

Discussion Item #1: Emerging Scenarios

Background:

Planners, scientists and a multi-agency fire management team have completed extensive field work, 89 acres of fire mitigation and ongoing environmental and cultural resources surveys of Fishers Canyon Open Space. With the melting of winter snow and ice, another round of environmental, cultural and traffic impact surveys is slated to take place through May 2024.

To ensure the public is informed about existing conditions to date, the planning team has prepared two emerging scenarios for review and discussion. In tandem with public engagement findings from 1,122 community members and youth to date, the field studies have identified two zones on the property.

Scenarios & Site Zones

The **eastern zone** closest to Wellfleet St. has lower slopes, recent fire mitigation efforts, gargantuan boulders, and vistas of the City. Planners have identified potential alignment options for a regional trail connection for Chamberlain Trail and opportunities to meet the community's highest priority desires for passive recreation access to "wilderness" experience trails. Open space parking (with setbacks and buffers from existing neighborhoods) and low-barrier, easier trails are located in this zone. These opportunities are conceptually presented in **both scenarios**.

The **western zone** is in the upper, steeper portions of the site with rock outcroppings, Fishers Canyon proper, soaring views of the City and at the ridge, the western slopes. Physically challenging trails, connections to Cheyenne Mountain State Park and access to rock climbing are opportunities in this zone and represented in **Scenario 2**. In consultation with the U.S. Fish and Wildlife Service, this area has also been identified as potential habitat for the threatened Mexican Spotted Owl. Protocol-level surveys are scheduled for this spring and confirmation in 2025. Depending on the outcome of the spring 2024 field surveys, portions of the second zone may have limited access to protect critical habitat. In June 2024, the planning team will host a second public meeting to reflect findings from additional site surveys and impact to recreational access to the property.

Small Group Response Form

Emerging Scenarios

Discussion Questions:

How might we balance providing the community with the varied types of trails and passive recreation experiences that range from desires for single-use trails, regional connections and from some perspectives, limited access to Fishers Canyon Open Space? Reflecting on the existing conditions and emerging scenarios, what recreation access opportunities or concerns does the group have?

1. We particularly like these things about emerging **Scenario 1:**

minimal trails
minimal developed
limited use

Reasons: less impact on surrounding neighborhood
preservation of habitat

2. What suggestions does your group have to improve **Scenario 1?**

Eliminate the single point of access in the Spires neighborhood.

1. We particularly like these things about emerging **Scenario 2**:

Do not approve.

Reasons: Too much development w/out
preservation of natural habitat.
Has a greater impact on the surrounding
neighborhood.

2. What suggestions does your group have to improve **Scenario 2**?

we approve a modified scenario 1.

3. Our group preference was in support of (circle answer):

Scenario 1

Scenario 2

Reasons: & note reasons above.

make the open space like Aiken
canyon - biking, hiking.

Discussion Item #2: Access and Parking Trade Offs**Background:**

The public input to date strongly supports providing recreation access to open space as a top value. Members of the neighboring community and other open space users have shared concerns about overcrowding in open space. Also, for Fishers Canyon, there is only one public right-of-way access available off of Wellfleet Street in an established residential community.

Regulating the amount of parking is perceived as a potential way to manage visitation to an open space. On one hand, the fewer parking spaces, the fewer people can park near trailheads. On the other hand, community members living near other City open spaces and City staff have shared that if there is not enough parking, undesired parking and crowding of surrounding streets can occur.

National and Front Range land managers underline the best practice of using adaptive parking strategies that allow the amount of parking to expand as needed and as the land and open space development regulations allow.

Discussion Questions:

1. How might we balance providing access to Fishers Canyon Open Space with concerns of overcrowding?
2. Is more or less parking a small or big concern from your group's perspective?
3. What are possible solutions to this issue?

Priority Mapping Instructions

Capture your group's discussion themes and rank them on the priority map using sticky notes. Is the group in alignment or is there respectful disagreement? Capture all sides of the discussion on the priority map using the sticky notes.

Close the
park in
event of
extreme
fire danger

Fishers Ca

to preserve
neighborhood egress

We are concerned
about increased
traffic in our
neighborhood,
especially on
Broadmoor Bluff
which is dangerously
crowded + not monitored *

Discussion Item #2: Access and Parking Trade Offs

Background:

The public input to date strongly supports providing recreation access to open space as a top value. Members of the neighboring community and other open space users have shared concerns about overcrowding in open space. Also, for Fishers Canyon, there is only one public right-of-way access available off of Wellfleet Street in an established residential community.

Regulating the amount of parking is perceived as a potential way to manage visitation to an open space. On one hand, the fewer parking spaces, the fewer people can park near trailheads. On the other hand, community members living near other City open spaces and City staff have shared that if there is not enough parking, undesired parking and crowding of surrounding streets can occur.

National and Front Range land managers underline the best practice of using adaptive parking strategies that allow the amount of parking to expand as needed and as the land and open space development regulations allow.

Discussion Questions:

1. How might we balance providing access to Fishers Canyon Open Space with concerns of overcrowding? ✓
2. Is more or less parking a small or big concern from your group's perspective?
3. What are possible solutions to this issue?

Priority Mapping Instructions

Capture your group's discussion themes and rank them on the priority map using sticky notes. Is the group in alignment or is there respectful disagreement?

Capture all sides of the discussion on the priority map using the sticky notes.

1. overcrowding of open space would be solved by having no open space access in Spires neighborhood
Recommend: Access to Chamberlain trail from CMSP or access pts. further north.
2. Parking in the Spires Neighborhood is strongly opposed.
3. Same as #1.
4. Hikers, ~~Bikers~~, Bikers, no horses or MTB.

Small Group Response Form

Emerging Scenarios

Discussion Questions:

How might we balance providing the community with the varied types of trails and passive recreation experiences that range from desires for single-use trails, regional connections and from some perspectives, limited access to Fishers Canyon Open Space? Reflecting on the existing conditions and emerging scenarios, what recreation access opportunities or concerns does the group have?

1. We particularly like these things about emerging **Scenario 1**:

+ Limited use, which will mitigate the probable traffic & parking problem

Reasons: - too much traffic will cause risks ^{and issues} for
spires, property owners for
parking violations, fire & emergency vehicle
access

- impacts on property values for homes near Wellfleet

2. What suggestions does your group have to improve **Scenario 1**?

- Build enough parking that will enable a reasonable number of visitors to be in the Canyon without forcing visitors

to park on the spires, HOA roads (Wellfleet, Irvington, Ellsworth)

- Consider a Shuttle Bus option such as what is done for the Zoo.

1. We particularly like these things about emerging **Scenario 2:**

Reasons:

2. What suggestions does your group have to improve **Scenario 2?**

3. Our group preference was in support of (circle answer):

Scenario 1

Scenario 2

Reasons: *limited use means*

less impact on adjoining home owner property

Small Group Response Form

Emerging Scenarios

Discussion Questions:

How might we balance providing the community with the varied types of trails and passive recreation experiences that range from desires for single-use trails, regional connections and from some perspectives, limited access to Fishers Canyon Open Space? Reflecting on the existing conditions and emerging scenarios, what recreation access opportunities or concerns does the group have?

1. We particularly like these things about emerging **Scenario 1:**

~~Not enough bike trails~~ See Scenario 2

Reasons: like having gates locked at night

2. What suggestions does your group have to improve **Scenario 1?** or Scenario 2 -
 Parking permits for local residents on Wellfleet,
 Irvington Ct., Ellsworth, & more? To be managed
 like Ruxton Avenue for Manitou Incline.

Enforce ^{posted} no-parking signs along proximal
 residential streets.

Reservations with attendants, like how
 Manitou Incline is managed.

1. We particularly like these things about emerging **Scenario 2**:

More bike trails than Scenario #1

More hiking trails than Scenario #1

Reasons:

like having gates locked at night
(see Scenario #1)

2. What suggestions does your group have to improve **Scenario 2**?

Keep hiking trails and biking trails separate.
Also one-way directional trails for bikes.

Leashed Dogs on hiking trails only.

3. Our group preference was in support of (circle answer):

Scenario 1

Scenario 2

Reasons:

More variety of terrain and more opportunities for recreation.

Small Group Response Form

Emerging Scenarios

Discussion Questions:

How might we balance providing the community with the varied types of trails and passive recreation experiences that range from desires for single-use trails, regional connections and from some perspectives, limited access to Fishers Canyon Open Space? Reflecting on the existing conditions and emerging scenarios, what recreation access opportunities or concerns does the group have?

1. We particularly like these things about emerging **Scenario 1:**

*Safer, connecting chamberline trail, fire safety
less expensive*

Reasons:

2. What suggestions does your group have to improve **Scenario 1?**

More trails possibilities

1. We particularly like these things about emerging **Scenario 2:**

More trail possibilities, West side use
directional trails, dedicated Hiking/biking
trails

Reasons:

2. What suggestions does your group have to improve **Scenario 2?**

Down hill Mountain Bike ~~ONLY~~!!! High tier
black & double black rated

3. Our group preference was in support of (circle answer):

Scenario 1

Scenario 2

Reasons: better use of land overall

Small Group Response Form

Emerging Scenarios

Discussion Questions:

How might we balance providing the community with the varied types of trails and passive recreation experiences that range from desires for single-use trails, regional connections and from some perspectives, limited access to Fishers Canyon Open Space? Reflecting on the existing conditions and emerging scenarios, what recreation access opportunities or concerns does the group have?

1. We particularly like these things about emerging **Scenario 1**:

- Doesn't venture into protected area. Habitat needs to be taken into account
- Easier to maintain trails
- Fewer trails, fewer people, less fire hazard

Reasons: less traffic expected
less impact on habitat

- make street parking by permit only for residents
- require quiet to respect nature
- push parking & trail heads further from houses

2. What suggestions does your group have to improve **Scenario 1**?

- leash only dog trails
- Restrict access during certain hours
- Fire evacuation process
- Go through Chimino property off parking
- Reservation ^(like the incline) - only with limitations of how many people can hike at a time
- No parking allowed on the street (except for those visiting residents)
- metered parking in the parking lot
- crowd control
- make trails further from the houses
- Buy Chimino property at end of Irvington Court & make that the parking and access

1. We particularly like these things about emerging **Scenario 2**:

- more trails
- challenging trails
- single use trails (hiking & biking separate)
- only 2 trails in protected area
- ~~no mountain bikes in~~

Reasons:

- shouldn't be contemplating trails until they have established if there are spotted owls

2. What suggestions does your group have to improve **Scenario 2**?

- directional trail (one way trails) ^{for biking only} except for steep trails
- leash only dog trails
- no mountain bikes in protected area
- see suggestions for Scenario 1 - they also apply to Scenario 2
- half scenario 1 & 2 (fewer trails for scenario 2, but keep higher elevation trails)
- push parking & trail heads further from houses

3. Our group preference was in support of (circle answer):

- move trails further from the houses - and parking too

Scenario 1

Scenario 2

Reasons:

#people

5 - scenario 1

2 - scenario 2

1 - neither - doesn't like it at all

mitigate risk of people hiking across drainage area dams & getting hurt

Small Group Response Form

Emerging Scenarios

Discussion Questions:

How might we balance providing the community with the varied types of trails and passive recreation experiences that range from desires for single-use trails, regional connections and from some perspectives, limited access to Fishers Canyon Open Space? Reflecting on the existing conditions and emerging scenarios, what recreation access opportunities or concerns does the group have?

1. We particularly like these things about emerging **Scenario 1:**

Less impact on land & neighborhood.

Reasons: Less traffic

2. What suggestions does your group have to improve **Scenario 1?**

Find another way to access. Too much traffic coming through residential areas.
NO HOSES!

1. We particularly like these things about emerging **Scenario 2**:

Brings more people - Do not want this!

Reasons:

2. What suggestions does your group have to improve **Scenario 2**?

Find another way to access the property.
Too much traffic coming through residential areas.
NO HORSES!

