Councilmember Donelson asked if the bonds paid for by the Public Improvement Fees (PIF) only go toward public improvements. Ms. Stocker confirmed they did.

Councilmember Donelson stated he will be asking for a postponement to allow Council more time to review the answers to the questions he had.

Councilmember Donelson asked how much more in public improvements will be needed. Ms. Stocker stated to her knowledge, it is already almost fully built out. Brendon Desmond, Spencer Fane, representing the applicant, stated there will be a third certification for a total of \$5,609,177.45 for public improvements.

Councilmember Donelson asked if \$4.1 million has already been requested and there will be another \$1.5 million requested. Mr. Desmond confirmed it has.

Councilmember Gold asked if a postponement will negatively affect the applicant. Mr. Desmond stated it could affect the best interest rate for the buyers.

Councilmember Donelson stated he also has a question regarding developer advances.

Motion by Councilmember Donelson, seconded by Councilmember Gold, that the Resolution amending the MW Retail Business Improvement District 2025 Operating Plan be postponed to the July 22, 2025 City Council. The motion passed by a vote of 6-3-0-0

Presenter:

Michael Montgomery, Deputy City Council Administrator
Lynette Crow-Iverson, Council President

Attachments: [SalesTax-SpecialFundsMarijuana-ORD-2025-05-29-clean](#)

Michael Montgomery, Deputy City Council Administrator, presented the Ordinance amending the City Code pertaining to retail marijuana and expenditures of the Special Fund. He provided an overview of the proposed Ordinance.

Councilmember Henjum asked if this proposed Ordinance allows City Council to do anything that they are already authorized to do. Ben Bolinger, Legislative Counsel, City Attorney's Office, stated fundamentally, that is correct because City Council can continue to make budget recommendations to the Mayor. Mr. Montgomery stated it also puts in the framework for services that the City does not already provide such as post traumatic stress disorder treatment programs for veterans.

Citizen Hannah Parsons, Jen Furda, Joe Campana, Beth Roalstad, spoke in support of the proposed Ordinance and the need for additional public safety in the downtown corridor.

Councilmember Henjum asked if the Retail Marijuana Sales Tax revenue will go toward the Downtown Partnership Clean and Safe Program. Jamie Fabos, Chief of Staff, stated they have been supporting public safety in the downtown area for the past seven years and will continue working with and supporting the Downtown Partnership.

Councilmember Donelson clarified that this Ordinance is not allocating particular funding to programs, it is allowing City Council to review and make recommendation for how the revenue will be used. He stated the laws of the City need to be enforced to a greater extent to address some of the public safety issues in the downtown area.

Councilmember Bailey stated the proposed Ordinance simply gives City Council a little bit more influence in how the process works.

Motion by Councilmember Leinweber, seconded by Councilmember Risley, that the Ordinance amending the City Code pertaining to retail marijuana and expenditures of the Special Fund be finally passed. The motion passed by a vote of 6-3-0-0

Aye: 6 - Bailey, Crow-Iverson, Leinweber, Rainey Jr., Risley, and Williams

No: 3 - Donelson, Gold, and Henjum

Ryan Trujillo, Deputy Chief of Staff, introduced the Resolution finding a public purpose in the leasing of the City Auditorium to AVA Presents, LLC.

Councilmember Risley requested the total lease amount including the escalators in rent.

Jesse Morreale, AVA Presents, representing the vendor, stated the initial lease term is \$856,194 with three percent escalator cap and Cost of Living

Index built in.

Councilmember Risley asked if the use of the space could be restricted from certain types of activities or groups. Mr. Trujillo stated there are applicable laws concerning First Amendment rights, but the City will have input into the upcoming shows/events.

Councilmember Rainey expressed appreciation of the project.

Motion by Councilmember Rainey Jr., seconded by Councilmember Gold, that the Resolution finding a public purpose in the leasing of the City Auditorium to AVA Presents, LLC be adopted. The motion passed by a vote of 9-0-0

Austin Cooper, Senior Planner, Planning Department, presented the appeal of the City Planning Commission decision to deny the appeal approving a development plan consisting of 6.94 acres located at the

northeast corner of N Carefree Circle and Peterson Road. He provided an overview of the vicinity map, applications, project summary, site plan, timeline of review, stakeholder involvement, agency review

Councilmember Bailey highlighted how much extensive review by experts goes into the review of Development Plans.

