[7.5.408 MASTER PLAN REVIEW CRITERIA](#)

Mike Schultz, Principal Planner, Planning & Community Development, provided an overview of the items to Council. Mr. Schultz described the

new zoning to the PUD zone district. He gave history of the approval process and the neighborhood meetings that were held. It was requested that residents form a working committee which was mediated by Council of Neighbors and Organizations (CONO). The committee met with Penrose Hospital staff on three separate occasions. Mr. Schultz discussed the minor amendment to the Master Plan to include office buildings and reviewed the proposed Concept Plan adding approximately 28 acres. The Traffic Impact Analysis showed that Centennial Blvd and Fillmore will have right turn lanes added and traffic signals will be modified. More studies are required for the debris-laden fill. Mr. Schultz also reviewed the City Planning Commission's recommendation of gross floor area.

Councilmember Murray inquired if February 7, 2017 was the last time the working group met. Mr. Shultz said that was correct and the new concept plan had been presented in November 2016. The prior zoning was 200 feet and the new plan is 165 feet maximum and that the new PUD would allow 1.85 million square feet.

Councilmember Knight asked if there was an estimate of the number of stories within the 165 feet. Mr. Shultz said the hospital is anticipating 15 stories.

Margaret Sabin, President and CEO Penrose St. Francis, stated the difficulty in finding a 40-acre property. Ms. Sabin said that the neighborhood is supportive. The new medical campus will offer full scale rehabilitation services and that they are committed to the health of community, walking trails, and leaving a beautiful footprint. Ms. Sabin said the current Penrose Hospital is 165 feet in height.

Lonnie Cramer, Executive Sponsor of the Mesa Community, stated the compromise to go to 165 feet still allows 10 to 10 ½ stories due to the ceilings being higher in new facility. Councilmember Strand asked about the original plan of an additional story. Mr. Cramer stated that the original plan was 15 stories at 200 feet. Councilmember Strand questioned if the new plan would be giving up capacity. Mr. Cramer said that the mission is not expansion, they are working more towards more outpatient care.

James Kin, member of the Mesa Committee, spoke of their commitment to work with Penrose and their design of the medical park. He expressed

support of the project and the relationship established. Mr. Kin discussed the partnership with Penrose Hospital, preserving the character of the Mesa and protecting the natural environment and scenery, and noted that they want to work with Penrose and also preserve the Mesa. Mr. Kin said that they are taking Penrose Hospital at their word and will wait and see what development plan looks like.

Councilmember Knight asked if there would be another review. Mr. Schultz said there would not unless it was appealed.

Motion by Councilmember Knight, seconded by Councilmember Bennett, that the proposed minor amendment to the Hill Properties Master Plan be accepted based upon the finding that the minor amendment request complies with the review criteria for granting an amendment as set forth in City Code Section 7.5.408. The motion passed by a vote of 8-0-1
