This item was removed from the Consent Calendar by Citizen Larry Bagley for discussion.

Daniel Sexton, Senior Planner, Planning and Community Development, presented the Ordinance amending the Planned Business Center with conditions of record (PBC/cr) zoning for 8.43 acres located at 7133, 7149, 7165, 7207, and 7239 North Academy Boulevard to include 1. General food and convenience food sales and 2. Liquor sales. He presented a vicinity map, site details, and public notification process. Mr. Sexton provided a brief background of the area, the area context, the area zoning, and a comparison of allowed and prohibited conditions of record. He identified the amended development plan, consistency with PlanCOS, and public input.

President Pro Tem Strand asked why this property was not zoned with the same conditions of record as other PBC zones in the area. Mr. Sexton stated the City addresses these types of requests on a case by case basis.

Councilmember Geislinger asked what brought about the initial change to the PBC. Mr. Sexton stated it was from negotiations between the developers and Homeowners Association (HOA).

Councilmember Murray asked if the covenant from the neighborhood has been considered. Mr. Sexton stated staff has reviewed both the application and the neighborhood concerns. Peter Wysocki, Director, Planning and Community Development, stated staff is reviewing a private application to eliminate a condition of record that was part of the original PBC zoning of the property.

Councilmember Knight asked if this property has the same owner as it had in 1999. Mr. Sexton stated it is not. Councilmember Knight stated this owner knew the conditions of record when they purchased it. Mr. Sexton stated the area surrounding this property has changed drastically since 1999 which is the reasoning behind the application.

Councilmember Pico asked if the surrounding properties had consistent or uniform condition of records. Mr. Sexton stated they do not, most of them have different conditions of record.

Andrea Barlow, NES Inc., representing the applicant, presented historical photographs of the project area and site location. She identified the existing zoning and the requested changes to the conditions of record. Ms. Barlow presented photographs of existing site conditions and gave an overview of the neighborhood outreach and neighbor concerns. She went over the merits of the project, comprehensive plan compliance, and the changing conditions since 1999.

Megan Tollackson, property owner, gave a brief history of the business tenants in the project area and how they were approached by two entrepreneurs who would like to put an upscale liquor store in one of the smaller locations.

Councilmember Murray asked if the building structure will be expanded if the rezoning is not approved. Ms. Tollackson stated it would not.

Citizen Larry Bagley stated the owner of the project area has done a fine job of maintaining the property between the development and Burglind Road. He identified the properties that had the same conditions of record in the area located on the Academy Boulevard corridor. He gave a brief history of Falcon Estates and Columbine Estates and said approximately two hundred neighbors were involved in the City planning meetings regarding the development plans of the area. Mr. Bagley highlighted that a

very important part of those discussions included the conditions of record that were put into place to protect and preserve the rural aspect of the neighborhood.

Citizens Claude DeGrush, Richard Price, Julie Turnis, Garret Flood, and William May-Vigil spoke in opposition of the proposed conditions of record zoning changes.

President Pro Tem Strand asked why there was no attendance by the neighborhood at the March 21, 2019 Planning Commission meeting. Mr. Flood stated the only communication received were the postcards delivered only to properties in the immediate proximity of the project area and the HOA only has approximately one-third of the email addresses for the neighborhood.

Councilmember Geislinger and Councilmember Williams asked if closing the barrier wall to pedestrians would be an acceptable solution. Mr. Flood and Mr. May-Vigil stated it would be.

Councilmember Williams asked which conditions of record the HOA is opposed to. Mr. Flood stated they are opposed to the convenience food store and liquor store concepts.

Marc Smith, Corporate Division Chief, Office of the City Attorney, clarified this item is to be reviewed is strictly for land use zoning conditions, not as a liquor establishment which would require a separate process for licensing.

Councilmember Murray stated emergency access for ambulance, police, and fire needs to be considered if the wall will be extended. Mr. May-Vigil stated there would still be access to the back of the buildings.

Councilmember Knight asked what the condition of records are to the north of the project area. Mr. Sexton listed the conditions of record for the parcels surrounding the property.

Mr. Wysocki identified different uses that are be allowed under the existing conditions of record and staff evaluates these requests on a case by case basis to determine if a new land use will impact traffic, the operation of the site, neighborhood character, etc.

Mr. Sexton stated blocking of the pedestrian access by extending the wall could affect adjacent businesses, emergency response, utilities, and stormwater drainage and the applicant has requested consideration of their development plan with no changes.

Ms. Barlow stated the neighborhood character has been preserved since 1999 even with the commercial development surrounding it and changing these conditions of record will not affect it. She explained how there is a process in City Code that allows for changes to property zoning and circumstances over the years can require conditions of record to change. Ms. Barlow stated not all of the neighbors agreed that the pedestrian access should be blocked off and the access points are required for emergency access.

Councilmember Geislinger stated the zoning criteria is established and does not believe adding a liquor store will change that criteria and it will be consistent with the City's Comprehensive Plan.

Councilmember Gaebler stated because there are already liquor stores in the area, she will be supporting the application

Councilmember Williams stated he does not see a logical difference for the condition of record to be excluded in this area and therefore will be supporting the application.

Councilmember Pico stated the current conditions of record were approved for a reason so he will not be supporting to change them.

Motion by Councilmember Geislinger, seconded by Councilmember Gaebler, that the Ordinance changing the zoning for 8.43 acres from (PBC/cr) Planned Business Center with Conditions of Record to (PBC/cr) Planned Business Center with Conditions of Record, based upon the findings that the change of zone request complies with the three (3) review criteria for granting a zone change as set forth in City Code Section 7.5.603(B) be approved on first reading.
