₩.I. INTRODUCTION

A. Purpose and Intent

The Districts are independent units of local government, separate and distinct from the City, and, except as may otherwise be provided for by State or local law or this Service Plan, their activities are subject to review by the City only insofar as they may deviate in a material matter from the requirements of the Service Plan. It is intended that the Districts will provide a part or all of the Public Improvements for the use and benefit of all anticipated inhabitants and taxpayers of the Districts. The primary purpose of the Districts will be to finance the construction of these Public Improvements.

The Districts are not being created to provide ongoing operations and maintenance services other than those specifically set forth in Exhibit D to this Service Plan.

B. Need for the Districts

There are currently no other governmental entities, including the City, located in the immediate vicinity of the Districts that consider it desirable, feasible or practical to undertake the planning, design, acquisition, construction installation, relocation, redevelopment, and financing of the Public Improvements needed for the Project. Formation of the Districts is, therefore, necessary in order for the Public Improvements required for the Project to be provided in the most economic manner possible.

C. Objective of the City Regarding Districts Service Plan

The City's objective in approving the Service Plan for the Districts is to authorize the Districts to provide for the planning, design, acquisition, construction, installation, relocation, and redevelopment of the Public Improvements from the proceeds of Debt to be issued by the Districts. All Debt is expected to be repaid by taxes imposed and collected for no longer than the Maximum Debt Mill Levy Imposition Term for residential properties and at a tax mill levy no higher than the Maximum Debt Mill Levy for commercial and residential properties, and/or repaid by Fees, as long as such Fees are not imposed upon or collected from Taxable Property owned or occupied by an End User for the purpose of creating a capital cost payment obligation as further described in Section V.A.11. Debt which is issued within these parameters and, as further described in the Financial Plan, will insulate property owners from excessive tax burdens to support the servicing of the Debt and will result in a timely and reasonable discharge of the Debt.

This Service Plan is intended to establish a limited purpose for the Districts and explicit financial constraints that are not to be violated under any circumstances. The primary purpose is to provide for the Public Improvements associated with development and regional needs. Operational activities are allowed, but only as specified in Exhibit D to this Service Plan.

It is the intent of the Districts to dissolve upon payment or defeasance of all Debt incurred or upon a court determination that adequate provision has been made for the payment of all Debt, and if any District has authorized operating functions under an intergovernmental

agreement (IGA) with the City, to retain only the power necessary to impose and collect taxes or Fees to pay for these costs.

The Districts shall be authorized to finance the Public Improvements that can be funded from Debt to be repaid from tax revenue collected from a mill levy which shall not exceed the Maximum Debt Mill Levy in any District and which shall not exceed the Maximum Debt Mill Levy Imposition Term in Residential Districts, and other legally available revenues. It is the intent of this Service Plan to assure to the extent possible that no property in any District bears an economic tax burden that is greater than that associated with the Maximum Debt Mill Levy in amount, and that no property in a Residential District bears an economic tax burden that is greater than that associated with the Maximum Debt Mill Levy Imposition Term in duration even under bankruptcy or other unusual situations. Generally, the costs of Public Improvements that cannot be funded within these parameters are not costs to be paid by the Districts.

exclusions pursuant to Section 32-1-401, <u>et seq.</u>, CRS, and Section 32-1-501, <u>et seq.</u>, CRS, subject to the limitations set forth in Article V below.

VIII.IV. PROPOSED LAND USE/POPULATION PROJECTIONS/ASSESSED VALUATION

The Service Area consists of approximately —1.85 acres of ——land. The current assessed valuation of the Service Area is \$0482,340.00 for purposes of this Service Plan and, at build out, is expected to be sufficient to reasonably discharge the Debt under the Financial Plan. The population of the Districts at build-out is estimated to be approximately —775 people with an average of 2.5 people per unit.

Approval of this Service Plan by the City does not imply approval of the development of a specific area within the Districts nor does it imply approval of the number of residential units or the total site/floor area of commercial or industrial buildings identified in this Service Plan or any of the exhibits attached thereto, unless the same is contained within an Approved Development Plan.

1X.V. DESCRIPTION OF PROPOSED POWERS, IMPROVEMENTS AND SERVICES *

A. Powers of the Districts and Service Plan Amendment

The Districts shall have the power and authority to provide the Public Improvements and related operation and maintenance services within and without the boundaries of the Districts as such power and authority is described in the Special District Act, and other applicable statutes, common law and the Constitution, subject to the limitations set forth herein.