Councilmember Rainey asked if anything stood out in the six review cycles. Mr. Cooper provided an overview of the multiple submittals based on the feedback of different agencies and the neighborhood residents.

Councilmember Donelson requested additional information on the history of the zoning of the site. Mr. Cooper stated it was originally zoned for a church to be built, and in 2021 it was rezoned to R-5 Multi-Family High which allows for multi-family development and use.

Councilmember Donelson asked if the development plan from the previous owner was for townhomes. Mr. Cooper stated they did receive an application for townhomes to be built, but a Building Permit was never obtained.

Councilmember Gold asked how many postcard responses were received from neighbors directly within 1,000 feet of the site. Mr. Cooper stated that it is difficult to determine because word gets out in many different ways.

Councilmember Rainey asked how the parking plan was amended. Mr. Cooper stated the neighbors to the north requested parallel parking spaces to reduce the light going into their homes.

Councilmember Bailey asked if a parking variance had to be issued to accommodate the new parking design. Mr. Cooper stated an allowable five percent reduction was granted due to the bike lane on Pony Tracks Drive, but they are in compliance with the number of parking spaces provided.

Jeremy Hoffman, representing the appellant, identified the inevitable increase in traffic, the rise in noise pollution, potential decrease in property values, and irreversible loss of the mountain views from the Springs Ranch community.

Michelle Bork, representing the appellant, went over the impacts/violations

of the safety/well-being of current/future neighborhood residents, project development details, building height, lack of parking, water restrictions, light pollution, lack of public transportation, dangerous intersection crossings, traffic impact, increased crime, and area businesses being already at capacity.

Andrea Barlow, NES, representing the applicant, introduced Ben Taylor, Vice President and Partner, Lincoln Avenue Communities, who identified the background of their organization, other projects by Lincoln Avenue Communities, affordability, and individual property rights.

Councilmember Henjum asked what was changed based on neighborhood feedback. Mr. Taylor stated the parking configurations have been changed to reduce the light from vehicles parking.

Ms. Barlow provided an overview of the site location, surrounding zoning, site history, approved Concept Plan, request, Development Plan, and elevations. She identified the neighborhood coordination, neighborhood compatibility, parking, traffic, compliance with PlanCOS, and Development Plan review criteria.

Councilmember Henjum asked what sidewalks will be added with this development. Ms. Barlow stated they will be installing sidewalks along Pony Tracks Drive and all boundaries of the development.

Councilmember Leinweber stated he does not agree that multi-family developments mean there will be more crime. Ms. Barlow stated every resident will require a full background check and certain income levels before they can move in. She stated the residents will potentially be teachers, firefighters, and military personnel and there will be onsite security.

Councilmember Rainey asked when the traffic study was conducted. Todd Frisbie, Traffic Engineer, stated if the timing of traffic study does not occur during the school year, they reviewed the counts and the adjustments which were made, and they are comfortable with the base counts provided in the traffic study.

Councilmember Leinweber asked about the school crossing. Mr. Frisbie stated they have added school flashers, limiting the speed limit to twenty

miles per hour during the school year. He stated they could also put in protected left-turn phasing and conditional left turns through the traffic signals and the pedestrian call buttons.

Councilmember Donelson requested additional information regarding traffic collisions at the intersection. Mr. Frisbie stated they look for crash patterns outside the norm so they can address and improve pedestrian safety at those intersections. Gayle Sturdivant, Deputy Public Works Director/City Engineer, stated the traffic impact study showed the range to be between A and C which is operational for this intersection.

Councilmember Donelson asked if the tenants would be restricted to a certain number of vehicles parking at the apartments. Mr. Taylor stated if there were parking constraints, they would implement a lease addendum which restricts the number of cars and visitor parking depending on the number of residents in the households with the maximum being three vehicles.

Councilmember Bailey asked if their management tool allows them to develop parking restrictions if needed. Mr. Taylor confirmed they could.

Councilmember Rainey asked how overflow and visitor parking is managed. Mr. Taylor stated it will be based on City Code requirements.