3. Our group preference was in support of (circle answer):

Scenario 1

Scenario 2

Reasons: Less impact on the area. Less traffic hopefully.

NO HORSES!

All camping should be prohibited! NO homeless encampments!

What about water contamination? (IE: Fentanyl)

Who is going to patrol the area?

Police do not respond when called about people crossing the gates after dark? Called twice - no response!

Small Group Response Form

Emerging Scenarios

Discussion Questions:

How might we balance providing the community with the varied types of trails and passive recreation experiences that range from desires for single-use trails, regional connections and from some perspectives, limited access to Fishers Canyon Open Space? Reflecting on the existing conditions and emerging scenarios, what recreation access opportunities or concerns does the group have?

1. We particularly like these things about emerging **Scenario 1**:

- low impact hiking
- dog walking w/ leashes
- closed parking area at night

Reasons:

2. What suggestions does your group have to improve **Scenario 1**?

- no mtn biking
 - no horses
-) not enough room

1. We particularly like these things about emerging **Scenario 2**:

• connects to Cheyenne Mt. St Park

Reasons:

2. What suggestions does your group have to improve **Scenario 2**?

no scenario 2

3. Our group preference was in support of (circle answer):

Scenario 1

Scenario 2

Reasons:

• more natural impact

Discussion Item #2: Access and Parking Trade Offs**Background:**

The public input to date strongly supports providing recreation access to open space as a top value. Members of the neighboring community and other open space users have shared concerns about overcrowding in open space. Also, for Fishers Canyon, there is only one public right-of-way access available off of Wellfleet Street in an established residential community.

Regulating the amount of parking is perceived as a potential way to manage visitation to an open space. On one hand, the fewer parking spaces, the fewer people can park near trailheads. On the other hand, community members living near other City open spaces and City staff have shared that if there is not enough parking, undesired parking and crowding of surrounding streets can occur.

National and Front Range land managers underline the best practice of using adaptive parking strategies that allow the amount of parking to expand as needed and as the land and open space development regulations allow.

Discussion Questions:

1. How might we balance providing access to Fishers Canyon Open Space with concerns of overcrowding? *Please move access point to CM State Park!*
2. Is more or less parking a small or big concern from your group's perspective? *BIG CONCERN — more traffic in residentially area.*
3. What are possible solutions to this issue?
Move access point from Wellfleet to CM State Park!

Priority Mapping Instructions

Capture your group's discussion themes and rank them on the priority map using sticky notes. Is the group in alignment or is there respectful disagreement?

Capture all sides of the discussion on the priority map using the sticky notes.

If ACCESS CAN'T go through BRC, it should not go through the Spires! Please find another access point!

This extra traffic, noise, etc will all affect our property values negatively!

Small Group Response Form

Emerging Scenarios

Discussion Questions:

How might we balance providing the community with the varied types of trails and passive recreation experiences that range from desires for single-use trails, regional connections and from some perspectives, limited access to Fishers Canyon Open Space? Reflecting on the existing conditions and emerging scenarios, what recreation access opportunities or concerns does the group have?

1. We particularly like these things about emerging **Scenario 1:**

Prefer Sc 1 because it is less developed.
A) Means smaller crowds, less traffic,
more sustainable.

START WITH PARK RANGERS. No for rangers, No

Reasons: development!

(Group feels strongly about this)
Make Cheyenne Mt St Park the trailhead. Negates
need for another asphalt/concrete parking lot.

2. What suggestions does your group have to improve **Scenario 1?**

- ① Use only natural materials - no asphalt, concrete, or plastic
- ② Do not open until park rangers are in place.
- ③ Favor environment over interest groups.
- Low impact use - no motorized vehicles or horses.

1. We particularly like these things about emerging **Scenario 2**:

Reasons:

2. What suggestions does your group have to improve **Scenario 2**?

3. Our group preference was in support of (circle answer):

Scenario 1

Scenario 2

Reasons: *No development - 4/6 folks, 2/6 - See 1*

4/6 Could the north loop be eliminated since it's near neighborhood?

Discussion Item #2: Access and Parking Trade Offs**Background:**

The public input to date strongly supports providing recreation access to open space as a top value. Members of the neighboring community and other open space users have shared concerns about overcrowding in open space. Also, for Fishers Canyon, there is only one public right-of-way access available off of Wellfleet Street in an established residential community. *

Regulating the amount of parking is perceived as a potential way to manage visitation to an open space. On one hand, the fewer parking spaces, the fewer people can park near trailheads. On the other hand, community members living near other City open spaces and City staff have shared that if there is not enough parking, undesired parking and crowding of surrounding streets can occur.

National and Front Range land managers underline the best practice of using adaptive parking strategies that allow the amount of parking to expand as needed and as the land and open space development regulations allow.

Discussion Questions:

1. How might we balance providing access to Fishers Canyon Open Space with concerns of overcrowding? *Reservation System / time based*
 2. Is more or less parking a small or big concern from your group's perspective? *Less parking*
 3. What are possible solutions to this issue? *Rerouting through off road. **
- * Install fencing for Broadwater & Spires*

Priority Mapping Instructions

Capture your group's discussion themes and rank them on the priority map using sticky notes. Is the group in alignment or is there respectful disagreement? Capture all sides of the discussion on the priority map using the sticky notes.

** Securitize park rangers to patrol*
** No public access thru neighborhood*

Small Group Response Form

Emerging Scenarios

Discussion Questions:

How might we balance providing the community with the varied types of trails and passive recreation experiences that range from desires for single-use trails, regional connections and from some perspectives, limited access to Fishers Canyon Open Space? Reflecting on the existing conditions and emerging scenarios, what recreation access opportunities or concerns does the group have?

1. We particularly like these things about emerging **Scenario 1**:

~~Scenario 1~~

- this would limit number of people and access issues
- connecting trails

Reasons:

2. What suggestions does your group have to improve **Scenario 1**?

- no horses (no horse trailer parking)
- create single use trails
- allow dogs
- Scenario 1 could cause people to hike off trail
- no playgrounds
- no picnic tables

1. We particularly like these things about emerging **Scenario 2**:

- single use trails
- more trails
- connecting trails, especially to state park

Reasons: - single use trails are safer for hikers and bikers

- more opportunities for people to enjoy the beautiful land

2. What suggestions does your group have to improve **Scenario 2**?

- no horses (no horse trailer parking)
- allow dogs (otherwise many people won't use it)
- no picnic tables
- no playgrounds

Cheyenne Mountain
State Park is already
with no dogs ?!

3. Our group preference was in support of (circle answer):

Scenario 1

Scenario 2

Reasons:

See above

we all agree that there should be hike-only trails with dogs

we would like to see the connectors to the state park

if bike trails, then bike-only trails.

Small Group Response Form

Emerging Scenarios

Discussion Questions:

How might we balance providing the community with the varied types of trails and passive recreation experiences that range from desires for single-use trails, regional connections and from some perspectives, limited access to Fishers Canyon Open Space? Reflecting on the existing conditions and emerging scenarios, what recreation access opportunities or concerns does the group have?

1. We particularly like these things about emerging **Scenario 1**:

- Small Scale
- pull for the neighborhood to enjoy
- Like the idea of starting small
- continued fire mitigation support
- Connection to Chamberlain Trail
- Potential to
- Raise property values

Reasons:

2. What suggestions does your group have to improve **Scenario 1**?

- ~~Let~~ Keep equestrian-free
- Ensure adequate parking so cars stay off streets
- ~~Water~~
- Love building the access - starting small & then building into Scenario 2
- Keep parking gated like in Stratton open space
- Scale of parking to support increased usage

1. We particularly like these things about emerging **Scenario 2**:

- single-use trails as area gets developed
- building more challenging terrain
- ~~as~~ similar points w/ scenario 1

Reasons:

2. What suggestions does your group have to improve **Scenario 2**?

- Same as scenario 1
- progress into Scenario 2 → don't make this original effort

3. Our group preference was in support of (circle answer):

Scenario 1

Scenario 2

Reasons: Based on use, traffic etc and then phase into Scenario 2

Small Group Response Form

Emerging Scenarios

Discussion Questions:

How might we balance providing the community with the varied types of trails and passive recreation experiences that range from desires for single-use trails, regional connections and from some perspectives, limited access to Fishers Canyon Open Space? Reflecting on the existing conditions and emerging scenarios, what recreation access opportunities or concerns does the group have?

1. We particularly like these things about emerging **Scenario 1:**

connectivity & Chamberlain in other areas

Reasons:

2. What suggestions does your group have to improve **Scenario 1?**

devoted downhill bike trail for safety + fun
trail layout critical

gated entrance - with open + close hours

1. We particularly like these things about emerging **Scenario 2**:

Reasons:

2. What suggestions does your group have to improve **Scenario 2**?

3. Our group preference was in support of (circle answer):

Scenario 1

Scenario 2

Reasons:

Small Group Response Form

Emerging Scenarios

Discussion Questions:

How might we balance providing the community with the varied types of trails and passive recreation experiences that range from desires for single-use trails, regional connections and from some perspectives, limited access to Fishers Canyon Open Space? Reflecting on the existing conditions and emerging scenarios, what recreation access opportunities or concerns does the group have?

1. We particularly like these things about emerging **Scenario 1**:

maintains wilderness spirit less trails

2. What suggestions does your group have to improve **Scenario 2**?

Reasons: *WILL REQUIRE SMALLER PARKING AREA
AND RESULTING REDUCED TRAFFIC, NOISE,
ETC. THIS AN OPEN SPACE, NOT A PARK.*

2. What suggestions does your group have to improve **Scenario 1**?

*MOVE PARKING LOT TO STAR RANCH RD because existing
roads are very narrow! 1*

*ACCESS ALONG IRVINGTON CT & WELFLEET IS
VERY LIMITED DUE TO LACK OF SIDEWALKS,
NARROW STREET DESIGN AND EXISTING
RESIDENT PARKING.*

1. We particularly like these things about emerging **Scenario 2**:

more trails

*→ ability for trails to have remoteness
and connect with nature*

Reasons:

2. What suggestions does your group have to improve **Scenario 2**?

3. Our group preference was in support of (circle answer):

Scenario 1

Scenario 2

Neither!

Reasons:

prefer open wilderness space

Small Group Response Form

Emerging Scenarios

Discussion Questions:

How might we balance providing the community with the varied types of trails and passive recreation experiences that range from desires for single-use trails, regional connections and from some perspectives, limited access to Fishers Canyon Open Space? Reflecting on the existing conditions and emerging scenarios, what recreation access opportunities or concerns does the group have?

1. We particularly like these things about emerging **Scenario 1**:

- If one trail make a loop - ^{not all agree} one-way access - what about compliance?
- We like a low barrier accessible trail - consensus
- Connect to Chamberlain Trail

Reasons:

2. What suggestions does your group have to improve **Scenario 1**?

- Connect also to the State Park
- Limited access - increase

Small Group Response Form

Emerging Scenarios

Discussion Questions:

How might we balance providing the community with the varied types of trails and passive recreation experiences that range from desires for single-use trails, regional connections and from some perspectives, limited access to Fishers Canyon Open Space? Reflecting on the existing conditions and emerging scenarios, what recreation access opportunities or concerns does the group have?

1. We particularly like these things about emerging **Scenario 1**:

Connection for Chamberlain - yet better through state park
Nice neighborhood walk in the woods

Reasons:

2. What suggestions does your group have to improve **Scenario 1**?

Are there seasonal solutions to creating trails
higher
Leashed Dogs should be allowed

1. We particularly like these things about emerging **Scenario 2**:

Like single use trails as long as it is enough
for hikers and bikers

Like the access to Cheyenne Mtn State Park and Top
of Mountain

Reasons: Climbing Access if you have trails to the
appropriate cliffs to the south

2. What suggestions does your group have to improve **Scenario 2**?

need small trail access to rocks good for climbing

3. Our group preference was in support of (circle answer):

Scenario 1

Scenario 2

Reasons:

More access and opportunities

Small Group Response Form

Emerging Scenarios

Discussion Questions:

How might we balance providing the community with the varied types of trails and passive recreation experiences that range from desires for single-use trails, regional connections and from some perspectives, limited access to Fishers Canyon Open Space? Reflecting on the existing conditions and emerging scenarios, what recreation access opportunities or concerns does the group have?

