, consistent, and oriented to the reader's needs.	<ul style="list-style-type: none"> * Page formatting is consistent, main sections are easily identifiable, and the level of detail is appropriate * The text, tables, and graphs are legible and the budget numbers in the document are accurate and consistent throughout the document

Financial Policies

The City of Colorado Springs (“the City”) is a Colorado home rule municipality operating under its City Charter. The City functions under the direction of an elected Mayor. The purpose of these policies is to help frame resource allocation decisions and establish objectives, standards, and internal controls for the funds of the City. Financial policies have been adopted and used to frame major policy initiatives.

The following policies are summarized:

Section 2 - General Financial Policy.....	2-5
Section 3 - Budget Policy.....	5-9
Section 4 - Debt Policy.....	9-11
Section 5 - Cash Management Policy.....	11
Section 6 - Investment Policy.....	11-12
Section 7 - Fund Balance Policy.....	12-14
Section 8 - Capital Improvement Program Policy....	14-15
Section 9 - Revenue Policy.....	15
Section 10 - Expenditure Policy.....	15-16
Section 11 - Grants Policy.....	16-18
Section 12 - Identify Theft Prevention Policy.....	18

A number of source documents provide the financial policies for the City. The State Constitution and the City Charter provide the basic legal requirements and timelines for policies; while City Council approves ordinances and resolutions that provide more specific direction that responds to the needs of the City.

Section 1 – Financial Management Overview

The City of Colorado Springs (“City”) is a Colorado home rule municipality operating under its City Charter. The City functions under the direction of an elected Mayor and a nine-member City Council.

The following financial policies establish the framework for the City’s overall fiscal planning and management. It is the intent of the City that these policies demonstrate to residents, the credit rating industry, municipal bond investors, auditors, and the State that the City is committed to sound financial management and fiscal integrity. The goals of the City’s financial policies are:

- I. To support sustainable municipal services.
- II. To have a capital improvement program that identifies the financial resources needed to adequately maintain and enhance the public’s assets over their useful life.
- III. To provide cost-effective services to citizens and visitors.
- IV. To provide financial and other service information to enable citizens to assess the costs and results of City Services.
- V. To follow prudent and professional financial management practices to assure residents of the City of Colorado Springs and the financial community that our City government is well managed and annual spending plans are sound financial plans given the available resources.

This document is intended to be an overview of various financial policies and is not meant to be a detailed procedures source or detailed department specific source. If the material in this document does not answer a specific question, please contact the Finance Department.

Detailed City department policies provide more specific direction on how to achieve identified goals and are the basis for consistent actions that move the community and organization toward sound financial management decisions.

Section 2 – General Financial Policy

I. Fund Accounting

A fund is a separate, self-balancing set of accounts used to account for resources that are segregated for specific purposes in accordance with special regulations, restrictions or limitations.

The separation of the City's activities into funds allows the City to maintain the appropriate (required) controls over expenditures for each activity and to report on specific activities to interested citizens.

Fund Types: All funds are classified into six (6) fund types. These fund types, and the purpose of each are:

- a. General Fund – To account for the administrative, police and fire protection, parks, recreation, community development, infrastructure, and technology functions of the City. Principal sources of revenue consists of property taxes, franchise and occupancy taxes, sales and use taxes, licenses and permits, grants, charges for services, intergovernmental revenue, interest earnings, and operating transfers from other funds. Major expenditures are for personnel costs, materials and supplies, purchased services, capital outlay, and transfers to other funds.
- b. Special Revenue Funds – To account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. One or more specific restricted or committed revenues should comprise a substantial portion of the fund's resources but may also include other restricted, committed, and assigned resources.
- c. Capital Projects Fund – To account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets. Outflows financed by proprietary funds and assets held in trust are excluded.
- d. Debt Service Fund – To account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest.
- e. Enterprise Funds (also called Business or Proprietary Funds) – To account for operations that are financed and operated in a manner similar to private business enterprises, where the intent of the governing body is that the costs (expenses including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user determination of revenues earned, expenses incurred, and/or net income as appropriate for capital maintenance, public policy, management control, accountability, or other purposes.
- f. Fiduciary Funds – To account for resources received and held by the City in a fiduciary capacity. Disbursements from these funds are made in accordance with the trust or other agreements or conditions of the trust for the particular source of funds.

II. Accounting and Auditing Policies

The City maintains a system for financial monitoring, control and reporting for all operations, funds and agencies in order to provide effective means to ensure that overall City goals and objectives are met and to instill confidence in the City's partners and investors that the City is well-managed and fiscally sound.

The City maintains its accounting records and reports on its financial condition and results of operations in accordance with state and federal law and regulations and generally accepted accounting principles in the United States (GAAP), which are set by the Governmental Accounting Standards Board (GASB) and the Financial Accounting Standards Board (FASB).

Annually, an independent firm of certified public accountants performs a financial and compliance audit of the City's financial statements. Their opinions are included in the City's Comprehensive Annual Financial Report (CAFR) and the Single Audit Report as required by Subpart F-Audit Requirements in 2 CFR 200. See Section 11 – Grants Policy for additional information.

III. Basis of Accounting and Reporting Focus

The term "basis of accounting" refers to when revenues, expenses, expenditures – and the related assets and liabilities – are recognized in the accounts and reported in the financial statements. Specifically, it relates to the timing of the measurements made. The following are the basis of accounting available for use by the City:

- a. Cash Basis – Transactions are recognized only when cash is received or disbursed.
- b. Accrual Basis – Transactions are recognized when the economic event occurs, regardless of whether or not cash is received or paid. Proprietary funds, which encompass the enterprise funds, use the accrual basis of accounting. These funds have an income measurement/capital maintenance focus. The accrual basis of accounting is used by private enterprises as well.
- c. Modified Accrual Basis – Expenditure transactions are recognized when incurred. Revenues are recognized when they are both measurable and available to finance the expenditures of the current period. Governmental funds, including general, special revenue, debt service, and capital projects, use the modified accrual basis of accounting. For a revenue to be recognized in a governmental fund, it must be "measurable" (the amount must be known or be reasonably estimated), and it must be "available" to finance the expenditures of the same fiscal period for which the revenue is recorded. "Available," in this case, means collectible in the current period or soon enough thereafter to be used to pay liabilities of the current period. For purposes of consistency, that time-frame shall be thirty (30) days for all sales tax transactions or within sixty (60) days for all other transactions.

Reporting Focus (Budget vs. GAAP) – This concept is used to refer to the way transactions are recorded and reported for compliance with Colorado Budget Law as opposed to financial statement presentation in conformance with GAAP.

- a. Budget Basis – The City's monthly statement of revenues and expenditures are reported during the fiscal year on what is informally called a "budget basis." The City's transactions are recorded throughout the year in accordance with the financial statement requirements as set forth within the Colorado Revised Statutes. By recording the transactions in general compliance with this law, the revenues and expenditures can be more easily monitored on a monthly basis to ensure compliance with the legal requirements as set forth within the Colorado Revised Statutes.
- b. GAAP – At the end of the fiscal year, adjustments are made to present the financial information in a format that is comparable to that used by other local government units around the country. The

standards for this reporting are referred to as “generally accepted accounting principles” (or GAAP basis). The adjustments to convert the City’s financial records from “budget basis” to “GAAP basis” are made to ensure that the City’s financial statements are fairly and consistently presented in conformance with GAAP.

IV. Internal Control Structure

The City maintains an internal control structure consisting of the following three elements:

- a. Control Environment – an overall attitude and awareness of actions as they influence the City.
- b. Accounting System – an effective accounting system that results in identification and recording of all valid transactions, description on a timely basis of the type of transaction in sufficient detail to permit proper classification of the transaction for reporting purposes, recording of the transaction in the correct time period, and proper presentation of all transactions and related disclosures in the financial statements.
- c. Control Procedures – proper authorization of transactions and activities, adequate segregation of duties, adequate documentation and records, adequate safeguards regarding access and use of assets and records, and independent checks on performance.

Funds are categorized by standard GAAP functional classifications; and the development of new funds, departments, programs, and accounts shall be approved by the Finance Department.

Each fund in the City’s budget will have an introductory statement of purpose which shall consist of the intent of the fund, sources of revenue and restricted revenues, if any, and required reserves and justification for such reserves.

V. Financial Monitoring

The Budget Manager is charged with the primary responsibility for monitoring the fiscal implementation of the approved budget. In addition, the Budget Office and Finance Department will work closely with other departments to apprise them of their financial status and of any potential issues that may affect their budgets. The Budget Office and the Finance Department may review fiscal issues affecting any part of the City organization. This activity supports the monitoring role and focuses on the protection of City assets and the legal, efficient, and effective use of City resources. Together the Budget Manager and the Chief Financial Officer will provide City Council with regular reports on the City’s finances including a financial report containing budget versus actual revenue and expense information. These reports fulfill a requirement in City Charter §3-140.

Individual departments are responsible for monitoring and managing their resources to ensure that the legal and administrative appropriation to the department is not overspent and that all expenditures and uses of City resources are in conformity with City, state, and federal ordinances, statutes, policies, and regulations.

- a. Legal Appropriation – Each department is responsible for ensuring that expenditures do not exceed the legal appropriation level for their department within each fund, operating and capital expenditures combined.
- b. Revenues – Each department is responsible for monitoring revenues that are collected as a result of programs administered. If a significant change in the estimate for the current or future fiscal year’s results, the department must contact the Budget Office to advise of the change.

VI. Audit

The Charter and Code of the City of Colorado Springs, State of Colorado statutes, and federal laws and regulations will be followed wherever they apply to the financial activities of the City. The source of historical financial information about the City will be the central accounting system as operated and maintained by the Finance Department. The source of all current and future budget information, including spending plans, revenues, and expenditures, is the annual budget document.

- a. Internal Audit – The City of Colorado Springs Office of the City Auditor evaluates the adequacy of financial controls, systems, records, and organizational operations. They provide Council, management and employees objective analysis, appraisals and recommendations for improving systems and activities.
- b. External Audit – In accordance with City Charter §3-160, an annual external audit will be performed by an independent public accounting firm with the subsequent issuance of a financial report and opinion.
- c. Single Audit – The City contracts with an external firm to conduct a single audit on an annual basis as per 2 CFR 200. See Section 11 – Grants Policy for additional information on audit requirements

Section 3 – Budget Policy

I. Overview

The annual budget is an operational plan that provides the Mayor and City Council with the financial information necessary to guide resource allocation to accomplish the goals and objectives of the City. The budget details how municipal services will be provided. The budget, along with the annual appropriation ordinance and any supplemental appropriations, provide the basis for the control of expenditures and set the financial guidelines for the City. The basic legal requirements and budget process are defined by the State Constitution and City Charter.

II. Budget Philosophy

The City is committed to developing a sound financial plan for the operations and capital improvements that meet the City's Strategic Plan goals. The City provides a wide variety of services to residents and visitors. It is the responsibility of the City Council to adopt a budget and the Mayor's responsibility to manage the available resources to best meet the service needs for the overall good of the community. To achieve this, the City:

- a. Utilizes conservative growth and revenue forecasts;
- b. Prepares plans for operations and capital improvements;
- c. Allows staff to manage the operating and capital budgets, with City Council approving the allocations for both;
- d. Adopts financial policies;
- d. Establishes budgets for all funds based on adopted policies;
- e. Appropriates the budget in accordance with the City Charter and State Constitution; and
- f. Develops a budget that minimizes adverse impacts to the community.

III. Budget Preparation Process

The City identifies important community outcomes and develops a financial and service delivery plan to achieve those outcomes. City Council allocates funding based on current priorities and results, and does not simply increase the prior year's budget. Each year, the Budget Office prepares a forecast for the following year's budget. In May, the Budget Office prepares a budget manual with the Mayor's budget objectives and guidelines for developing the following year's budget for the departments use. In June and July, departments develop revenue and expense projections for the following year and submit them to the Budget Office. In July, departments present their budget to the Budget Review Committee for review and analysis. Not later than the first Monday in October, the Mayor submits a preliminary budget to City Council for review. In October, the citizens of Colorado Springs provide their feedback on the proposed budget and City Council holds work sessions on each department's proposed budget. In November, City Council may amend the Mayor's proposed budget. In December, City Council approves the budget and appropriations ordinances. The Mayor may then veto specific lines of the budget. The City Council can override the Mayor's vetoes with six votes. By December 31st City Council must adopt the following year's budget.

IV. State Statutory Requirements

The State Statute indicates that no later than October 15 of each year, the budget shall be submitted to the governing body. As a result, the Mayor presents the recommended budget for the ensuing fiscal year to City Council no later than October 15 of each year.

V. Colorado Springs City Charter Requirements

- a. Budget Fiscal Year – Colorado Springs City Charter §7-10.

The fiscal year of the City shall commence on the first day of January and end on the last day of December of each year (1909; 1977).

- b. Mayor's Powers and Duties – Colorado Springs City Charter §3-70 ©.

Every ordinance finally passed by the Council shall be presented to the Mayor within forty-eight hours thereafter for final adoption. If the Mayor approves such ordinance, he or she shall finally adopt it by signing it within five days after receiving it. If the Mayor disapproves, the ordinance shall be returned to the Council within five days with the Mayor's objections in writing. If then six (6) of the members vote to pass the same over the Mayor's veto, it shall become a finally adopted ordinance, notwithstanding the objections of the Mayor. If the Mayor does not return the ordinance with written objections within the time specified, it shall become finally adopted as if the Mayor had approved it. (2010)

(1) In any ordinance appropriating funds, the Mayor may disapprove specific line items without disapproving the entire ordinance. After disapproval of specific line items, the ordinance shall be returned to Council to complete the over-ride process as outlined above as to each line item vetoed. (2010)

(2) Notwithstanding the foregoing subsections, the Mayor shall not have power to disapprove by veto the following listed types of ordinances, this limitation applying only to the following specifically identified ordinances: an ordinance accomplishing any quasi-judicial act; an ordinance approving bonds to be issued by any City enterprise; an ordinance pertaining to Article VI, "Utilities," of this Charter; an ordinance submitting a Charter amendment to a vote of the qualified electors; or an ordinance proposing a Charter convention. (2010)

c. Specific Powers and Duties of the Mayor – Colorado Springs City Charter §4-40 (i).

(i) On or before the first Monday in October in each year, the Mayor shall furnish to the Council estimates in writing of the probable expenses to be incurred in the several departments of the City for the ensuing fiscal year, specifying in detail probable expenditures, including a statement of the salaries of all administrative officers and employees, and certify the amount of money to be raised by taxation during the ensuing fiscal year to make payment of interest, sinking fund, and principal of bonded indebtedness and also the estimated amount of revenue from all sources other than tax levy. At the same time or on such later date in each year as shall be fixed by the Council, the Mayor shall prepare and present to the Council the annual budget for the ensuing fiscal year, which shall include interest and sinking fund on the bonded debt. The budget so prepared shall be in such detail as to the aggregate sum and the items thereof allowed to each department, office, board, or commission as the Mayor may deem advisable except such as are fixed by law. (2010)

d. City Council Duties – Strategic Plan – Colorado Springs City Charter §3-10©.

To provide for the future of the City, Council shall maintain a strategic plan which prioritizes goals for the City Council and establishes measurable outcomes. The plan process shall consider public input. Council shall provide the plan and goals to the Mayor for consideration in the development of the municipal administrative budget. (1909; 1920; 1977; 1993; 2005; 2010)

e. Budget Process – Colorado Springs City Charter §7-30.

The City Council shall, upon receipt of the budget, adopt the budget with or without amendment. In amending the budget, the City Council may add or increase programs or amounts and may delete or decrease any programs or amounts, except amounts required by law or for debt service on general obligation bonds or for estimated cash deficit provided, however, that no amendment to the budget shall increase the authorized expenditures to an amount greater than the total of estimated income. (1909; 1977)

In adopting the budget, the City Council shall also estimate and declare the amount of money necessary to be raised by tax levy. The estimate shall take into account the amounts available from other sources to meet the expenses of the City for the ensuing fiscal year. The budget and estimate as finally adopted shall be signed by the Mayor and City Clerk and filed with the Chief Financial Officer. (1909; 1977) (Ed. Note: Formerly section 41)

The budget shall include all stipends and other expenses of City Council and the salary of the Mayor and the budget shall declare the amount of money necessary to fund the budget. Subject to any pre-existing bond covenants, the City Council's budget shall be apportioned among the City's general fund, its Utilities funds and its health system fund as a reflection of City Council's direct responsibilities for all municipal and Utilities matters as well as City Council's general supervision and control of health system matters based upon such reasonable allocation methodology as City Council may determine. (2005; 2010)

A public hearing is held on the fourth Thursday in October of each fiscal year to allow public comment upon the proposed budget.

f. Appropriations – Colorado Springs City Charter §7-50.

Upon the basis of the budget as adopted and filed, the several sums shall forthwith be appropriated by ordinance to the several purposes therein named for the ensuing fiscal year. Said ordinance shall be adopted not later than the thirty-first day of December in each year, and shall be entitled "The Annual Appropriation Ordinance." (1909; 1977) (Ed. Note: Formerly Section 43)

VI. Colorado Springs City Code Requirements

City Code §1.5 Financial Management Procedures details required financial management procedures. This section defines appropriation, budget, department, and special fund. It outlines procedures for the creation of accounts, amendments to the appropriation and tax levy ordinance, transfers of funds within departments or special funds, transfers of funds between departments or special funds, transfer of funds from contingency account, special projects abandonment or partial abandonment, special projects transfer of funds, special projects non-lapse of appropriations, and filing of inventories.

