# 1. Introduction

---

This report includes a summary of the expected fiscal impacts of the site included in the Moreno and Cascade Urban Renewal Plan (Plan) in El Paso County (the County). The El Paso County Impact Report for Moreno and Cascade Urban Renewal Area (report) was prepared by Economic & Planning Systems (EPS) for the Colorado Springs Urban Renewal Authority ("CSURA" or "Authority").

The report includes a summary of forecasted property and sale tax revenues as well as El Paso County fiscal and service impacts associated with development in accordance with the Urban Renewal Plan. It specifically responds to the requirements outlined in C.R.S. 31-25-107 (3.5):

## C.R.S. 31-25-107: APPROVAL OF URBAN RENEWAL PLANS BY THE LOCAL GOVERNING BODY

- (3.5) "Prior to the approval of an urban renewal plan, the governing body shall submit such plan to the board of county commissioners, which shall include, at a minimum, the following information concerning the impact of such plan:
- I. The estimated duration of time to complete the urban renewal project;
  - II. The estimated annual property tax increment to be generated by the urban renewal project and the portion of such property tax increment to be allocated during this period to fund the urban renewal project;
  - III. An estimate of the impact of the urban renewal project on county revenues and on the cost and extent of additional county infrastructure and services required to serve development within the proposed urban renewal area, and the benefit of improvements within the urban renewal area to existing county infrastructure;
  - IV. A statement setting forth the method under which the authority or the municipality will finance, or that agreements are in place to finance, any additional county infrastructure and services required to serve development in the urban renewal area for the period in which all or any portion of the property taxes described in subparagraph (ii) of paragraph (a) of subsection (9) of this section and levied by a county are paid to the authority; and
  - V. Any other estimated impacts of the urban renewal project on county services or revenues."

## Urban Renewal Plan Description

The Moreno and Cascade Urban Renewal Area (“URA” or “Plan Area”) is located in the City of Colorado Springs in El Paso County. The Plan Area is comprised of six parcels on approximately 1.69 acres of land and adjacent right of way (ROW). The boundaries of the Plan Area to which this Plan applies includes the northwest corner of Moreno Avenue and Cascade Avenue, the residential properties at the southeast corner of Moreno Avenue and Sahwatch Street, and adjacent ROW, as illustrated in red below in **Figure 1**.