Councilmember Donelson asked if overflow parking will go onto Pony Tracks Drive. Mr. Taylor stated parking is allowed on Pony Tracks Drive, but all their parking provided to meet City Code is on their site.

Councilmember Donelson asked how much of the parking space is for small vehicles. Mr. Taylor stated there are 82 stalls, which is approximately one-third of the parking stalls.

Councilmember Donelson asked how many of the residents will be single moms. Mr. Taylor stated approximately fifty percent. Councilmember Donelson asked how they would address boyfriends of these single moms. Mr. Taylor stated they will be enforcing any parking issues through monitoring, cameras, and unit inspections.

Councilmember Leinweber asked who will be managing the property. Mr. Taylor stated they will be hiring Seldon Management so there will be four

individuals onsite.

Citizens Jill Gabler, Executive Director of Pikes Peak Housing Network and Evelyn Galane-Phillips, Community Facility Planning Manager, School District 49, spoke in opposition to the appeal.

Councilmember Leinweber asked if School District 49 is the largest school district in the City. Ms. Galane-Phillips confirmed it is.

Citizens Nancy Stoltenberg, Carol Clark, Craig Clark, Nick Szabo, Shawnee Lovato, Steve Lovato, Mia Hoffman, McKayla Stoltenberg, Jared Massey, Aaron Schick, Tim Bayless, Don Anderson, Caris Johnson, Ashlee Whitlock, and Eric Kennedy spoke in support of the appeal.

Councilmember Gold stated her mother was a single mom who was the first Korean woman to reach the rank of Chief Warrant Officer 5 in the United States Army and raised the first elected person in their family and she herself is a single mother with a well-adjusted child who will do great things in the world.

Ms. Barlow said they are not planning to rezone the property, an alternate use is not being proposed and is not part of the Development Plan review criteria, the R-5 zone allows 25 units per acre and a 50-foot building height, they are only proposing 20.7 units per acre and 38 foot building height, this development does not even require a traffic study, but they conducted one anyway, the safety concerns regarding intersections are preexisting, but they are improving the conditions by adding traffic signals, and the new traffic study was done in April 2025 while the schools were in session with no findings which warrant traffic improvements from this development.

Councilmember Donelson asked what the size of the property is. Mr. Cooper stated it is 6.947 acres.

Councilmember Rainey asked if the applicant considered going to a two-story building. Mr. Taylor stated the zoning allows the building height to go to fifty feet and based on a multitude of reasons and the topography of the site; it appears to be a two-story building at the entry of the site.

Councilmember Rainey asked how big the buffer would be. Mr. Taylor stated it would be 94 feet.

Councilmember Donelson stated he agrees with the appeal that the project with six large three-story buildings is not compatible and harmonious with the surrounding area of single-family homes and town homes, and he shares the concerns about the collisions of the two intersections of Peterson Road and Pony Tracks Drive so he will be in support of the appeal.

Councilmember Bailey stated these types of applications do come with fear and concern of what will change, but the issues which were presented today already exist, they are not the applicant's responsibility, the approval of the Development Plan by the City was done appropriately and he will be voting to deny the appeal.

Councilmember Rainey stated the applicant followed the process and made accommodations and asked if there were any concerns regarding stormwater. Mr. Taylor stated there is not because it was designed per the requirements of the Stormwater Enterprise, they have onsite detention and will be released at historic flows back into the stormwater system.

Councilmember Rainey stated he does not believe this project would be harmonious and compatible with the area so he will be supporting the appeal.

Councilmember Henjum stated she understands the concerns that the neighbors have brought forward, this project meets all the review criteria, and she believes it is harmonious and compatible with the area so she will be voting to deny the appeal.

Councilmember Donelson stated the citizens are not afraid of change, they just want the project to be harmonious and compatible, and City Council should use their judgement when voting today.

Motion by Councilmember Henjum, seconded by Councilmember Bailey, to affirm the decision of the Planning Commission and deny the appeal. The motion passed by a vote of 7-2-0-0

Aye: 7 - Bailey, Crow-Iverson, Gold, Henjum, Leinweber, Risley, and Williams

No: 2 - Donelson, and Rainey Jr.