All appropriations not spent or encumbered at the end of the fiscal year lapse into the fund balance applicable to the specific fund, except for:

- a. Capital Projects – appropriations for capital projects, which do not lapse until the project is completed and/or closed out;
- b. Grant Funds – appropriations for federal or state grants, which do not lapse until the expiration of the grant.

The annual operating budget will normally provide for adequate funding of City retirement systems, adequate maintenance and/or replacement of capital plant and equipment, and adequate maintenance of an insurance fund, providing for self-insurance or using other acceptable insurance methods. If adequate funding cannot be budgeted, these differences shall be disclosed.

The budget includes appropriations for debt service payments and reserve requirements for all outstanding debt and for debt anticipated to be issued within the ensuing budget year.

Section 4 – Debt Policy

I. Overview

The City recognizes the primary purpose of facilities is to support provision of services to its residents. The City must balance debt financing and “pay-as-you-go” methods to meet the capital needs of the community. The City realizes failure to meet the demands of growth may inhibit its continued economic viability but also realizes too much debt has detrimental effects. Historically, the City’s total bonded indebtedness as a percentage of total general obligation debt limits has been minimal. As of 2013, the City has no general obligation debt.

The City uses lease purchase financing for several purposes, which include the acquisition of real property and the replacement of equipment and vehicles. Lease purchases decrease the impact of the cost to a department by spreading the costs over several years, and are subject to annual appropriation by City Council.

II. Colorado Springs City Charter Requirements Debt Limitations – Colorado Springs City Charter §7-80.

- a. *No bonds or other evidences of indebtedness, payable in whole or in part from the proceeds of ad valorem property taxes or to which the full faith and credit of the City are pledged in writing or otherwise shall be issued, except in pursuance of an ordinance authorizing the same, and unless the question of the issuance of the bonds shall at any special or general municipal election be submitted to a vote of the qualified electors of the City and approved by a majority of those voting on the question. However, City Council pursuant to ordinance and without election may:*

(1) Issue local improvement district bonds;

(2) Borrow money or issue bonds for the purpose of acquiring, constructing, extending or improving water, electric, gas, sewer, or other public utilities or income-producing projects provided, further, that said borrowing shall be repaid and said bonds shall be made payable solely out of the net revenue derived from the operation of the utility, utilities, or other income-producing projects, or any or all thereof. Net revenue shall mean gross revenue less all operation and maintenance expenses of the project for which the money has been borrowed or bonds issued.

b. *The City shall not become indebted for any purpose or in any manner to an amount which, including existing indebtedness, shall exceed 10% of the assessed valuation of the taxable property within the City as shown by the last preceding assessment for City purposes provided; however, that in determining the amount of indebtedness, there shall not be included within the computation of indebtedness local improvement district bonds, revenue bonds, or general obligation bonds or other evidences of indebtedness issued for the acquisition, construction, extension, or improvement of water facilities or supplies, or both. (1909; 1922; 1951; 1965; 1977) (Ed. note: Formerly section 47.)*

III. Security and Exchange Commission (SEC) Rule 15c2-12 "Municipal Securities Disclosure" Requirements

As a means reasonably designed to prevent fraudulent, deceptive, or manipulative acts or practices, it shall be unlawful for any participating underwriter (broker, dealer, or municipal securities dealer) to act as an underwriter in a primary offering of municipal securities with an aggregate principal amount of \$1 million or more unless the participating underwriter complies with SEC Rule 15c2-12 requirements or is exempted from the provisions of the Rule.

The City is committed to providing timely and consistent dissemination of financial information with SEC regulatory requirements. It is imperative that disclosure be accomplished in a timely fashion in accordance SEC required SEC Rule 15c2-12 compliance and the City's Disclosure Dissemination Agent Agreement (DDAA).

This disclosure policy confirms the City's commitment to fair disclosure. Its goal is to develop and maintain guidelines for presenting related financial reports and events to interested third parties, financial institutions and the general public.

This policy covers all City employees and elected officials of the City. It covers disclosure documents filed with the SEC, statements made in the City's CAFR, and any unaudited interim reports.

IV. Establishment of a Disclosure Working Group

Through authority of the Finance Department of the City, the City has authorized the establishment of a Disclosure Working Group (DWG) consisting of the Chief Financial Officer, Mayor and City Attorney. As a group, the DWG will decide when material developments justify release and meet as conditions dictate.

The role of the DWG is to systematically review filings, reports and other public statements to determine whether any updating or correcting of information is appropriate. The DWG will review and update, if necessary, the disclosure policy on an annual basis. The DWG will react quickly to negative developments and events that affect the City and notify SEC, when appropriate.

The City's primary spokesperson related to Audited Financial Statements, other financial reports, and events is the Chief Financial Officer. The Mayor and City Attorney are designated alternative spokespersons and will be fully apprised of City's financial developments. Others within the City or its agencies may, from time to time, be designated by the Chief Financial Officer as spokespersons on behalf of the City and respond to specific inquiries. It is essential that the DWG be fully apprised of all material

developments of the City in order to evaluate, discuss those events and determine the appropriateness and timing for release.

The City or its designated agent must provide continuing disclosure documents and related information to the Municipal Securities Rulemaking Board's EMMA (a regulator) website at <http://dataport.emma.msrb.org>.

Section 5 – Cash Management Policy

I. Scope

The City recognizes that effective cash management is an integral component of sound financial management. Therefore it is the policy of the City that funds deemed idle, based on projected cash flow, shall be invested in a manner that seeks to maximize their productivity until such time as they are needed for the operation of the City. (Refer to Section 6 – Investment Policy)

II. Cash Deposits and Receipts

- a. Departments collecting cash receipts, whether in cash or other forms of payment, must turn in such receipts to the Finance Department on a daily basis together with records required to verify accuracy of such collections.
- b. Departments authorized to make deposits should promptly submit bank deposit receipts and daily cash reports to the Finance Department to verify the accuracy of collections.
- c. The Finance Department will set forth general cash handling procedures to be followed for all City departments. Departments may have more restrictive policies but will not have less restrictive policies as set forth from the Finance Department.

Section 6 – Investment Policy

I. Investment Policy – Operating and Reserve Accounts

Existing Colorado State Statutes provide home rule municipalities with legal authority to promulgate and implement local standards for cash and investment management operations. City Code 1.6.102 states that we will invest in securities in a manner authorized by Colorado statutes and as directed by City Council. The purpose of the City's Investment Policy is to establish the investment scope, objectives, delegation of authority, standards of prudence, reporting requirements, internal controls, eligible investments and transactions, diversification requirements, risk tolerance, and safekeeping and custodial procedures for the investment of the funds of the City.

The Investment Policy was adopted by the City Council of the City of Colorado Springs by resolution on September 28, 1993. It was revised on November 8, 1994, February 27, 1996; October 8, 1996; October 26, 1999; February 12, 2002; March 9, 2004; May 24, 2005; July 11, 2006; April 24, 2007; June 24, 2008; May 26, 2009; May 25, 2010; November 22, 2011; December 10, 2013; and November 10, 2014. It replaces any previous investment guidelines formulated by members of City staff.

III. Cemetery Endowment Fund Investment Policy

City Code §1.6.102(B):

The Chief Financial Officer may establish other trusts or accounts to invest assets of the cemetery endowment fund, assets of the C.D. Smith trust fund and other nontax funds in investments other than those listed in Colorado statutes. These funds shall be subject to the standards of the City investment policy as approved by City Council and investment guidelines established by the Chief Financial Officer for each trust fund or account.

The Cemetery Endowment Investment Policy was last adopted by the City Council of the City of Colorado Springs by Resolution No. 212-11 on November 22, 2011. The purpose of the Cemetery Endowment Fund is to provide perpetual maintenance of the cemeteries under the jurisdiction of the City. The type of investment assets held by the Fund shall vary from time to time in response to changes in the economy and prospects for achieving the Endowment's objectives commensurate with prudent risk.

IV. Investment Advisory Committee

City Council created the Investment Advisory Committee for the City of Colorado Springs by Resolution No. 157-91 on September 24, 1991. The Investment Advisory Committee shall advise City Staff and as deemed necessary make recommendations to the City Council as to the investment policies and procedures of the City. The citizen members shall be selected for their skills in investment and finance. However, this Committee is not responsible for advice for investment of the Utilities Fund as that operation has existing Boards or Commissions for this purpose.

Section 7 – Fund Balance Policy

I. Overview

The City's Fund Balance is the accumulated difference between assets and liabilities within governmental funds. A sufficient fund balance allows the City to meet its contractual obligations, provide funds for new and existing programs established by City Council, mitigate negative revenue implications of federal or state budget actions, mitigate economic downturns, fund disaster or emergency costs, provide funds for cash flow timing discrepancies and fund non-recurring expenses identified as necessary by City Council.

II. Governmental Fund Balance Type Definitions

The Governmental Accounting Standards Board (GASB) issued Statement Number 54, "*Fund Balance Reporting and Governmental Fund Type Definitions*" effective for periods after June 15, 2010. The objective of this Statement was to enhance the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied and by clarifying the existing governmental fund type definitions. This Statement establishes limitations on the purposes for which fund balances can be used.

- a. *Non-spendable Fund Balance* – Some assets reported in governmental funds may be inherently non-spendable from the vantage point of the current period.
 - Assets that will never convert to cash such as prepaid items or inventories,
 - Assets that will not convert to cash soon enough to affect the current period such as non-financial assets held for resale,
 - Resources that must be maintained intact pursuant to legal or contractual requirements such as capital of a revolving loan fund.

- b. Restricted Fund Balance – This represents the portion of fund balance that is subject to externally enforceable legal restrictions. Such restrictions are typically imposed by parties altogether outside the City such as creditors, grantors, contributors or other governments. Restrictions can also arise when the authorization to raise revenues is conditioned upon the revenue being used for a particular purpose.
- c. Committed Fund Balance – This represents the portion of fund balance whose use is constrained by limitations that the City imposes on itself by City Council (highest decision making level) and remains binding unless removed in the same manner. The City does not use committed funds in its normal course of business.
- Requires action by City Council to commit fund balance
 - Formal City Council action is necessary to impose, remove or modify a constraint reflected in the committed fund balance
- d. Assigned Fund Balance – This describes the portion of fund balance that reflects the City's intended use of resources. This authority rests with the Mayor and is delegated to staff through the use of encumbrances.

III. General Fund Unrestricted Fund Balance

A top priority goal of the Mayor is to improve the long-term fiscal health of the City. Revenue projections are conservative and authorized expenditures are closely monitored. In stable economic times, the combination of these two strategies leads to revenue collections higher than actual expenditures.

Net revenue (actual revenue collections less actual expenditures) is available to first fund the Taxpayer's Bill of Rights (TABOR) reserve for emergencies required under Article X, §20 of the Colorado State Constitution and then to the designated reserves. Year-end balances in the undesignated reserves may be used as a funding source in the next budget year.

The City's policy is to accumulate adequate reserves to protect the City during economic downturns or large scale emergencies. The City also maintains reserves that are required by law or contract and that serve a specific purpose. These types of reserves are considered restricted and are not available for other uses. Within specific funds, additional reserves may be maintained according to adopted policies.

The Government Finance Officers Association (GFOA) is a professional association of state and local finance officers in the US and Canada whose members are dedicated to the sound management of government financial resources. GFOA recommends that "governments establish a formal policy on the level of unrestricted fund balance that should be maintained in the general fund."¹

The GFOA recommends, at a minimum, that general-purpose governments, regardless of size, incorporate in its financial policies that unrestricted fund balance in their general fund be no less than two months of regular general fund operating revenues or regular General Fund operating expenditures.

The City's goal target range for General Fund Reserve – Unrestricted Fund Balance is 16.67 % to 25% of the following year's expenditure budget. The target for the unrestricted General Fund balance would exclude the TABOR emergency reserves but include other categories of fund balance that are committed, assigned or unassigned.

¹ "Appropriate Level of Unrestricted Fund Balance in the General Fund (2002 and 2009)(BUDGET and CAFR), Government Finance Officers Association

IV. The Taxpayer's Bill of Rights City Charter §7-90(e) – Emergency Reserves

For use in declared emergencies only, the City shall reserve in 1991 one percent (1%) or more, in 1992 two percent (2%) or more, and in all later years three percent (3%) or more of fiscal year spending. An unused reserve shall apply to the next year's reserve. (1991)

"Emergency" is defined to exclude economic conditions, revenue shortfalls, or City salary or fringe benefit increases.

V. Other Funds

- a. Enterprise and some Special Revenue Funds – These reserves provide for unexpected revenue losses or unanticipated expenditures during the year. A portion of these reserves may be appropriated as part of the annual budget and may be utilized at the end of the fiscal year if necessary.
- b. Internal Services Funds – Internal Services Funds are expressly designed to function on a cost-reimbursement basis and should not accumulate a significant reserve. A small reserve is appropriate to allow for differences in timing of revenues and expenditures.
- c. Self Insured Fund Reserves – As required by the State of Colorado Self Insurer's Reserve Trust Agreement, the City maintains a fund balance reserve for liability and workers' compensation.

VI. Debt Reserves

Debt reserves are established to protect bond holders from payment defaults. Adequate debt reserves are essential in maintaining good bond ratings and the marketability of bonds. The amount of debt reserves are established by bond ordinance for each fund in association with each bond issuance. At times, it may be desirable to use bond insurance rather than debt reserves. This is usually based on the recommendation from our Financial Advisor.

VII. Use of Fund Balances

Available fund balances shall not be used for ongoing operating expenditures.

Section 8 – Capital Improvement Program Policy

I. Overview

The City has a significant investment in its streets, facilities, parks, natural areas and other capital improvements. In past years, the City Council and the residents of Colorado Springs through their actions have demonstrated a firm commitment to and investment in City capital projects.

II. City Charter Requirement §4-40(b)(1), – Five-Year Capital Improvement Program (CIP) Plan

The strategic plan shall include the Comprehensive Plan and a five-year capital improvements plan for municipal needs.

III. Funding Sources and Requirements

- a. All City capital improvements will be constructed and expenditures incurred for the purpose as approved by City Council, with funds rolled over from year to year until a project is deemed complete.
- b. The City will use a variety of different sources to fund capital projects, with an emphasis on the "pay-as-you-go" philosophy.

- c. Funding for operating and maintenance costs for approved capital projects must be identified at the time projects are approved.

IV. Transfer of Funds

Funds cannot be transferred from one active CIP project to another without City Council's approval.

Section 9 – Revenue Policy

The City shall strive to maintain a balanced and diversified revenue structure to protect the City from fluctuations in any one source due to changes in local economic conditions which adversely impact that source.

Revenue estimates will be conservative and based upon trend analysis, economic conditions and other factors. Estimates will be established by the Budget Office and reviewed by the Mayor, Chief of Staff, and Executive Team.

Non-recurring revenues and other financing sources will not be used to finance ongoing operations with the exception of the use of approved grants or the use of fund balance in accordance with fund balance policies.

Federal aid, state aid, gifts, and grants will be accepted only after an assessment is made of potential cost implications.

- a. Grants will be spent for the purposes intended and will not be relied on for basic General Fund services.
- b. The City will review grants for operating programs on an individual basis to determine suitability of accepting the grants from a sustainable long-term financial perspective.
- c. The City will vigorously pursue grants for capital projects that fit long-range community improvement goals.
- d. All potential grants will be carefully examined for matching requirements; both dollar and level-of-effort matches.

The City will review its fees and other charges for services annually to ensure that revenues are meeting intended program goals and are keeping pace with inflation, other cost increases and any applicable competitive rate. The City will evaluate cost recovery and align fees with cost recovery goals.

Enterprise and Internal Service operations will be self-supporting.

Section 10 – Expenditure Policy

The City will pursue goals of efficiency and effectiveness by balancing short-term and long-term community needs.

Current operating expenditures will be funded with current operating revenues, approved grants, or the use of fund balance in accordance with fund balance policies. The Budget Office and Finance Department will monitor revenues and expenditures during the year to provide an opportunity for actions to be taken to bring expenditures in line with revenues received.

The City will undertake periodic reviews of City programs for both efficiency and effectiveness. Privatization and contracting with other governmental agencies will be evaluated as alternatives to services delivery. Programs that are determined to be inefficient and/or ineffective shall be reduced in scope and eliminated.

Section 11 – Grants Policy

The City will follow all terms and conditions included in the grant agreement. City Departments and staff that occupy positions of responsibility with respect to grant activity have specific roles and responsibilities that they shall perform and uphold both ethically and in the best interests of the City. City Council has responsibility for approving spending of grant funds through approval of the annual budget, which includes an amount appropriated for grant awards received throughout the fiscal year.

I. Conflict of Interest

No employee or official of the City shall have any interest, financial or otherwise, direct or indirect, or have any arrangement concerning prospective employment that will, or may be reasonably expected to, bias the design, conduct, or reporting of a grant funded project on which he or she is working.