**Figure 1. Moreno and Cascade Urban Renewal Plan Area**

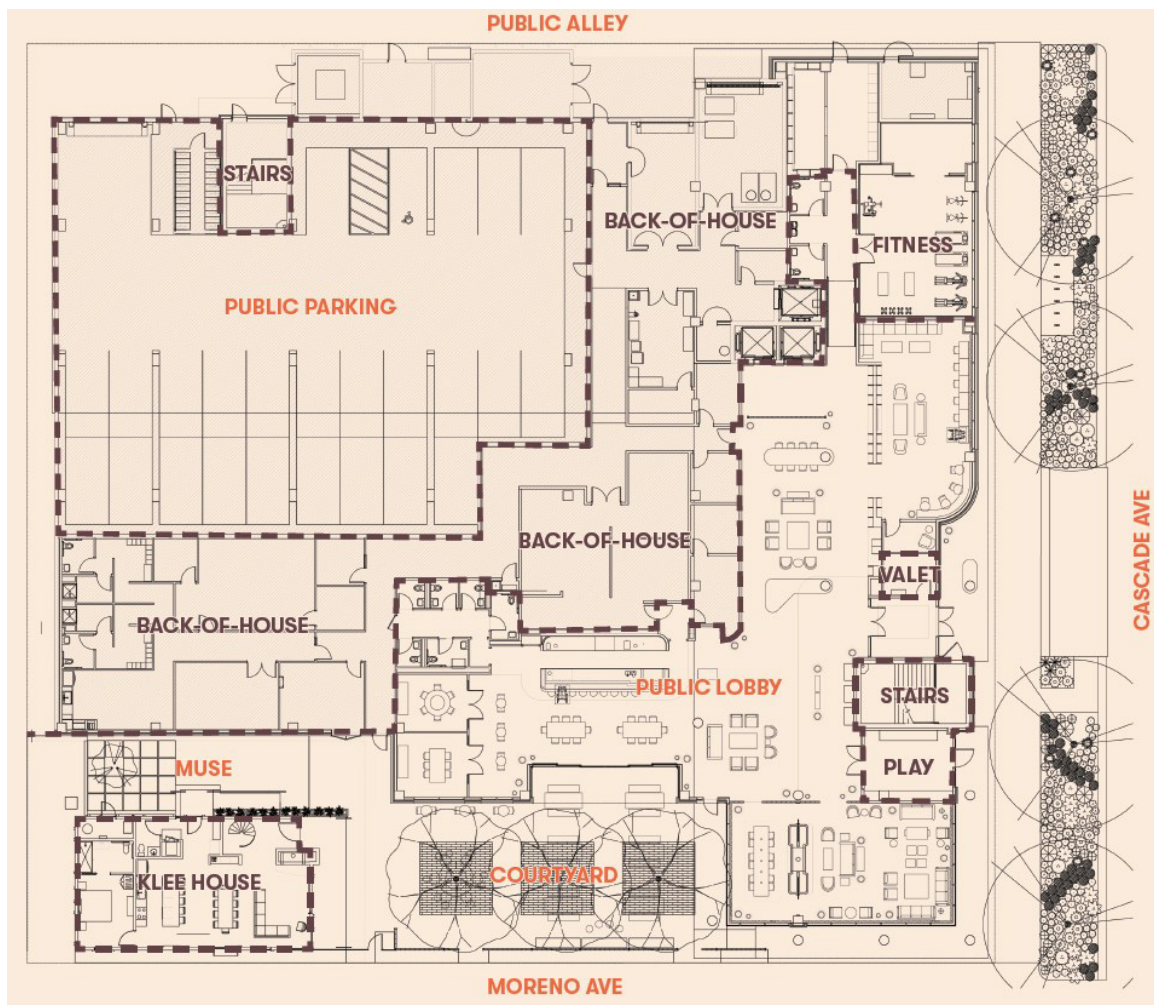

## 2. Development Program

---

The proposed projects for the Plan Area include two phases. Phase 1 includes a hotel development on Parcel 1 with associated public realm improvements on the adjacent right-of-way (ROW). The hotel includes approximately 181 hotel rooms (keys), public lobby (3,750 sq. ft.), kitchen/bar (4,843 sq. ft.), event space (6,175 sq. ft.), and public parking (30 spaces), illustrated in **Figure 2**.

**Figure 2. Phase 1 Hotel Site Plan**

Phase 2 will likely include residential development on Parcels 2 to 5 of medium to high density that aligns with the current zoning and land use code. The residential development is estimated to include between 77 to 115 units of attainable housing. Scenario 1 includes 77 units of stacked flats with exterior access and Scenario 2 includes 115 apartment units. The goal for this development is to offer attainable housing at 80 percent of area median income (AMI) and below. This development is conceptual in nature and the actual development program may differ. The potential development scenarios included demonstrate the range of property tax increment that could be generated from the redevelopment of the site.

### Eligible Improvements

Public improvements proposed for the Moreno and Cascade URA will provide a public benefit of not only eliminating blight but also enhancing and creating a sense of place by activating Downtown. Moreno and Cascade URA includes a variety of public improvements, totaling approximately \$10.4 million, as shown below in **Table 1**. The improvements are categorized by tier to demonstrate the order they are planned to take place. Tier 1 improvements are directly related to the Phase 1 development of the hotel and total about \$5.7 million. These improvements include demolition and abatement of the existing office building, utilities, streetscape and alley improvements, and public art. In addition, amenities that are intended to service hotel guests as well as visitors/general public include the courtyard and public lobby.

Tier 2 improvements are public realm and streetscape improvements along Moreno and Cascade Avenue and structured public parking. These total about \$4.7 million. The streetscape and public realm improvements will provide connectivity improvements to nearby recent developments, such as Weidner Field to Trolley Block.

Phase 1 development is capped at the cost of eligible improvements of \$10.4 million. The remaining TIF revenue is reserved for Phase 2 with the attainable housing development that is expected to serve households earning 80 percent of area median income (AMI) or below.

