as of January 19, 2021**

Comment from Italy: "Non va bene" Translated: "That's no good"

People from all over the world come to Colorado to see the foothills, mountains, and bighorn sheep.

255	Homeowners that received the Green postcard from the City.
3,012	Total people from all over the U.S. and around the world. OPPOSED to the proposed Concept Plan, Zone Change, and Master Plan Amendment.
826	Comments from people that signed this Petition.
1,191	E-mail addresses from people that want to be kept up-to-date on this project. Plus 1,100 Mountain Shadows that want to be kept up-to-date.
491	Unique ZIP Codes
363	Cities
43	States
35	ZIP Codes in Colorado Springs
5	Foreign Countries: APO, Canada, England, Germany, Italy

Some of the common comments. Save the views of the mountains. Traffic is too much of a problem. No westbound fire escape routes. Tourists would rather see the mountains instead of high-density housing. Testimony of bighorn sheep on the property.

There is NOT proper fire escape plans to increase the density of this area!!

Noooo!!!

1. The eastbound traffic on GOG at 5PM is horrible. GOG cannot support that many new vehicles in that area. 2. I worked at MCI for 5 years. During that time I would frequently see bighorn sheep negotiating the hogback ridge right above the area in which they want to build.

Oh my gosh, what will this development do to 30th Street? Hasn't Mountain Shadows neighborhood been through enough with a catastrophic fire happening a mere 8years ago? I also have a serious interest with the Rocky Mountain Bighorn Sheep herd that regularly grazes through the proposed development area. Have YOU ever travelled along 30th Street during tourist season with the literally millions of tourists descending upon Garden of the Gods? I do. I volunteer at the Garden of the Gods Visitor and Nature Center. What you propose will create a nightmare scenario to visitors and residents alike. By the way, tourist season extends far beyond the summer months. The city touts the best city park in the United States, yet due to nearly non-existent tax revenue, can't support the infrastructure needed to get to the park, much less maintain the park. Oh, right, 30th Street will begin to get badly needed improvements, tying up the street for 18 months - 2 years. Please do not approve this development.

WILDLIFE: The City's responsibility is to comply with the "Colorado Bighorn Sheep Management Plan" and Governor's Executive Order to PROTECT iconic wildlife including bighorn sheep.

I worked in the Verizon building. Traffic congestion was pretty bad during rush hour (pre-pandemic) Can't imagine how much worse it would be by adding all the extra people/cars. I'm all for in-fill rather than urban sprawl, but I don't think this particular squeeze in is a good plan/idea.

While I am not a resident , I am a regular visitor to the Colo. Springs area. In particular this district..what you are considering to do to this area, while lining the pockets of the developer, will have a negative impact on the entire reason many thousands of people visit Colorado. The views!!! Untouched , preserved to be enjoyed for not just a few moments but an entire lifetime..it saddens myself and countless others to see what over developing has done to our " hometown ". Please please stop this from happening!!

Please don't destroy the amazing views of one of the most beautiful places on this earth. Every single time I come home, my family and I visit Garden of the Gods. My family that still lives in Colorado Springs visit the park all the time. I married my amazing husband with Garden of the Gods and Pikes Peak in the background. Blocking the views would be a terrible shame.

Please do not do this! I have worked in the Verizon building for 25 years and it sits on a beautiful piece of property! We see wildlife all the time. Don't invade their territory. Boo. Tell the developers to build somewhere else

Please do not spoil this beautiful natural park. My husband and I visited there when visiting family in Colorado Springs. It holds a special place in my heart.

We have been on 7 road trips to the States flying in or out of Denver each time which enables us to visit Garden of the Gods. We feel that this development would fundamentally change a beautiful place to the extent that we may not revisit so we are supporting this petition.

PETITION to Stop the Zone Change at 2424 Garden of the Gods Rd.

A developer filed plans with City Planning to build 450 multi-family units, with a maximum height of 45 feet, at 2424 Garden of the Gods Rd along 30th St.

By completing this PETITION and clicking "Submit", you are at least 18 years old and OPPOSED to the proposed Concept Plan, Zone Change, and Master Plan Amendment that allows this development for reasons listed below. (Your information will NOT be sold.)

One entry per person, per property, where you own or rent. Your significant other may participate separately. Please share this link with others.

IMPORTANT: You can also help by dialing in to the Planning Commission public hearing to listen to their decision. January 21, 2021 at 8:30am. This topic is scheduled to start at 9:00am. +1 720-617-3426 Conference ID: 815 13 701 #

Thank you for your support,
Mountain Shadows Community Association

You can also help by sending your opposition email to your City Council Member & At Large Members. Find your Council Members email at [City Council email](#). If you don't know your Council Member, go to this map "[City Council Districts](#)" and type your address.

