Summary:

During 2016, as part of the citywide “code scrub” effort to review City Code for necessary updates, members of City Council and representatives of the executive branch convened working committee to review the provisions of Chapter 1 (Administration) and certain provisions of other chapters that are administrative in nature. As a result of that review, the group recommends a number of changes to certain administrative provisions of City Code.

This ordinance amends Section 10.1.309 of Chapter 10, specifying that the City’s Traffic Engineer is appointed by and reports directly to the Public Works Director, rather than the Mayor.