**Table 1. Moreno and Cascade URA Eligible Improvements**

Eligible Improvements	Factor	Total	% Total	Per Key
<b>Tier 1</b>				
Demolition/Abatement		\$730,300	7.0%	\$4,035
Utilities		\$304,693	2.9%	\$1,683
Catbird Streetscapes		\$380,064	3.7%	\$2,100
Courtyard		\$916,776	8.8%	\$5,065
Alley Improvements		\$259,368	2.5%	\$1,433
Public Art		\$130,800	1.3%	\$723
Public Lobby (Construction & FFE)	3,750 sq. ft.	<u>\$2,988,510</u>	<u>28.8%</u>	<u>\$16,511</u>
<b>Subtotal</b>		<b>\$5,710,511</b>	<b>55.0%</b>	<b>\$31,550</b>
<b>Tier 2</b>				
Structured Parking		\$2,075,124	20.0%	\$11,465
Moreno Avenue Public Realm Imprv.		\$2,397,306	23.1%	\$13,245
Cascade Avenue Public Realm Imprv.		<u>\$202,025</u>	<u>1.9%</u>	<u>\$1,116</u>
<b>Subtotal</b>		<b>\$4,674,455</b>	<b>45.0%</b>	<b>\$25,826</b>
<b>Total</b>		<b>\$10,384,966</b>	<b>100.0%</b>	<b>\$57,376</b>

### 3. County Fiscal Impact

---

In order to estimate the anticipated impact of the development of the parcels included in the Plan Area boundary on the County, EPS evaluated expected property tax and sale tax revenues, infrastructure costs, and impacts on cost of service for the county.

#### **Property Taxes**

CSURA is expected to direct 100 percent of the El Paso County, City of Colorado Springs, School District, and Water Conservancy District property tax revenues generated by the Plan increment to the project. CSURA is expected to direct 50 percent of the Library District and 80 percent of the Downtown Development Authority (DDA) property tax revenues to the project. These revenues include any property tax that is generated by new development on the parcels included in the Plan Area. These revenues are necessary to allow the project to move forward and will be used to fund eligible improvements.

#### **Assumptions**

To estimate potential property tax revenues of Moreno and Cascade URA, EPS estimated market values for the hotel at \$485,000 per key and residential units at \$250,000 per unit. The estimated value is based on a comparison of construction costs, assessor data, and comparable property research. An annual growth rate of 1.5 percent is applied to the market value. In accordance with Colorado Legislature, a biannual reassessment applies to the base value on odd-number years, which is estimated at 3.0 percent.

#### **Property Tax Base**

Assessed value is calculated for local government (non-school) entities and school districts separately. For residential uses, the local government assessment rate is 6.25 percent and the school assessment rate is 7.05 percent. Commercial property and vacant land are assessed at 27.0 percent for local government and school districts. This results in a local government assessed value of \$599,952 and school assessed value of \$609,641, shown below in **Table 2**.

The base reflects the total value of the land and improvements within the URA boundary. The assessment rate and mill levy are two universally used factors that generate revenue streams that are a portion of total valuation. Assessment rates are set by the State Legislature and are subject to change each year.

**Table 2. Property Base Value, 2025**

Location	Land Use	Local Government Assessed Value			School Assessed Value		
		Land	Imp.	Total	Land	Imp.	Total
524 S Cascade Ave	Office	\$123,633	\$383,968	\$507,601	\$123,633	\$383,968	\$507,601
601 Sahwatch St	Residential	\$3,856	\$15,803	\$19,659	\$4,350	\$17,826	\$22,175
25 W Moreno Ave	Residential	\$3,856	\$15,493	\$19,349	\$4,350	\$17,476	\$21,825
21 W Moreno Ave	Residential	\$3,856	\$15,014	\$18,871	\$4,350	\$16,936	\$21,286
19 W Moreno Ave	Residential	\$3,856	\$13,958	\$17,814	\$4,350	\$15,745	\$20,095
11 W Moreno Ave	Vacant	<u>\$16,659</u>	<u>\$0</u>	<u>\$16,659</u>	<u>\$16,659</u>	<u>\$0</u>	<u>\$16,659</u>
<b>Total</b>		<b>\$155,717</b>	<b>\$444,235</b>	<b>\$599,952</b>	<b>\$157,691</b>	<b>\$451,950</b>	<b>\$609,641</b>

Source: El Paso County Assessor; Economic &amp; Planning Systems

The 2025 mill levies for all parcels in the taxing district are shown in **Table 3**. The total mill levy in 2025 is 60.3610, but only 57.4610 mills are projected to be pledged for tax increment financing (TIF). This assumes a 100 percent pledge of property taxes from El Paso County, City of Colorado Springs, School District 11, and Southeastern Colorado Water Conservancy District. This assumes a 50 percent pledge from Pikes Peak Library District and an 80 percent pledge from Colorado Springs DDA. The road and bridge shares are ineligible funds for TIF because they are a dedicated revenue stream. The total local government mill levy for TIF is 16.8560 mills and school mill levy for TIF is 40.6050 mills.