1. **VIEWS:** The City's responsibility is to comply with Hillside Development & PlanCOS guidelines to protect hillside overlays and "Majestic Landscapes" at the west end of Garden of Gods Road, 30th St, & Flying W. Ranch Rd.
2. **PARKS:** There are not enough parks in this area, Central West. The City's responsibility is to comply with the proposed Parkland Dedication Ordinance goal of 5.5 acres/1,000 people. A one-time catch-up acquisition of this property will increase the City's lowest ranked 2.0 acres/1,000 people.

NOTE: High-density housing without a SIGNIFICANT addition of parkland reduces the number of parkland acres per person.

3. WILDLIFE: The City's responsibility is to comply with the “Colorado Bighorn Sheep Management Plan” and Governor's Executive Order to PROTECT iconic wildlife including bighorn sheep.

4. TRAFFIC: High-density housing along with 6 million Garden of Gods visitors per year will increase traffic. Currently, there is little to no bicycle infrastructure (signs, bike lanes, safe continuity between roads and bike paths), it is the City's responsibility to protect cyclists & improve traffic flow for motorists by adding the proper infrastructure.

5. POPULATION & CRIME: Approximately 30% increase to Mountain Shadows population in this small area will increase opportunity crimes and added stress on natural & public resources. High Density Residents could damage the hillside and trespass onto the Navigators & Flying W. Ranch properties, as no Park Space has been allocated.

6. FIRE SAFETY: Increased population exacerbates evacuation in the event of fire (Ref. Waldo Canyon wildfire 2012 – 2 people perished & 346 homes destroyed. Plus, 5 local wildfires in 5 weeks in the fall of 2020).

We worked hard to purchase this house in THIS neighborhood and now you want to rezone a piece of land that will change EVERYTHING about my way of life? Those land owners bought this land knowing the zoning would have to change for them to do what they wanted all along and this is unjustified! Don't ruin the beautiful views going into GoG's park for money.

Our community of Mountain Shadows is currently in drought and no doubt, 2021 will be marked by serious wildfires in conjunction with tremendous wind speeds. We have already experienced the trauma and very panicked exodus evoked as a result of the Waldo Canyon wildfire entering our neighborhood June 23, 2012; the stress endured, the traffic delays, bottlenecks, lives lost and evacuation that ensued for weeks. It will never be forgotten. In Mountain Shadows bottlenecks can easily occur.

Flying W Ranch creates excessive tourist traffic to the north with cars turning south onto Flying W Ranch Road. Just a bit further to the south, cars emerging from The Navigators trying to turn onto N30th street in either direction can barely find a break in traffic in order to do so. Garden of the Gods also creates a large amount of ensuing traffic in the neighborhood. On Flying W Ranch Road, mule deer and other wildlife are a regular occurrence. No one complies with the 30 mph set speed limit heading south down the steep hill, thereby increasing the possibility of traffic accidents and deadly wildlife encounters. This scenario and excessive speeding also creates a dangerous situation for pedestrians, especially when walking pets and encountering wildlife. Inadvertently disturbing panicked deer can send them into oncoming speeding traffic creating hazards or, in the process of trying to avoid any such encounters with unpredictable wildlife, pedestrians are forced to walk into the road, attempting to cross a busy street with oncoming, speeding traffic. Nor is there a pedestrian crossing at Chuckwagon Road that would permit a safe crossing where the Flying W Ranch traffic emerges from. Our local Mountain Shadows park is a very small one, already overtaxed with various user groups. Chipeta Elementary, the local school, cannot accommodate the resulting influx of students the proposed rezoning and a subsequent multi-plex housing development would create. As previously mentioned, this area of Mountain Shadows is already bottle-necked, north and south, both Flying W Ranch road and North 30th St. excessively busy during peak rush hours with drivers ignoring the set 30 mph speed limit on Flying W. It is only a matter of time before there is a human fatality. God help us if impending climate change, drought, high winds, and wildfires force us to once again have to evacuate this neighborhood. The prognosis for this very scenario to be actualized in the near future is a very likely one. In short, this proposed rezoning and the inevitable urban development that would follow, benefits no one with the exception of the developer and perhaps inevitable future opportunistic crime. For everyone else, the proposed rezoning and development is an unwanted and unthinkable detriment, providing no benefit whatsoever to the community. Mountain Shadow's current populace, its already inadequate park, the current congested traffic and disrespectful, speeding drivers it endures; its fire threatened, fire ravaged landscape, proliferous wildlife, trails, aesthetics, elementary school etc., all of these, would only be NEGATIVELY impacted, marred by further overuse; existing resources and means already inadequate and insufficient to cope with the current demand being placed upon it. The Re-zoning Proposal of 2424 at Garden of the Gods Rd. should immediately be rejected and quashed by City Council; for the sake of the land, the wildlife and the safety of the community itself. Indeed, the fact that this proposal was surreptitiously "ramrodded" upon our Mountain Shadows community without proper notice or consideration given, nor input from the community and is already currently under review by OUR Representative City Council is both appalling and deeply disturbing. Thank you for the opportunity to provide feedback for this important upcoming legislation.

