2021  
Aurora Bearalis

## Tiny House:

- 60 teens had the opportunity to make this home on wheels from start to finish, which now is home to a formerly homeless person.

Programs  
focusing in  
Sustainability,  
Agriculture and  
Biology

Our office is also located at the cities office of Sustainability.

# Murals

- Over 100 Murals completed in town
- All were free to the city and maintained over time by us
- Some are 30 years old

We have **completed over 850 projects**  
in the Pikes Peak Region.

- All were designed and built with very little public funding...and have saved Colorado Springs over \$250,000 from graffiti.

(source: Mark Davis, Code Enforcement)

# “THEN AND NOW”

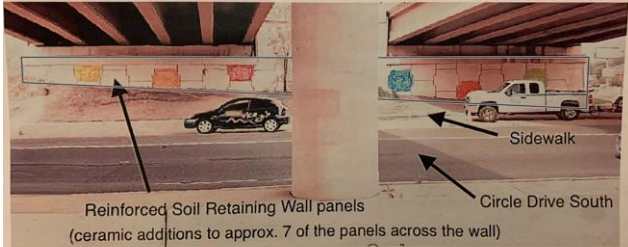

- Community mural painted originally in 1991, and repainted/updated every ten years.

# School Projects

## John Adams Elementary Community Mural

# Thanks for listening!

We hope that you enjoyed our presentation and are interested in getting to know and support our community lead programs and initiatives!
