Councilmember O'Malley requested the City's artifacts not be stored by a third-party and that they are relocated to the City Auditorium during the repairs of the heating, ventilation and air conditioning (HVAC) system at the Colorado Springs Pioneers Museum (CSPM), a plan for asbestos abatement, and cost benefit analysis be completed with the assistance of Colorado Springs Utilities (CSU) to see if electric units can be used.

Ryan Trujillo, Support Services Director, stated there is a challenge in

attempting to retrofit such an old system with electric boilers, but will evaluate that request through the Request for Proposal (RFP) process. Karen Palus, Director, Parks, Recreation and Cultural Services, stated the project manager is coordinating with CSU and there is no HVAC system at the City Auditorium, but as part of the museum's governance model, they do have a nonprofit off-site facility for storage of the City's artifacts. Jeff Greene, Chief of Staff, stated staff will work with Councilmember O'Malley and CSU regarding his recommendations.

Motion by Councilmember Avila, seconded by Councilmember Williams, that the Ordinance for the supplemental appropriation to the General Fund in the amount of \$3,000,000 to fund the replacement of the HVAC system at the Colorado Springs Pioneers Museum be finally passed. Eric Becker, Special Improvement Maintenance District (SIMD) Administrator, presented the Ordinance ordering that the question of organization of the Colorado Springs Briargate General Improvement District (GID) 2021 and approving a mill levy be submitted to the electors of the proposed district at the November 2, 2021 coordinated election. He gave an overview of SMIDs, funding mechanism, property tax statement, the Briargate SMID, maintained areas, boundary map of taxed and untaxed parcels. Mr. Becker provided the Briargate thirteen-year revenue history, budget shortfall cuts, community objectives, proposed district boundary map, SIMD funding comparison, and new district formation processes.

Councilmember Williams asked if he would need to recuse himself due to

living in a zero-tax area that is in the proposed new GID area. Marc Smith, Deputy City Attorney, stated he does not believe so because there would be no personal substantial interest.

Councilmember Henjum asked if the ballot question would go to all registered voters within the City or just the district boundaries. Mr. Becker stated it would only be for voters in the new district boundaries. Sarah B. Johnson, City Clerk, stated there are approximately 30,000 registered voters in that area.

Councilmember O'Malley asked if the taxpayer burden could be lessened by converting 65-acres to non-irrigated indigenous grasses. Mr. Becker stated they have done as much as they are able to with the available funding and an initial capital investment would be required to convert the areas.

Councilmember Helms stated he will be doing his part getting the word out to the residents of this district regarding the tax inequity.

Citizen Tom Hayden, Briargate SMID resident, and Jim Keuning spoke in favor of the proposed ballot measure.

Mr. Smith explained the question before City Council is to refer the measure to the ballot for the formation of the GID and set the mill levy. He stated there is intent in the referring Ordinance to set the SMID mill levy at zero and they need to make sure the ballot question is a yes or no answer without indication of advocacy.

Councilmember Williams stated he believes the question is informing people, not advocacy. Wynetta Massey, City Attorney, stated the fiscal assessment for the public improvements which will need to be made will not be completed prior to the City Code's requirement of August 1 and this question is about the GID, not the SMID.

Councilmember Williams asked if clarification that residents will not be double taxed be added to the ballot question. Ms. Massey stated they will research that request and citizens may also submit pro/con statements.

Citizen Pat McDivitt requested City Council pass an Ordinance regarding their commitment to permanently set the SMID mill levy to zero if the ballot

measure passes and that if the GID mill levy is ever proposed to exceed a mill levy of 4.409, it needs to go to a vote of the people. Mr. Smith stated any increase in the mill levy would require a separate TABOR vote of the people. Councilmember Donelson gave his assurance that if the GID passes, City Council will set the SMID mill levy to zero.

Councilmember Williams asked if setting the SMID mill levy to zero if the GID is passed could be included in the ballot language. Mr. Smith stated he will research that information.

Citizen Charles Conser spoke in opposition to the proposed ballot question.

Mr. Smith requested a two-week postponement to clarify the ballot language regarding the SMID. Ms. Johnson stated the Ordinance will need to be fully passed prior to September 3, 2021 which is the State mandated deadline she has to provide the ballot language to the El Paso County Clerk and Recorder.

Motion by Councilmember Helms, seconded by Councilmember O'Malley, that the Ordinance referring a measure to the November 2nd Coordinated Election to approve the formation of the Colorado Springs Briargate General Improvement District 2021 be approved on first reading. The motion was superceded by a motion for postponement.

Motion by Councilmember Williams, seconded by Councilmember Helms, that the Ordinance referring a measure to the November 2nd Coordinated Election to approve the formation of the Colorado Springs Briargate General Improvement District 2021 be postponed to the August 9 and August 10, 2021 City Council meetings. Mitch Hammes, Neighborhood Services Manager, presented the Ordinance amending Chapter 7 of City Code pertaining to front yard carports. He provided a brief background, and gave an overview of the community outreach, definition of carport, permitted zones, provisions, Planning Commission comments, and current carport cases.

President Strand asked if this Ordinance would apply to back yard carports. Mr. Hammes stated it would not, only front yard carports.

Councilmember Williams asked if the “Call before you dig” provision in the proposed Ordinance should be three days. Ben Bolinger, Senior Attorney, City Attorney’s Office, stated they will change it to three days.

Councilmember O’Malley asked how this Ordinance will apply to electric vehicle solar panel charging stations. Peter Wysocki, Director, Planning and Community Development, stated any covered exterior charging stations will need to be located in the front yard setback or the driveway in front of the garage.

