File #: 16-389 **Version:** 1 **Name:**

Type: Planning Case **Status:** Filed

File created: 5/3/2016 **In control:** City Council Work Session

On agenda: **Final action:** 6/16/2016

Title: A proposal by the City of Colorado Springs' Transportation Manager to modify the roadway design of N. Cascade Avenue through the Colorado College campus. The proposed design change would improve safety for students crossing Cascade Avenue by reducing the number of travel lanes crossed from four-lanes to two- and reducing the number of pedestrian crossings from four to two. The Colorado College Master Plan adopted in December 2008 includes a note reading "significant modifications to Cascade Avenue will require public outreach and hearings at Planning Commission and City Council."