1. We particularly like these things about emerging **Scenario 1**:

don't know why the node is more north :
#1 + more central : #2
not much to like - less busy
parking

Reasons:

2. What suggestions does your group have to improve **Scenario 1**?

be sure there's enough parking so people
don't park on neighborhood streets

doesn't have a wildlife corridor, even
w/ the limited dev't.

1. We particularly like these things about emerging **Scenario 2**:

access to Forest Service & MacNeil trail
access to CMSP
single use

Reasons:

like connections, like the trails

2. What suggestions does your group have to improve **Scenario 2**?

make single-use trails resource based, not single use
just for the sake of single use. esp hiking only. make it
hiking-only only if the terrain is not bikeable.
parallel trails seems excessive, but does provide an option
would be nice to connect to Dixon system
single-use trails limits use or proliferates trails

3. Our group preference was in support of (circle answer):

Scenario 1

Scenario 2

Reasons: Scenario 1 too restrictive

like Scenario 2 connection to CMSP &
MacNeil

Small Group Response Form

Emerging Scenarios

Discussion Questions:

How might we balance providing the community with the varied types of trails and passive recreation experiences that range from desires for single-use trails, regional connections and from some perspectives, limited access to Fishers Canyon Open Space? Reflecting on the existing conditions and emerging scenarios, what recreation access opportunities or concerns does the group have?

1. We particularly like these things about emerging **Scenario 1:**

- Quiet Neighborhood
- Greater Conservation
- ~~Greater solitude~~
- ~~Bouldering / climbing~~
- financially viable

Reasons: We value the solitude
" sustainability / ecology / conservation

2. What suggestions does your group have to improve **Scenario 1?**

- Bouldering / climbing
- Avoid picnic areas
- occasional benches would be great
- avoid equine access

1. We particularly like these things about emerging **Scenario 2**:

- Recreational

· Hiking Only

- family accessible/sized right/small

· MTB Only

· Climbing/Bouldering/South Incline up face

Reasons: We value maximizing recreational opportunities within the growing region. Variability of recreation opportunities

2. What suggestions does your group have to improve **Scenario 2**?

- "South" Incline opportunity up steep face

- offering a ~~mix~~ unique mix of hiking/climbing

- no horse access

- no picnic tables to keep solitude

- but supportive of benches

- no restrooms

3. Our group preference was in support of (circle answer):

Scenario 1

Scenario 2

Reasons: Only if it is determined that the Mexican Spotted Owl is not impacted

2 votes for scenario #1 / 4 votes for scenario #2

Small Group Response Form

Emerging Scenarios

Discussion Questions:

How might we balance providing the community with the varied types of trails and passive recreation experiences that range from desires for single-use trails, regional connections and from some perspectives, limited access to Fishers Canyon Open Space? Reflecting on the existing conditions and emerging scenarios, what recreation access opportunities or concerns does the group have?

1. We particularly like these things about emerging **Scenario 1:**

- The Fire mitigation that has already taken place
- have the open space in the area
- would prefer Hikers vs any other use

Reasons:

2. Concerns What suggestions does your group have to improve **Scenario 1?** + Scenario 2

- Homeowner #1 would like an attractive, see-through iron fence to border the houses along the proposed trail to create a ^{visible} buffer (storeback St)
- Parking on wellfleet, concern - need somewhere else
- Fire due to added use
- Traffic impact Ellsworth/Botter
- Environmental impact
- ~~road~~ Hours enforcement
- Put trails up the mountain, away from the houses
- Gate
- Put the Parking way back

Small Group Response Form

Emerging Scenarios

Discussion Questions:

How might we balance providing the community with the varied types of trails and passive recreation experiences that range from desires for single-use trails, regional connections and from some perspectives, limited access to Fishers Canyon Open Space? Reflecting on the existing conditions and emerging scenarios, what recreation access opportunities or concerns does the group have?

1. We particularly like these things about emerging **Scenario 1:**

Improve:
 due to limited space - • limited parking / • limited use
 • require permit entry &/or reservations
 * we like that it feels like a neighborhood park
 Reasons: • some sort of "policing" presence
 • no picnic tables

2. What suggestions does your group have to improve **Scenario 1?**

In both scenarios no one is happy with the location of the parking lot

1. We particularly like these things about emerging **Scenario 2**:

** like: More options for everyone*

Reasons:

2. What suggestions does your group have to improve **Scenario 2**?

policing/maintenance needs to include ensuring homeless don't camp there, trash is cleaned up, etc.

3. Our group preference was in support of (circle answer):

Scenario 1

Scenario 2

- offers more options

Reasons:

**Discussion Item #2: Access and Parking Trade Offs****Background:**

The public input to date strongly supports providing recreation access to open space as a top value. Members of the neighboring community and other open space users have shared concerns about overcrowding in open space. Also, for Fishers Canyon, there is only one public right-of-way access available off of Wellfleet Street in an established residential community.

Regulating the amount of parking is perceived as a potential way to manage visitation to an open space. On one hand, the fewer parking spaces, the fewer people can park near trailheads. On the other hand, community members living near other City open spaces and City staff have shared that if there is not enough parking, undesired parking and crowding of surrounding streets can occur.

National and Front Range land managers underline the best practice of using adaptive parking strategies that allow the amount of parking to expand as needed and as the land and open space development regulations allow.

Discussion Questions:

1. How might we balance providing access to Fishers Canyon Open Space with concerns of overcrowding?
2. Is more or less parking a small or big concern from your group's perspective?
3. What are possible solutions to this issue?

Priority Mapping Instructions

Capture your group's discussion themes and rank them on the priority map using sticky notes. Is the group in alignment or is there respectful disagreement?

Capture all sides of the discussion on the priority map using the sticky notes.

Parking egress is a big concern. Particularly when it snows. (I live there)

Relocate the parking lots - to someplace with better egress.

No horse trailers at the parking lot.

Look at a Parking lot off of Stoneback Lane or off the road near Norad Rd.

Small Group Response Form

Emerging Scenarios

Discussion Questions:

How might we balance providing the community with the varied types of trails and passive recreation experiences that range from desires for single-use trails, regional connections and from some perspectives, limited access to Fishers Canyon Open Space? Reflecting on the existing conditions and emerging scenarios, what recreation access opportunities or concerns does the group have?

1. We particularly like these things about emerging **Scenario 1**:

Likes the phased development.

We would like to see ~~Scenario~~ Scenario 1 as Phase 1 and Scenario 2 as Phase 2.

Reasons:

Have good signage & good trail maps.

2. What suggestions does your group have to improve **Scenario 1**?

Do not have horses on either scenario.
Right size the parking.

Are there bathrooms at the trail head that are cleaned regularly and accessible.

There are 26 miles of horse trails at Cheyenne Mountain Park. We do not need horse trails at Fisher Canyon.

The map of the open space is not accurate.

Identify the streets on the maps.

Make the ^{compass} orientation the same on the maps.

1. We particularly like these things about emerging **Scenario 2**:

Part of the group liked the expanded trail system.

We all would like to see this as
Reasons: phase 2.

Some are concerned about enforcement of dogs on leash.

2. What suggestions does your group have to improve **Scenario 2**?

Rightsize the parking.

Include a regularly cleaned bathroom at the trail head.

3. Our group preference was in support of (circle answer):

Scenario 1

Scenario 2

Reasons: Scenario 1 as Phase 1

Scenario 2 as Phase 2.

I am very concerned about egress from the parking lots.

1. We particularly like these things about emerging **Scenario 2**:

no preference between Scenario 1 and 2. Hiking only is preferred

Reasons:

2. What suggestions does your group have to improve **Scenario 2**?

Same as scenario 1

3. Our group preference was in support of (circle answer):

Scenario 1

Scenario 2

Reasons: *less people if less trails*

Small Group Response Form

Emerging Scenarios

Discussion Questions:

How might we balance providing the community with the varied types of trails and passive recreation experiences that range from desires for single-use trails, regional connections and from some perspectives, limited access to Fishers Canyon Open Space? Reflecting on the existing conditions and emerging scenarios, what recreation access opportunities or concerns does the group have?

1. We particularly like these things about emerging **Scenario 1**:

like environmental protection
Best for wildlife

Reasons:

2. What suggestions does your group have to improve **Scenario 1**?

Get data about owl to assist process

1. We particularly like these things about emerging **Scenario 2**:

like single use options

would like them to be equal (hiking
biking)

Reasons:

maybe alternate days

2. What suggestions does your group have to improve **Scenario 2**?

maximize single use hiking

minimize mtn bike trails

connecting w/ USFS + w/ CMSP

Complete Charlotte trail

limited night access

3. Our group preference was in support of (circle answer):

Scenario 1

Scenario 2

Reasons:

more recreation options
still maintains wild experience

Open Space Master Plan

TABLE # 1

REFERENCE MAP

ACCESS AND PARKING TRADE OFF PRIORITY MAP

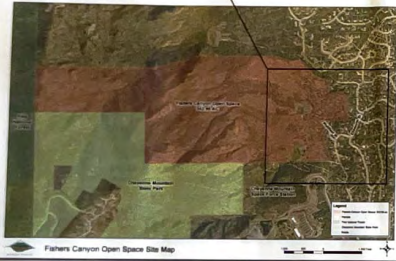

P = Potential Parking Zone

POTENTIAL PARKING ZONE

The zoomed-in image above shows the potential areas for locating parking enhancements at Fishers Canyon Open Space.

For Fishers Canyon, there is only one public right-of-way access available off of Wellfleet Street in an established residential community.

The City's open spaces are open only for day-use. Future access to Fishers Canyon will be controlled by a trailhead parking gate (see example photo above from Cottonwood Creek Park).

		MORE PARKING	
SMALL CONCERN	Example: I'm neutral, but would slightly prefer more parking spaces so I can visit the site.	Example: Please limit parking, a larger parking area would detract from the natural and undeveloped quality of this landscape.	
	Example: Please provide enough parking! I don't want people parking on my street. Having less parking is a big concern to me!	Location of parking lots Permit parking on Wellfleet + Irvington 100 parking on Wellfleet and Irvington	
		LESS PARKING	

DISCUSSION & POSSIBLE SOLUTIONS

How might we balance providing access to Fishers Canyon Open Space with concerns of overcrowding? Is more or less parking a small or big concern from your group's perspective? Please write any possible solutions your group discussed below:

Limit parking only in surrounding neighborhoods to deter overflow parking
 provide shuttle and provide transportation - buses, train, etc.
 reservation system - like the online
 build a different access that impacts neighborhoods less...

SMALL CONCERN

ACCESS AND PARKING TRADE OFF PRIORITY MAP

MORE PARKING

Look at parking off of Stonebeck Lane.

Security for cars in the parking lot.

Safe

Example:

Please limit parking, a larger parking area would detract from the natural and undeveloped quality of this landscape.

Have a camera(s) in the parking lots to help avoid car break-ins

Example:

I'm neutral, but would slightly prefer more parking spaces so I can visit the site.

M, Mostly of parking, but not home trailers and campers

Flexible/expandable parking would be ideal.

Design Adequate parking to handle the amount of access from the beginning to decrease neighborhood congestion

BIG CONCERN

Example:

Please provide enough parking! I don't want people parking on my street. Having less parking is a big concern to me!

