

Resident Comments

I'm writing in regards to the Tuscan Foothills Village Filing No. 2-Zone Change - CPC PUZ [18-00066](#).

This town is turning to shit enough. East of I-25 is a nightmare... I always looked to the west side as a retreat from it all. Please leave something desirable. We have had an increase in crime in our quiet neighborhood recently... this will not help our situation. Just stop. Developers do not have our interests at heart nor our neighborhoods. Whatever dinner the developers will take you out too, I will double it and bring a hundred of my neighbors with me. I look forward to this dinner. –

Sincerely,

Kristin Maksimowicz

To Whom It May Concern,

Please do not change the zoning to allow multifamily units. The area needs more commercial store fronts. Please reconsider.

Thank You,

Karla Warnecke

Mike,

Thank you for all of your time today. It seems a perfect candidate since so much of it borders the school, the schools open space and the city's current open space. Thanks again for the information today.
