Employer

Water Resources Engineer

Job Title

Which Boards would you like to apply for?

Stormwater Advisory Committee: Submitted

Introduction

Briefly introduce yourself and state your interest in serving on a specific Board, Commission, or Committee

I have been a resident of Colorado Springs for 2 years and have been living in various parts of Colorado over the last 5 years. My wife and I bought our house in Colorado Springs to settle down in a vibrant community and grow our family here. I have been looking for ways to become more involved in the community I live in and provide valuable inputs based on my experiences. I have been a Water Resources Engineer for the past 5 years working primarily on stormwater and stream restoration projects. Driving through the city I do see old and failing stormwater infrastructure in need of replacement. I would be grateful to have to opportunity to serve on the stormwater advisory committee to identify both problems and potential solutions to Colorado Spring's stromwater infrastructure.

Relevant Experience and Community Involvement

Highlight any volunteer work, previous service on boards or committees, and community involvement that demonstrates your commitment to public service and the community.

I have adopted a half mile reach of Cottonwood Creek just upstream of Cottonwood Creek Park as part of Colorado Springs Adopt-a-Waterway program. Some of my local friends and I have completed 3 creek clean-ups to date and are continuing our work to maintain the natural beauty and improve the water quality of our local waterways.

Supplemental Materials (if applicable)

EXPERIENCE

Kiewit

Water Resources Engineer

40-50 hrs/wk, December 2023-Present

- Perform tasks related to fish passage and stream restoration design (see Drainage Engineer, Kiewit).
 - Provide onsite support for construction of stream channels and placement of stream complexity features such as Large Woody Material (LWM) and meander bars.
 - Oversee a team of designers in progressing project tasks and meeting project milestone deliverables.
 - Formal comment and review of stream and drainage plans, hydraulic reports, and 2D hydraulic models.
 - Track budgets of man-hours spent vs design progression for hydraulic design tasks and deliverables.
 - Manage deliverables and develop schedules of hydraulic report deliverables for subconsultants.
 - Design scour countermeasures for bridge and culvert structures.
-

Plummer

Stormwater Engineer in Training III

40 hrs/wk, July 2023-December 2023

- Develop stormwater management plans (SWMPs) to reduce water quality impacts during construction.
 - Create water quality master plans (WQMPs) for long term planning of water quality needs of projects.
 - Perform hydrologic and hydraulic analysis of local roads to mitigate flooding of residential areas.
-

Kiewit

Drainage Engineer

40-50 hrs/wk, July 2020-June 2023

- Collect hydraulic data during site visits and compile field report memorandums summarizing findings.
 - Coordinate with various design disciplines to develop natural stream grading models, including step-pool and pool-riffle geomorphologies, while incorporating structural, roadway, and drainage design components.
 - Conduct hydraulic analysis through the use of 2D hydraulic models to predict flow velocities, scour depths, large woody material stability, streambed material stability, and water surface elevations at various storm events for natural stream channel designs.
 - Perform engineering computations related to site hydrology and hydraulics, and stormwater BMPs.
 - Present design decisions and results to clients as part of regularly occurring design task force meetings.
 - Manage project tasks and deliverables for summer interns.
-

EDUCATION

University of Illinois at Urbana-Champaign

August 2016-May 2020

Bachelor of Science, Civil Engineering

GPA: 3.52/4.00

SKILLS

- **Licensed Professional Engineer (PE)** in the States of Colorado and Washington
- Prepare engineering designs, technical reports, construction plans, specifications, and calculations.
- **Relevant Software:** Autodesk products, ArcGIS products, Bentley products, SMS (SRH-2D), Microsoft Office products, Google Earth Pro, Bluebeam Revu, HY-8, and HEC-RAS.
- Corridor grading in Autodesk and Bentley products of stream channels, ditches, and roadways.
- Manage support on multiple projects through local and other design offices.
- Regarded as highly detail-oriented and performs thorough self-check of work.

Hey Neighbor (formerly
CONO)

Employer

Executive Director

Job Title

Which Boards would you like to apply for?