LESS PARKING

DISCUSSION & POSSIBLE SOLUTIONS

How might we balance providing access to Fishers Canyon Open Space with concerns of overcrowding? Is more or less parking a small or big concern from your group's perspective? Please write any possible solutions your group discussed below:

Most of discussion around other parking lot access from other streets (beside Wellfleet St, Stonebeck or Norad)

DISCUSSION & POSSIBLE SOLUTIONS

How might we balance providing access to Fishers Canyon Open Space with concerns of overcrowding? Is more or less parking a small or big concern from your group's perspective? Please write any possible solutions your group discussed below:

Only allow access to Fishers Canyon open space via the Chamberlain trail. NO access via the Spivia Neighborhood!

MORE PARKING

Example:

Please note parking a larger parking area would detract from the natural and undeveloped quality of the landscape.

Example:

I'm neutral, but would slightly prefer more parking spaces so I can visit the site.

SMALL CONCERN

BIG CONCERN

LESS PARKING

Coming here tonight to visit the only access point was decided before the meeting. We decided we couldn't go for any other reason. We're excited!

DON'T ALLOW ANY ACCESS TO WELLFLEET! THANK YOU TO THE ZOO + THE STATE PARK FOR ACCESS.

Concerned about increased traffic on Ellsworth.

Limit to hike only.

Access to campsite to Hedges to access parking. No more on!

Hiking Trails only! No mountain Bikes or horses!

Very noisy from State Park or Zoo.

Concerned for the evacuation route point nearby!

Don't need double security not in wellfleet neighborhood.

Access to STATE PARKS or the Zoo. No front hood.

Keep this area wild! minimal development. No parking lot.

More Access point to State Park or Zoo. NO ACCESS FROM WELLFLEET.

Access to Wellfleet Street is absolutely unacceptable.

Already Ade parking at Otisville Park or at other area.

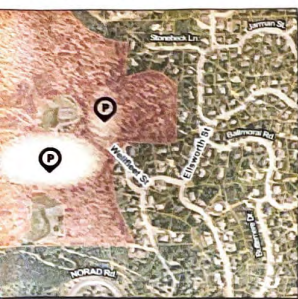

people parking on street. Having less parking is a big concern.

DISCUSSION & POSSIBLE SOLUTIONS

at we balance providing access to Fishers Canyon Open Space with
of overcrowding? Is more or less parking a small or big concern from your
perspective? Please write any possible solutions your group discussed

MORE PARKING

- NO TRAINERS
- NO RVs
- NO pull behinds

parking should
be limited and
the parking lot
should be landscaped

ABSOLUTELY
DO NOT
WANT AN
ACCESS POINT
OFF OF WIRELESS
!!!

Example:

Please limit parking, a larger parking area would detract from the natural and undeveloped quality of this landscape.

ACQUIRE A
DIFFERENT
ACCESS POINT
!!!

Parking:
as little as
possible!

EMERGENCY ACCESS

SMALL CONCERN

CONCERN

ERN

Moderate Parking

- not too much
- not too little
- gated parking away from neighborhood

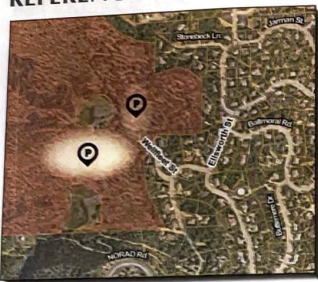

Please insulate the neighborhood from parking

Example:

Please provide enough parking if I don't want people parking on my street. Having less parking is a big concern to me!

LESS PARKING

P = Potential Parking Zone

POTENTIAL PARKING ZONE

The zoomed-in image above shows the potential areas for locating parking enhancements at Fishers Canyon Open Space.

For Fishers Canyon, there is only one public right-of-way access available off of Westfield Street in an established residential community.

The City's open spaces are open only for day-use. Future access to Fishers Canyon will be controlled by a trailhead parking gate (see example photo above from Cottonwood Creek Park).

DISCUSSION & POSSIBLE SOLUTIONS

How might we balance providing access to Fishers Canyon Open Space with concerns of overcrowding? Is more or less parking a small or big concern from your group's perspective? Please write any possible solutions your group discussed below:

File #1

MORE PARKING

Example:

Please limit parking, a larger parking area would detract from the natural and undeveloped quality of this landscape.

More the only access to the same view of the Zoo!
NO PARKING at all

Keep it wild!!
Protect wildlife

Access to the Choptank Mountain State Park via trails for all users to help in parking

Example:

I'm neutral, but would slightly prefer more parking spaces so I can visit the site.

Less parking = less usage
=> less impact on the land

Need varied Access Points

not 1 way in via trailhead

Parking needs to be large enough to handle a number of

Shared usage by allowing bikes on certain days.
Free Tahoe Rim Trail
Tahoe Meadows in Alameda

Limit horse access and parking on the CRP

USE SHUTTLE BUS
6:00 - 6:30
50
TRAFFIC PROBLEMS - 1/2 mile detour

Bus in?

Different days for horses for bikers for hikers

Fishers Canyon is quite small and won't support too heavy usage. Try to limit # of people.

lower wage

Example:

Please provide enough parking! I don't want people parking on my street. Having less parking is a big concern to me!

Lined area for writing discussion and possible solutions.

ACCESS AND PARKING TRADE OFF PRIORITY MAP

	MORE PARKING	BIG CONCERN
SMALL CONCERN	Example: I'm neutral, but would slightly prefer more parking space so I can visit the site. Please move parking further into the park a way from houses Please limit parking, a larger parking area would detract from the natural and undeveloped quality of this landscape. Example: Please limit parking, a larger parking area would detract from the natural and undeveloped quality of this landscape.	Those that live on the access street do not want this to be an entrance to the open space. We live on Washington St and are concerned about the amount of traffic. Please limit the access to the park. We're doing our best to manage the area. Limit parking - limit parking use parking to limit to limit number of users rough want to limit parking to me
LESS PARKING	please limit # people at a time accessing the park (like the incline) Huge concern of large crowds We don't want people parking on our street Huge concern

Example:

Please limit parking, a larger parking area would detract from the natural and undeveloped quality of this landscape.

Example

I'm neutral, but would slightly prefer more parking space so I can visit the site.

Very concerned about a large parking lot bringing too much traffic to the neighborhood. Reservation system to limit access. But also concerned about parking in neighborhood.

we can use that this is a dilemma

You need the "right" amount of parking - too little and the neighbors will suffer, too much and people will congregate. I know this is obvious.

There should be enough space for people who want to park on roads.

Reservations
Required

DISCUSSION & POSSIBLE SOLUTIONS

How might we balance providing access to Fishers Canyon Open Space with concerns of overcrowding? Is more or less parking a small or big concern from your group's perspective? Please write any possible solutions your group discussed below:

PUTS A STOP TO THE TALK - TALKING FROM BUSINESS
THE REASON TO LIMITATE TALKING IS -
WITH A LIMITED TALK -

NOTE - THE REASON WHY SO MANY COMPANIES GO THROUGH RESIDENTIAL WITH ALL
THEIR BUSINESS IS - (YOUNG) CITY CAN DO BETTER -

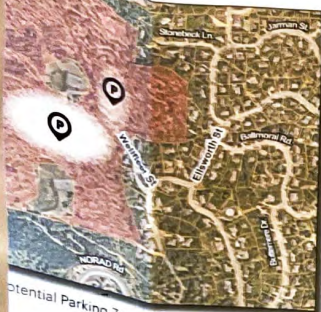

FISHERS CANYON

Open Space Master Plan

TABLE # 19

ACCESS AND PARKING TRADE OFF PRIORITY MAP

REFERENCE MAP

PARKING ZONE

Map in image above shows potential areas for parking enhancements in Fishers Canyon Open Space.

In Fishers Canyon, there is a lot of potential for parking off of Wellfleet established community.

When spaces are in place, future use of Fishers Canyon will be a trailhead for example from Cottonwood

DISCUSSION & POSSIBLE SOLUTIONS

We balance providing access to Fishers Canyon Open Space with overcrowding? Is more or less parking a small or big concern from your perspective? Please write any possible solutions your group discussed

SMALL CONCERN

MORE PARKING

DOWN TO DISK USAGE IS A MUST!

Example:

Please limit parking, a larger parking area would detract from the natural and undeveloped quality of this landscape.

Example:

I'm neutral, but would slightly prefer more parking spaces so I can visit the site.

Please provide enough parking. And gated

(but not so much that tails are crowded)

Should have been in this block

BIG CONCERN

Less parking will allow a continued "wilderness" feel to this open space.

Less parking will create less vehicle & passenger noise - less shouting, door slamming, etc. This

The city needs to maintain speed on the narrow streets by posing "NO PARK STREET PARKING" signs & enforce it. Lack of adequate street access was why the "slabs" to home development was turned down by the planning dept.

• Mike parking with estimated capacity - more parking is better

Example:

Please provide enough parking! I don't want people parking on my street. Having less parking is a big concern to me!

LESS PARKING

FISHERS CANYON

Open Space Master Plan

TABLE # 20

*Black Forest Regional Park
example of parking
nested in trees*

ACCESS AND PARKING TRADE OFF PRIORITY MAP

REFERENCE MAP

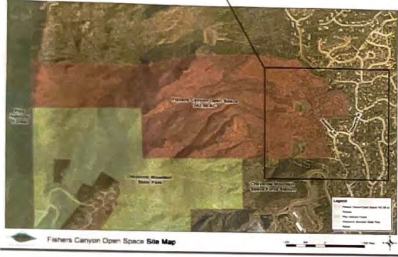

P = Potential Parking Zone

POTENTIAL PARKING ZONE

The zoomed in image above shows the potential areas for locating parking enhancements at Fishers Canyon Open Space.

For Fishers Canyon, there is only one public right-of-way access available off of Wellfleet Street in an established residential community.

The City's open spaces are open only for day-use. Future access to Fishers Canyon will be controlled by a trailhead parking gate (see example photo above from Cottonwood Creek Park).

MORE PARKING

*Definitely need adequate parking to avoid conflicts
- red surface
- not horse
- enough space
- stock*

Example:
Please limit parking in larger parking area adjacent from the main undeveloped quality of landscape.

*Try to have parking lot feel more part of nature
↳ Black Forest Regional Park as example*

Example:
I'm neutral, but would slightly prefer more parking spaces so I can visit the site.

SMALL CONCERN

BIG CONCERN

*Less parking is a concern.
Please keep street parking to a minimum*

Example:

Please provide enough parking! I don't want people parking on my street. Having less parking is a big concern to me!

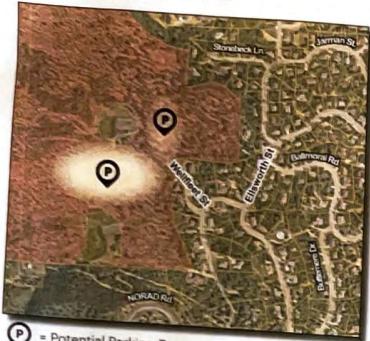

LESS PARKING

DISCUSSION & POSSIBLE SOLUTIONS

How might we balance providing access to Fishers Canyon Open Space with concerns of overcrowding? Is more or less parking a small or big concern from your group's perspective? Please write any possible solutions your group discussed below:

Our group preferred MORE parking to reduce local impact of neighborhood friction. We really liked that the lot will be locked at night.

REFERENCE MAP

P = Potential Parking Zone

POTENTIAL PARKING ZONE

- The zoomed-in image above shows the potential areas for locating parking enhancements at Fishers Canyon Open Space.
- For Fishers Canyon, there is only one public right-of-way access available off of Wellfleet Street in an established residential community.
- The City's open spaces are open only for day-use. Future access to Fishers Canyon will be controlled by a trailhead parking gate (see example photo above from Cottonwood Creek Park).

DISCUSSION & POSSIBLE SOLUTIONS

How might we balance providing access to Fishers Canyon Open Space with concerns of overcrowding? Is more or less parking a small or big concern from your group's perspective? Please write any possible solutions your group discussed below:

- More parking limits impact on the neighborhood in terms of street parking but increases impact on the land & may increase traffic in the area.
- Limited parking - may still lead to street parking & could have no parking signs posted.
- Complete Chamberland trail route to create a second access point for hikers.