Sincerely, Barbara Wood

Traffic is already a problem in the area, we do not need any more buildings nor people! We do not need the increase in Crime with more population in the area! In case of emergency we already have a problem with evacuation. We like to prevent the zoning change to preserve the beautiful views that tourists and residents enjoy. The new construction/buildings/people would invade the Wildlife Area! Please consider all the negative influences the re-zoning would have. I do NOT see any POSITIVE in the re-zoning! Please do not approve!

This project would be an eyesore on the west side of town. It would create more traffic and noise disrupting the neighborhood. We are very opposed to this building proposal. One issue that was not highlighted in the rationale was what this transient population increase would do to the schools. There is a reason we chose Chipeta Elementary. How would they handle

this huge influx of students? And safely for that matter?

I am very concerned about these apartments. Parking has never been addressed. The wildlife which is so vital to the Garden of the Gods park and the national forest will likely be so stressed they will die. Traffic, and not just emergency traffic, is backed up sometimes for a mile. The fire departments and police are overworked and taking way too long to get to destinations. We hear crime doesn't go up, prove it by giving us data. Where are these people going to work. Garden of the Gods corridor is dead. The prime companies that were here when Mountain Shadows was built are all gone. Buildings are empty. Covid taught us that we CAN work from home so the chances the buildings will fill up is fairly low. Maybe some of these people can work from home, but we need housing for low income close to where they work. Not clear across town. The whole idea of these apartments is the poorest investment I can imagine. I live here, I know what goes on here, I know the schools, the stores, and the empty buildings. I see for rent signs on apartments all over town. In fact I can't think of an apartment building that doesn't have an available sign on it. Please Please Please listen to the people who live here. We know what is needed.

Opposed to the rezoning 2424 Garden of the Gods. This is the gateway to the city's most renowned Park GOG plus the Navigators and Glenn Erie It will be an eyesore. It will also greatly increase the traffic that will not be controled . It will interfere with the protected herd of Big Horn Sheep . If a terrible wild fire happens again the evacuation will be very dangerous and possible lives lost. Please do not ruin our beautiful neighborhood . Find another answer.

We are residents of Mountain Shadows and would like to state our opposition to all new development at 2424 Garden of the Gods Road for the following reasons:• The proposed addition of 572 multi-family units, and potential for eventual development of 3750 units, is completely inconsistent with the overall theme of this area. Mountain Shadows is long-established and not intended for high density housing. • This significant increase in residents will create an enormous traffic problems on Garden of the Gods Road and 30th Street. This is not good for current residents or for tourism. Increased traffic also impacts the safety of bicyclists, joggers, and wildlife as well as quick evacuation of Mountain Shadows in the event

of fire. Are there plans to improve the infrastructure and would such plans detract from the natural beauty of the area?• The increase in families will be an issue for already overcrowded schools. Are there plans to address this?• With units estimated to be 45 feet in height, they will block views of the natural extension of Garden of the Gods Park and Navigators which provide a nice scene as tourists as they approach the Park, one of the city's key attractions and landmarks. • There already are sufficient multi-family complexes around this area and an unattractive high density mega community is not needed.I would appreciate if the Planning Commission and City Council would consider the many concerns of current residents and deny approval of this new development.

There are so many problems with this project:1) As someone who sat in traffic for two hours trying to escape the Waldo Canyon Fire from my home in Oak Valley Ranch, the traffic situation is unconscionable. The city has done NOTHING to remedy issues of access for the current residents. And a traffic study during a pandemic is a farce.2) Property crime and police response times are egregious for the number of people currently living in the area. I had Christmas decorations stolen, called CSPD, and was laughed at by a detective. I am not sure they can handle increased population and the support currently not being supported in the community. 3) Wildlife is what makes this area an awesome place to live. Having a resident Big Horn Sheep herd, a protected herd, is what it means to live on the west side. Residents learn how to respect and live with bears, coyotes, deer, etc. More people, and people ignorant of wildlife, means more needless animal fatalities. 4) Light pollution. Until the city addresses a myriad of deficiencies and willful greed, this project is nothing more than a land grab.

