NATURAL GAS RATE SCHEDULES

GAS COST ADJUSTMENT (GCA)

APPLICABILITY

Applicable to all rate schedules that are subject to a Gas Cost Adjustment (GCA).

GAS COST ADJUSTMENT

The GCA will be computed as follows:

The sum of:

- a) the projected cost of natural gas subject to the GCA for the future period, divided by
- b) the projected sales subject to the GCA for the same period used in a) above. Plus:
- c) the cumulative under- or over-recovery of natural gas costs subject to the GCA divided by
- d) the projected sales subject to the GCA for a period to be determined by Utilities. Minus:
- e) the base cost of gas in the current rates for sales and transportation services.

Customers switching to a sales rate subject to the GCA from a non-GCA rate schedule will utilize a GCA calculated only using parts a), b), and e). Similarly, customers switching to a non-GCA rate from a gas sales rate that was subject to the GCA will pay, or have refunded, amounts represented in part c) above.

RATE

Gas Cost Adjustment Charge (GCA)	
All Per Ccf	(\$.1265)
All Per Mcf	(\$1.2650)