It shall be the responsibility of the Grant Administrator for each particular grant-funded project to ensure that in the use of sponsor funds, officials or employees of the City and nongovernmental recipients or sub-recipients shall avoid any action that might result in, or create the appearance of:

- a. Using his or her official position for private gain
- b. Giving preferential treatment to any person or organization
- c. Losing complete independence or impartiality
- d. Making an official decision outside official channels
- e. Affecting adversely public confidence in the grant funded program in particular and the City in general

II. Accounting and Reporting

- a. The accounting system will separate revenues and expenditures by funding source for all grants. The accounting system will break down revenues and expenditures for each individual grant via the project system and supporting documentation will be maintained in the financial system for all grant expenditures, as is required of all expenditures.
- b. The accounting system has a project system that tracks all revenues and expenditures by the specific grant or project by line item or by broad category as may be included in a grant application budget. Grant Administrators will reconcile on a regular basis to ensure all revenues and expenditures are being appropriately coded to the correct grant. Project system reports can be run to accommodate different grant time periods that may differ from calendar year reporting.
- c. Federal grant funds will not be commingled with funds from other Federal grants or other local match money. When applicable, any matching funds for a grant will be tracked by the department who is responsible for the grant and will only include items that directly correlate to an approved activity identified in the grant proposal.
- d. Capital assets are tracked through the fixed asset system and, if a grant has purchased a capital asset, will be noted in the fixed asset system using the project system identified above. The City also tracks related award information as required per 2 CFR 200, §200.313(d), Management Requirements.
- e. Only allowable costs will be allocated to a grant.

- f. Grants will only be budgeted when a grant award letter or statement of grant award has been received. The budget will be allocated from the annual Grants Appropriation included in the annual budget, approved by City Council each fiscal year.
- g. City departments are responsible for all aspects of the grant process including planning for grant acquisition, preparation and submitting grant proposals, preparing Resolution requests to accept funds, developing grant implementation plans, managing grant programs, preparing and submitting reports to grantors, and properly closing out grant projects. Department staff and Finance staff will maintain a close working relationship with respect to any grant activity to ensure a clear understanding of the project status.

III. Documentation

All grant expenses must comply with the terms set forth in the grant application, grant award letter, city procurement policies and the guidelines in the Office of Management and Budget Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance), 2 CFR 200.

- a. Documentation for all expenditures must be retained by the department for audit purposes and should include:
 - i. Timesheets certified or signed by the employee and approved by their supervisor for all payroll expenses
 - ii. Purchasing documents for expenditures (if necessary based on dollar amount of purchase)
 - iii. City, state or governmental agreement number
 - iv. Formal bids for all purchases requiring such a process per City or Federal regulation, and price or rate quotation documentation for all purchases that do not exceed the Simplified Acquisition Threshold on Federally funded grants per 2 CFR 200, §200.320(b).
 - v. Detailed receipts or invoices
 - vi. General Ledger detail showing revenue and expenditure activity, reviewed on a regular basis, and reconciled to detail provided to granting agencies.
- b. The City's Finance Department, with the assistance of specific grantee City departments, shall maintain the following information:
 - i. Identify, through a project and account structure, all federal awards received and expended and the federal programs under which they were received. All awards should be identifiable by the Catalog of Federal Domestic Assistance (CFDA) title and number, award number, award year, name of federal agency, and the name of the pass-through agency (if applicable).
 - ii. Maintain internal control over federal programs that provides reasonable assurance that the grantee is managing the award in compliance with the laws, regulations, and the provisions of the contract or grant agreement.
 - iii. Comply with laws, regulations and the provisions of contract or grant agreements related to each grant award.

- iv. Prepare required financial statements, including financial statements that reflect the entity's financial position, results of operations or changes in net assets, and where appropriate, cash flows for the fiscal year audited. In addition, a schedule of federal assistance will be prepared for the external auditors which include all federal grants.
- c. Grant documents should be read carefully to ensure compliance with all grant requirements. Additional documentation may be required under the terms and conditions of the specific grant award to include, but not limited to, procurement justification, grant reconciliation frequency, cash match calculation and tracking, and records retention.
- d. Grant administrators are responsible for confirming that the information in the financial system is accurate as outlined above.

IV. Audit

Per OMB Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, 2 CFR 200 §200.501, all non-federal entities that expend \$750,000 or more in a year on Federal awards, either as the grantee or the sub-grantee, shall have a single or program-specific audit conducted for that year in accordance with the provisions of the Uniform Guidance. The single audit encompasses both the entity's financial statements and the Federal awards received by the entity; whereas a program-specific audit will audit one Federal program and can only be used when the grantee receives grant awards only from one Federal program. The city contracts with an external firm to conduct a single audit on an annual basis. The awarding agency may also specify additional audit requirements in the grant award letter or grant guidance.

The Finance Department, with the assistance of the specific grantee City departments, shall follow up and take corrective action on all audit findings.

Section 12 – Identify Theft Prevention Policy

In 2008, Congress directed the Federal Trade Commission (FTC) and other agencies to develop regulations requiring "creditors" and "financial institutions" to address the risk of identity theft. The resulting Red Flag Rules requires all such entities that have "covered accounts" to develop and implement written identify theft prevention programs.

The FTC defined "creditors" as businesses or organizations that regularly defer payment for goods or services and bill customers later. This includes nearly any organization extending credit, whether by granting loans, making credit decisions, etc.

Pursuant to the FTC enforcement policy of the Identify Theft Red Flags Rule, the City of Colorado Springs has evaluated risk factors to develop a policy designed to help identify, detect, and respond to patterns, practices, or specific activities – known as "red flags" – that could indicate identify theft.

2016 Performance Measures

Community Indicators/Benchmarks

Airport Enplanements – Stabilizing at a Lower Level of Air Service

Between 2008 and 2012, four Airline mergers consolidated eight major airlines into four: American Airlines Group Inc, United Continental Holdings Inc, Delta Airlines Inc, and Southwest Airlines Co. This consolidation has hit small hub airports like Colorado Springs Airport the hardest. In response, the Airport continues to improve its marketability, revenue diversity, and debt position creating a profitable environment airlines look for when adding or expanding air service. The City will continue to actively pursue additional air service to ensure the long-term viability of the Airport and its ability to drive local economic growth.

Source: Colorado Springs Airport

Debt Per Capita – Outstanding City Debt

Comparable cities issue significant debt (largely General Obligation Bonds) to finance long-term projects and investments in City infrastructure, assets, and other projects.

In 1999, the City issued \$87.9M in sales tax revenue bonds, with \$2.8M in outstanding payments to date. The City currently has no general obligation debt.

Source: Respective City Budgets/Websites

Community Indicators/Benchmarks

Fund Balance (General Fund) – Responsible Savings

The City of Colorado Springs has a higher General Fund balance than comparable cities.

The fund balance is intended to create a responsible reserve should the City experience any significant emergencies or disasters requiring the use of additional, non-budgeted funds. The City will continue to seek to maintain a responsible fund balance.

Source: Respective Cities Budgets/Websites

Acres Mitigated

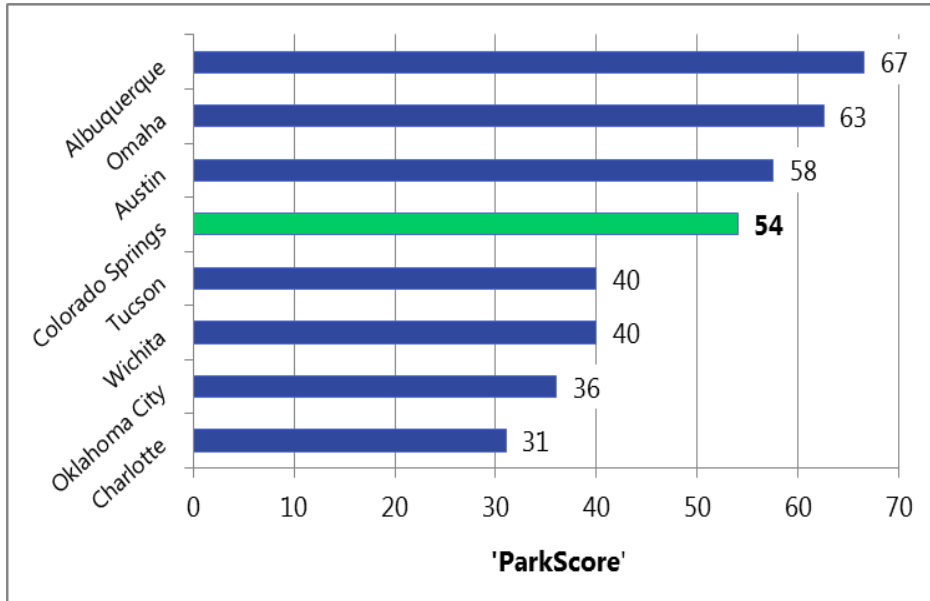

The City of Colorado Springs' Fire Department has a commitment to fire mitigation and education to actively work to reduce fire danger around the area.

For 2016, there is minimal anticipated grant funding for fire mitigation. Fire mitigation efforts rely heavily on grant funding for seasonal employees and contract work.

Source: City of Colorado Springs Fire Department

Community Indicators/Benchmarks

'ParkScore' – A Top Parks City

The Trust for Public Land ranks the top 50 largest cities on a 'ParkScore' index (based on park acreage, service and investment in parks, and access), ranking the top 50 cities from a scale of 0-100. Colorado Springs ranks 38th, behind three of our comparable cities.

Colorado Springs received high scores in park acreage, and playgrounds, a medium score in access and a relatively low score in spending per resident.

Source: The Trust for Public Land (2015)

Transit Revenue Service Hours/Capita – Average Transit Service Hours/Capita

Compared to other similarly-sized communities, Colorado Springs provides a below average level of fixed-route bus service and average level of paratransit service, as measured by revenue service hours per capita.

Revenue service hours is a measurement of how much transit service is provided "on the street" within a community.

Source: Federal Transit Administration – National Transit Database (2013)

Community Indicators/Benchmarks

'Walk Score' – Below-Average Walkability

Based on 'Walk Score', the City of Colorado Springs rates below average as compared to the peer set on average walkability across the City.

Walkability plays an important role in the attractiveness of a City. 'Walk Score' measures the walkability of any address based on distance to amenities, and pedestrian friendliness by analyzing population density and road metrics.

Source: Walk Score (2015)

Volunteer Hours Citywide – Increased Volunteerism

Colorado Springs is fortunate to have a history and spirit of community and volunteerism, which not only brings the community together, but also helps extend City services and supplement the City's financial resources to get more done!

A majority of volunteers work within CAPS (Community Advancing Public Safety) and the Parks, Recreation and Cultural Services department.

Source: City of Colorado Springs (CAPS, Parks, and Total Volunteers)

Departmental Performance Measures

Colorado Springs Airport

Cost Per Enplanement

GOAL:

Maintain a CPE (Cost Per Enplanement) of \$7.23 or lower at the COS Airport.

WHY:

The CPE is a measure of the airlines' cost per enplanement. Through reducing Airport operating and debt costs, the Airport lowers airlines' CPE - thereby incentivizing increased air service.

Colorado Springs Airport

Passenger Driven Non-Airline Revenue

GOAL:

Maximize non-airline revenue per passenger (at or above \$11.00).

WHY:

Through development and growth of airline offerings (concessions, lounge, etc.), these additional revenue sources help offset expenses, thereby reducing airline rates, increases the attractiveness of the COS Airport.

Planning & Development

Plan Review Turnaround Times

GOAL:

With increasing development activity, maintain single family permit reviews under 3.0 days, commercial permit reviews under 5.0 days, and land use applications under 28 days.

WHY:

Reduced plan review times are a top priority of the development community; maintaining reasonable and responsible review times helps the City maintain a business-friendly culture.

Departmental Performance Measures

Housing

Affordable Housing

GOAL:

Increase and preserve the supply of affordable housing.

WHY:

The availability of safe, clean, affordable housing improves the quality of life and supports the economic vitality of the community.

Economic Development

Rapid Response Utilization

GOAL:

Increase the number of businesses using the Rapid Response program.

WHY:

The Rapid Response program provides new/expanding businesses with an expedited process for City approvals and processes. It is essential to enhancing the business-friendly culture of the City and providing a positive first-look at the City for new businesses.

Public Works - Streets

Potholes Turnaround Time In Days

GOAL:

Maintain a pothole turnaround time of 7 days.

WHY:

In order to maximize the number of pothole repairs and ensure that potentially damaging potholes are fixed in a reasonable timeframe, with the current level of City resources.

NOTE: The number of potholes citywide has increased drastically since 2013.

Departmental Performance Measures

Public Works – City Engineering

Deteriorating Bridges

GOAL:

Increase inspections of deteriorating bridges.

WHY:

Maintaining the city's bridge infrastructure in a safe condition is a primary indicator of the safety of the City's infrastructure for citizens.

Procurement

Local Spend

GOAL:

Maintain a local spend percentage of over 50%.

WHY:

Per the "Think Local" resolution, reaching out to local businesses in the selection criteria, where applicable, has resulted in appropriate increased local spending; boosting the local economy and supporting our locally operated businesses.

Finance

Sales Tax On-Line Remittance

GOAL:

40% of sales tax returns filed through the on-line system in 2016. There was a dramatic increase from 2013 to 2014 in online filings.

WHY:

In September 2013, the Finance office began offering on-line sales tax remittance to improve customer service and ease of doing business with the City.

Departmental Performance Measures

Crime Clearance Rates

GOAL:

Increase the number of reported crimes cleared in 2016 and remain above the national average clearance rates for cities our size.

WHY:

Clearance rates on reported crimes provides an indication of the ability for the Police Department to solve crimes. An increased clearance rate shows improvement in solving crimes.

8-Minute and 12-Minute Response Standards

GOAL:

Maintain 8-minute and 12-minute response standards 90% of the time or greater (as shown by the dotted red line).

WHY:

Time is of the essence on 911 calls. The Fire Department strives to meet the response standards adopted by City Council (8 minutes for first unit; 12 minutes for minimum effective force).

Annual Number of Pikes Peak Visitors

GOAL:

Maintain an annual number of over 290,000 visitors, based on a three-year average of visitor traffic.

WHY:

Pikes Peak – America’s Mountain is one of the most recognized and visited mountains in the world. The City continues to invest in improvements to the visitor experience to drive increased visitation to the Mountain, which provides positive returns for the City.

Departmental Performance Measures

Number of Golf Rounds Played/Course

GOAL:
Realize year-over-year increases in number of rounds played at both City golf courses.

WHY:
Each golf course, as an enterprise, needs to generate enough revenue to sustain their self-supporting status. The courses are frequented by local golfers and tourists. It is important to the City that they remain fiscally sustainable and are well-maintained.

Transit Ridership/Capita

GOAL:
Increase transit ridership per capita by providing effective service along key corridors.

WHY:
Transit provides mobility for residents and connects people to jobs, school and other important community destinations. The strategic timing and locating of transit routes, due to sustained demand for transit services, should result in increased ridership, therefore increasing accessibility.

Contract Tree Pruning & Parks Crew Tree Hazard Removals

GOAL:
Increase contract pruning and continue to use parks crews for tree removals to reduce hazards and respond to citizen complaints.

WHY:
Scheduled tree pruning and tree hazard/obstruction removals are important to maintaining safety and aesthetics of the City. The City began tracking hazard/obstruction removals in 2013.

This page left blank intentionally.

Glossary of Terms

Accrual Basis of Accounting – The basis of accounting that records revenue at the time earned and expenses when incurred, rather than when collected or paid.

Affordable Care Act – On March 23, 2010, President Obama signed comprehensive health reform, the Patient Protection and Affordable Care Act, into law. The law, and changes made to the law by subsequent legislation, focuses on provisions to expand coverage, control health care costs, and improve health care delivery system. Due to the complexity of the changes, requirements have been phased in over the last 4 years and additional requirements must be met for 2015 and beyond.

Allocated Administrative Costs – Allocates the cost of general administrative departments that are required to manage the City and provide support to all funds.

Annual Budget – A plan for the coordination of resources and expenditures. The budget is the financial plan for the City's allocation of resources to provide services, accomplish the City's goals and objectives, and perform activities.

Appropriation – The legal authorization given by City Council to spend funds that have been designated for a specific purpose.

American Recovery and Reinvestment Act – The American Recovery and Reinvestment Act (ARRA) was instituted in February of 2009 as a direct response to the economic crisis. This funding was designed to stimulate economic activity and long-term growth, create and retain jobs, and provide transparency for government spending.

Arterial Roadway Fund – Fees paid by landowners provide funding for the cost of constructing/ expanding freeway, expressway, and major or minor arterial roadway bridges.

Assigned Fund Balance – This describes the portion of fund balance that reflects the City's intended use of resources. This authority rests with the Mayor and is delegated to staff through the use of encumbrances.

Balanced Budget – A budget in which revenue sources are identified to balance with expenditures for services provided in a specific fiscal year.

Ballfield Capital Improvements Fund – Fees paid by softball and baseball teams upon league registration provide funding for maintenance and improvements to baseball and softball fields throughout the city.

Banning Lewis Ranch Fund – General Annexor Obligation Fee, BLR Parkway, or Interchange Fees provide funding to reimburse those annexors who construct shared infrastructure or who fulfill Annexation Agreement obligations identified as reimbursable shared obligations within the BLR Annexor Shared Infrastructure Study.

Basis of Accounting – The City's annual budget is developed using the generally accepted accounting principles (GAAP) and the budgetary basis of accounting. GAAP is determined on a modified accrual basis and budgetary is determined on an accrual basis.

Beginning Fund Balance – The unexpended amount in a fund at fiscal year-end that is available for appropriation in the next fiscal year.

Bicycle Tax Fund – A sales tax on the purchase of all new and used bicycles purchased in the city provides funding for maintenance repair and expansion of the city's bikeway system.