Garden of the Gods Rd is over burdened with daily traffic already? I feel sorry for summer tourists who get to sit in all this traffic already to get to our Premier vacation destination. This area is a gateway to a National Landmark that people visit from all over the world. The city master plan and zoning were already in place when this out-of-state developer bought the property. Their zoning and plan changes should be denied. There are many other areas for housing without destroying this national landmark gateway, and the Big Horn Sheep habitat. Moreover, it is beyond comprehension that planners would also place the lives of established residents at greater risk by substantially increasing density; especially when the area was bottlenecked with gridlock traffic during the Waldo Canyon fires.

I am very against this rezoning! The foothills near the GOG area IS one of the treasured areas of COS, both for tourism and provides a home for wildlife. In many cities these foothills areas are restricted from building as they are significant ecological areas. Remember the WALDO CANYON fire?!! This area has not recovered. What happened to hillside planning and the views that will forever be impacted by the height of these buildings. SHAME.

I am opposed to this rezoning. The Waldo Canyon fire evacuation traffic was horrendous and it will get even worse with the addition of this project. The wildlife needs to be protected not constantly encroached upon. As a resident of this area for almost 40 years the growth is not attracting the right neighbors, it has created mattresses, tires, and trash thrown out in the foothills, an increase in the crime rate as well as piles and piles of dog poop not picked up. The growth needs to be done responsibly and a 450 multi family unit complex will add to these issues and not help!

I am OPPOSED to the proposed Concept Plan, Zone Change, and Master Plan Amendment that allows the development/zone change at 2424 Garden of the Gods Road for the following reasons:1. VIEWS: The City's responsibility is to comply with Hillside Development & PlanCOS guidelines to protect hillside overlays and "Majestic Landscapes" at the west end of Garden of Gods Road, 30th St, & Flying W. Ranch Rd.2. PARKS: There are not enough parks in this area, Central West. The City's responsibility is to comply with the proposed Parkland Dedication Ordinance goal of 5.5 acres/1,000 people. A one-time catch-up acquisition of this property will increase the City's lowest ranked 2.0 acres/1,000 people. NOTE: High-density housing without a SIGNIFICANT addition of parkland reduces the number of parkland acres per person.3. WILDLIFE: The City's responsibility is to comply with the "Colorado Bighorn Sheep Management Plan" and Governor's Executive Order to PROTECT iconic wildlife including bighorn sheep.4. TRAFFIC: High-density housing along with 6 million Garden of Gods visitors per year will increase traffic. Currently, there is little to no bicycle infrastructure (signs, bike lanes, safe continuity between roads and bike paths), it is the City's responsibility to protect cyclists & improve traffic flow for motorists by adding the proper infrastructure.5. POPULATION & CRIME: Approximately 30% increase to Mountain Shadows population in this small area will increase opportunity crimes and added stress on natural & public resources. High Density Residents could damage the hillside and trespass onto the Navigators & Flying W. Ranch properties, as no Park Space has been allocated.6. FIRE SAFETY: Increased population exacerbates evacuation in the event of fire (Ref. Waldo Canyon wildfire 2012 – 2 people perished & 346 homes destroyed. Plus, 5 local wildfires in 5 weeks in the fall of 2020).

Please please don't do this! This is such a unique and special area. The areas around Garden of the Gods should be kept unhindered by more apartment buildings. I would think tourists like to see more land and not buildings as they approach Garden of the Gods, even from Garden of the Gods and 30th. And residents aren't going to appreciate more land eaten up by apartments. A lot of us live on this side of town as we like the feeling the way it is.

I am a geographer with a city planning and surveying background and my analysis of this: Not enough longitudinal analysis has gone into this for the city to make any changes at present. The faster the city and more importantly the developer wants to move, The more the locals should worry... What's the hurry? What are they worried is going to come out? What's the hurry? What are they worried is going to come out? At a minimum I would like to see Covenants in bonds put on the developer (and other guarantees from the city), which provide money and legal assurances to expand infrastructure, especially traffic infrastructure and police infrastructure, if this is to move Forward.

The continual rezoning of Colorado Springs has led to a large lack of affordable leasing options for young adults and low income families. I have personally lived in Colorado Springs my entire life and I am unable to afford living on my own- even contracted at \$18/hr. I currently live near the intersection of Chestnut and Fillmore and on a daily basis see a high volume of traffic which can cause significant delays in a commute- adding more housing in this area will simply increase these delays.