**Table 3. Mill Levies, 2025**

Description	Mill Levy	TIF Share	TIF Mill Levy
<b>Non-School Local Government</b>

## Property Tax Increment

Based on the assumptions stated above and information from the Developer, in 2050 the cumulative value of the hotel development is estimated at \$125.5 million, as shown below in **Table 4**. In 2025, the residential development is estimated to have a value between \$27.5 million in Scenario 1 and \$41.1 million in Scenario 2. The future property taxes due to new development are referred to as the increment. The increment is calculated for each development scenario for local government and school district. This identifies the range of estimated property TIF based on the development scenarios for each type of taxing entity.

**Table 4. Estimated Development Value, 2025-2050**

Year	Plan Yr.	Scenario 1 <sup>1</sup>			Scenario 2 <sup>1</sup>

### Scenario 1

In Scenario 1, Moreno and Cascade is expected to generate approximately \$5.5 million in local government property tax increment over the 25-year period, which equates to an annual average of approximately \$218,800, as shown in **Table 5**. The present value, assuming a 6.0 percent discount rate, equates to \$2.6 million or an average of \$104,100 per year. The school property tax increment for Scenario 1 is estimated at \$13.3 million over the 25-year period, which equates to an annual average of approximately \$532,100, as shown in **Table 6**. The present value, assuming a 6.0 percent discount rate, equates to \$6.3 million or an average of \$253,100 per year. Following the 25-year period, the property tax that was redirected through the URA will revert to the original taxing entities.

### Scenario 2

In Scenario 2, Moreno and Cascade is expected to generate approximately \$5.7 million in local government property tax increment over the 25-year period, which equates to an annual average of approximately \$227,600, as shown in **Table 7**. The present value, assuming a 6.0 percent discount rate, equates to \$2.7 million or an average of \$108,100 per year. The school property tax increment for Scenario 2 is estimated at \$13.9 million over the 25-year period, which equates to an annual average of approximately \$556,200, as shown in **Table 8**. The present value, assuming a 6.0 percent discount rate, equates to \$6.6 million or an average of \$263,900 per year. Following the 25-year period, the property tax that was redirected through the URA will revert to the original taxing entities.

## Taxing District Impact

### El Paso County Impact

El Paso County has a 6.9850 mill levy. Existing property taxes refer to the “Base” and will continue to be collected by El Paso County. The County’s share of the current property tax base is \$4,191, shown in **Table 9**. This base amount is expected to grow at 3.0 percent every two years resulting in an annual amount of \$5,975 for El Paso County in year 25 and generating a total of approximately \$126,700 over the 25-year period. After the 25-year period is complete, the County’s share of property tax revenues will increase to between \$125,500 in Scenario 1 to \$130,700 in Scenario 2 due to the new development. This includes between \$119,400 in Scenario 1 to \$124,600 in Scenario 2 generated by the property tax increment from Moreno and Cascade URA.

## Colorado Springs School District 11 Impact

The Plan Area is located within the Colorado Springs School District 11, which has a 40.6050 mill levy. The School District's share of the current property tax base is \$24,754, shown in **Table 10**, and will continue to be collected by the School District. The base amount is expected to grow at 3.0 percent every two years resulting in an annual amount of approximately \$35,294 in year 25 and generating a total of \$748,500 over the 25-year period. After the 25-year period is complete, the School District's share of property tax revenues will increase to between \$737,600 in Scenario 1 to \$771,500 in Scenario 2 due to the new development. This includes about \$701,200 in Scenario 1 and \$735,200 in Scenario 2 generated by the property tax increment from Moreno and Cascade URA.

## City of Colorado Springs Impact

The City of Colorado Springs has a 3.5540 mill levy. The City's share of the current property tax base is \$2,132, shown in **Table 11**, and will continue to be collected by the City. The base amount is expected to grow at 3.0 percent every two years resulting in an annual amount of \$3,040 in year 25 and generating a total of approximately \$64,500 over the 25-year period. After the 25-year period is complete, the City's share of property tax revenues will increase to between \$63,900 in Scenario 1 to \$66,500 in Scenario 2 due to the new development. This includes between \$60,700 in Scenario 1 and 63,400 in Scenario 2 generated by the property tax increment from Moreno and Cascade URA.

