Greetings City Council Members:

We have reviewed all the information provided by the Surofccheks in support of their appeal. They have made numerous misrepresentations concerning the claims related to the litigation between us. Frankly, we think that the presentation of these alleged "facts" is wholly inappropriate in this proceeding. We are not interested in trying our claims against the Surofccheks in this administrative proceeding. You understand this matter well enough to know what is and is not relevant. We will focus our discussion on the sole issue they have raised, which is "reasonableness" of the City Planning Commission's decision.

If you perceive that anything in their characterization of the litigation is at all relevant, please let us know and we will be prepared -- reluctantly -- to address the misrepresentations during the City Council meeting.

Sincerely,

George and Amy Tracy