In addition to previously mentioned - a high density complex is not fitting with the neighborhood. Apartments are generally made up of more transient residents. The Mountain Shadows community is made up of single family homes with long term residents - residents who put down roots in a community & neighborhood. An apartment complex would change that wonderful community characteristic that is unique. We are not willing to sacrifice this additional valuable asset that combines with the many other reasons that makes Mountain Shadows the desirable area it is.

The city seems determined to undermine communities with inappropriate development. I have had to endure a noisy and increasingly unsightly BitCoining operation occupying the old Intel facility directly behind my house for over two years now. My neighbors fought hard but the city just seems to have their agenda. The developments slated for 2424 and the Penrose Hosp. Property will create a huge traffic burden on 30th, Centennial Blvd and the already overburdened G of G Rd. It will increase crime, traffic accidents and reduce quality of life for people and native wildlife and degrade existing neighborhoods. These are not conjectures but valid concerns that simple study will bear out. Here's to more impervious surfaces, more traffic lights and even dirtier and hotter air all stemming from the city's windbags.

Leave the lovely westside alone.

Oh my gosh, what will this development do to 30th Street? Hasn't Mountain Shadows neighborhood been through enough with a catastrophic fire happening a mere 8years ago? I also have a serious interest with the Rocky Mountain Bighorn Sheep herd that regularly grazes through the proposed development area. Have YOU ever travelled along 30th Street during tourist season with the literally millions of tourists descending upon Garden of the Gods? I do. I volunteer at the Garden of the Gods Visitor and Nature Center. What you propose will create a nightmare scenario to visitors and residents alike. By the way, tourist season extends far beyond the summer months. The city touts the best city park in the United States, yet due to nearly non-existent tax revenue, can't support the infrastructure needed to get to the park, much less maintain the park. Oh, right, 30th Street will begin to get badly needed improvements, tying up the street for 18 months - 2 years. Please do not approve this development.

During the Waldo Canyon Fire, we had but 3 hours notice to evacuate. My wife and I packed as much as we could in 2 cars and then left our subdivision. It took another 1½ hours to get from my house to a facility to board our 2 dogs at the SW corner of Garden of the Gods & N Nevada. It then took us another 2 hours to reconnect and realize that there were no available rooms. We had reservations in Denver for Friday through Sunday, but found nothing closer than Broomfield to spend Thursday night. We finally ate in north CS around 9:30 PM before hitting heavy traffic en route to Broomfield. What will the additional loading of people and vehicles do if there's a next time. PLEASE don't permit high occupancy development in this area; it is packed full enough as it is. And, there's another proposed multiunit high density development plan in the works for the area across Centennial from the medical buildings and the Chase Bank. Garden of the Gods is a crown jewel in Colorado Springs. What this city does not need is an overcrowded housing development in the face of visitors from around the globe staring them in the face as they approach Garden of the Gods. As a resident who lived through the Waldo Canyon fire, this city does not need a development congesting the escape routes for the long standing residents in this community. Protect the quality of life and safety for the residents in this community. The wildlife, the bighorn sheep and the outstanding environment do not need a trailer park at the end of Garden of the Gods road. It would be negligible for The planning committee to approve this. We have a uniquely beautiful city. The committee must have more of a vision for our city than this. The planning committee has a duty to preserve the things that make this a great city. This area is already very busy during the tourist months. Adding more traffic in this area will make it undesirable for those who live here and those who visit. The traffic on 30th street will be horrendous. Most importantly, the structures and added traffic would ruin the natural beauty of the area. So what will the answer be? Widen 30th street in front of the Garden of the Gods making it look more like a city street instead of special gift of nature that it is. I simply don't understand why the committee would want to allow projects like this that take away from our unique and beautiful city.

I think that the fact that so many people are opposed to this new development should be enough reason to not do it. The city is US, the people, and we don't want this development. Why would the city be ok allowing something that effectively, NO ONE on the west side that would be affected by the development wants it? What is driving the city to be ok with this.. money? Are city council members getting some kind of benefit that the residents can't see? City council members need to explain what the benefits would be to everyone, not just themselves.

centennial blvd, garden of the gods rd, and 30th, north to the intersection with centennial, are the only streets currently wide enough to handle the heavy construction and regular sized vehicles once this project is started. while flying w on the north side is wider, it is already subject to drivers that totally disregard speed and safety regulations. traffic from 450 units will undoubtedly increase the traffic flow and danger to pedestrians, bicyclists and wildlife.

