No concept plan shall be approved unless the plan complies with all the requirements of the zone district in which it is located, is consistent with the intent and purpose of this Zoning Code and is compatible with the existing and proposed land uses surrounding the site.
1. Will the proposed development have a detrimental effect upon the general health, welfare and safety or convenience of persons residing or working in the neighborhood of the proposed development?
  2. Will the proposed density, types of land uses and range of square footages permit adequate light and air both on and off the site?
  3. Are the permitted uses, bulk requirements and required landscaping appropriate to the type of development, the neighborhood and the community?
  4. Are the proposed ingress/egress points, traffic circulation, parking areas, loading and service areas and pedestrian areas designed to promote safety, convenience and ease of traffic flow and pedestrian movement both on and off the site?
  5. Will the proposed development overburden the capacities of existing streets, utilities, parks, schools and other public facilities?
  6. Does the proposed development promote the stabilization and preservation of the existing properties in adjacent areas and surrounding residential neighborhoods?
  7. Does the concept plan show how any potentially detrimental use-to-use relationships (e.g., commercial use adjacent to single-family homes) will be mitigated? Does the development provide a gradual transition between uses of differing intensities?
  8. Is the proposed concept plan in conformance with all requirements of this Zoning Code, the Subdivision Code and with all applicable elements of the Comprehensive Plan? (Ord. 94-107; Ord. 01-42; Ord. 03-157; Ord. 09-78)
