[Signed Ordinance No. 24-108.pdf](#)

Kevin Walker, Planning Director, Planning Department, presented the Ordinance amending City Code pertaining to Natural Medicine. He stated the approval of Proposition 122 allows certain land uses in the state related to psilocybin use effective January 1, 2025, this Ordinance will identify the zones and requirements for those land uses, adopt regulations that allow the uses in City limits by additions to the Unified Development Code (UDC). Mr. Walker provided an overview of the proposed Ordinance to respond to State licensing of natural medicine uses, addition to the UDC regarding definitions/use restrictions pertaining to natural medicine, issues for drafting of local regulation, proposed Ordinance highlights.

Councilmember Henjum asked if there were any other clinical services restricted within the City. Mr. Walker stated there is not.

Councilmember Leinweber asked if the one-mile set back was measured by a walkable distance. Mr. Walker stated it was measured as the crow

flies.

Citizens Scott DeWalt, Gabriel Venema, Dante Liberato, Ren Thorpe, Lane Belone, and Tasia Poinsette spoke in favor of healing centers with less of a restrictive setback.

Councilmember Risley asked if a facilitator could take the psilocybin off site to administer to a patient. Mr. DeWalt stated they could not.

Councilmember Henjum requested the Ordinance be amended to provide for an exception to the one (1) mile spacing requirement where the natural medicine healing center is co-located with a hospital or medical office.

Councilmember Leinweber asked if the exception would still require a one-thousand-foot setback. Councilmember Henjum confirmed it would.

Councilmember Leinweber stated there is a suicide crisis in the City and psilocybin is a lifesaving procedure which is proven to have results to help address this and should not be compared with marijuana use within the community.

Councilmember Talarico asked how many healing centers could be opened as the Ordinance is written with the one-mile buffer. Mr. Walker stated it is probably between one and six.

Councilmember Avila asked the Councilmembers who are veterans why they voted to make this Ordinance more restrictive. President Helms stated he supports veterans getting help but does not feel psilocybin has been tested enough to know if it will help more than harm for citizens so he will continue to support the one-mile setback until there are more results available.

Councilmember Donelson stated he does not support requiring the healing center will be co-located in a hospital or medical facility. He stated El Paso County has the most population in the state, altitude may be a factor in the County's suicide rate, and El Paso County voters voted against the healing centers.

Councilmember O'Malley stated it is still federally illegal, and veterans have access to healthcare through TriCare.

Motion by Councilmember Henjum, seconded by Councilmember Leinweber, to amend Ordinance No. 24-108 Amending Part 2 and Part 3 of Article 3, and Section 1003 of Part 10, of Article 4, and Part 3 of Article 6 of Chapter 7 (Unified Development Code) Of The Code Of The City Of Colorado Springs 2001, as amended, pertaining to natural medicine Land Use regulations, and authorizing City staff to revise subsection L(5) of the natural medicine healing center requirements to provide for an exception to the one (1) mile spacing requirement where the natural medicine healing center is co-located with a hospital or medical office. [Signed Resolution No. 198-24.pdf](#)

Jariah Walker, Executive Director, Colorado Springs Urban Renewal Authority (CSURA), introduced the Resolutions making certain legislative findings and approving a substantial modification to the Southwest Downtown Urban, approving the OneVela Urban Renewal Plan, and approving a Cooperation Agreement between the CSURA and the City to promote redevelopment and assist with financing of public improvements

for the OneVela Urban Renewal Project and to approve the amount of annual sales tax increment revenue allocated.

Andrew Knutson, Economic Planning Systems (EPS), provided a brief overview of EPS, and introduced Sara Dunmire, EPS, representing the applicant, who provided an overview of the definition of blight, field survey, and the six factors of blight for the site: 1. structures, 2. street layout, 3. unsafe/unsanitary, 4. site improvements, 5. infrastructure, and 6. vacancy

Kevin O'Neill, Chief Executive Officer, The O'Neill Group, representing the applicant, gave a brief description of project and introduced Andy Merritt, Managing Director, Investor and Government Relations, The O'Neill Group, representing the applicant, who went over the growing aerospace/defense industry, attracting future technology workforce, Bluestaq (a case study), financing public improvements, and projected City property/sales tax increment financing (TIF) revenue. He provided an overview of the site location, blight conditions, decline of downtown traffic, creating dynamic neighborhoods, and attraction of an economically diverse community.

Councilmember Donelson asked who owns the property which is overrun by weeds. Mr. Merritt stated they own the properties.

Mr. Walker identified the history of the site and stated they have been looking at developing this site for a long time.

Citizens Diane Bridges, Chair, Historic Neighborhood Partnerships, Pattie McDowell, Kat Gayle, and Dana Duggan spoke in opposition to the proposed project.

Councilmember Leinweber asked if there is a time limit on blight and if there is development for one block, will the next block miss out on CSURA assistance. Mr. Walker stated there is not and there is still a need for major infrastructure throughout the entire area.

Councilmember Leinweber asked how many blocks within the City does not have building height restrictions. Ryan Tefertiller, Urban Planning Manager, Planning Department, stated approximately .4 square miles.

Councilmember O'Malley asked if this area was rezoned in 2021. Mr. Tefertiller stated this site has not been rezoned since 2009.

Councilmember O'Malley stated he would support the TIF at .5 percent, but feels 1.75 percent is too high. Mr. Walker stated the 1.75 percent is the minimum they could go for this project.

President Helms stated with the 1.75 percent TIF, the City will receive the revenue from that tenfold, he does not feel the building height would be detrimental to the view for citizens and believes this project would be a benefit to the City.

Councilmember Donelson stated he does not feel citizens would support the building height being proposed and asked the Councilmembers who received campaign contributions from the O'Neill Group to recuse themselves from this vote. Ben Bolinger, Legislative Counsel, City Attorney's Office, stated accepting campaign contributions is permissible under the City Code of Ethics as an exemption from the gifts prohibition.

Councilmember Leinweber stated it is important to recognize the sales tax revenue and customers which will be generated from this project.
