sophomore at Colorado Mesa University. For the past seven years, I've been proud to call the Woodstone neighborhood home. I'm passionate about building strong, connected communities and would be honored to serve on Woodstone SMID as a way to give back,

Relevant Experience and Community Involvement

contribute meaningfully, and help shape the future of the place I love.

Highlight any volunteer work, previous service on boards or committees, and community involvement that demonstrates your commitment to public service and the community.

For 19 years, I proudly served as a military spouse, a role that deeply shaped my commitment to public service and community engagement. During that time, I embraced every opportunity to support not only my family but also the broader communities we were part of. I was consistently active in my children's schools—volunteering in classrooms, serving as a room parent, and contributing to school events and activities. I also volunteered as an assistant coach for my son's basketball team, where I helped foster teamwork, discipline, and confidence in young athletes. Whether it was cheering from the sidelines at games or organizing classroom events, I've always believed in showing up, giving back, and helping build strong, supportive environments. These experiences reflect my dedication to serving others and my passion for strengthening the communities I'm a part of.

Supplemental Materials (if applicable)

Include any additional materials that may strengthen your application, such as a resume or examples of your work in the community.