FISHERS CANYON

Open Space Master Plan

ACCESS AND PARKING TRADE OFF PRIORITY MAP

MORE PARKING

More parking means more people can enjoy the open space that the public paid for.

More parking helps to meet needs of various recreational uses.

Example:
Please limit parking, a larger parking area would detract from the natural and undeveloped quality of this landscape.

More parking means more use/impact on the area.

Example:
I'm neutral, but would slightly prefer more parking spaces so I can use the site.

A sufficient amount of parking is necessary so people don't try to park in the neighborhood.

Think parking a concern with more or less. Less encourages downtown parking. More encourages more use and traffic.

SMALL CONCERN

Depends upon trail scenario. But Less Parking.

BIG CONCERN

Limits access to community & lack of use of the space as intended.

Example:
Please provide enough parking! I don't want people parking on my street. Having less parking is a big concern to me!

LESS PARKING

FISHERS CANYON

DISCUSSION & POSSIBLE SOLUTIONS

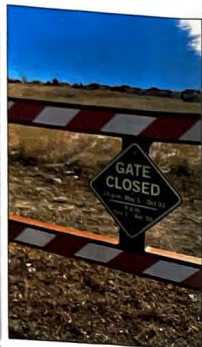

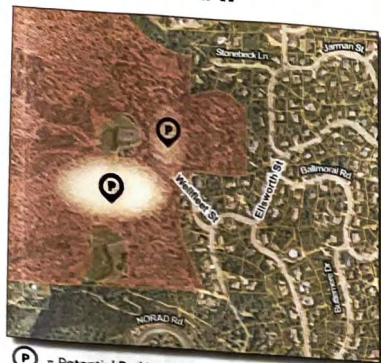

How might we balance providing access to Fishers Canyon Open Space with concerns of overcrowding? Is more or less parking a small or big concern from your group's perspective? Please write any possible solutions your group discussed below:

We want enough parking in the lot to accommodate users + avoid parking on street
 parking in the lot will not stop people from using the open space. Once they drive there they will park on the street.
 We are concerned about parking on street.
 We like adaptive management strategies for parking. Have a large medium concern
 in the master plan to add parking in places. Maybe start with 50
 parking spots. A map of 200 plus rooms.
 A light blue with blue lines down to the lot and doesn't use other
 dirt areas of open space. Trailer spots on beach. Most added horse parking &
 it is rarely used.
 Horse should be standard. CS Park horse - open 5a, close 9pm with
 + 10pm summer.

MORE PARKING

Example:

Please limit parking, a larger parking area would detract from the natural and undeveloped quality of this landscape.

Example:

I'm neutral, but would slightly prefer more parking spaces so I can visit the site.

SMALL
CONCERNBIG
CONCERN

I think
My concern is more about
how developed the parking
area is. More amenities
like bathrooms, trash cans,
and picnic areas attract
messes and create work for
park staff.

The less
the better

The less parking the better
- Can handle more parking
if less developed/more primitive
- no restrooms
- no trash cans
- closed or night/no lights

Example:

Please provide enough parking! I don't want people parking on my street. Having less parking is a big concern to me!

Small Group Response Form

Trailhead Concept Alternatives

The two trailhead concepts are the same except for the amount of possible future parking expansion. Please capture your group's discussion on the trailhead concept below.

We particularly like these things about **the trailhead concepts**:

DISABILITY ACCESS ON BOTH BUT 2 HAS MORE!

WE LIKE THE FACT 2nd HELPS TO KEEP SOCIAL TRAIL DOWN BECAUSE 2nd OFFERS MORE TRAILS.

PROTECTING DRAINAGE AREA ^{FOR} LOW IMPACT.

What suggestions does your group have to improve **the trailhead concepts**?

WE THINK WE NEED LARGER PARKING FIRST NOT LATER. HORSE PARKING ISNT LISTED ARE THEY SUPPOSE TO TAKE UP SPOTS FOR CARS.

Based on the information provided in the presentation and maps, which trailhead concept parking range does your group support? (Circle Answer)

1. #1 Adaptive Parking Range: Initial 33 Spots (Possible Future Expansion up to 77 Spots)

2. #2 Adaptive Parking Range: Initial 61 Spots (Possible Future Expansion up to 110 Spots)

Reasons: DUE TO HAVING ENOUGH FIRST OFF! HORSE PARKING!

Small Group Response Form

Trailhead Concept Alternatives

The two trailhead concepts are the same except for the amount of possible future parking expansion. Please capture your group's discussion on the trailhead concept below.

We particularly like these things about **the trailhead concepts**:

Like the fact they are not close to entrances to open space.
Parking & TM deeper in park keeps cars off streets hopefully.

What suggestions does your group have to improve **the trailhead concepts**?

Based on the information provided in the presentation and maps, which trailhead concept parking range does your group support? (Circle Answer)

1. #1 Adaptive Parking Range: Initial 33 Spots (Possible Future Expansion up to 77 Spots)
2. #2 Adaptive Parking Range: Initial 61 Spots (Possible Future Expansion up to 110 Spots)

Reasons:

Rather spend the money & build all at once.

Small Group Response Form

Trailhead Concept Alternatives

The two trailhead concepts are the same except for the amount of possible future parking expansion. Please capture your group's discussion on the trailhead concept below.

We particularly like these things about the trailhead concepts:

~~Most favor~~
like accessible parking + potential
to expand
like gate daytime access
~~but~~

like Red Flag closures - how many per year?

What suggestions does your group have to improve the trailhead concepts?

Enforce speed limit on
neighborhood access roads
Permit parking on neighborhood
roads, and enforcement

Based on the information provided in the presentation and maps, which trailhead concept parking range does your group support? (Circle Answer)

1. #1 Adaptive Parking Range: Initial 33 Spots (Possible Future Expansion up to 77 Spots)
2. #2 Adaptive Parking Range: Initial 61 Spots (Possible Future Expansion up to 110 Spots)

Reasons: Most of our group favors A1 + #1 -
start smaller, support red flag day
closures.

Small Group Response Form

Trailhead Concept Alternatives

The two trailhead concepts are the same except for the amount of possible future parking expansion. Please capture your group's discussion on the trailhead concept below.

We particularly like these things about **the trailhead concepts**:

• Consideration of picnic area at TH and close bouldering access near accessibility + hiking trail

What suggestions does your group have to improve **the trailhead concepts**?

Addition of a pump track at trailhead near bouldering area.

Based on the information provided in the presentation and maps, which trailhead concept parking range does your group support? (Circle Answer)

1. #1 Adaptive Parking Range: Initial 33 Spots (Possible Future Expansion up to 77 Spots)
2. #2 Adaptive Parking Range: Initial 61 Spots (Possible Future Expansion up to 110 Spots)

Reasons:

Small Group Response Form

Trailhead Concept Alternatives

The two trailhead concepts are the same except for the amount of possible future parking expansion. Please capture your group's discussion on the trailhead concept below.

We particularly like these things about the trailhead concepts:

like that parking is between debris basins -
keep in disturbed areas,

What suggestions does your group have to improve the trailhead concepts?

increase parking when lots are often full on weekends - don't make it depend on neighbors approval

can the entrance road have parallel parking spots to increase parking w less building?

need restrooms or port-a-potties

Based on the information provided in the presentation and maps, which trailhead concept parking range does your group support? (Circle Answer)

includes
bike racks
in parking

1. #1 Adaptive Parking Range: Initial 33 Spots (Possible Future Expansion up to 77 Spots)

2. #2 Adaptive Parking Range: Initial 61 Spots (Possible Future Expansion up to 110 Spots)

Reasons:

we are 4-1 on #2

Small Group Response Form

Trailhead Concept Alternatives

The two trailhead concepts are the same except for the amount of possible future parking expansion. Please capture your group's discussion on the trailhead concept below.

We particularly like these things about **the trailhead concepts**:

- Parking area is away from neighborhood
- Access is closed on red flag days
- Access is closed overnight

What suggestions does your group have to improve **the trailhead concepts**?

- Restrooms should be available
 - ↳ Porta potties preferred over permanent structure

Based on the information provided in the presentation and maps, which trailhead concept parking range does your group support? (Circle Answer)

1. #1 Adaptive Parking Range: Initial 33 Spots (Possible Future Expansion up to 77 Spots)

2. #2 Adaptive Parking Range: Initial 61 Spots (Possible Future Expansion up to 110 Spots)

Reasons: — Financially better to build enough spots in one project

- Don't necessarily think option #2 will need to be expanded to 110 spots
- More room for horse trailer parking

Small Group Response Form

Trailhead Concept Alternatives

The two trailhead concepts are the same except for the amount of possible future parking expansion. Please capture your group's discussion on the trailhead concept below.

We particularly like these things about **the trailhead concepts**:

one way in & out to the parking strips

What suggestions does your group have to improve **the trailhead concepts**?

Not enough horse trailer parking - more horse trailer parking
Merge option 1 & 2
move trails away from houses
strictly enforced leash law & trash law
enforce quiet areas
don't make mountain ugly w/ too many trails

Based on the information provided in the presentation and maps, which trailhead concept parking range does your group support? (Circle Answer)

1. #1 Adaptive Parking Range: Initial 33 Spots (Possible Future Expansion up to 77 Spots)
2. #2 Adaptive Parking Range: Initial 61 Spots (Possible Future Expansion up to 110 Spots)

Reasons:

Small Group Response Form

Trailhead Concept Alternatives

The two trailhead concepts are the same except for the amount of possible future parking expansion. Please capture your group's discussion on the trailhead concept below.

We particularly like these things about the trailhead concepts:

THE OPTION TO ADAPT.

What suggestions does your group have to improve the trailhead concepts?

CONSIDER ^{MORE} TRAILER PARKING FOR HORSE TRAILERS

Based on the information provided in the presentation and maps, which trailhead concept parking range does your group support? (Circle Answer)

1. #1 Adaptive Parking Range: Initial 33 Spots (Possible Future Expansion up to 77 Spots)

2. #2 Adaptive Parking Range: Initial 61 Spots (Possible Future Expansion up to 110 Spots)

Reasons: WANT TO START WITH LOWEST AMOUNT
AND PHASE UP PARKING AS NEEDED
START WITH 33 THEN 69/77 THEN
110

Small Group Response Form

Trailhead Concept Alternatives

The two trailhead concepts are the same except for the amount of possible future parking expansion. Please capture your group's discussion on the trailhead concept below.

We particularly like these things about **the trailhead concepts**:

- Connectivity to other parks.
- Parking is inside the Open Space - not close to the entrance.

What suggestions does your group have to improve **the trailhead concepts**?

Visually appealing around the Basins.

Based on the information provided in the presentation and maps, which trailhead concept parking range does your group support? (Circle Answer)

1. #1 Adaptive Parking Range: Initial 33 Spots (Possible Future Expansion up to 77 Spots)
2. #2 Adaptive Parking Range: Initial 61 Spots (Possible Future Expansion up to 110 Spots)

Reasons:

Small Group Response Form

Trailhead Concept Alternatives

The two trailhead concepts are the same except for the amount of possible future parking expansion. Please capture your group's discussion on the trailhead concept below.

We particularly like these things about the trailhead concepts:

- Alt 1 limits footprint but allows for expansion
- It is good that they moved the main parking away from the neighborhood
- Good Alt accommodations

What suggestions does your group have to improve the trailhead concepts?

- Bathrooms have to be a part of this plan from the get-go. REAL bathrooms.

Based on the information provided in the presentation and maps, which trailhead concept parking range does your group support? (Circle Answer)

- ☒ 1. #1 Adaptive Parking Range: Initial 33 Spots (Possible Future Expansion up to 77 Spots)
2. #2 Adaptive Parking Range: Initial 61 Spots (Possible Future Expansion up to 110 Spots)

Reasons: Limits parking footprint
The table doesn't feel that there will be heavy enough use to warrant

Small Group Response Form

Trailhead Concept Alternatives

The two trailhead concepts are the same except for the amount of possible future parking expansion. Please capture your group's discussion on the trailhead concept below.