## Pikes Peak Library District Impact

The Plan Area is located within the Pikes Peak Library District, which has a 3.1400 mill levy. The Library District's share of the current property tax base is \$1,884, shown in **Table 12**, and will continue to be collected by the Library District. The base amount is expected to grow at 3.0 percent every two years resulting in an annual amount of \$2,686 in year 25 and generating a total of approximately \$57,000 over the 25-year period. In addition, the Library District is projected to collect 50 percent of the property tax increment generated by the Moreno and Cascade URA. This results in a total of about \$509,500 to \$530,000 generated by 1.5700 mills over the 25-year period. After the 25-year period is complete, the Pikes Peak Library District's share of property tax revenues will increase to between \$56,400 in Scenario 1 and \$58,700 in Scenario 2 due to the new development.

### Colorado Springs Downtown Development Authority Impact

The Plan Area is located within the Colorado Springs Downtown Development Authority (DDA), which has a 5.0000 mill levy. The DDA's share of the current property tax base is \$3,000, shown in **Table 13**, and will continue to be collected by the DDA. The base amount is expected to grow at 3.0 percent every two years resulting in an annual amount of \$4,277 in year 25 and generating a total of approximately \$90,700 over the 25-year period. In addition, the DDA is projected to collect 20 percent of the property tax increment generated by the Moreno and Cascade URA. This results in a total of about \$324,500 to \$337,600 generated by 1.0000 mill over the 25-year period. After the 25-year period is complete, the DDA's share of property tax revenues will increase to between \$91,900 in Scenario 1 and \$95,700 in Scenario 2 due to the new development.

## Southeastern Colorado Water Conservancy District Impact

The Plan Area is located within the Southeastern Colorado Water Conservancy District, which has a 0.7470 mill levy. The Water Conservancy District's share of the current property tax base is \$448, shown in **Table 14**, and will continue to be collected by the Water Conservancy District. The base amount is expected to grow at 3.0 percent every two years resulting in an annual amount of \$639 in year 25 and generating a total of approximately \$13,600 over the 25-year period. After the 25-year period is complete, the Southeastern Colorado Water Conservancy District's share of property tax revenues will increase to between \$13,400 in Scenario 1 and \$14,000 in Scenario 2 due to the new development. This includes approximately \$12,800 in Scenario 1 and \$13,300 in Scenario 2 generated by the property tax increment from the Moreno and Cascade URA.

## Sales Taxes

CSURA is expected to keep 1.50 percent of city sales tax and 0.75 percent of county sales tax revenues generated by sales on-site from lodging and food and beverage. This is the incremental sales tax, which includes all sales tax generated from the new commercial development on parcels included in the Plan Area. These revenues are necessary to allow the project to move forward and will be used to fund eligible improvements.

## Assumptions

For the hotel, lodging sales are estimated using an average daily rate of \$219 and occupancy rate of 79 percent. Food and beverage includes the hotel restaurant and bar, catering for events, and mini bar sales. The hotel restaurant includes about 4,800 square feet and is estimated at \$275 sales per square foot. The hotel includes a total of 6,175 square feet of event space and catering is estimated at \$339 per square foot. The total 11,000 square feet of sales generating space is projected to average \$310 sales per square foot annually. In addition, mini bar sales are estimated at \$28,000 per year. EPS has also assumed an annual growth rate in sales of 2.0 percent per year.

The 2025 El Paso County sales tax rate is 1.23 percent, of which 0.75 percent will be allocated for TIF for the 25-year period. The remaining 0.25 percent will go into the county's general fund and the 0.23 percent is dedicated to Public Safety Critical Needs.

The 2025 City of Colorado Springs sales tax rate is 3.07 percent, of which 1.50 percent will be allocated for TIF for the 25-year period. The remaining 0.50 percent will go into the city's general fund and the 1.07 percent is dedicated sales for specific uses including 0.10 percent for Trails, Open Space and Parks (TOPS), 0.40 percent for Public Safety Sales Tax (PSST), and 0.57 percent for 2C Road Tax.

## El Paso County Sales Tax Increment

The future sales taxes due to new retail development is referred to as the increment. The development of Moreno and Cascade URA is expected to generate approximately \$3.2 million in county sales tax increment from the 0.75 percent county commitment over the 25-year period, which equates to an average of approximately \$128,200 per year, as shown below in **Table 15**. The present value of these revenues translates to a total of \$1.6 million, based on a discount rate of 6.0 percent.