This development is too high density based on its close proximity to the foothills. It will create way too much traffic on 30th, garden of the gods road and flying W. There isn't enough land and roadways to support this scope of new multifamily units. By scale, this is the largest proposed multifamily project in many mile radius from the property. This doesn't make common sense based upon the current built up density

and lack of remaining land near the mountains.Thank you for your consideration. Josh

The City of Colorado Springs department of Open Space has enough money to purchase the property outright as part of their current long-term plan of ringing the westside of the city with open space. Additionally, I'd contact the Rocky Mountain Bighorn Sheep society, as they have significant monies and political allies in preserving habitat corridors. Finally, a card campaign from local families to share their thoughts with both COS and the land development consult company will prove effective as a multi-tiered strategy. Relying solely upon a citizen petition rarely affects legal change in cases of land use. Thank you for considering these humble, proactive thoughts.

This is wrong place for high density multi-family apartments especially with

concernsfor wildfires--we have been in an extended drought and future years are likely to bring more. Was evacuated for Waldo Canyon which was problematic-the 450-600 or 800 people to be added from this location is not realistic for safe evacuation. Apts. will likely want to grill from balconies adding to risk of fires. Traffic is already heavy and steady on Garden of the Gods, also 30th Street south of intersection. 30th Street does not seem amenable to adding traffic lanes. Also, do we want this development be what tourists see as they approach one of the top listed tourist destinations in the U.S. The Garden of the Gods is a gem for which this city is stewards--once developed, you can't walk it back. The fact of an already over populated area can be confirmed by all who witnessed or were stuck on the neighborhood roads during the Waldo Canyon fire mass evacuation. My secondary objection is the absolute violation of nature in this area, particularly the Big Horn Sheep population. We've already seen a significant shift through the years, this unnecessary building will without question be the final blow to a degrading of the natural habitat. This plan should not be permitted in the face of such strong opposition from families already living in this area, and who have seen the considerable increase in traffic and encroachment on nature already present in this area. I can't imagine high density housing going into an area with such limited ingress and egress. Traffic jams are looming. Why not just build some nice single family housing with open space and maybe a clubhouse with a workout center and swimming pool. There's no more space at Mountain Shadows Park or Wilson pool. They're absolutely packed as is with the existing population. The city needs more single family homes that would blend in with the neighborhoods in this area. Why create another potential ghetto next to one of the most iconic parks in North America? That's what's going to be the end-game with high density low-cost housing. It hasn't changed since the projects of the 60's. Pack people into crappily-built tiny structures without amenities or greenspace and you get discontent from all populations present. Verizon makes enough money to write off this land as a bust since more powerful developers migrated to the Briargate area for high end commercial properties. I think they should sell it to the City at a loss and let the City develop it as a west side rec center. Something we don't have here.

I have lived in the Mountain Shadows community for 19 years. During that time, I have watched this area become increasingly congested as people attempt to exploit every bit of land available in an attempt to live on the West side of the city. As I ran for my life from the Waldo Canyon fire, traffic was at a standstill as residents attempted to flee. Every summer, the area of 30th and Garden of the Gods is unbearable and dangerous with an overflow of tourists that lasts through the Fall. This year, the overflow has lingered as people flock to Garden of the Gods. Adding more congestion in the name of unnecessary development and profit is reckless and completely lacking in integrity. Aside from those points, the wildlife in this area is

abundant and heavily relies on the space that remains. Colorado is supposed to be a state consisting of natural beauty and protected wildlife. To threaten that is unconscionable.

I have in the area for 20 years. Unfortunately I do not agree with the plan for these units to be built. The infrastructure can not support the addition volume of people and vehicles that these buildings will bring. Let alone the disruption of wildlife. Please reconsider your decisions and listen to the people!

Absolutely the wrong idea developing this area. Not only the bighorn habitat being affected it will mostly certainly decrease the tourism to the area We need the tourism dollars. If multi family residences go in the whole park will be affected and a loss of one of the country's most distinct and visited landmarks will most certainly be destroyed. If this developer can't see the negative impact of this idea, somethings wrong.