Operations and Maintenance Limitation. The purpose of the Districts is to plan for, design, acquire, construct, install, relocate, redevelop, and finance the Public Improvements. The Districts shall dedicate the Public Improvements to the City or other appropriate jurisdiction or owners association in a manner consistent with the Approved Development Plan and other rules and regulations of the City and applicable provisions of the City Code. The Districts shall not be authorized to operate and maintain any part or all of the Public Improvements after such dedication, including park and recreation improvements, unless the provision of such ongoing operation and maintenance is specifically identified in Exhibit D attached hereto. In the City's sole discretion, an IGA between the City and the District Districts may be required in order to better describe the conditions under which these permitted services will be provided by the District. If the Districts are authorized to operate and maintain certain park and recreation improvements set forth in Exhibit D, any fee imposed by the Districts for access to such park and recreation improvements shall not result in non-District residents paying a user fee that is greater than, or otherwise disproportionate to, similar Fees and taxes paid by residents of the Districts. However, the Districts shall be entitled to impose an administrative fee as necessary to cover additional expenses associated with non-District residents to ensure that such costs are not the responsibility of the Districts residents. All such Fees shall be based upon the determination of the District imposing such fee that such fee does not exceed a reasonable annual market fee for users of such facilities. Notwithstanding the foregoing, all parks and trails shall be open to the general public including non-District residents free of charge.

2. <u>City Charter Limitations</u>. In accordance with Article 7-100(a) of the City Charter, the Districts shall not issue any Debt instrument for any purpose other than construction of capital improvements with a public purpose necessary for development.

As further set forth in Article 7-100 of the City Charter, the total Debt of any proposed District shall not exceed 10 percent of the total assessed valuation of the taxable property within the District unless approved by at least a two-thirds vote of the entire City Council.

- 3. <u>Use of Bond Proceeds and Other Revenue of the Districts Limitation.</u>
 Proceeds from the sale of debt instruments and other revenue of Districts may not be used to pay landowners within the <u>DistrictDistricts</u> for any real property required to be dedicated for public use by annexation agreements or land use codes. Examples of ineligible reimbursements include, but are not limited to: the acquisition of rights of way, easements, water rights, land for prudent line drainage, parkland, or open space, unless consent from the City Council is given. Proceeds from the sale of debt instruments and other revenue of the Districts also may not be used to pay for the construction of any utility infrastructure except for those categories of utility infrastructure covered by utility tariffs, rules, and regulations. Additionally, if the landowner/developer constructs the public infrastructure and conveys it to the <u>DistrictDistricts</u> in return for a reimbursement obligation from the District, prior to making such reimbursement for such amounts, the <u>DistrictDistricts</u> must receive the report of an independent engineer or accountant confirming that the amount of the reimbursement is reasonable.
- 4. <u>Recovery Agreement Limitation</u>. Should the Districts construct infrastructure subject to a recovery agreement with the City or other entity, the Districts retain all benefits under the recovery agreement. Any subsequent reimbursement for public improvements installed or financed by the Districts will remain the property of the Districts to be applied toward repayment of their Debt, if any. Any reimbursement revenue not necessary to repay the Districts Debt may be utilized by the <u>Districts</u> to construct additional public improvements permitted under the approved Service Plan.
- 5. <u>Construction Standards Limitation</u>. The Districts will ensure that the Public Improvements are designed and constructed in accordance with the standards and specifications of the City and of other governmental entities having proper jurisdiction. The Districts will obtain the City's approval of civil engineering plans and will obtain applicable permits for construction and installation of Public Improvements prior to performing such work.
- 6. <u>Privately Placed Debt Limitation.</u> Prior to the issuance of any privately placed Debt for capital related costs, the <u>DistrictDistricts</u> shall obtain the certification of an External Financial Advisor substantially as follows:

We are [I am] an External Financial Advisor within the meaning of the Districts' Service Plan.

We [I] certify that (1) the net effective interest rate (calculated as defined in Section 32-1-103(12), CRS) to be borne by [insert the designation of the Debt] does not exceed a reasonable current [tax-exempt] [taxable] interest rate, using criteria deemed appropriate

by us [me] and based upon our [my] analysis of comparable high yield securities; and (2) the structure of [insert designation of the Debt], including maturities and early redemption provisions, is reasonable considering the financial circumstances of the District.

- 7. <u>Inclusion Limitation</u>. The Districts shall not include within any of their boundaries any property outside the Service Area without the prior written consent of the City Council.
- 8. <u>Overlap Limitation</u>. Actions of the Districts which violate the limitations set forth in V.A.1-12 above or in VI.B-F. shall be deemed to be material departures from this Service Plan and the City shall be entitled to all remedies available under State and local law to enjoin such actions of the Districts.