Business Improvement District (BID) – District created under Colorado Revised Statutes § 31-25-1201 *et. seq.* to finance public improvements and/or provide services within identified primarily non-residential areas. BIDs typically derive most of their revenue from a property tax, and they have the authority to issue debt.

Cable Franchise – Pursuant to franchise agreements approved by City Council, cable subscriber fees provide funding to the City for information technology strategic needs; to Southern Colorado Educational Televisions Consortium (SCETC) to continue operating their network and production truck; and to SpringsTV for implementation, equipment maintenance, staffing and communication needs.

Capital Improvement – A project of relatively high monetary value (at least \$50,000), long life (at least five years), and the outcome of the project results in the creation of a fixed asset or a significant revitalization that upgrades and extends the useful life of a fixed asset.

Capital Improvements Program (CIP) – An annual updated plan of capital expenditures for public facilities and infrastructure (buildings, streets, etc.) with estimated costs, sources of funding, and schedule of work over a five-year period. A five-year plan is included as required by the Charter.

Capital Outlay – A major object category that includes expenditures for land purchase, buildings (purchase or construction), improvements other than building (purchase or construction), or equipment and furniture with a unit cost in excess of \$500.

Certificates of Participation (COPs) – A type of financing in which an investor purchases a share of the lease revenue of an agreement made by a municipal or governmental entity, rather than the bond being secured by those revenue.

City Health Foundation – Lease payments made to the City's Memorial Health System Fund by the University of Colorado Health system provide funding to the City Health Foundation to address health issues in the City of Colorado Springs.

Committed Fund Balance – This represents the portion of fund balance whose use is constrained by limitations that the City imposes on itself by City Council (highest decision making level) and remains binding unless removed in the same manner. The City does not use committed funds in its normal course of business.

- Requires action by City Council to commit fund balance
- Formal City Council action is necessary to impose, remove or modify a constraint reflected in the committed fund balance

Community Development Block Grant (CDBG) – Federal grant funds dedicated for programs and activities which primarily benefit low and moderate-income families, individuals, and neighborhoods. Programs include but are not limited to housing rehabilitation, affordable housing development and preservation, human service activities, and capital improvement activities.

Comprehensive Annual Financial Report (CAFR) – This report is commonly known as the annual Audit and is completed by an independent certified public accounting firm for the Finance Department. It contains information regarding all general-purpose financial statements for revenue and expenditures, selected financial and demographic information, and amortization of long-term debt and selected investment portfolio data.

Conservation Trust Fund (CTF) – This fund provides funding that can be used for the acquisition, development, and maintenance of new conservation sites or for capital improvements or maintenance for recreational purposes on any public site. This fund gets its money from the Colorado Lottery.

Contingency – An account established for the purpose of meeting unanticipated requirements.

Cost Allocation Plan – A cost allocation plan is a financial model that identifies and distributes citywide indirect costs to benefiting departments. These indirect costs are those expenses that benefit multiple departments, programs, or activities. Examples of these indirect costs include Accounting, Human Resources, and Information Technology.

Debt Service – Payment of interest and principal on an obligation resulting from the issuance of bonds.

Development Authority – The Colorado Springs Downtown Development Authority, which has been created under Colorado Revised Statutes § 31-25-801 *et. seq.* to provide public facilities and service specific to an

identified downtown area. DDAs have the authority to levy property taxes, issue debt and utilize tax increment financing (TIF).

Efficiency – A ratio between input (resources) and output (production).

Emergency Shelter Act Grant (ESG) – Federal grant funds dedicated for programs and activities which primarily benefit low and moderate-income families, individuals, and neighborhoods. Programs include but are not limited to housing rehabilitation, affordable housing development and preservation, human service activities, and capital improvement activities.

Enterprise Fund – A fund that pays for its costs of operations, predominantly from user fees, and does not generally receive property tax support.

Expenditure – The actual outlay of or obligation to pay cash.

FDC – Fire Department Complex

Fiscal Year – A 12-month period at the beginning of which the City implements a new budget based on expected revenue and expenditures and at the end of which the City determines its financial positions and the results of its operations. The City of Colorado Springs' fiscal year coincides with the calendar year January 1 through December 31.

Full-Time Equivalent (FTE) – 40-hour per week position on an ongoing basis that is specifically authorized for ongoing funding by classification in the annual budget. Two half-time positions equal one FTE.

Fund – A budgetary and fiscal accounting mechanism for designating a sum of money or other resources set aside for the purpose of providing services and achieving objectives in accordance with state and local laws, regulations, or other limitations. Each fund constitutes an independent budgetary, fiscal, and accounting entity.

Fund Balance – The balance remaining in a fund after expenditures have been subtracted from revenue.

Geographic Information System (GIS) – A computer-based mapping and analytical tool. GIS technology integrates common database operations such as query and statistical analysis with the unique visualization and geographic analysis benefits offered by maps. These abilities distinguish GIS from other information systems and make it valuable to a wide range of public and private enterprises for explaining events, predicting outcomes, and planning strategies.

General Fund – A fund used to account for all general purpose activities of the City supported by City taxes and other non-dedicated revenue such as license and permit fees, user charges, etc. This fund includes all traditional municipal expenditures such as Public Safety, Parks, and Transportation with the exception of those accounted for elsewhere.

General Improvement District (GID) – District created under Colorado Revised Statutes § 31-25-601 *et. seq.* to finance public improvements in commercial or residential areas. GIDs are governed by City Council as their ex officio board. They ordinarily derive their revenue from a property tax, and they have the authority to issue debt.

General Obligation Bonds (GO Bonds) – These bonds are typically issued to finance government improvements benefiting the community as a whole and are secured by an unlimited tax levy of the issuer.

Gift Trust Fund – Donations made to the City by private individuals or businesses provide funding for the specific purpose designated by the donor.

Goals – A defined goal of a department/division objective with outcomes measured or completed by a determined timeframe that achieve the Mayor's goals for the City.

Government Finance Officers Association (GFOA) – The purpose of the GFOA is to enhance and promote the professional management of governments for the public benefit by identifying and developing financial policies and best practices and promoting their use through education, training, facilitation of member networking, and leadership.

Grants Fund – Various grants as well as any anticipated interest earnings including SAFETEA-LU and FTA grant funds, among others, provide funding for grant activities as approved by City Council, plus interest earnings for those grants eligible to earn and spend interest income.

Highway Users Tax Fund (HUTF) – A State fund that receives revenue from the State-imposed excise taxes on gasoline and special fuels as well as various motor vehicle registration, title, and license fees and taxes.

Home Investment Partnership Act (HOME) – Federal grant funds dedicated for programs and activities which primarily benefit low and moderate-income families, individuals, and neighborhoods. Programs include but are not limited to housing rehabilitation, affordable housing development and preservation, human service activities, and capital improvement activities.

HOPE III – Federal grant funds dedicated for home ownership programs to benefit low and moderate-income families.

Human Services – These programs address emergency care and shelter, youth, and self-sufficiency services. The City currently funds these community programs with the City's General Fund and Community Development Block Grant (CDBG) funds.

Infrastructure – The underlying foundation or basic framework of the City's physical assets, buildings, roadways, etc.

Internal Service Funds – Internal Service Funds are used to account for the financing of goods or services provided by one department to other City departments on a cost-reimbursement basis. The divisions include Fleet, Office Services, and Radio.

Key Measures – An indicator that measures the degree of accomplishment of a department's or division's mission. The major types are as follows:

- Output Measure - A quantity of work performed
- Efficiency Measure - A ratio of the amount of input (or cost) to the amount of output (or outcome)
- Outcome Measure - Events, occurrences, or conditions that indicate progress towards achievement of the mission and objectives of a program

Lease-Purchase Agreement – An agreement between the governmental agency and a private sector vendor to purchase or lease equipment or facilities rather than purchase them outright.

Level of Effort – The level of funding the City committed to maintain for public safety, transportation-related maintenance, and transit after the passage of the Public Safety Sales Tax (PSST) in November 2001 and the Pikes Peak Rural Transportation Authority (PPRTA) in November 2004.

Levy – The total amount of taxes, special assessments, or service charges imposed by a government.

Local Improvement District (LID) – District authorized under City Code (Chapter 3, Article 5) for the purpose of assessing certain properties in order to finance specified public improvements that benefit them. LIDs are component entities of the City and its budget.

Lodgers and Automobile Rental Tax (LART) Fund – Revenue resulting from the City's 2% lodging and 1% automobile rental tax are deposited into the LART Fund. Revenue not otherwise obligated may be used for the acquisition, construction, maintenance, and operation of public infrastructure or public improvements; which constitute, in part, visitor or tourist attractions. Revenue may also be appropriated for economic development activities as determined by City Council.

Lottery – See Conservation Trust Fund.

Memorial Health System Enterprise Fund – Lease payments received from University of Colorado Health system provide funding to the City Health Foundation to address health issues in the City of Colorado Springs.

Metropolitan District – A district with two or more purposes created under Colorado Revised Statutes § 32-1-101 *et. seq.* for commercial or residential areas and chartered by a service plan approved by City Council. Subject to

the service plan, metropolitan districts have broad potential authorities including the levying of property taxes, issuance of debt for public improvements, and operations and maintenance.

Mill – A mill is equal to one one-thousandth (1/1,000) of a dollar of assessed valuation of property.

Modified Accrual Basis of Accounting – A type of accounting which records revenue when measurable and available and expenses when the liability is incurred.

Objective – A desired result of a group of related activities performed by a department or division in which the achievement satisfies part or all of the department's or division's mission.

Old City Hall – Until December 1997, this facility was the location of the Municipal Court operations. Funding was obtained in 2000 to renovate this historic building for occupancy late in 2001. The building houses the City Council and the City Auditor's Office.

Operating Budget – The annual expenditures for the routine, ongoing activities and work program of a department or division as opposed to budgets which may also be established for capital projects, grant-funded projects, and other activities of a nonpermanent nature.

Outsourcing – Contracting with private companies to provide the same level of services while reducing personnel costs.

Overmatch Funding – The Pikes Peak Area of Council Governments (PPACG) engages in a process to prioritize projects for state and federal transportation funding; and in 2007, an overmatch component was added. Overmatch is funding in excess of the required match (typically 20%) that local communities are willing to put toward their high priority transportation-related projects. Because there is reduced state and federal funding available, competition for these funds is greater. In order to get the most projects with the available state and federal funds, PPACG now considers overmatch funds when determining where these dollars will be dedicated.

Park Land Dedication Ordinance (PLDO) – Commonly referred to as PLDO for the City Council ordinance (City Code 7.7.12) that provides for the policy and fees paid by developers in lieu of land dedication for the development of parks and open space in new subdivisions.

Pay-as-You-Go for Capital Improvements – A process in which capital improvements are paid from current revenue.

Permanent Funds – These funds account for assets held by the City in a trustee capacity or as an agent for other agencies, individuals, private organizations, or governmental units. Included in this category are non-expendable trust funds and agency funds.

POC – Police Operations Center

PPRDC – Pikes Peak Regional Development Center

Pikes Peak Rural Transportation Authority (PPRTA) – Authority approved by voters in November 2004, which resulted in a 1% sales and use tax increase effective January 1, 2005, for the City of Colorado Springs, the unincorporated areas of El Paso County, Manitou Springs, Green Mountain Falls, and the Town of Ramah to fund transportation capital projects and maintenance. In November 2012, Voters approved an extension of PPRTA to 2024. PPRTA may be also referenced as RTA throughout the Budget document.

Public Safety Sales Tax Fund (PSST) – On November 6, 2001, voters approved Ballot Question 4, which authorized a City of Colorado Springs Sales and Use Tax rate increase of 0.4% to be used to fund public safety operating and capital improvement needs.

Public Space and Development Fund – The fund for collection of fees paid by developers in lieu of land dedication for the development parks and open space in new subdivisions (commonly referred to as PLDO).

Rebudgeted Revenue – The amount of revenue from the previous year due to the receipt of unbudgeted revenue and/or the receipt of revenue exceeding the budgeted amount.

Restricted Fund Balance – This represents the portion of fund balance that is subject to externally enforceable legal restrictions. Such restrictions are typically imposed by parties altogether outside the City such as creditors, grantors, contributors or other governments. Restrictions can also arise when the authorization to raise revenues is conditioned upon the revenue being used for a particular purpose.

Retailers Fee – The reimbursement for sales tax collections. This was budgeted for the first time in 2006 and is the result of an accounting change. This expenditure is offset by a matching increase in revenue. This is also referred to as the Vendors Fee.

Revenue – Money received by the City during the fiscal year, which includes taxes, fees, charges, special assessments, grants, and other funds collected that support the services the City provides.

Revenue Bonds – Bonds issued by a public agency authorized to build, acquire, or improve a revenue-producing property and payable out of revenue derived from such property.

Road and Bridge Tax – A County fund that receives revenue from all taxable property located within the county (El Paso County) and subsequently disburses the allotted share to the municipalities located within the county for the specific purpose of construction and maintenance of roads and streets located within its corporate boundaries (see Colorado Revised Statutes [C.R.S. 43-2-202, 203]).

RTA – See PPRTA.

Safe, Accountable, Flexible, Efficient Transportation Equity Act-Legacy for Users (SAFETEA-LU) – The federal and state governments provide grants to local governments for approved regional transportation-related projects such as bridge replacement, installation of additional traffic signals, road widening, etc. These grants usually award 80% of the total project cost - provided the City can fund the local 20% share. This program was originally authorized in 1996 and was called the Intermodal Surface Transportation Efficiency Act (ISTEA). It was then reauthorized as the Transportation Equity Act for the 21st Century (TEA-21) in 1998 and reauthorized again in 2004 as SAFETEA-LU.

Sales Tax Revenue Bonds – Those bonds issued to finance various capital improvement projects that have a definable revenue base. These bonds are secured by the City Sales Tax revenue.

Special District – A general term intended to encompass a variety of special purpose districts including but not limited to metropolitan districts, general improvement districts (GIDs), business improvement districts (BIDs), limited improvement districts (LIDs), and special improvement maintenance districts (SIMDs).

Special Improvement Maintenance District (SIMD) – District authorized under City Code (Chapter 3, Article 7) formed primarily by developers and business owners to provide for maintenance of public improvements of general benefit to the residents or owners within their boundaries. Most SIMDs levy a property tax, and they cannot issue debt.

Special Revenue Funds – Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than major capital projects) that are legally restricted to expenditures for specific purposes.

Springs Community Improvements Program (SCIP) – A capital improvements process implemented in 1998 that engaged citizens in identifying, prioritizing, and funding over \$110 million in infrastructure projects to improve the community.

Strategic Plans (previously known as the Strategic Action Plan) – The Mayor's Strategic Plan is comprised of goals and objectives that set priorities for resource allocation, establishes policy guidelines, and provides governance direction. Also as directed in the City Charter, each year, City Council determines its areas of priority for the following year and provides them to the Mayor for consideration in the development of the municipal budget.

Street Tree Fund – Owner and developer fees collected at the time a building permit is issued along with a City match provide funding for a program to plant and care for new trees in previously underdeveloped lots.

Subdivision Drainage Fund – Fees charged to subdivision developers provide funding for the construction of storm sewers and other facilities in the designated subdivision for the drainage and flood control of surface water.

Surplus Utility Revenue – In accordance with the City Charter, surplus revenue generated by sales of electric and gas services inside the City shall be transferred to the City's General Fund.

TABOR (Taxpayer's Bill of Rights) – An amendment to the Colorado Constitution (also referred to as Amendment I) approved by voters in 1992 that essentially limits annual growth in local government revenue to the combined percentage change in the Denver/Boulder/Greeley Consumer Price Index (CPI) and the net change in the local property tax base due to new construction. Revenue received above and beyond the annual revenue cap established by TABOR must either be refunded to city residents or retained upon voter approval.

Tax Increment Financing (TIF) – Tax increment financing is a method of redistributing tax collections within a designated area to finance public infrastructure improvements within the specified geographic area. Infrastructure improvements may include upgraded on-site drainage systems, adjacent intersection/roadway capacity/pedestrian improvements, etc.

Trails, Open Space, Parks (TOPS) Initiative – The Trails, Open Space, and Parks (TOPS) revenue is generated from a 0.1% sales and use tax adopted by voters in April 1997, extended by voters in 2003, and set to expire in 2025. The majority of funds are designated for open space purchases and associated maintenance, development and maintenance of trails, and development and maintenance of parks.

Unrestricted Fund Balance –The GFOA recommended, at a minimum, that general-purpose governments, regardless of size, incorporate in its financial policies that unrestricted fund balance in their general fund be no less than two months of regular General Fund operating revenues or regular General Fund operating expenditures. The City's goal target range for General Fund Reserve – Unrestricted Fund Balance is 16.67 % to 25% of the following year's expenditure budget. The target for the unrestricted General Fund balance would exclude the TABOR emergency reserves but include other categories of fund balance that are committed, assigned or unassigned.

User Fees – The payment of a fee for direct receipt of a public service by the person benefiting from the service.

Utilities Staff Share – The portion of a General Fund function, department, or unit cost chargeable to Colorado Springs Utilities.

Vendors Fee – See Retailers Fee.

GFOA Reserve Analysis for the City of Colorado Springs

Executive Summary

GFOA undertook an analysis of the General Fund reserve requirements for the City of Colorado Springs, based on an assessment of the risks that the City faces that require it retain a reserve. Below is a review of the risk factors that influenced GFOA's recommendation.

