Subject: Record Numbers ANEX-24-0008 and ZONE-24-0005

CAUTION! - External Email. Malware is most commonly spread through unknown email attachments and links. DO NOT open attachments or click links from unknown senders or unexpected email!

Received your notification of this project just today. Please provide a complete explanation of this project. As I understand, this group (Neagle-Dutcher Family Addition Annexation) wants to build a four or five high apartment building on the corner of Date Street and Lotus Street.

This is a huge evacuation issue because of the Sifred and Date flooding area.

It is offensive to receive this notice on March 13th, and only have until March 18th to submit comments.

I am COMPLETELY OPPOSED to this project, and I suspect my neighborhood would be as well.

I am old (67), but I have no problem walking my neighborhood to try to stop yet another "money grabbing" group of taking their profit versus the beauty of what we see every day in our backyards.

It is actually SHAMFUL that the City of Colorado Springs thought so little of their residents that they would send this notice so close to the date of response.

I am not done with this. I will reach out to the mayor and I will reach out to KRDO, KKTV, etc. This is an absolute travesty.

I am disgusted.

Patricia (aka Trish) Beyer.

Hi Tamara,

We really are not finding anything helpful on the website. Some questions we have:

1. Multi-family can mean a lot of things-Duplex, multi-story apartments, etc. What are they proposing go into that small lot?
2. Since the city is scheduled to soon close off the intersection of Siferd and Date street, why would anything be approved to be built on that small triangle of land? Where would the entrance and exits to the proposed Multi Family project be?
3. Have there been any studies of traffic flow? We already have problems getting out of Park Haven since the townhomes on Date St were built last year, and Weinerschnitzel and Slim Chickens have been built. There have been many instances of accidents and near hits (t-bones) as we try to turn onto Date street to get to the intersection of Beverly and Austin Bluffs. Please provide copies of any traffic studies that have been done.
4. Have any flood studies been done? The roads adjoining that property floods in several places {on the north (Date St and Lotus intersection) and north/west (Siferd and Date intersection)} on a regular basis. How would this project affect water flow on Park Haven's property if the structure/structures are built? Please provide copies of any flood studies done.
5. Who would maintain the road around the property? All of Date Street is in horrible disrepair already. Additional traffic would only make it worse.
6. Another objection is the proposed development plan would entail an additional water tap on an already stressed resource. Have any city water studies been done? If so, please provide copies of those as well.
7. What is the process of filling an objection? Can I, as Board President of Park Haven, file an objection on the part of all our 44 units? Or would it be more beneficial to file individual objections? Either way, when would the objections need to be filed? Is a hearing set up, or what is the next step in this process? We request you not make a decision without a hearing.

8. The post card you sent out states a decision has not been made on this development plan, yet there were surveyors out today on the property. Why would surveyors be there if no decision has yet been made?

9. The postcard states if a decision is made to approve this development, we can file an appeal. I see there is a \$176.00 fee to file an appeal. Why would we have to pay \$176.00 to object and try to protect our rights as property owners? Would that be \$176.00 per homeowner, or can we file one appeal on behalf of the Park Village Homeowners Association?

10. Who else involved in the decision making of this development proposal can I send our concerns to? Names, phone numbers, emails please....

Thanks,

Kathy Starling

Hello,
It looks like this will obstruct views of park haven residents, is that correct? I recently purchased my home and the view was one of my biggest requirements. This is very disappointing and will decrease the value of my home.

My main concern would be What constitutes a multi-family home? I would then wonder how many cars would be involved. I say this because Date Street is very very busy as it is. We also have a lot of businesses in that area that contribute to traffic pulling out on that end of Date Street. Once Date Street and Sieferd are closed, all the traffic will be redirected up towards East Date Street by Burger King and that is a traffic mass as it is due to the gas station.

Sincerely,

Rita Perea