We particularly like these things about the trailhead concepts:

- #2 → more spaces to accommodate use
 - ↳ down side → more people → higher fire risk
 - ↳ avoids street parking
- #1 → might limit usage due to fewer spaces

What suggestions does your group have to improve the trailhead concepts?

- Good signage, especially to orient first-time users to the space

Based on the information provided in the presentation and maps, which trailhead concept parking range does your group support? (Circle Answer)

1. #1 Adaptive Parking Range: Initial 33 Spots (Possible Future Expansion up to 77 Spots)
2. #2 Adaptive Parking Range: Initial 61 Spots (Possible Future Expansion up to 110 Spots)

Reasons: Favored #2 5 to 1 votes

- For #2 → less likelihood of street parking
- For #1 → deter visitors by limiting parking

Small Group Response Form

Master Plan Alternatives

Using the maps provided, please capture the group's discussion on the two master plan alternatives.

We particularly like these things about **Alternative 1**:

LESS DENSITY, FEWER TRAILS, HABITAT NOT DAMAGED AS MUCH

Reasons: DRAINAGE NOT AFFECTED AS MUCH!

What suggestions does your group have to improve **Alternative 1**?

MORE PARKING!

We particularly like these things about emerging **Alternative 2**:

HELPS TO STOP SOCIAL TRAILS! HUGE! MORE DISABLED TRAILS! HELPS TRAIL WITH CROWDING

Reasons:

What suggestions does your group have to improve **Alternative 2**?

BRC PRIVATE PROPERTY - BUFFER TRAIL ^{FENCE} TO PROTECT FROM PROPERTY FROM SOCIAL TRAILS.

Based on the information provided in the presentation and maps, which trail master plan alternative(s) does your group support? (Circle Answer)

1. Alternative 1
2. Alternative 2 ✓
3. Both

Reasons: JUST A BETTER CHOICE!

Small Group Response Form

Master Plan Alternatives

Using the maps provided, please capture the group's discussion on the two master plan alternatives.

We particularly like these things about **Alternative 1**: - lower cost, same resources

~~Most like Alt #2~~

for other open spaces,

more practical

better protection of ecology

Reasons:

What suggestions does your group have to improve **Alternative 1**?

We particularly like these things about emerging **Alternative 2**:

Access to rock climbing & State Park
Disperses users
Connect to MacNeil Trail
Separation of hikers from bikers

Reasons:

Concerned about impact on ecology
Opportunity for loops, single direction
trails
Better to include trails in the plan even if

What suggestions does your group have to improve **Alternative 2**?

they might not be built for 20-30 years
(or ever)

Based on the information provided in the presentation and maps, which trail master plan alternative(s) does your group support? (Circle Answer)

1. Alternative 1
2. Alternative 2
3. Both

Reasons:

Small Group Response Form

Master Plan Alternatives

Using the maps provided, please capture the group's discussion on the two master plan alternatives.

We particularly like these things about **Alternative 1**:

Reasons:

What suggestions does your group have to improve **Alternative 1**?

ADD MORE TRAILS, ESPECIALLY SINGLE DIRECTION BIKE TRAILS
AND MORE ~~HIKING~~ TRAILS (SINGLE USE)
ONLY

← OOPS
ALTERNATIVE
2
BOTH
ACTUALLY

We particularly like these things about emerging **Alternative 2**:

MORE TRAILS
MORE USAGE OF HIGHER ELEVATION

Reasons:

What suggestions does your group have to improve **Alternative 2**?

BIKES ALLOWED UP ^{TO} TOP.

OPERATIONAL SOLUTIONS INCLUDING COMMUNITY SUPPORT

ADD SINGLE USE TRAILS.

Based on the information provided in the presentation and maps, which trail master plan alternative(s) does your group support? (Circle Answer)

1. Alternative 1
2. Alternative 2
3. Both

Reasons:

Small Group Response Form

Master Plan Alternatives

Using the maps provided, please capture the group's discussion on the two master plan alternatives.

We particularly like these things about **Alternative 1**:

Establishes primary hiking trails
Could be a good "phase one" plan.

Some
Reasons: Trails very close to BRC open space

What suggestions does your group have to improve **Alternative 1**?

Potential areas for pump tracks

We particularly like these things about emerging **Alternative 2**:

Connection to CMSP.

Phase 1 having CMSP connection

Reasons:

What suggestions does your group have to improve **Alternative 2**?

Based on the information provided in the presentation and maps, which trail master plan alternative(s) does your group support? (Circle Answer)

1. Alternative 1 (Phase 1)
2. Alternative 2 (Phase 2)
3. Both 2

Reasons:

Small Group Response Form

Master Plan Alternatives

Using the maps provided, please capture the group's discussion on the two master plan alternatives.

We particularly like these things about **Alternative 1**:

Parking away from entrance. Less congestion on Irvington Ct.
Less potential noise, fewer trails, less impact to wildlife
North parking alternative

Reasons:

fewer trails

What suggestions does your group have to improve **Alternative 1**?

- add access to Cheyenne Nat State park trail
- mitigate hiking on basin dams + risk to children hiking
- don't want ugly fence around basins
- strictly enforced leave laws
- trash cans + maintenance
- recurrent fire mitigation needed scrub oak is getting tall again
- Ada access behind Irvington court may not be feasible with steep ravine [^] behind basins
- only one horse trailer parking - need more
- No motorized vehicles on trails
- hiking only trail.

We particularly like these things about emerging **Alternative 2**:

- more options, more trails
- steep trail
- access to Cheyenne Mtn park
- easy access dog walking trail + picnic tables
- parking to North

Reasons:

- ability to bypass housing area to go to Cheyenne Mtn pk.

⇒ when adding trails, keep natural look of mountain
add more horse trailer parking

- prevent motorized vehicles on trails
- concern about impact to wild life

What suggestions does your group have to improve **Alternative 2**?

- concern about people using debris basin road down to Irvington Court driveway
- concern about hiking in debris basin dams + risk - mitigate this risk
- move trails away from houses
- ~~access to city~~
- No out-houses identified on either plan (or toilets)
- trash cans + maintenance
- strictly enforced leash law
- ⇒ enforce quiet area to respect nature

Based on the information provided in the presentation and maps, which trail master plan alternative(s) does your group support? (Circle Answer)

1. Alternative 1 - 3 people voted for alternative 1
2. Alternative 2 - 2 people voted for alternative
3. Both

Reasons:

⇒ all people agreed to merging the trails for option 1 & option 2
keep high trails to top of mountain
remove trails right by houses

Some ADA trails won't be feasible due to terrain

Small Group Response Form

Master Plan Alternatives

Using the maps provided, please capture the group's discussion on the two master plan alternatives.

We particularly like these things about Alternative 1:

prefer 2
! 75% start = #2.

Reasons: fewer trails on #1, prefer #2

What suggestions does your group have to improve Alternative 1?

short switchbacks get cut - extend trail switchbacks
out further to reduce # of switchbacks
make it more like alt #1,
very minimalist.

Can put trails from alt #2 in a build than later

Increased parking should not depend on

neighbors' approval. When parking is often

full on weekends, parking should be increased

locate Fishers Cabin on the maps

We particularly like these things about emerging Alternative 2:

like connection to top & to CMSP
like more parking
extended accessible trail
larger loops in lower part
Reasons:

more trails
like trail to top
more potential to separate hikers & bikers as
hikers go on high only trail
like accessible trail
What suggestions does your group have to improve Alternative 2?

don't make increased parking dependent on neighbor approval
make gate hours same as standard park hours
sunrise to sunset is too short
problems are left right, not a full 5pm in winter
short switchbacks get cut - extend trail out??

Based on the information provided in the presentation and maps, which trail master plan alternative(s) does your group support? (Circle Answer)

- 1. Alternative 1
- 2. Alternative 2 - we all prefer 2
- 3. Both

Reasons: better trails & better connections

We particularly like these things about emerging Alternative 2:

MAKE OPPORTUNITIES TO HAVE SINGLE USE.
CONNECTOR TRAILS & LOOP OPTIONS
OPTIONS FOR ROPED CLIMBING

MORE ACCESS REDUCES PARKING BURDEN IN ONE SPOT

Reasons:

What suggestions does your group have to improve Alternative 2?
DIRECTIONAL TRAILS (MTR)

Based on the information provided in the presentation and maps, which trail master plan alternative(s) does your group support? (Circle Answer)

- 1. Alternative 1
- 2. Alternative 2
- 3. Both

Reasons: THERE ARE MORE OPTIONS TO

MINIMIZE USER CONFLICT, DISTRIBUTE USE

& PARKING, AND ACCOMMODATE MULTIPLE RECREATION

TYPES

Small Group Response Form

Master Plan Alternatives

Using the maps provided, please capture the group's discussion on the two master plan alternatives.

We particularly like these things about Alternative 1:

- Low trails → more use
- Accessible paved trail → for those who need it
- Fewer high trails → protect wildlife
- Fewer resident complaints → due to reduced usage
- Less expensive - lower maintenance

What suggestions does your group have to improve Alternative 1?

- Add additional one-way MTB trail to protect hikers

We particularly like these things about emerging Alternative 2:

- Access to wilder areas of F.C.
- Large mileage → greater variety of trails
- Wildlife isn't too great considering the amount of mileage added

Reasons:

- Connectivity to other trails is great!
- Protected upper areas are limited to hikers
- Opportunity for one-way MTB trails
- Unique hiking experience ... great city views

What suggestions does your group have to improve Alternative 2?

- Convert one trail to one-way MTB to protect hikers
- COSMBA could assist with maintenance (over their rep. here)

- Grumpy old man comment " → there's already plenty of developed open space → just leave everything natural

Based on the information provided in the presentation and maps, which trail master plan alternative(s) does your group support? (Circle Answer)

1. Alternative 1
2. Alternative 2
3. Both

Reasons: Favored #2 5 to 1 votes

- For 2 → more trails & more access to wilderness / other trails
- For 1 → resident & environmental impact is lower

Small Group Response Form

Master Plan Alternatives

Using the maps provided, please capture the group's discussion on the two master plan alternatives.

We particularly like these things about **Alternative 1**:

~~multiple trail loop options~~
~~dispersed trail uses~~
less trails preserves more of area
neighborhood trail

Reasons:

What suggestions does your group have to improve **Alternative 1**?

include connector trail to top of mountain and
Cheyenne Mountain State Park
could take away lower yellow trail (more visible
soft service to neighbors)

Small Group Response Form

Master Plan Alternatives

Using the maps provided, please capture the group's discussion on the two master plan alternatives.

We particularly like these things about **Alternative 1:**

Slower progress to assess use & build what visitors using.

Reasons:

What suggestions does your group have to improve **Alternative 1?**

We particularly like these things about emerging Alternative 2:

- More trails
- Access to CHSP

Reasons:

What suggestions does your group have to improve Alternative 2?

- Smaller parking lot primarily for lower
- Potential gravel roads - to preserve funds for trail building
- Close the gates - when parking is full
- Sign below - showing if parking is available, so visitors can potentially go to another park.

Based on the information provided in the presentation and maps, which trail master plan alternative(s) does your group support? (Circle Answer)

1. Alternative 1
2. Alternative 2
3. Both

Reasons:

Small Group Response Form

Master Plan Alternatives

Using the maps provided, please capture the group's discussion on the two master plan alternatives.

We particularly like these things about **Alternative 1**:

- Respects the PRISTINE NATURE of the UPPER OPEN SPACE
- Some like the lower number of trails
- Less trails to build

Reasons: Limits DEVELOPMENT on this UNIQUE PROPERTY

What suggestions does your group have to improve **Alternative 1**?