Primary Risk Factor - Revenue (Sales Tax) Volatility. While GFOA's analysis of the sales tax showed it to be subject to some volatility, this is due almost entirely to economic cycles and seasonal effects (as opposed to random variation). Therefore, the most important vulnerability the City has with respect to sales taxes is an economic downturn. A review of past economic downturns leads us to believe that the City should prepare for a potential 20% decline in sales tax revenues over 25 months as a plausible "worst case scenario" (this amounts to about \$23 million in reduced revenue). However, the City would presumably reduce its spending in the event of such a severe downturn, such that a reserve to cover the entire amount of the revenue decline would not be necessary. The City budget office estimates that the budget could be reduced by just under \$10 million without creating a major disruption to services (though service quality would be negatively affected to some degree, of course). This means the City should maintain a reserve of at least \$13 million to fill the remaining portion of the revenue gap and to help the City make a "soft landing" in the case of a major revenue decline.

The City's other revenue sources are fairly stable as a group, but GFOA has recommended that some additional reserves, to account for volatility, may be prudent. These reserves added up to \$7.5 million.

Primary Risk Factor - Infrastructure. General fund reserves may be needed to repair or replace an asset that fails unexpectedly. In Colorado Springs, the two asset classes that were deemed to be of the greatest importance are bridges and storm sewers.

13 bridge structures have been identified as having a high risk rating. These bridges have an estimated replacement value of \$22,752,672. This averages out to about \$1.75 million per bridge. A reserve that covers one or two bridges should be adequate, but using the "Triple-A" rule of doubling our expectation for uncertainty, preparing for the premature failure of three of these bridges might be more prudent. This equates to a \$5.25 million reserve.

406 miles of storm lines are managed by the City. However, neither install dates nor condition assessments were available for any storm lines. The estimated replacement cost for all storm sewers is \$588,052,836.¹ Since the information necessary to assess risk of failure is not available, the best that can be done is to make an assumption. We do know that about 10% of the total dollar value of the City's bridge inventory is in the higher risk category, so it may be reasonable to start with that number for storm sewers, which would translate to \$58 million. We also know that about 20% high risk category of bridges was recommended as a reserve amount, which would equate to \$11.6 million.

¹ Drainage Basins, Open Drainage Features, Discharge Points, and Point Features are not included in the replacement cost, which would likely push it over \$1 Billion dollars.

GFOA Reserve Analysis for the City of Colorado Springs

Accounting for Uncertainty – The “Triple-A” Approach

Sizing a reserve requires estimating highly uncertain events, like natural disasters and economic downturns. To develop an adequate response, GFOA used the “Triple-A” approach:²

- **Accept.** First we must accept that we are subject to uncertainty, including events that we haven’t even imagined.
- **Assess.** Next, we must assess the potential impact of the uncertainty. Historical reference cases are a useful baseline.
- **Augment.** The range of uncertainty we really face will almost always be greater than we assess it to be, so we should augment that range. Historical reference cases provide a baseline, but that baseline may not be adequate to account for all future possibilities.

Primary Risk Factor - Vulnerability to Extreme Events. The City is subject to extreme events that pose a significant threat to life and property. However, the City’s historical experience is that the financial impacts of these events have been manageable. For example, the most recent fire was the worst in Colorado history, but the total cost to the City was only \$3.75 million versus an annual City budget of about \$220 million. Taking into account the uncertainty associated with the scale of future extreme events, as well as the timing of FEMA reimbursement and the portion of event response costs that are likely going to be already covered by existing budgeted resources, a reserve for extreme events of \$5 million seems reasonable. An argument for a reserve of up to \$7.5 million could also be made.

Secondary Risk Factor - Expenditure Volatility. The City is facing a few large lawsuits that could entail significant settlement costs if the case goes against the City. The City attorney believes that \$2 million to \$4 million is a reasonable range to prepare for.

Secondary Risk Factor - Leverage. The City has some financial pressure from pension obligations. It participates in a number of plans, none of which is 100% funded. The Colorado Public Employees Retirement Association (PERA) is a particular concern for City officials because it has a low funding ratio and its assumptions around the return on plan assets have been publicly questioned for being too high. This could mean that PERA may require significantly higher contributions from member governments.

Assuming that the City keeps up with its annual pension payments, the unfunded accrued liabilities should, in theory, be covered by the end of the amortization period (which can vary with the plan, but typically is between 20 and 30 years). Keeping up with the ARC payments is a matter of City budgetary policy, and not really an issue that should be addressed through using reserves. However, given the uncertainty around pension issues, it is difficult to say when increases would occur or how much they might be. As such, it would be prudent to hold some reserve to help make a more gradual adjustment to any potential large increases in contribution rates. The City currently pays about \$10.5 million in annual contributions to the Colorado Public Employees Retirement Association and about \$14.5 million to the other pensions, for total of about \$25 million. A reserve of \$6.25 million would cover a 25% increase in pension costs. Of course, an increase in the City’s contribution will be felt over many years, but the

² Triple-A approach adapted from: Spyros Makridakis, Robin Hogarth, and Anil Gaba. *Dance with Chance: Making Luck Work for You.* (Oneworld Publications: Oxford, England). 2009.

GFOA Reserve Analysis for the City of Colorado Springs

reserve will allow the City to make a gradual adjustment or to more easily absorb a larger increase in contributions in one year.

So, in summary the components of a recommended reserve are:

- \$13 million for sales tax economic uncertainty
- \$7.5 million for economic uncertainty in other revenues
- \$6.25 million for pension payment uncertainty
- \$5.25 million for critical bridge failure and \$11.6 million critical storm sewer replacement, for a total of \$16.85 million.
- \$5-7.5 million for extreme events
- \$2-4 million for expenditure spikes from law suits

Many cities express their reserve policy target as single number (e.g., 16% of revenues). However, GFOA has found that leading municipalities often find it helpful to segment their reserves into different categories because this makes the purpose of the reserve more transparent. For example, a reserve for “emergencies” and a reserve for “economic uncertainty” would provide more clarity on the purpose of the reserves than one all-encompassing reserve. The first three bullets above could comprise the budgetary uncertainty reserve, while the last three would form the emergency reserve, leading to the following targets:³

Budgetary Uncertainty Reserve
\$13 million for sales tax economic uncertainty +
\$7.5 million for economic uncertainty in other revenues +
\$6.25 million for pension payment uncertainty =
<i>\$27 million or about 12.5% of general fund revenues⁴ as budgetary uncertainty reserve</i>
Emergency Reserve
\$5.25 million for critical bridge failure and \$11.6 million critical storm sewer replacement, for a total of \$16.85 million +
\$5-7.5 million for extreme events +
\$2-4 million for expenditure spikes from lawsuits =
<i>\$27 million or about 12.5% of general fund revenues as an emergency reserve</i>

This provides **a target of about 25% of general fund revenues**, which is also about in line with the range of reserves actually maintained by other cities that are comparable to Colorado Springs and is above the level that GFOA considers the minimum baseline level that a government should maintain (16%).⁵

³ Targets have been rounded to nearest “whole” numbers for ease of use in policy making. Also, see the main body of the report for a discussion of the independence of the risk factors and the implication for sizing the reserve.

⁴ Based on about \$220 million general fund revenue, as per 2012 budget estimates

⁵ See “GFOA Best Practice: Appropriate Level of Unrestricted Fund Balance in the General Fund.” www.gfoa.org

The Best Practice states that reserves equal to about 16% of revenues or expenditures is the minimum a government should consider for its policy and that the actual target that a government adopts should be based on an analysis of the salient risks that a government faces (which in many cases may call for a higher reserve level than 16%).

GFOA Reserve Analysis for the City of Colorado Springs

1-Introduction

Reserves are the cornerstone of financial flexibility. Reserves provide a government with options to respond to unexpected issues and afford a buffer against shocks and other forms of risk. Managing reserves, though, can be a challenge. Foremost, is the question of how much money to maintain in reserve? How much is enough and when does a reserve become too much? This can be a sensitive question because money held in reserve is money taken from constituents and the argument could be made that excessive reserves should be returned to citizens in the form of lower taxes.

The City of Colorado Springs (the “City”) has been considering this question recently, especially in light of the volatility of its revenue portfolio and the fact that that City cannot easily increase its taxes to compensate for other changes in its financial condition.⁶ The City has engaged the Government Finance Officers Association (GFOA) to help produce an answer. GFOA is a non-profit association of over 17,000 state and local government finance professionals and elected officials from across North America. A key part of GFOA’s mission is to promote best practices in good public finance, including reserve policies.

GFOA’s approach to reserves does not suppose “one-size-fits-all.” GFOA’s “Best Practice” on general fund reserves recommends, *at a minimum*, that general-purpose governments, regardless of size, maintain unrestricted fund balance in their general fund of no less than two months of regular general fund operating revenues or regular general fund operating expenditures (i.e., reserves equal to about 16% of revenues).⁷ However, this 16% is only intended as a baseline, and it needs to be adjusted according to local conditions. To make the adjustment, GFOA worked with the City to conduct an analysis of the risks that influence the need for reserves as a hedge against uncertainty and loss.

A “risk” is defined as the probability and magnitude of a loss, disaster, or other undesirable event.⁸ The GFOA’s framework of risk assessment is based on the risk management cycle: identify risks; assess risks; identify risk mitigation approaches; assess expected risk reduction; and select and implement mitigation method. The framework focuses primarily on risk retention, or using reserves, to manage risk. However, the framework also encourages the City to think about how other risk management methods might alleviate the need to retain risk. For example, perhaps a risk could be transferred by purchasing insurance or relying on another organization or accounting fund to manage the risk. It might also be possible to avoid a risk by discontinuing activities that are creating a risk for the general fund. Hence, a thorough examination of the risk factors should not only help lead to customized reserve target size, but also should improve the City’s understanding of the risks it faces and its overall financial risk profile.

⁶ TABOR, for example, limits the City’s ability to increase taxes.

⁷ GFOA Best Practice. “Appropriate Level of Unrestricted Fund Balance in the General Fund.” GFOA. 2009.

⁸ Definition of risk taken from: Douglas W. Hubbard. *The Failure of Risk Management: Why It’s Broken and How to Fix It*. John Wiley and Sons, Inc. Hoboken, New Jersey. 2009.

GFOA Reserve Analysis for the City of Colorado Springs

As first step to this project, GFOA conducted basic review of the risk factors that generally influence the amount of reserves a municipal government should hold.⁹ This review enabled the City and GFOA to classify factors as primary risks or as secondary. Exhibit 1.1 lists how the risk factors were classified.

Exhibit 1.1 – Categorization of Risk Factors that Influence Reserve Levels for Colorado Springs	
Primary Risk Factors	
Revenue (Sales Tax) Volatility	Infrastructure Upkeep
Vulnerability to Extreme Events and Public Safety Concerns	
Secondary Risk Factors	
Leverage	Expenditure Volatility
Liquidity / Cash Flow	Growth of the Community

The next section overviews the primary risk factors and the City’s level of exposure. The third section reviews secondary risk factors that have less weighty implications for the City’s general fund reserve strategy, but which still should be considered. The fourth and final section of the report presents the findings of the analysis, including a customized target reserve level for the City’s general fund and other ideas to improve the financial health of the City.

2-Primary Risk Factor Analysis

This section presents the three most important risk factors examined by GFOA and the City’s exposure: the volatility of the City’s revenue portfolio, maintenance/ replacement of the City’s infrastructure (focusing on bridges and storm sewers), and vulnerability to extreme events and public safety concerns.

Revenue Source Stability

Volatile revenue sources call for higher level of reserves in order to avoid the need for sudden cutbacks in services should revenues drop unexpectedly. Some revenues are inherently volatile. The sales tax is usually considered to be a volatile revenue source because it is much more sensitive to swings in the economy than a revenue source like the property tax, for instance. This is an important consideration for Colorado Springs considering that sale taxes (and the closely associated use tax) account for over half of the general fund’s revenues.¹⁰ No other source of revenue comprises more than a fifth of general fund revenue (the next largest is transfers from other funds at about 17%), and the property tax, normally a large revenue source for municipal governments, accounts for less than 10%.

This section will first analyze the volatility of the sales tax, as well as two closely associated revenues – the use tax and sales tax audit revenue. Following that, the stability of the general fund’s other important revenue sources will be examined.

Sales and Use Tax

A first step is to understand the level and nature of volatility in the sales tax. The sales tax appears to follow fairly predictable seasonal pattern. Exhibit 2.1 shows annual sales tax revenues for 2007 through

⁹ The risk factors and basic review method were developed and published in the GFOA publication: Shayne C. Kavanagh. *Financial Policies*. (Government Finance Officers Association: Chicago, IL) 2012.

¹⁰ The use tax is much smaller than the sales tax – comprising only around 5% of the total of the two.

GFOA Reserve Analysis for the City of Colorado Springs

2011 and Exhibit 2.2 shows monthly sales tax revenue since 2006.¹¹ In Exhibit 2.1, use tax and revenues from sales tax audits are removed. These revenues add “noise” to the pure sales tax data making it more difficult to analyze. They are also much smaller revenue sources – use tax is 7% the size of sales tax and audit revenues are 3% of all sales tax revenue. These revenues will be discussed later in the report.

Exhibit 2.1 - 5-Year Trends for Sale Tax					
	2011	2010	2009	2008	2007
Revenue	111,735,533	108,212,533	101,247,887	107,356,298	113,211,788
Annual Change	3.3%	6.9%	-5.7%	-5.2%	1.7%

The red circles in Exhibit 2.2 denote January revenues which are always the highest of the year due to holiday shopping. The green circles show revenues from July, October, and April, which all see revenue spikes (due to quarterly sales tax filings for smaller vendors). This pattern and even the relative magnitude of the spikes is quite consistent from year to year, even as far back as 1996. In fact, a statistical analysis shows that that only 2% change in sales tax revenue is attributable to random variation. About 91% is due to fundamental economic trends / business cycles (also known simply as “trend-cycle”) and 7% is explainable by seasonal variation.¹²

Exhibit 2.2 – Seasonal Peaks in City Sales Tax Revenue

There are four consistent spikes in sales tax revenue during the year, with January being the most important. July, October, and April are the others.

¹¹ This is City general fund only and excludes other sales tax revenues, like the 2002 public safety sales tax (which is accounted for outside of the general fund, in a special revenue fund).

¹² GFOA used a method of data de-seasonalization known as multiplicative decomposition to arrive at this conclusion.

GFOA Reserve Analysis for the City of Colorado Springs

This means that random fluctuations in the sales tax should not be a concern for the City. However, it also means that the influence of economic cycles is very strong. An unexpected shift in the economy could have serious ramifications for City revenues, as the City has experienced in the wake of the 2001 recession and the more recent Great Recession. Exhibit 2.3 shows the trend-cycle line for sales tax¹³ overlaid on monthly sales tax revenues. The red arrows show the beginning and end-points of significant downtrends. The first one started in April 2001 and lasted until May 2003. The trend-cycle declined 6.6% over 25 months, or about a quarter percent per month. The second started in July '07 and lasted until April'09. The trend-cycle declined 11.2% or just over half a percent per month.

Exhibit 2.3 –Sales Tax Monthly Revenue and Trend Cycle

The City has experienced two major downturns in the sales tax trend-cycle. The first one started in April 2001 and lasted until May 2003. The trend-cycle declined 6.6% over 25 months. The second started in July '07 and lasted until April'09. The trend-cycle declined 11.2%.

Obviously, the decline associated with the Great Recession was much sharper than the 2001 recession, both in terms of overall decline and speed of the decline. In fact, so severe was some of the financial fallout from the Great Recession that some have dubbed it what acclaimed financial thinker Nasim Talib has termed a “Black Swan” event – a rare and unpredictable event that has an extreme impact.¹⁴ Black Swans are, by definition, impossible to predict, so the best that anyone can do is to be prepared. The

¹³ The trend-cycle line is calculated by taking a 12-month centered moving average of actual monthly sales tax revenue. For example, the moving average for January '05 would be an average of August '04 through July '05. February '05 would be an average of September '04 through August '05, and so on. A 12-month moving average smooths out seasonal variation, leaving only the trend cycle.

¹⁴ The term “black swan” derives from a belief held in England before 1697 that all swans were white – in fact, the term “black swan” was a common metaphor for an impossibility. Black swans were discovered in Australia in 1697 demonstrating the limits of human knowledge about the world.

GFOA Reserve Analysis for the City of Colorado Springs

accomplished forecasting scientist, Spyros Makridakis, has suggested a “triple-A” approach for dealing with this kind of uncertainty.¹⁵

1. **Accept.** First we must accept that we are subject to uncertainty. Even though the sales tax is subject to relatively little random variation, it is clearly subject to Black Swans. Because it is relatively easy to imagine scenarios that could cause the Colorado Springs economy to suffer (e.g., European financial crisis, Federal debt crisis, a significant reduction in military spending due to federal budget shortfalls, etc.), we must also accept that the economy is subject to additional potentially dangerous unknowns that we can’t imagine.
2. **Assess.** Next, we must assess the potential impact of the uncertainty. Past history can provide a useful reference point. We saw earlier that a downturn in the trend-cycle has lasted as long as 25 months and has been as severe as a 0.53% monthly decline. The rate of decline is more relevant to the discussion of general fund reserves because a more protracted decline should be dealt with by restructuring the budget, not necessarily with continuous use of fund balance. Even so, it is important to consider both.
3. **Augment.** The range of uncertainty we really face will almost always be greater than we assess it to be, so we should augment that range. For example, we used the experience of the Great Recession as a reference point for our worst-case monthly decline (0.53%). However, many economists believe that the effects of the Great Recession would have been much worse had the Federal government not taken the actions that it did.¹⁶ Who is to say that continued gridlock in the Federal political system (or other circumstances) won’t prevent an effective mitigating response to the next crisis? As a rule of thumb, Makridakis suggests doubling your range of uncertainty if you have little historical data to rely on or multiplying it by 1.5 if you have more. We have a good deal of data, so a 1.5 multiplier seems appropriate giving us a 0.8% monthly decline. That translates to a potential 20% decline over 25 months. This does not necessarily mean that the City should reserve this entire amount, though, because presumably, in the event of a financial Black Swan, the City would take action to reduce spending – not just continue to spend as it had before. The implications the sales tax analysis, along with the other analyses performed by GFOA, for the City’s reserve strategy will be addressed in the fourth section of this report.