Councilmember Murray asked if the fifty-five pending carport cases are due to the moratorium or the proposed changes in the carport Ordinance. Mr. Hammes stated they are related to the moratorium.

Diane Bridges, Chair, Michael Anderson, Judith Rice-Jones, and Dutch Schultz, Historic Neighborhoods Partnership (HNP), gave an overview of their mission and recommendations for a carport overlay, delay the implementation of carports in historic neighborhood, and language

changes they would like made to the proposed Ordinance.

Councilmember Avila asked what the height restriction is for carports. Mr. Hammes stated he will provide that information.

Citizens Collette Cook, Sarah Brown, Robert Gallagher, and Mike McNancy spoke in favor of the proposed Ordinance.

Cheryl Brown, Secretary, Near North End, and Tim Boddington, President, Historic Preservation Alliance (HPA), spoke in support of the HNP's recommended amendments.

Councilmember Williams asked what the purpose of the additional cost and burden on the Pikes Peak Regional Building Department (PPRBD) would be to require a building permit if a carport is within the required dimensions. Ms. Bridges stated safety, to ensure up front that the zoning is being complied with, it would reduce the enforcement time needed for violators, and to protect demarcation of the historic overlay district.

Councilmember Williams stated he is more supportive of the conditional use Planning Department process over the implementation of carport overlays. Ms. Bridges stated their goal is for the neighborhoods within the overlay district to do the evaluations.

Councilmember Donelson asked if there is social pressure in historic neighborhoods which would result in ostracization if a homeowner constructed a carport. Ms. Bridges agreed there is, but there needs to be a construct for that formal speak-up with specifics of compliance.

President Strand asked what the impact of enforcing the recommended overlays would be on the City. Mr. Wysocki stated carports are already permitted outside of the front yard, side yard, and rear yard setback, an overlay is a zone change which adds an additional set of regulations to the property, and they would need to work with each of the neighborhoods to establish the boundaries of the overlay which would be very challenging and time consuming to reach a consensus. He stated the Planning Department would need to hold neighborhood meetings, it would need to go before the Planning Commission and then the public hearing would go before City Council.

Councilmember Donelson asked if the Historic Preservation Overlay could be amended to not allow carports in the setback. Mr. Wysocki stated that is an option, but it will need to go through a public process to determine if residents want that restriction added.

Councilmember Avila asked if the Historic Preservation (HP) District would be impacted by the Ordinance since carports do not normally meet the historic characteristics of the neighborhood. Mr. Wysocki stated this Ordinance does apply to the HP properties and if approved, a carport could be installed in the front yard setback.

Councilmember Williams asked what the cost for application for a non-use variance and conditional use permit is. Mr. Wysocki stated the non-use variance permit is \$575 and conditional use permit is \$1,445. Ms. Cook stated she has not ever felt like she would be approved for a non-use variance permit.

Councilmember Williams requested a broader range of allowances be considered for the non-use variance process. Mr. Wysocki stated RetoolCOS will be researching that process.

Councilmember Murray requested the number of carport violations which have occurred in the last ten years. Mr. Hammes stated there have been approximately one hundred in the past five years which have all come into compliance. Councilmember Murray recommended the moratorium be ended and not move forward with the proposed Ordinance.

Mr. Wysocki stated that another option that could be considered is creating a separate permit for carports.

Councilmember Henjum stated a goal of PlanCOS is to give residents the tools to identify and prioritize the uniquely important attributes of their neighborhood that make them safe, livable, and desirable and recommended a postponement to allow time to find a solution for all City residents.

Councilmember Williams asked how much time would be needed to draft a model which provides an Administrative process with the neighborhoods input. Mr. Wysocki stated late September or early October. Marc Smith,

Deputy City Attorney, stated the two pending carport appeals will also need to be postponed in line with the postponement of the moratorium. Councilmember Williams requested that Staff continue to work on an Ordinance that would allow for input from the neighbors before a front yard carport could be erected.

Councilmember Henjum asked if the City had assistance for citizens in which the \$575 non-use variance permit fee would be a financial hardship. Mr. Wysocki stated there is a provision for the Director to reduce land use review fees if necessary.

Councilmember Helms asked if citizens could put up carports during this postponement. Mr. Smith stated if it is constructed in the front yard setback, it would be illegal under City Code. Mr. Wysocki stated the fifty-five cases of carports located in the front yard setback which were reported to Code Enforcement are not permitted under current City Code, but enforcement was suspended under the moratorium. Ms. Cook stated there were eighty complaints total.

Councilmember Avila stated the Southeast is struggling with hail, the cost of the variance, and they took down their carports in order to be compliant with City Code. She stated she does not support additional bureaucracy to appease another neighborhood.

Councilmember Williams requested an overview of the variance process be presented at a Work Session meeting. Mr. Wysocki agreed to that request.

Motion by Councilmember Williams, seconded by Councilmember Donelson, that the Ordinance amending Section 201 (Definitions Enumerated) of Part 2 (Definitions) of Article 2 (Basic Provisions, Definitions and Land Use Types and Classifications). Section 105 (Additional Standards for Specific Uses Allowed in Residential Zones) of Part 1 (Residential Districts) of Article 3 (Land Use Zoning Districts) of Chapter 7 (Planning, Development, and Building) of the Code of the City of Colorado Springs 2001, as Amended, pertaining to front yard carports be postponed to the October 26, 2021 City Council meeting and that Staff put on the Planning Commission and City Council Consent Calendar the appropriate postponements of the extension of the carport moratorium and any related quasi-judicial matters. The motion failed by a vote of 4-4-1-0