- CONSIDER including the PURPLE TRAIL (OS TRAIL)
- CONSIDERING AN ALT 1.5 with the addition of a limited number of trails ADDED to the LOWER AREA

We particularly like these things about emerging **Alternative 2**:

- The inclusion of additional trail opportunities
- The additional trails provide additional jobs
- The seasonal rock climbing provides more recreational opportunities

Reasons:

SEE ABOVE

What suggestions does your group have to improve **Alternative 2**?

Based on the information provided in the presentation and maps, which trail master plan alternative(s) does your group support? (Circle Answer)

1. Alternative 1
- ☒ 2. Alternative 2
3. Both

Reasons:

ONE of our table believes that Alt 1 is the best use of this property

Comment Card

Fishers Canyon Open Space Preferred Trail and Trailhead Plan

I particularly like these things about **the trail and trailhead plan**:

the upper trail availability

What suggestions do you have to improve **the trail and trailhead plan**?

I would vote for fewer car parking spaces, but I would guess that the topic has already been dealt with.

Based on the information provided in the presentation and maps, **what is your level of support** for the trail and trailhead plan (Check one answer below)

- ☐ 1 – Strongly support
- ☐ 2 – Somewhat support
- ☒ 3 – Neutral
- ☐ 4 – Somewhat oppose
- ☐ 5 – Strongly oppose

Reasons:

I think we have enough parks and trails around Colo. Spgs. foothills, so I say keep this one kinda quiet & small

Comment Card

Fishers Canyon Open Space Preferred Trail and Trailhead Plan

I particularly like these things about **the trail and trailhead plan**:

- diverse trails, many miles that add fantastic opportunities for users. Great to have some trails pedestrian only.
- trailhead - I like the phased in approach - build more space if needed, but start smaller.
- Great that fire mitigation has already happened. Go CSFD!

What suggestions do you have to improve **the trail and trailhead plan**?

- Consider minimizing/preventing horse use. I worry about conflict b/w horses, m+b'ers and pedestrians. I also worry about the impact of horses on what's being called "fragile soils." Can you start with no horses and then phase them in if the traffic and trail health can accommodate them?

Based on the information provided in the presentation and maps, **what is your level of support** for the trail and trailhead plan (Check one answer below)

- ☒ 1 - Strongly support
- ☒ 2 - Somewhat support in between
- ☐ 3 - Neutral
- ☐ 4 - Somewhat oppose
- ☐ 5 - Strongly oppose

Reasons: It's amazing! Make sure to strongly consider + plan for evacuation (wildfire etc). Also - enforcement/monitoring by rangers etc - What's the plan?

Thanks for your good work!

Comment Card

Fishers Canyon Open Space Preferred Trail and Trailhead Plan

I particularly like these things about **the trail and trailhead plan**:

- I prefer smaller parking lot.
- I like plan 2 to have the more extensive trail system
- I look forward to seeing these trails link up to other trail systems & adding trailheads

What suggestions do you have to improve **the trail and trailhead plan**?

- I don't think it should be open to horses because they are able to use Cheyenne Mtn State Park. This is a much smaller trail system & can't accommodate this multi use
- Not in favor of picnic areas. Again that's avail. @ the state park nearby instead.

Based on the information provided in the presentation and maps, **what is your level of support** for the trail and trailhead plan (Check one answer below)

- ☐ 1 - Strongly support
- ☒ 2 - Somewhat support
- ☐ 3 - Neutral
- ☐ 4 - Somewhat oppose
- ☐ 5 - Strongly oppose

Reasons: - Trail system development looks to work with many different types of users.
- parking has been addressed
- want to see more about linking with other trail systems.

Lessen impact to neighborhood.

Comment Card

Fishers Canyon Open Space Preferred Trail and Trailhead Plan

I particularly like these things about the trail and trailhead plan:

NICE EASTERN VIEWS
HISTORIC AREA

What suggestions do you have to improve the trail and trailhead plan?

1. IF A FIRE STARTS IN THE PARKING AREAS OR HOMES HOW DO USERS ESCAPE THE CANYON?
2. ROCK FALL / MUD SLIDE ISSUES
3. SEEMS LIKE THERE WILL BE SIGNIFICANT STORMWATER / EROSION CONTROL ISSUES TO SOLVE

Based on the information provided in the presentation and maps, what is your level of support for the trail and trailhead plan (Check one answer below)

- ☐ 1 – Strongly support
- ☒ 2 – Somewhat support
- ☐ 3 – Neutral
- ☐ 4 – Somewhat oppose
- ☐ 5 – Strongly oppose

Reasons:

4. NEED CONNECTIVITY TO CHEYENNE MTH PARK & PIKE'S PEAK RING TRAIL

Comment Card

Fishers Canyon Open Space Preferred Trail and Trailhead Plan

I particularly like these things about **the trail and trailhead plan**:

- 67% of land is natural areas
- hiking to top of property
- adequate parking at start of process.

What suggestions do you have to improve **the trail and trailhead plan**?

- Seasonal use w/ raptor nesting?
- Are there any hiking only trails which send a major interest on this project?
- Are 4 ADA parking spots adequate?
- Gate closure during red flag warnings.
- Need access soon after MP approval.

Based on the information provided in the presentation and maps, **what is your level of support** for the trail and trailhead plan (Check one answer below)

- ☐ 1 - Strongly support
- ☒ 2 - Somewhat support
- ☐ 3 - Neutral
- ☐ 4 - Somewhat oppose
- ☐ 5 - Strongly oppose

Reasons: _____

Comment Card

Fishers Canyon Open Space Preferred Trail and Trailhead Plan

I particularly like these things about **the trail and trailhead plan**:

I can not comment because the slides
in the presentation were unreadable.

What suggestions do you have to improve **the trail and trailhead plan**?

① No horses

Based on the information provided in the presentation and maps, **what is your level of support** for the trail and trailhead plan (Check one answer below)

- ☐ 1 – Strongly support

Comment Card

Fishers Canyon Open Space Preferred Trail and Trailhead Plan

I particularly like these things about **the trail and trailhead plan**:

- ① more trails, more access to all parts of Open Space
- ② More parking - less impact in neighborhood street
- ③ Phased increase of parking

What suggestions do you have to improve **the trail and trailhead plan**?

Not sure how we can have downhill only MTB trails planned for Pikes Peak Quarry but not here. - JST handwriting

I talked to Brett

Based on the information provided in the presentation and maps, **what is your level of support** for the trail and trailhead plan (Check one answer below)

- ☒ 1 - Strongly support
- ☐ 2 - Somewhat support
- ☐ 3 - Neutral
- ☐ 4 - Somewhat oppose
- ☐ 5 - Strongly oppose

Reasons:

Good plan for multiple uses rec by the public in a phased approach - with a concern for neighbors
Good job!

Comment Card

Fishers Canyon Open Space Preferred Trail and Trailhead Plan

I particularly like these things about **the trail and trailhead plan**:

The larger footprint for parking makes more sense. Adjacent homeowners should not have to deal with on street parking.

What suggestions do you have to improve **the trail and trailhead plan**?

Dog access is great - if there is water in the reservoir, can they swim like at Stratton open space?

Based on the information provided in the presentation and maps, **what is your level of support** for the trail and trailhead plan (Check one answer below)

- ☒ 1 – Strongly support
- ☐ 2 – Somewhat support
- ☐ 3 – Neutral
- ☐ 4 – Somewhat oppose
- ☐ 5 – Strongly oppose

Reasons:

I live in Colorado for outside recreation opportunities. Having local access will be fantastic.

Comment Card

Fishers Canyon Open Space Preferred Trail and Trailhead Plan

I particularly like these things about **the trail and trailhead plan**:

The diversity of trails and user groups is just how we do things in the springs!

I'm particularly interested in the connectivity to the chamberlain trail, with the vision of full north to south connectivity

What suggestions do you have to improve **the trail and trailhead plan**?

I'd like to understand the mix of trail building efforts - specifically, how much will the city contract out for speed, and how much will we rely on groups like medicine wheel?

Based on the information provided in the presentation and maps, **what is your level of support** for the trail and trailhead plan (Check one answer below)

- ☒ 1 - Strongly support
- ☐ 2 - Somewhat support
- ☐ 3 - Neutral
- ☐ 4 - Somewhat oppose
- ☐ 5 - Strongly oppose

CAN'T WAIT!! (11)

Reasons:

Accessible parking enables everyone to access our city open spaces, and starting with a significant main lot as part of the initial effort ensures that we can meet capacity needs right out of the gate

Comment Card

Fishers Canyon Open Space Preferred Trail and Trailhead Plan

I particularly like these things about the trail and trailhead plan:

I like the tiered parking plan.
Appreciate climbing routes being considered.
Good access to trailhead locations.
Amazing opportunity for neighborhood access & connectivity w/ other parks.

What suggestions do you have to improve the trail and trailhead plan?

Consult local climbers to develop spur trails to desirable bouldering areas. Pikes Peak Climbers Alliance / Springs Climbing Center owners are great resources.

Based on the information provided in the presentation and maps, what is your level of support for the trail and trailhead plan (Check one answer below)

- ☒ 1 - Strongly support
☐ 2 - Somewhat support
☐ 3 - Neutral
☐ 4 - Somewhat oppose
☐ 5 - Strongly oppose

Reasons: Okay w/ no DH MTN bike trails (as ~~as~~ primarily a mtn biker myself). Logical to base design on ~~the~~ terrain & rock features.

Comment Card

— but does it matter?!?!?

Reasons:

Comment Card

Fishers Canyon Open Space Preferred Trail and Trailhead Plan

I particularly like these things about **the trail and trailhead plan**:

Nothing. I feel the park is too close to my house w/o regard to noise, smell, crime, and trash. Sorry. Cheyenne mtn. State Park is one exit away on IIS. Go there.

What suggestions do you have to improve **the trail and trailhead plan**?

Less is more.

Based on the information provided in the presentation and maps, **what is your level of support** for the trail and trailhead plan (Check one answer below)

- ☐ 1 – Strongly support
- ☐ 2 – Somewhat support
- ☐ 3 – Neutral
- ☐ 4 – Somewhat oppose
- ☒ 5 – Strongly oppose

Reasons: See above.

Comment Card

Fishers Canyon Open Space Preferred Trail and Trailhead Plan

I particularly like these things about the trail and trailhead plan:

The natural environment which will now be destroyed by the parking lots, access road, numerous trails — too much in the space where other parks have 1 trail. The park will no longer be peaceful. Streets that are used to seeing 10-15 vehicles will now see up to 100 or more.

What suggestions do you have to improve the trail and trailhead plan?

Eliminate 90%. Reduce what you are doing. Have one lower trail and 1 to 2 upper trails, and reduce parking. Add fire hydrant plans. Add natural-looking fences between park & houses. Trails are too close to houses. Scrub oak is growing back worse than before fire mitigation. Tall trees are gone & now mostly ugly scrub oak is left.

Based on the information provided in the presentation and maps, what is your level of support for the trail and trailhead plan (Check one answer below)

- ☐ 1 – Strongly support
- ☐ 2 – Somewhat support
- ☐ 3 – Neutral
- ☐ 4 – Somewhat oppose
- ☒ 5 – Strongly oppose

Reasons:

Too much in too little space. Too much parking invites too many people. There will be noise, vehicle traffic, horse poop (if horse trails), dog poop, and damage to natural area. Decrease in value of houses bordering the park. Home owners who spent \$950K - \$1M for a home in a peaceful environment will no longer be able to enjoy their home.

In the event of a fire, there won't be time to get cars out.

FISHERS CANYON

Open Space Master Plan ACCESS PREFERENCE

REFERENCE MAP

At the community meeting and from survey #2 responses, some members of the community suggest that access to Fishers Canyon Open Space be primarily from connector trails using existing parking and infrastructure at Cheyenne Mountain State Park (requiring a paid state park pass and users to hike-in before entering Fishers Canyon Open Space).