I appreciate the Mountain Shadows Community Association (MSCA) keeping us Mountain Shadows residents informed as to what is going on with the proposed major amendments to the Mountain Shadows Master Plan. The developer initially submitted the above-mentioned changes to the master plan, zoning, and concept plan. These proposals were subsequently revised at least twice that I know of since the original submission. The scope changed to request a PUD zone district instead of a standard zone district over the entire 125 acres. These changes required modification to the Master Plan, Zoning changes, and Concept Plan. From what I gathered it seems like City Planning is doing everything they can to assist the developer and doing nothing to help the MSCA. This seems blatantly unfair and unethical. My family and I have lived in Mountain Shadows since 1992. We paid a premium price for our home and property based largely on the Master Plan and the quality of life it has afforded us all these years. I suspect property values in Mountain Shadows will plummet as soon as the developers build their 45' high apartments. Those of us who survived the Waldo Canyon fire in 2012 can attest to the horrendous traffic jam at the intersection of Garden of the Gods and 30th Street as we fled for our lives. We were extremely fortunate that the conflagration did not kill more people than it did. Adding all these new residents adjacent to this intersection could result in a catastrophic loss of life in the event of a fire. Last year we had at least five wildfires in a short time. Waldo was terrible, but the next one could be even worse. Adding that many new residents will absolutely increase the bicyclist vs motorist conflicts. Many times, I have driven through the area around 30th Street and Garden of the Gods and seen makeshift memorials. These memorials attest to the hazards that already exist at that intersection. I remain cognizant of our friends the Navigators. Probably no organization or business has had to deal with traffic issues than they have over the years. I understand that MSCA has met with them to discuss issues of mutual concern. I hope they can come up with some reasonable solutions. It is time for our representatives to stand up and say NO. I implore the Planning Commission and City

Council to deny all three of the Developers requests. These changes are of no benefit whatsoever to the existing residents of Mountain Shadows. On the contrary, the proposed density is outrageous. The area marked as residential has the potential buildout of nearly 1,800 residents. The City could be responsible for massive lawsuits if they approve a development such as this knowing full well the choke point is just a few feet from the proposed apartment complex.

Many people travel across the world to see Colorado Springs and mainly Garden of the Gods. Putting up a three story building and a hotel would be an absolute disservice to this city and the people who live here and cherish the park. This build would negatively affect wildlife and various ecosystems. Please do NOT move forward with this build.

I've lived in Mountain Shadows since 1986. I've watched It grow since then. I escaped the Waldo Canyon fire via Centennial & Flying W south toward GOG. People were driving 5 cars wide over the curbs, they continued thru traffic lights but couldn't get anywhere as GOG was at a dead stop. We really really can't afford more density! And has anyone considered the new Amazon facility in the old Western Forge complex? Those employees will be using GOG as well. 30 th Street is one lane each way, how can it handle that much traffic? Please don't put us all at risk!

We have a responsibility to protect what remains of our view to Pikes Peak and

the mountains, which many feel is the reason for our city. We have defiled the view with the many gravel mines in the foothills and allowing commercial development in that corridor. Note also that the current requirement for parkland dedication is 7.5 acres/1,000 residents. The proposed and unbelievable request to reduce that to 5.5 has NOT been approved by City Council and hopefully will not be.

traffic is already bad on 30th street and there is no plan to change it from 2 lanes to 4 lanes. We were in Mountain Shadows during the Waldo Fire and experienced how long it took all the vehicles to evacuate. I do not agree with the proposed height on the living units as the other buildings in our neighborhood are lower profile. I am also concerned about the wild life patterns being compromised.

A development like this will negatively effect the wildlife that call Garden of the Gods and the surrounding area home. They need habitat in order to survive. If you want to protect the Park and its wildlife, they must have a buffer area to depend on for sustenance. Building high density apartments in this sensitive are will compromise the habitat significantly. Thus the city destroying the very attribute that makes the area attractive.

I'd also mention the traffic at Chipeta Elementary. It was always a problem when I was on the BAAC, it can't be much better now. I'm sure some of those in the apartments will take Flying W. Almost no one pulls out of the current facility, and heads east on 30th. I'd go so far as to say I've never seen it at all. Everyone either enters and exits from Garden of the Gods, or enters and exits onto Flying W, headed in the direction of the school.

I lived in Colorado Springs for 3 years and loved cycling through Garden of the Gods city park because it is not as urbanized as the rest of the city. Having high density housing in this area would impact the natural beauty of the park. It would also negatively impact traffic through 30th street, which is already crippling for motorists and suicidal for cyclists due to tourism drawn by Garden of the Gods. There are many improvements needed for this area of Colorado Springs and the addition of new apartment buildings would aggravate these issues.

We must think ahead and take time to check new growth and development to ensure the quality of life of our children. We need to protect the Garden of the Gods natural ecosystem. My father rode his horse as a kid from 1065 Mesa Road (526 then) to the Garden of the Gods often. He would stop in to the two properties that he had to go through to access the park. A lot of growth has happened since the 1930's and now more than every choice is critical. Developers keep circling around with proposals to change zoning laws when we're all distracted with larger issues. Please help us protect this area from unchecked growth!