As mentioned earlier, audit revenues were removed from the sales tax data for purposes of this analysis. As Exhibit 2.4 shows, from 2007 through 2011, audit revenues ranged between \$3.3 million and \$2.2 million. It has experienced some fairly significant swings in this time as well. However, a \$1 million potential for variation is probably not material in the entire City revenue portfolio. The City expects sales tax audit revenues to continue into the future within the same general range that they have occurred in the past.

Sales Tax Point of Comparison

Appendix 1 provides a similar analysis of monthly sales tax data from the City of Boulder, Colorado in order to provide a sense of context for how volatile sales tax revenue is in another jurisdiction.

¹⁵ See: Spyros Makridakis, Robin Hogarth, and Anil Gaba. *Dance with Chance: Making Luck Work for You*. (Oneworld Publications: Oxford, England). 2009.

¹⁶ Of course, the long-term impacts of those actions are still unknown.

GFOA Reserve Analysis for the City of Colorado Springs

Exhibit 2.4 - 5-Year Trends for Sales Tax Audit Revenue					
	2011	2010	2009	2008	2007
Revenue	3,284,390	2,369,723	3,250,245	2,189,116	2,210,099
Annual Change	32.8%	-27.1%	48.5%	-0.9%	51.3%

Use taxes were also removed from the sales tax data. Exhibit 2.5 shows the 5-year trend analysis for use taxes. Use taxes are not quite as volatile as audit revenues, but are still rather volatile. In fact, GFOA's statistical analysis showed that almost 15% of the variation in use tax is attributable to simple randomness (compared to 2% for sales tax). However, more importantly, the use tax has experienced a notable decline since 2008. Examination of the long-term history shows that the revenue experienced a rapid increase in 2005, coinciding with the construction boom and use taxes from commercial construction and manufacturing equipment. Revenue stayed at about this level until 2008, when tax revenue declined considerably as these industries experienced a slowdown in their growth. Hence, the change we see in Exhibit 2.5 is less a product of random variation and more a product of a fundamental change in the tax base. Hence, use taxes have likely settled in at a new, lower level of yield that is reflective of reduced economic activity in commercial construction and manufacturing equipment (in fact, the lowest level since 1996). As such, there is probably little risk of another significant downside move.¹⁷ In fact, an analysis of the sources of the use tax show that income from construction related trades have fallen substantially in recent years. For example, revenue from building general contractors in 2011 was 12% of what it was in 2007, and revenue from subcontractors was 27% of 2007 levels. Also, total vacancy rates for commercial properties have hovered around 10% for the last two years, up from 7.7% in 2008. This indicates that there may be excess capacity in Colorado Springs, such that a significant uptick in building is not likely in the near term.

Exhibit 2.5 - 5-Year Trends for Use Tax					
	2011	2010	2009	2008	2007
Revenue	6,024,785	6,454,560	5,668,451	8,490,105	9,264,952
Annual Change	-6.7%	13.9%	-33.2%	-8.4%	-12.4%

Other Revenues

While sales tax is clearly the most important revenue, an analysis of reserve requirements should take account of other revenues as well, given that other revenues comprise half of the City's budget. Below is a summary of other major sources of revenue and their associated volatility risk.

Property taxes. Property taxes comprise only about 9-10% of the City's budget. The City has experienced a steady decline in property tax revenues in recent years, with a primary cause being a reassessment and lower property values owing to the decline in the housing market. Nationally, the

¹⁷ According the Case-Shiller Housing Index, nationally, home prices have, since 2009, varied in a range consistent with housing values in 2003. As of this writing, values have experienced increases for six months straight.

GFOA Reserve Analysis for the City of Colorado Springs

housing market seems to have stabilized, at least to the point where another major decline is unlikely.¹⁸ An examination of Colorado Springs' housing prices shows that Colorado Springs seems to essentially follow national trends.¹⁹

Charges for Service. Charges for service are about 6-7% of the general fund budget. Revenues from charges for service have fallen substantially in recent years, now budgeted at 70% of the 2009 actual revenues. This is mostly due to a sharp decline in charges for services for construction/development regulation. Hence, the user fees do have some vulnerability to economic cycles. A reserve could be useful, but the City might also consider other policies to mitigate risk. For example, a policy that sets cost recovery goals for fees would prompt a discussion of how to reduce costs if revenues were not up to expectations. Regardless, it may be helpful to have a small reserve in order to allow gradual adjustments to drop-offs in revenues. In recent history, the total charges for service revenues have dropped \$3 million in one year. At this point, fees that are more sensitive to economic conditions (e.g., construction-related fees) have probably reached or are approaching a bottom. As such, a \$3 million reserve should probably be more than adequate.

Intergovernmental Revenue. Intergovernmental revenue is about 9-10% of the general fund budget. By far, the most important component of this is the highway users tax, at about 90% of the total. The highway users tax is intended to support traffic safety and road maintenance programs. There has been political pressure at the state level to reduce the resources that support the tax, but, so far, this has not happened. However, if one of these efforts were successful the City would find itself with reduced revenue. City staff believes that the Funding Advancements for Surface Transportation and Economic Recovery (FASTER) portion of the highway users tax is the most vulnerable to being eliminated (about \$1.5 million), so reserve strategy could focus on replacing that amount for one year (after which point the City would presumably have adapted).

The City also receives a number of grants for capital projects, and some for operations. These grants are not accounted for in the general fund, but if the grants were to be lost there could be some pressure on the general fund to continue the associated service. For capital projects, the City would likely cancel or defer the project or find another source of funding, rather than using reserve to make up the shortfall from a lost grant. Lost grants for operations may require some support from the general fund in order to provide continuity in service (assuming the City cannot simply discontinue the service). A reserve of \$3 million appears to be adequate to cover this risk, based on the level of grants used to support core operating programs currently.

Grant Policy

The City auditors have pointed out that overreliance on grants is a potential risk for the City. A policy that limits the City's exposure to the risky elements of grants could be helpful. Section 4 of this report describes how grant policies might be helpful.

¹⁸ According to David M. Blitzer, Chairman of the Index Committee at S&P Dow Jones Indices, which includes the Case-Shiller Housing Index, "the housing market seems to be stabilizing, but we are definitely in a wait-and-see mode for the next few months."

¹⁹ Based on sales prices from Zillow.com

GFOA Reserve Analysis for the City of Colorado Springs

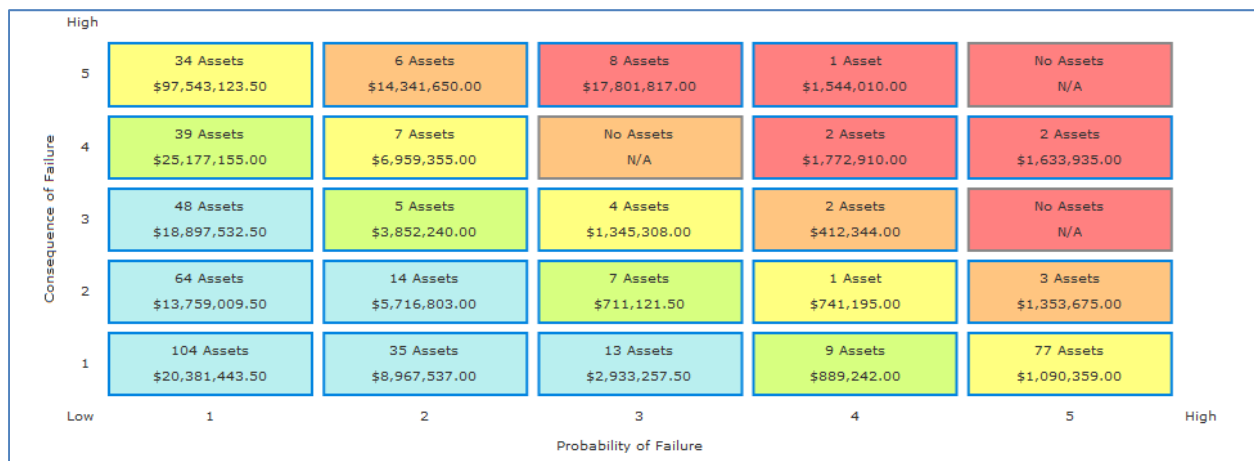

Transfers from Other Funds. The City receives about 17% of its revenue from transfers from other funds (from City utilities). This transfer is a matter of City Council policy. There do not appear to be any major threats to the continued economic viability of this policy, so any change would have a political genesis. A decision to reduce the transfer should be made in the context of how it will impact the budget, so a reserve should not be necessary.

Infrastructure

Healthy infrastructure makes for an economically vital community. However, worn infrastructure poses a potential risk of untimely failure. General fund reserves may be needed to repair or replace an asset that fails unexpectedly. In Colorado Springs, the two asset classes that were deemed to be of the greatest importance are bridges and storm sewers.

Exhibit 2.6 shows a risk profile for bridges and culverts. Risk is defined as the product of probability of failure and the consequences of failure. Probability of failure is based on the Bridge Sufficiency Index (BSI) provided by the City staff. A lower BSI indicates a bridge that is in worse condition and ultimately a higher risk (probability) to fail. Consequence is based on cost - the higher the replacement cost of an asset, the higher the consequence to the City if that asset were to fail.²⁰ As can be seen on the Chart, 13 bridge structures have been identified as having a high risk rating (those bridges in the red area, which have a total score of between 8-10, when the scores from each axis is added together). These bridges have an estimated replacement value of \$22,752,672. This averages out to about \$1.75 million per bridge. A reserve that covers one or two bridges should be adequate, but using the “Triple-A” rule (described earlier) of doubling our expectation for uncertainty, preparing for the premature failure of three of these bridges might be more prudent. This equates to a \$5.25 million reserve.

Exhibit 2.6 – Risk Profile for Bridges and Culverts

In addition to the bridges and culverts, 406 Miles of Storm Lines are managed by the City. However, neither install dates nor condition assessments were available for any storm lines. The estimated

²⁰ Note that further analysis could be conducted with City staff to refine asset replacement costs as well as reviewing the risk rating to incorporate more factors into the consequence (i.e. Traffic Count, Location, Major Structure, etc.)

GFOA Reserve Analysis for the City of Colorado Springs

replacement cost for all storm sewers is \$588,052,836.²¹ Since the information necessary to assess risk of failure is not available, the best that can be done is to make an assumption. We do know that about 10% of the total dollar value of the City's bridge inventory is in the higher risk category, so it may be reasonable to start with that number for storm sewers, which would translate to \$58 million. We also know that about 20% high risk category of bridges was recommended as a reserve amount, which would equate to \$11.6 million.

We will review how this analysis for bridges and storm sewers fits into an overall reserve strategy in Section 4 of this report.

Vulnerability to Extreme Events and Public Safety Concerns

This factor concerns the extreme events (e.g., natural disasters) the City is vulnerable to, the public safety programs that must be funded during the occurrence of an extreme event, and the federal or state programs that would help and how long it would take to get assistance. For example, reimbursement from the Federal Emergency Management Agency (FEMA) does not always occur right away, so it is important to have reserves to absorb the cost in the meantime, and FEMA does not necessarily reimburse 100% of the cost of responding to an event.

Discussions with the City's Emergency Operations Manager reveals that Colorado Springs is most at risk for wildfires and floods. Wildfires are probably the most important risk, as recent events have underlined. About 20-25% of homes in Colorado Springs are subject to wildfire risk, although fires that damage homes are not that common. The most recent fire was the most destructive in Colorado history. It impacted around 12,000 acres and burned 347 homes. By comparison, the most recent other fires of an extreme size were in 2005 and 2000 and impacted 35 and 800 acres, respectively. No homes were burned in either of those fires – in fact, one must look back to around 1950 to find the last time before 2012 that homes in the City of Colorado Springs were burned by wildfire.

Large wild fires can be expensive to respond to, requiring police and fire personnel for suppression of the fire and evacuation of people. Many other city departments are involved in the recovery efforts. FEMA reimbursement is not immediate and does not typically cover all the City's costs of responding. Further, a fire is likely to interrupt the City's sales tax revenue.

Currently, the City only has estimated costs for the most recent fire, which is \$3.75 million in personnel time, mutual aid costs, and other direct expenses. The estimate pertains to the actual firefighting within the City limits and the emergency protective measures taken (e.g., evacuation, security, activation of the emergency operations center, etc.). Of this, of the expenses eligible for a 75% FEMA reimbursement are estimated to be \$2.15 million. Adding together the FEMA ineligible expenses, plus the 25% unreimbursed expenses results in a figure of \$2.14 million. At least some of this is expenses that the City would have incurred anyhow (e.g., firefighters on duty). The City government did not incur any significant direct property damage as a result of the fire (probably around \$30,000), but there may be some indirect damage to storm sewers later on, as a result of increased run-off, from the fire-damaged

²¹ Drainage Basins, Open Drainage Features, Discharge Points, and Point Features are not included in the replacement cost, which would likely push it over \$1 Billion dollars.

GFOA Reserve Analysis for the City of Colorado Springs

areas. The City engages in mitigation efforts, such as deforestation of areas that are at risk for wildfire, but it is still important for the City to retain a reserve to be prepared for future wildfires.

Floods are also a concern because they damage infrastructure, require a City emergency response, and require debris removal afterwards. The most severe floods were in 1935 and 1965. Otherwise, smaller floods occur about 6 or 7 times in a 10-year period. 1999 was the last flood that qualified as a FEMA disaster, though it wasn't on the scale of '65 or '35. The cost to the City to deal with the flood of '99 was damage was \$2,670,158. The federal share of the project was 75% or \$2,002,619, the state share was 12.5% or \$333,770 and the City share was the remaining 12.5% or \$333,770. This would equate to about \$3.67 million in total costs and \$460,000 for the City's final share in today's dollars.

A final, less severe risk is for blizzards. The magnitude of the impact is not as great as fires or floods, but the City still incurs an unexpected cost. The last significant cost was in 2007, when the City needed to appropriate an additional \$400,000 to deal with snow storms.

So, in summary, Colorado Springs faces a risk from a number of types of extreme events that have the potential to cause loss of life and property and to disrupt business. The City has taken steps to protect the health, safety, and welfare of the community in light of these risks. Fortunately, however, these extreme events do not appear to constitute a large risk to the City's financial position. For example, a reserve of \$4 million (compared to annual City revenues of about \$220 million) would be more than adequate to cover the cost of either the most recent fire or a flood of similar severity to the 1999 flood, before FEMA reimbursement.

However, using Makridakis's "Triple-A" approach (described earlier), it may behoove the City to augment the level of risk it is preparing for. We have a very limited number of data points to inform us, so a higher multiplier seems appropriate. If we multiplied \$3.75 million by 2 we would get \$7.5 million. However, much of an extreme event's cost would be reimbursed by other parties (e.g., a 75% reimbursement from FEMA) and some of this figure would represent costs the City would incur anyhow (e.g., regular salaries for public safety personnel), so a \$7.5 million reserve might be excessive. Discussions with City staff indicated that about 1/3 of the most recent fire's costs are costs the City would have incurred in the normal cost of doing business and that about half of the reimbursement from FEMA can be expected to be received within 6 months of the expenditure. Using this as a reference point, a reserve of \$3.3 million might represent the minimum prudent reserve amount because it accounts for the fact that the City will have to bear some of the costs of responding to an extreme event in its regular budget, and that another significant portion of the cost will be reimbursed quickly by FEMA. A reserve of \$5 million might be a middle ground because it does not account for FEMA reimbursement (which is outside the control of the City).

Section 4 will consider the all the foregoing analyses together in order to present a final recommended reserve target for the City.

GFOA Reserve Analysis for the City of Colorado Springs

3-Secondary Risk Factor Analysis

This section overviews risk factors that have implications for the City’s general fund reserve strategy that are less complex or of lower magnitude than the primary risk factors.

Leverage

A highly leveraged organization has less flexibility. Examples of leverage include long-term debt, pension obligations, and obligations for post-employment health care. Reserves are a critical source of financial flexibility, so high leverage may call for higher reserves. This section will address each of the aforementioned sources of leverage.