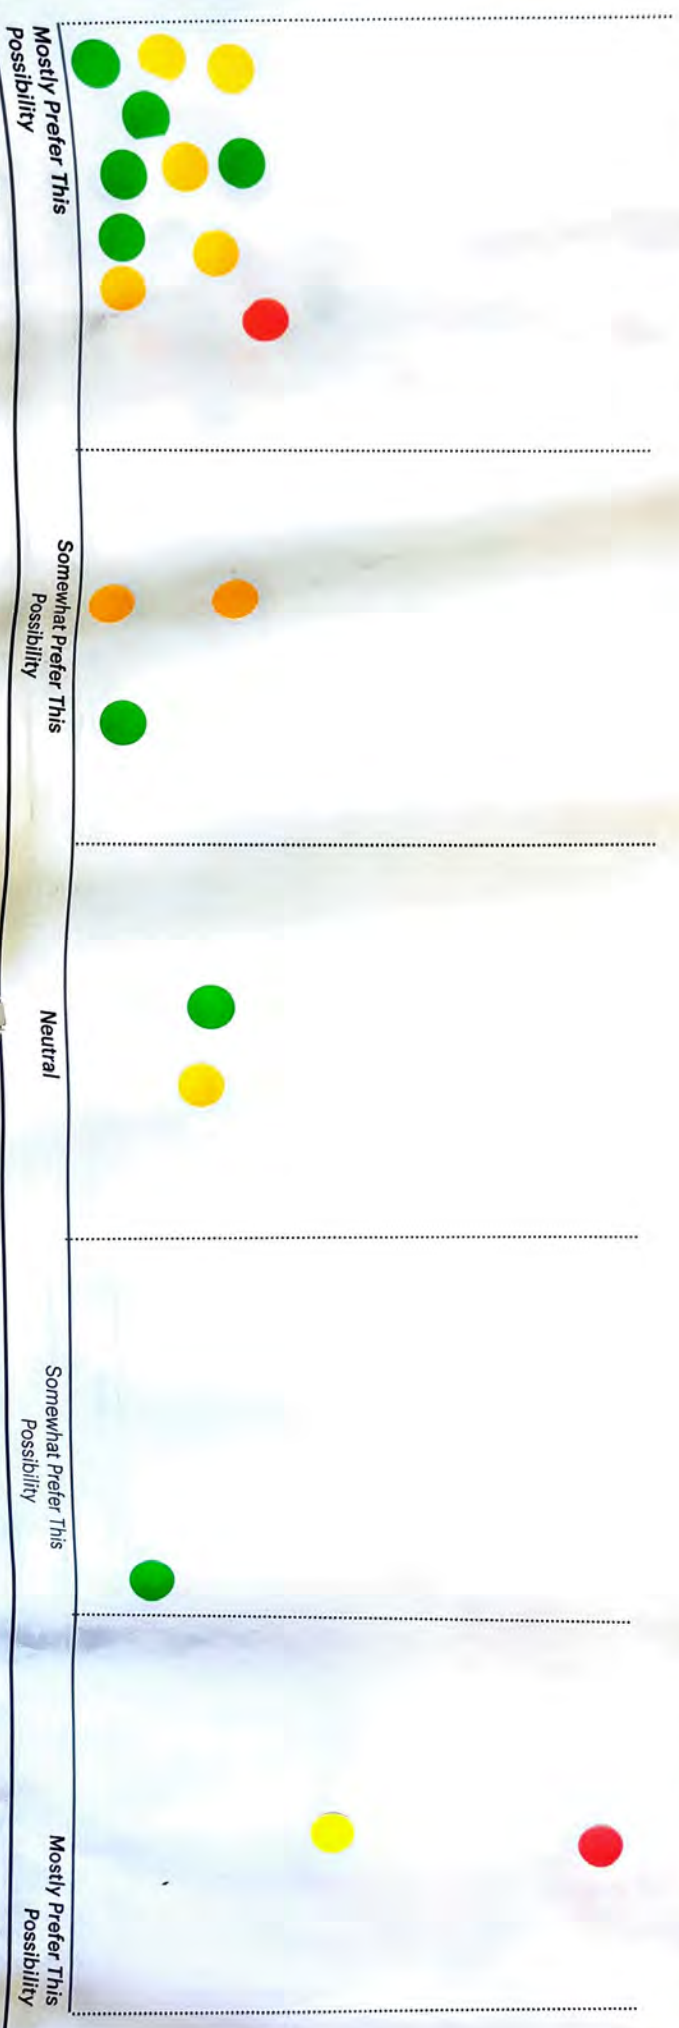

As a neighborhood resident, what is your preference for the way recreation users access Fishers Canyon Open Space? Place a dot on the scale below. If you have other access ideas, please write those on the paper survey.

Fishers Canyon Open Space Neighborhood Site Tour Feedback Worksheet

1. What are your core values for Fishers Canyon Open Space? Open space is important to me because it... (Select all that apply)

- ☒ Preserves natural areas for plants and wildlife.
- ☒ Preserves scenic views.
- ☒ Can be managed and maintained to reduce risk of wildfire.
- ☒ Provides passive (non-motorized) recreation access.
- Other: HIKING RECREATION

2. What types of trail experiences would you like to see in the Fishers Canyon Open Space Master Plan? (Check all that apply)

- ☐ Low-slope trail loops for daily exercise that can be accessed by people with mobility challenges.
- ☒ Loops and trails to walk on-leash dog-walking.
- ☐ Trails for mountain biking.
- ☐ Trails for horseback riding.
- ☒ Trails to scenic views.
- ☐ Trails to bouldering or rock-climbing.
- ☒ Trails to connect to regional trails and destinations (e.g., Chamberlain Trail, Cheyenne Mountain State Park Trails)
- ☐ Nature trails.
- Other: SINGLE USE TRAILS FOR HIKING (i.e. NO BIKING ON HIKING TRAILS)

3. What types of site amenities are the highest priority for you at Fishes Canyon Open Space? (Select all that apply)

- ☒ Trash Receptacles
- ☒ Dog waste receptacles
- ☐ Picnic Tables and benches
- ☐ Native plant revegetation and pollinator habitat (e.g., monarch butterfly)
- ☐ Parking
- ☐ Bike Racks
- Other: LIMITED PARKING ON-SITE (OPTION 1 PARKING LOT SIZE)

4. How often would you likely access Fishers Canyon Open Space? (Select one)

- ☐ Daily
- ☒ Once a week
- ☒ Once a month
- ☐ One to two times a year

4. How often would you likely access Fishers Canyon Open Space? (Select one)

- ☒ • Daily
- Once a week
- Once a month
- One to two times a year

Fishers Canyon Open Space Neighborhood Site Tour Feedback Worksheet

1. What are your core values for Fishers Canyon Open Space? Open space is important to me because it... (Select all that apply)

- Preserves natural areas for plants and wildlife.
- Preserves scenic views.
- Can be managed and maintained to reduce risk of wildfire.
- ☒ • Provides passive (non-motorized) recreation access.
- Other: _____

2. What types of trail experiences would you like to see in the Fishers Canyon Open Space Master Plan? (Check all that apply)

- ☒ • Low-slope trail loops for daily exercise that can be accessed by people with mobility challenges.
- ☒ • Loops and trails to walk on-leash dog-walking.
- ☒ • Trails for mountain biking.
- ☒ • Trails for horseback riding.
- ☒ • Trails to scenic views.
- ☒ • Trails to bouldering or rock-climbing.
- ☒ • Trails to connect to regional trails and destinations (e.g., Chamberlain Trail, Cheyenne Mountain State Park Trails)
- Nature trails.
- Other: _____

3. What types of site amenities are the highest priority for you at Fishes Canyon Open Space? (Select all that apply)

- Trash Receptacles
- ☒ • Dog waste receptacles
- Picnic Tables and benches
- ☒ • Native plant revegetation and pollinator habitat (e.g., monarch butterfly)
- Parking
- Bike Racks
- Other: _____

4. How often would you likely access Fishers Canyon Open Space? (Select one)

- Daily
- ☒ • Once a week
- Once a month
- One to two times a year

depends on trails and inter connectivity to other trail systems. More trails and access to other trails would increase my usage

- 30 minutes or less
- 30 minutes to an hour
- 1 to 2 hours
- 2 or more hours

6. How would you most likely access Fishers Canyon Open Space from the neighborhood? (Select one)

- Drive and park at trailhead
- Walk to trailhead
- Bike to trailhead
- Access Fishers Canyon from regional trail connection (e.g., state park, etc.)
- Other: _____

7. Are there any other suggestions you have for the planning team to consider as part of the Fishers Canyon Open Space Master and Management plan?

Thanks for keeping an open
mind & making it happen!
Always concerned about wildfire -
nice job on mitigation.
Parking will not please everyone.
Would like to see restrictions
on "on-street" parking -> limit
to residents -

Thank you for participating and providing feedback!

Thanks,

- ☐ Other: _____

7. Are there any other suggestions you have for the planning team to consider as part of the Fishers Canyon Open Space Master and Management plan?

I will not vote for parking site one but if it is voted as the parking site, we would like to see it moved a little farther north (there is a large boulder north, on the other side of that) as we are very near the forest and will see the cars parked, but if they are beyond this boulder and small ridge, we wouldn't see the parked cars. Thank you!

7. Are there any other suggestions you have for the planning team to consider as part of the Fishers Canyon Open Space Master and Management plan?

Gated + no parking on neighborhood streets

A lot of noxious weeds have taken
over behind the neighborhood behind
Irvington Ct. after the trees were taken
out. I hope this is addressed.

Signs for packing out trash + dog waste.

Thank you for participating and providing feedback!

5. How much time would you estimate you would spend during a visit to Fishers Canyon Open Space? (Select one)

- ☐ 30 minutes or less
 - ☐ 30 minutes to an hour
 - ☒ 1 to 2 hours
 - ☐ 2 or more hours
- > Depends of frequency*

6. How would you most likely access Fishers Canyon Open Space from the neighborhood? (Select one)

- ☒ Drive and park at trailhead
- ☒ Walk to trailhead
- ☐ Bike to trailhead
- ☐ Access Fishers Canyon from regional trail connection (e.g., state park, etc.)
- ☐ Other: _____

7. Are there any other suggestions you have for the planning team to consider as part of the Fishers Canyon Open Space Master and Management plan?

Without sufficient parking, people will park in the neighborhood, even if its by permit only so having enough parking is a must. I like the idea of a gate in the evening but don't think it will make a material difference. People will leave @ night as a general rule anyway. Trouble makers will cause trouble regardless of a gate. Lot 3 seems like a much better option b/c of space and distance from the homes. I would discourage horse trailers.

- I would love the opportunity to volunteer during construction of the trails, etc.

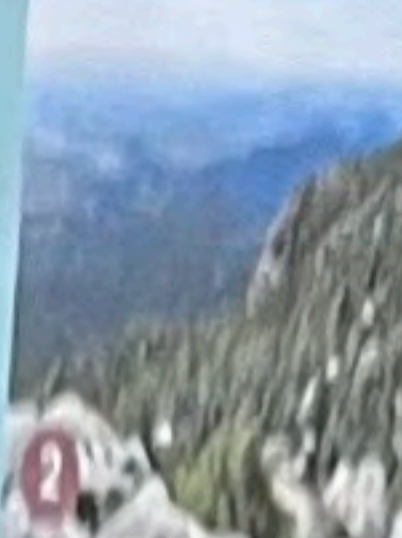

Thank you for participating and providing feedback!

MAKE YOUR OWN TRAIL MAP

Below is a map of an imaginary open space in Colorado Springs. An open space is a natural area that can range from 10 to over 1,000 acres. Only 10 percent of open space property can be enhanced with improvements like trailheads, picnic areas and trails. Open space provides natural areas for recreation and protecting plants and animals.

- Your job as trail designer is to create an open space trail that connects the neighborhood to the city.
- Your trail can not cross habitat that would disturb the animals. Look out for butterflies, owls, bears and other creatures! With that in mind, how can you still make your trail the most fun?
- What would you name your trail? How long is your trail?