This area is an entryway to a gorgeous, priceless, National Landmark that people come from all over the world to visit. The current City Planning Department, along with our elected council members, must leave a legacy to protect the character, views,

and beauty of this land, which is located adjacent to the Navigators, and Garden of the Gods. Please adhere to the current zoning and master plan, and do not succumb to corporate pressure, or to poor planning. These out-of-state developers were very aware of the current zoning and master plan when they purchased the property. Furthermore, the area was already previously rezoned to accommodate the creation of the current Business Park. Turning such a location into another strip of commercial businesses with multi-family housing is a horrendous concept, and is a proposal that should not even be on the table. Also, Big Horn Sheep are in the area of this proposed development. Please protect these animals, and our other beloved wildlife that migrate in and out of this location. Moreover, the new “revised” traffic study that accompanies this proposed zoning change is again disingenuous.

<https://web1.coloradosprings.gov/LUISPlanner/uploaded/LUISPlanner/Documents/Study/135604.pdf> Section II p. 6 “Existing Traffic Conditions” indicate that June 2017, data is used for their revised study. According to this data:https://coloradosprings.gov/sites/default/files/gog_draft_shuttle_study_2018.pdf here was likely only 2 million visitors to Garden of the Gods in 2017. We saw in 2019, approximately 6 million visitors. Their revised study only allows for a 2 % increase each year from 2017. A 2 million to 6 million increase is a much greater rate than a 2% projected yearly increase. Moreover, there is not any consideration of the increase of traffic for the (under construction) Red Leg Brewing Co., a new \$8 million brewery, food and event complex near the west end of Garden of the Gods Road, nor is their a factoring in of projected increased traffic for Flying W Ranch (when it will run at full capacity). During the 2012 Waldo Canyon fires, traffic was grid locked and people were in fear of death trying to evacuate. Do not be responsible for deaths due to acceptance of a flawed, disingenuous traffic study. We are on water restrictions here; watering is allowed only 3 days a week during certain hours. See this article: <https://coloradosun.com/2019/11/20/colorado-river-risk-study-taps-farmland-dry/> Perhaps, instead of a zoning change and master plan amendment, consider working with the property owner to ascertain why there is only a 50% occupancy rate of the existing buildings, and then assist with mitigating those issues. Also, isn’t their request for a PUD, likely to facilitate additional future changes that will bypass city council approval? No to PUD! Again, I request that you do not bow to corporate pressures. Not everything in this life is about profit and monies. Will you be long remembered as preserving a treasure to this community, along with ensuring the trust and safety of citizens? Please do the right thing, leave a legacy of preservation of this magnificent area. Thank you for receiving public input and for your consideration. Respectfully, Julia Owens Colorado Springs

Although I don't live in the city anymore, we frequently come to that side of town to enjoy the beautiful park and surrounding area. The housing and growth in this city is a cancer and it is sickening what these developers along with our city council are doing to this area and the city in general. Piss poor planning from the city of Colorado Springs has severe traffic problems in all areas of the city. After witnessing the Waldo Canyon Fire decimate the western flanks of the city with the evacuations made any movement impossible. Adding to an already bad issue is not ideal for those you require use of Gardwn of the Gods Road as a main evacuation road.

Our view corridors are part of our identity/"brand." Garden of the Gods--both being in it, and the views/approach to it--is one of the crown jewels of this area. There were years of struggles to remove the harmful effect of the Front Range quarries in our stunning views. High-density development traffic associated with this area will further harm the 30th St. corridor (already a traffic headache at rush hour) and the ingress/egress to Garden of the Gods.

There is plenty of areas to build this apartment structure already zoned for it.
Enough with trying to take over nature areas not zoned for this! There has been too
much of this allowed already and it needs to stop!

I am a Colorado native and these deep-pocketed investors that just come in with ZERO respect for the habitat they are ruining for the sake of a dollar are absolutely DISGUSTING. Take those developments to the EAST side, maybe buy some land from the floundering Banning-Lewis Ranch and develop over THERE... You know, where you won't be literally displacing an entire herd of animals and blocking views of the prettiest areas in the city. They have this attitude like as long as THEIR buyers get great views and location, then screw everyone else, and honestly that's garbage. The people who have lived in the area for YEARS and paid their dues should definitely have first priority over a bunch of transplants that OBVIOUSLY don't appreciate the beauty of our area.

Stop building! Already every little patch of land is being developed and destroyed. Please leave the most beautiful areas alone. All of our resources and infrastructure is over burdened. Its no fun to go anywhere anymore because of the overcrowded roads and few places we have to go.

Raised in Co Sprs. The Garden of the Gods is sacred to the Indian natives along with the naturally born citizens. Save the View of the Garden it is an important part of our beautiful country. It is the first thing I do when I drive home from Washington state, is drive through the garden on my way to Manitou. I love the Pikes Peak Region!