B. Preliminary Engineering Survey

The Districts shall have authority to provide for the planning, design, acquisition, construction, installation, relocation, redevelopment, maintenance, and financing of the Public Improvements within and without the boundaries of the Districts, to be more specifically defined in an Approved Development Plan. An estimate of the costs of the Public Improvements which may be planned for, designed, acquired, constructed, installed, relocated, redeveloped, maintained or financed was prepared based upon a preliminary engineering survey and estimates derived from the Approved Development Plan on the property in the Service Area and is approximately \$____\$35,019,775.

The Districts shall be permitted to allocate costs between such categories of the Public Improvements as deemed necessary in their discretion.

All of the Public Improvements described herein will be designed in such a way as to assure that the Public Improvements standards will be compatible with those of the City and shall be in accordance with the requirements of the Approved Development Plan. All descriptions of the Public Improvements to be constructed, and their related costs, are estimates only and are subject to modification as engineering, development plans, economics, the City's requirements, and construction scheduling may require. The nature of the functions and services to be provided by each District shall be clarified in an IGA between and among the Districts. The total Debt that the Districts shall be permitted to issue shall not exceed the total Debt issuance limitation set forth in Section V.A.10 hereof, and shall be permitted to be issued on a schedule and in such year or years as the Districts determine shall meet the needs of the Financial Plan referenced above and phased to serve development as it occurs. The Districts will also rely upon various other revenue sources authorized by law. These will include the power to assess Fees, rates, tolls, penalties, or charges as provided in the Special District Act or other State statutes. Nelnoe of the Districts will be allowed to impose a sales tax.

B. <u>Maximum Voted Interest Rate and Maximum Underwriting Discount</u>

The interest rate on any Debt is expected to be the market rate at the time the Debt is issued. The proposed maximum interest rate on any Debt is not expected to exceed 18%. The proposed maximum underwriting discount will be 5%. Debt, when issued, will comply with all relevant requirements of this Service Plan, State law and Federal law as then applicable to the issuance of public securities.

C. No-Default Provisions

Debt issued by a District shall be structured so that failure to pay debt service when due shall not of itself constitute an event of default or result in the exercise of remedies. The foregoing shall not be construed to prohibit events of default and remedies for other occurrences including, without limitation, (1) failure to impose or collect the Maximum Debt Mill Levy or such portion thereof as may be pledged thereto, or to apply the same in accordance with the terms of the Debt, (2) failure to impose or collect other revenue sources lawfully pledged to the payment thereof or to apply the same in accordance with the terms of the Debt, (3) failure to abide by other covenants made in connection with such Debt, or (4) filing by a District as a debtor under any bankruptcy or other applicable insolvency laws. Notwithstanding the foregoing, Debt will not be structured with a remedy which requires the Districts to increase the Maximum Debt Mill Levy in any District or, in Residential Districts, the Maximum Debt Mill Levy Imposition Term.

D. Eligible Bondholders

All District bonds or other debt instrument, if not rated as investment grade, must be issued in minimum denominations of \$100,000 and sold only to either accredited investors as

defined in rule 501 (a) promulgated under the Securities Act of 1933 or to the developer(s) of property within the District.

E. <u>Maximum Debt Mill Levy</u>

The Maximum Debt Mill Levy shall be the maximum mill levy a District is permitted to impose upon the taxable property of the Districts for payment of Debt, and shall be determined as follows:

- 1. For Residential Districts the Maximum Debt Mill Levy shall be calculated as follows:
- (a) The Maximum Debt Mill Levy shall be 30 mills; provided that if, on or after January 1, 2006, there are changes in the method of calculating assessed valuation or any constitutionally mandated tax credit, cut or abatement; the mill levy limitation applicable to such Debt may be increased or decreased to reflect such changes, such increases or decreases to be determined by the Board of the issuing District in good faith (such determination to be binding and final) so that to the extent possible, the actual tax revenue generated by the mill levy, as adjusted for changes occurring after January 1, 2006, are neither diminished nor enhanced as a result of such changes. For purposes of the foregoing, a change in the ratio of actual valuation shall be deemed to be a change in the method of calculating assessed valuation.
- (b) At such time as the Debt to Actual Market Value Ratio within a Residential District is equal to or less than three percent (3%), the Board of that Residential District may request City Council approval for the right to pledge such mill levy as is necessary to pay the Debt service on such Debt, without limitation of rate. At the time of such request, a majority of the members of the Board must consist of homeowners owning property within the District. Once Debt has been determined to meet the above criterion, so that the District is entitled to pledge to its payment an unlimited ad valorem mill levy, such District may provide that such Debt shall remain secured by such unlimited mill levy, notwithstanding any subsequent change in such District's Debt to Actual Market Value Ratio.
- 2. For Commercial Districts the Maximum Debt Mill Levy shall be calculated as follows:
- (a) The Maximum Debt Mill Levy shall be 50 mills; provided that if, on or after January 1, 2006, there are changes in the method of calculating assessed valuation or any constitutionally mandated tax credit, cut or abatement; the mill levy limitation applicable to such Debt may be increased or decreased to reflect such changes, such increases or decreases to be determined by the Board of the issuing District in good faith (such determination to be binding and final) so that to the extent possible, the actual tax revenue generated by the mill levy, as adjusted for changes occurring after January 1, 2006, are neither diminished nor enhanced as a result of such changes. For purposes of the foregoing, a change in the ratio of actual valuation shall be deemed to be a change in the method of calculating assessed valuation.

To the extent that the Districts are composed of or subsequently organized into one or more subdistricts as permitted under Section 32-1-1101, CRS, the term "District" as used in this Section VI.E. shall be deemed to refer to the District and to each such sub district separately, so that each of the subdistricts shall be treated as a separate, independent district for purposes of the application of this Section VI.E.

F. Maximum Debt Mill Levy Imposition Term

Residential Districts shall not impose a Debt Service mill levy which exceeds 40 years after the year of the initial imposition of such Debt Service mill levy unless (1) a majority of the Board of Directors of the District imposing the mill levy are residents of such District, and (2) such Board has voted in favor of issuing Debt with a term which requires or contemplates the imposition of a Debt service mill levy for a longer period of time than the limitation contained herein. There shall be no Maximum Debt Mill Levy Imposition Term in Commercial Districts.

G. Debt Repayment Sources

Each of the Districts may impose a mill levy on taxable property within its boundaries as a primary source of revenue for repayment of debt service and for operations and maintenance. The Districts may also rely upon various other revenue sources authorized by law. At the Districts discretion, these may include the power to assess Fees, rates, tolls, penalties, or charges as provided in Section 32-1-1001(1), CRS, as amended from time to time. In no event shall the debt service mill levy in any District exceed the Maximum Debt Mill Levy or, for Residential Districts, the Maximum Debt Mill Levy Imposition Term.

H. Debt Instrument Disclosure Requirement

In the text of each Bond and any other instrument representing and constituting Debt, the Districts shall set forth a statement in substantially the following form:

By acceptance of this instrument, the owner of this Bond agrees and consents to all of the limitations in respect of the payment of the principal of and interest on this Bond contained herein, in the resolution of the District authorizing the issuance of this Bond and in the Service Plan for the DistrictDistricts.

Similar language describing the limitations in respect of the payment of the principal of and interest on Debt set forth in this Service Plan shall be included in any document used for the offering of the Debt for sale to persons including, but not limited to, a developer of property within the boundaries of the Districts.

I. Security for Debt

No Debt or other financial obligation of any Districts will constitute a debt or obligation of the City in any manner. The faith and credit of the City will not be pledged for the repayment of any Debt or other financial obligation of any Districts. This will be clearly stated on all offering circulars, prospectuses, or disclosure statements associated with any securities issued by any Districts. Districts shall not utilize the City of Colorado Springs' name in the name of the District.

J. Maximum Operating Mill Levy

In addition to the capital costs of the Public Improvements, the Districts will require operating funds for administration and to plan and cause the Public Improvements to be constructed and maintained. The first year's operating budget is estimated to be

\$100,000 which is anticipated to be derived from property taxes and other revenue.

The Maximum Operating Mill Levy for the payment of the Districts operating and-maintenance expenses shall be 10 mills; provided that if, on or after January 1, 2006, there are changes in the method of calculating assessed valuation or any constitutionally mandated tax credit, cut or abatement; the mill levy limitation applicable to such operating and maintenance expenses may be increased or decreased to reflect such changes, such increases or decreases to be determined by the Board in good faith (such determination to be binding and final) so that to the extent possible, the actual tax revenue generated by the mill levy, as adjusted for changes occurring after January 1, 2006, are neither diminished nor enhanced as a result of such changes. For purposes of the foregoing, a change in the ratio of actual valuation shall be deemed to be a change in the method of calculating assessed valuation.