Stormwater Advisory Committee: Submitted

Introduction

Briefly introduce yourself and state your interest in serving on a specific Board, Commission, or Committee

I am the executive director for Hey Neighbor (formerly CONO) and am passionate about safe and connected neighborhoods and giving neighbors a voice. I want everyone to love where they live. I previously ran my own permaculture landscape design business, and am passionate about landscapes that are beneficial both for both people and the planet. Having studied areas similar to our climate and yearly rainfall, such as Tucson, Arizona and Albuquerque, New Mexico, I am particularly interested in green infrastructure as a means to effectively mitigate stormwater management issues. Over the past 4 years, I have been collecting videos of problem areas where large puddles accumulate, and this board would make me less of a weirdo for collecting them!

Relevant Experience and Community Involvement

Highlight any volunteer work, previous service on boards or committees, and community involvement that demonstrates your commitment to public service and the community.

I previously served on the board for CONO. I currently serve on the board for the Ecosa Institute, a design school rooted in sustainable design. I am the executive director for Hey Neighbor, a non-profit focused on community-building and civic education. I work closely with several city departments for my job, as well as a citizen who has been concerned about stormwater management in my own neighborhood, Stratton Meadows.

KELLY BULL

SUMMARY

I am a dreamer and optimistic visionary, inspired by the future and what could be. As a visual and strategic thinker, I see in detail what the future might hold, inspiring, energizing, and bringing hope to those around me. I thrive in an environment that requires brainstorming, continual learning, and making connections. Problem-solving excites me, and my high level of adaptability keeps me flexible and productive when pulled in many directions at once. With a deep passion for community building, I leverage my leadership, relationship-building, and strategic planning skills to empower neighborhoods and create vibrant, engaged communities.

WORK EXPERIENCE

Executive Director, Hey Neighbor (formerly CONO), **May 2023 – Present**
Colorado Springs, CO

- Lead Hey Neighbor's strategic direction, overseeing programming, partnerships, and financial sustainability.
- Strengthened external relationships with the City, nonprofits, and community organizations to advance Hey Neighbor's mission.
- Increased impact, participation, and oversaw the execution of Hey Neighbor's programs, including Neighborhood University, Neighborhood Gatherings, and Neighborhood Networks.
- Managed operational functions, including budgeting, contract fulfillment, and grant administration.
- Secured funding through grants, sponsorships, and donor engagement to expand organizational capacity.

Kelly Bull Permaculture Design, Colorado Springs, CO **Sept 2021 – Present**

- Designed and implemented sustainable landscapes, fostering strong relationships with local clients and organizations.
- Provided coaching and education on environmental stewardship and community resilience.

Director of Sustainability & Environmental Science Teacher **Aug 2018 – Jun 2021**
The Orme School, Mayer AZ

- Led sustainability initiatives, integrating environmental education into curriculum and operations.
- Managed school-wide projects that engaged students and the broader community in sustainability efforts.

Math Teacher, Colegio Bolivar, Cali, Colombia **Jun 2016 – Jun 2018**

- Taught and mentored students, promoting critical thinking and problem-solving.

Science Teacher & Garden Coordinator **Aug 2013 – Jun 2016**
Sandia Preparatory School, Albuquerque, NM

- Developed and implemented hands-on environmental education programs and coordinated a student-run garden.

EDUCATION

- B.S. in Horticulture, University of Georgia, Athens, GA
- Advanced Ecological & Digital Design, United Designers
- Eco-Design Certification, Ecosa Institute, Prescott, AZ
- Permaculture Design Certification, Colorado Rocky Mountain Permaculture Institute

CERTIFICATIONS & LEADERSHIP

- 2024 ENT Community Advocate of the Year
- 2023 Mayor's Young Leader Finalist
- PINA 2023 Design Contest Grand Prize Winner
- Leadership Pikes Peak, Class of 2023
- Hey Neighbor Neighborhood University Graduate, Fall 2023
- Certified Google Educator
- K-12 Teaching License
- Certified Permaculture Designer
- Certified Professional Horticulturist
