City Council desires to receive public input on the proposed franchise agreement at two public hearings.

Background:

Pursuant to Colorado law, the City Charter and ordinance, and federal law, including the Cable Act, the City is authorized to grant or renew franchise to construct, operate and maintain cable television systems utilizing public rights-of-way and properties within the City's jurisdiction. In 2000, by Ordinance No. 00-119 which was approved by City Council and a vote of a majority of the Colorado Springs electors, the City of Colorado Springs entered into an agreement (the "Franchise") with Century Colorado Springs Partnership, d/b/a Adelphia Cable Communications ("Adelphia") whereby the City granted a revocable, non-exclusive cable television franchise to Adelphia. Adelphia's successor-in-interest under the Franchise is Comcast.

Pursuant to the terms of the Franchise, the City's grant of franchise to Comcast was set to expire on November 7, 2015. The Cable Act includes the procedures for renewing a franchise agreement. Comcast requested for the City to commence the renewal process under the Cable Act.

The City has engaged in an informal renewal process with Comcast, including providing the public with an opportunity to provide comment on the cable operator's performance under the franchise and the community's future cable-related needs and interests.

At the direction of City Council, City administration has been negotiating with Comcast on the renewal. City Charter section 10-20 reserves the powers concerning the method of granting, amending, revoking, or otherwise dealing in franchises to City Council. The City administration believes that it has successfully negotiated a franchise agreement with Comcast that incorporates City Council's wishes.

The City administration has provided City Council with a draft franchise agreement for Council to consider. City Council has indicated that it would like to set two public hearings to receive public comment on the proposed franchise renewal. The proposed resolution sets two such public hearings in the month of January: January 19, 2017 at 5:30 p.m. and January 31 at 1:00 p.m.

This item supports the City's strategic goal relating to investing in infrastructure and building community and collaborative relationships.

Financial Implications:

The current Franchise agreement, inclusive of all providers, generated \$1.2 million of revenue in 2014, and almost \$1.3 million in 2015. Assuming the number of subscribers remains relatively constant, the proposed franchise would provide approximately \$2 million in 2017, \$3 million in 2018, \$4 million in 2019, and in excess of \$4 million each year of the franchise thereafter.