The revenues that El Paso County will retain over this timeframe, include the 0.23 percent of sales tax in the Plan Area for Public Safety Critical Needs, which has a sunset date of January 1, 2029. If this sales tax were to be extended past the sunset of 2029, it would generate a total of \$982,500 over the 25-year period or an average of \$39,300 per year. If it is not extended past the sunset date, it will generate a total of \$44,000 through 2028. Additionally, El Paso County will receive 0.25 percent sales tax, which flows into the general fund. This is estimated to generate a total of \$1.1 million over the TIF period or an average of \$42,700 per year.

### City of Colorado Springs Sales Tax Increment

The future sales taxes due to new retail development is referred to as the increment. The development of Moreno and Cascade URA is expected to generate approximately \$6.4 million in city sales tax increment over the 25-year period, which equates to an average of approximately \$256,300 per year, as shown in **Table 16**. This is based on a commitment of the 1.50 percent sales tax to the URA. This revenue stream, when discounted at 6.0 percent, translates to a present value of \$3.1 million or an annual average of 124,400.

Revenues retained by the city over this timeframe include the 1.07 percent sales tax for three dedicated uses from sales activity within the Plan Area. The 0.10 percent TOPS will generate a total of approximately \$452,200 or an average of \$17,100 per year. The 0.40 percent sales tax for PSST will generate approximately \$1.7 million or an average of \$68,300 per year. The 0.57 percent sales tax for 2C Road will generate approximately \$2.4 million or an average of \$97,400 per year. In addition, the city will retain 0.50 percent sales tax for the general fund. This is estimated to generate a total of \$2.1 million over the TIF period or an average of \$85,400 per year.

## Summary of County Impact

### Cost of Service and Infrastructure Costs

Development projects such as Moreno and Cascade URA will generate fiscal and economic impacts to El Paso County, with factors that are both positive and negative. Some uses, such as residential, will have more of an impact on County services and costs.

It is important to recognize that the cost of service and infrastructure costs vary depending on whether or not the development occurs within incorporated or unincorporated areas. The entire Plan Area is located within the City of Colorado Springs municipal boundaries. It is also noteworthy that many of the urban services required by the new development will be provided by the City of Colorado Springs such as police, fire, street maintenance, parks and recreation, and general administration such as planning, zoning, land use code enforcement, business licensing, etc.

There will be a modest additional service cost to the County associated with this future development within the City of Colorado Springs. According to El Paso County Finance Services Department, the cost for services for an incorporated area resident is \$342 annually. Moreno and Cascade URA is estimated to bring between 177 to 265 residents to Downtown Colorado Springs based on each development scenario. This is an estimated annual cost of \$60,500 to \$90,600 for El Paso County. It is assumed this service cost will be balanced by additional revenue sources, such as the 25 percent of sales tax increment, use tax, fees for services, and intergovernmental transfers.

The County is expected to have no financial exposure to infrastructure costs or other capital improvements, at the time of construction or on an ongoing basis. Future infrastructure costs that are associated with development on parcels included in the Plan Area boundary are anticipated to be financed by the Developer initially, and by the Colorado Springs Urban Renewal Authority and the City of Colorado Springs in the future.

### Summary of the Net County Impact

Based on the analysis included in this report, EPS anticipates that the impact of the proposed residential development in the Moreno and Cascade Urban Renewal Plan on El Paso County will be minimal. The County will continue to receive the base amount of \$4,191 annually with biannual escalation. By 2051, the end of the 25-year tax increment period, the County's portion of property tax is expected to increase to between \$125,500 in Scenario 1 to \$130,700 in Scenario 2 as a result of the new development (**Table 9**). The County can expect to receive this approximate level of revenue upon the sunset of the TIF in 2050.

All of the sales tax generated in the Plan Area will be net new. The County will collect 0.25 percent of sales tax for the general fund and 0.23 percent for Public Safety Critical Needs in the Plan Area during the 25-year period. Following the TIF timeframe, the County will collect the full 1.23 percent of sales tax. The taxable sales in 2050 are estimated at \$22.7 million, which would generate approximately \$278,700 annually in county sales tax revenue.

Based on previous experience evaluating county fiscal structures, EPS has an understanding of expenditures, revenues, and alternative revenue sources that new development generates as well as the corresponding costs of service attributed to various development types. Moreover, because the future development will be located within the City of Colorado Springs, and the City is responsible for a majority of services, including ones with typically higher costs to local government (i.e., police, fire, public works, water), the County's exposure in terms of its financial outlay will be modest and is expected to be mitigated with the 0.25 percent of sales tax increment and other revenue sources.