Debt

The City has very little debt. Exhibit 3.1 demonstrates this by comparing the City’s level of indebtedness to other cities. Exhibit 3.1 includes a group of cities that Colorado Springs has identified as “Best in Class” for purpose of comparing Colorado Springs’ business practices to other municipalities. Exhibit 3.1 also includes two “sales tax comparable” cities - cities that are in Colorado and that receive a large portion of their revenue from sales taxes. Finally, the Exhibit provides summary statistics of all of the municipalities. Exhibit 3.1 compares debt along two commonly used measures of indebtedness. The first, debt per capita, which measures the burden placed on citizens by municipal indebtedness. The second measure is debt service (principle and interest payments) as a percent of city expenditures. This figure measures the pressure placed on the budget by debt payments. Colorado Springs is well below the average on both of these measures. This means that Colorado Springs should not find its financial flexibility reduced by excess debt. In fact, the City’s debt capacity could offer an alternative source of financial flexibility. For example, if the City were found liable for an exceedingly large judgment that was due immediately, it might be able to use debt instruments to pay the amount over time.

Exhibit 3.1 – Comparison of Colorado Springs’ Indebtedness with Other Cities						
		<i>"Best in Class Cities"</i>				
	Colorado Springs	Fort Collins	Oklahoma City	Denver	Indian-apolis	Charlotte
Population	422,816	144,875	580,000	619,968	820,445	731,424
Debt Per Capita	256	342	1,072	2,702	1,445	1,829
Debt Service as a % of Expenditures	5.9%	3.5%	10.2%	10.0%	13.8%	15.2%
		<i>Sales Tax Comparables</i>		<i>Summary Statistics</i>		
	Colorado Springs	Lone Tree	Cen-tennial	Average	Median	
Population	422,816	11,097	100,377	553,255	599,984	
Debt Per Capita	256	2,558	28	1,274	1,258	
Debt Service as a % of Expenditures	5.9%	10.4%	0.3%	9.8%	10.1%	

The City has substantially lower debt levels than the average of the comparison group.

GFOA Reserve Analysis for the City of Colorado Springs

The reader should note GFOA did not use only the general fund financial information to calculate these ratios, but rather used the broader categories of “governmental activities” and “governmental funds,” which can be found in any comprehensive annual financial report. This is because the all the cities accounted for debt in different funds, so looking at just the general fund would provide a partial, and inaccurate, impression. However, the aforementioned categories have fairly standard meanings across government and they include most the general government services one would typically associate with a municipality, such as public safety and public works. Therefore, they address debt of a general nature, which does have direct relevance to the financial flexibility of the general fund.

These general government categories, though, exclude utilities and other more business-like activities. The business-like category of services was excluded for two main reasons. First, these types of services are not as consistently provided by municipalities, compared to general government services. Second, these services, particularly utilities, often carry large amounts of debt so would have had a major impact on the indebtedness measures. However, this debt has a much more indirect relationship to the financial flexibility of the general fund.

Pensions

The City is involved in four different self-funded pension arrangements, all of which are closed to new participants.

- The Old Hire Police Pension Fund has been closed and has 166 total members. The plan is 81% funded as of January 1, 2012. GFOA Best Practices call for 100% funding of pension liabilities.²² The plan has an unfunded liability of \$16.1 million, which translates into an annual actuarial required contribution (ARC) of \$1.5 million for 2013, from \$1.4 million in 2012.
- The New Hire Pension Plan – Police Component has 650 members and a funded ratio of 80.2%. The plan has an unfunded liability of \$48.8 million, which translates into an annual actuarial required contribution (ARC) of \$10.6 million for 2013, from \$9.6 million in 2012.
- The Old Hire Fire Pension Fund has 193 members and is 84.1% funded. The plan has an unfunded liability of \$15.5 million, which translates into an annual actuarial required contribution (ARC) of \$1.5 million for 2013, which is about the same as 2012.
- The New Hire Pension Plan – Fire Component has 286 members and is 79.2% funded. The plan has an unfunded liability of \$25.9 million, which translates into an annual actuarial required contribution (ARC) of \$4.7 million for 2013, which is down from \$ 5.2 million in 2012.

The City also participates in two statewide plans. The Colorado Public Employees Retirement Association for is for civilian employees. As of December 31, 2011 the PERA Local Government Division’s funded ratio was 69.3% with an unfunded liability of \$1.277 billion. Of course, this underfunding could have some impact on the City in the form of increased contribution rates in the future. The Fire and Police

²² See “GFOA Best Practice: Sustainable Funding Practices of Defined Benefit Pension Plans” at www.gfoa.org. An 80% funded ratio is often cited as an acceptable funding benchmark, but this figure does not have a sound actuarial basis. See for example, Girard Miller, “Pension Puffery,” www.governing.com. Miller does state that an 80% funding ratio might be acceptable at the bottom of an investment market because the funded ratio will presumably rise with the market. Conversely, though, the funded ratio should be above 100% at the top of a market to protect against a fall.

GFOA Reserve Analysis for the City of Colorado Springs

Pension Association of Colorado provides a defined benefit plan for sworn officers. It is funded at over 100% as of 1/1/2011.

Another issue common to all pension funds is the assumed rate of return on pension fund assets. Pension funds often assume return rates of around 7-8% per year. The recent performance of investment markets have led to some questioning of the return assumptions used by the Colorado Public Employees Retirement Association. If circumstances were to require the Association to lower its return assumptions, then member governments would have to make up the difference in the form of increased contributions.²³

Assuming that the City keeps up with its ARC payments, the unfunded accrued liabilities should, in theory,²⁴ be covered by the end of the amortization period (which can vary with the plan, but typically is between 20 and 30 years). Keeping up with the ARC payments is a matter of City budgetary policy, and not really an issue that should be addressed through using reserves. However, given the uncertainty around pension issues, it is difficult to say when increases would occur or how much they might be. As such, it would be prudent to hold some reserve to help make a more gradual adjustment to any potential large increases in contribution rates. The City currently pays about \$10.5 million in annual contributions to the Colorado Public Employees Retirement Association and about \$14.5 million to the other pensions, for total of about \$25 million. A reserve of \$6.25 million would cover a 25% increase in pension costs. Of course, an increase in the City's contribution will be felt over many years, but the reserve will allow the City to make a gradual adjustment or to more easily absorb a larger increase in contributions in one year.

The City has considered different actions to mitigate its pension liabilities including increasing the contributions required from employees and switching to a defined contribution pension plan. It has also shifted away from a single-employer plan for the most newly hired sworn officers, to the state plan which should provide for less potential volatility. This should help mitigate its risk.

Other Post-Employment Benefits (OPEB)

The City allows retired sworn police officers to stay on a City-sponsored medical plan. The cost of this benefit is paid for by the City as it is incurred. The City's annual required contribution for OPEB is \$2.2 million and there is a net obligation of \$11.2 million. The City has taken steps to contain its OPEB liability, such as eliminating the City-provided subsidy for retiree health care for new hires and going to a flat (instead of variable) subsidy for existing employees. Hence, similar to pensions, the City will likely not experience near-term, large expenditure spikes or a drastic decrease in the City's financial flexibility owing to OPEB liabilities. Also, like pensions, the financial pressure created by OPEB liabilities are best dealt with through the budget process, not general fund reserves.

²³ On top of this, the City is leasing its hospital system, so the employees will no longer be contributing to the Colorado Public Employees Retirement Association, which adds some further uncertainty to the City's future pension position.

²⁴ Even if all ARC payments are made an employer could still end up with an unfunded liability at the end of the amortization period if the actuarial assumptions used to calculate the ARC do not hold up (e.g., the rate of return on plan investments)

GFOA Reserve Analysis for the City of Colorado Springs

Expenditure Volatility

This risk factor refers to potential spikes in expenditure, usually arising from a special, non-recurring circumstance. Expenditures of a recurring nature should not be addressed through the use of reserves, since reserves do not represent a sustainable source of funding for recurring expenditures. Rather, recurring expenditures should be accommodated in the operating budget.

In Colorado Springs, lawsuits appear to be the most important potential source of expenditure spikes, especially because the City's risk management funds do not carry a large amount of reserves themselves, requiring that the general fund to backstop them.

Discussions with City's attorney and risk management professional reveal the following:

- The City faces a number of litigation cases each year. The average potential liability tends to be pretty consistent from year to year. The City normally budgets between \$600K and \$800K each year for claims, which generally has proven sufficient. In more recent years, the number of litigation cases has risen somewhat, but this does not appear to be a significant trend.
- The City is facing a couple of extraordinary special cases. Due to the sensitivity of the cases, they will not be discussed in detail in this report, but there is a significant degree of uncertainty around the amount the City could be liable for and if the City will be liable for anything at all. Hypothetically, the liability could represent tens of millions of dollars, but the City Attorney believes that an amount of between \$2 million and \$4 million is a more realistic estimate of the City's potential risk. Also, under certain circumstances the City could negotiate a multi-year payment schedule for a large liability.
- In the State of Colorado, certain forms of cancer have been designated as work-related injuries for firefighters. Hence, the City's worker's compensation fund will face an increased liability, which will, in part, be covered by the general fund (since the general fund is one of the contributing funds to the worker's compensation fund). However, this would not be spike in expenditures, but would manifest as an increased annual contribution (probably not to exceed \$1 million to \$2 million per year). Hence, this change to the City's recurring expenditure structure should be handled through the City's budget process.

In conclusion, it would seem prudent for the City to account for at least some of the risk associated with the extraordinary lawsuits in its reserves. The final section of this report will address how this risk fits in with the total reserve goals for the City.

Growth of the Community

Rapid growth of the community could call for larger levels of reserves, lest service requirements expand beyond the ability of the City to continue services in the face of revenue interruption. For instance, property tax revenues may not be received until a couple of years after development occurs, yet the government will still need to provide for the public safety, health, and welfare of these members of the community in the meantime. Colorado Springs is a moderate growth community in a higher growth region. The City averages 1.5% growth in a region that grows 2%. The City does not rely heavily on property taxes, so is not heavily impacted by a lag between when services are required by a new

GFOA Reserve Analysis for the City of Colorado Springs

development and when revenues are received. Also, the City requires developers to build much of the infrastructure associated with development (roads, parks, etc.), so does not have to cover that expense. In conclusion, the fact that Colorado Springs is only expecting moderate growth in the next few years and that its development financing approach does not require City resources for large capital outlays means that the implications of growth for the City's reserves are minimal.

Liquidity

A larger amount of unreserved fund balance may be needed to avoid cash flow problems if the average maturity of receivables significantly exceeds the average maturity of payables. A common example of this can be found in governments that are heavily reliant on property taxes. The bulk of taxes may only be received at one or two points during the year, requiring reserves to bridge the months with lower receipts. Of course, Colorado Springs is not very reliant on property taxes at all. In fact, its revenue tends to come in fairly evenly over the year. Exhibit 3.2 shows the projected monthly balances for 2012. As the chart shows, the City's ending balance actually moves steady upwards for almost the entire year eventually dropping near the end (due to bond repayments), but still ending up higher than it started. Hence the City does not appear to have a liquidity problem that requires reserves to cover the gap.

Section 4 – Recommendations

This section provides GFOA's recommendations to Colorado Springs, based on the analysis presented in this paper. The first sub-section addresses the primary purpose of this report: to recommend a reserve target for Colorado Springs. The second sub-section provides other ideas related to its reserve management strategy that Colorado Springs might find helpful, based on GFOA's experience with best practices in public finance.

Recommended Reserve Target for Colorado Springs

This section establishes the recommended reserve target for Colorado Springs. As a first step, the report will review the essential findings of the analysis for each risk factor. Next, the report will provide some

GFOA Reserve Analysis for the City of Colorado Springs

helpful comparative information, such as the reserve levels maintained by other cities as well as rating agency standards. Finally, all of this information will be synthesized to reach a reserve target.

Comparative Reserve Information

When considering a reserve target it is helpful to consult outside standards. Two widely cited standards are GFOA’s “Best Practices” and rating agency guidelines. The GFOA Best Practice recommends, at a minimum, that general-purpose governments, regardless of size, maintain unrestricted fund balance in their general fund of no less than two months (16%) of regular general fund operating revenues or regular general fund operating expenditures.²⁵ Standard and Poor’s considers reserves of between 1% and 4% of revenues to be “adequate,” while reserves above 15% is “very strong.”²⁶

It is also useful to consider the experiences of other governments. Exhibit 4.1 compares Colorado Springs’ unrestricted fund balances as a percent of general fund revenues to the same cities that appeared in the debt comparison (Exhibit 3.1). “Unrestricted fund balance” is usually used to describe the portion of fund balance that is available to serve as a reserve for the types of risk mitigation purposes that were described in this report (i.e., respond to extreme events, protect against revenue downturns, etc.). This is because unrestricted fund balance is the portion of fund balance that does not have restrictions placed on its use by outside authorities.

As Exhibit 4.1 shows, the typical unrestricted fund balance falls somewhere in between 20% and 25% of general fund revenues. Most of the cities in the analysis were closer to 20%, but two outliers (Indianapolis and Centennial) pulled up the average.

Exhibit 4.1 – Unrestricted Fund Balance Comparison						
	"Best in Class" Cities					
	Colorado Springs	Fort Collins	Oklahoma City	Denver	Indianapolis	Charlotte
Unrestricted fund balance as a % of revenues	22.6%	23.1%	12.7%	18.3%	56.9%	17.3%
	Sales Tax Comparables			Summary Statistics		
	Colorado Springs	Lone Tree	Centennial	Average	Median	
Unrestricted fund balance as a % of revenues	22.6%	29.6%	52.9%	25.2%	20.5%	

The average level of unrestricted fund balance (i.e., reserves) falls between 20% and 25% for the comparable group. Colorado Springs falls within this range right now. The outliers in the comparable group (Indianapolis and Centennial) have special circumstances.

²⁵ GFOA Best Practice, “Appropriate Level of Unrestricted Fund Balance in the General Fund” (2009), at www.gfoa.org.

²⁶ David G Hitchcock, Karl Jacob, and James Wiemken, *Key General Obligation Ratio Credit Ranges – Analysis vs. Reality* (New York: Standard & Poor’s, 2008).

GFOA Reserve Analysis for the City of Colorado Springs

Indianapolis had a very large amount of “committed” fund balance, which is a subcategory of “unrestricted” fund balance. “Committed” fund balance is considered to be the most constrained of three subcategories of unrestricted fund balance because the City’s management has committed those reserves for a very specific purpose (the other two subcategories are “assigned” and “unassigned”). While it is impossible to say from Indianapolis’s public reports, it could be that this unusually large amount has been accumulated to pay for special project of some kind or is otherwise not intended as a hedge against risk. In fact, if this amount is removed, Indianapolis’s reserve drops to 22% - much more consistent with the other cities. None of the other cities had nearly as large an amount, by any measure, of committed reserves. For example, 61% of Indianapolis’s reserves are committed, while Colorado Springs only has about 3% in this category and Denver has about 8%, making Denver’s fund balances the most highly committed after Indianapolis.

As for Centennial, about 75% of Centennial’s reserves are in the “unassigned” subcategory (the least constrained of the three), which suggests that Centennial has simply accumulated a much higher relative level of reserves than the other governments in Exhibit 4.3. Interestingly, Centennial also has, by far, the lowest debt burden of any of the cities (see Exhibit 3.1). This high reserve, coupled with an extremely low debt burden suggests that Centennial has a significantly different economic base than the other cities. For example, the median household income in Centennial is \$85.5K, compared to \$51K in Colorado Springs and \$55.4K in the State of Colorado. The median home value in Centennial is \$260K compared to \$182K in Colorado Springs and \$205K in the State of Colorado.²⁷ In 2010, the unemployment rate in Centennial was 4.8%, compared to 9.4% in Colorado Springs. Although neither municipality relies very heavily on property taxes, it is interesting to note that the total assessed value of properties in Centennial is 34% greater on a per person basis than in Colorado Springs. Finally, centennial’s general fund revenue are, on a per capita basis, 20% greater than Colorado Springs even though Centennial appears to provide more limited set of services to its citizens (for example, Centennial is served by a separate fire protection district and recreation district, while Colorado Springs provides these service directly). These distinctive characteristics have likely made it more practical for Centennial to accumulate a sizable reserve.

Putting it All Together: The Reserve Recommendation

In order to reach the final recommendation for a reserve target for Colorado Springs, let’s first review the individual analysis results from each of the risk factors.

Primary Risk Factor - Revenue (Sales Tax) Volatility. While the sales tax does show some volatility, this is due almost entirely to economic cycles and seasonal effects (as opposed to random variation). Therefore, the most important vulnerability the City has with respect to sales taxes is an economic downturn. A review of past economic downturns leads us to believe that the City should prepare for a potential 20% decline in sales tax revenues over 25 months as a plausible “worst case scenario” (this amounts to about \$23 million in reduced revenue). However, the City would presumably reduce its spending in the event of such a severe downturn, such that a reserve to cover the entire amount of the revenue decline would not be necessary. The City budget office estimates that the budget could be

²⁷ Based on values from Zillow.com

GFOA Reserve Analysis for the City of Colorado Springs

reduced by just under \$10 million without creating a major disruption to services (though service quality would be negatively affected to some degree, of course). This means the City should maintain a reserve of at least \$13 million to fill the remaining portion of the revenue gap and to help the City make a “soft landing” in the case of a major revenue decline.

The City’s other revenue sources are fairly stable as a group, but GFOA has recommended that some reserves to account for volatility may be prudent. These reserves added up to \$7.3 million.

Primary Risk Factor - Infrastructure. General fund reserves may be needed to repair or replace an asset that fails unexpectedly. In Colorado Springs, the two asset classes that were deemed to be of the greatest importance are bridges and storm sewers.

