* ALTERNATIVE LANDSCAPE ADJUSTMENT REQUEST-

Request #1

- Code Section - 7.4.906
- Requirement - A landscape buffer setback shall be 15' wide.
- Justification - A landscape buffer was not required when this property was originally developed. The landscape strip along this boundary is 11.5' wide. All required buffer trees and fence are proposed along this boundary to meet the buffer requirements, and several additional trees are proposed along this boundary too.

Request #2

- Code Section - 7.4.908
- Requirement - Active green space shall consist of 10% of site.
- Justification - Parking has been removed to create a new usable lawn and seating area east of the building. An existing large covered outdoor seating area on the south side of the building will also be utilized. A basketball goal and pavement striping for basketball will also be provided. These three spaces will provide opportunities for outdoor passive and active recreation.