13 bridge structures have been identified as having a high risk rating. These bridges have an estimated replacement value of \$22,752,672. This averages out to about \$1.75 million per bridge. A reserve that covers one or two bridges should be adequate, but using the “Triple-A” rule of doubling our expectation for uncertainty, preparing for the premature failure of three of these bridges might be more prudent. This equates to a \$5.25 million reserve.

406 miles of storm lines are managed by the City. However, neither install dates nor condition assessments were available for any storm lines. The estimated replacement cost for all storm sewers is \$588,052,836.²⁸ Since the information necessary to assess risk of failure is not available, the best that can be done is to make an assumption. We do know that about 10% of the total dollar value of the City’s bridge inventory is in the higher risk category, so it may be reasonable to start with that number for storm sewers, which would translate to \$58 million. We also know that about 20% high risk category of bridges was recommended as a reserve amount, which would equate to \$11.6 million.

Primary Risk Factor - Vulnerability to Extreme Events. The City is subject to extreme events that pose a significant threat to life and property. However, the City’s historical experience is that the financial impacts of these events have been manageable. For example, the most recent fire was the worst in Colorado history, but the total cost to the City was only \$3.75 million versus an annual City budget of about \$220 million. Taking into account the uncertainty associated with the scale of future extreme events as well, as well as the timing of FEMA reimbursement and the portion of event response costs that are likely going to be already covered by existing budgeted resources a reserve for extreme events of \$5 million seems reasonable, but an argument for a reserve of up to \$7.5 million could also be made.

Secondary Risk Factor - Leverage. The City has very little debt, so the City’s reserve strategy does not need to account for reduced financial flexibility from debt.

The City has some financial pressure from pension obligations. It participates in a number of plans, none of which is 100% funded. The Colorado Public Employees Retirement Association is a particular concern for City officials because it has a low funding ratio and its assumptions around the return on plan assets

²⁸ Drainage Basins, Open Drainage Features, Discharge Points, and Point Features are not included in the replacement cost, which would likely push it over \$1 Billion dollars.

GFOA Reserve Analysis for the City of Colorado Springs

have been publicly questioned for being too high. Both of these factors mean that the Association may require significantly increased contributions from its member governments.

Assuming that the City keeps up with its annual pension payments, the unfunded accrued liabilities should, in theory, be covered by the end of the amortization period (which can vary with the plan, but typically is between 20 and 30 years). Keeping up with the ARC payments is a matter of City budgetary policy, and not really an issue that should be addressed through using reserves. However, given the uncertainty around pension issues, it is difficult to say when increases would occur or how much they might be. As such, it would be prudent to hold some reserve to help make a more gradual adjustment to any potential large increases in contribution rates. The City currently pays about \$10.5 million in annual contributions to the Colorado Public Employees Retirement Association and about \$14.5 million to the other pensions, for total of about \$25 million. A reserve of \$6.25 million would cover a 25% increase in pension costs. Of course, an increase in the City's contribution will be felt over many years, but the reserve will allow the City to make a gradual adjustment or to more easily absorb a larger increase in contributions in one year.

Secondary Risk Factor - Expenditure Volatility. The City is facing a few large lawsuits that could entail significant settlement costs if the case goes against the City. The City attorney believes that \$2 million to \$4 million is a reasonable range to prepare for.

Secondary Risk Factor – Liquidity / Cash Flow. The City faces no important liquidity or cash flow problems that create a shortage of working capital.

Secondary Risk Factor – Growth of the Community. The fact that Colorado Springs is only expecting moderate growth in the next few years and that its development financing approach does not require City resources for large capital outlays means that the implications of growth for the City's reserves are minimal.

So, in summary the components of a recommended reserve are:

- \$13 million for sales tax economic uncertainty
- \$7.5 million for economic uncertainty in other revenues
- \$6.25 million for pension payment uncertainty
- \$5.25 million for critical bridge failure and \$11.6 million critical storm sewer replacement, for a total of \$16.85 million.
- \$5-7.5 million for extreme events
- \$2-4 million for expenditure spikes from law suits

Many cities express their reserve policy target as single number (e.g., 16% of revenues). However, GFOA has found that leading municipalities often find it helpful to segment their reserves into different categories because this makes the purpose of the reserve more transparent. For example, a reserve for "emergencies" and a reserve for "economic uncertainty" would provide more clarity on the purpose of the reserves than one all-encompassing reserve. The first three bullets above could comprise the

GFOA Reserve Analysis for the City of Colorado Springs

budgetary uncertainty reserve, while the last three would form the emergency reserve, leading to the following targets:^{29,30}

Budgetary Uncertainty Reserve
\$13 million for sales tax economic uncertainty +
\$7.5 million for economic uncertainty in other revenues +
\$6.25 million for pension payment uncertainty =
<i>\$27 million or about 12.5% of general fund revenues³¹ as budgetary uncertainty reserve</i>
Emergency Reserve
\$5.25 million for critical bridge failure and \$11.6 million critical storm sewer replacement, for a total of \$16.85 million +
\$5-7.5 million for extreme events +
\$2-4 million for expenditure spikes from lawsuits =
<i>\$27 million or about 12.5% of general fund revenues as an emergency reserve</i>

This provides ***a target of about 25% of general fund revenues***, which is also about in line with the range of reserves actually maintained by other cities that are comparable to Colorado Springs and is above the level that GFOA considers the minimum baseline level that a government should maintain (16%).³² These reserves would be considered part of the “unrestricted” portion of the City’s fund balance.³³

²⁹ Targets have been rounded to nearest “whole” numbers for ease of use in policy making

³⁰ Note that many of the risks listed in the table can be considered “independent,” meaning that the occurrence of one risk has little to do with the potential occurrence of another risk. For example, the occurrence of an extreme event has little or nothing to do with whether the City also experiences an increase in its pension payments. In these cases, there could be a justification for holding less reserves than the total of the two numbers because it is rather unlikely that the City will experience both of these problems at once. However, other risks are not independent. For example, an economic downturn that causes a reduction in sales tax revenue would likely also impact other revenues, a natural disaster could make the City more likely to experience a critical infrastructure failure, or a natural disaster could result in interruption to sales tax revenue. Because the risk factors appear to have at least some level of significant inter-dependency (a level which is difficult to know), the approach of adding the reserve components together represents a conservative approach to sizing reserves for Colorado Springs. This approach would leave the City without any exposure to risk arising from risk factor dependency. However, it should be noted that zero exposure to risk also means that the City will hold more reserves that it will *probably* need at any one time.

³¹ Based on about \$220 million general fund revenue, as per 2012 budget estimates

³² See “GFOA Best Practice: Appropriate Level of Unrestricted Fund Balance in the General Fund.” www.gfoa.org The Best Practice states that reserves equal to about 16% of revenues or expenditures is the minimum a government should consider for its policy and that the actual target that a government adopts should be based on an analysis of the salient risks that a government faces (which in many cases may call for a higher reserve level than 16%).

³³ Within the “unrestricted” portion of fund balance, the City could choose to locate the reserves within the “unassigned” or “committed” categories. Municipal governments typically choose the unassigned category because the accounting requirements to place funds in the committed category are more stringent (e.g., the commitment must be made by formal action of the City Council and the language describing the conditions for using the reserves must meet a high level of precision).

GFOA Reserve Analysis for the City of Colorado Springs

Other Ideas to Support the General Fund Reserve Strategy

This section presents other ideas that Colorado Springs may wish to consider, relative to its reserve strategy. These ideas include: enhanced sales tax monitoring, a user fee cost recovery policy, a volatile revenue policy, a short-term borrowing policy, and a grants policy.

Sales Tax Monitoring

Because a potential decline in sales tax revenue is the major driver for the City's need to retain reserves, the City might consider additional methods to monitor the potential direction of its sales tax revenue. The City already employs some fairly sophisticated long-range forecasting methods. The City should continue to refine its method, including continuing to look for leading indicators of sales tax performance. However, GFOA did not examine the City's long-range forecasting methods in-depth, so this paper will focus on how some of the techniques used in this paper might be helpful going forward. First, the City might monitor a 12-month, centered moving average, updating it each month. As Exhibit 2.3 demonstrated, the 12-month moving average reveals long-term trends that are not as readily apparent from monthly data, especially when month to month-to-month fluctuations are so dramatic (even if the fluctuations are rather predictable). If the moving average starts to turn down, it could indicate a real trend. Of course, the problem with this approach is that a moving average will always be five to six months behind since the analysis must wait for the historical data to come in. A more immediately useful technique would be to compare monthly fluctuations to the average. If a month that is normally a high-yield month does not come in as strong or if a month that is normally a low yield month is particularly bad, it could portend trouble. Exhibit 4.2 shows how the months of the year compare to both the 12-month moving average and to the month before it (e.g., how January compared to December, etc.). The month-to-month numbers are often larger because revenues sometimes go from peak to valley and vice versa very quickly. The month-to-month numbers will also be easier to use, because they don't rely on the availability of moving average data.

Exhibit 4.2 – Average Monthly Variations in Sales Tax Revenue

	Avg % Difference from Previous Month	Avg % of the 12 Mo MA
January	35.7%	125.0%
February	-33.8%	82.5%
March	3.1%	84.4%
April	22.1%	103.1%
May	-10.9%	91.4%
June	7.8%	98.5%
July	15.2%	113.0%
August	-8.2%	102.5%
September	-0.3%	102.2%
October	5.6%	107.4%
November	-8.0%	95.4%
December	-4.5%	92.4%

GFOA Reserve Analysis for the City of Colorado Springs

User Fee Cost Recovery Policy

User fees are about 6% of all general fund revenue. User fees are an increasingly popular way to fund municipal services because they assign the cost of the service directly to the customer, as opposed to the general taxpayer. The City could strengthen its user fee base by adopting an official policy on the extent to which it will seek to recover the costs of providing services through a user fee.

A user fee cost recovery policy could be very detailed – setting precise targets for the percent of cost to recover for different types of services.³⁴ However, most governments take an approach that allows for more discretion, where the policy establishes full recovery as the goal for user fees, but recognizes that there will be occasional exceptions. This policy from Minneapolis, Minnesota illustrates:

The city shall establish user charges and fees at a level that reflects the service costs... Full cost charges shall be imposed unless it is determined that policy, legal, or market factors require lower fees.

This policy approach will require that the City Council and staff actively collaborate to decide, on a case-by-case basis, where subsidization of a service with general tax dollars is appropriate. Of course, any policy should recognize that the governing board determines where subsidizations are appropriate – it is just a matter of whether these decisions will be codified in a formal policy or if the policy will leave it to the board and staff to decide on a case-by-case basis. The former approach will provide a greater level of control over unintended subsidization, while the latter will provide greater flexibility to decide on how subsidizations will be handled.

User fees can be a complex and, sometimes, controversial revenue source. So it may also be helpful to have a policy that describes the fundamental goals of user fees and a mechanism for regular review of the fees. GFOA has published a great deal of more detailed information on fee policies, if the City is interested in this topic.³⁵

Volatile Revenue Policy

As we have seen, the sales tax can be strongly influenced by the state of the economy. Just as an economic downturn can depress sales taxes, a buoyant economy can lead to a rapid increase. This presents a financial risk if these new revenues are used to fund recurring expenditures (e.g., new on-going programs and their associated personnel) and if these new revenues stem from a level of consumer spending that is not sustainable. A volatile revenue policy encourages a government to examine its past revenue trends to determine when it may be experiencing an anomalously high level of revenue income and to use this revenue for uses of a non-recurring nature, such as paying off debt, building up a reserve, or special projects that will reduce future operating costs.

The policy for the City and County of Denver, Colorado, illustrates this type of policy:

It is not prudent to allocate sales tax revenue that exceeds the normal growth rate (defined as the average annual growth rate over the last ten years) to ongoing programs. Therefore, sales tax revenues

³⁴ See for example, the policy of the City of San Luis Obispo, California, which is available at the GFOA website www.gfoa.org/financialpolicies

³⁵ See primarily the GFOA book *Financial Policies*

GFOA Reserve Analysis for the City of Colorado Springs

that exceed the normal growth rate should be used for one-time expenditures or to increase reserves for the inevitable economic downturns.

Short-term Borrowing Policy

As Exhibit 3.1 showed, the City has a very low level of debt. Debt can be a source of financial flexibility, thereby mitigating the need to hold reserves. Short-term debt could be useful if the City finds itself with the need for a temporary cash infusion (to deal with an unexpected situation). However, short-term borrowing from external sources is usually considered undesirable due to, among other things, the administrative costs of arranging the deal. As such a policy usually places limits on short-term external borrowing. For example, a policy might specify that short-term instruments be used only if the transaction costs plus interest of the short-term debt are less than the cost of internal financing and if available cash is insufficient to meet working capital requirements. A policy could also state that short-term debt issued for operating purposes will be limited to cases where there is reasonable certainty that a known revenue source will be received in the current fiscal year sufficient to repay the debt, or where there is a clear financial emergency.

For many governments, interfund borrowing is preferred to external borrowing. For example, the City's utility may make a loan to the general fund or vice versa. This is another way to increase financial flexibility, beyond that provided by reserves. A policy for interfund loans is useful because, if not carefully managed, the loans can become a cross-fund subsidization, which could lead to one group of taxpayers or ratepayers subsidizing another group. A policy can establish terms and guidelines to help avoid overly burdensome loans. The following are suggested elements for an internal loan policy:

Definition of a loan vs. a transfer. A policy should differentiate a loan from a transfer since the implications of each are different. Essentially, the difference is that operating transfers move financial resources from one fund to another, permanently, while interfund borrowings are usually made for temporary cash flow reasons and are not intended to result in a transfer of financial resources by the end of the fiscal year.

Criteria for making loans. Just as a private lender would apply criteria to a potential borrower, a policy should describe the general conditions under which an internal loan is permissible. A policy should describe these conditions and designate the appropriate authority responsible for authorizing the loan. Here are some examples of such conditions:

- The lending fund has funds available.
- The borrowing will not adversely impact the lending fund's long-term financial condition.
- A specific source of repayment has been identified in the borrowing fund.
- The loan can be repaid within a specified period of time.
- Any legal requirements/restrictions are satisfied.

Interest rates and terms. A policy should also provide guidelines on terms and interest rates. Typically, interest rates would match prevailing rates, with the exact rate set by the finance office. For long-term loans, a repayment schedule must be set, but the loan should typically be fully amortized, preferably on a level or accelerated repayment schedule.

GFOA Reserve Analysis for the City of Colorado Springs

Grants Policy

Grants are an attractive form of funding for many local governments because they offer the possibility to reduce reliance on taxes and fees drawn from the community. On the other hand, grants can harm the government's long-term financial position if they lead to implementation of an ongoing program that later requires support from general tax dollars when the grant expires. Further, many grants require matching funds and overhead costs that might end up diverting funds from higher-priority services. A policy can encourage grant-seeking, but should also recognize the risks of overreliance on grants and direct the organization to manage those risks. The policy from the City of Long Beach, California, instructs staff to analyze the long-term costs and benefits of a grant before accepting it:

City staff will seek out, apply for, and effectively administer federal, state, and other grants that address the city's priorities and policy objectives and provide a positive benefit to the city. Before any grant above \$50,000 is pursued, staff shall provide a detailed pro-forma to the city manager that addresses the immediate and long-term costs and benefits to the city. A pro-forma must be submitted to the city manager for all grants prior to accepting the grant award.

A policy should direct that any grants pursued are consistent with the government's mission and strategic priorities. Spotsylvania County's policy states that "before applying for and accepting intergovernmental aid, the county will assess the merits of a particular program as if it were funded with local tax dollars."

After the grant has been accepted, a policy should address the possibility that the grant will end, leaving the government to decide whether to continue the program. Spotsylvania County's policy reads that "local tax dollars will not be used to make up for losses of intergovernmental aid without first reviewing the program and its merits as a budgetary increment."

Infrastructure Maintenance/Replacement Schedule

Rather than reserving funds to guard against the failure of worn assets, the City should develop a plan and schedule to maintain and replace assets, as needed. Exhibit 4.3 shows what yearly capital expenditures would be to keep up with bridge and culvert replacements. Obviously, the pattern is quite volatile. The City might consider translating this into a regular schedule, with a set annual contribution to funding that schedule. GFOA estimates at a \$10.9 million approximate annual contribution would be necessary to fund the schedule. Not only would this reduce the amount the City would have to hold in reserve (since assets would not deteriorate to critical condition), but it would greatly reduce the actual risk faced by the City.

GFOA Reserve Analysis for the City of Colorado Springs

Exhibit 4.3 – Estimate of Annual Bridge and Culvert Replacement Costs

For storm sewers, the average annual contribution for a regular maintenance/replacement schedule would be about \$36 million, though this is a less precise figure because the underlying information on asset condition is not as detailed.

GFOA Reserve Analysis for the City of Colorado Springs

Appendix 1 – Sales Tax Revenues in Boulder, Colorado

In order to provide a little better comparative context for examining Colorado Springs’ sales tax, GFOA request permission from the City of Boulder to use their monthly sales tax data in a similar analysis to Colorado Springs’. Exhibit A1.1 below shows Boulder’s revenues since June 2004. Like Colorado Springs, Boulder has four “spikes” during the year, with a holiday spike being the largest. Boulder’s sales tax revenue is a little more volatile, with about 4% of the variation attributable to random factors.

Boulder also experienced a protracted decline in its trend-cycle in the wake of the Great Recession – a 10% drop over 21 months. This is just under half a percent per month, so not too much different from Colorado Springs.

Exhibit A1.1- Monthly Sales Tax Revenue from the City of Boulder, Colorado
